Chapter 311: Professor Deng was Shocked!

Seeing this situation, Bureau Chief Gao Shiwei became more and more curious about what Qin Yuan was talking about.

“Sir, this is the first time I’ve seen this thing. According to what I know, there’s no record of this thing in the entire scientific community.”

“However, there’s one thing that Qin Yuan is right about.”

“This substance is not a natural product; it seems to be from an extraterrestrial meteorite. Moreover, this material can generate a strong magnetic field and has the ability to instantly disable all electronic devices.”

“However, we can only draw a conclusion after Captain Xiao investigates and gathers more information.”

Professor Deng was also particularly surprised by this thing because he had never seen such a substance for so many years. Moreover, this characteristic was simply too terrifying.

However, he didn’t dare to make a hasty conclusion because he didn’t know what this thing was. All he knew now was the characteristics of this meteorite.

“Okay!”

After hearing Professor Deng’s words, Bureau Chief Gao Shiwei also fell into deep thought. He knew that Professor Deng would never make a conclusion easily. If it was really as Qin Yuan said, then this meteorite would be very useful.

In today’s world, nothing could be separated from electronic devices. Whether it was in daily life or in the military field, almost everything could not be separated from electronic devices.

If it was really as Qin Yuan had said, and this thing could be researched and applied to military weapons and equipment, its influence would not be small.

Just as Qin Yuan had said, the power of this thing was not inferior to the effect of nuclear weapons.

At the very least, this thing was a benign and deterrent weapon. It was not as lethal as nuclear weapons, but it could directly paralyze the enemy’s military equipment. That was enough.

“Qin Yuan, where did you find this thing?”

At this moment, Bureau Chief Gao Shiwei believed Qin Yuan’s words and immediately asked about the location of the meteorite.

“Chief, it’s 20 kilometers away from our Battle wolf base.”

“When I was training and testing the soldiers, the soldiers accidentally barged in. What happened to them was the same as what the soldier said just now. Their

perception was affected by the meteorite and they couldn't come out." "After I went in to investigate, I discovered the characteristics of this thing and brought it back to Battle Wolf Base. I didn't expect the entire Battle Wolf Base to be affected. All the electronic equipment was disabled."

"In the end, I had no choice but to bring this thing to the Iron Fist Regiment."

After hearing Gao Shiwei's question, Qin Yuan immediately explained because he knew that Gao Shiwei believed what he said.

"However, I have a question about Qin Yuan. I wonder if you can tell me?"

At this moment, Professor Deng asked Qin Yuan curiously.

"Elder Deng, please speak."

Seeing Professor Deng's question, Qin Yuan immediately replied with a smile.

"This thing can produce such a strong magnetic field. What substance did you use to isolate its characteristics?"

At this time, Professor Deng was also very surprised to see the layer of magnetic glue wrapped around the meteorite.

According to his understanding, there was nothing in the world that could isolate such a strong magnetic field.

Therefore, Professor Deng was also very curious about the layer of transparent gel that wrapped around the meteorite.

"This...It's a type of magnetic glue that I developed myself. It can isolate magnetic fields completely. Otherwise, I wouldn't dare to bring this thing around. "

"And this thing may be the size of a palm but its mass has also exceeded our current scientific understanding."

"According to my estimation, this thing weighs about a thousand pounds."

Hearing Professor Deng's question, Qin Yuan could only explain in this way. The glue was exchanged by the system. This kind of Magnetic-severing Glue had not broken through this technology in the world at this time.

"What? You mean 100% isolation?"

"How is this possible?"

After hearing Qin Yuan's words, Professor Deng said in surprise. He knew about the Magnetic-severing Glue, but it was impossible for it to completely isolate its magnetism. According to what he knew, no one in the entire scientific community could develop such a Magnetic-severing Glue.

Currently, the most powerful Magnetic-severing Glue was the

Magnetic-severing Glue developed by American scientists. It could achieve 60% isolation effect, and it took decades of research to develop. It was impossible to achieve 100% absolute magnetic effect.

“Yes. Otherwise, I wouldn’t have carried it around. Otherwise, it would affect many electronic devices.”

Qin Yuan could understand Professor Deng’s surprise. After all, there was no breakthrough in this technology. If he had known earlier, this gel would be widely used, be it in military or in life.

Moreover, many important military weapons were inseparable from this colloid.

“Do you still have this glue?”

Seeing that Qin Yuan did not look like he was lying, Professor Deng hesitated. Although he did not know what the meteorite that Qin Yuan brought was, he knew very well about the Magnetic-severing Glue, so he had been paying attention to the transparent gel on the outer layer of the meteorite.

“Also, I have to isolate the magnetic field produced by this thing first.”

Qin Yuan knew now that Gao Shiwei and the other commanders had seen the characteristics of the meteorite, they had to isolate the characteristics of the meteorite first. Otherwise, the soldiers of the Iron Fist Regiment would be affected.

“Alright.”

As he spoke, Professor Deng looked at Qin Yuan expectantly, because he did not dare to believe that this kind of Magnetic-severing Glue could have a 100% isolation effect.

“Alright, wait for me here for a while. I’ll go get it now.”

The Magnetic-severing Glue could only be found in the system store. Although he had the production technology of the Magnetic-severing Glue, he did not have the raw materials.

Therefore, he could only exchange for it in the system store.

“Alright, we’ll wait for you here.”

Professor Deng said softly.

“Alright.”

After saying that, Qin Yuan left the office. He needed to exchange for the glue in the system store, but he could not exchange it in front of Bureau Chief Gao Shiwei and the others. Therefore, after he walked out of the office, he walked towards the corridor.

“Old Deng, is this Magnetic-severing Glue very powerful?”

In response to Professor Deng’s shock, Bureau Chief Gao Shi also asked in confusion. He did not know much about what Professor Deng and Qin Yuan had just said. Compared to the Magnetic-severing Glue, he was more surprised that cun yuan naa said that It weigne nearly a tnousana pouncls.

Moreover, this kid had carried it all by himself. This made him very surprised by Qin Yuan’s ability.

“Bureau Chief, this can’t be described to be just ‘powerful’. If it’s really as perfect as Qin Yuan said, then the entire world will tremble.” “Also, it is necessary in the field of advanced weapons.”

“For example, some stealth technology. The higher the magnetic isolation ability of the glue, the more powerful it is. You know what I mean, right?”

Professor Deng immediately analyzed the situation for Bureau Chief Gao Shiwei. There were some things that weren’t suitable to be said, so Professor Deng hinted to Bureau Chief Gao Shiwei.

“This?”

After hearing Professor Deng’s words, Bureau Chief Gao Shiwei thought of something and immediately understood what Professor Deng meant.

“That’s right, Chief. If what Qin Yuan said is true, then this kid has made a great contribution this time. So just now, I was also very surprised by the layer of transparent gel on the outer layer of the meteorite. If it is 100% isolation, then our Chinese military industry will directly rise to a very high level.”

Saying this, Professor Deng also held high hopes that what Qin Yuan said was true. If it were indeed true, it could potentially break the technological blockade imposed by foreign countries and even establish a dominant position in the global defense industry with this groundbreaking technology..

Chapter 312: A Great Contribution?

Professor Deng knew very well what 100% magnetic isolation meant.

“In that case, the transparent gel on the outer layer is a very important strategic material?”

After hearing Professor Deng’s words, Bureau Chief Gao Shiwei was very surprised. He knew what it would mean for China if they could break through the technological blockade.

“Yes, sir. If the outer layer of gel is truly able to isolate magnetism, then the value of the transparent gel wrapped around the outer layer is no less than the value of this meteorite.”

Professor Deng immediately explained when he saw the surprised look on Gao Shiwei’s face. To be honest, he was very shocked because they had been researching the technology of the glue. However, China could only reach about 50% demagnetization. Compared to the United States, China was still very far behind.

If what Qin Yuan said was true, then the value of this was immeasurable.

Therefore, Professor Deng was looking forward to whether the magnetic glue that Qin Yuan would bring over was really as Qin Yuan had said.

Just as Professor Deng and Bureau Chief Gao Shiwei were in shock, Xiao Zhenwu rushed in.

“Chief, all the electronic devices of the entire Iron Fist Regiment are disabled as Company Commander Qin said. Additionally, I’ve checked at the gate of the regimental headquarters. As the soldier said, the entire Iron Fist Regiment seemed to be covered by something. No matter how I tried to walk out, I couldn’t.”

“I always thought that I was walking forward, but the soldiers finally told me that I had walked around the regimental headquarters. This phenomenon is indeed as Company Commander Qin said. ”

Xiao Zhenwu immediately reported to Bureau Chief Gao Shiwei as soon as he entered the door. This situation was really too mysterious. It had completely exceeded Xiao Zhenwu’s understanding.

Especially when he went outside the regimental headquarters. He tried to walk out himself, but the result shocked him. He was sure that he had been walking in a straight line, but the result was that he had been walking in a circle.

Xiao Zhenwu was well aware of this situation. His perception was strongly affected by this substance.

Only now did he know that what Qin Yuan said was true.

“Chief, it seems like this meteorite is really valuable. If we can really research how to use this material to make weapons and equipment, the impact might not be smaller than nuclear weapons.”

After hearing Xiao Zhenwu’s words, Professor Deng was more and more certain that this meteorite was really as Qin Yuan had said.

Moreover, this characteristic was indeed too terrifying. It could instantly cripple all electronic equipment. The strategic influence of this thing was no less than the influence brought by nuclear weapons.

If a weapon bomb could be developed using this material, how many countries in the world could withstand the torment of such a weapon?

Even if you have nuclear weapons, you have to be able to launch them, right? Gao Shiwei was very excited because he could understand what Professor Deng meant.

If China had such a weapon, it would be a strategic weapon with a powerful deterrent force. In that case, China’s voice in the world would become more and more powerful, and the world would definitely not be ruled by America alone.

“I wonder if the weapon made from this thing can be developed?”

Looking at the meteorite, Bureau Chief Gao Shiwei asked Professor Deng curiously.

Because Professor Deng knew more about this than he did, he was curious about whether this material weapon could break through the technological barrier.

That was because it would only be useful if it was developed. Otherwise, it would be useless to only know its characteristics but not be able to use it.

“This...

For a moment, Professor Deng, who was beside him, fell into deep thought. This was the first time he had encountered such a thing. He had never seen it before.

“This, Chief, I dare not promise you because this is the first time I’ve seen this thing. I believe that it’s not just me, even the entire scientific community has never seen this substance before.”

“Therefore, the records and research on it are unknown. We can only break through this technology bit by bit.”

“Therefore, I can’t directly guarantee that we can develop such a weapon now.”

Professor Deng said softly after a moment of silence. This thing was indeed an unknown substance. There was no record or research on this substance in the entire scientific community.

“Alright, no matter what, no matter how much we have to pay, we have to have this weapon. ”

“Since we discovered it first, we must display its power.”

After hearing Professor Deng’s words, Bureau Chief Gao Shiwei knew very well that they might be the first people in this world to see such a substance.

Moreover, the research involved was definitely not that simple, so they could only try their best to break through this technology. Bureau Chief Gao Shiwei knew very well how much impact this weapon would have on the entire world.

‘Yes, but if the Magnetic-severing Glue that Qin Yuan mentioned can really isolate magnetism 100%, perhaps it would reduce a few decades of detours in researching weapons made of this substance..’

Chapter 313: A Great Contribution?

Looking at the transparent gel wrapped around the meteorite, Professor Deng was very excited. If this magnetic gel could isolate the characteristics of the meteorite, then they could use this magnetic gel to isolate the characteristics of this material in the development of weapons made of this material.

“By the way, where’s Company Commander Qin? Where did he go?”

After listening to Professor Deng’s words, Xiao Zhenwu couldn’t suppress his excitement. Although he didn’t fully grasp the significance of what Professor Deng was saying, he was well aware of the potential impact of this material.

If during a war, they could launch missiles containing this substance at the enemy, just one explosion could potentially render the entire battle unnecessary.

“I’m here!”

As he spoke, Qin Yuan walked in from outside the door, holding a bucket of Magnetic-severing Glue in his hand. He had spent 20,000 skill points to exchange it directly from the system store.

Although he had the recipe, he did not have the raw materials to make the magnetic glue here. Moreover, he did not have the time to make the magnetic glue, so he directly exchanged a bucket from the system.

“Qin Yuan, let’s begin. I want to know if what you said is true.”

Seeing Qin Yuan enter, Professor Deng was looking forward to seeing whether the Magnetic-severing Glue could achieve 100% magnetism isolation.

If it was really as Qin Yuan said, then the value of this magnetic glue would be immeasurable.

“Alright!”

Looking at everyone’s expectant eyes, Qin Yuan knew that they were all looking forward to whether the Magnetic-severing Glue he said was really able to achieve 100% magnetism isolation.

However, Qin Yuan was very calm because he knew very well whether this thing could be done. Besides, how could the thing that he had spent 1 million skill points to exchange for be bad?

As he spoke, Qin Yuan opened the Magnetic-severing Glue and walked to the meteorite to peel off the broken Magnetic-severing Glue. This Magnetic-severing Glue had a characteristic that was a little like a non-Newtonian fluid. The stronger the energy in the outside world, the harder it would be, but it was not a liquid.

This was why this meteorite that weighed nearly a thousand pounds couldn’t break through this demagnetizing adhesive, while a small knife can easily cut through it.

“Is this thing that heavy?”

Xiao Zhenwu, who was at the side, felt incredulous because the meteorite was only the size of a palm. However, seeing that Qin Yuan seemed to be struggling to lift it, Xiao Zhenwu was particularly shocked.

Bang!

After Qin Yuan put down the piece of meteorite, it made a loud sound. The floor of Xiao Zhenwu’s office cracked.

“This... No way! Company Commander Qin, is this thing that heavy?”

Seeing this scene, Xiao Zhenwu couldn’t remain calm. This thing was only the size of a palm, but it was actually so heavy? This was already beyond the current scientific understanding.

“This thing is probably about a thousand pounds.”

Qin Yuan immediately explained. Looking at the cracks in the ground, Qin Yuan was a little glad that they were on the first floor.

“What is it? No way!”

‘ Almost a thousand pounds?’

After hearing Qin Yuan's words, Xiao Zhenwu looked at the meteorite in disbelief and did not know what to say.

At this moment, Bureau Chief Gao Shiwei's eyes were filled with shock. Not only was it the weight of this substance, but more importantly, Qin Yuan was actually able to carry such a heavy thing. He had already reached the limit of the human body, right? One had to know that it was a thousand pounds. "If you don't believe me, why don't you try?"

Watching the incredulous look on Xiao Zhenwu's face, Qin Yuan also chuckled and said, not minding further surprising Xiao Zhenwu and the others, considering the already unusual encounter with this material.

"I'll try."

As he said that, Xiao Zhenwu walked over to the meteorite in disbelief. Although his current strength had not fully recovered to its peak, he could still carry something that weighed two to three hundred pounds.

It was not that he did not trust Qin Yuan, but he felt that it was too ridiculous for such a small thing to be so heavy.

Therefore, he wanted to try and see if this thing was really that heavy.

Xiao Zhenwu rolled up his sleeves, then grabbed the meteorite with both hands and immediately lifted it up. However, no matter how much strength he used, the meteorite did not move.

Xiao Zhenwu was getting more and more surprised. He continued to try again. This time, his forehead began to sweat, but the meteorite seemed to be firmly glued to the ground. He could not move it at all.

"This is too ridiculous!"

After trying a few times, Xiao Zhenwu gave up. This thing was really as Qin Yuan had said, it should weigh almost 1,000 pounds.

However, at this time, he admired Qin Yuan's strength. 1,000 pounds? What kind of concept was this?

Qin Yuan's current strength had already exceeded his understanding.

Looking at Xiao Zhenwu's eyes, Qin Yuan knew what Xiao Zhenwu was surprised about. However, Qin Yuan did not say anything, so he immediately took the magnetic glue and started to brush it on the surface of the meteorite.

A few minutes later, the meteorite was covered by a thick layer of transparent gel.

"Alright!"

Qin Yuan put down the brush in his hand and looked at the meteorite before standing up.

"This?"

Seeing that nothing had changed, Professor Deng was a little puzzled.

"Sir!"

At this moment, the soldier who had just reported the situation hurriedly stood at the office door and shouted.

“Speak! ”

Xiao Zhenwu immediately said after seeing his soldiers.

“Reporting to the Bureau Chief, Regiment commander! The strange phenomenon is gone. They can walk out now.”

“It’s just that all the equipment is still disabled.”

After receiving Xiao Zhenwu’s reply, the soldier immediately reported.

“Alright, we got it. You can take a leave first!”

After hearing the soldier’s report, Bureau Chief Gao Shiwei replied in surprise.

“Yes, sir!”

After the soldier left, Bureau Chief Gao Shiwei walked to Qin Yuan’s side.

“Good boy. you have done a great job this time. Tell me. what reward do you want?”

At this moment, Bureau Chief Gao Shiwei was already very sure that what Qin Yuan said was true. For a moment, he was very excited.

According to this situation, the value of this thing was simply immeasurable. Moreover, Qin Yuan’s Magnetic-severing Glue was so powerful. For China, if they could really use these things on weapons, then China’s influence would increase by leaps and bounds.

“Chief, I discovered this by accident. Why would I ask for credit? Besides, it’s still hard to say how to use this thing.”

After hearing Gao Shiwei’s words, Qin Yuan said with a smile. He knew that if this thing could be developed into a weapon, it would definitely be very valuable. However, he did not have the time to study it now. He merely discovered this substance, so when it came to credit, Qin Yuan did not dare to take it.

“I’m not just talking about this. I’m talking about the Magnetic-severing Glue you developed.”

Bureau Chief Gao Shiwei knew that Qin Yuan did not need to take credit for discovering this substance, but developing the glue was of great merit.

One had to know that Professor Deng had already said that if this thing was really as 100% magnetic as Qin Yuan had said, it would be a particularly important strategic resource.

The value of this was not lower than that of the meteorite, so this was really

Qin Yuan’s credit.

“By the way, Qin Yuan, can you tell me the formula for making this Magnetic – severing Glue?”

Professor Deng was very excited because he knew how strong the magnetic field emitted by the crater was. Moreover, he had seen with his own eyes that Qin Yuan had used the Magnetic-severing Glue to isolate the characteristics of the meteorite. In this case, the Magnetic-severing Glue might have reached

100% absolute magnetism isolation.

“This is the formula for the magnetic glue.”

As he spoke, Qin Yuan took out a formula. He had already written it when he had just left.

After all, this had to be handed over to the country and to the researchers. Professional matters should still be handed over to professionals, and Elder Deng was a professional..

Chapter 314: How About a Military Merit Badge!

Qin Yuan had not thought of taking any credit for the Magnetic-severing Glue that he had exchanged for. He was just trying to block the properties of the meteorite. However, the Magnetic-severing Glue seemed to be quite useful.

This was because Qin Yuan had seen the use of the magnetic glue. It was very useful in many weapon fields. However, Qin Yuan had no intention of taking credit for it. He only wanted to obtain credit through his own strength.

Professor Deng took the formula of the Magnetic-severing Glue from Qin Yuan and immediately read it. However, the more he read, the more shocked he became because the steps to make the Magnetic-severing Glue were too complicated.

Although he was not sure if he could make it according to these steps, he knew many of the processes and materials in this formula. Therefore, he felt that it might be as Qin Yuan had said, it was really possible to make a glue that has

100% magnetism isolation.

“Don’t worry, Elder Deng! This can definitely be made.”

Seeing Elder Deng’s hesitation, Qin Yuan said with a smile. This was something that he had exchanged from the system store. How could it be fake? If so, Qin Yuan would kill the system for charging him so 1 million skill points.

Therefore, Qin Yuan was very certain that the formula of the Magnetic-severing Glue was absolutely authentic.

“Nah, I meant that if this thing is really real, do you know what it means?”

Professor Deng looked at Qin Yuan excitedly. He did not expect that this technology that had troubled China for decades would be broken through by a young man in his twenties. Moreover, he had achieved 100% magnetic isolation.

If he could really make this Magnetic-severing Glue according to the recipe, then Qin Yuan’s contribution would be great.

Moreover, Qin Yuan was a soldier, not a researcher.

“Elder Deng, if this is really useful to the country, it can be considered my contribution to the country. When you go back, follow these steps step by step, and you can develop it.”

Qin Yuan knew what Professor Deng was excited about, but Qin Yuan did not want to be involved in scientific research at this time. After all, he wanted to stay in the army.

“Qin Yuan, this is not a small contribution. This is a very important technology for our country. I didn’t expect you to have already done research in the field of scientific research when you were only in your twenties.”

Looking at Qin Yuan’s humble look, Professor Deng liked him more and more because Qin Yuan did not show any tsundere. Moreover, he had always had a normal attitude. It was rare for a young man in his twenties to have such an attitude.

As long as he went back and verified Qin Yuan’s recipe, if it was really as Qin Yuan said, then it would not be a small contribution.

“Elder Deng, don’t praise me. I just messed around and created it myself. Moreover, if we’re talking about other scientific research technologies, it depends on you and other researchers who have silently contributed to the country. I, Qin Yuan, am just a soldier. I don’t know anything about this.”

Qin Yuan said with a smile. He did not want to attract too much attention from Elder Deng. Otherwise, he would really suffer if he was asked to do some scientific research.

Just the recipe alone cost him 1,000,000 skill points, and he only had 2,000,000 skill points in the system.

Doing scientific research required a lot of skill points, so he preferred to stay in the army. Not only was it interesting, but he could earn skill points. Why not(“Alright, I know what you’re thinking.”

“Don’t worry, even if I want to take you away, the Bureau Chief won’t agree.”

Professor Deng knew what Qin Yuan was thinking. He acted like he didn’t know anything but he just simply didn’t want to stay in the laboratory.

Moreover, Professor Deng could see from the Bureau Chief’s eyes how much he valued Qin Yuan. Moreover, from Qin Yuan’s military rank, he could tell that

Qin Yuan was more capable in the army. Otherwise, it was rare for him to reach such a military rank at such a young age in China, in this peaceful era.

“Thank you, Elder Deng!”

After hearing Professor Deng’s words, Qin Yuan heaved a sigh of relief because he was afraid that Professor Deng would ask Bureau Chief Gao Shiwei to let him participate in the research. If Bureau Chief Gao Shiwei agreed, then he did not know what to do.

Fortunately, Professor Deng didn't seem to have such intentions. However, the bigger reason was probably that the Bureau Chief wouldn't agree to it. After all, Battle wolf was still in his hands. How could the Bureau Chief let him leave when it had just started?

"Kid, you really make me look at you in a new light. I didn't expect you to have research in this area."

"It seems that finding an opportunity to let you stay in the research institute might be more useful than in the army."

Seeing Qin Yuan's smug expression, Bureau Chief Gao Shiwei said in a low voice. However, he was indeed very surprised. He did not expect Qin Yuan to have research in this area and be talented.

Not only was Qin Yuan strong enough, but he realized that this kid was talented in scientific research, and he was not weak at all.

He had heard that this kid had some medical background before. Moreover, it was said that Xiao Zhenwu's illness was cured because of this guy. Although he had asked Hua Zhongnan, he actually stammered. This meant that he was keeping Qin Yuan's secret. This meant that Xiao Zhenwu's illness might have been cured by this guy..

Chapter 315: Why Not Get a Military Merit Badge!

"Why did Old Chief Qin have such a freak in his family? This was simply too enviable."

Looking at Qin Yuan, Bureau Chief Gao Shiwei sighed in his heart. He felt that

Qin Yuan's talent was already heaven-defying enough if he had just one talent. However, this kid had more than one talent. Moreover, every one of them was especially abnormal. This made people very jealous.

"Don't, Chief. Battle wolf is still lying there. If I'm not there, they'll be crippled."

Hearing Gao Shiwei's words, Qin Yuan immediately used Battle wolf as a shield. One had to know that Gao Shiwei had high expectations for Battle wolf, so Qin Yuan knew that Gao Shiwei would not be willing to let him leave.

"Oh? You even learned to threaten me? Old Deng, I think your research institute seems to be quite short of people. Why don't you let this kid stay there for a year and a half?"

Seeing that Qin Yuan dared to use Battle wolf to suppress him, Bureau Chief Gao Shiwei immediately turned around and said softly to Professor Deng.

He did not expect Qin Yuan to actually dare to threaten him now, but he did not believe that he could not deal with this kid.

"Chief, then I won't stand on ceremony. My research institute seems to be quite short of people, especially young people like Qin Yuan."

At once, Professor Deng agreed softly. He knew that Gao Shiwei was trying to save face, so he smiled and cooperated with him.

“Alright, alright, Chief, I admit defeat. Battle wolf can’t leave me now, and I guarantee that you won’t be disappointed when you see them again in a few months.”

Qin Yuan knew that Chief Gao Shiwei and Elder Deng were obviously singing the same tune here to make him admit defeat, so Qin Yuan smiled and admitted defeat to Chief Gao Shiwei. He did not want to go against a chief. Otherwise, Chief Gao Shiwei would really send him to the research institute for the sake of face. That would be depressing.

“That’s more like it. The special forces competition is about to begin. Don’t disappoint me when the time comes.”

“If I get teased by those old fellows again this year, I will skin you Battle wolf and Wolf Fang when I return!”

Seeing that Qin Yuan had admitted defeat, Gao Shiwei said with a smile. He knew Qin Yuan’s ability, and he felt that Qin Yuan would definitely be able to give him a surprise.

He couldn’t bear to let this kid do scientific research, and he didn’t report it to Old Chief Qin.

“Yes, sir! I promise to complete the mission!”

As he spoke, Qin Yuan immediately gave a military salute. Next, he had to start training the soldiers of Battle wolf well.

The assessment this time had forced them to lie in bed for at least two days. However, this was necessary because from now on, their Battle wolf would have to take a weekend off. It might be the first time in history that they would be able to take a weekend off.

After entering Battle Wolf, be it the members of Battle Wolf Team 1 or the soldiers who were undergoing the assessment, Qin Yuan would have to adopt a different training method.

“Alright! As for the meteorite you brought, I will immediately send it to the research institute for study. Your contribution will be duly noted, and after the Special Forces competition is over, we will award you together.”

Bureau Chief Gao Shiwei knew that if Qin Yuan’s technology could really achieve 100% demagnetization, then Qin Yuan’s contribution would not be small. In addition, if the meteorite discovered could really develop a weapon with such material characteristics, then Qin Yuan would have double the credit.

This was not a small contribution, but in order not to make Qin Yuan too arrogant, Bureau Chief Gao Shiwei did not plan to apply for Qin Yuan at this time.

“Chief, I don’t care about the credit, but you have to promise me something.”

Qin Yuan had never really thought about these merits, especially since they were gained through the rewards from the system. He felt a bit uncomfortable taking credit for something like this, and he hoped that his accomplishments would come from genuine achievements in tasks.

“Say it. If it’s not a big problem, I’ll agree.”

Seeing that Qin Yuan did not seem to care about these rewards, Bureau Chief Gao Shiwei was a little surprised. However, he was a little relieved because Qin Yuan’s mentality was really very calm. He did not look like a frivolous and arrogant person.

“That’s right. Please change all the equipment in Battle wolf for us.”

As he spoke, Qin Yuan was a little embarrassed. He was a little excited at that time and forgot about this. He directly carried this thing back to the vicinity of Battle Wolf Base.

Now, he could only ask for it from the Bureau Chief shamelessly. After all, Long Xiaoyun asked him to apply for it himself.

‘What? All of Battle wolf’s equipment?’

Upon hearing Qin Yuan’s words, Bureau Chief Gao Shiwei was a little surprised. One had to know that it would cost hundreds of millions of yuan to replace all the equipment in Battle wolf.

Back then, he had hardened his heart and directly equipped Battle wolf with all the most advanced equipment. Now, Qin Yuan actually came to ask for another set. Battle wolf’s equipment was not cheap.

“That...The Bureau Chief’s item had affected the equipment back then, so they were all scrapped now.”

As he spoke, Qin Yuan felt a little embarrassed. Because of his negligence, all the equipment in Battle wolf had been paralyzed.

“Kid, you really know how to squander. That’s a military expenditure worth hundreds of millions. I think I’ll get you a military medal.”

Bureau Chief Gao Shiwei said softly. One had to know that all of Battle wolf’s equipment cost hundreds of millions of dollars, and how good was a military medal? Now, his office was in the middle of a lot, and Qin Yuan’s contributions could reach the level of the military medal.

“Don’t! Chief, you just promised me this. Why are you going back on your word now...”

After hearing Gao Shiwei’s words, Qin Yuan felt a little helpless. One had to know that all of Battle wolf’s electronic equipment had been scrapped. If they could not get new ones, they would be in trouble.

“No wonder Long Xiaoyun asked me to apply...So that’s how it is?”

Qin Yuan sighed softly in his heart. No wonder Long Xiaoyun was so angry at that time. It turned out that these things were not cheap.

“When did I agree? I remember that it was only the Iron Fist Guild, right? I didn’t agree to your Battle wolf’s request.”

For a moment, Bureau Chief Gao Shiwei said with a smile. Battle wolf’s weapons and equipment were all the most advanced. Back then, he had hardened his heart and given them to Long Xiaoyun.

Now that Qin Yuan was here, if he made these guys not know how to be careful so easily, he did not have the ability to make them do this.

“Bureau Chief, I know that a wise and powerful Bureau Chief like you will not go back on your word.”

“Battle wolf still needs me . If there’s nothing else, I’ll take my leave first!” “Goodbye, Bureau Chief. Goodbye, Elder Deng!”

After saying that, Qin Yuan immediately ran away. He knew that the Bureau Chief would definitely prepare all these things for him. The Bureau Chief looked like he was begging him, but Qin Yuan would not do that.

After a while, Qin Yuan walked out of the office. Gao Shiwei smiled and shook his head.

“This brat!”

Looking at Qin Yuan’s departing back, Bureau Chief Gao Shiwei was very helpless. In the end, he asked Xiao Zhenwu to get someone to carry the meteorite onto the helicopter.

Xiao Zhenwu did not expect that it would take more than a dozen of them to carry this small meteorite onto the plane.

After that, Bureau Chief Gao Shiwei and Professor Deng brought the meteorite to the research institute.

After everyone left, Xiao Zhenwu returned to his office. He was really prepared to turn on his computer and continue working on his documents. He had not slept for two days because of these documents.

When Xiao Zhenwu sat down and turned on the computer, a series of dotted lines appeared above his head. Only now did he realize that all the equipment of the Iron Fist Regiment had been paralyzed by the meteorite that Qin Yuan had brought.

“It took me two days to finish this... and they’re all gone now?”

When Xiao Zhenwu thought of this, he felt helpless. He would not have let Qin Yuan open the meteorite here. Now, the information that he had spent two days to prepare was all gone..

Chapter 316: Why Is It Him Again?

Battle wolf Base!

Liu Ye was leading the soldiers who could still be trained on the training ground. After yesterday’s assessment, there were only about a hundred soldiers who could still stand on the training ground.

Among them, only Fatty Zhang and Jiang Feng’s teams were relatively intact. The other soldiers were more or less injured.

This was because only the two of them had managed to escape the torture of the Battle wolf.

“All of you, focus. Out of 300 people, more than 200 people have been beaten up. What qualifications do you have to join Battle wolf?”

“Don’t think that just because you’ve been selected to participate in the Battle wolf selection, you’re done. This isn’t your previous unit, and you’re no longer the elite soldiers of your former squads.”

“In here, you are just a bunch of rookies. Perhaps you feel that you are not convinced by my words.”

“However, look at your current state. If there’s one person standing in front of me unscathed, you can refuse to accept my words.”

At that moment, Liu Ye shouted at the soldiers in front of him. Although the physique of these soldiers was quite good, it was not enough for Battle wolf.

This was Battle wolf, and what they wanted were strong special forces members, not ordinary ones.

Although they were just a newly established special forces, this did not lower their standards.

Liu Ye knew that he had to let all the soldiers know that it was not easy to become a qualified special forces soldier.

The special forces were not as simple as they thought, because they had more missions on their shoulders than the average soldier.

“Oh right, I forgot. You do have a relatively complete army, but I think it’s even more ridiculous that you actually got lost in the dense forest?”

“If this was on the battlefield, it might be because you didn’t reach the designated location that your comrades would lose their lives because of your delay in the battle. It would cause the entire war to collapse because of you.”

“So do you think you are qualified to join Battle wolf?”

“If you all have such strength, I suggest that you all return to your original troops and become child soldiers. Battle wolf does not welcome weaklings.”

Looking at Fatty Zhang and Jiang Feng, Liu Ye mocked them again. Actually, Liu Ye knew very well why, but he would not forgive them because of sudden factors.

The battlefield was cruel. No one would be merciful to you just because of an unexpected situation. No matter what the situation was, it would only depend on the outcome. There were only two outcomes on the battlefield, either win or lose.

The enemy would not give you any chance!

Hearing Liu Ye’s words, everyone’s face darkened, especially the soldiers of the two teams who were trapped in the dense forest yesterday. Their faces were burning with pain.

Because what Liu Ye said was right. There was no mercy in war, and there was no chance to talk about it. If you lost, you lost. If you were not strong enough, you could only die on the battlefield.

All of a sudden, the soldiers on the training ground fell silent. No one dared to speak. They had ??? to say. If they were not ?????????????? enough, what else could they say?

At this moment, they realized the gap between them and the members of Battle wolf.

“Sir!”

At this moment, Wang Yanbing’s voice broke the silence of the entire training ground.

“Speak!”

Looking at Wang Yanbing’s swollen face, Liu Ye immediately replied. It could be said that the one who suffered the most in yesterday’s assessment was this kid. However, he had to admit that he was the only soldier who injured a Battle Wolf member.

“I believe we can stay here in Battle wolf! I’m definitely going in.”

Wang Yanbing said loudly after receiving Liu Ye’s reply. He knew that Liu Ye’s words were cruel, but it didn’t mean that they would give up.

He knew that it was not easy to become a qualified special forces soldier. How could they become strong without going through all kinds of training and tests?

However, he was very confident in himself. Ever since he joined the army, he had never admitted defeat. No matter what, he wanted to join Battle wolf.

“I can’t even recognize you now. Do you still think you have the strength to

Looking at Wang Yanbing’s firm gaze, Liu Ye felt quite gratified. Only soldiers who had the courage to face all the difficulties were qualified to become a member of Battle wolf.

“Even if I’m beaten up like this every day, as long as I can get up, use whatever tricks you have. If I cry out in pain, my surname isn’t Wang!”

Wang Yanbing wasn’t angry at Liu Ye’s contempt. After all, he knew the gap between him and the members of Battle wolf. However, he knew that as long as he had more time, it didn’t mean that he couldn’t beat the members of Battle wolf.

“Sir!”

“Sir!”

At this moment, the two of them shouted.

“Speak!”

Liu Ye looked at the two of them. He wanted to see what they had to say.

“Me too. I’m going to enter Battle wolf, we never said we would be afraid.”

“That’s right. I happen to have the same idea. Either you cripple us and carry us out of here, or we will defeat you one day.”

At this moment, He Chenguang and Leng Feng smiled as they spoke. They knew that they were looking for trouble if they were to fight against the Battle wolf..

Chapter 317: Why Is It Him Again?

However, it did not mean that they would admit defeat. At most, they would be tortured to death during this period of time.

“Sir!”

“Sir!”

All the soldiers in the training ground shouted in unison.

“You guys have the same opinion as the three of them?”

Liu Ye asked loudly when he saw this. His eyes swept across all the soldiers on the training ground.

“Yes, we want to stay too. If you have any tricks up your sleeves, feel free to use them. If we cry out in pain and admit defeat, we’ll call you grandpa!”

“Yes, at most, you guys can drag us out. Otherwise, we won’t leave this place and return to the army by ourselves.”

“The words ‘surrender’ or ‘give up’ were never mentioned by my dad when I joined the army, and the platoon leader didn’t teach us that in basic training either. Do you think we’re going to surrender here?”

At that moment, all the soldiers spoke with high spirits, addressing Liu Ye. Each person’s gaze carried an indomitable spirit, a determination that they could be knocked down, they could be overpowered, but surrendering was not in their vocabulary.

Although they understood the gap between them and the Battle wolf, it would only make them work harder to train and gain the strength to match the Battle wolf team 1 members.

“Good, very ambitious, but I hope you can remember what you said and your bones could be tougher than your mouths.”

Seeing this scene, Liu Ye was very gratified. This was what soldiers should do. They could only go further if they did not give up. This principle was taught to them by Qin Yuan.

To be honest, the logistics company could not have come this far without Qin Yuan’s strict requirements for them. It was because they had never given up on themselves. Looking at the soldiers in front of him, Liu Ye thought of them back then.

“Geng Hu!”

After a few seconds of silence, Liu Ye turned his head and shouted.

“Yes!”

At this moment, Geng Hu walked forward. Although his head was still wrapped in gauze, after the consolation of all the members yesterday, Geng Hu felt that there was nothing to be ashamed of.

“Today, we’re still talking about fighting techniques. I’ll leave these soldiers to you. If there’s still one person who can stand up and talk, then when the captain returns, you’ll have to answer to him yourself!”

Liu Ye said softly as he looked at the hundred soldiers on the battlefield.

“Yes, vice-captain!”

After hearing Liu Ye’s order, Geng Hu looked at the soldiers on the training ground and smiled.

Especially when he looked at Wang Yanbing, who had a pig-like face, his eyes stopped on him.

Wang Yanbing was the one who put the gauze on his head. He said that as long as this kid stayed in Battle wolf Base, he would beat him up. Otherwise, he would not be able to vent his anger.

“What the hell...”

“Why is it this big fool again? Is he not done?”

Seeing Geng Hu’s gaze on her, Wang Yanbing’s heart was already racing.

Because Wang Yanbing knew that Geng Hu was going against him. In the following days, he would definitely be beaten up by Geng Hu.

“Yan Bing, why do I feel that what you said just now was a little too early?”

“Judging by this guy’s appearance, it seems like you might have to rely on this pig-headed face in the days to come.”

Seeing Geng Hu’s gaze on Wang Yanbing, He Chenguang smiled and said. He silently mourned for Wang Yanbing for three minutes.

“I’m sorry, brother. I feel like we can’t help you this time.”

Leng Feng was helpless. He knew that Geng Hu was the strongest among everyone here, and he had just killed Wang Yanbing.

In such a situation, they did not think that Geng Hu would be able to endure being beaten up by a recruit.

“You two. Can you stop making sarcastic remarks?”

“If it wasn’t for my brothers, I wouldn’t have offended this big idiot.”

Looking at He Chenguang and Leng Feng still making sarcastic remarks, Wang Yanbing felt angry.

He couldn’t beat him, but he couldn’t admit defeat. It was needless to say how aggrieved he felt.

“You seemed to be quite tough just now.”

“Then you go first. Let’s see if your bones are hard or if you’re stubborn.”

Geng Hu stepped forward. He had already noticed that Wang Yanbing was the first one to take the lead.

“Oh right, and the two of you. Even if we’re brothers, we can’t just let him get beaten up, right?”

“In a while, I’ll deal with you two as well.”

As he spoke, Geng Hu looked at He Chenguang and Leng Feng. Geng Hu could see that only the three of them were slightly stronger.

“Alright, enough talking! Let’s get to work!”

After hearing Geng Hu’s words, He Chenguang said helplessly. He did not expect Geng Hu to notice them.

“It seems like getting beaten up shouldn’t be reserved only for Wang Yanbing.” Leng Feng frowned and said to Wang Yanbing and the others.

“Haha, I knew that I couldn’t leave you guys out for this kind of thing. We’re brothers.”

After hearing Geng Hu’s words, Wang Yanbing laughed. This time, he wanted to see how He Chenguang and Leng Feng would make fun of him.

“In a while, pay attention. His explosive power and ability to withstand beatings are very strong. If we don’t want to lose too badly, we can only seize the advantage in speed.”

He Chenguang said to Wang Yanbing and Leng Feng. Since they had to face Geng Hu, they couldn’t just face him foolishly. They had to find Geng Hu’s weakness so that they wouldn’t lose too badly.

“Good!”

“No matter what, just fight.”

Leng Feng and Wang Yanbing said at the same time.

“Stop dilly-dallying, all of you, get in there. If you’re done fighting, we can eat early.”

Geng Hu saw that they were still muttering for a long time and was too lazy to slowly engage in combat with them. He felt that there was not much of a problem in dealing with these hundred people.

“This guy never lets gives up a chance to show off.”

Not far away, Qin Yuan had returned to the Battle Wolf Base. Looking at everything on the training ground, Qin Yuan was delighted. Geng Hu had actually begun to treat these soldiers like him.

“Then we can’t admit defeat, brothers!”

Wang Yanbing was the first to charge forward. He knew that Geng Hu was staring at him, so he might as well be the first to charge forward.

“Follow! ”

After saying that, He Chenguang exchanged a glance with Leng Feng and followed closely behind Wang Yanbing.

“Geng Hu is still as wild as ever.”

Jiang Feng sighed softly when he saw this scene. He recalled the conflict he had with Geng Hu and the others when he was in the logistics company.

But now, the strength of the soldiers in the logistics department was already far beyond his reach.

However, this strengthened his conviction to stay in Battle Wolf because he

improved very well that all of this was because of Qin Yuan. He had followed Qin Yuan and the logistics company to this point, and they were all very powerful.

“Jiang Feng, do you know them?”

Hearing Jiang Feng’s words, Fatty Zhang asked curiously.

After the jungle incident, his relationship with Jiang Feng was very good.

Although Jiang Feng was a veteran, he did not look down on the new recruits. He was still a good person.

“Of course. I know them from the beginning until now.”

Seeing Fatty Zhang’s question, Jiang Feng smiled and said. You could say that their Sixth Company has witnessed the journey of these comrades from the Logistics Company step by step to where they are today.

“I see. Then let’s go too.”

“We can’t just watch.”

After hearing Jiang Feng’s words, Fatty Zhang knew that Jiang Feng was from the Iron Fist Regiment’s Sixth Company, so he definitely knew Geng Hu.

“Of course. Yesterday was embarrassing enough. We can’t embarrass ourselves today. Brothers, let’s attack together.”

“Good!”

After saying that, Jiang Feng and the others immediately joined the battle. In an instant, the human sandbags on the training ground were sent flying one by one.

Facing Geng Hu, many of the soldiers were not strong enough, and some of them could only withstand a few moves from Geng Hu before being sent flying.

However, most of them were soldiers selected by Gong Jian from other companies in the Iron Fist Regiment.

After all, their usual training was not as cruel as Qin Yuan’s..

Chapter 318: Just This? More practice!

Wang Yanbing clenched her fists as he looked at the soldiers who were being beaten down by Geng Hu.

They did not expect Geng Hu to be so ruthless. After all, Geng Hu had beaten up more than thirty of them yesterday. No matter what, his stamina should have decreased.

However, Geng Hu did not look weak at all. In fact, he was even more ferocious than yesterday.

Wang Yanbing couldn't help but sigh. "What a pervert!"

Little did he know that while Wang Yanbing was deep in thought, Geng Hu's fist had already smashed toward him.

"Yanbing! Why are you in a daze! Get out of the way!"

Seeing that Geng Hu's fist was about to hit Wang Yanbing's face, He Chenguang warned loudly.

But he was still a step too late.

Geng Hu's speed was so fast that Wang Yanbing had no chance to react at all. He forcefully received Geng Hu's punch.

Wang Yanbing covered her swollen face and glared at Geng Hu fiercely.

He really had to go against Geng Hu. Regardless of whether he could win or not, he had to avenge himself today.

In the next second.

Wang Yanbing and He Chenguang looked at each other and rushed towards Geng Hu as they had said before.

Wang Yanbing swung his fist at Geng Hu from the left. At the same time, He Chenguang swept his leg from the right.

Not only that, Li Erniu joined in the duo's coordination and attacked Geng Hu from the other side.

The three of them had completely surrounded Geng Hu's path. In their opinion, Geng Hu could be said to be in a dilemma.

Unfortunately, they still underestimated Geng Hu's strength and reaction speed.

Just as the three of them attacked, Geng Hu quickly reacted.

Geng Hutou tilted his head and dodged Wang Yanbing's punch.

At the same time, Geng Hu's left and right hands grabbed Li Erniu and He Chenguang's legs.

He exerted force in his hands, and Li Erniu and He Chenguang flew out.

Thump.

Thump.

With two heavy thuds, the two of them fell to the ground.

For a moment, the two of them were stunned on the spot and had no intention of getting up.

Even Wang Yanbing, who was not sent flying, was stunned on the spot.

What a fast speed!

They knew that Geng Hu's explosive power and endurance were very strong, but they did not expect Geng Hu's speed to be so fast!

They suddenly realized how ridiculous their previous idea of gaining an advantage in speed was.

“Is this all you have?” Geng Hu looked at the two people on the ground and laughed coldly.

It had to be said that Geng Hu’s lecturing manner was simply the second Qin Yuan.

He was a completely different person from the usual Geng Hu.

Liu Ye noticed this scene. He was quite satisfied with Geng Hu’s performance.

Only in this way would these people truly grow.

Facing Geng Hu’s provocation, the rage in the three people’s hearts rose sharply.

When the new recruits were in the company, they were beaten black and blue by Geng Hu.

Yesterday, the team led by Wang Yanbing was beaten up by Geng Hu, especially Wang Yanbing.

Now, he was provoked by Geng Hu.

They were all hot-blooded youths, so how could they endure such anger?

He Chenguang and Li Erniu looked at each other and got up from the ground.

In the next second, he swung his fist at Geng Hu.

At the same time, Wang Yanbing rushed over to hug Geng Hu’s legs.

As long as he hugged Geng Hu’s legs, his chances of resisting would be much less.

However, Geng Hu seemed to have seen through Wang Yanbing’s thoughts. Before Wang Yanbing could get close, Geng Hu rushed in front of Wang Yanbing and kicked him away.

Immediately after, Geng Hu grabbed He Chenguang and Li Erniu’s fists with both hands.

In the next second, Geng Hu exerted force in his hand, and the two of them fell to the ground in the same position again.

This time.

The two of them only felt their heads buzzing.

An immense sense of dizziness and pain filled his entire body.

Even so, they still did not give up on the idea of fighting Geng Hu.

They were soldiers brought out by Qin Yuan. Since Geng Hu was so strong, they were naturally not to be outdone!

“Good luck, brothers! We’re not inferior to anyone!”

It was unknown who shouted, but for a moment, everyone’s morale soared.

“Stop dawdling, all of you, attack together!” Geng Hu glanced at everyone present and said impatiently.

“I know you all want to beat me up. Now, I’ll give you a chance!”

“The opportunity has been given. It’s up to you to seize it.”

When Jiang Feng, Fatty Zhang, and the other soldiers heard this, they could no longer hold their breaths.

Even He Chenguang, Li Erniu, and Wang Yanbing, who usually cooperated the best, could not do anything to Geng Hu. The only way they could defeat him now was to attack him together.

With more than a hundred people attacking together, Geng Hu would definitely suffer a little.

After all, it was difficult to fight against four hands with two fists. Moreover, there were more than a hundred of them!

In their opinion, no matter how strong Geng Hu was, he should not be able to withstand the attacks of so many people.

Moreover, they were no longer the bunch of brats from the recruit company.

Thinking of this, everyone attacked Geng Hu from all directions.

In an instant, Geng Hu was surrounded by more than a hundred people.

If it were anyone else, they would not be able to withstand the attacks of so many people.

To put it bluntly, they would only get beaten.

However, there was no sign of fear on Geng Hu’s face. In fact, Geng Hu’s face was filled with excitement! “Brothers! Go!”

Wang Yanbing shouted.

“We’re going to beat him up today!”

Chapter 319: Just This? More training!

In an instant, the people surrounding Geng Hu rushed forward.

Straight punch, hook punch, jab, side kick.

At this moment, all kinds of moves appeared.

They only had one goal, and that was to defeat Geng Hu!

Wang Yanbing and the others, who were in the innermost layer, took the lead and attacked Geng Hu.

Seeing the scene in front of him, Geng Hu no longer hid his strength. Geng Hu charged at Wang Yanbing and the others, kicking Wang Yanbing away.

“Yanbing!” Li Erniu cried out in alarm. He wanted to catch Wang Yanbing, who was sent flying, but he did not expect to be sent flying backward by the impact.

The people behind Li Erniu fell like dominoes.

The remaining people did not stop attacking because of this. They even sped up their movements.

However, no matter how fast they were, Geng Hu's attack speed was always much faster than theirs.

Just as everyone thought that they would be able to touch Geng Hu, a muffled sound rang out in the next second.

Thump!

Thump!

The attacking soldiers flew in all directions.

They all fell heavily to the ground without exception.

From the beginning to the end, they did not touch Geng Hu at all, let alone beat him down!

Looking at the scattered people on the ground, Geng Hu loosened his wrist and walked in front of them.

"Is this all you guys have? Practice more!" Geng Hu said mercilessly.

"Especially you. I'm afraid your face will swell even more like a pig's head now." Geng Hu mocked Wang Yanbing.

"You! Don't be too arrogant! Sooner or later, I'll beat you until you're down!" Wang Yanbing replied, unwilling to be outdone.

He had always been the proudest one, but now, he had been humiliated by Geng Hu time and time again.

How could he take this? Moreover, Wang Yanbing was considered one of the best recruits in the company.

He believed that he would be able to defeat Geng Hu in time!

"Oh? Is that so? I'm really looking forward to it."

"I will be able to witness it in this lifetime, right?" Geng Hu mocked again.

"You..."

For a moment, Wang Yanbing was speechless and could only glare fiercely at Geng Hu.

His gaze was as if he wanted to eat Geng Hu up.

The atmosphere on the field instantly became tense.

At this moment, Liu Ye, who had been watching everything from the side, walked over.

"Gather!"

With Liu Ye's order, everyone got up one after another.

Soon, the team gathered together.

"You can go back first." Liu Ye patted Geng Hu's shoulder and said.

Liu Ye had an idea as he watched Geng Hu leave.

“Is this your strength? Is this what you guys promised just now?”

“There are more than a hundred players, but you can’t even beat one! No, you can’t say that you can’t beat him. You haven’t even touched his body!”

“Do you think you can stay? Everyone knows how to brag about staying here.

The key is whether you have the ability or not!”

“I advise you to go back early and not embarrass yourselves here!”

Liu Ye’s sharp eyes swept across everyone as he spoke mercilessly.

For a moment, everyone lowered their heads and fell silent.

Recalling the words they had said before the competition with Geng Hu, everyone felt ashamed.

‘Vice-captain! Give us another chance. We won’t let you down!’

“I know that there is still a big gap between us and the first team members, but we will not give up. Otherwise, we would not have come here!”

Wang Yanbing was the first to speak.

“Yes! Vice-captain, please believe us!”

Everyone chimed in.

“Next, we will work ten times or even a hundred times harder. We must stay here with our abilities!”

“It’s not that I don’t believe you, but if you want to stay here, you have to endure even more cruel training! Geng Hu is your teammate. If it were an enemy, you would all be dead today!”

“You have to know that the opponents you will face in the future will be even more ferocious than him!”

Liu Ye said earnestly.

The strength of this group of people met the criteria for the Battle Wolf selection, but Liu Ye knew very well that they were far from what Qin Yuan wanted.

Therefore, Liu Ye had to be firm with these people. Only when they truly realized the gap between them, would they train harder.

“Yes, sir! We will definitely work hard!” Everyone shouted in unison.

“Vice-captain, are we going back to the base?”

“300 push-ups per person! Let’s go back to the base after we’re done!”

After saying that, Liu Ye left first.

Looking at Liu Ye’s back as he left, the team immediately complained bitterly.

“Why is the vice-captain so abnormal? We’ve already been beaten up to this state, and he still wants us to do push-ups.”

“That’s right. My arm is about to break.”

“Alright! Don’t talk nonsense, hurry up and finish this and go back to the base! We can’t even beat a single person. It would be strange if they didn’t punish us.” He Chenguang explained.

In Battle wolf Base.

“I heard that you beat up those kids again.” Zheng Xiaohu came to Geng Hu’s treehouse and said.

“That’s right! The vice-captain said that if there was anyone among them who could stand and speak, the captain would teach him a lesson!”

“I don’t want to be beaten by Captain again.”

Not to mention anything else, Geng Hu had been beaten up by Qin Yuan a lot when he became the strongest member of the first team.

Now that he was asked to beat someone up, he naturally wouldn’t miss this opportunity.

“They didn’t play any tricks to hurt you this time?” Zheng Xiaohu joked.

“That kid didn’t even see me today!”

“They’re the group of people who can’t beat the game.”

Geng Hu said loudly.

“Why don’t we have a competition?”

Suddenly, a voice came from outside the door.

The two of them did not need to look to know who it was.

It was Qin Yuan.

“Team... Captain, forget it.”

Geng Hu said as he rubbed his head. The arrogance he had earlier had completely disappeared.

The two of them asked curiously.

“I heard that you were injured yesterday, so I came to see you.” Qin Yuan said with a smile.

“Captain, why are you making fun of me?”

“Alright, I have a mission for you.”

After saying that, Qin Yuan sent Zheng Xiaohu away.

Only Qin Yuan and Geng Hu were left in the tree house.

“Captain, what mission? Why are you being so mysterious?” Geng Hu scratched his head.

Qin Yuan leaned close to Geng Hu’s ear and told him his plan in detail.

“Captain, you’re too ruthless! Is this really okay?” After hearing Qin Yuan’s words, Geng Hu was stunned.

“Is this the first day you met me? Besides, what is the most basic thing for a soldier?”

Qin Yuan raised his eyebrows and asked, “A soldier’s duty is to obey orders!”

“I’ll listen to the captain!”

Qin Yuan nodded and left Geng Hu’s treehouse.

There were still many things waiting for him to do.

In the command room.

“Qin Yuan, what did the chief say about the equipment?”

Long Xiaoyun said when she saw Qin Yuan walking in.

This was the first time the two of them had met since Qin Yuan returned.

“The Bureau Chief told us to deal with it ourselves.” Qin Yuan said with a solemn expression.

“What? How are we going to deal with it ourselves? A few hundred million yuan worth of equipment is no joke.” Long Xiaoyun immediately stood up from her seat.

“No, are you kidding me? Based on my understanding of the Bureau Chief, he wouldn’t say such a thing.” Long Xiaoyun seemed to have thought of something and punched Qin Yuan.

Qin Yuan quickly dodged the punch. “You’re a girl. Why do you hit people so easily?”

Long Xiaoyun snorted coldly, “I didn’t expect someone like you to joke around.”

“The equipment should be in place in a few days. You’ll be in charge of docking.”

“We have to hurry up with the selection of the Battle wolf.” Qin Yuan asked.

“Hmm, do you have any new ideas?”

Qin Yuan told Long Xiaoyun his plan in detail, including the mission for Geng

“I now understand why those people from the logistics company could become like this.” Long Xiaoyun said.

She finally understood that Qin Yuan’s ability was not limited to this. This was the first time she felt that choosing Qin Yuan to carry out the Battle Wolf Plan was the right thing to do!

After hearing Long Xiaoyun's words, Qin Yuan just smiled..

Chapter 320: The Competition Begins!

Looking at Qin Yuan's smile, Long Xiaoyun was a little puzzled. "Are you very glad?" Long Xiaoyun's tone was as cold as ever.

"What? Do you feel bad for torturing your teammate?"

"You!"

Long Xiaoyun suddenly felt that Qin Yuan had always liked to go against her.

Qin Yuan did not continue Long Xiaoyun's words. After all, with Long Xiaoyun's character, it was not a good thing to provoke her.

He told Long Xiaoyun about a few things that he had not mentioned just now. After a discussion, the two of them decided on the assessment plan.

He could only wait for tomorrow!

The next morning.

As usual, everyone quickly gathered together after getting up, waiting for Qin Yuan's instructions.

Qin Yuan's sharp gaze swept across everyone. For a moment, a bad feeling filled everyone's hearts.

"Those eyes are giving me goosebumps," someone whispered.

"I keep feeling that something bad is going to happen."

Although his voice was very low, it still could not escape Qin Yuan's ears.

However, Qin Yuan did not punish them as usual. After all, there were still big moves waiting for them.

"Everyone! Target: Dark Forest!" Qin Yuan said loudly.

As soon as he said this, everyone was a little puzzled. Normally, they would have to train with heavy weights at this time, but no one dared to question Qin Yuan's words.

"Yes, sir!"

Ten minutes later, under Qin Yuan's lead, everyone arrived at the inner part of the Dark Forest.

"From today onwards, you will be undergoing 15 days of wilderness survival training!"

"Other than the combat uniform on you, you have to hand over everything else on you. During this period, you have to look for food yourselves! We will not provide any supplies."

"The most important thing is that after fifteen days, the members of the Battle wolf will be chosen!"

“Company Commander, what is the meaning of this?” Li Erniu asked straightforwardly.

Qin Yuan glanced at him and continued.

“In these 15 days, the members of the Battle wolf team 1 members will be hunting you down. As long as you are caught, you will be eliminated.”

“When there are only 100 people left, we will inform you. At that time, you will have to eliminate your teammates until there are only 50 people left on the field. ”

After hearing the assessment plan, everyone did not dare to breathe loudly.

They were even more shocked!

This was too ruthless!

Putting everything else aside, just eliminating each other’s teammates was something that they could not accept.

Although they came from different companies, most of them were teammates who had fought side by side. How could they bear to do this?

Qin Yuan seemed to have seen through everyone’s thoughts and immediately said

“To be kind to others is to strangle yourself! If you guys were on the battlefield, would the enemy let you all go?”

“Also, you’ve come into contact with the environment of the Dark Forest last time. What I want to tell you is that this place is far more dangerous than you think! ”

“Here, you will encounter swamps, miasma forests, various ferocious beasts, and all kinds of unpredictable dangers. Some of you may not come back alive!”

“So, let me say this first. If anyone wants to quit, then it’s best to do so as soon as possible! Come out now, and you still have a chance to live!”

“Of course, if you guys quit now, it means that our little temple of Battle wolf can’t keep you guys here. We can send you back now.”

Qin Yuan’s words were like a heavy hammer hitting everyone’s hearts. Everyone made up their minds and would not back down!

After all, quitting now was no different from deserting.

No one wanted to be a deserter.

Since they had chosen this path, they had to go all the way!

“Captain! We request to depart!” Everyone shouted in unison.

Qin Yuan waved his hand, and more than 300 people split up and walked into the Dark Forest.

They didn’t know that Qin Yuan’s lips curled into a smile.

No one quit, which was exactly what Qin Yuan wanted to see. As long as they didn't give up on him, Qin Yuan wouldn't give up on anyone!

Inside the Dark Forest.

He Chenguang, Wang Yanbing, and Li Erniu sat together as if they were discussing something.

"Chenguang, you have an idea now. What should we do next?" Li Erniu went straight to the point.

"According to the commander, we have to not only care about our survival but also avoid the Battle wolf Team 1."
