

Special Troop 301

Chapter 301: Who Else Could It Be?

“The special forces are not as simple as you think, so I hope you have that understanding. If you want to give up, leave the team immediately.”

Long Xiaoyun knew that the soldiers who wanted to join Battle wolf needed the courage to move forward bravely. Although these soldiers had a good foundation, if they didn't meet the members of the Team 1, only about 100 of these 300 people would be able to enter the ordinary special forces.

Xiaoyun was actually very surprised that such a number of people reached the standard. It should be known that when the special forces selected soldiers every year, there were very few soldiers who could meet the standards of the special forces.

Long Xiaoyun had been an instructor in Wolf Fang for a period of time, so she knew very well whether the strength of these soldiers met the standards of the special forces.

However, Long Xiaoyun knew that although these soldiers had a good foundation, they still needed to be trained because they lacked experience in many aspects.

A few minutes later, the entire training ground was silent. None of the soldiers who participated in the selection chose to step forward.

They knew that even if there were 50 of them who could stay in the end, they would not give up so easily.

Seeing the determined gazes of the soldiers before her, not a single person in the entire team chose to give up.

Long Xiaoyun was very pleased with this, because if someone were to give up at this moment, they wouldn't be suitable for Battle wolf.

“These guys are pretty good. No one chose to give up!”

Looking at the soldiers on the training ground, Liu Ye was a little impressed. However, looking at these soldiers, Liu Ye felt like laughing.

Because there were more than 200 people lying neatly on the ground, the rest who could stand up were injured in different places. Especially Wang Yanbing, his entire face was swollen like a pig's head, but he still stood there very straight. If it was not for some members who told him that it was Wang Yanbing, he would not have recognized him.

“Where's Geng Hu? Why isn't he here?”

Liu Ye scanned the base but didn't spot Geng Hu. He immediately turned to Zheng Xiaohu and asked, “Where is he? How did he manage to provoke these soldiers to such an extent? What kind of grudge is this?”

“Him?”

Zheng Xiaohu replied, “He should be in the barracks, too embarrassed to show his face right now.”

As he spoke, Zheng Xiaohu laughed. Geng Hu was amusing. He had asked him to intercept these soldiers, but he did not expect to be beaten by these recruits.

After returning, he immediately hid in his treehouse.

“What happened?”

Liu Ye was curious when he saw Zheng Xiaohu’s expression.

“This guy was attacked by Wang Yanbing, so he is afraid that we will make fun of him. He has been hiding in the treehouse since he came back, not daring to come out!”

“What? Geng Hu was beaten up by these new recruits?”

After hearing Zheng Xiaohu’s words, Liu Ye was very surprised. He knew Geng Hu’s strength very well. It could be said that Geng Hu’s strength was the strongest in the entire Battle wolf, other than Qin Yuan and Long Xiaoyun. How could Wang Yanbing and the others defeat someone with such strength? “Yes, I went to take a look after he came back. The wound wasn’t too big, but he felt embarrassed because he was the only member of the Battle wolf who got injured.”

“In this situation, do you think he still has the nerve to come out and hang around? If it wasn’t for this, this guy would be eager to come out and brag.”

Zheng Xiaohu smiled and explained. Geng Hu liked to tell his teammates that he was the strongest soldier in Battle wolf after the two captains. It would be strange if he didn’t get angry after being beaten up.

“Wow, I didn’t expect Wang Yanbing and the others to be so fierce!”

“However, this price is indeed a little high.

Looking at Wang Yanbing on the training ground, Liu Ye laughed out loud. To be able to injure Geng Hu, it could be said that they had some strength. No matter if it was a trick or not, as long as they could win, it was a victory.

To be honest, Liu Ye quite liked Wang Yanbing.

“Geng Hu is a vengeful person. Wang Yanbing will have a hard time in the coming days.”

Zheng Xiaohu couldn’t help but laugh. However, when he thought of Geng Hu’s personality, he felt a little sad for Wang Yanbing.

Provoking Geng Hu’s straightforward nature within the Battle Wolf team might mean that Wang Yanbing would have to endure this situation until the day he becomes a member of War Wolf.

“It’s fine. Didn’t you notice that this guy is very resistant to beatings? “Even after getting beaten up by Geng Hu, he’s still standing there perfectly fine.”

Liu Ye was staring in Wang Yanbing’s direction with a smile on his face.

“Actually, there’s nothing bad about this. Now, he can withstand more beating on the battlefield.’

“Vice-captain, not everyone would like what you just said.”

After hearing Liu Ye’s words, Zheng Xiaohu shook his head. To be honest, who liked the feeling of being beaten up? They had been beaten up by Qin Yuan many times in the past, so he knew that feeling very well.

“Alright, let’s go take a look at Geng Hu!”

“Given the situation, it feels a bit wrong to not go over and have a laugh. I can’t help but feel sorry for Wang Yanbing’s pig-headed face.”

After hearing Liu Ye’s words, Zheng Xiaohu was a little stunned. In such a situation, Liu Ye actually wanted to rub salt into Geng Hu’s wound.

“Vice-captain, although I know that this is not good, but... I agree with your suggestion, and I’ll call the other brothers.”

“Geng Hu is injured. As brothers, we have to go and see him no matter what. Don’t you think so?”

After a few seconds of silence, Zheng Xiaohu said with a smile. This kind of thing was not often seen. As brothers, they should go and console Geng Hu.

“You brat, you’re even more ruthless than me!”

After hearing Zheng Xiaohu’s words, Liu Ye laughed out loud. He did not expect Zheng Xiaohu to be a little more ruthless than he thought.

“Mainly, I want to see how Geng Hu brags and exaggerates. This is quite rare, so how could we miss it?”

“Sure! Let’s go.”

As he spoke, Liu Yechao and Zheng Xiaohu walked toward Geng Hu’s treehouse.

“Everyone. Today’s assessment ends here. Dismissed!”

“Yes, ma’am!”

“Yes, ma’am!”

She had already said what she needed to say. Long Xiaoyun knew that the rest could only depend on the soldiers themselves. This was all she could do. Whether they could stay in Battle wolf would depend on how much the soldiers demanded of themselves.

Long Xiaoyun turned around and said to Gong Jian,

“Instructor Gong, you take the injured soldiers to the infirmary to be bandaged.

I’ll go back first!”

“Okay!”

Gong Jian nodded and replied.

After saying that, Long Xiaoyun walked toward the direction of the command room.

“Those who are fine, bring the other comrades to the infirmary for bandaging!”

“Yes, sir!”

“Yes, sir!”

After the captain left, Gong Jian looked at the soldiers in front of him and shook his head helplessly. It seemed that they would have to lie in bed for two days no matter what.

“Yanbing?”

“How did you get beaten up like this? Who was so ruthless?”

After everyone dispersed, He Chenguang asked with a smile. When he saw Wang Yanbing, He Chenguang couldn't help but ask, but he was too embarrassed to ask.

“Who else can it be?” It's that big idiot who went to the recruit company to beat us up last time!”

“This guy is simply a pervert. The attacks of over thirty of us hitting him are like tickling him.”

“Fortunately, I managed to get rid of this guy in the end. Otherwise, I would have been sorry for being tied to a tree and beaten up for two hours!”

As he spoke, Wang Yanbing was still a little proud. At least Geng Hu had lost a layer of skin. Otherwise, he would have suffered a huge loss..

Chapter 302: The Il Shi Il from History!

“You can still laugh after being beaten like a pig. I'm impressed by your mental quality!”

He Chenguang admired Wang Yanbing's mentality. He had to admit that Wang Yanbing's courage was commendable for daring to attack a seasoned soldier. He Chenguang knew how strong Geng Hu was.

“Do you think I want to? We have more than thirty people, but we can't beat him. I don't know how the company commander trained them to become so strong.”

Wang Yanbing said helplessly. He didn't think too much about the situation at that time. He didn't expect Geng Hu to be so vengeful. He tied him to a tree and beat him up for two hours.

“They are indeed very strong. There are only a dozen of them, and we, Leng Feng, and finally Brother Niu's team couldn't beat them. Furthermore, my arm is dislocated. The strength of the Battle wolf is truly terrifying.”

After hearing Wang Yanbing's words, He Chenguang sighed softly. He was very surprised by the strength of the Battle wolf members. It could be said that they had only followed Qin Yuan for more than a year, but their strength had already reached such a terrifying realm.

"Your three teams? Didn't you guys go in different directions?"

He was surprised to hear He Chenguang's words. He Chenguang and Leng Feng had gone in the opposite direction at the beginning. How could they have gathered together?

"I don't know how to put it, but it's a fact that more than a hundred of us were beaten up!"

He Chenguang didn't explain further, because no matter what, the three teams were still beaten up.

"If we had another team, this pig-faced man wouldn't be me."

Wang Yanbing felt that if they had another team, they would definitely have no problem dealing with Geng Hu. He would not have been beaten up so badly.

"Don't underestimate that blockhead. I've heard about him. Other than our captain and the female commander, he's the strongest person in the entire Battle wolf army."

"Split open his head? I think you're lucky to even survive in his hands."

"However, I think that you might have to suffer in the coming days. After provoking that guy, he will definitely keep a close eye on you."

He Chenguang looked at Wang Yanbing's indignant face and said with a smile. After provoking Geng Hu, it was impossible for Wang Yanbing to have a good life.

"F * ck, I don't believe he can beat me up for the rest of my life. One day, I'll be able to deal with him!"

"They just followed the company commander a little earlier than us. It's no big deal."

Hearing He Chenguang's words, Wang Yanbing replied firmly. He did not believe that they would never be able to defeat the members of Battle Wolf. He felt that the members of Battle Wolf had only followed Qin Yuan a little earlier than him. If they could all follow Qin Yuan at the same time, he firmly believed that he would not be much weaker than the members of Battle Wolf. "It's good to have confidence, but there's indeed a big gap between us and them."

Leng Feng said in a low voice after hearing the conversation between the two. After fighting with Zhao Xiaowu, he knew how big the gap between them and Battle wolf was.

There was no way to make up for this gap in time.

"Leng Feng is right. It will be very difficult for us to catch up to them, at least for now."

Shi Sanba immediately said to Wang Yanbing. He was about the same as Wang Yanbing, but his face was not as swollen as Wang Yanbing's. However, the panda eyes on his face proved that he had been beaten up a lot.

Earlier, he had been ambushing the Battle wolf members. Due to his small size and fast speed, he had been ambushing the members of the Battle wolf. As a result, the members of the Battle wolf had been staring at him, and in the end, they had been beaten up.

“Brother, I think you’re in almost the same state as me.”

Looking at Shi Sanba’s panda eyes, Wang Yanbing even smiled, not feeling that he was the most miserable one.

Seeing Wang Yanbing’s expression, everyone laughed helplessly. Wang Yanbing still had the cheek to laugh at others. This kind of mentality was quite impressive.

“Likewise!”

Shi Sanba didn’t expect Wang Yanbing to make fun of him at a time like this, but he felt that this attitude was quite good.

“Good brother, my name is Shi Sanba!”

Shi Sanba introduced himself to Wang Yanbing and raised his fist.

“Damned b * tch???”o

“Is there a surname called “Sit’? And you’re called Sanba. Does your father have a grudge against you?”

Wang Yanbing was stunned when he heard Shi Sanba’s name. He didn’t expect there to be such a surname. Not only was his surname “Sit’, but his name was “San Ba”.

“It’s not “Si”! I was born on the 8th of March. My father thought that a cheap name was easy to raise, so he gave me this name.”

Seeing Wang Yanbing’s expression, Shi Sanba felt a little awkward. He had already explained this name countless times. He had to explain it to every friend he met.

“Then is it the “Shi” from “Shit”?”

Wang Yanbing asked Shi Sanba when he said that it was not “Sit’.

Chapter 303: The “Shi” from History!

“Brother, you’re making me want to spar with you again.”

Hearing Wang Yanbing’s words, Shi Sanba’s face darkened. He didn’t expect Wang Yanbing to have such a vivid imagination.

“It’s the “Shi” from “li shi” (history), remember that!”

“If anyone calls me wrongly again in the future, I’ll be angry.”

Shi Sanba immediately explained to the crowd, and he deliberately raised his voice because he didn’t want to explain his name again to everyone.

“Haha, I’m just joking. My name is Wang Yanbing. We’re all brothers from now on!”

Wang Yanbing laughed and raised his fist to meet Shi Sanba's.

"We must unite. The strength of Battle wolf and the others are too terrifying. We must do our best to unite together. Only then will we have a chance to contend against them."

Looking at the crowd, He Chenguang smiled and said to everyone. After this assessment, the relationship between them improved a lot.

"You're right. There are so many of us. There will always be a chance to deal with them."

"Although I don't know who will be able to stay in the end, we have to work hard together. Other than following the captain, I really don't want to go anywhere else."

Wang Yanbing felt that He Chenguang was right. They had to stick together now. Only then would they have a chance to fight Battle wolf's men. Even if they couldn't win, they wouldn't end up like this.

"Alright, let's take the other injured brothers to the medical room for some treatment. It looks like they won't be getting up for a day or two in this condition."

As he spoke, He Chenguang said to everyone. There were still more than 200 comrades lying on the ground.

"Okay!"

"Okay!"

After saying that, everyone immediately brought their injured brothers to the infirmary.

At this moment, Geng Hu was in a mess. Because he was beaten up by Wang Yanbing, he was now the only member of Battle wolf who was injured.

"Brother Hu, why did you change your hairstyle today?"

"Yeah, this hairstyle is very rare!"

For a moment, the members of Battle wolf were all cramming in Geng Hu's treehouse. Geng Hu was beaten up by the guys from the Recruit Company. This was something new for the members of Battle wolf.

"You guys are still here to laugh at me, right? Do you think that I can't beat you up because I'm injured?"

"Don't, Brother Hu. We just think that you look especially handsome today.

Don't you think so, everyone?"

"Yes!"

"Yes!"

For a moment, all the Battle wolf members were cheering.

“Skinny monkey, if you continue to talk nonsense like this, be careful that I really beat you up.”

“Scram, scram, you bunch of bastards!”

Geng Hu said angrily when he saw that Shou Hou was actually leading the crowd to jeer.

“Alright, stop laughing at Geng Hu. If this continues, this guy might not go out for a few days. If that’s the case, there will be a lot of food left in our canteen.” At this moment, Zheng Xiaohu immediately walked forward and whispered to everyone.

“Platoon leader, why do I feel like you’re making fun of me again?”

After hearing Zheng Xiaohu’s words, Geng Hu felt that Zheng Xiaohu was not here to stop the fight, but to make a ruckus.

“Alright, we just came to see you. I’m afraid you can’t figure it out. It’s not a big deal to be ambushed by the recruits.”

“I’m still your platoon leader. Didn’t you beat me up when you first arrived?

When have I ever blamed you?”

As he spoke, Zheng Xiaohu started to comfort Geng Hu. In fact, he and Liu Ye had wanted to bring everyone over to see Geng Hu. They were afraid that this kid would think that everyone would make fun of him because of this and then shut himself out.

Since that was the case, he might as well bring everyone here to make fun of him. He knew that Geng Hu was a straightforward person. If everyone didn’t make fun of him, he would think that everyone was laughing at him in their hearts.

“Yes, Brother Hu, we all know how strong you are. Besides, who would have thought that they could launch a sneak attack?”

“That’s right, Geng Hu. Don’t think too much about it. Everyone doesn’t think that this is anything.”

Liu Ye started to comfort him.

“Vice-captain, don’t worry, these guys won’t be able to escape. If I don’t make them feel pain in their balls in the next assessment, I’m not a part of the Battle wolf! ”

Geng Hu said gratefully after hearing everyone’s words. He thought that everyone was here to laugh at him, but who would have thought that everyone came to console him?

“That’s right, let’s go eat!”

“Captain should be back soon. We still have things to do after dinner!”

Liu Ye said to the crowd.

“Yes, sir!”

“Yes, sir!”

After saying that, everyone pulled Geng Hu along and walked towards the canteen.

At this moment, Qin Yuan had been in the center of the magnetic field for a long time.

After he arrived, he found a huge crater in the center. He walked along the bottom of the crater and soon found a palm-sized meteorite.

It was pitch-black in color, and it was smooth and reflected light. Qin Yuan was very surprised to see the object in front of him.

“How can such a small piece of stuff produce such a strong magnetic field?

What kind of substance was this?”

Qin Yuan tried to pick up the palm-sized meteorite, but he realized that he almost couldn’t lift it.

“Holy sh * t, this thing is so small, but it weighs almost 1000 pounds?”

Boom...

Qin Yuan immediately put down the meteorite. The meteorite actually smashed heavily onto the ground. The surrounding dust flew up, and the meteorite sank.

Qin Yuan was very surprised. Such a big meteorite weighed almost a thousand pounds. He almost couldn’t lift it.

“System, do you really not have any information on this?”

Seeing this situation, Qin Yuan was shocked and asked the system again.

“No, this substance doesn’t belong here. I don’t know what it is either.”

“However, according to the system’s inspection, this substance is very suitable for weapon research. Perhaps you will need it in the future.”

The system did not have any relevant information about this substance. He was only the strongest special forces system, but he did not know about this foreign product.

“Weapon research?”

After hearing the system’s words, Qin Yuan was very surprised. How could he research something that even the system did not know about?

“Yes!”

“But after the system’s inspection, this substance is very suitable for research into weapons and equipment because its unique super magnetic field will directly make many electronic products useless, and the coverage is very wide.”

“The weapons and equipment developed from this material will be tens of thousands of times more powerful than graphene bombs. It can even directly paralyze all military combat systems.”

After hearing the system’s answer, Qin Yuan reacted. The strong magnetic field unique to this substance was many times stronger than the strong magnetic field that humans currently made. Moreover, it could affect a person’s sense of direction.

If this thing was really used to develop weapons, it would be a little terrifying. This was because in the current military war, no matter what it was, it could not be separated from electronic products.

With just a few hundred of them, the entire human world would instantly return to the era of no electronic products.

Although this thing was not as powerful as a nuclear weapon, its destructive power was not much different from that of a nuclear weapon. Even a nuclear weapon might not be able to launch it with it.

“Are you sure this thing is that powerful?”

After hearing the system’s words, Qin Yuan attached great importance to it. Although he still did not know what this thing was and how to use it, the system’s words should not be lying. The characteristics of this substance were indeed like this..

Chapter 304: Strange Meteorite Block!

“After careful analysis by the system, this substance does indeed have this characteristic.”

The system’s voice sounded again. At this time, Qin Yuan was a little excited. Although he did not know if this thing could be used for the research of weapons and equipment, its characteristics were indeed very powerful.

“This thing is only the size of a palm, but it’s actually so heavy? Let’s move back first.”

Qin Yuan looked at it carefully for a long time. He did not expect such a small thing to be so heavy. However, since the system had said so, Qin Yuan had to get this thing back. When he had time in the future, he would study whether this thing could be used to develop weapons and equipment.

After thinking it through, Qin Yuan lifted the meteorite and walked back. Because the meteorite was very heavy, Qin Yuan’s footsteps slowed down. With every step he took, he left deep footprints on the ground.

Two hours later, Qin Yuan brought this meteorite back to Battle wolf’s base. The journey that originally took more than half an hour became two hours because he had brought this thing to Battle wolf’s base.

“I’m so tired. If this thing was any bigger, I really wouldn’t be able to hold it.”

As soon as he reached the edge of the sinkhole, Qin Yuan stopped and placed the meteorite aside. He then skipped it to the bottom of the sinkhole. For now, he could only inform the military commander and ask them to send it to the research institute first.

Soon, Qin Yuan returned to Battle wolf's base. At this moment, because he had moved the meteorite near the sinkhole, the entire Battle wolf base was dark. All the electronic products were jammed.

"What happened?"

Everyone in Battle Wolf Base was stunned by what happened. The entire base was pitch black, and all communication devices were disabled.

"What exactly happened?"

Long Xiaoyun, who was in the command room, was surprised by this scene, so she immediately asked Zhou Qing.

"Captain Long, we're not sure yet. All the electronic devices have failed."

Zhou Qing was stunned. This was the first time he had encountered such a situation, so he still did not know what had happened.

"Check it immediately!"

Long Xiaoyun said immediately. She felt strange about everything that had happened so suddenly because it didn't seem like there was a malfunction this time.

"Yes!"

After saying that, Zhou Qing was about to turn on his flashlight to check, but he was surprised to find that his flashlight was useless.

"This..."

"Captain Long, the flashlight has lost its effect."

Zhou Qing was very surprised. If there was a malfunction that caused all the electrical appliances in the base to be paralyzed, it was impossible that even the flashlight was useless. Zhou Qing was stunned for a moment.

"What is it? How could such a strange thing happen?"

After hearing Zhou Qing's words, Long Xiaoyun immediately turned on the flashlight she was equipped with. Just as Zhou Qing said, her flashlight was useless.

At this moment, Qin Yuan had just reached the bottom of the crater. Looking at the pitch-black base, Qin Yuan scratched his head in embarrassment. "D * mn, I actually forgot about this."

Seeing that the Battle Wolf Base was pitch-black, Qin Yuan knew that the Battle Wolf Base had been interfered with by the meteorite he had brought back.

"Not to mention, the characteristics of this thing are quite powerful."

Qin Yuan sighed softly. He did not expect this to affect Battle Wolf Base. Looking at the scene in front of him, Qin Yuan quickly walked forward.

"What exactly happened?"

At this time, Liu Ye picked up his torch and ran into the command room.

Because all the electrical appliances and communication equipment in the Battle Wolf Base were down, even the torchlight could not be used. In the end, he could only light the torch and run into the command room.

“We don’t know either. Something like this happened all of a sudden, and it’s very unusual.”

Seeing Liu Ye walk in with a torch, the entire command room was lit up. Seeing Liu Ye’s puzzled question, Zhou Qing said helplessly.

“Where’s Qin Yuan? Are you back yet?”

At this moment, Long Xiaoyun thought of Qin Yuan. She had not found Qin Yuan’s shadow until now.

“The captain hasn’t returned yet. He went to the place where Fatty Zhang and the other two teams were trapped to investigate the situation.”

Hearing Long Xiaoyun’s question, Liu Ye immediately replied.

“Why is this guy taking so long?”

Long Xiaoyun frowned. She knew that Qin Yuan had gone to investigate the situation, but Long Xiaoyun did not expect Qin Yuan to be gone for so long. She was very clear about Qin Yuan’s strength, so Long Xiaoyun was not worried that something would happen to Qin Yuan when Qin Yuan went to investigate.

However, she was a little worried that he had not returned after such a long time.

“I’m back!”

Just as everyone was at a loss, Qin Yuan returned to the command room.

“Captain! Why are you only back now?”

Seeing Qin Yuan come back, Liu Ye walked up to the game.

“I found something, so I was delayed for a while.”

Qin Yuan explained.

“Captain Qin, for some unknown reason, all the electrical appliances and communication equipment in our entire base can’t be used..”

Chapter 305: Strange Meteorite Block!

Seeing that Qin Yuan had returned, Zhou Qing immediately told Qin Yuan what had happened at the base because perhaps only Qin Yuan knew what was going on.

“You brat, have you found anything after going for so long?”

Long Xiaoyun, who was at the side, asked in confusion. This was because Qin Yuan did not seem to be puzzled by what had happened in the base. It seemed that this guy knew what had happened.

“This... Follow me to see something.”

Qin Yuan did not know how to explain it either because he did not know what the meteorite was. However, he knew that everything that happened in the base was because of that meteorite.

“What is it?”

After hearing Qin Yuan’s words, Long Xiaoyun immediately asked.

“Follow me and you’ll know. All of this was caused by that thing.”

Qin Yuan did not explain too much. He would know when he brought Long Xiaoyun and the others to take a look.

“Okay!”

With that, Qin Yuan led everyone out of the sinkhole.

Soon, they followed Qin Yuan to the place where Qin Yuan had placed the meteorite.

“It’s because of this.”

After everyone arrived, Qin Yuan pointed at the meteorite and said to everyone.

“What is this?”

Looking at the direction Qin Yuan was pointing at, Liu Ye walked forward with a torch. He saw a pitch-black stone that was dazzling under the light of the torch.

“This... Captain Qin, you brought this back from your expedition?”

Looking at the thing in front of him, Zhou Qing immediately asked Qin Yuan.

“Yes, this is it. Although I don’t know what it is, this thing doesn’t belong to our planet.”

“Moreover, it can emit a strong magnetic field. The soldiers were trapped because of this thing. The magnetic field it emits can seriously affect people’s perception. ”

Seeing everyone’s puzzled expressions, Qin Yuan explained.

“So you’re saying that everything that happened in our base was because of it?”

After hearing Qin Yuan’s explanation, Long Xiaoyun walked forward to check. Looking at the palm-sized meteorite, Long Xiaoyun was very curious.

“Yes.”

“The range of its influence is very wide, and within a few kilometers, all electronic products will be disturbed by it. It can affect human perception.”

This was the first time Qin Yuan had seen the characteristics of this substance. However, he was a little excited because the system had said that this thing was very suitable for weapon and equipment research. If it was really developed, it would greatly increase the strength of China.

“No way! Could such a palm-sized thing really have such great power?

Moreover, this kind of thing was too far beyond the scope of science.”

Hearing Qin Yuan’s explanation, Liu Ye became more and more curious about the meteorite in front of him. However, he could not believe what Qin Yuan said.

“Don’t think it’s small. If you don’t believe me, you can weigh it yourself.”

Seeing that Liu Ye did not quite believe it, Qin Yuan said with a smile. Although the crater was only the size of a palm, its weight surprised him.

One had to know that he had forcefully lifted this thing for a few kilometers, so Qin Yuan knew very well how strange this thing was.

Hearing Qin Yuan’s words, Liu Ye handed the torch to Zhou Qing, so he walked forward curiously and wanted to pick it up to take a look.

Liu Ye carefully observed it for a moment, then he hugged the meteorite with both hands. However, he couldn’t move the meteorite at all. The entire crater seemed to be firmly glued to the ground.

“No way! This thing is actually so heavy?”

Liu Ye said in shock when he saw that he could not move the meteorite. It should not be too much of a problem for him to lift something weighing 300-400 pounds with his current strength.

However, after putting in so much effort, this thing did not move at all. It was as if it had been firmly bonded to the ground.

Upon seeing this scene, not only Zhou Qing, but even Long Xiaoyun’s brows were tightly knitted together because Liu Ye did not look like he was putting on a show just now. Liu Ye’s entire body had exploded, and it was obvious that he had used a lot of strength to move the meteorite.

“Let me try!”

As he spoke, Zhou Qing immediately walked forward. He wanted to see if Liu Ye was telling the truth. He really did not expect Liu Ye to be unable to move such a large object even after spending so much effort.

After Zhou Qing observed it from left to right for a while, he was very sure that this thing was not connected to the ground, so he rolled up his sleeves and tried to move it.

However, a few minutes later, Zhou Qing stopped in surprise, sweating profusely.

“This thing is unbelievable.”

He had already tried for a long time, but no matter how much strength he used or what method he used, he could not move this meteorite block at all.

“Captain, why is this thing so heavy? How did you move it?”

Seeing this scene, Liu Ye couldn’t remain calm. This was because such a small meteorite could actually be so heavy. This was already beyond his understanding, and it didn’t make sense at all.

“What’s the use of bringing this thing back?”

Long Xiaoyun didn't try, because she could see that Zhou Qing and Liu Ye had already spent a lot of effort, but they still couldn't move the meteorite. She knew that even she might not be able to move it in the slightest.

However, what she was more curious about was why Qin Yuan had brought this thing back.

"This thing might be useful to the country. Although we still don't know what it is, its current characteristics are very terrifying. If we can use this material to research weapons and equipment in the future, it won't be so simple."

"It can disable electronic products in an instant. What do you think it would be like if it was a weapon?"

Seeing Long Xiaoyun's puzzled expression, Qin Yuan explained that this material not only emits a strong magnetic field but also has the ability to disable all electronic devices. Isn't that a powerful characteristic?

"Research weapons and equipment?"

After hearing Qin Yuan's words, Long Xiaoyun recalled everything that had happened in the base just now and instantly realized something.

Was there anything in the world that could be separated from electronic products? Whether it was in life or military, there was nothing that could be separated from electronic products.

If it was really as Qin Yuan had said, that they could use this substance to develop weapons and equipment, it would simply be able to instantly return the enemy to an era without electronic products.

"Although you're right, we don't even know what this thing is. How can we use it to develop weapons and equipment?"

Long Xiaoyun asked in shock. If that was the case, things wouldn't be so simple. For China, if they could really develop weapons and equipment made of this material, then China's strength and status would rise to a very high level, and it would be the kind that could not be shaken.

"This... I don't know now, but since we've discovered it, we'll hand it over to the country first. As for how to use it, it depends on our researchers."

Qin Yuan replied with a smile to Long Xiaoyun's question. He really did not know how to use this thing now, because even the system did not have any records or information about this substance.

However, he believed that this thing would definitely be useful. It might just take a long time to develop it. Right now, he did not have the time and energy to deal with this thing. He could only wait until he had the time to participate in the research of this thing.

"Alright then!"

After hearing Qin Yuan's words, Long Xiaoyun nodded helplessly. Although this thing's characteristics were like this, they had no way to use it now. It was useless. They could only see if professional researchers could make a breakthrough.

“This thing, let’s inform the higher-ups to transport it away later. At present, we don’t know what it is, so we can only let the country think of a way.”

Long Xiaoyun sighed softly as she looked at the meteorite..

Chapter 306: Returning to the Iron Fist Regiment Again!

“That’s the only way for now.”

After hearing Long Xiaoyun’s words, Qin Yuan nodded in agreement.

The value of this meteorite was still very high, but Qin Yuan had no way to study how to use it. At the moment, he could only inform his superiors and send this meteorite to the research institute for research.

“Look at what you’ve done.”

At this moment, Long Xiaoyun was also taking out her phone to call the military commander, but she realized that her phone was useless. Only then did she realize that it was all because of this thing that Qin Yuan had brought back. She looked at Qin Yuan and started complaining.

“Um... I really didn’t think too much about it at first.”

“It seems that all the equipment in the entire base will have to be changed again.”

Looking at the phone that Long Xiaoyun handed over, Qin Yuan smiled helplessly. At first, he really didn’t think too much about it. He felt that this thing was very valuable, so he moved it back. Who knew that all the electronic products in the entire base would lose their function?

“I spent a lot of effort to beg the Bureau Chief for these pieces of equipment.

This time, you can beg the Bureau Chief for them yourself.”

Hearing Qin Yuan’s words, Long Xiaoyun was very helpless. It would take a lot of effort to change the equipment of the entire base.

However, it had to be said that the characteristics of this meteorite were indeed very powerful. Just this characteristic alone was invaluable.

“Alright, after all, I have to deliver this thing myself. I’ll leave the base to you guys for the next two days. Most of those guys won’t be able to get up until one or two days after the assessment.”

Qin Yuan knew very well that he could only rely on himself to get this thing transported. With this characteristic, he could only transport it by hand.

Moreover, he could only go by himself, because this thing would also affect people’s perception.

“Alright, be careful on your way.”

After hearing Qin Yuan’s words, Long Xiaoyun said softly. This thing could only be transported by manpower. Other transportation tools could not transport this meteorite at all.

Moreover, Qin Yuan could only transport it himself because this meteorite affected people's perception. Other than Qin Yuan, there was no better candidate.

"Then Captain, be careful!"

"It's a long distance to carry this thing to the military. I don't know if there's anything that can block its characteristics."

For a moment, Liu Ye also looked at the meteorite and muttered. Although the crater was only the size of a palm, its weight was simply beyond their understanding.

If Qin Yuan had to carry it all the way, he would have to suffer.

"Block its characteristic?"

After hearing Liu Ye's words, Qin Yuan suddenly came to a realization. Liu Ye was right. Wouldn't it be fine as long as he found a way to block its characteristics?

If he really carried this thing to the military, he would really suffer. This was a journey of more than 100 kilometers, and this meteorite weighed about 1,000 pounds. This weight was a little strenuous for Qin Yuan.

"You guys go back first! I'll send this meteorite over now."

Qin Yuan did not say anything in front of Liu Ye and the others. After all, Qin Yuan knew that although he had no way, the system definitely had one. He could only wait for Liu Ye and the others to leave before he could ask the system.

"Good! Then we'll go back and find out about the situation. Captain Qin, be careful on your way back."

Zhou Qing also knew very well that only Qin Yuan could send this meteorite over, so he did not say anything else.

"Good!"

After that, Zhou Qing and Long Xiaoyun rushed back to Battle Wolf Base. Because of the meteorite, the entire Battle Wolf Base was dark. They had to go back and explain to the soldiers.

After Zhou Qing and the others left, Qin Yuan could not wait to enter the system and immediately asked the system.

"System, is there anything that can block its characteristics? Mainly its strong magnetic effect."

Qin Yuan was also looking forward to it. He also hoped that the system could have a solution. Otherwise, the characteristics of this meteorite would really give him a headache.

Even if he could send the meteorite to the military commander, wouldn't it indirectly affect all the electronic products in the military?

In that case, Qin Yuan might as well not transport it over. Therefore, the most important thing now was to find a way to block the characteristics of the meteorite. Only then could he transport it over.

“At present, the system’s merchants do have anti-magnetic glue that can isolate strong magnetic fields, but... It’s very expensive...”

After hearing Qin Yuan’s question, the system immediately replied.

“It’s good that there is. As long as it can block its characteristics, it’s fine.”

After hearing the system’s answer, Qin Yuan was a little excited, and he heaved a sigh of relief.

If the system did not have a solution, then Qin Yuan could not directly send the meteorite to the military. He could only find a place to hide it first.

“As long as it’s useful, that’s fine. Otherwise, if this thing is sent to the military, the military chief will hate me.”

The Battle Wolf Base was affected by this meteorite. so he could not just send it

over to the military. Otherwise, if he brought this meteorite to the military region, the military region would be in trouble.

“Host, do you wish to exchange for the Magnetic-severing Glue?”

Chapter 307: Returning to the Iron Fist Regiment Again!

After hearing Qin Yuan’s words, the system showed the exchange page.

“What? One million Skill Points for this?”

Looking at the system page, Qin Yuan was instantly stunned. He knew that this Magnetic-severing Glue should be very expensive, but he did not expect it to cost 1 million skill points. With so many skill points, Qin Yuan felt a little reluctant to part with it.

“That’s for sure. After all, this is the real Magnetic-severing Glue. The value of this thing isn’t just a little. After all, all the Magnetic-severing Glue in this world can’t work 100% at the moment, but this can!”

The system explained once again because the current Magnetic-severing Glue in the world could only isolate about 30%. It was impossible to achieve 100% absolute magnetic isolation, but the Magnetic-severing Glue in the system store could achieve 100% absolute magnetic isolation.

“100%? One million skill points? Did this thing come with a manufacturing method?”

After hearing the system’s words, Qin Yuan was a little shocked. According to the system, if it could really achieve 100% absolute magnetism isolation, then this Magnetic-severing Glue would be very valuable.

“Yes!”

The system immediately replied.

After hearing the system’s reply, Qin Yuan felt much better. After all, if he could only use one million skill points once, then he would rather not exchange it for the Magnetic-severing Glue. After all, he only had about 3 million skill points now.

Who could bear to do that for a million dollars?

“Would the host like to spend 1 million skill points to exchange for the Magnetic – severing Glue...”

Soon, the exchange page popped up on the system page.

“I’m sure.”

Looking at the one million skill points, Qin Yuan could only gently press the exchange button. Seeing that his skill points had reduced by another one million, Qin Yuan felt very bad.

These were all skill points that he had saved bit by bit. Now that so many skill points had suddenly been lost, Qin Yuan’s heart was bleeding.

“Congratulations to the host for obtaining a bucket of Magnetic-severing Glue, along with a copy of the manufacturing technique of the Magnetic-severing Glue. The system has rewarded you with 50,000 skill points.”

As the system’s voice fell, a bucket of Magnetic-severing Glue appeared in front of Qin Yuan’s eyes, and the production technique of Magnetic-severing Glue instantly flooded into his mind.

“I hope that this thing can play its role in the future. Otherwise, I’ll suffer a huge loss.”

Looking at the meteorite in front of him, Qin Yuan sighed softly. For this meteorite, Qin Yuan had spent a million skill points. If this thing was useless, then he would have suffered a huge loss.

As he said that, Qin Yuan immediately opened the bucket of Magnetic-severing Glue. Under the night sky, Qin Yuan could clearly see that there was a bucket of colorless and transparent liquid inside. Qin Yuan did not think too much and immediately found some branches to brush the meteorite with layers of magnetic glue.

“System, you really didn’t lie to me.”

A few minutes later, Qin Yuan realized that the surrounding magnetic field was clearly completely isolated. For a moment, he was very excited. It seemed that it was really useful. The system did not lie to him. This Magnetic-severing Glue could really isolate the magnetic field 100%.

As he spoke, Qin Yuan quickly checked the meteorite. He touched the surface of the meteorite with his hand and felt that the meteorite was covered by a thick layer of gel. The strong magnetic field emitted by the entire meteorite was blocked by the magnetic glue.

“Of course. Even with the current technology, it will take at least a hundred years before it can be developed, so how can it not be expensive?

The system immediately explained to Qin Yuan that there was a reason why the Magnetic-severing Glue was expensive. After all, the technology in the current world could not achieve 100% magnetic isolation.

When Qin Yuan saw this scene, he was especially excited. This way, he would not have to rely on himself to carry this thing to the military region. Otherwise, he would have a headache.

“System? How do we remove this Magnetic-severing Glue?”

Although the problem of the meteorite's strong magnetism had been solved, it still needed to be studied in the future, so Qin Yuan was especially concerned about these problems.

"This can be cut open with a knife. The strongest feature of this demagnetizing adhesive is its 100% demagnetization capability. Its colloid is not significantly different from regular colloids."

The system immediately explained to Qin Yuan. The characteristic of this glue was its absolute demagnetization.

"That's good!"

Qin Yuan was looking forward to this thing. If he could really figure out how to use it on weapons and equipment, it would definitely be a great killing weapon.

Although this thing did not have as much power as nuclear weapons, the effect it could achieve was similar.

To be able to disable all electronic products at once, this weapon was simply a heaven-defying existence in this era.

As he spoke, Qin Yuan lifted the meteorite and walked out of the Dark Forest. Now that all the electronic products and equipment in the entire Battle Wolf base were disabled, he could only go to the Iron Fist Regiment first. Because their Battle Wolf base was not far from the Iron Fist Regiment, he could go there to contact the military.

When Qin Yuan arrived at the Iron Fist Regiment, the sky had already turned white. He had been carrying this 1,000-kilogram meteorite for six to seven hours.

Although Qin Yuan's physique was not bad, he still felt a little exhausted. After all, this was his current limit.

"Company Commander Qin? Why are you back?"

At this moment, the guard, Xiao Wu, was driving out of the regiment headquarters. When he saw Qin Yuan standing outside the gate of the regiment headquarters, he was a little surprised.

"Xiao Wu? Where are you going?"

Xiao Wu Qin Yuan, the guard who saw Kang Lei, asked with a smile.

"We just integrated the troops. I came back to Iron Fist Battalion to bring back those materials for the Brigade commander."

"Brigade commander?"

Hearing Xiao Wu's words, Qin Yuan knew that Kang Lei was now a Brigade commander. For a moment, he did not react.

"Yes, the Regimental commander has moved to the brigade headquarters. The Iron Fist Regiment's commander is now Commander Xiao."

"Does that mean Old Xiao is in the regiment headquarters now?"

After hearing Xiao Wu's words, Qin Yuan asked with a smile. He did not expect Kang Lei to have already moved to the brigade headquarters, and Xiao Zhenwu to have moved to the Iron Fist Regiment headquarters.

'Yes, Commander Xiao is at the regimental headquarters. Commander Qin, why did you suddenly come back without informing us?'

Seeing that Qin Yuan didn't drive, it was obvious that he ran back.

"I came back because I had something to do. You don't have to worry about me."

Seeing Xiao Wu ask with concern, Qin Yuan replied softly.

"Alright, when you have time, go to the brigade headquarters. The brigade commander and the others miss you very much."

Seeing that Qin Yuan did not say anything, Xiao Wu did not continue to ask. He knew that Qin Yuan must have something to do, but it was not appropriate for him to ask.

"Okay, I'll go when I have time."

Qin Yuan nodded and replied.

"Alright, then I'll return to the brigade headquarters first."

'Yes.'

After saying that, Xiao Wu started the car and slowly drove away.

Qin Yuan carried the meteorite into the regiment headquarters. The guards let him, so they did not stop Qin Yuan.

Soon, Qin Yuan walked into the regiment commander's office. At this moment, Xiao Zhenwu was busy dealing with documents. He had just taken office, so there were many things waiting for him to deal with, so he was very busy during this period of time.

Dong dong dong...

Qin Yuan walked to the office door and knocked on it.

"Come in!"

After hearing Xiao Zhenwu's answer, Qin Yuan opened the door and walked in.

"It seems that our Commander Xiao is quite diligent. Here so early to deal with the documents."

As soon as he entered, Qin Yuan looked at Xiao Zhenwu and said with a smile. Seeing Xiao Zhenwu's haggard appearance, Qin Yuan knew that Xiao Zhenwu must have been very busy these few days.

"Company Commander Qin?"

After hearing Qin Yuan's voice, Xiao Zhenwu suddenly raised his head and said in surprise when he saw Qin Yuan walk in.

“Why are you back? Why didn’t you tell me?”

Xiao Zhenwu immediately stood up from his office chair and walked straight to Qin Yuan’s side to give him a hug.

“I had something to do, so I passed by here and came back to take a look. I didn’t expect you to be so tired..”

Chapter 308: Chief, You Said It!

Qin Yuan said with a smile. Looking at Xiao Zhenwu’s expression, Qin Yuan knew that Xiao Zhenwu must have been very tired during this period of time. It seemed that being the regiment commander was not so easy.

“Company Commander Qin, you don’t know, but ever since the regiment commander left, I’ve been having a headache.”

“It just so happens that the troops are reorganizing now, and there are many new soldiers in the regiment. I’m too busy.”

Xiao Zhenwu replied with a smile. He was very excited to see Qin Yuan here. After he recovered from his illness, he did not have the chance to properly thank Qin Yuan. Coincidentally, Qin Yuan came.

“You’re so tired. Didn’t the brigade commander arrange a political commissar for you?”

Qin Yuan asked with a smile after hearing Xiao Zhenwu’s words.

From the looks of it, Xiao Zhenwu had been tormented. Therefore, when he thought of this, Qin Yuan felt that sometimes managing too many people was indeed a very tiring thing.

There were only a few hundred people in Battle wolf now. If they expanded in the future, wouldn’t he be like Xiao Zhenwu? Qin Yuan felt a headache when he thought of this.

Fortunately, Long Xiaoyun, Zhou Qing and the others were in the battle wolf. Otherwise, he would be exhausted.

“The new political commissar hasn’t arrived yet. He should come in the next two days.”

“By the way, Company Commander Qin, did Old Gong come with you?”

Xiao Zhenwu asked in surprise when he saw that Qin Yuan was alone. Moreover, it was not dawn yet. What did Qin Yuan had to do that he had to come by the Iron Fist Group?

“He can’t get away now.”

“To be honest, if it weren’t for them, I might be like you.”

Hearing Xiao Zhenwu's question, Qin Yuan immediately explained. He had no choice. He did not expect that he would accidentally bring the crater back to the vicinity of Battle Wolf Base. Moreover, he had indirectly scrapped all the electronic products and equipment in Battle Wolf Base. Therefore, he could only come to the Iron Fist Regiment himself.

"You guys are different from us. Entering that field would definitely require you to consider more things than us."

Xiao Zhenwu knew that Qin Yuan and Gong Jian were both in the special forces now. All the things they had to do would definitely be much more tiring than the regular forces.

"Since you're here, let's go have some breakfast together."

Xiao Zhenwu walked to Qin Yuan's side and said with a smile. At this time, they could only have breakfast, but he was very happy to see Qin Yuan.

"Alright."

"By the way, Old Xiao, can I borrow your phone?"

Qin Yuan had to contact the military commander first. After all, this meteorite had to be sent to the research institute as soon as possible.

"Use it! Who are you contacting?"

Hearing that Qin Yuan wanted to borrow a phone, Xiao Zhenwu was a little surprised. Did Qin Yuan not bring his phone with him when he came out?

"Contact the commander of the military. I'm in trouble because of this."

As he spoke, Qin Yuan looked at the meteorite on the ground and said. He did not have to hide this from Xiao Zhenwu.

"This?"

Looking at the black stone on the ground, and the outer layer was wrapped in a thick layer of transparent gel, Xiao Zhenwu was a little confused. He did not know what this was.

However, when he thought of how Qin Yuan had come to their Iron Fist Regiment to borrow a phone for this, Xiao Zhenwu knew that this thing should not be that simple. Moreover, it was to call the military commander, so it was even more complicated.

"I don't know what this thing is either, but its power is not small."

"All the electronic products and equipment of our entire Battle wolf base have been disabled by this thing."

Looking at Xiao Zhenwu's puzzled expression, Qin Yuan smiled and explained. He would definitely not tell Xiao Zhenwu that he had brought this thing and caused all the electronic products and equipment in the Battle Wolf Base to be disabled. After all, Qin Yuan felt a little embarrassed when he thought of this.

He was too excited at that time and did not think of this.

“No way! You don’t even know what this thing is? And what could have such great power?”

Hearing Qin Yuan’s explanation, Xiao Zhenwu looked at the meteorite under his feet in disbelief.

Looking at such a palm-sized stone, Xiao Zhenwu really could not believe that this thing was really as powerful as Qin Yuan had said.

“Commander Qin, are you kidding me?”

Xiao Zhenwu looked at it carefully for a long time. Other than being black, there was nothing else about it. Moreover, Xiao Zhenwu believed that this was a prank by Qin Yuan.

“Old Xiao, I really didn’t lie to you. I’ve wrapped this thing with this magnetic glue, so its characteristics are blocked.”

Seeing that Xiao Zhenwu was still in disbelief, Qin Yuan smiled and explained. This was because no matter who you told, no one might believe it because it was completely beyond everyone’s understanding.

“Commander Qin, are you sure you’re not lying to me?”

Xiao Zhenwu hesitated because he did not believe that Qin Yuan would play a prank on him like this. Moreover, he had brought this thing over and borrowed his phone so early in the morning.

“Old Xiao, when have I ever lied to you?”

Qin Yuan could not explain, because it was impossible for him to break the magnetic glue and show it to Xiao Zhenwu. If he did that, not only would Battle Wolf Base be affected, but the entire Iron Fist Regiment would be affected.

“Although I don’t believe that this thing has such great power, I believe in your words, Commander Qin!”

Xiao Zhenwu definitely didn’t believe that Qin Yuan’s words had such great power.. After all, how could he believe such a mysterious thing?

Chapter 309: Chief, You Said It!

However, he believed Qin Yuan’s words because Qin Yuan had never lied to him. His illness was cured by Qin Yuan, so he knew very well how Qin Yuan was.

“I don’t know how to explain this to you, but let me call the military commander first to explain the situation.”

Qin Yuan could not explain it either. Now, he could only call the military commander and ask him to send someone to send this thing to the research institute for research.

“Sure!”

Xiao Zhenwu nodded. To be honest, he was quite curious about what Qin Yuan said. After all, he knew that Qin Yuan did not have to lie to him. However, he did not quite believe that an atheist would believe in something that could not be explained by science.

Qin Yuan didn't say anything, so he immediately walked to Xiao Zhenwu's office chair and picked up the phone to call the military commander.

Soon, the call was connected.

"Hello, I'm Qin Yuan from the Battle Wolf Special Forces. I'm looking for the military commander!"

The person who answered the phone was the guard of the military commander, so Qin Yuan directly said his name.

Soon, an old and familiar voice came from the phone.

"What's wrong? Kid Qin, are you calling me so early to tell me some good news?"

At this moment, Bureau Chief Gao Shiwei had just finished washing up. After knowing that it was Qin Yuan's call, he immediately answered it. "Good morning, Chief. I do have something to report." Qin Yuan immediately said after hearing Gao Shiwei's voice.

"Speak! Why are you looking for me?"

"Something's wrong? Isn't this the phone number of the Iron Fist Regiment?"

Why did you run back?"

Looking at the number displayed on the phone, Bureau Chief Gao Shiwei asked in confusion. Why was Qin Yuan not at Battle Wolf Base but at the Iron Fist Regiment?

"This...Chief, it's indeed difficult for me to explain."

"I found a very strange meteorite near Battle wolf Base. This thing has a very strong magnetic force, and its characteristics are very powerful."

"Because all the electronic equipment in the entire Battle wolf base has been disabled."

"I couldn't explain it to you over the phone!"

"But I want to say that if this thing is developed and used in weapons and equipment, its power will not be weaker than a nuclear bomb!"

Qin Yuan did not know how to explain it to Gao Shiwei, because even he and the system did not know what this thing was. Therefore, he could only tell Gao Shiwei that this thing did have such power.

"What?"

"What nonsense are you talking about? I let you establish the War Wolf Special Forces, and now you're acting foolish?"

Upon hearing Qin Yuan's words, Gao Shiwei cursed. He could not understand what Qin Yuan was saying. Moreover, he said that it was as powerful as a nuclear weapon. How was that possible?

"Chief, do you think I disturbed you early in the morning just to make fun of you?"

"And do you think I dare to joke with you?"

Seeing that Gao Shiwei did not believe him at all, Qin Yuan immediately said, because that was the only thing he could say.

"You better not lie to me. Otherwise, I'll teach you a lesson on behalf of Old Chief Qin. "

Hearing Qin Yuan's firm words, Gao Shiwei became serious. He felt that Qin Yuan would not tease him at this time.

"I'm not lying to you. I'm at the Iron Fist Regiment headquarters. You should come over and take a look."

Qin Yuan knew that only Bureau Chief Gao Shiwei could explain what he said if he saw it.

"Okay! I'll go over to take a look."

Bureau Chief Gao Shiwei said softly after a few seconds of silence.

"Alright."

"Oh right, Chief, you'd better bring an expert from the research institute over."

Qin Yuan immediately said because he knew that only scientific researchers could know the value of this thing. If he brought an expert over, he did not need to waste his breath to explain too much. Moreover, if he explained it himself, the Bureau Chief might not believe him.

"Good! Wait there, I'll go over now."

After saying that, Gao Shiwei hung up the phone. Then, he was silent for a few seconds. Recalling what Qin Yuan had said, Gao Shiwei picked up his phone and made a call. "Old Deng, are you up yet?"

"I'm up."

Gao Shiwei said immediately after the call went through.

"Chief? I just arrived at the research institute. What's the matter?"

At this time, Professor Deng, who received the call, was in the research institute. When he heard that it was Bureau Chief Gao Shiwei, he became serious. He knew that the Bureau Chief must have called him for something.

"Okay, I'll get the guard to pick you up. There's something I need you to take a look at. "

Gao Shiwei explained. "Alright, Chief!"

“Good!”

After receiving Professor Deng’s reply, Bureau Chief Gao Shiwei hung up the phone and immediately asked the guards to pick up Professor Deng. He was quite curious about what Qin Yuan said because he knew that Qin Yuan was not lying to him.

After Qin Yuan hung up the phone, he went out to the cafeteria with Xiao Zhenwu to eat something.

An hour later, Bureau Chief Gao Shiwei brought Professor Deng to the Iron Fist Regiment headquarters.

“Tell me, what did you ask me to come over so early in the morning to see?”

Gao Shiwei immediately asked when he saw Qin Yuan.

“Hello, Chief! You’ll know when you get to the office.”

Qin Yuan saluted and explained.

“Good!”

“By the way, this is Professor Deng, the person in charge of our research institute. You can call him Elder Deng.”

“This is Qin Yuan, and this is Xiao Zhenwu.”

As he spoke, Gao Shiwei immediately introduced Professor Deng to Qin Yuan and Xiao Zhenwu.

“Hello, Elder Deng!”

“Hello, Elder Deng!”

Qin Yuan and the others immediately greeted him.

“Good, hello!”

Professor Deng looked at Qin Yuan and Xiao Zhenwu in surprise. He did not know why the military commander had brought him to the army, so he replied with a smile.

Soon, after getting to know each other, Qin Yuan brought Gao Shiwei and the others into the office of the regiment headquarters.

“Where is the thing you mentioned?”

As soon as he walked into the office, Bureau Chief Gao Shiwei could not wait to ask. He was very curious about what Qin Yuan was talking about.

“Chief, this is it.”

As he spoke, Qin Yuan pointed at the meteorite at the side and said softly.

After hearing Qin Yuan’s words, Bureau Chief Gao Shiwei looked over and saw a black stone beside the sofa. Seeing this scene, Bureau Chief Gao Shiwei was a

little puzzled.

“Are you talking about this stone”

Looking at the thing that Qin Yuan was talking about, Bureau Chief Gao Shiwei was puzzled. Then, he walked to the side of the stone and looked at it carefully. However, he realized that it was just a black stone, but it was wrapped in some gel.

Professor Deng, who was standing at the side, looked at the place Qin Yuan was talking about. Then, he stared at the meteorite.

“Bureau Chief, this isn’t an ordinary stone. I’ve only used the magnetic isolation glue to isolate its characteristics. Otherwise, I wouldn’t dare to bring this thing here.”

After hearing Gao Shiwei’s words, Qin Yuan immediately explained. If it wasn’t for the Magnetic-severing Glue, he wouldn’t have brought it directly to the Iron Fist group.

“What glue?” Then what are its characteristics?”

“You said that this thing is very magnetic and can disable all the electronic equipment around it. Is that true?”

Hearing Qin Yuan’s explanation, Bureau Chief Gao Shiwei was a little curious if what Qin Yuan said was true.

“This...We can’t show it to you right now. After all, once the Magnetic-severing Glue is broken, all the electronic equipment within three kilometers will be crippled.”

Qin Yuan knew that Bureau Chief Gao Shiwei definitely did not believe him, but he could not open the magnetic glue to prove the characteristics of the meteorite.

If he opened it, all the electronic equipment in the Iron Fist Regiment would be destroyed.

“Hurry up and open it. If this thing is really like what you said, then I’ll be responsible for everything here.”

“If you lie to me, you know the consequences.”

Bureau Chief Gao Shiwei could not wait to know if something was really as Qin Yuan had said.

“Chief! You said it...”

Chapter 310: Professor Deng was Shocked!

After hearing Gao Shiwei’s words, Qin Yuan asked with a smile. If he didn’t break the Magnetic-severing Glue, he wouldn’t be able to explain the characteristics of the meteorite to everyone.

Since Bureau Chief Gao Shiwei had already said so, then Qin Yuan had nothing to worry about. It could only prove that he was not lying.

“I mean what I say. Break it!”

Bureau Chief Gao Shiwei stared at the meteorite that Qin Yuan was talking about. He was very curious. Was this thing really as evil as Qin Yuan said?

“Alright then.”

As he spoke, Qin Yuan immediately walked to the vicinity of the meteorite. He took a knife from Xiao Zhenwu's desk and bent down to cut the Magnetic-severing Glue outside the meteorite.

Just as Qin Yuan cut open the Magnetic-severing Glue that wrapped around the meteorite, an invisible force instantly emitted from the meteorite. For a moment, all the electronic equipment in the entire Iron Fist Regiment suddenly failed.

Everyone was shocked when they saw that the computers that were still running had turned black and all the electronic devices in the office had failed.

"Why is this thing so evil? Old Deng! Go over and see what kind of substance this is."

Bureau Chief Gao Shiwei also took out his phone from his pocket. At this time, he realized that his phone did not respond at all. He could not help but be shocked.

At this moment, it wasn't just Bureau Chief Gao Shiwei. Professor Deng and Xiao Zhenwu were also shocked because they realized that their phones didn't respond at all.

"Alright, Chief."

Professor Deng was also very curious about the meteorite that Qin Yuan mentioned. He had been paying attention to that thing since he came in because, after so many years of scientific research, he had not been able to see what kind of material it was made of.

Soon, Professor Deng walked to the meteorite block to check, but after half an hour, he still couldn't see anything.

"Not good! Regiment commander!"

At this moment, a soldier rushed into Xiao Zhenwu's office anxiously.

"What is it? Why are you so panicked?"

Xiao Zhenwu asked when he saw the soldier suddenly rush in.

Now that Bureau Chief Gao Shiwei and the others are here, Xiao Zhenwu's face was a little awkward when his soldiers barged in so rashly.

"Hello, Chief!"

After seeing Gao Shiwei and the others, the soldier immediately straightened up and saluted.

"It's okay. Tell me, what happened?"

Seeing the anxious look on the soldier's face, Gao Shiwei was curious about what had happened to make the soldier so flustered.

"Yes, sir!"

"All of the electronic equipment in the regiment headquarters suddenly failed, and some of the soldiers who were preparing to leave the regiment headquarters to purchase supplies were actually walking in circles outside the headquarters."

“We went up to ask about the situation. It wasn’t just them, it was the same for us as well. We clearly walked out of the regiment headquarters, but we realized that we couldn’t get out no matter how hard we tried.”

“Everyone is feeling confused now. Regiment commander, you should go and take a look.”

After hearing the general’s words, the soldier immediately informed Gao Shiwei and the others about what had happened. This was too unbelievable, so the entire Iron Fist Regiment fell into fear because this was too abnormal.

After hearing the soldier’s words, Qin Yuan knew what was going on. All of this was caused by the meteorite. The magnetic field produced by the meteorite could affect people’s perception.

Moreover, it would form a circle with the center, and it would be especially strong at a certain distance. When a person walked to that position, their perception would be especially affected, and they would continue to walk around that circle.

It was like a circle. When you reached the edge of the circle, your perception would be affected. When you thought you were walking straight, you were actually walking along the edge of the circle.

That was why it gave people an illusion. This was the characteristic of this meteorite. Moreover, Fatty Zhang and the others had been unable to walk out of the dense forest because of this. “What?”

Xiao Zhenwu asked in surprise.

Therefore, he looked at the meteorite that Qin Yuan had mentioned. Could it be that what Qin Yuan said was true? Could this thing really cripple all electronic devices in an instant?

Xiao Zhenwu was also a little surprised, so he walked to Gao Shiwei’s side. “Chief, I’ll go out and investigate the situation.”

Xiao Zhenwu immediately said to Bureau Chief Gao Shiwei. He had to go out and take a look at the situation that the soldier had mentioned.

“Alright, go and see if it’s really like what this soldier said. All the electronic equipment in the Iron Fist Regiment has been disabled.”

“Report back immediately after you know the situation!”

After hearing the soldier’s words, Gao Shiwei was also a little surprised. If that was really the case, then Qin Yuan was really not lying. This black thing did have such power.

“Yes, sir!”

Xiao Zhenwu nodded and immediately left with the soldier.

Xiao Zhenwu was also very curious about the situation that the soldier said. If it was really as Qin Yuan had said, then the thing that Qin Yuan had brought was simply beyond the scope of scientific explanation.

“Old Deng, can you tell what it is?”
