

ONE-CLICK RECOVERY SINCE I WAS A SPECIAL SOLDIER

Chapter 6: Skill level division

The three grids of system rewards have been used up.

now has two new grids.

just got supplemented!

Qin Yuan looked at the two grids and couldn't help smiling brightly!

These two grids!

is hard to come by!

"Well, you must make good use of it!"

Qin Yuan began to think!

How to use the two grids!

"Poker killing skill is a special killing skill that is hard to defend against! Now that the military comes, there is still some time, it is better to raise this skill to the limit first!"

A grid, but not just the same item can be recycled!

Just do it!

Qin Yuan immediately searched the room.

Soon, in the drawer of the living room, Qin Yuan found 10 brand new playing cards!

Looking at 10 pairs of poker, Qin Yuan couldn't help but smile!

"Murder skills, gambling skills, I want them all!"

With a heart move, Qin Yuan wanted to return 10 pairs of poker directly to the system space with one click!

Among them, 4 sets of cards occupy the third grid where the cards were originally stored!

The number in the lower left corner of the third grid has changed to 5.

means that each grid can store up to 5 identical items.

and the remaining 5 pairs of cards occupy the fourth grid!

The number in the lower right corner becomes 5 directly!

"Ding Dong~ It is detected that the host has only 1 grid left, and the system has automatically taken out the 10th deck of poker to avoid occupying the 5th grid! The system reminds me that the grid is hard to come by, please make good use of the grid!"

The crisp system prompt rang suddenly.

Qin Yuan couldn't help being taken aback.

He took a look.

There were 10 pokers on the table, but now there is only one.

The remaining 9 pairs are collected into two system grids with one click on average.

"This system is quite humane!"

Qin Yuan raised his eyebrows and smiled brightly.

I didn't expect this system to be really good enough!

"Ding Dong~ Please choose!"

disappears with the system prompt!

crisp system prompt!

is constantly ringing!

Three familiar choices emerged before my eyes.

"1, get world-class shuffling skills!"

"2, get perfect poker killing skills!"

"3, get world-class poker gambling skills!"

Qin Yuan saw at a glance that the second option, poker killing skills, became perfect!

"World-class poker killing skills are so powerful! I wonder how powerful this perfect poker killing skill is?"

Every time you deposit an item, you can get a choice!

And now Qin Yuan has recovered 9 decks of playing cards!

In other words, Qin Yuan now has 9 choices!

"I choose 2!"

without hesitation!

Qin Yuan made his choice directly.

For poker killing skills, such a powerful technique, Qin Yuan is bound to win.

"Ding Dong~ Congratulations to the host for your successful selection! A perfect poker killer skill!"

"Perfect poker killer skills: can make the host kill any target within a radius of 20 meters!"

"Fuck... the scope has really grown!"

Qin Yuan looked at the system description, and he was overjoyed!

is the so-called one inch long and one inch strong!

Qin Yuan's poker killing technique directly doubled the scope!

This implies.

usually go out.

Qin Yuan doesn't even need to bring a gun.

Within a radius of 20 meters, he is completely his world!

"20 meters, this is just the beginning! Keep choosing!"

Qin Yuan glanced at the system interface. He now has 8 choices.

"I choose 2!"

Qin Yuan made a choice again.

He wants to take poker's killing skills to the limit of the universe!

"Ding Dong~ Congratulations to the host for the successful choice! Get the Universe level poker killing skills!"

"Universal level poker killing skills: it can make the host kill any target within a radius of 30 meters!"

The crisp system reminder sounds!

Qin Yuan was shocked!

The eyes are full of ecstasy.

"Sure enough, this area has become bigger again!"

"With a radius of 30 meters, my playing cards still have absolute killing power! This is already very incredible!"

Qin Yuan was shocked at this terrifying distance.

after all.

For the average person!

Even if you throw some heavy objects, I'm afraid you can't fly less than 30 meters!

Sometimes even if it can get a throwing distance of 30 meters, the killing power may have long since disappeared, and it can no longer cause harm to the human body.

But now...

"But now... my playing cards can kill people at a distance of 30 meters!"

"In the perilous world of special forces, I have this unique skill, and I have a self-protection power, right?"

Qin Yuan let out a sigh of relief, feeling relaxed and uncomfortable.

When I looked at the three corpses of Brother Kun Huangmao again, I didn't feel much fear anymore!

"If I am now facing the three of them, it will only be easier to kill them in seconds."

Qin Yuan couldn't help sighing.

This is absolute self-confidence brought by powerful strength.

"Continue to choose!"

then.

Qin Yuan chose the second option twice again!

The crisp system prompts sounded one after another!

"Ding Dong~ Congratulations to the host for your successful selection! Achieved a perfect poker killing skill!"

"Complete level poker killing skills: It can make the host kill any target within a radius of 40 meters!"

"Ding Dong~ Congratulations to the host for your successful selection! Obtained universe-level poker killing skills!"

"Universal poker killing technique: It can make the host kill any target within a radius of 50 meters!"

Two system prompts sounded!

Qin Yuan's poker killing skills were directly elevated to the cosmic limit of the universe!

"World, perfect, universe, perfection, universe! It turns out that this is the level of skills and items that the system divides! Not bad, not bad!"

Qin Yuan also knows the system's classification of item levels!

"50 meters range! You can kill everything! It seems that when you go out in the future, you have to carry a deck of cards with you!"

Qin Yuan smiled, indescribably excited and excited.

Go out in the future!

only need a pair of poker, you can protect yourself!

"Well, next, choose poker gambling skills!"

As a film and television enthusiast!

Qin Yuan has long yearned for some expressive gambling skills in movies!

Although Qin Yuan doesn't like gambling, UU reading www.uukanshu.com does not prevent him from having a fanatical hobby of gambling skills!

"I wonder if the gambling skills of this system can make me a **** of gambling?"

A smile overflowed from the corner of Qin Yuan's mouth.

"I choose 3!"

then!

Qin Yuan directly made 5 choices!

Then.

world class, perfect class, universe class, perfect class, universe class!

Qin Yuan's poker gambling skills have been directly elevated to the limit of the universe!

Qin Yuan looked at the system prompt!

can't help but smile!

"Universal poker gambling skills: allow the host to directly obtain world-class, superb poker gambling skills that crush everything! (not limited to various gameplay!

"Haha! It's so cool! The extraordinary poker gambling skill that crushes everything? That is to say...I will win with anyone in the future?"

Feel the various methods of poker gambling skills that you can get out of thin air in your mind!

Qin Yuan finally laughed out loud!
at the same time.
