

## Special Troop 211

Chapter 211: Traditional Chinese Medicine Is Not Powerless! (Two Chapters Combined)

“This...

The Japanese doctor was a little embarrassed by Elder Hua's sudden remarks. Not to mention alleviating the symptoms, they had never encountered this particular condition before. If it weren't for the explanation provided by the American medical expert, they wouldn't have been able to identify the illness at all.

“You're right. Our country, including myself, has no way to treat this illness, and we are also unable to alleviate the duration of the patient's attacks!”

The American medical expert answered Elder Hua's question with certainty. Although he didn't want to admit it, it was the truth!

“Since you said that Chinese medicine can alleviate the symptoms, then I would like to see how Chinese medicine does it!”

The American medical experts were also very curious about Elder Hua's words. Even Western medicine could not relieve the patient's pain and the duration of the attack. How could Chinese medicine do it?

“That's right! How can you Chinese doctors prove that you can alleviate the duration of the patient's relapse?”

For a moment, the Japanese doctors immediately agreed. They did not believe that Chinese medicine could alleviate the patient's relapse!

Just as everyone was still arguing, the patient on the hospital bed started trembling. His entire face was extremely pale without a trace of blood. In a short while, he became ferocious. He looked very terrifying, just like a vampire in a movie!

Seeing this!

Elder Hua didn't have time to argue with the Japanese doctors. He immediately took out a stack of silver needles from his pocket and ran over. He picked up three silver needles and directly inserted them into the Baihui, Shangxing, and Shenting acupuncture points on the patient's head!

“Stabilize him!”

Elder Hua said to the Chinese medicine representatives beside him as he performed acupuncture. He did not expect the patient to act up at this time.

He originally wanted to see if the doctors in the world had better treatment for this kind of disease.

That was why they chose this patient. However, it was obvious that these Western doctors could not treat this patient!

“Yes, sir!”

The Chinese medicine doctors at the side immediately ran over to help Elder Hua. Soon, the Chinese medicine representatives quickly took out the patient's black windbreaker and upper body clothes and immediately stabilized the patient.

Elder Hua took out a few silver needles from the stack of silver needles and started inserting them into the patient's body. In a short while, the patient's entire body was filled with silver needles!

Meanwhile, the doctors from various countries were quietly watching this scene from the side! They did not expect the patient to act up at this time, and now they could see how Chinese medicine could deal with this illness.

The entire venue fell silent. For a moment, they were nervous. They were all stunned by what was happening on the stage.

This was the first time they had heard of this illness, and they did not expect it to be so terrifying!

“This illness is too terrifying!” “Qin Yuan, do you think Elder Hua can relieve the patient?”

Elder Liao exclaimed in surprise.

“Yes!”

Qin Yuan answered with certainty.

Looking at Elder Hua's acupuncture technique on the stage, Qin Yuan secretly praised him. Although Elder Hua's acupuncture technique was not as powerful as his Taiyi Divine acupuncture technique, it was obvious that Elder Hua's acupuncture technique was not bad either.

“As expected, the heritage of the top Chinese medicine family is still preserved very well! ”

Qin Yuan sighed to himself. Elder Hua was sweating profusely, but it was obvious that the patient's symptoms were gradually calming down!

After a few minutes, the patient calmed down. He looked very weak, but his expression was no longer filled with pain anymore!

Elder Hua heaved a sigh of relief when he saw that everything was fine. Then, he put away all the silver needles.

“Send the patient down first! ”

After Elder Hua finished collecting the needles, he spoke softly to the staff beside him.

“Yes, sir!”

Soon, the staff pushed the patient down!

Pa, pa, pa...

“Divine Doctor Hua is really amazing!”

“Chinese medicine is invincible! Divine Doctor Hua is invincible!”

Seeing that the patient had calmed down and was sent away by the medical staff, the entire venue immediately erupted into an uproar.

**“I really didn’t expect Chinese medicine to be able to alleviate the duration of this illness!”**

The American medical expert who saw this scene also said in surprise.

At first, he had some doubts, but he had seen the patient’s condition just now. He knew that the patient’s attack had been controlled by Elder Hua!

**“Traditional Chinese medicine is not as weak as you think!”**

Elder Hua replied indifferently to the American medical expert. Although he had a way to alleviate this illness, he could not completely cure it.

Therefore, he did not say much and only replied indifferently!

For a moment, the doctors from Japan looked embarrassed. They didn’t expect Elder Hua to alleviate the attack with Chinese medicine.

Although this disease cannot be cured, being able to alleviate the duration and pain of the patient’s episodes is still remarkable. Their medical skills are simply incapable of achieving that, even the Western medical experts from the United States couldn’t do it, let alone them!

**“Traditional Chinese Medicine is a heritage of our Chinese culture for thousands of years, and I have only scratched the surface of it. One day, you will come to truly appreciate the value of Traditional Chinese Medicine!”**

Elder Hua said to doctors from all over the world but he didn’t feel particularly delighted about being able to alleviate the duration of the patient’s condition.

He knew that ancient Chinese medical texts contained treatment methods for this particular disease, but even after searching through the existing Chinese medical literature, he couldn’t find any treatment methods for it.

He had only seen a brief introduction to this illness in an ancient medical book!

**“Chinese medicine! Chinese medicine! Chinese medicine!”**

**“Chinese medicine is invincible!”**

As soon as Elder Hua finished speaking, deafening applause and cheers rang out in the entire venue!

Because just this alone proved that Chinese medicine was better than Western medicine, although it could not cure this illness, at least Chinese medicine could alleviate the duration of the attack, while Western medicine could not!

Hearing the cheers from the crowd, the doctors from all over the world were embarrassed. Elder Hua had really done what he said, so they were too embarrassed to protest!

“I acknowledge that your skills in Chinese medicine are indeed impressive, and we have lost this round of competition. However, Western medicine will still remain the most advanced medical practice in the world,” the medical expert from the United States responded. “Now it’s your turn to diagnose and treat. I am curious to see if Chinese medicine is truly as formidable as you claim it to

The American medical expert chuckled in response to Elder Hua’s words. He admitted that he had no way to cure Porphyria, but he believed that Chinese medicine couldn’t achieve a complete cure for such a disease either.

“Hello, everyone. I believe that everyone has seen the medical cases sent by our Chinese medicine representatives in the second stage. The results of the competition between the two sides are very obvious. Now, it’s time to shift our focus to the cases presented by international medical experts. Let’s see if our Chinese medicine representatives can continue to create miracles!”

After seeing this scene, the host was also very excited. The words of the

American medical expert indirectly admitted that the Chinese had won the competition!

As the audience’s enthusiastic cheers ended, it was time for the international doctors to send out patients for the Chinese medicine representative doctors to treat!

“Please send the medical cases arranged by the international doctor representatives!”

As soon as the host finished speaking, a blonde-haired foreign patient was pushed out by the medical staff!

“I’d like to see how the Chinese doctors treat this patient!”

“That’s right! Professor Hanson is really capable. How did he meet such a patient?”

“Alright, let’s see how they investigate!”

At that moment, the Japanese doctor was secretly laughing.. It seemed that they had already won this round!

Chapter 212: Multiple Artificially Induced Diseases! (Two Chapters Combined)

Very soon, the patient sent by the international doctor representatives were also pushed up by the staff!

“This patient, whom I discovered during a case study of multiple diseases, is afflicted with various illnesses. This time, there is no need for your Traditional Chinese Medicine to have a treatment method, as even our Western medicine has no way to cure it! We can only alleviate his pain with sedatives and analgesics!”

“As long as you Chinese doctors can find out how many illnesses he has, we will consider it our loss!”

Dr. Hansen, the medical expert from the United States, smirked confidently, his face filled with assurance. He felt that the Chinese doctors would not be able to detect all the diseases in this patient.

This was because this patient had too many diseases, and they were all rare and difficult to treat!

Elder Hua frowned when he heard what the American medical expert, Hansen, said. He knew that the patient sent by the international doctor representatives was definitely not simple!

“Let’s see how good Chinese medicine is. Even we were shocked by the patient that Professor Hansen brought!”

“That’s right! I’ve never seen so many illnesses happen to the same patient in my life, and this patient is still alive!”

The two Korean doctors looked at the patient on the field and chuckled. They were very confident that traditional Chinese medicine could not diagnose all the diseases of the patient that Hansen had brought.

Even Hansen had spent two months diagnosing all of the patient’s symptoms.

He had used all kinds of advanced medical equipment to help him. Traditional Chinese medicine could not diagnose all of the patients’ symptoms by taking their pulse and observing their condition!

“Sure!”

Elder Hua replied to Hansen. He knew that the patient in front of him was not simple, but he could not retreat in this situation!

Although the patient’s condition did not seem to be anything serious, Elder Hua knew that Hansen had given the patient sedatives and painkillers!

This would also increase the difficulty of diagnosis and treatment in traditional Chinese medicine. After all, most traditional Chinese medicine doctors had to analyze the patient’s illness based on the patient’s pain and symptoms!

All the pain and symptoms caused by the patient’s illness were affected by the sedative and painkiller. It was difficult for them to analyze the patient’s symptoms accurately.

“Elder Hua! They...”

A Chinese medicine doctor representative complained to Elder Hua helplessly. The international doctors were obviously targeting Chinese medicine! “It’s okay. There’s nothing wrong with them doing this!”

Elder Hua also knew that the international doctor representatives were deliberately making things difficult for Chinese medicine. They knew that Chinese medicine needed to observe the patient’s condition to analyze the patient’s illness, but they still injected tranquilizers and painkillers!

“What’s wrong? Can’t you Chinese doctors treat him?”

A doctor from Japan burst into laughter on the spot. He was very proud when he saw the bitter expressions on the faces of the Chinese medicine doctors!

All of a sudden, all the representatives of Chinese medicine revealed a bitter expression. They were clearly targeting Chinese medicine.

“Go up and check!”

Elder Hua did not respond to the Japanese doctor’s words. After he finished speaking to the representatives of the Chinese medicine doctors beside him, he walked directly toward the patient!

At this moment, the patient’s condition also made the Chinese medicine doctor representatives turn pale with fright!

The patient was lying quietly on the hospital bed, but his face was pale and devoid of blood. Besides his head, most of the other parts of his body were swollen. His skin had also begun to fester and emit a stench. If it were not for the sound of his heartbeat, they would have thought that he was dead!

“Elder Hua! This...”

All of a sudden, the Chinese medicine representatives were at a loss as to where to start, because they really did not know where to start!

Seeing this scene, even Elder Hua revealed a shocked expression!

This was because the patient in front of him was almost like a dead person. If not for the faint heartbeat, even Elder Hua would have thought that he was a dead person!

As Dr. Hansen had mentioned, the patient seemed to embody the diseases themselves. Just with a quick glance, one could identify no fewer than five different diseases!

Meanwhile, on the sidelines, Qin Yuan also noticed the expressions of the Traditional Chinese Medicine representatives. He decided to use his system and scan the patient as well.

“This...”

Seeing all the illnesses displayed by the system, Qin Yuan was a little surprised!

“Stomach cancer, liver cancer... Skin cancer...”

“There’s even Morgellons disease? And chronic pain in the testicle?”

Qin Yuan did not expect that there would be more than ten diseases in a person’s body. There were even cancer and some rare incurable diseases!

“This is not right! These diseases are definitely not naturally occurring! Could it be...”

For a moment, Qin Yuan seemed to have thought of something, and his expression darkened!

“Qin Yuan, what’s wrong?”

Seeing Qin Yuan’s gloomy expression, Elder Liao was puzzled.

“I’m fine. I just didn’t expect a doctor to have no medical ethics at all!”

After the system’s examination, Qin Yuan suspected that many of the patients’ illnesses on the stage were not natural, but artificially induced!

“No medical ethics?”

“Qin Yuan! Is this patient very difficult to treat?”

Seeing the expressions of Elder Hua and the representatives of the Chinese medicine doctors on the stage sink, even Qin Yuan’s expression changed.. This made Elder Liao very curious about the patient’s condition!

Chapter 213: Multiple Artificially Induced Diseases! (Two Chapters Combined)

“Not only is it difficult to diagnose and treat, but many of the illnesses are artificially induced ! ”

Qin Yuan said angrily. Qin Yuan was a little furious at the American medical experts’ actions.

“Man-made?”

Hearing Qin Yuan’s words, Elder Liao was surprised!

“Yes, this patient has more than ten diseases, and they are all cancer and rare incurable diseases!”

“Most importantly, some of these diseases are not formed naturally by the patients themselves, but are artificially induced!”

Qin Yuan explained calmly, but his eyes were still filled with anger!

‘What?’

“This patient has so many terminal illnesses at the same time? And you mean that the American medical experts might have used the patients for medical experiments?”

Elder Liao was shocked by Qin Yuan’s explanation. He looked at the patient on the stage and the American medical expert and felt indignant!

“Exactly, it’s possible that the United States conducted medical experiments on this patient and deliberately infected them with various viruses, employing a ‘fight fire with fire’ approach,” Qin Yuan explained.

“Based on my analysis, this patient has become a carrier of diseases. He should have died long ago, but have been kept alive through the use of medications,” he added.

Qin Yuan told Elder Liao about the patient’s condition. Qin Yuan could not expose the behavior of the American medical experts on the spot!

After all, there was no evidence to prove that most of the patients' illnesses were artificially induced!

“This is simply insane. It's a disgrace for these people to be doctors!”

Elder Liao was furious. He was certain of Qin Yuan's medical skills, so there must be a basis for him to say that!

“I'm going to report them!”

With that, Elder Liao stood up and was about to walk up the stage, but he was stopped by Qin Yuan!

“Elder Liao, calm down first. We have no evidence to prove that this was caused by them! So let's take a look first!”

Qin Yuan did not expect Elder Liao to be so straightforward. He wanted to go up before he could say anything!

“But...What they did was simply tarnishing the profession of doctors!”

Being stopped by Qin Yuan, Elder Liao could not calm down the anger in his heart for a moment.

“Let's see what Elder Hua has to say first!”

Qin Yuan also looked at the doctors on the stage. At this moment, they were carefully treating the patient.

However, it was obvious that Elder Hua was frowning. It seemed that he had encountered many difficulties!

“Qin Yuan, Elder Hua seems to be unable to determine the patient's illness at the moment!”

Seeing the sweat on Elder Hua's forehead, Elder Liao became nervous!

“Other than some common cancer, there are also some rare incurable diseases in this patient's body!”

“Especially Morgellons and chronic testicular pain, these two conditions are the most difficult to diagnose!”

Regarding the situation on the field, Qin Yuan also knew that it would be difficult for Elder Hua to diagnose the patient because chronic testicle pain was the most difficult to define!

“What are Qin Yuan's Morgellons disease and chronic testicular pain?”

Elder Liao knew that Qin Yuan definitely knew about these illnesses since Qin Yuan already diagnosed all the illnesses of the patient!

“Morgellons is a terrifying disease. Many people will feel as if there are insects or parasites crawling under their skin. Then, there will be many wounds that can't be healed. There will also be a lot of strange white or blue fibers oozing out of the wounds. If the patient wants to remove them, it will cause more pain. ”

“And chronic pain is another way to explain it. Because all other causes have been ruled out, doctors are not sure what the possible underlying cause is!”

“Because of the rarity of this condition, doctors are in a dilemma when it comes to treating the disease.”

After listening to Qin Yuan’s explanation, Elder Liao was amazed. He finally understood why Elder Hua frowned and could not diagnose the patient’s illness for a long time.

“This kind of illness is really too rare. Are these two illnesses also man-made?” Elder Liao asked in confusion!

“No, these two should be naturally caused by him, and the American medical experts probably couldn’t find anything in the end, so they directly carried out their own medical experiments on this patient!”

Qin Yuan guessed so, but as a doctor, what they did was already against medical ethics!

“Right, Elder Liao, take this up to Elder Hua!”

Seeing that the representatives of the traditional Chinese medicine doctors on the stage were still clueless, Qin Yuan wrote down all the symptoms on a piece of paper and handed it to Elder Liao!

This was because as guests, they had the right to participate in the Chinese medicine exchange!

“Okay!”

As he spoke, Elder Liao took the paper that Qin Yuan handed over. Looking at the more than ten illnesses on it, he was shocked!

He did not expect a person to suffer from so many terminal and incurable diseases at the same time. Most importantly, some of the diseases were caused by humans!

For a moment, Elder Liao looked at the representatives of the international doctors with anger in his eyes!

However, just as Qin Yuan had said, they had no evidence to prove that some of the patient’s illnesses were man-made!

Soon, Elder Liao collected his emotions and walked up to the stage with the medical records handed over by Qin Yuan!

When they saw Elder Liao walking over, the international doctors were very curious. Even Elder Hua was a little curious!

“Elder Hua, hello! I’m a Western medicine professor at the First People’s Hospital of N City. Here’s a list that I think should be helpful to you!”

Elder Liao walked to Elder Hua’s side and said. Elder Hua’s eyes were filled with doubt.

“You seem to be a Western doctor! This?”

Looking at the paper Elder Liao handed over, and then looking at Elder Liao's clothes, it was obvious that it was the diagnosis!

‘Yes, Elder Hua. I’m a Western doctor, but I advocate Chinese medicine. If it weren’t for the fact that I had no way to study, I would never have studied

Western medicine. After all, Chinese medicine is the medical skill of China!’ Seeing Elder Hua say that, Elder Liao started to explain!

‘Actually, both Chinese medicine doctors and Western medicine doctors are medical professionals. We are all doctors who treat patients’ illnesses!’

Hearing Elder Liao’s words, Elder Hua said softly because medicine indeed had no limits!

‘I know that medicine has no limits, but humans do!’

At that moment, Elder Liao looked at the representatives of the international doctors at the side. His eyes were filled with anger because when he found out that many of the patients’ illnesses were caused by them, he was disgusted by these doctors!

‘Well said!’

Hearing Elder Liao’s words, Elder Hua felt very gratified. All these years, he had been the sole pillar of Traditional Chinese Medicine, so he hoped that more people would work hard for the revival of Traditional Chinese Medicine!

‘This... This... Did you write this?’

Looking at all the medical records on the paper, Elder Hua’s eyes were filled with shock! Because this was all the symptoms of this patient. He had been hesitating just now because this chronic testicular pain was too difficult to diagnose!

After all, he was the only Chinese medicine representative who could think of this symptom, but he wasn’t sure either. When he suddenly saw someone give the same answer as him, he was extremely shocked!

One had to know that to be able to diagnose all the symptoms of this patient, one’s medical skills were already not simple!

‘It wasn’t me, it was that young man!’

Hearing Elder Hua’s words, Elder Liao looked in Qin Yuan’s direction!

‘Him

For a moment, Elder Hua was also stunned. He did not expect these illnesses to be diagnosed by such a young man!

‘Yes, he’s also a Chinese medicine doctor, and his medical skills are very strong. At first, I thought he was your disciple!’

Elder Liao also replied with a smile.. Regarding Qin Yuan’s medical skills, he had thought that Qin Yuan was Elder Hua’s disciple or a disciple of a traditional Chinese medicine family!

Chapter 214: Arrogance Has a Price! (Two Chapters Combined)

“My disciple?”

“No, I don’t know that young man!”

Elder Hua looked at Qin Yuan and replied with certainty. He had never seen Qin Yuan before, and he had never seen Qin Yuan in the traditional Chinese medicine family!

“Yes, I only found out later that he was a soldier and came from a military family!”

Elder Liao also recalled that Qin Yuan had said that he was a soldier, and his relationship with the military chief from last time was not simple, so he was very sure that Qin Yuan came from a military family!

“Soldier?”

Elder Hua was surprised to hear Elder Liao’s words. He did not expect a soldier to have such high attainments in Chinese medicine!

Just from this medical diagnosis alone, it was obvious that Qin Yuan’s traditional Chinese medicine skills were not inferior to his. After all, he hesitated for a long time and did not dare to make a decision!

Thank you for your help. After the exchange meeting ends, can you introduce this young man to me? I want to have an exchange with him! Ask him for advice!”

Elder Hua said to Elder Liao. Qin Yuan’s medical skills were definitely worth his time.

“Yes, it just so happens that he also wants to get to know you, Elder Hua. He came here to see you!”

Elder Liao was very excited. Originally, Qin Yuan wanted him to introduce Elder Hua to him, but now, Elder Hua actually took the initiative to ask him to introduce Qin Yuan to him.

“What are you guys talking about? Can we confirm the patient’s medical record?”

“This is a competition, not a chat!”

Seeing Elder Liao walk up to Elder Hua and talk to him for a long time, the doctor from Japan immediately started to speak up indignantly.

As soon as he finished speaking, a silver light flew past. The Japanese doctor who spoke immediately twitched, and the muscles on his face and limbs contracted!

Bang...

After a while, he fell onto the stage!

Everyone present was stunned by this sudden scene!

“Hashimoto, what happened to you?”

Seeing this, the Japanese doctor standing at the side immediately ran over and picked up the fallen doctor to examine him!

This situation also surprised the Chinese medicine doctor representatives at the side. How did he suddenly collapse!

Only Elder Hua knew what had happened. He looked at Qin Yuan in shock! “Silver needle Qi Transformation? Taiyi Divine Acupuncture Technique?”

For a moment, Elder Hua seemed to have discovered a new continent. He looked at Qin Yuan for a long time and could not come back to his senses!

Others might not have seen what had just happened, but as a Chinese medicine master, how could he not know what had just happened!

He did not expect to encounter the long-lost Taiyi Divine Acupuncture ultimate skill here!

Silver Needle Qi Transforming was a skill of the Taiyi Divine Acupuncture

Technique. A silver needle as thin as a strand of hair would be shot out from the fingertip with high internal strength. In the end, the silver needle would melt at high speed.

It formed a needle-like airflow that directly penetrated the person’s body, achieving the effect of acupuncture!

“This... This...”

For a moment, even Elder Hua was so shocked that he was speechless for a long time!

The Japanese doctors panicked, and even the American medical experts were shocked by this scene.

The Japanese doctor’s limbs twitched, and his face contorted. White foam flowed out of his mouth!

The scene was accompanied by the stench of urine and feces. It was obvious that the Japanese doctor had lost control of his bowels! It seemed to be accompanied by breathing difficulties!

Regarding this sudden situation, even the doctors from Japan and Korea did not know what kind of illness it was!

Meanwhile, the American medical experts immediately began to treat the Japanese doctor!

The sudden situation also made the organizer and the audience nervous. Only Qin Yuan and Elder Hua did not have any expressions!

Elder Hua knew that Qin Yuan was teaching this Japanese doctor a lesson. What shocked him the most was that Qin Yuan had actually used the long-lost Taiyi Divine Acupuncture Technique!

After about five minutes, the American medical expert shook his head helplessly!

“I can’t diagnose what illness he has either! I’m sorry, but there’s nothing I can

The American medical expert was shocked by what happened to the Japanese doctor. This was the first time he had seen such a disease.

After hearing the American medical expert’s words, the Japanese doctor at the side pleaded bitterly,

“Professor Hansen, you can’t give up on Hashimoto-kun!”

“That’s right! Professor Hansen, if you say you can’t do anything, then we can’t do anything either!”

Just as the Japanese doctors were begging the American medical expert, the American medical expert turned his attention to Elder Hua!

Because he really had no way to diagnose what was wrong with the Japanese doctor!

Seeing the American medical experts looking at him, Elder Hua also knew that they were asking him to go for treatment.

Elder Hua knew very well that Qin Yuan was obviously teaching this Japanese doctor a lesson, so he looked at Qin Yuan below the stage!

Qin Yuan nodded, meaning that he agreed to Elder Hua’s treatment. Qin Yuan only wanted to teach these arrogant Japanese doctors a lesson!

On such an occasion, Qin Yuan did not want to kill anyone!

“Let me take a look!”

After receiving Qin Yuan’s nod, Elder Hua walked to the side of the Japanese doctor!

Chapter 215: Arrogance Has a Price! (Two Chapters Combined)

Seeing that the Japanese doctor was about to die, he immediately took out a silver needle and stabbed it at the Japanese doctor!

After Elder Hua pricked the Japanese doctor’s chest and neck, he asked the other Japanese doctors to help him up!

Therefore, Elder Hua used his old and powerful right hand to slap the Japanese doctor’s face!

Soon, the Japanese doctor’s face became swollen, and Elder Hua took a few steps back. He took a big step forward and landed on the Japanese doctor’s chest!

The Japanese doctor was sent flying and slammed into the table beside him! Even the Japanese doctors who were supporting him fell to the ground!

“Is this Hua Zhongnan trying to take revenge? How can he treat a patient like this?”

The Japanese doctors who were lying on the ground were all dumbfounded. They looked at Elder Hua with hatred in their hearts.

“This Elder Hua is really ruthless!”

It was obvious that Qin Yuan knew that Elder Hua was doing this on purpose. Qin Yuan knew that Elder Hua knew how to treat him. If he wanted to cure him, he only needed to apply a few needles. With Elder Hua’s acupuncture skills, it would not be a problem!

However, this old fellow, Elder Hua, actually took advantage of the others' ignorance to take revenge!

Not long after, the Japanese doctor spat out a mouthful of black blood and he was awake!

“Divine Doctor Hua is invincible! Divine Doctor Hua is invincible!”

“Chinese medicine is invincible! Chinese medicine will definitely win!”

Seeing this scene, the audience in the entire venue immediately boiled over. They did not expect that the illness that even the American medical experts could not treat was actually treated by Elder Hua. Moreover, it was quite satisfying to see Elder Hua's treatment method!

But what they didn't know was that Elder Hua did it on purpose. It was a rare opportunity, so how could Elder Hua miss it!

Seeing this treatment scene, even the American medical expert at the side was stunned. He did not expect that there were illnesses that could be treated in this way!

“Hello, Doctor Hua! Can you tell us what illness he has?”

The American medical expert asked in puzzlement. It was the first time he had seen a Japanese doctor with such a disease. Moreover, the treatment method was too unique!

“This doctor's illness is that he choked when he spoke, and his anger directly blocked his nerves, causing him to have difficulty controlling himself and become incontinent!”

Elder Hua was spouting nonsense. In any case, these people did not understand what was going on at all, so he did not care what he said!

This explanation made Qin Yuan laugh. This Elder Hua could really lie without blushing or jumping!

Is there such a disease?

The American medical experts were stunned by Elder Hua's explanation. Even the representatives of the Chinese medicine doctors were curious. They had never heard of such a disease, and they had never seen the treatment method!

If it weren't for the fact that Elder Hua often practiced martial arts, they would have felt that treating this illness was too exhausting. Seeing the Japanese doctor being beaten up like this, some Chinese medicine doctors who didn't usually exercise felt that if they had to treat a patient with this illness, they might not be able to do so!

The Japanese doctor quickly regained his senses and didn't know what had happened! Just now, he felt as if he had been pricked by something, and then he lost his memory!

Seeing that everyone was looking at him now, he only felt that his face was in pain!

“Lord Wu Zhi, what just happened?”

At that moment, the Japanese doctor asked his companion beside him!

“Hashimoto-kun, you suddenly fell ill just now. You were incontinent, your limbs were cramping, and you had difficulty breathing! If not for Dr. Hua saving you, you would have died!”

The Japanese man said helplessly. They were also in a daze about the situation just now. How could they know what had happened?

“Illness?”

When he heard his companion’s words, he looked at himself and saw a 40-yard shoehorn print on his chest. His chest and face were aching!

He didn’t know why he was sick and why his body hurt so much!

“Hashimoto-kun, you should thank Dr. Hua first! After all, even Professor Hansen couldn’t treat your illness just now, and it was Dr. Hua who treated you!”

The Japanese doctor’s companion immediately said. After all, if Elder Hua had not intervened at the last moment, the Japanese doctor might have died!

Soon, the Japanese doctor walked up to Elder Hua with the help of his companions.

“Dr. Hua, thank you for treating me just now!”

The Japanese doctor’s face was also burning with pain. He felt very embarrassed. His companion had already told him about the situation just now. He did not expect such a thing to happen to him!

“You’re welcome! Doctors are benevolent!”

Elder Hua nodded!

Seeing this scene, Qin Yuan was overjoyed! He really didn’t expect Elder Hua to beat him up so badly, yet he still had to stupidly thank him!

In this situation, Elder Hua’s expression did not change at all. He did not feel that he had just taken revenge!

“Yes and these are the patient’s illnesses! You can take a look!”

As he spoke, Elder Hua handed the medical report in his hand to the American medical expert!

He was very confident that he had diagnosed all of them because it was given by Qin Yuan.

From the moment he saw Qin Yuan use the Taiyi Divine Acaupuncture Technique, he could already tell that Qin Yuan’s traditional Chinese medicine skills were not inferior to his at all. It was even possible that Qin Yuan had already surpassed him!

“Are you sure?”

After receiving the medical report from Elder Hua, the American medical expert confirmed once again!

“Yes!”

Elder Hua nodded.

“Good!”

As he spoke, the American medical expert also looked at it seriously. Gradually, his face revealed a shocked expression!

The medical record that Elder Hua had given were all diagnosed and treated by Chinese medicine. For a moment, the American medical experts were extremely shocked!

Chinese medicine could actually diagnose all the patients' medical cases without using any medical equipment. Moreover, this patient had been injected with sedatives and painkillers!

It was impossible for the Chinese medicine doctor representatives to analyze the patient's symptoms and reactions!

“This... I have to admit that Chinese medicine is indeed very powerful, and it has amazed me!”

The American medical expert said in a deep voice. He had to admit that Elder Hua's diagnosis and treatment were all correct!

After hearing the American medical expert's words, the doctors from Korea and Japan also looked at the American medical expert in disbelief!

“Professor Hansen, is that true? Did they really diagnose it?”

A Korean doctor also looked at the American medical expert and asked in confusion.

“Take a look for yourselves!”

As he spoke, he handed the medical records in his hand to them.

After receiving the medical reports from the American medical expert, everyone carefully read it, and the more they read, the more colorful their expressions became!

They did not expect that the Chinese medical doctor representatives would be able to diagnose all the symptoms of the patient that the American medical experts had found.

“We've lost this time, I will keep my word!”

The American medical expert was silent for a while before speaking to Elder Hua.

He had no choice but to accept this result.

For a moment, after hearing the words of the American medical expert, the entire venue was in an uproar!

The stadium was also filled with intense applause and cheers. This meant that Chinese medicine had won this exchange competition!

Under the guidance of the host, the atmosphere in the entire venue reached a climax, and the audience was extremely excited!

As for the outcome, the medical representatives from other countries felt helpless. After all, the statement had been made, and the Chinese medical representatives had indeed diagnosed all the diseases.

Qin Yuan was then called backstage by Elder Liao.

“Qin Yuan, I really didn’t expect your Chinese medicine skills to be so amazing!”

Elder Liao was also very excited because the medical report that Qin Yuan had given him contained all the symptoms of the patient. Moreover, Qin Yuan had diagnosed it offstage!

“No, I only know a little bit!”

Chapter 216: Searching for the Location of Rare Medicinal Herbs! (Two Chapters Combined)

Qin Yuan did not think much of Elder Liao’s praise. He had done what he should have done.

“By the way, Qin Yuan! Elder Hua asked us to wait for him in the lounge. He just said that he wants to see you!”

Elder Liao told him that Elder Hua wanted to see him.

This time, Qin Yuan came here to participate in the exchange meeting to look for Divine Doctor Hua. He did not expect Divine Doctor Hua to say that he wanted to see Qin Yuan. Elder Liao was very happy about this!

“Alright! Elder Liao, thank you so much!”

Qin Yuan knew that it must not have been easy for Elder Liao to bring him to the exchange meeting this time. He had also noticed that all the guest seats were filled with professors from other hospitals. They were basically doctors of the same level as Elder Liao!

Qin Yuan knew that Elder Liao had given another professor’s seat to him! Therefore, he was very grateful to Elder Liao!

“You’re welcome! It’s my blessing to be able to know you!”

Elder Liao knew that with Qin Yuan’s high attainments in Chinese medicine at such a young age, his future would definitely be boundless. Moreover, he already needed Qin Yuan’s help in Chinese medicine!

“Okay! Then let’s go to the lounge and wait for Elder Hua!”

Qin Yuan knew that Elder Hua still had to explain Chinese medicine to some doctors later, so it should take a while before it ended!

“Sure!”

With that, Qin Yuan and Elder Liao arrived at the lounge under the guidance of the staff!

“Qin Yuan, did you really learn Chinese medicine by yourself?”

After today's incident, Elder Liao did not quite believe that Qin Yuan had learned Chinese medicine by himself. After all, Qin Yuan's current attainments in Chinese medicine were simply terrifying.

It was a given that Elder Hua was very powerful at his age. After all, Elder Hua had spent decades studying Chinese medicine!

And Qin Yuan seemed to be in his twenties. Even if he studied on his own, it was impossible for him to reach such a level in such a short period of time!

“This... I really learned this by myself! Also, I met a doctor when I was young. He gave me some ancient Chinese medical books, and then I fiddled with them myself!”

Seeing that Elder Liao still did not quite believe that he had learned his medical skills by himself, Qin Yuan could only explain it this way! After all, he could not tell anyone that he had a system.

“Then your medical talent in Chinese medicine is simply heaven-defying!”

Elder Liao looked at Qin Yuan and did not think that he was lying. Moreover, he was indeed very talented in traditional Chinese medicine!

Although he was very good at Western medicine, there were many problems in Chinese medicine that he did not understand at all!

“Elder Liao, when did you first come into contact with Chinese medicine?”

Seeing that Elder Liao was obsessed with traditional Chinese medicine, Qin Yuan was also very curious when Elder Liao started to know about traditional Chinese medicine and became so obsessed with it!

“Well... It's a bit embarrassing to say, but I've been involved with traditional Chinese medicine for 5 years now. However, I still have a lot to learn and there are many aspects of Chinese medical practices where I feel inadequate.”

Elder Liao felt a little embarrassed as he spoke. After all, he had already done his best to learn.

“It's fine, Elder Liao. As long as you have any questions, feel free to ask me. I will try my best to answer them!”

That was all Qin Yuan could do. It seemed that Elder Liao's talent in traditional Chinese medicine was simply too weak. He had not figured out the basic recuperation knowledge of traditional Chinese medicine even after five years.

“Don't worry, I won't be ashamed to ask!”

Elder Liao laughed out loud when he heard Qin Yuan's words. Despite feeling a bit inadequate in his pursuit of learning traditional Chinese medicine, he was determined to continue. He was motivated by the desire to study and preserve his country's medical practices.

After Qin Yuan and Elder Liao chatted for a long time, the door of the lounge was opened!

“I'm really sorry to have made you guys wait!”

Elder Hua pushed the door open and walked in as he said to Qin Yuan and Elder

Liao apologetically. After all, he knew that Qin Yuan's attainments in traditional Chinese medicine were not lower than his. Moreover, he was a little embarrassed to make them wait for so long! "It's fine, Elder Hua. We didn't wait long!"

Elder Liao smiled and replied.

"This is the young man who just wrote down those illnesses, right?"

Looking at Qin Yuan, Elder Hua's eyes were filled with admiration. He did not expect Qin Yuan to have such high attainments in traditional Chinese medicine at such a young age. He even knew the long-lost Taiyi Divine Acupuncture Technique!

One had to know that the Taiyi Divine Acupuncture Technique was a peerless Divine Acupuncture of Traditional Chinese Medicine! He had never seen anyone in China who could use this ultimate skill.

"Yes, Elder Hua. Let me introduce you. This is Qin Yuan!"

As he spoke, Elder Liao immediately began to introduce Elder Hua!

"Elder Hua! Hello, nice to meet you!"

Qin Yuan reached out his hand and shook Elder Hua's hand.

"You're really young and promising! I didn't expect you to be so young!"

Elder Hua smiled and spoke with an affable demeanor, which made Qin Yuan feel comfortable.

"Qin Yuan, I heard from Elder Liao that you have something to see me about? I wonder why you're looking for me?"

Elder Hua knew that there must be a reason for Qin Yuan's visit. After all, Qin Yuan was not invited to the Traditional Chinese Medicine Conference.

"Elder Hua, I won't hide it from you. There's indeed something I need to talk to you about!"

"Elder Hua, have you heard of the Tianshan Snow Lotus? And it has to be at least 50 years old!"

Qin Yuan did not hide anything and directly revealed his purpose for coming here..

Chapter 217: Searching for the Location of Rare Medicinal Herbs!(Two Chapters Combined)

Hearing the name Tianshan Snow Lotus, Elder Hua's eyes were obviously shocked. He did not expect Qin Yuan to be here to find such a rare traditional Chinese medicine!

"Brother Qin Yuan, what use do you have for the Tianshan Snow Lotus?"

Elder Hua asked in surprise. After all, the Tianshan Snow Lotus was a rare Chinese medicine that even he did not know how to use to treat illnesses!

Although he knew that the Tianshan Snow Lotus was a sacred medicine of traditional Chinese medicine and could treat many diseases, the current method of treating the Tianshan Snow Lotus as a medicinal catalyst had long been lost!

“This...I won't hide it from you. I need this medicinal herb to treat a friend's illness!”

Qin Yuan knew that Elder Hua had probably heard of this rare traditional Chinese medicine before. Qin Yuan even knew from Elder Hua's eyes that he might have seen it before!

“Treat a friend's illness?”

“Brother Qin Yuan, I'm not going to lie to you. Although this medicinal herb can be said to be a sacred medicine in our Chinese medicine, we don't know if this medicinal herb can cure that illness!”

“There's no record of using Tianshan Snow Lotus to treat illnesses in all the medical heritage of our Chinese medicine!”

Upon hearing Elder Hua's explanation, Qin Yuan finally understood that there was a gap in the current transmission of Chinese medicine. It is possible that the documentation regarding the use of Tian Shan Snow Lotus to treat cancer has been completely lost in the depths of history.”

“Elder Hua! I'm using it to treat cancer!”

As for this, Qin Yuan might as well tell Elder Hua and the others his motive!

After all, Elder Hua was currently carrying the banner of traditional Chinese medicine. Qin Yuan had the obligation to connect the gaps in the legacy of traditional Chinese medicine!

“What?”

“Brother Qin Yuan, are you sure that the medicinal herbs you said are used to treat cancer?”

For a moment, Elder Hua's face also revealed a shocked expression. He also had a look of disbelief towards Qin Yuan's words!

Even Elder Liao, who was at the side, looked at Qin Yuan in surprise. Although he did not quite understand what the Tianshan Snow Lotus Qin Yuan and Elder Hua were talking about was, just the fact that Qin Yuan said that it was used to treat cancer stunned him!

“Yes! It's used to treat cancer!”

Seeing Elder Hua's shocked expression, Qin Yuan confirmed once again.

“Brother Qin Yuan, cancer can't be cured just because you want to. I've been a doctor for so many years and I've never heard of a cure for cancer!”

Seeing Qin Yuan's certainty, Elder Hua was extremely shocked. This was the most shocking thing he had heard in all these years!

“That’s right! Even Western medicine did not have the ability to treat cancer. At present, there is no way to treat cancer in the entire medical world! Are you sure what you said is true?”

Elder Liao, who was standing at the side, exclaimed. He felt that it was impossible for Qin Yuan to treat cancer. After all, cancer was already the biggest problem in the entire medical field. Up until now, there was no way to treat cancer.

“Elder Liao, Elder Hua, to be honest with you, there is indeed a method to treat cancer in the Chinese medical books! However, the price is very high!”

“Moreover, the medicinal herbs we need now are all rare Chinese medicinal herbs! Therefore, I can only prove my words to you after I find these herbs!”

Qin Yuan knew that Elder Hua and Elder Liao could not understand the treatment of cancer at all, because this was indeed beyond their understanding. If it were not for the records in the system’s pharmacopeias, even he would not have believed it!

“Qin Yuan! You’re really not lying to us?”

Regarding this matter, Elder Hua also somewhat believed Qin Yuan’s words, because Qin Yuan even knew the lost Taiyi Divine Acupuncture Technique!

“Elder Hua, please believe me! As long as I find these herbs, I will definitely prove my words to you!”

Qin Yuan was very firm as he spoke to Elder Hua. Now that he had not found these herbs, even if he said too much, he could not prove that what he said was true!

“Qin Yuan, I want to verify something with you. May I?” “Elder Hua, please speak!” Qin Yuan nodded.

“Did you use the Taiyi Divine Acupuncture Technique just now?”

Elder Hua asked expectantly.

“Yes, sir!”

Qin Yuan also nodded. He knew that Elder Hua was hinting that he had attacked the Japanese doctor just now. He did not expect Elder Hua to know his acupuncture technique!

“That’s great! That’s great! There’s hope for Chinese medicine to revive!”

For a moment, Elder Hua was excited. His hands were clenched tightly, and it was obvious that they were trembling!

“This... How do you know Elder Hua?”

Qin Yuan had no idea what the Taiyi Divine acupuncture technique meant to traditional Chinese medicine, nor did he understand why Elder Hua was so excited!

“Qin Yuan, come with me later!”

“As for... the Tianshan Snow Lotus you mentioned, I have it!”

Elder Hua said excitedly to Qin Yuan because there was a saying in Elder Hua's ancestral teachings that when the Taiyi Divine Acupuncture appeared, Chinese medicine would reach its peak!

Old Hua did not understand this sentence in the past because he had never seen anyone use the Taiyi Divine Acupuncture Technique. When he saw Qin Yuan use it, he was surprised, but he was not sure!

But now that Qin Yuan had answered him with certainty, he thought of the words of his ancestors!

Therefore, when Qin Yuan said that cancer could be cured, he also felt that there might really be hope. This was because others might not be able to, but there was definitely hope for someone who practiced the Taiyi Divine Acupuncture!

“Alright! Elder Hua, let's go now!”

He heard that Elder Hua had the Tianshan Snow Lotus! Qin Yuan was very excited. After all, that was a medicinal herb worth 10 million skill points! Moreover, he was one step closer to treating Xiao Zhenwu's illness!

“Good! Elder Liao, you should come along too!” As he spoke, Elder Hua also spoke to Elder Liao!

“Sure!”

After saying that, Qin Yuan and Elder Liao followed closely behind Elder Hua and set off on the journey to the Hua family's home!

Along the way, Elder Hua was extremely happy. He kept asking Qin Yuan about his doubts regarding Chinese medicine. Qin Yuan patiently answered each of Elder Hua's questions and provided clarification.

Elder Hua was extremely shocked by Qin Yuan's understanding of traditional medicine. Elder Hua had obtained very good answers to many of the illnesses! “Qin Yuan, you said that you self-taught your Chinese medicine skills?”

When he heard Qin Yuan say that his medical skills were self-taught, Elder Hua was very shocked! He did not expect Qin Yuan to be so talented in traditional Chinese medicine!

“Yes, Elder Hua. When I was young, I received a medical classic and this Taiyi Divine Acupuncture Technique! Therefore, I slowly learned it myself!”

“Elder Hua, I'll copy this book and give it to you later. I'll also give you this acupuncture technique!”

Qin Yuan had long thought of leaving this set of Chinese medicine pharmacopeias and the Taiyi Divine Acupuncture Technique to Elder Hua. After all, he was a soldier, and Elder Hua was the pillar of Chinese medicine!

It would be more useful to pass this set of pharmacopeias and acupuncture techniques to Elder Hua than to have them in his hands!

There was a gap in the legacy of traditional Chinese medicine. Qin Yuan hoped that he could fill in these gaps. He believed that after these things were handed over to Elder Hua, traditional Chinese medicine would definitely stand out in the world!

“This... This... Qin Yuan, are you really going to?”

For a moment, Elder Hua was so excited that he stammered. He did not expect Qin Yuan to be willing to give him his medical pharmacopeias and Taiyi Divine acupuncture technique.

One had to know that even traditional Chinese medicine families like them would not share their own pharmacopeias. This led to the current gap in traditional Chinese medicine!

“Elder Hua, we represent Chinese medicine! We represent the countless predecessors of Chinese medicine! It’s not about personal gain!”

“Chinese medicine needs to prove its existence and its role to the world!”

Qin Yuan also knew that for a traditional Chinese medicine family like Elder Hua, an ancestral pharmacopeia was their family’s lifeline. However, Qin Yuan neither supported nor opposed it. It was a matter of personal perspective, as the heart of a physician should be filled with compassion in order to heal the world.

After hearing Qin Yuan’s words, Elder Hua felt a wave of realization. Isn’t such an attitude exactly what a physician should possess?

A doctor’s duty is to heal the illnesses of the world, so how could they let themselves be swayed by worldly concerns and lose sight of their original intentions?

Chapter 218: Chinese Medicine Heritage! (Two Chapters Combined)

“The original intention?”

“That’s right! Doctors were supposed to treat the suffering of the world as their duty! But the thing that I’ve been pursuing so hard, I’ve forgotten that it was my original intention at the beginning!”

For a moment, Elder Hua seemed to have understood something, and his entire person emitted an aura of enlightenment!

Seeing Elder Hua’s expression, Qin Yuan knew that his mindset had undergone a transformation and that Elder Hua would continue to embark on a long and promising journey in the field of medicine.

Soon, the car drove into a small courtyard. It was quite a distance from the busy city, and the entire courtyard was filled with an ancient and elegant atmosphere.

“We’re here! Get out of the car!”

After the car stopped, Elder Hua turned his head and said to Qin Yuan and the others.

“It’s all filled with the smell of Chinese medicine!”

As soon as he entered the courtyard, he was greeted by the smell of Chinese medicine. It was also Elder Liao's first time visiting Elder Hua's residence. The entire courtyard was covered in all kinds of Chinese medicine!

Elder Hua's courtyard wasn't very big. It was a typical Chinese building. The entire courtyard had a hint of simplicity.

"I'm a traditional Chinese medicine doctor, so I grow some Chinese medicine at home! The courtyard isn't very big. I hope you don't mind!"

Elder Hua smiled and replied to Elder Liao. He was a simple person and did not like complicated streets, so he bought this courtyard in the suburbs!

"It's fine, Elder Hua. This is the life I've always dreamed of!"

Looking at the place where Elder Hua lived, Qin Yuan yearned for it. This kind of peaceful and simple life was the ideal lifestyle for most people!

"Take a seat first! My home is quite simple, but I hope you can bear with it. I'll have someone prepare some food for us. We can eat first before I take you to see the medicinal herbs you need," Elder Hua said.

After entering the living room, Elder Hua invited Qin Yuan and the others to sit down. There was not much furniture in the living room and they were all very simple furnishings! Most of the bookshelves were filled with Chinese medical books!

"Alright! Elder Hua!"

Qin Yuan sat down. Looking at the tattered medical books on the bookshelves, it could be seen that Elder Hua had put a lot of effort into Chinese medicine! "Elder Hua, I wonder if I can take a look at your medical books!"

Elder Liao noticed these medical books the moment he entered the living room. For a moment, he could not control his restless heart! Elder Hua's medical books were incomparable to the ones he had collected.

"It's fine. You can read them as you wish. These medical books have accompanied me for most of my life!"

As he spoke, Elder Hua also looked at the medical books on the shelves, his eyes filled with love.

"Thank you! "

Elder Liao, despite being trained in Western medicine, is deeply fascinated by Chinese medicine. Although he may not possess a natural talent in this field, his passion for Chinese medicine cannot be restrained.

"Isn't Elder Liao a Western medicine practitioner? Why is he so interested in Chinese medicine?"

After Elder Liao left, Elder Hua asked Qin Yuan curiously because he knew that Elder Liao was an expert in the field of Western medicine. However, from Elder Liao's behavior, he was extremely obsessed with Chinese medicine.

“That's right. Elder Liao is a Western doctor and has made great achievements in the field of Western medicine, but deep down, he has fallen in love with Chinese medicine!”

“He said that when he was studying medicine in the past, Chinese medicine was out of options. In the end, he had no choice but to learn Western medicine! Unlike now where there are many Chinese medicine universities and Chinese medicine systems!”

“But...Elder Liao's talent in Chinese medicine was indeed not very good!”

Hearing Qin Yuan's words, Elder Hua nodded. At that time, traditional Chinese medicine had indeed declined, and many of its lineages had gradually been severed over the past century.

Therefore, Elder Hua's face revealed a helpless expression. Chinese medicine, with its thousands of years of history, had been overshadowed and even had its lineage severed by the dominance of Western medicine.

“Yes, if it weren't for the impact of history, Chinese medicine wouldn't have declined to this extent. Fortunately, in recent years, the country has provided significant support for Chinese medicine. Otherwise, the ancestral heritage of thousands of years would have been completely lost to future generations.”

Elder Hua also said in a low voice. He knew that Qin Yuan was right. Traditional Chinese medicine had lost its heritage in many aspects of medicine. For example, Qin Yuan's Taiyi Divine Acupuncture Technique disappeared in the past hundred years and never appeared in the world again!

If not for the ancestral teachings in the family, Elder Hua would not have known that the acupuncture technique Qin Yuan used was the Taiyi Divine Acupuncture Technique!

“Chinese medicine will definitely prove its existence to the world once again. Our ancestors spent thousands of years preserving this heritage, and we will not let it decline.

Qin Yuan's eyes were also filled with determination. To him, as long as it was the heritage of China, he would not let it disappear in the long river of history.

Now, the pharmacopeias he had obtained included all the medical skills of traditional Chinese medicine. This was also something that Qin Yuan was gratified about. After all, there were indeed many gaps in the inheritance of traditional Chinese medicine.

Fortunately, it was all in the pharmacopeias. He only needed to copy it! Qin Yuan also respected Elder Hua very much. If the pharmacopeias were handed over to Elder Hua, it would definitely showcase the charm of traditional Chinese medicine even more!

“Definitely! I have dedicated decades of my life to showing the world the greatness of the heritage left by our ancestors!”

To Elder Hua, being born into a Chinese medicine family is his greatest fortune.. Elder Hua’s biggest dream was to make Chinese medicine once again reign supreme in the world!

Chapter 219: Chinese Medicine Heritage! (Two Chapters Combined)

Looking at Elder Hua’s gaze that was filled with longing, Qin Yuan knew the respect and love that Elder Hua had for traditional Chinese medicine!

“Elder Hua, here is a copy of the ancient Chinese Pharmacopeias and Taiyi Divine Acupuncture Technique that I obtained! These will be of great help to you and China’s traditional Chinese medicine!”

Qin Yuan took out the Traditional Chinese Medicine Pharmacopeias and the Taiyi Divine Acupuncture Technique from his pocket and handed them to Elder Hua. He had spent 100,000 skill points on the way here to replicate them in his mind! He knew that the Pharmacopeias and the Taiyi Divine Acupuncture Technique were legacies for Chinese medicine!

He also believed that these medical skills could be passed down in the hands of Elder Hua. He was a soldier and he had his mission. The Chinese Medical Pharmacopeias would only flourish if they were handed over to Elder Hua!

“This?”

Elder Hua took the medicinal book and Taiyi Divine Acupuncture Technique that Qin Yuan handed over. He was a little surprised!

“Elder Hua, the legacy of Chinese medicine is here!”

Qin Yuan smiled. He knew that Elder Hua would definitely use these traditional Chinese medicine inheritances to his advantage!

After hearing Qin Yuan’s words, Elder Hua was a little excited. With excitement, he flipped open the Chinese medicine pharmacopeias that Qin Yuan had given him!

“This... This... This is...”

Elder Hua’s expression froze. When he saw the records of Chinese medicine, he was so shocked that he could not speak!

The pharmacopeias that Qin Yuan had given him were simply the inheritance of the entire Chinese medicine industry for thousands of years. Moreover, many of the medical skills on it were things that he had never heard of before!

Even the method to treat cancer that Qin Yuan mentioned was recorded!

“Qin Yuan. This was simply the legacy of Chinese medicine!”

Elder Hua was very excited. He held the medicinal book that Qin Yuan handed him and his entire body trembled! This was too shocking for him. He did not expect that the inheritance he had been searching for his entire life would be obtained from Qin Yuan!

“This... This is unbelievable!”

He could not imagine that the heritage of Chinese medicine could be preserved so perfectly!

“Qin Yuan, this is so valuable. How could you give it to me so easily?”

Elder Hua was very excited. He and Qin Yuan had only known each other for less than a day, but Qin Yuan had actually given him such a precious book.

Moreover, he had the peerless divine technique, the Taiyi Divine Acupuncture Technique!

These things were the traditional Chinese medicine skills that the entire Chinese medical family cherished extremely. If Qin Yuan wanted to exchange them for money, just the Pharmacopeias and the Taiyi Divine Acupuncture

Technique would make all the traditional Chinese medical families go crazy!

“Because you are a true doctor, Elder Hua! I believe that Chinese medicine will definitely be passed down in your hands! I believe you know that I am a soldier and I have my mission!”

Qin Yuan’s tone was firm. Qin Yuan could indeed see the aura of a doctor from Elder Hua. He was relieved to hand this medicinal book to Elder Hua. He also believed that Elder Hua would be able to pass on the traditional Chinese medicine skills more effectively!

“Thank you for your trust!”

After Elder Hua heard Qin Yuan’s words, he was very touched. Qin Yuan was also a descendant of the Chinese Emperor who loved this land as much as he did! Their love for the country was deeply ingrained in their bones, and it had been flowing in their flesh and blood!

“Teacher, it’s time to eat!”

While the two of them were conversing, one of Elder Hua’s disciples walked forward and said.

“Good! Qin Yuan, let’s eat first! I’ll bring you to see if I have all the herbs you need after dinner!”

Elder Hua also knew that the cancer that Qin Yuan mentioned might really be cured by Qin Yuan, because it was recorded in the Chinese medicine pharmacopeias that Qin Yuan had given him!

“Good!”

As he spoke, Qin Yuan went to the study room and called Elder Liao before following Elder Hua out the door!

Half an hour later, after eating some simple food, Qin Yuan and the others followed Elder Hua to his pharmacy!

“Qin Yuan, this Tianshan Snow Lotus is a medicinal herb passed down from generation to generation in our family. This should be 70 to 80 years old!”

“Although our Hua Family doesn’t know how to use this herb, as long as we have news of the Tianshan Snow Lotus, we will try to preserve it!”

At first, Elder Hua did not understand why there was such a rule in the Hua family’s ancestral teachings. It was obvious that the Hua family’s inherited medical skills did not have any medical skills regarding the Tianshan Snow Lotus. Why did they have to pay such a huge price to collect these Tianshan Snow Lotuses?

However, at this moment, Elder Hua finally understood why!

“Yes, that’s it!”

Looking at the Tianshan Snow Lotus that Elder Hua handed over, Qin Yuan’s eyes were filled with excitement. This medicinal herb was exactly the same as what was recorded in the pharmacopeias! Moreover, the medicinal fragrance was very strong. When Elder Hua opened the box, the entire medicine room was filled with the medicinal fragrance of the Tianshan Snow Lotus!

“Elder Hua, thank you so much!”

Qin Yuan was also very excited. If he could get this Tianshan Snow Lotus, there would be hope for him to treat Xiao Zhenwu’s cancer! This was a medicinal herb worth ten million skill points!

“Compared to the Pharmacopeias you gave me and the Taiyi Divine

Acupuncture Technique, this is a little unpresentable!”

Elder Hua knew what the medicinal formula and Taiyi Divine acupuncture technique that Qin Yuan had given him represented. The value of those techniques could not be measured by material things!

With the Pharmacopeias, China’s traditional Chinese medicine would have hope of returning to its peak. Moreover, it would let the world know how brilliant China’s traditional Chinese medicine was!

“That’s the legacy, it’s what I should do!”

“But I still thank you for this medicinal herb because it can save my comrade’s life!”

Qin Yuan was also very grateful to Elder Hua. After all, how much time would it take for him to find these herbs?

Moreover, Qin Yuan did not have much time. He still had to bring the logistics company to report to the military region. The formation of Battle Wolf was imminent, so Qin Yuan did not have much time to stay here!

He also wanted to give the Iron Fist Regiment a big gift before leaving. He knew how important Xiao Zhenwu was to Kang Lei and the Iron Fist Regiment!

Although Qin Yuan had only stayed in the Iron Fist Regiment for slightly more than a year, Qin Yuan had long treated the Iron Fist Regiment as his home!

“Right! Qin Yuan, do you still have the medicinal herbs you need? Although I may not have all the medicinal herbs you need, our Hua family still has some inheritances!”

“Even if the Hua family doesn’t have it, I’ll think of a way to help you find it!”

Elder Hua also knew that Qin Yuan definitely needed other medicinal herbs, so he immediately asked. He was happy to help Qin Yuan, and he was happy to do things that could save people, not to mention that they were Chinese soldiers!

“Thank you, Elder Hua!”

Hearing Elder Hua’s words, Qin Yuan was very excited. After all, these medicinal herbs were too rare. He had no choice but to ask his grandfather for them!

However, things were different now that he had Elder Hua’s help. He knew that his grandfather could also help him get it, but Elder Hua was from the number one Chinese medicine family and was currently the best Chinese medicine doctor in China. His influence was very large!

“I’m fine! I’ll do my best!”

“And to be honest, we also want to witness the moment when cancer is cured by Chinese medicine!”

“If that’s the case, then the world’s medical world will be shaken!”

Elder Hua also said with a smile. He thought about how the Western doctors and doctors from all over the world would react if the cancer that had troubled the world’s medical field was cured by Chinese medicine!

“Good! After I find all these medicinal herbs, I’ll have to trouble Elder Hua to make a trip. After all, I don’t want others to know that I was the one who treated them!”

Qin Yuan also thought that if Elder Hua was around, he would be able to explain this matter very well. Otherwise, if everyone knew that he was the one who treated him, he really did not know how to explain it!

“This... Fine!”

Hearing Qin Yuan’s words, Elder Hua was a little surprised. However, he quickly understood Qin Yuan’s motive for doing so. Qin Yuan did not want to be too ostentatious!

“Elder Hua, thank you!”

Qin Yuan was very happy to get Elder Hua’s agreement. This way, he could explain it to Kang Lei!

“You don’t have to be so polite! I know what you’re thinking!”

Elder Hua also smiled faintly.. What he was looking forward to the most now was Qin Yuan’s treatment of cancer!

## Chapter 220: Dealing with the Medicinal Herbs Needed for Treatment! (Two Chapters Combined)

When he was flipping through the pharmacopeias just now, the page that Elder Hua saw happened to be an introduction to cancer treatment. That was why he was certain that Qin Yuan could treat cancer!

However, Elder Hua knew that only Qin Yuan could do the specific treatment method and operation.

“Then I’ll have to trouble Elder Hua to help me find all these rare herbs.

Otherwise, I don’t know how long it would take me to find all these herbs!”

Giving the pharmacopeias and Taiyi Divine Acupuncture Technique to Elder Hua was Qin Yuan’s duty. After all, he had received the inheritance of Chinese medicine from the system, so he had a mission to pass it on. Elder Hua helping him find these herbs was already a huge favor!

If Qin Yuan were to find these herbs himself, he did not know how long it would take mm to nna tnem!

If he could treat Xiao Zhenwu’s illness as soon as possible, then he would be able to build Battle Wolf with peace of mind!

“You’re welcome! What else do you need?”

Elder Hua went straight to the point. At present, he should be able to find the herbs that Qin Yuan needed in his pharmacy and his family’s pharmacy! “Currently, we are still lacking about 1,000-year-old natural wild ginseng!” “A 50-year-old Chinese caterpillar fungus and a five-split coptis root!”

“A hundred year old crocus...Magnolia bark... Huang Bai...Heavenly Drum... Fritillary...”

Qin Yuan told Elder Hua all the herbs that were still missing. There were still quite a lot of herbs needed, and the most important one was the Tianshan Snow Lotus. Fortunately, Qin Yuan had obtained the most important medicinal primer from Elder Hua!

“This... This required too many Chinese medicinal herbs! And I’ve never even heard of some of them!”

After hearing Qin Yuan’s words, Elder Liao, who was at the side, could not remain calm anymore. He did not expect so many herbs required to treat cancer.

Although Elder Liao did not know much about traditional Chinese medicine, he still knew some medicinal herbs. However, he had never heard of some of the medicinal herbs that Qin Yuan mentioned!

“This is cancer. If it was easy to treat, Western medicine would have been able to treat it long ago!”

Seeing Elder Liao's shocked expression, Elder Hua chuckled softly by the side. However, the medicinal herbs that Qin Yuan mentioned were really extremely rare. Some of the medicinal herbs were even almost extinct!

Just like how he had not heard of the Tianshan Snow Lotus for more than ten years, the Tianshan Snow Lotus given to Qin Yuan was passed down in the family!

“These medicinal herbs are indeed very rare, so there's still no way to spread the treatment of cancer!”

“Because these herbs are too rare!”

Qin Yuan also knew very well that although Chinese medicine could treat cancer now, the herbs needed to treat cancer were not simple!

“But it's important to save one person!”

Elder Hua sighed softly. These medicinal herbs were indeed very rare, but as a doctor, as long as he learned the Chinese medicine skills to treat cancer, he would do his best to treat it!

Looking at Elder Hua's expression, Qin Yuan knew that Elder Hua's state of mind was that of a doctor. Medicine was used to treat patients!

“I don't know if these medicinal herbs can be artificially cultivated. If it's possible, then all cancer patients have hope!”

Qin Yuan muttered in his heart. Now, he could only cure Xiao Zhenwu's cancer first. As for artificially cultivating these herbs, he could only see if the system have the technology to cultivate these herbs in the future!

“Qin Yuan, the Hua family has all the herbs you mentioned, but I don't have that many with me at the moment. When you need them, I'll send them to you!”

After thinking for a while, Elder Hua realized that his pharmacy did not have such a complete set of medicinal herbs. Many rare medicinal herbs could only be found in the family's pharmacy, so Elder Hua had to go back to the family.

“It's fine, Elder Hua! I might have to go back to the army tomorrow. As for these medicinal herbs, you can bring them with you when you go over!”

Now that all the herbs were found, Qin Yuan felt relieved. Thankfully he came to the Chinese medicine exchange meeting this time. Otherwise, he would not have met Elder Hua. It was impossible for him to find all the herbs so quickly!

“Alright! I'll go back and prepare in the next two days. I'll go over when the time comes!”

Elder Hua also wanted to see how Qin Yuan used these medicinal herbs to treat cancer. Although Qin Yuan had also given him the Pharmacopeias and Taiyi Divine Acupuncture Technique, he had yet to start learning and researching them.

And Qin Yuan was currently the best mentor. Elder Hua knew that Qin Yuan's attainments in traditional Chinese medicine must be much stronger than his. However, Qin Yuan's heart was not in traditional Chinese medicine, but in the army!

“Good! Elder Hua, this is my number. Just give me a call when the time comes!”

As he spoke, Qin Yuan handed his phone number to Elder Hua!

“Sure!”

Elder Hua nodded.

“By the way, Elder Liao, if you're free, why don't you come along? I know how much you love Chinese medicine!”

Qin Yuan knew that although Elder Liao was a Western doctor, he was very obsessed with Chinese medicine!

“Then I have to go! How could I miss such a historic moment!”

Elder Liao laughed out loud. He had never heard of treating cancer. If he did not know that Qin Yuan's attainments in traditional Chinese medicine were very high, he would not have believed that it was possible!

“Good! Then, Elder Hua, we'll go back first!”
