

## Special Troop 291

### Chapter 291: What The Heck is This?

He Chenguang immediately analyzed the situation. One had to know that he had never underestimated the strength of the Battle wolf members. The main reason was that he believed that the soldiers taught by Qin Yuan must be very strong.

“This kid is pretty good!”

Zhao Xiaowu, who had been hiding not far away, sighed softly. The more he looked at He Chenguang, the more he liked him. This was because he was only a soldier that Qin Yuan had led for three months, and they were all new recruits. It was already very good that he was so vigilant!

“Brother Guang, what should we do now?”

As they watched the minutes and seconds pass, the team members began to worry. It had been an hour since the start of the mission, and they had only advanced one-third of the way. If this continued, they would not be able to complete the mission in two hours.

“Everyone, don’t be anxious. The more impulsive we are, the more passive we will be. The two of you follow me in first. If there’s nothing, the others can come in. If there’s a problem, you guys can break out from other directions.”

He Chenguang looked at his teammates’ worried looks. He knew that they had spent too much time on this, but there was nothing he could do. This person from Battle wolf was not so easy to deal with!

“Yes, sir!”

“Yes, sir!”

As he spoke, He Chenguang led two of his team members forward, while the other team members quietly stood in place and watched He Chenguang and the others.

“Platoon leader, should we make a move?”

Seeing He Chenguang and the other two approaching, a Battle wolf member immediately asked Zhao Xiaowu.

“This kid is really quite careful. Since that’s the case, let’s make a move. There’s no need to hide like this when dealing with these rookies!”

Seeing He Chenguang’s action, Zhao Xiaowu was a little surprised. After all, He Chenguang’s vigilance was too strong.

“Yes, sir!”

As he said that, he whistled, and the Battle wolf members who were hiding in the surroundings suddenly rushed out.

“Not good! Retreat!”

Seeing the Battle wolf members suddenly charging out, He Chenguang was a little shocked. The nearest person was only four to five meters away from them. At this distance, they did not notice anyone here. Hence, he was especially surprised by the Battle wolf members' camouflage ability.

However, He Chenguang and the other two were already too late to retreat. At this time, they were already surrounded by Zhao Xiaowu and the others. "You've already entered. Do you think it's possible to leave?"

Looking at He Chenguang, Zhao Xiaowu said with a smile. He was quite appreciative of He Chenguang's actions.

"Looks like I still have to fight with you no matter what. Come on then! "

As he spoke, He Chenguang entered a battle stance. He knew very well that the members of Battle Wolf were all very strong, but he would not admit defeat. If he could not fight, he would be beaten up.

"What? You want to resist with just the three of you?"

Looking at He Chenguang's posture, Zhao Xiaowu was surprised. He thought that He Chenguang and the others would surrender without a fight. He did not expect them to still want to fight against them.

"So what if there are three of us? Do you think I'll be afraid of you?"

"That's right. At most, I'll just be beaten up by you guys. What's there to be afraid of? In the recruit company, we got beaten up all the time!" Hearing Zhao Xiaowu's words, the other two members said loudly.

"Yo, looks like these rookies still have some backbone!"

Seeing this scene, the other Battle wolf members laughed. However, they felt that this was the temperament of a soldier.

"Cut the crap. Come at us if you want. Our company commander never taught us to admit defeat!"

Looking at the Battle wolf members, He Chenguang wasn't afraid. To him, it was a rare opportunity to compete with the strong. Even if he couldn't defeat them, he wouldn't admit defeat.

"That's right. In that case, I'll exchange a few moves with you!"

As he spoke, Zhao Xiaowu rushed toward He Chenguang and the other two. He alone was enough to deal with the three of them.

Seeing Zhao Xiaowu flying directly towards them, He Chenguang rushed forward. Only by touching him would he know how strong he was.

Bang!

Their fists collided, and He Chenguang was forced back two steps by the impact, while Zhao Xiaowu was forced back one step.

“Very good. Your strength is a little beyond my expectations.”

After the two separated, Zhao Xiaowu looked at He Chenguang with some surprise because He Chenguang’s strength was beyond his expectations. He did not expect He Chenguang to have such strength after only three months in the army.

Even though he knew that He Chenguang and the others were soldiers brought out by Qin Yuan, he was still very surprised that a three-month-old recruit could have such strength.

“This kid is not bad!”

“Even if he was brought out by the captain, this recruit is still a little fierce!”

The other members of Battle wolf were a little surprised because they knew Zhao Xiaowu’s strength very well. Even if he didn’t use his full strength, these recruits couldn’t be his opponent. They didn’t expect Zhao Xiaowu to be forced back by He Chenguang!

“Again!”

As he spoke, Zhao Xiaowu used all his strength to deal with He Chenguang. After all, He Chenguang’s strength was indeed beyond his expectations, so he did not underestimate He Chenguang.

After the two of them fought back and forth for more than ten rounds, Zhao Xiaowu caught He Chenguang in a gap. He sent He Chenguang flying.

After He Chenguang stabilized himself, he stared at Zhao Xiaowu. Zhao Xiaowu was indeed very strong, and this exchange of blows had surprised him.

The Battle wolf members were indeed too strong. At first, he knew that Zhao

Xiaowu did not use his full strength, which was why he was able to force Zhao Xiaowu back. However, after Zhao Xiaowu reacted, he was no match for Zhao Xiaowu at all!

“Brother Guang, we’ll help you!”

After seeing this situation, the other two members knew that He Chenguang alone could not deal with Zhao Xiaowu, so they immediately launched an attack on Zhao Xiaowu.

The other members of Battle wolf didn’t make a move. They knew that Zhao

Xiaowu could handle it. If they went up to help, it would be a slap to Zhao

Xiaowu’s face. After all, they were Battle wolf members. They knew that He

Chenguang and the other two were no match for Zhao Xiaowu, even though He Chenguang’s strength had surprised them.

Soon, the other two members were kicked away by Zhao Xiaowu and smashed heavily into the tree trunk.

“Brother Guang! We’re here!”

At this moment, He Chenguang and the rest of the team rushed in. He Chenguang and the others had been here for some time, and they had been waiting for no news. They ran in directly.

“Why are you all here? Didn’t he say that if there was no response from them, they would break in from other places?”

He Chenguang said helplessly when he saw his team members running in. He knew that even if they had more than 30 people, they wouldn’t be a match for the Battle wolf. If all of them came in, their team would have no hope at all!

“Brother Guang, how could we leave you guys behind? Besides, the captain didn’t teach us this!”

Seeing the members of Battle wolf, the others were a little surprised, but this did not mean that they were afraid!

“That’s right. If we want to be beaten up, we have to be beaten up together. We won’t abandon our brothers.”

He Chenguang and the others laughed. They knew that they were no match for Battle wolf, so they would definitely be defeated. However, they would not admit defeat.

“Good! Then let’s attack together. Even if we fall, we have to pluck some feathers before we fall!”

He Chenguang’s eyes were filled with battle flames. If Battle wolf said that they were rookies, then why couldn’t they say that Battle wolf members are rookies too?

“Feathers?”

“Brother Guang! What feathers?”

“Is this a good idea?”

For a moment, a team member standing beside He Chenguang seemed to have thought of something and asked He Chenguang, not knowing what to do..

Chapter 292: They Have Something in Common

“What are you thinking about?”

“I said that they said we are rookies, so why can’t we think they are rookies

He Chenguang looked at the team member and said helplessly. He knew what this guy was thinking, so He Chenguang was a little embarrassed.

“Ah! So that’s how it is!”

After hearing He Chenguang’s explanation, the team member scratched his head in embarrassment.

“You’re quite cocky. Then let’s see if you have the ability!”

Zhao Xiaowu’s mouth twitched when he heard He Chenguang’s words. It was the first time he had heard someone say that about them.

“Brothers, it’s time to work!”

Zhao Xiaowu turned around and said to the Battle wolf members behind him. He didn't want to waste too much time on this.

“Yes, sir!”

“Then let these guys know if they're capable or not!”

As he spoke, the other members of the Battle wolf started laughing. They did not take He Chenguang's words to heart. Dealing with over 30 people like He Chenguang was a piece of cake for them.

“F \* ck! Let's show them what we're made of!”

“That's right. Brothers, let's beat them up together. We don't believe that we can't get rid of one or two people with so many people.”

At this time, the soldiers of the recruit company were very unconvinced. It didn't matter if they couldn't win, but they couldn't lose in terms of momentum.

As he said that, the recruits even roused a surge of blood in their hearts. Each and every one of their stubbornness was stimulated.

After saying that, He Chenguang took the lead and immediately attacked Zhao Xiaowu. When the recruits saw He Chenguang rushing out, they immediately followed behind him and attacked the other Battle wolf members.

“Good fellow, great timing!”

Looking at He Chenguang and the others' actions, Zhao Xiaowu felt some admiration. Looking at He Chenguang's sweeping leg, Zhao Xiaowu rushed out.

For a time, the entire field was in a heated exchange. The recruits would form groups of three to attack the members of Battle wolf. For a time, it was impossible to tell who would win or lose.

About ten minutes later, the recruits began to show signs of decline. Many soldiers lost their ability to fight after being accidentally hit.

“Battle wolf!”

Zhao Xiaowu's voice spread throughout the entire venue.

“Here!”

“Here! ”

After hearing Zhao Xiaowu's voice, the members of Battle wolf responded loudly.

“Stop playing around, quickly finish the battle, and go back to eat!”

After a few seconds of silence, Zhao Xiaowu smiled and said, because he knew that these guys in the recruit company had already reached their limit, so there was no point in continuing.

“Yes, sir!”

“VPR Rir!”

As he spoke, Battle wolf’s attacks suddenly became more intense.

Seeing this scene, everyone in the recruit company was a little shocked. It was obvious that these members of Battle wolf had not used up all their strength.

For a time, under the fierce attacks of the Battle wolf, the members of the recruit company were gradually defeated by the Battle wolf.

“Leng Feng? Should we attack?”

At this time, Leng Feng’s team had circled around He Chenguang’s team. They had seen the scene just now, so Shi Sanba immediately asked Leng Feng. “Since we’ve met, there’s no reason not to save them. At most, we’ll start over!”

Leng Feng replied in a deep voice. He had seen every move of He Chenguang and the others just now, so he admired the temperament of the recruits.

The spirit of not giving up was his favorite spirit. He had wanted to see how strong these Battle wolf members were, so they had not made a move yet. However, they had no choice but to help now. Otherwise, He Chenguang and the others would really be killed here.

“Yes! We are all here to participate in the selection. We can’t just let them bully us. Brothers who are not afraid of death, come with me! ”

Yu Fei said loudly.

“Why should we be afraid? Let’s attack together! We have so many people, so we have to get rid of a few of them!”

For a moment, the people in Leng Feng’s team were filled with hot blood. The actions of the recruit company just now had indeed stirred up the raging blood in their hearts.

“Let’s go!”

As he spoke, Leng Feng was the first to rush out. He saw Zhao Xiaowu’s punch toward He Chenguang and blocked it.

“Hmm? You guys are finally willing to come out?”

Seeing Leng Feng and the others rush out, Zhao Xiaowu said in a low voice. When Leng Feng and the others arrived, he had already discovered that they were hiding in the bushes at the side and watching their battle. After being trained by Qin Yuan for so long, their alertness had increased, so he knew when Leng Feng and the others arrived.

However, he didn’t expect Leng Feng and the others to participate as well. They had adopted an elimination system for the selection, so if He Chenguang’s team was eliminated, Leng Feng’s team would have one less competitor.

“What? When we participated in the selection, was it mentioned that we couldn’t help other teams?”

After hearing Zhao Xiaowu's words, Leng Feng was a little surprised. They were at least 20 meters away from where they were, but he didn't expect the Battle wolf to notice them even when they were fighting. Their alertness was indeed very high..

Chapter 293: They Have Something in Common

"No, but do you think it's worth it to sacrifice your team for them?"

"You have to know that the number of people who can join Battle wolf is limited!"

Zhao Xiaowu asked Leng Feng with a smile.

"Why are you talking so much nonsense? Whether it's worth it or not, we have the final say. If you have the ability, beat us all down here!"

Leng Feng was very clear that as long as they participated, their team might die here. If that was the case, they basically had no chance of joining Battle wolf anymore.

However, they couldn't just watch as He Chenguang and the others were beaten up. Moreover, he liked the temperament of He Chenguang's team. As soldiers, you can lose a fight, but you can't back down.

"Why are you guys coming over here?"

Seeing Leng Feng and the others appear here, He Chenguang was a little surprised. After all, they had walked in the opposite direction from Leng Feng and the others, so He Chenguang was especially surprised when he saw Leng Feng and the others!

"Our path was completely impassable. We didn't go far before we were blocked by a few mountains, so we turned back!"

Seeing He Chenguang's question, Leng Feng began to explain.

"You guys shouldn't have gotten involved. If you do, you'll lose your chance to enter Battle Wolf!"

He Chenguang said in a deep voice. He knew that even with Leng Feng and the others, they might not be able to deal with Zhao Xiaowu and the others. The strength of the Battle Wolf members was indeed too strong. After fighting with Zhao Xiaowu for so long, he knew very well how strong Zhao Xiaowu was. Even now, his arm still felt waves of pain.

"If we didn't come, wouldn't you have been defeated even more miserably?"

Besides, who said that we definitely wouldn't have a chance!"

"How would we know if we don't try? Isn't that right, everyone?"

At once, Leng Feng asked everyone loudly!

"Yes! At worst, we'll be beaten up by them together. We'll come again next year!"

"Since we're already here, let's have a good fight!"

For a moment, the entire team responded to Leng Feng's words. He Chenguang was very pleased to see such a scene. With such a comrade, he felt that it was not a loss to participate in the Battle Wolf selection. Even if they could not stay, at least they would not feel regretful.

"But... That way, no one will have a chance!"

No matter what, He Chenguang was very grateful to Leng Feng and the others for helping. However, this concerned everyone's future, so he said to everyone with some worry.

"No buts. Focus and prepare for battle. I really can't beat this guy!"

Leng Feng said to He Chenguang with a smile. He had been paying attention to Zhao Xiaowu's every move, so he knew that he was no match for Zhao Xiaowu.

"Yes, sir!"

Seeing Leng Feng's determined gaze, He Chenguang did not say anything else. He relaxed his muscles and bones and got into a battle stance.

"That's right, I'm touched by you guys, but rules are rules. We won't be able to answer to the captain even if we let you guys go, so show us your strength!"

Zhao Xiaowu smiled and said. To be honest, he liked these guys very much. This kind of soldier was in line with the standards of their Battle Wolves. 'Never abandon or give up' had always been their slogan. From the logistics company, they had never abandoned a teammate!

"Platoon leader, do these guys look like us at the beginning?"

Seeing this scene, a Battle Wolf member whispered to Zhao Xiaowu. This scene had happened to them often in the past. For a moment, they saw themselves in He Chenguang and the others.

"Indeed, these guys are not bad, but as the first batch of Battle Wolf, we have to follow the captain's rules! We can admire their spirit, but we can't hold back!"

"We should be responsible for Battle wolf, them, and the other participants!"

Zhao Xiaowu turned his head and whispered to the Battle wolf members. They shouldn't have any sympathy at this time. It would be irresponsible for them.

"Yes, sir!"

"Got it, platoon leader!"

The members of Battle Wolf nodded their heads heavily. They knew what Zhao Xiaowu meant, so they would not choose to go easy on He Chenguang and the others at this time, because doing so would not respect them but belittle them.

"Battle wolf!"

"Here! "

"Here!"

"Kill, kill, kill!"

Zhao Xiaowu's voice spread throughout the entire arena. The Battle Wolf members immediately attacked He Chenguang and Leng Feng.

This time, they did not hold back at all. He Chenguang and the others did not show any signs of admitting defeat. Even after being knocked down repeatedly, they immediately got up and continued to attack the Battle Wolf members.

For a time, the entire scene continued to repeat the scene from the beginning. They kept getting knocked down and getting up again and again. This repeated for about half an hour.

“These guys really don't want to live anymore!”

In the distance, Gong Jian was watching everything that was happening. He was shocked by the stubbornness of He Chenguang and Leng Feng, and he was impressed by the Battle Wolf Team One. The more he looked at these two teams, the more he liked them, because each team had their own strengths.

At this moment, Qin Yuan and Long Xiaoyun walked towards Gong Jian and the others because Qin Yuan already knew about Wang Yanbing's situation. Now, Geng Hu was in a heated battle. Geng Hu did not know how long it had been since he last fought, but he had been messing with Wang Yanbing and the others.

Qin Yuan did not say anything when he saw that because he knew that Geng Hu would have no problem dealing with Wang Yanbing and the others alone but this guy had just been messing with them.

Therefore, he brought Long Xiaoyun to He Chenguang and the others, while Zhou Qing and the others went to deal with the other teams.

“Instructor Gong!”

Qin Yuan walked to Gong Jian's side and called out softly.

“Captain Qin? Captain Long? Why are you guys here?”

Qin Yuan's sudden appearance made Gong Jian tremble. Because he was too engrossed in the battle between He Chenguang and the others, he did not notice Qin Yuan's arrival. However, Qin Yuan usually walked silently anyway.

“What are you so engrossed in?”

Qin Yuan wanted to laugh when he saw Gong Jian tremble, so he immediately asked.

“Captain Qin, come and watch the two wolf packs fight. To be honest, I've never seen two teams like this before!”

Gong Jian smiled and pointed in the direction of Zhao Xiaowu and the others.

Qin Yuan had actually paid attention to the situation on Zhao Xiaowu's side. Qin Yuan was very clear about the members of Team One and the soldiers he had selected to participate in the selection. They had different personalities and characteristics, but they had very good strengths.

“Instructor Gong, what do you think of them?”

As he spoke, Qin Yuan wanted to hear Gong Jian's opinion.

"The members of the first team act very calmly, and following the rules is their duty, they never easily cross the line!"

"And these soldiers participating in the selection competition can be described in one word, stubborn!"

"Even though they know it's not feasible, they keep pushing forward with gritted teeth, refusing to give up easily!"

"These two teams have their own strengths and characteristics! " "I suddenly seem to know what you meant when you said those words back then!"

As he spoke, Gong Jian replied to Qin Yuan with a smile. Now, he knew why Qin

Yuan had always said that he would bring in these new recruits.

This was because many times, the characters of these guys in the recruit company and the members of team 1 could complement each other. This would be of great benefit to them when they carried out missions together in the future.

"Your analysis is accurate, but what I admire most about them is their spirit of never abandoning and never giving up. That's a common trait among them!"

"Actually, you should have noticed that there was a moment when the members of Team One hesitated.. That was because this had happened to them countless times!"

Chapter 294: Nevermind the Sneak Attack, But You Still

Want to Take Something!

Qin Yuan had already detected everything that had happened not far away, so he noticed the moment Zhao Xiaowu and the others hesitated. However, Qin Yuan was very pleased that Zhao Xiaowu and the others did not violate the assessment rules because of this.

"He Chenguang, Leng Feng, and the others will be able to reach the standards of the special forces if they train a little more!"

Looking at the non-stop fighting on the field, Qin Yuan smiled.

After hearing Qin Yuan's words, Gong Jian nodded.

The members of Battle Wolf Team One had already matured, and He

Chenguang and the others were still far from the soldiers of Battle Wolf Team

One. However, this was normal. After all, the members of Battle Wolf Team

One were the first to be with Qin Yuan, so they were definitely much stronger.

"What? Do you guys still want to continue?"

Zhao Xiaowu said to He Chenguang and Leng Feng with a smile after defeating a soldier of the recruit company. Zhao Xiaowu was surprised that He Chenguang and the others hadn't given up even after fighting until now. Some of the soldiers' faces had been beaten until they were swollen, but they still hadn't given up.

They would only stop attacking them if they completely lost their ability to fight. Zhao Xiaowu admired their stubbornness.

**"I already said... We won't give up unless we completely collapse!"**

He Chenguang was injured. His left arm had been accidentally dislocated in the battle just now. He Chenguang had just returned his left arm to its original position and could not exert any strength now.

**"Again!"**

Leng Feng's eyes were fixed on Zhao Xiaowu. He Chenguang and he had already tried their best to suppress Zhao Xiaowu, but they would not give up so easily.

**"Good!"**

It had been a long time since Zhao Xiaowu had such a good fight. He Chenguang and Leng Feng were quite strong, and he could gain some fighting experience.

Leng Feng took a deep breath and dashed toward Zhao Xiaowu. He Chenguang followed closely behind Leng Feng.

Seeing Leng Feng and He Chenguang coming at him, Zhao Xiaowu curled his lips slightly and raised his fist to attack them.

At this moment, the other members of the Battle wolf were attacking the other soldiers who were participating in the selection. Although it was not difficult for them to deal with dozens of soldiers participating in the selection, the behavior of these soldiers surprised them.

This was because many of the soldiers were clearly heavily injured, but they still continued to stand back up and attack them. If they couldn't move their hands, they used their heads to attack. Some of the soldiers even had a trace of blood flowing from their heads.

**"Aren't these guys too stubborn? Why are they still attacking?"**

After pushing back a few more soldiers, a Battle Wolf member asked in surprise.

**"This group of brats' stubborn temper is a headache. Unless we directly beat them until they lose their combat ability or directly knock them unconscious, they won't be able to move their hands and will directly use their heads!" "My nose was accidentally hit by these guys and it bled!"**

A Battle wolf member said helplessly. He had just been surrounded by two soldiers. The other soldier could not even move his hands, but he had directly charged at him with his head. The violent impact caused his nose to bleed.

Although he had kicked them away in the end, he still felt awkward.

“Just knock them out. If this goes on, we might even suffer some injuries. That would be embarrassing!”

The members of the War Wolf team felt a bit helpless with the actions of these soldiers. If they didn't knock them out or completely incapacitate them, these soldiers wouldn't give up.

“You're right, don't hold back! ”

At this moment, the Battle wolf members came to a unanimous decision. If this continued, they would lose face.

As they spoke, they directly knocked out the soldiers charging at them or directly made them lose their combat ability for a short period of time!

Ten minutes later, all the battles gradually came to an end. Now, only He Chenguang and Leng Feng were left. However, He Chenguang's arm was dislocated again. For a moment, He Chenguang's forehead was covered in sweat!

“They've already fallen, and there's only the two of you left, why don't you give

Seeing that He Chenguang's arm was trembling, Zhao Xiaowu knew that He Chenguang's arm was badly injured.

“As long as we can still move, we won't give up!”

Leng Feng noticed that Shi Sanba and the others had been taken care of. Other than him and He Chenguang, the other members of their two teams had either fainted or lost their ability to fight.

“Alright, as you wish!”

Zhao Xiaowu knew that if he didn't beat Leng Feng and He Chenguang, these two guys wouldn't admit defeat.

As he spoke, Zhao Xiaowu's aura was released. This time, he chose to use all his strength to deal with He Chenguang and Leng Feng. He had been trying to find out the limits of their strength, but it was obvious that Leng Feng was more experienced than He Chenguang in combat!

“Chenguang! We're here!”

At this moment, Li Erniu's loud shout stunned everyone present!

He Chenguang looked in the direction of the sound and saw Li Erniu running towards them with his team dozens of meters away!

Chapter 295: Nevermind the Sneak Attack, But You Still Want to Take Something!

Seeing Li Erniu and the others running over, Zhao Xiaowu was a little confused. Why are they coming to his side?

“Brother Niu? Why are you running here?”

After Li Erniu came, He Chenguang asked in surprise. That wasn't the only way to the destination, but why did Leng Feng and Li Erniu come here?

"Don't talk about it. These guys have set up a bunch of traps waiting for us. I just led the team in and was confused by these traps not long after."

"After thinking about it, I thought it might be better to follow you, so I led the team in your direction!"

As he spoke, Li Erniu said helplessly. Their team could not discover any of the traps that had been set up. They had triggered these traps not long after they entered, and they almost could not get out. Therefore, he thought that He Chenguang was more meticulous, so he led his team to their side.

"Um... That Brother Niu, you saw that we're not much better!"

After hearing Li Erniu's words, He Chenguang said helplessly. Right now, his team and Leng Feng's team only had the two of them left. Based on Battle wolf's strength, Li Erniu and his team would follow in their footsteps!

"These guys are actually that strong?"

Looking at his comrades lying on the ground, Li Erniu asked in surprise, because he noticed that there were only two people left in He Chenguang's group.

"Not strong, but extremely strong!"

Seeing that Li Erniu still didn't understand the situation, He Chenguang smiled. Only now did he realize that there was such a huge gap between them and the Battle wolf!

"Then we can only take them head-on. Since we're already here and we can't enter by ourselves, we might as well fight alongside you!"

After listening to He Chenguang's explanation, Li Erniu grinned. His team was basically made up of people from their recruit company, so they had unanimously decided to follow He Chenguang and the others when they came.

"Yes! Brother Guang, our brothers have fallen and we can't enter by ourselves. Since that's the case, let us fight together!"

"Yes! We have the same idea!"

Li Erniu and his team immediately said to He Chenguang. They were all from the recruit company. When they saw that He Chenguang's team had been beaten down, they were a little angry.

"Alright! Then let's go together!"

Looking at Li Erniu and the others, He Chenguang didn't say anything else. He knew that since these guys were already here, it was even more impossible for them to leave now.

"Yes, sir!"

"Yes, sir!"

As he said that, the thirty over people quickly got into battle stance!

“What are they doing? Why are they all coming towards us?”

For a moment, the Battle wolf members who had just finished dealing with Leng Feng and He Chenguang were stunned!

This was because according to the route of each team, there should be at most two teams coming towards them. However, it was obvious that these soldiers participating in the selection did not play by the rules!

“Are they planning to sacrifice themselves one by one?”

“I don’t know, but I know that we’ve poked the monkey’s nest today.”

Looking at the 30 or so soldiers who had just arrived, the Battle wolf members could only laugh helplessly. However, they had to be on high alert because the battle just now had drained their stamina. These guys were too difficult to deal with!

“They’re still coming. Brothers, this time, we’ll clean them up!”

Zhao Xiaowu turned his head and said to the other members of Battle wolf, Li Erniu’s appearance was unexpected to him. Originally, he had planned to finish off He Chenguang and Leng Feng immediately and then complete the mission, but he didn’t expect Li Erniu’s team to actually come here!

“Yes, sir!”

“Yes, sir!”

The Battle wolf replied loudly.

“Why is Li Erniu here?”

Not far away, Gong Jian and Long Xiaoyun were surprised to see Li Erniu’s team coming over. According to the route given to them, Li Erniu’s team didn’t go in the same direction.

“This guy must have been scared by the Battle wolf’s trap, so he came to find He Chenguang and the others. After all, Li Erniu’s strength is not bad, but he’s a little silly!”

When Long Xiaoyun saw this scene, she started to analyze. Among the recruits, the ones who had the deepest impression on her were He Chenguang, Li Erniu, Wang Yanbing, and Fatty Zhang!

Therefore, she had some understanding of these people. After seeing this scene, she thought of something.

“It seems that Zhao Xiaowu and the others have stepped on dog shit!”

Seeing this, Qin Yuan said with a smile. Qin Yuan knew Li Erniu’s character very well. Moreover, the situation was just as Long Xiaoyun had said. If He Chenguang, Wang Yanbing, and Li Erniu

were together, they could indeed display their strength very well. If they were separated, they would have a huge shortcoming!

For a moment, Li Erniu and the others immediately attacked the members of Battle wolf, and with Li Erniu's participation, Zhao Xiaowu was unable to do anything to He Chenguang and the others for a short period of time, and he kept retreating!

The other members of Battle wolf were the same. Because they had already exhausted a large amount of their stamina, they could not find any way to break through the encirclement of 30 people!

“These soldiers all have the same stubbornness? It's really strange!”

After repelling the attacks of some soldiers, a member of the Battle Wolf team also expressed amazement. Li Erniu's team, just like the two teams led by He Chenguang and the others earlier, possessed the same kind of stubbornness, which was giving them a bit of a headache.

“Indeed, the captain's judgment is really sharp. These soldiers have quite good physical qualities.”

“It seems that it will be a little difficult to finish work early today!”

Facing such a situation, the other members of Battle wolf had the same thought. Soldiers like this were the hardest to deal with. They were like wolf cubs. As long as they could move, they would not stop attacking!

“Watch your back!”

A Battle Wolf member shouted at another Battle Wolf member. However, that Battle Wolf member didn't have time to react and was kicked by a soldier from the recruit company. A huge shoe print was left on his back.

“Hurry up and finish the battle. Don't continue to waste time with them.”

After they reacted, the members of Battle wolf knew that they wouldn't be able to hold on for much longer.

“Yes, sir!”

“Yes, sir!”

All the Battle wolf members replied in a loud voice.

Facing such troublesome soldiers, they felt a headache coming on.

As for Zhou Qing and the others, it was much easier. At the beginning, just Geng Hu alone there was enough. He originally wanted to go to Zhou Qing's place to take a look, but Qin Yuan asked them to go to another place.

Moreover, after some teams experienced those traps, many people were trapped, so Zhou Qing and the others had to clean up the mess along the way.

“Let me go if you dare! I won't admit defeat. Come at me again if you have the guts!”

On Geng Hu's side, Wang Yanbing was tied to a tree and was being beaten up. After fighting Geng Hu for more than ten rounds, more than ten people instantly lost their ability to fight and fainted!

Geng Hu's explosive power was simply terrifying. He basically dealt with each person with one punch. Seeing that something was wrong, Wang Yanbing grabbed a brick-sized rock from somewhere and rushed forward. Geng Hu did not think too much about it, so he was hit by Wang Yanbing when Geng Hu was not paying attention.

Geng Hu, who was furious, did not care about anything else. After dealing with everyone, he tied Wang Yanbing to a tree and started beating him up.

"You bastard, you don't play by the rules. You actually ambushed me. It's fine if you ambushed me, but you even used a weapon!"

Geng Hu's head was bleeding profusely. After bandaging himself, he continued to beat Wang Yanbing up. Wang Yanbing's entire face was beaten into a pig's head by Geng Hu, but Geng Hu was still angry.

If the other members of the Battle wolf saw this, then he would lose a lot of face. However, all of this was done by Wang Yanbing.. How could he let him off so easily?

Chapter 296: A Strange Magnetic Field!

"There's no rule that forbids the use of things or weapons in the selection, right? To deal with a silly big guy like you, how can I beat you without using anything?"

Wang Yanbing did not expect Geng Hu's strength to be so abnormal. When his full strength hit this guy, it was like scratching an itch. It was not painful at all.

This situation was something they had not expected. In the beginning, they were only able to exchange a few moves with Geng Hu because Geng Hu was playing with them.

"You're right. Captain didn't say that you're not allowed to use things, but he didn't say that you can't be tied up and beaten up."

As he spoke, Geng Hu stood up with a smile and walked towards Wang Yanbing. He was tired from beating Wang Yanbing, so he took a break.

However, when he saw Wang Yanbing's unconvinced expression, Geng Hu was angry. Even in this situation, these guys did not begged for mercy at all, which made him a little surprised.

"F \* Ck your grandpa, again!"

Seeing Geng Hu walking towards her again, Wang Yanbing could only roar helplessly. He was tied to a tree by Geng Hu and could not move at all, so he could only keep getting beaten up.

"This guy is too terrifying. Brother Bing is going to suffer!"

"Yeah, I really don't know how the Battle wolf members were trained to be so strong. "

“The attacks of more than thirty of us were useless against him. Now, we can only watch as Brother Bing gets beaten up.”

Seeing Geng Hu walking towards Wang Yanbing, the other members who were

tied to the tree sighed helplessly. There were more than 30 of them who could not cause any damage to Geng Hu. Now that they were tied to the tree by Geng Hu, they could only watch Wang Yanbing get beaten up. There was nothing else they could do!

At this moment, Zhou Qing and the others were almost done cleaning up.

Along the way, they had taken care of about four teams.

“Old Zhou, it seems like there are still two teams missing!”

Liu Ye said curiously as he looked at the teams that had been taken care of. They had already taken care of four teams.

One was with Geng Hu. He had just asked Zhao Xiaowu about the situation on his side through the walkie-talkie and knew that Zhao Xiaowu and the others had encountered three teams. So far, there were still two teams missing. After Zhou Qing heard Liu Ye’s words, he sized up the participating teams.

“Indeed!”

As he spoke, Zhou Qing turned on the communication device in his hand.

“Zhang Dajun’s team and Jiang Feng’s team haven’t appeared yet.”

Looking at the team list and information of each team sent by Qin Yuan, Zhou Qing immediately said.

“Did these two teams go around us and enter the swamp?”

After such a long time, logically speaking, they should have entered the areas where they had set up traps because they had set up traps around their destination.

Logically speaking, no matter which direction they came from, they would have to pass through their traps. However, after such a long time, they did not notice that the two teams had barged in.

“It’s possible!”

“Let’s go. Leave a few people to watch over these guys. We’ll hurry over and take a look!”

As he said that, Zhou Qing became a little worried. Even they had suffered a great loss in the swamp. Coupled with the fog and miasma, it was very dangerous.

“Good!”

Liu Ye realized the seriousness of this. If Jiang Feng and the others really walked into the swamp, then it was very likely that they would be trapped inside.

Liu Ye immediately left a few people behind and led the others to follow Zhou Qing closely in the direction of the swamp.

“Captain, captain, please answer if you hear me!”

At this moment, Liu Ye called into the walkie-talkie. He had to inform Qin Yuan of this situation.

“What’s wrong?”

Qin Yuan immediately asked after hearing Liu Ye’s call.

“Jiang Feng and Zhang Dajun’s team hasn’t appeared yet. Old Zhou and I guessed that they might have gone around this place and entered the swamp, so we’re heading in the direction of the swamp.”

“It’s dangerous inside. With their current strength, they might be in danger if they go in, so I have to inform you.” Liu Ye immediately reported.

“I’ll go over now!”

Hearing this, Qin Yuan frowned. It seemed that Fatty Zhang and the others might have really barged into the swamp.

“Instructor Gong, I’ll leave this to you two. I’ll go to Zhou Qing and the others.”

After saying that, Qin Yuan turned his head and said to Long Xiaoyun and Gong Jian.

“Did something happen?”

Seeing Qin Yuan’s frown, Long Xiaoyun immediately asked.

“It’s fine. It’s just that there are two teams that should have walked into the swamp. They should still be trapped inside and can’t get out!”

Qin Yuan explained. From the looks of it, the situation should be right, because Qin Yuan knew that Fatty Zhang and the others were likely trying to bypass these traps and enter the destination from the back.

“Swamp? Will they be in danger?”

After hearing Qin Yuan’s words, Gong Jian became a little nervous because he knew very well how terrifying the swamp was. At that time, they had been trapped there for a long time.

“It’s fine. You don’t have to worry. Zhou Qing and the others have already gone over. I’ll follow them now..”

Chapter 297: A Strange Magnetic Field!

“Alright, Captain Qin! If there’s anything, inform us immediately!”

Gong Jian nodded and said.

“Do you want me to go with you?”

“What’s going on?” Hearing this, Long Xiaoyun immediately asked.

“No need, I’ll go over. We need people here too. After the battle is over, we’ll just bring them back to the base.”

“Good!”

After saying that, Qin Yuan immediately rushed toward the swamp. Fortunately, the system did not send any information that the soldiers’ vital signs were in danger.

Fatty Zhang and Jiang Feng had indeed walked into the swamp. “You still haven’t found the direction?”

Fatty Zhang looked at Jiang Feng and the others and asked helplessly.

After the two teams had encountered some traps, they had planned to bypass them and enter the destination from the back. However, they did not expect to walk into this foggy place.

“This damn place is really strange. It was fine when I first came in, but I was immediately enveloped by this fog.”

“I’ve been walking around with the team for a long time, and I’m back here!”

After hearing Fatty Zhang’s question, Jiang Feng explained helplessly. After they walked in, they were immediately enveloped by a layer of fog. He had already led the team around for more than an hour, but they still returned to the starting point.

“We did the same. According to your method, you went left and we went right, but we still met again. It’s as if we’ve been walking in circles.”

At this moment, Fatty Zhang was at a loss. They had already circled this place three times, but they still could not find the way out.

“Do you think we’ve encountered the legendary ghost wall?”

At that moment, a soldier from the 6th Company said to the crowd in a panic. The situation was akin to what people often described as being trapped or disoriented, where it seemed impossible to find a way out.

“You brat, what nonsense are you talking about?”

“We’re soldiers. If you keep talking nonsense, I’ll beat you up!”

Hearing the soldier from the Sixth Company say this, Jiang Feng said to the soldier angrily. They were soldiers. How could they say such superstitious things?

“But...But Platoon Leader, we were clearly walking to the left just now. There’s no way we’re wrong.”

“But, but we still ran into them again!”

As he said that, the soldiers of the 6th Company looked helplessly at Fatty Zhang and the others. If it wasn't for the ghost wall, the two teams would have gone in opposite directions. How could they have met each other? This didn't conform to science at all.

For a moment, many people in the team panicked. Just as the soldiers of the 6th Company had said, this did not conform to science at all.

If one person's perception was wrong, it would be understandable. However, all of them were walking in the direction they had just decided. In the end, the two teams still bumped into each other. Such a situation was not logical.

"Everyone, don't panic. This place is filled with a strong magnetic field. In addition, this thick fog will cause our perception to be misled."

"So, don't worry. As long as we wait for the fog to dissipate, we'll be able to get out."

Seeing that some of the soldiers in the team were panicking, Fatty Zhang comforted them.

"The fog is getting thicker and thicker, and the visibility is really too low. I think we shouldn't continue walking randomly. It won't be good if something happens!"

Jiang Feng suggested to everyone as the fog grew thicker. With such visibility, it was impossible to continue moving forward.

"Alright, but if that's the case, our assessment this time is equivalent to failing."

Fatty Zhang was a little disappointed as he spoke. This selection was the key to whether they could enter Battle Wolf. Now that they were trapped here, they felt a little depressed.

"Fatty, there's nothing we can do about it. After all, we've already decided to avoid meeting Battle wolf's people, so we didn't have any complaints when we walked in."

"As for entering Battle wolf, if we can't make it this year, we'll come back next year. As long as we continue to improve our strength, one day we'll become a member of Battle wolf."

Jiang Feng saw that Fatty Zhang was a little disappointed, so he immediately comforted him. To be honest, Jiang Feng's mentality was very strong. He was already very surprised when he was suddenly transferred here to participate in the Battle Wolf selection. After all, their strength was not particularly outstanding.

Moreover, after coming here and seeing Leng Feng and the others, Jiang Feng did not think that they would be selected to join the Battle wolf because he was very clear about his own strength.

However, he did not feel discouraged because of this. Instead, he was demanding more and more of himself. After all, he had only seen the gap between him and the strong after coming here.

He had known the soldiers of the logistics company for a long time, but now, any one of them could easily defeat the entire sixth company.

"That's true, but I really don't want to give up just like that."

Fatty Zhang knew that he had joined the army so that he could follow Qin Yuan. It was only after he came to the army that he truly realized Qin Yuan's current strength.

He had grown up with him since he was young. He did not expect Qin Yuan to have only been in the military academy and army for such a short time and had already reached this level of strength.

After he came to the army, he had been constantly strengthening his training. Now, he had long lost the fat he used to have. Now, no matter what, he would definitely be able to beat up those rich playboys.

**"To be honest, it's not just you. We want to follow Commander Qin."**

The logistics team has been watching them step by step until today. It's impossible to be envious of them, but I know that the hardships they have endured are definitely not something we can imagine."

speaking of the logistics company and Qin Yuan, Jiang Feng knew best. However, now that they were trapped in this damn place, he had no choice.

**"When this fog dissipates a little, we'll continue to look for a way out. I don't believe that we can't get out of this damn place!"**

Looking at the fog in front of him, Jiang Feng complained loudly. This was equivalent to their journey ending before they even started.

**"Yes, sir!"**

**"Yes, sir!"**

As he said that, the group of people responded loudly. Speaking of which, they felt quite embarrassed. They actually lost their way in this place and could not even find the way out.

At this moment, Zhou Qing, Liu Ye, and the others had arrived near the swamp. Looking at the thick fog in front of them, Zhou Qing was a little worried.

**"Old Liu, let's split into two teams and go in. We must pay attention to their positions. The fog is too thick now. It wouldn't be good if something happened to them!"**

Zhou Qing immediately turned to Liu Ye. It had been a long time, and Zhou Qing was worried that something might go wrong.

**"Okay!"**

After saying that, Zhou Qing, Liu Ye, and the others split into two groups and walked into the swamp.

A few minutes after Zhou Qing and the others entered, Qin Yuan arrived at the place where Zhou Qing and the others had stopped.

**"This? Isn't the magnetic field a little too strong?"**

At this moment, Ye Yun discovered Fatty Zhang and the others behind the dense forest. They were behind the dense forest on the right in front of Qin Yuan and did not step into the swamp.

Ye Yun was surprised by the strength of the magnetic field here, because the magnetic field formed a ring where Fatty Zhang and the others were. The animals and birds inside seemed to have lost their sense of direction and kept running and flying around the ring.

This situation surprised Qin Yuan. He had not discovered this place before.

Just as he was about to pick up the walkie-talkie to call Zhou Qing and the others back, he realized that the walkie-talkie was useless here. The strong magnetic field here directly interfered with all communication.

“No wonder these guys can’t come out!”

Seeing Fatty Zhang and the others trapped inside, Qin Yuan laughed out loud. With such a strong magnetic field, an ordinary person might not be able to walk out of it in their lifetime..

Chapter 298: Lost!

Qin Yuan paused for a moment and carefully sized up the place where Fatty Zhang and the others were.

The strength of the magnetic field here had already exceeded Qin Yuan’s expectations. Qin Yuan was a little curious about such a strong magnetic field.

Logically speaking, the magnetic field in nature should not be so strong.

“System, did you notice anything special? The magnetic field here was so strong. There should be some unnatural substance affecting it!”

As he spoke, Qin Yuan asked the system. Perhaps the system could answer him in such a situation.

“Scanning and analyzing now. Please wait a moment...”

30 seconds later, the system replied,

“After probing, we found that the reason why the magnetic field is so high here is because there is an extraterrestrial product one kilometer ahead. The system is currently unable to determine what the product is.”

Hearing the system’s answer, Qin Yuan was obviously stunned. There was actually something in this world that even the system did not know?

“Are you sure even you don’t know what it is? Didn’t you say that you were the strongest system?”

Qin Yuan said helplessly. This was the first time that even the system could not recognize such a situation. For a moment, Qin Yuan was curious.

“An extraterrestrial product? It should be something like a meteorite. Since the system couldn’t recognize it, it should be something good.”

As he spoke, Qin Yuan immediately headed in the direction of Fatty Zhang and the others.

“Everyone, pay attention to the surroundings and check their tracks. Don’t miss anything!”

“Yes, sir!”

“Yes, sir!”

Zhou Qing and the others walked into the swamp and said to the people behind them. They had already come a long distance, but they still didn’t see Jiang Feng and the others. They couldn’t help but worry.

To be honest, he wasn’t sure if Jiang Feng, Fatty Zhang, and the others had entered this area because he didn’t find any traces of humans on the way there.

However, they had to search carefully. After such a long time, there was still no news of these two teams. Zhou Qing was very worried that something had happened to these two teams.

At this moment, Jiang Feng and the others saw that the fog in front of them was getting thicker and thicker. Everyone started to worry.

“Platoon leader, the fog is getting thicker and thicker, and we can’t even see the road under our feet clearly.”

“What should we do now?”

“That’s right, Platoon Leader. Looking at this situation, the fog won’t dissipate for a while. We can’t just sit and wait for death, right?”

Everyone in the team immediately asked Jiang Feng. They were beginning to panic. The environment here was too strange.

Ever since they walked in, they had been walking in circles. Now that the fog was so thick, they were indeed a little worried.

“Everyone, don’t be nervous. Stay here. The visibility is so low now. If we continue to walk, it’s easy for something to happen.”

Seeing that his team members were a little nervous, Jiang Feng immediately comforted them. The fog was so thick now, and the visibility was really too low. If they continued to walk forward, it would be easier for them to be safe.

“Platoon Leader Jiang is right. Don’t be nervous. We’d better stay here and not run around. It’s easy for us to run into problems in such a thick fog.”

“Even if we can’t find a way out, I believe that Battle wolf’s men will come looking for us.”

As he spoke, Fatty Zhang comforted everyone. He knew that this place was very strange, and his comrades must have felt a little guilty.

However, they couldn't move freely in this situation. It would be troublesome if they got separated. All their electronic equipment had failed after entering this place. It wouldn't be good if they got separated.

"Then Fatty, we can only wait here quietly for help?"

At this time, Qin Yuan came to Fatty Zhang and the others, and asked with a smile.

"Yes, now we..."

"No! Boss... Captain Qin, why are you here?"

Suddenly hearing a familiar voice, Fatty Zhang's body trembled. He immediately raised his head and looked in the direction of the voice. He saw Qin Yuan standing at the side, and for a moment, Fatty Zhang called out excitedly.

"If I don't come, you guys would have to stay here for the rest of your lives."

Seeing that Fatty Zhang and the others were fine, Qin Yuan heaved a sigh of relief. The strong magnetic field here caused all the creatures here to lose their sense of direction. As long as the magnetic field here was not weakened or cleared, once they walked in, ordinary people would not have the chance to leave.

"Company Commander Qin, we... We're indeed a little embarrassed!"

Seeing Qin Yuan's sudden appearance, Jiang Feng said to Qin Yuan in embarrassment. He still remembered that before the selection began, he had promised Qin Yuan that he would definitely pass the Battle wolf selection.

However, in this situation, they had lost the right to enter Battle wolf, and they felt especially awkward. They had lost their way here.

"I'm sorry, Captain Qin. I've embarrassed you too."

After hearing Jiang Feng's words, Fatty Zhang said in a low voice with a sunken face. He had always been a soldier brought out by Qin Yuan, but he did not expect that he would lose his way in this dense forest..

Chapter 299: Lost!

The other team members were a little embarrassed. Although they had never trained with Qin Yuan, they hoped to follow Qin Yuan. However, their performance was indeed disappointing.

"Alright, I don't blame you guys for this!"

"This place is indeed a little unusual. The magnetic field is very strong, so it will strongly affect your perception. That's why you've been circling here and can't find the way out at all."

“Follow me out in a while. Today’s assessment has already ended. Let’s go back and talk.”

Qin Yuan could see the disappointment in everyone’s eyes. These soldiers were all soldiers of the Iron Fist Regiment. Other than Fatty Zhang who had followed him before, the other soldiers had never trained under him.

Therefore, compared to the other teams, the strength of their two teams was indeed inferior to the other teams. Qin Yuan could understand why they chose to go around the back and enter this place.

They must have thought that the members of the Battle Wolf would block their path from the front, and the rear would be weaker. Thus, choosing to enter from the rear would be more advantageous for them.

“Yes, sir!”

“Yes, sir!”

After saying that, everyone followed closely behind Qin Yuan. On the way back, they felt that they had been walking left and right.

However, they had actually been walking in a straight line. It was just that their perception had been affected, making them think that they were moving left and right.

A few minutes later, they felt that the fog in front of them was getting lesser, and they finally walked out of the dense forest.

“You guys wait here for a while. The members of Battle wolf will come back to pick you up!”

After bringing Fatty Zhang and Jiang Feng out, Qin Yuan immediately said to them.

If Zhou Qing and the others couldn’t find them, they would return the way they came, so they would meet Zhou Qing and the others in a while. He wanted to go in and see what was affecting the magnetic field here, and what kind of extraterrestrial thing was causing that strong magnetic field.

“Commander Qin, aren’t you going back?”

After hearing Qin Yuan’s words, Jiang Feng asked curiously.

“Boss, aren’t you coming with us?”

At this time, Fatty did not care so much. He called Qin Yuan ‘boss’. After experiencing such a situation, he felt that he had no chance to stay in Battle wolf, so he did not need to care about those titles anymore.

“You guys go back first. I’m going in to see what’s affecting the magnetic field here.”

“You don’t have to worry about me. This won’t affect me.”

Looking at Fatty Zhang and Jiang Feng’s worried expressions, Qin Yuan explained with a smile.

He had to go in and figure out the situation inside. The strong magnetic field here would not only make Fatty and the others lose their sense of direction, but even the members of Battle wolf would be affected by the magnetic field. “But...It’s getting dark now. Boss, why don’t you come back tomorrow?”

After hearing Qin Yuan’s words, Fatty knew that with Qin Yuan’s ability, he would not lose his way here. However, it was already late. He felt that it would be better to wait until dawn tomorrow before taking action. After all, it was still very dangerous to move around here at night.

“I’m fine! You guys just wait here for the Battle wolf members, don’t worry about me!”

“Oh right, when Battle wolf members come, you guys go back immediately and tell them not to let anyone in.”

As he spoke, Qin Yuan immediately instructed.

“Yes, sir!”

“Boss, be careful.”

Seeing that Qin Yuan still chose to enter, Fatty Zhang could not say anything.

“Company Commander Qin, be careful!”

“Okay!”

After saying that, Qin Yuan continued to walk toward the center of the magnetic source. The system had no way of knowing what it was, which made Qin Yuan very curious about what kind of extraterrestrial product it was.

After all, if the system didn’t know anything about it, it meant that this world didn’t have such a substance. Therefore, the system didn’t have detailed information about it.

“Vice-captain, we’ve already searched two or three times, but we still haven’t found them.’

“Yes, vice-captain. Do you think they didn’t walk in here?”

The members of the Battle Wolf team behind Liu Ye said to Liu Ye helplessly. They had already searched back and forth two or three times, but other than

Therefore, they were very certain that Jiang Feng’s two teams should not have entered the swamp.

“Let’s go back and see if Instructor Zhou and the others have discovered anything.”

Liu Ye knew that they had already searched back and forth two or three times without missing a single place, so Jiang Feng and the others definitely did not walk into the swamp.

“Yes, sir!”

“Yes, sir!”

After saying that, Liu Ye and the others immediately walked back. Now, they could only go and see if Zhou Qing and the others had discovered anything.

After 20 minutes, Liu Ye and the others walked out of the swamp and saw Fatty Zhang and Jiang Feng not far away. They quickly walked to the front of the two teams.

“Where did you guys go?”

Liu Ye asked curiously. Seeing Jiang Feng and the others suddenly appear here, Liu Ye asked in surprise.

Because they had already searched this place and did not find any traces, he was sure that Jiang Feng and the others had walked into the swamp.

“Sir! We... We lost our way just now. In the end, Company Commander Qin brought us out!”

Jiang Feng immediately replied when he saw Liu Ye’s question. His face was somewhat embarrassed. After all, he had actually lost his way in the selection. This kind of incident was indeed a little embarrassing.

“Lost?”

“Captain? Where is the captain?”

After listening to Jiang Feng’s explanation, Liu Ye was a little puzzled. Logically speaking, a person who could be selected by the captain and Gong Jian should not be able to make such a low-level mistake.

Moreover, Liu Ye glanced around and did not find Qin Yuan.

“Commander Qin went back to the place where we lost our way. He said that there should be something strongly interfering with the surrounding magnetic field.”

“Also, Commander Qin said that we should all go back after you guys come. No one is allowed to enter without his orders.”

As he spoke, Jiang Feng told Liu Ye and the others what Qin Yuan had said. “Something is interfering with the magnetic field?”

Liu Ye was puzzled. Usually, for Qin Yuan to say such a thing, it should not be that simple. Perhaps the danger here was so great that even the members of Battle wolf might not be able to come out after entering. Otherwise, Qin Yuan would not have said such a thing.

“Okay, Xiaohu, you take the team members back first. I’ll wait for Instructor Zhou and the others here.”

“They are right. Our communication devices are useless here.”

Liu Ye turned to Zheng Xiaohu and said. Now that Jiang Feng and the others had been found, they could rest assured. They just had to wait for Zhou Qing and the others to come out.

As for Qin Yuan, he must have gone to the place where Jiang Feng and the others had lost their way just now to find out the reason. With Qin Yuan's strength, he did not have to worry about anything.

"Yes, vice-captain!"

Zheng Xiaohu nodded and led Jiang Feng, Fatty Zhang, and the others toward the base.

Half an hour later, Zhou Qing and the others walked out. When they saw Liu Ye standing alone not far away, they immediately walked towards him.

"How is it? Did you find them?"

Zhou Qing asked worriedly as soon as they came up. They did not find any traces after entering the swam. They went back and forth for a long time. Still

they still could not find any traces. In the end, they had no choice but to lead their team members out.

"I found them. They went into the dense forest over there and lost their way there. In the end, it was the captain who brought them out."

"I've already asked Xiao Hu to bring them back."

Liu Ye explained.

"The jungle over there?"

"They lost their way?"

Chapter 300: Who Else Could It Be?

After hearing Liu Ye's words, Zhou Qing looked at the dense forest that Liu Ye mentioned. However, he was more curious about the fact that these two teams would make the mistake of losing their way. Logically speaking, with the ability and strength of these soldiers, it was impossible for them to make such a low-level mistake.

"According to what Jiang Feng and the others said just now, there seems to be a very strong magnetic field in that dense forest. Those who enter will immediately be affected by that strong magnetic field."

"Captain has already gone in to investigate the situation."

Seeing that Zhou Qing was a little surprised, Liu Ye began to explain. The Dark Forest was full of strange things.

"Has Captain Qin gone in?"

Zhou Qing was surprised by Liu Ye's explanation. How strong was the magnetic field that could affect one's sense of direction? Moreover, a naturally formed magnetic field could not be that strong.

"Yes, he wants us to go back to the base first. Without his orders, no one is allowed to approach this place."

“When we arrived just now, our teammates had already gone in, so I asked Xiao Hu to bring the team back first. I stayed behind to wait for you.”

“Also, didn’t you notice that all communication devices are useless in here?”

Liu Ye immediately explained. He had wanted to use the walkie-talkie to contact Zhou Qing and the others at first, but he realized that their current position was affected by the magnetic field.

“Looks like it must be very dangerous inside. Otherwise, Captain Qin wouldn’t have stopped us from getting close.”

Zhou Qing immediately looked at the electronic equipment on their bodies. They were basically useless. Moreover, Qin Yuan must have known about the situation inside. Even if Battle wolf’s people went in, they might be in danger.

“Indeed, Jiang Feng and the others said just now that they have been circling inside and can’t come out at all. If it wasn’t for the captain who brought them out in the end, perhaps they would still be inside and wouldn’t be able to come out at all.”

Liu Ye did not expect such a place to exist in the Dark Forest. Such a strong magnetic field could not be formed naturally.

“Since Captain Qin said so, let’s go back first!”

“With him investigating, we don’t have to worry too much.”

Zhou Qing knew that if Qin Yuan was not affected, he would definitely be fine. Moreover, with Qin Yuan around, he would be able to figure out how the surrounding magnetic field was formed.

“Their assessment should have ended. It’s time to go back.” Liu Ye nodded.

Hence, he led the members of Battle wolf towards the base.

Long Xiaoyun and the others had returned to Battle wolf’s base. After a day of assessment, almost 200 of the soldiers who participated in the selection were injured and could not get up.

Those who were standing on the training ground now were more or less injured, but they could still stand up with difficulty.

“Now, do you still think that you are very strong?”

Looking at the crowd on the training ground, Long Xiaoyun immediately asked loudly. She had seen everything that happened today.

Although many of the soldiers who participated in the selection were outstanding, there were some soldiers who needed to be trained.

However, what surprised her the most was the members of Battle Wolf Team One. She didn’t expect them to be so powerful. Perhaps, with her current strength, it would be difficult for her to control them as she pleased.

After hearing Long Xiaoyun's words, all the participating soldiers lowered their heads helplessly. They knew that these guys from the logistics company would be very strong, but they didn't expect them to be so strong.

There were at least 300 soldiers participating in the selection, but they were still not a match for the dozens of Battle wolf members. For a moment, everyone had an awkward expression on their faces.

In terms of strength, they weren't weak, but they were still no match for the Battle wolf Team 1 members. Just like that, over 300 of them were pinned to the ground.

"Let me tell you, the battlefield in the future will only be crueler than now. If today's assessment was a war, then more than half of 300 of you would have died today."

"With your current situation, can you truly claim to defend the motherland and its people?"

Long Xiaoyun's tone became serious. At this moment, Long Xiaoyun wanted them to clearly understand the gap between themselves and others.

Although Qin Yuan had said that these soldiers would stay in Battle wolf, she wanted these soldiers to clearly understand where they were now, what they were here for, and what they needed to do in the future.

Special forces were different from regular forces. As long as you were not strong enough, you might really die on the battlefield. Special forces were the closest to war, so they would encounter all kinds of opponents and dangers in the future.
