

Sold To Alpha Isaac

Chapter 9A:

“She looks weak.. I don’t think she will stand a chance to win..”

Ollie smiled and patted his sister dottingly.. “No.. before those she wolf Alpha's were so domineering, so our alpha fought with them to make them submissive.. But now I don’t think we require a fight.. We bought her for money.. She is our Alpha’s property..”

“You should take good care of her.. Ok?”

Oliva smiled and nodded her head and looked at me.. I opened my eyes slowly but didn’t interrupt them

“Miss.Sangster.. How are you feeling?” she asked with a pleasant smile on her face.. With one glance I can say she is kind hearted like Misty.. but the new place and new people even without Misty by my side made me uncomfortable..

I looked at them in fear as I did not know their real nature..

"Miss.Sangster.. Don’t be afraid.. We won't harm you.. I am also seventeen like you and Ollie is my brother.."

"I am Clarke.. Blackash pack’s Doctor.."

Those two looked close standing side by side.. While Mr.Ollie stood against the wall without saying anything.

Clarke helped me to sit while I was observing my surroundings...

"I.. I am not a breeder..." my voice was weak and trembling as tears rolled down..

Both girls looked at each other's faces and then at me..

"I am sold as a maid.." I said between my cries..

Ollie was surprised as well but when he was about to say something we heard footsteps outside the ward.

"Alpha Issac is coming.." someone said from outside and everyone became alert..

I didn't raise my head. Footsteps stopped in front of my bed and my heart started to race.. I don't know why but I felt tense to see the rumored ruthless Alpha... His aura was so

strong that it made me raise my head a little out of curiosity.. but I lowered immediately in fear..

“Raise your head, Lady..” Alpha Issac commanded me but I am frightened. I moved away a little and tried to raise my head..

His shoes..

His slim pants..

His double wolf buckle Nylon belt was so fierce that it reminded me of my stepmother.. I immediately closed my eyes and lowered my head..

“How is she?” His tone was so authoritative which made people fear for him.

“Weak.... There is also wolfbane mixed in her blood.. She needs treatment both mentally and physically..Alpha” Clarke spoke with utmost respect..

Her tone told me that Alpha Issac is respected by his people..

Alpha Issac then turned to my side and forced me to raise my head by catching my chin.. Mr.Ollie tried to stop him as he knew Mac also forced me and I am psychologically affected by his behavior..

Suddenly I felt wind moving heavily and Misty appeared beside him.. My eyes sparkled to see her.. I couldn't help but give her a small smile and nod saying I am relieved to see her in my mind..

And then when I looked at Alpha Issac's face, especially eyes... for a moment I was lost.... I don't know why my heart is beating fast.. I can smell his mescaline scent... He is taller than me so when he bent down to my height to look into my eyes, I felt locked in his eyes like a prey.

Misty teased me standing beside him.. “Don't you think he is more handsome than Mr.Ollie? He is taller than Beta Ollie and aggressive.. I think he will be more hotter in bed”

Mr.Ollie who was beside Alpha Issac felt worried that Alpha Issac might hurt me but didn't say anything.

His eyes were looking at me but I saw some confusion in his eyes.. as if he was searching for someone in me..

"I agree he is handsome but I will not have anything to do with him if he is not my Mate.. Please don't confuse me.. Do you know I am sold as Breeder but not as a maid.." I talked to her in my mind without diverting my eyes from Alpha..

"Common Alayana.. Alpha Issac is so hot.. Why not give him an heir? You can experience something new.. this is easier than being his maid.."

I turned my eyes and looked at her angrily for a second without replying..

"Alpha.. I think she is abused in her maternal house.. She had bruises all over her body.." Clarke interrupted our movement as his cold hand moved to touch bruises on my hand.. I think she also wants to save me from his rough handling..

I covered myself immediately and moved back again..

"Miss.Sangster.. Only if you show us, I will be able to trade you.." Clarke said when I didn't allow her to touch me..

She showed me a blood stain on her hand and said.. " You are bleeding on your back Miss.Sangster.. Please let me see.." her voice was so calm and she didn't threaten me.. She waited for my response patiently.. Because it was on my back

I looked at the new Alpha with her heart thumping violently.. I don't want to remove my dress in front of strangers..

She understood my inconvenience but she couldn't order her Alpha to go out..

"Turn around" his magnetic and intimidating words made me turn immediately with fear... I don't want to get beaten again..

I felt better to see Ollie turning around when Clarke raised my dress up..

"Who did this?" He scowled with anger evident in his voice..

"OMG!!" Oliva came to my side immediately.. She helped Clarke with medicine to clean my wounds..

"That's ok.. I don't need them.." I said slowly to Clarke as I don't want to be embarrassed in front of them..
