

## **Special Troop 421**

### Chapter 421: Seeing the Human Heart in the Face of Life and Death

“Help! Can someone save us!”

At this moment, Qin Yuan was about to leave when he heard a cry for help not far away.

When Qin Yuan heard this, he immediately turned on the system radar to scan it.

At this moment, there was a small village two kilometers away. It looked like the villagers from before.

At this moment, the flood had already submerged the entire village.

Many houses had already collapsed from the flood, and the rapid flood had almost covered the entire village.

There were four people standing on the tallest building.

An elderly man, two children, and a woman were standing there, crying for help. Their eyes were filled with despair.

Obviously, when the flood came, they didn't have time to escape with the other villagers and hid on the roof.

The flood was about to reach their position. If they waited another hour, they would definitely be covered by the flood.

“Leng Feng, there are still people two kilometers ahead. Let's go and save them immediately!”

At this moment, Qin Yuan turned around and faced Leng Feng! After saying that, he immediately ran in the direction of the village.

“Yes, sir!”

With that, Leng Feng followed Qin Yuan in the direction of the cry for help.

A few minutes later, they arrived at the village and saw the villagers who had just called for help.

“You stay here to receive them. I'll go and save them!”

As he spoke, Qin Yuan took off his clothes. He did not care about his injured body and prepared to jump into the water.

“Captain! ”

‘You're injured. Let me go!’

Seeing Qin Yuan's actions, Leng Feng pulled Qin Yuan back and said.

Qin Yuan already had enough wounds on his body that he had not had time to treat. If he went into the water now, Qin Yuan's wounds would be infected.

“Alright, listen to me. My swimming skills are much better than yours. This injury is not a big deal.”

“Hurry up and inform Shi Sanba and the others to come over here. After they rescue the people, they will immediately retreat.”

“The mountain here wouldn’t be able to hold on for long.”

After Qin Yuan instructed, he jumped into the rapid flood and swam towards the small building.

The flood was too rapid. If Leng Feng and the others followed him into the water, they would only lose their lives.

“Grandma, Mom, look. Is that the People’s Liberation Army uncle coming to save us?”

At this moment, a child on the roof said excitedly to the adults beside him.

Hearing this, the woman and the old man were delighted, so they turned to look at Qin Yuan.

“We’re here, we’re here!”

Because the current was too fast and the distance was a little far, they could only keep shouting and waving their hands at Qin Yuan.

Twenty minutes later, Qin Yuan endured the constant impact of the flood and swam to the small building.

“Hello, we are from the People’s Liberation Army. Please rest assured, we will save you.”

After Qin Yuan arrived, he immediately revealed his identity.

“Yay! Mom, grandma, it’s really the people’s liberation army uncle who’s here to save us!”

After hearing Qin Yuan’s words, a smile appeared on the child’s face. Her eyes seemed to be filled with a sense of security.

“Thank you, thank you, comrade of the People’s Liberation Army!”

When she saw Qin Yuan, the woman wanted to kneel down, but she was stopped by Qin Yuan.

“Sister, don’t be like this. We are the People’s Liberation Army. Our duty is to protect your lives.”

“Only the four of you are left?”

“Is there anyone else in the village?”

At this moment, Qin Yuan immediately asked. He had already used the radar to scan the area. Other than the four of them, there seemed to be no one else.

However, Qin Yuan had to confirm it again.

“People’s Liberation Army comrades, there are only the four of us. The rest should have escaped.”

Hearing Qin Yuan’s question, the woman immediately explained.

“Thank you, comrade of the People’s Liberation Army, It’s all because of me, If it wasn’t for the fact that I can’t move, perhaps Little Yuan’s mother wouldn’t be trapped here.”

“My Da Bao went out to work, so there are only four of us left at home.”

“When the flood came, Little Yuan’s mother was unwilling to abandon me. I was the one who dragged them down.”

At this moment, the old man beside him was crying. When the flood came, his wife would take him away even if she was beaten to death.

He was a person who was about to die, but no matter what, his daughter-in-law was unwilling to abandon him and run for her life. This was a true friend in need.

“Old man, you don’t have to thank me.” “This is what we soldiers should do.”

“This big sister is a good person!”

After listening to the old man’s words, Qin Yuan could not help but respect the woman in front of him because her spirit of not abandoning was worthy of Qin Yuan’s admiration!

A person who could still maintain her integrity in the face of such a natural disaster and death must be a good person.

“Thank you, thank you for coming to save us!”

As he spoke, the old man grabbed Qin Yuan’s hand in gratitude.

They had thought that they were going to die and were already in despair because who would care about them when such a disaster came! “It’s okay, old man. You guys adjust first. I’ll bring you over now.”

“Time is of the essence, we have to hurry! “

Chapter 422: Seeing the Human Heart in the Face of Life and Death

Seeing that the flood was getting bigger and bigger, Qin Yuan immediately explained. This was not the time to be grateful.

Moreover, he was alone. Leng Feng and the others would not be able to pass through the impact of the flood.

Therefore, he had to run back and forth a few times.

“Yes, yes, yes! We’ll listen to you, young man!”

At this moment, the four of them finally calmed down. For some reason, they felt a sense of security when they saw the People's Liberation Army.

"Big Sister, I'll send the old man over first. You and the children wait for me here first!"

"I'll be back soon!"

At this point, Qin Yuan also immediately suggested that since the elderly person's mobility was inconvenient, he had to take advantage of the time when his physical strength was at its best to send the elderly person over first.

"Okay!"

The woman nodded in relief.

"No, comrade, you should send the child and his mother over first." "We are already very lucky that you came to save us." "This flood is too big. Let's give this opportunity to the children first!"

"I'm old and won't live for long. It's fine even if I die."

At this moment, the old man said. It was because of him that the children had lost their chance to live. This time, he could not let them lose their chance to live because of such a thing.

"Mom, you go with the people's Liberation Army comrades first. Little Yuan and I will wait here."

"Don't worry, the people from the People's Liberation Army will definitely get us out of here safely."

After hearing this, the woman immediately grabbed the old man's hand.

"No, young man, send the children over first. Otherwise, I'll jump into the flood."

At this moment, the old man suddenly became determined and did not listen to the woman's suggestion.

"Okay! Old man, don't worry. I'll listen to you!"

At this moment, Qin Yuan replied softly. He knew what the old man was thinking.

In the face of life and death, the old man still wanted to leave the opportunity to live for his descendants.

This harmonious family atmosphere made Qin Yuan feel admiration!

"Then big sister, take good care of the old man first. I'll send the children over first."

As he spoke, Qin Yuan said to the woman beside him.

"Okay! Then you have to be careful too!"

After saying that, Qin Yuan picked up a child in each hand and swam towards Leng Feng.

As the flood was very fast, Qin Yuan directly lifted the two children above his head. At the same time, the system radar was quickly activated, constantly paying attention to the surrounding giant trees and stones. Qin Yuan's swimming skills were pushed to the limit.

More than ten minutes later, Qin Yuan successfully sent the two children to Leng Feng.

"Take them to a safe place!"

As soon as they reached the shore, Qin Yuan instructed.

"Captain, let me go too!"

At this moment, seeing that Qin Yuan's wound was bleeding and his lips were pale, Leng Feng immediately requested.

"You can't get down from this flood. Listen to my orders! Send the children to a safe place immediately!"

At this moment, Qin Yuan immediately refused.

"Yes, sir!"

Seeing Qin Yuan's serious decision, Leng Feng could only follow Qin Yuan's order and send the two children to a safe place first.

After saying that, Qin Yuan threw himself into the water again and kept swimming towards the woman and the others.

Ten minutes later.

Qin Yuan sent the old man over.

Although the old man was still a little sad, this was decided by Qin Yuan and the woman.

When he reached the small building again, Qin Yuan's stamina was almost exhausted.

"Comrade of the People's Liberation Army, I'm sorry. I'm really sorry!"

Seeing the shocking wounds on Qin Yuan's body and the blood that kept oozing out, the woman could not help but cry.

If not for the fact that he was here to save them, perhaps Qin Yuan would not have done this.

"It's okay, big sister. As long as we're here, we'll definitely ensure your safety!" At this moment, Qin Yuan comforted her softly.

His current physical strength was indeed a little weak, so Qin Yuan took out a bottle of physique strengthening liquid and drank it.

Now, all he could do was rely on the physique strengthening liquid supporting him.

In his current situation, there were hundreds of wounds of various sizes on his body, and they kept bleeding.

"Let's go, big sister. We have to get out of here as soon as possible."

"Moreover, the mountain here might not be able to hold on for long!"

At this moment, Qin Yuan noticed that the mountain behind them seemed to be shaking slightly. From the looks of it, a landslide and mudslide would occur soon.

“Good!”

After saying that, the woman put on her life jacket and followed Qin Yuan into the flood. Qin Yuan tried his best to hold on to the woman so that the flood would not hit her.

“Captain! Hurry up!”

“The mountain is sliding down! Swim over quickly!”

At this moment, Shi Sanba, who had just arrived, saw the mountain behind Qin Yuan and the others slide down. He roared like a madman.

“Not good!”

At this moment, Qin Yuan noticed that the entire mountain behind him had slid down. Therefore, the woman hugged him with both hands and he tried her best to protect the woman. Boom! Boom! Boom! Boom!

The huge mudslide hit Qin Yuan’s back along with the flood.

Qin Yuan took this opportunity to continuously use the force to jump.

The impact directly knocked Qin Yuan and the woman towards Leng Feng and the others. Puff.

Qin Yuan protected the woman tightly. Then, he flew dozens of meters and crashed into a tree. Then, he spat out a mouthful of blood.

“Captain! ”

At this moment, Leng Feng, who had noticed the situation just now, ran towards Qin Yuan and the others like a madman.

“Captain!”

“Captain, are you alright?”

At this moment, Leng Feng rushed to Qin Yuan’s side and immediately asked worriedly.

At that moment, Leng Feng thought that Qin Yuan and the others would be buried by the mudslide. However, they did not expect Qin Yuan’s reaction to be so fast. It was just that Qin Yuan’s current appearance was simply shocking.

His entire back was covered in flesh and blood, and it had been smashed.

“I... I’m fine.”

“Send this big sister back first.”

Qin Yuan endured the intense pain in his body and said softly.

The impact this time had broken three of his ribs.

His internal organs had suffered significant damage.

“Captain! This big sister was fine and only had some minor injuries. She just fainted from extreme fear!”

“Captain, you’re the one who’s in the most serious condition now!!!!” At this moment, Leng Feng’s eyes turned red.

This was because there was not a single part of Qin Yuan’s body that was complete. It was full of wounds, and some parts were so deep that one could see white bones!

It made one’s hair stand on end!

However, Qin Yuan still put others before himself!

“I’m fine. Hurry up and leave this place.”

After Qin Yuan finished speaking, he fell asleep. He was too tired!

Soon, Shi Sanba, Leng Feng, and the others immediately brought Qin Yuan and the others back.

At this time, the reinforcements had all arrived and were rushing to the areas that needed support.

“How is Captain Qin?”

In the temporary medical center, Zhou Qing asked the doctor beside him anxiously.

When he saw Qin Yuan’s appearance, his eyes could not help but widen. “He’s currently unconscious, but his physique is really extraordinary!”

“Three of his ribs are broken, and his organs are slightly damaged. But it’s a miracle!”

“It’s really fortunate that you’re still alive under those circumstances!”

At this moment, the doctor in charge of examining Qin Yuan said in surprise.

The flesh on Qin Yuan’s entire back was rotten, but only three of his ribs were broken. This was considered a lucky thing.

“Doctor, when will Captain Qin wake up?”

After hearing the doctor’s words, Zhou Qing heaved a sigh of relief, but he was very shocked.

Leng Feng had already told him everything that had happened.

Under what circumstances could he do this? Perhaps it was only Qin Yuan. If it was anyone else, they might have already sacrificed themselves..

Chapter 423: Those Cute People in the Flood!

At this moment, outside the command center.

Gao Shiwei had personally come to the scene.

The flood this time was very sudden. As soon as he received the notice, he immediately ordered the nearest troops to rush over to support him.

They were the Battle wolf Special Forces.

Although Battle wolf didn't have many people here, at least they were able to save the villagers first.

"How is Qin Yuan's situation now?"

Gao Shiwei asked as soon as he entered.

"Chief, Captain Long, you're here too?"

Zhou Qing immediately asked when he saw Gao Shiwei, and Long Xiaoyun walk in.

"We've already brought our troops to support!"

At this moment, Long Xiaoyun looked at Qin Yuan on the hospital bed, and a trace of worry flashed across her eyes.

"Captain Qin fainted. This time, we rescued the trapped villagers as quickly as we can."

Seeing the Bureau Chief's question, Zhou Qing immediately explained.

To be honest, if it weren't for Qin Yuan, the villagers, including Battle wolf, would have been injured!

"It's good that you're fine! You have completed your mission well! When the disaster relief is over, I will ask the higher-ups for your Battle wolf's merits!"

Gao Shiwei patted Zhou Qing's shoulder and praised him. This time, Battle wolf's performance was outstanding.

"Chief, none of this is important."

Zhou Qing immediately asked,

"Chief, what's the situation at the flood discharge?"

"I've already sent Battle Wolf Team 2 to help. I wonder how the reinforcements are doing!"

Gao Shiwei said in a deep voice,

"Right now, the villagers in the middle and lower reaches are being evacuated urgently. However, because there are too many people and many villages have been flooded, the rescue and evacuation speed has been severely slowed down. The original plan was to evacuate all of them within 24 hours and complete the flood discharge! But from the current situation, it would take 48 hours to complete the evacuation!"

Hearing Zhou Qing's question, Gao Shiwei immediately accepted it. As soon as he arrived with his troops, he immediately ordered all the soldiers to provide support.

The amount of rain was too heavy. Fortunately, the members of the Battle wolf had been building flood defenses since the beginning.

Otherwise, the flood would have drowned the other villages long ago.

Although they had started to build flood control facilities, the current situation was not optimistic.

"Bureau Chief, you mean to say that we only needed to guard this place for 24 hours in the beginning, but now we have to guard it for 48 hours?" Zhou Qing's face darkened.

Gao Shiwei nodded heavily. "Yes, you should know what this means." Zhou Qing's expression tightened. He knew what it meant if he could not defend it.

Now, the water level of Team I's dam was rising.

The storm continued.

Based on the current situation, the water in the dam would break in no more than 12 hours!

Originally, they had built fortifications in hopes of blocking the flood for 12 hours so that the other villages in the middle and lower reaches could complete their evacuation.

But now, it seemed that 12 hours was not enough for them, so they had to hold on until all the people in the middle and lower reaches of the river were safely evacuated.

If the dam was breached, not only would the 10,000 soldiers brought by Battle wolf and Chief Gao be swept away by the flood, but the hundreds of thousands of villagers upstream and the hundreds of thousands of villagers in the middle and lower reaches would suffer!

Therefore, no matter what the price was, they had to protect the dam!

The dam was not very big and had been built for decades. However, the flood above it was very large and many rivers would flow in.

"I have ordered them to evacuate the villagers in the middle and lower reaches as soon as possible. Our mission is to guard the dam before they leave safely!"

"Don't worry, Chief. We will complete the mission."

Zhou Qing nodded his head solemnly.

Qin Yuan was seriously injured because he had rescued the villagers. However, since Qin Yuan had given them a mission, they could not embarrass Qin Yuan.

"Bureau Chief, Qin Yuan is fine. I'll go over first. The members of Battle wolf have all gone over."

"Good!"

After saying that, Zhou Qing immediately retreated and ran in the direction of the dam.

“Chief, I’m going too!”

As she spoke, Long Xiaoyun glanced at Qin Yuan and then said to Chief Wei.

“Go! You must be careful!”

“I believe we can hold on.”

After saying that, Gao Shiwei frowned. This flood was merciless. All they could do was to do their best to stop it.

“Yes, sir!”

Long Xiaoyun saluted and left. The members of Battle wolf were all at the dam, so she had to go with them to complete this difficult mission.

Zhou Qing scanned the area around the dam the moment he arrived.

Previously, the first team had already come over to build some fortifications. With the help of the second team, the Bureau Chief had brought many soldiers over to build quite a large flood control fortification.

However, it was still not enough. The flood was getting bigger and bigger. Soon, the flood of the dam rose above the newly built fortifications.

Normally, when constructing fortifications on a dam, sandbags had to be piled up on the inner and outer three layers, and wooden stakes had to be built. Only then could the impact of the flood be blocked.

Two meters tall, an average sandbag would only be fifteen centimeters long after being hit hard. Two meters tall would require at least twenty sandbags.

Adding on the three layers inside and outside, he would need more than a billion sandbags!

Currently, there are dozens of Battle wolf players and 2000 people brought by the Bureau Chief..

Chapter 424: Those Cute People in the Flood!

However, time was of the essence and the mission was important. They could only speed up!

Right now, all the soldiers on the battlefield were busy building fortifications.

Even though the wind was howling and the rain was pouring, they were still as straight as a pine tree.

“Listen, our mission is... Guard this place for 48 hours!” “Do you have the confidence to complete it?” “I promise to complete the mission!”

“I promise to complete the mission!”

“I promise to complete the mission!”

For a moment, everyone shouted.

“Very good! I believe in you! You are the soldiers led by Captain Qin! They are soldiers that I brought out! We can’t let him down!”

“If I can’t complete the mission, I’ll be the same as you guys. I won’t have the face to see him again, and I won’t have the face to wear this military uniform!”

“So, no matter what the price is! Even if you die of exhaustion or sudden death, you have to die on the dam to block the flood! Do you understand?”

Zhou Qing said to the Battle wolf.

“Understood!”

“Understood ! ”

The Battle wolf knew what Qin Yuan had just done, but now that their mission was urgent, even if they were worried, they could only suppress their worries.

All they could do now was complete the mission.

Even if they had to die, they had to complete this mission!

They could not embarrass Battle wolf or Qin Yuan.

Especially Leng Feng. After seeing Qin Yuan’s actions with his own eyes, he was greatly moved!

That kind of spirit deeply touched him.

“Next, I’ll assign you tasks. You all follow the instructions and complete them!”

“Team 1, you will be responsible for loading and carrying sandbags. Squad

Seven, you will be responsible for hitting wooden stakes.”

“Bring a thousand brothers with you.”

“Move out!”

“Yes, sir!”

Following Jiang Fan’s order, some members of Team 1 carried a bunch of empty sandbags to the bottom of the dam and began to pour sand into it at a crazy speed.

The others began to hit wooden stakes on top to block the sandbags to prevent them from sliding down after being hit by the flood.

“Team 2, immediately lead the other troops to set up flood defenses around this area!”

“Yes, sir!”

After saying that, the other members of team 2 immediately walked towards the other brothers who had just come to support them.

Now that they had a lot of manpower, they were a little more relaxed. However, time was still tight. They had to complete the mission as soon as possible. For a moment, the entire dam was surrounded by many figures.

They were no heroes now.

They were just soldiers!

A pure soldier!

Wherever they were needed, they would be there.

That was all.

In other countries, almost everyone believed that the duty of a soldier was to fight on the battlefield and kill enemies for the country!

Of course, for those capitalists, being a soldier was just a job.

You don't give me a salary and want me to go to the battlefield to kill enemies for the country and the people.

Sorry, wash up and sleep!

You're so great. If you have the ability, go!

To them, either you give me a high salary and benefits, or I like to be a soldier and look for that kind of exciting life.

Otherwise, you have no reason to send me to the battlefield to die!

This was their purpose in becoming soldiers!

It was impossible for them to go to the forest to put out the fire and fight the flood in the disaster area!

They would proudly tell you that we are here to fight on the battlefield with guns, not to carry sandbags for you!

However, in the East, there was such a strange country.

The soldiers of this strange country knew how to fight wars, put out fires, fight floods, and save all disasters.

They received an allowance of a few hundred yuan, but they proudly did work that others were willing to do for tens of thousands.

When the country was in trouble, they would charge forward without any complaints.

They didn't want money, and they wouldn't even touch a needle or a thread from the common people.

When others asked them why they worked so hard, they would only tell you humbly and proudly: To serve the people!

There were more than 200 countries in the world. You definitely couldn't find any country's soldiers who were more stupid than them!

However, they were so silly that they were adorable! Glorious stupidity!

But they were so silly that it made one's heart ache!

Even so, there were still many so-called public knowledge and nationalistic youths in society and on the Internet. Some even thought that they were superior and that soldiers should serve them like this. They were trying their best to refute and criticize them.

Some people thought that since you took our tax money, you had to serve us. This was your duty.

F \* Ck you!

You want me to risk my life for a few hundred yuan? Ask anyone in society. Would anyone be so stupid?

You pay taxes, and they fight to protect the country. It's only right!

But did you give them money for disaster relief and other services? They had a few hundred yuan each month. Did they need to risk their lives?

Your boss gave you so much salary and told you to die. Would you go? Are you going or not? Are you going to die or not?

Your life is your life, but their lives are not?

You have parents, children, brothers and sisters. Are they born orphans?

These people would never understand the meaning of a Chinese soldier's existence!

They would never understand what the true mission of the Chinese soldiers was!

The torrential rain was still falling, and the flood was still wreaking havoc.

Each wave was higher than the previous, and each wave was stronger than the previous!

The first line of defense was still being built. Everyone was desperately loading sandbags, carrying sandbags, and hitting wooden stakes to block the gap!

Thunder rumbled and the wind howled.

All the commoners shut their doors tightly at home, not daring to go out.

The people were afraid of being blown away by the wind, afraid of being washed away by the flood, afraid of being drenched by the heavy rain and catching a cold.

However, these soldiers were humans.

They were afraid.

No one was not afraid of death.

Battle wolf's was still alright, but those brothers in the regular troops were just new recruits who had just joined the army this year.

However, when you wear this military uniform, no matter how afraid you are, you must overcome it!

Otherwise, if even they were afraid and retreated, who else could this country rely on? Could this country still exist?

They were the first and last line of defense for the motherland!

Anyone could fall, but not them!

This was the duty and mission of a soldier!

The spirit of the army that could only be nurtured on this piece of land!

The yellow flood water surged down the dam like a crazy beast, roaring crazily, wanting to break through all restraints.

“One, two, clang!”

“Again! One, two, clang!”

Rhythmic shouts came from the dam.

They shouted slogans and beat the wooden stakes with their hammers to secure them on the outside. Then, they threw sandbags into the middle of the wooden stakes and kept pressing them inward to prevent them from being torn apart by the flood!

The soldiers at the side were all tied up with safety ropes. Otherwise, they would be swept into the flood if the waves came down.

Once you entered, the terrifying flood would instantly wash you unconscious.

Time slowly passed.

Everyone was fighting.

No time to eat!

Sleeping, no time!

They had to hold on until all the villagers in the middle and lower reaches had safely evacuated.

At this moment, not only were the members of Battle wolf performing exceptionally well, even the regular soldiers were doing their best to do what they could!

At this time, the passion and spirit of the Chinese soldiers were everywhere. The spirit of their ancestors was still passed down from generation to generation!

“The amount of rain is still too much!”

At this moment, Long Xiaoyun said to Zhou Qing while she was busy.

According to the amount of rain, their speed would still be unable to catch up!

“No matter what, we have to defend it, because if we can’t, the consequences are unimaginable!”

“We have to think of another way as soon as possible!”

“If Captain Qin was here, would there be a better way?”

At this moment, Zhou Qing thought of Qin Yuan. In the past, as long as Qin Yuan was around, he would not have any worries because Qin Yuan could always create miracles!

However, now that Qin Yuan was seriously injured, they could only do their best to stop the flood..

Chapter 425: Must Defend!

“We can’t always rely on him.”

“This is the reason why he has always been so strict with everyone.”

“Although he’s very strong, he can’t split himself!”

“He’s only one person, so why is Battle wolf always a whole? The reason why we’re called Battle wolf is because we’re a pack of wolves!”

“What I want is integrity!”

“Don’t worry, I believe we will definitely be able to defeat this flood!” Long Xiaoyun sighed softly when she heard Zhou Qing’s words.

She had already understood the previous situation. In order to save these villagers, Qin Yuan had almost taken all the risks alone.

Sometimes, Long Xiaoyun did not know if Qin Yuan was arrogant or protective of these Battle wolf members.

However, Long Xiaoyun was more inclined to the latter.

Qin Yuan was like this. Although the training was strict, most of the time, he still felt sorry for these guys from Battle wolf.

“Everyone, put in more effort. We have to defend this dam no matter what. Behind us are the people we have been protecting. So even if we die, we have to defend this dam. We can’t let it break!”

At this moment, Zhou Qing shouted at all the soldiers.

“Yes, sir!”

“Yes, sir!”

All of the soldiers raised their arms and shouted. They were all half-naked, their shoulders and palms badly mangled, and their eyes were bloodshot.

“Instructor Zhou!”

Leng Feng quickly ran towards Zhou Qing and shouted, “Captain, the flood is too strong. Our soldiers can’t even drive a pile. If we throw the sandbag in, it will immediately be washed away. If we go up again, we will only send our soldiers to their deaths!”

"I don't care! No matter the price, you must block it! Even if you have to use your bodies, you have to block this gap!"

"You knew what the consequences would be if we couldn't defend this dam!" Zhou Qing shouted with red eyes.

If it was possible, which leader would want their soldiers to die in such a way?

They were all excellent soldiers of the motherland, especially some new recruits who had just joined the army. They were still a group of seventeen or eighteen-year-old children. His heart was bleeding when he asked them to die like this!

However, there was no other way!

They had to defend the dam.

Otherwise, if the first dam was torn apart before it was completed, all the soldiers on the scene would be washed away by the roaring flood.

At that time, the villages in the middle and lower reaches would be enveloped by the flood. At that time, it would be as simple as sacrificing a few soldiers!

Thousands of soldiers and tens of thousands of civilians would be buried with them!

They couldn't bear this responsibility!

"Yes, sir!"

Leng Feng gritted his teeth and replied with reddened eyes. Then, he shouted at all the soldiers, "Whoever is not afraid of death, come with me! Use the sandbags and our bodies to block this gap! If you're afraid of death, retreat!"

"Hahaha, I've been waiting for this moment for a long time! Soldiers had to be fearless! Come on! Count me in!"

Wang Yanbing laughed and shouted.

"Isn't it just death? What was the big deal? Eighteen years later, I'm still a soldier in China!"

"I won't regret entering China in this life! He would never regret being a member of the People's Liberation Army! I'll come too!"

"If I die, then die. What's there to be afraid of?"

At once, all the members of Battle wolf, including the soldiers brought by the Bureau Chief, shouted.

The heavy rain continued to wash their bodies mercilessly. They did not know how long they had been soaked in the water.

Many people's hands and feet had already turned white from soaking!

However, there was no fear in their eyes.

There was only an indomitable charge!

Just as Leng Feng was about to lead all the warriors to carry the sandbags and wooden stakes and charge towards Jueti Pass.

Bang!

Leng Feng was sent flying by a kick.

Of course, the crowd was stunned.

What the hell was going on?

“That bastard, kicking me at this time?”

Leng Feng snapped back to his senses and turned around angrily.

“Team Captain?” “You...Why are you here?”

“Aren’t you injured?”

Leng Feng had just turned his head when that familiar figure made him freeze on the spot.

Because the person who came was Qin Yuan, his anger was instantly extinguished.

“A bunch of idiots! Was it interesting to be prepared to die like this? Throw the sandbags onto the truck behind! Use the car to block the breach!” “What did I teach you? Why are all of you dumbfounded?”

Seeing this situation, Qin Yuan cursed on the spot.

He had fainted because he was too tired. After the recovery of the constitution fluid, he could now move, but the ribs in his chest were still faintly hurting.

However, as soon as he woke up, he immediately applied to come over because he was really worried about these guys.

In the end, Gao Shiwei was helpless. In the end, they agreed to let Qin Yuan come over!

“That! not. Captain, we have no choice. Even if we die, we have to defend this dam!”

At this moment, Leng Feng was stammering, not knowing how to explain himself!

“Stop talking. Where are Captain Long and the instructor?”

At this moment, Qin Yuan immediately asked.

“Captain, the instructor is over there!”

As he spoke, he pointed at Zhou Qing and Long Xiaoyun who were in the water not far away.

“Alright, immediately get someone to do it according to my method.. Use the car and sandbags to block the dam!”

Chapter 426: Must Defend!

Qin Yuan looked at everyone carrying sandbags with all their might and using their bodies and sandbags to block the dam. He felt very uncomfortable.

“Yes, sir!”

“The few of you, and you, come with me to drive over!” Leng Feng immediately said to the dozens of people beside him.

“Yes, sir!”

“Yes, sir!”

After saying that, Leng Feng brought his men and immediately drove over according to Qin Yuan’s instructions.

“Qin...Captain Qin?”

“Why are you here? Your injuries?”

When he saw Qin Yuan, Zhou Qing was stunned for a moment, but he asked in surprise.

“I’m fine! I was worried, so I came over!”

“The mission is urgent now, and the situation is not good!”

“We have to guard the dam and try our best to evacuate the villagers in the middle and lower reaches!”

“You can’t block the dam with your bodies!”

At this moment, Qin Yuan immediately explained.

Even if they used their bodies and sandbags to block it, they would still be swallowed by the flood in the end.

In that case, these soldiers would lose their lives!

“Qin Yuan, do you have any ideas?”

After seeing Qin Yuan, a trace of surprise flashed across Long Xiaoyun’s eyes!

This was because Qin Yuan always had many ways, and he could complete the mission perfectly!

“Use the cars and sandbags to block the road. We have hundreds of military vehicles now. Immediately get all the soldiers to drive over and load the sandbags into the vehicles!”

Qin Yuan immediately explained when he saw Long Xiaoyun asking.

“Blocking with vehicles?”

“That’s right!”

When Zhou Qing heard this, he looked in the direction Jiang Fan was pointing at. Suddenly, his eyes lit up.

The truck was more than ten meters long. It might not work if it was empty, but it might work if sandbags were placed to increase its weight! "Hurry up! Everyone, throw the sandbags up! Use the vehicles to block the mouth!"

Zhou Qing waved his hand and shouted at all the soldiers.

"Yes, sir!"

"Yes, sir!"

All the soldiers reacted, especially the members of Battle wolf.

When they saw Qin Yuan arrive, they seemed to have a backbone in their eyes.

No one had time to look at Qin Yuan because the mission was urgent. All their worries had to wait until the mission was over.

As long as Qin Yuan was around, they believed that they would definitely be able to complete this mission.

Under the leadership of the Battle wolf members, they all carried sandbags and threw them into the truck.

Half an hour later, they had already loaded more than 30 trucks. "Captain Qin, let us, Battle wolf, drive the truck to block the dam!" At this moment, Zhou Qing walked to Qin Yuan's side and said.

Everyone knew how dangerous it was to use a truck to block the entrance.

After all, the weight of the car, the impact of the flood, and the force of the huge waves were likely to drown the entire car in the huge dam.

If the operation was not done properly or there were some other unexpected factors, the people and the car would all be swept away by the flood.

Such a torrent, without any protection measures, one would be swept into the flood just like that. Death was certain!

"Yes."

"This is what we should do!"

Qin Yuan was very clear about the danger involved.

However, this was what they should do. Everyone was afraid of death, but if they died, they had to let Battle wolf do it first!

"Brothers of Battle wolf!"

"Yes!"

"Yes!"

The members of the Battle wolf shouted in response. Their eyes were filled with determination.

They knew what they were going to do next.

They knew about it when they used the truck to fill the dam.

However, they were not afraid. Instead, their eyes were filled with excitement. "I think you all know what we're going to do next. Everyone, follow me!"

"Yes, sir!"

"Yes, sir!"

With that, the entire Battle wolf Team 1 and Team 2 followed Zhou Qing towards the truck.

"I'm going too! I can't do without this kind of thing!"

At this moment, Long Xiaoyun, who was beside Qin Yuan, smiled and said.

"Be careful!"

"Good!"

After saying that, Long Xiaoyun followed Zhou Qing and the others. "I'll go first! My driving skills are very good! "

He Chenguang ran over and was about to get into the first car.

"I'll do it. I usually drive at home. I've done long-distance transportation with my dad for two years. I know how to block this mouth."

At this moment, Wang Yanbing said.

"What do you know! I even drove a tractor at home! Let me do it!"

"None of you can snatch it from me! When it comes to driving, no one can claim to be better than I am!"

At this time, Leng Feng walked to the car and said.

All the warriors of Battle wolf were using all sorts of reasons to fight to the death.

These were the Chinese soldiers.

In the face of danger, they would always be like this, scrambling to die.

In their eyes, whether it was the lives of the people or the lives of their comrades, they were much more precious than their own! He could die, but the people and his comrades could not die!

These idiots! "Shut up! I'll drive!" At this moment, Zhou Qing shouted.

As Battle wolf's instructor, he felt that he should be the first to come! After saying that, Zhou Qing dragged everyone down and sat down.

"Instructor, don't!"

"Let us go first!"

"That's right! Instructor, let us go first!"

At once, all the members of the Battle wolf got their hands on it.

"Stop nagging, this is an order!"

Zhou Qing didn't want to talk too much with the crowd, so he shouted directly.

"Instructor, you have to be careful!"

At this moment, the members of Battle wolf could only helplessly say.

"Don't worry! "

Zhou Qing nodded and looked up at the mouth of the river that was pouring a huge flood. He took a deep breath and stepped on the accelerator. The truck rushed toward the mouth of the river.

Everyone looked at the truck nervously.

If he was not careful, Zhou Qing would really be swept away by the flood!

Boom!

Zhou Qing stepped hard on the accelerator, and the truck rushed into the breach. The flood rushed towards the truck.

Zhou Qing suddenly turned the steering wheel and made the truck dump into the truck.

In the end, the entire truck flipped over, and all the sandbags on it fell into the breach. Because the truck was blocking the flood, the flood could not wash away. With this, the entire ten-meter-wide breach was basically blocked.

Zhou Qing jumped out immediately.

Two-thirds of the truck's head had entered the flood, and the surging water was pouring into it.

"Instructor!"

Everyone rushed over.

Now, the flood had been blocked inside. Although there was still a lot of water rushing out, it was generally stable. It seemed like it was quite useful. "I'm fine!"

Zhou Qing got up and said to everyone.

When the other warriors saw that Zhou Qing was fine, they were pleasantly surprised and excited.

"Long live the people!"

"Long live the Chinese soldiers!"

"Hooray!"

There were waves of excited shouts at the scene.

Especially those new recruits who had just joined the army, they were very excited.

The so-called long live was not a feudal superstition. It was just a cry of faith and joy for victory!

Looking at the happy smiles on everyone's faces.

Qin Yuan suddenly felt that this was how soldiers should be!

Soldiers were meant to protect the country and the people.

Going out to kill enemies was to protect the country, but it was just one of the forms.

Fighting floods and dealing with emergencies would protect the lives and property of the people. It was the mission and responsibility of the soldiers!

At this moment, the morale of the soldiers reached its peak. After receiving a great boost, they felt as if their previous fatigue had disappeared. Their bodies were filled with endless hope and motivation!

With the dam's mouth blocked, their first line of defense could be considered to have been blocked. With this, they would be able to buy a long time for the evacuation of the middle and lower reaches. How could they not be excited?

All of them were so happy that they were speechless. The tiredness and hardship of this period of time were gone..

Chapter 427 - 427: Geng Hu the Bootlicker! (Two s combined)

The members of the Battle wolf then drove the trucks to the dam to block the flood.

For a moment, the flood control capacity of the entire dam was much faster than before when they were carrying sandbags to block the flood.

According to the current situation, they could at least hold on until the villagers in the middle and lower reaches of the river evacuated safely.

As long as the villagers in the middle and lower reaches of the river were safely evacuated, they could guide the flood discharge.

“Captain, if we destroy these vehicles, won't the Bureau Chief ask us to pay for

At this moment, Geng Hu looked at the rows of trucks slowly entering the water. Then, he was stunned and said to Qin Yuan.

“Are the vehicles more important or the people's lives more important?” After hearing Geng Hu's words, Qin Yuan scolded him with a smile.

What kind of situation was this? Forget about these vehicles, how could the value of these vehicles be compared to the value of lives?

This time, it was already fortunate that they were able to buy time for the evacuation of the middle and lower reaches.

“Captain Qin, if it wasn't for your method, we might not have been able to complete this mission!”

At this moment, Zhou Qing walked to Qin Yuan's side and said with a smile. “It's fine. This is the last resort! Sometimes, we don't need to risk our lives.’

“So when we encounter something in the future, we have to think of a way to complete the mission!”

At this moment, Qin Yuan immediately reminded him. After all, the lives of soldiers were still lives. Sometimes, some missions did not necessarily require soldiers to take risks.

These words weren't just for Zhou Qing, but for all the members of Battle wolf. "Yes, sir! I know. The situation just now was too urgent, so I couldn't think of such a way!"

Zhou Qing said, somewhat embarrassed.

Qin Yuan was right. If they had only carried sandbags and blocked the entrance of the dam, perhaps many of them would have died.

"I understand. Alright, everyone is tired!"

"Have a few of our Battle wolf stay behind to guard this place. If anything happens, let us know!"

"The rest of you, go back to the command center and rest!"

Qin Yuan could understand Zhou Qing's thoughts at that time. That situation was indeed very urgent, because if he could not stop it, the consequences would be unimaginable!

"Yes, sir!"

After saying that, Zhou Qing walked to the soldiers and asked the soldiers who had followed the Bureau Chief to return to the command center to rest. At the same time, he left a few members of Battle wolf to keep an eye on the dam.

"Your injuries? Are you alright?"

At this moment, Long Xiaoyun looked at Qin Yuan and asked worriedly.

One had to know that Qin Yuan was a person with a few broken ribs. She was already very surprised that he came here as soon as he woke up. "I'm fine. These are just minor injuries. I'll be fine in a few days at most!" Qin Yuan smiled in the face of Long Xiaoyun's question.

"A few days? What do you think this is? Will it get better just because you say

Seeing that Qin Yuan was bragging again, Long Xiaoyun's worried expression immediately changed.

"Alright, I'm really fine. Let's bring them back to rest for a while." "Many of these soldiers are new recruits who just joined the army this year!" Looking at the dusty soldiers not far away, Qin Yuan felt gratified.

This was how the Chinese soldiers were like. No matter what, they would always be at the front lines.

Even if it was a sacrifice, they would always be worthy of their military uniforms.

"Humans are really insignificant in front of nature!"

Looking at everything in front of her, Long Xiaoyun felt very touched.

It could be said that she had experienced many wars, especially when she was in the International Special Forces Academy.

However, compared to this disaster, those wars were insignificant.

If they could not stop the flood this time, once the dam burst, tens of thousands of people might be affected.

No one knew how many people would die at that time.

“Yes, natural disasters are merciless, but this is a method of punishment by nature.”

“So if humans still don’t know how to coexist with nature, such things will only be the norm in the future!”

Qin Yuan could only sigh helplessly.

The current environment had been severely damaged. Humans’ over-exploitation and logging had caused nature to be riddled with holes.

“Yes, but our country has been vigorously renovating these years. I believe that the environment will get better and better in the near future!”

Long Xiaoyun agreed with Qin Yuan’s words.

“Let’s go! Let’s go back too. This place should be fine for the time being!”

“I don’t know what’s the situation now that the Bureau Chief has arranged for the villagers to evacuate downstream!”

With that, Qin Yuan turned around and walked towards the command center.

“Not bad, not bad. You guys did a good job this time!”

“Especially you, Qin Yuan!”

“This time, if you Battle wolf didn’t arrive first, perhaps the villagers who were first affected would have all died.”

At this moment, in the command center, Gao Shiwei laughed happily.

At first, he was worried that they would not be able to hold the dam! Because the storm was too heavy, and the evacuation work downstream was very complicated.

“It’s fine, Chief! This is what we should do!”

Chapter 428 - 428: Geng Hu the Bootlicker!

“Not to mention our Battle wolf!”

Qin Yuan said softly when he heard Chief Gao Shiwei’s praise.

Although Battle wolf had contributed a lot, everyone was the same. These contributions could not be separated from the soldiers who had risked their lives to stop the flood.

“Chief, how’s the evacuation situation in the middle and lower reaches?” At this moment, Qin Yuan immediately asked.

“Currently, the evacuation has been intensified. The local departments and some volunteers are doing their best to evacuate the people downstream!”

“I believe that we will be able to evacuate safely soon!”

After hearing Qin Yuan’s question, Gao Shiwei immediately said.

“Then, Bureau Chief, which area are we going to discharge the flood to?” At this moment, Qin Yuan asked curiously.

Because no matter which direction the flood flowed in, it would cause some areas to suffer considerable disasters.

This was because there was no other way.

“We’ve already informed the relevant local departments about this. When the time comes, we’ll be able to reduce our losses!” “Have a good rest first!”

“Right! Qin Yuan, your injuries? You have to rest well!”

Chief Gao Shiwei was very clear about the problem Qin Yuan was talking about. However, as for where to release the flood, he had to reduce the losses as much as possible.

However, Qin Yuan’s injuries worried Chief Gao Shiwei.

One had to know that Qin Yuan had broken a few ribs. As soon as he woke up, he immediately asked to go to the dam.

If it was an ordinary person, they would have to lie in bed for at least ten days to half a month without being able to move at all.

“Chief, my injuries are fine! It’ll be fine after a few days!”

Seeing that Chief Gao Shiwei was worried about him, Qin Yuan explained with a smile.

The recovery ability of his physique was still considered passable. Coupled with the recovery of the physique strengthening loquid, he could at least not feel any pain now.

Although it still hurt a little at times, it was normal.

It was impossible for an ordinary person to do this.

“You’re really different from ordinary people!”

“You guys have done an excellent job in this flood control mission. After this mission is over, I’ll ask for credit from each of you.”

Gao Shiwei knew that Battle wolf had displayed an outstanding military demeanor, and he had truly displayed the blood and bones of a Chinese soldier. “Chief, this is what we should do. It doesn’t matter if we succeed or not!” Qin Yuan did not care much about credit.

After all, he did not become a soldier for the sake of merit. In his heart, he felt that the profession of a soldier was very noble!

He wanted to become a useful soldier.

“Just because you don’t want it doesn’t mean that they don’t want it. There are still some contributions to be made!”

“Alright, you should recuperate first! I’m here!”

“I believe that as long as the flood is released safely, we should be able to survive this natural disaster!”

After hearing Qin Yuan’s words, Gao Shi Wei was very gratified. Qin Yuan’s reverence for soldiers had already penetrated deep into his bones!

“Alright, then I’ll go down and take a look at the soldiers first!”

Hearing the Bureau Chief’s words, Qin Yuan did not say anything else. Indeed, he had to give credit. After all, the soldiers had exchanged their lives for it.

Although they were not risking their lives for some credit, it was still a kind of honor.

It was an affirmation of their fearless sacrifice!

“Alright, go!”

“I’ve already asked the logistics department to prepare dinner for everyone! Go over and take a look for me first!” At this moment, Gao Shiwei said softly. “Good!”

After saying that, Qin Yuan left.

At this moment, outside the command center, Qin Yuan walked to the location of the soldiers.

The food prepared by the logistics department was already cold.

However, none of the soldiers took a bite because they were too tired.

Now everyone was curled up on the ground and asleep.

Just like that, they snuggled up to each other and fell asleep on the grass! “This... Should I wake them up first and let them eat first?”

Seeing this scene, Long Xiaoyun was very touched because it really made her heart ache!

Many of them were only around 18 years old, and most of them were new recruits who had just joined the army this year.

They were all young people, but many people of the same age as them were probably lying comfortably in their warm beds at this time!

“No need!”

“Let them rest for a while. They can eat anytime!”

After hearing Long Xiaoyun’s words, Qin Yuan stopped her.

Because he knew that these guys were really too tired.

They spent the whole day soaking in the water and constantly carrying sandbags to fill the dam.

It was not easy for them to sleep at this time, so how could Qin Yuan disturb them?

“Let’s go to Battle wolf’s side! Tell the logistics department to pay attention and heat up their food when they wake up!”

At this moment, Qin Yuan said softly.

‘Good! I know!’

After saying that, Long Xiaoyun followed Qin Yuan to where the Battle wolf members were!

“Captain!”

“Captain! ”

At this moment, the members of Battle wolf noticed Qin Yuan walking over. They immediately got up from the ground and rushed towards Qin Yuan!

“Alright, is everyone alright?”

Seeing that everyone was in good spirits, Qin Yuan felt a little better.

It was not in vain for them to train for so long in Battle wolf!

“We’re all fine! Captain, how are your injuries? When I heard Leng Feng tell us about it, we were all worried to death!”

At this moment, Zheng Xiaohu walked to Qin Yuan’s side and greeted him.

When Qin Yuan was injured just now, he was leading a team of players to the dam! It was only after Leng Feng and the others went over to help that they found out that Qin Yuan was injured!

“That’s right! Captain! Are you really alright?”

One could imagine how dangerous the situation was at that time, because they were very clear about how strong Qin Yuan was.

Therefore, they did not dare to think about anything that could injure Qin Yuan!

“I’m fine. Don’t you know my strength? It’s just this little injury!”

Seeing all the team members’ worried expressions, Qin Yuan’s heart felt warm.

This kind of relationship between teammates was very pure! “Captain! I heard from Leng Feng that the mudslide almost buried you!”

“But how dangerous was it!”

At this moment, Geng Hu ran up and asked Qin Yuan with a smile.

When Leng Feng had told them about it, he jumped up in excitement.

Perhaps only their captain could run through the mudslide.

Everyone knew how fast that speed was.

“What’s wrong? You want to try? Then I’ll let you do it next time!” Looking at Geng Huts smiling face, Qin Yuan said unhappily.

“No. No thanks!”

“If I were to experience this thing, I might be buried before I could escape!” After hearing Qin Yuan’s words, Geng Hu immediately said. This was not a joke.

After all, who could be as abnormal as Qin Yuan!

If they were to encounter it, they could forget about escaping and just accept their fate!

Geng Hu knew this very well!

“Then why did they all carry sandbags and rush towards the dam?”

Looking at Geng Hu’s expression, Qin Yuan smiled. When these guys were farting here, they were all afraid of death!

But just now, under that kind of situation, their eyes were filled with fearlessness.

Rushing forward was completely different from what he looked like now!

“Then...Isn’t that different! ”

“If we can’t complete the mission, we can’t imagine the consequences!”

“Anyway, at that time, I just wanted to do my best. Even if I died, I had to complete the mission!”

“Besides, we have a wise and mighty captain like you. How would we dare to embarrass you and Battle wolf?”

At this moment, Geng Hu started to flatter Qin Yuan, his face full of smiles!

‘You’re right!’

“But when did you become so glib?”

After hearing Geng Hu’s words, Qin Yuan was a little stunned!

Chapter 429 Exploding the Mountain!

“Uh... captain!”

“What’s that saying? Oh right, A scholar who has been away for three days will be looked at with new eyes.

“I can’t always be a straight man, right?”

At this moment, Geng Hu said with a smile. One had to know that one should not hit a smiling Derson with one’s hand. Therefore. Genc Hu had learned his lesson.

“Alright, Geng Hu, if you have such a resolution, why don’t you have a girlfriend?”

At this moment, Zheng Xiaohu, who was standing at the side, smiled when he saw Geng Hu’s expression. At this moment, Zheng Xiaohu’s mind flashed back to the time when they were in the hospital.

When Geng Hu asked him to get the nurse’s phone number, he really took her phone.

Thinking of this, Zheng Xiaohu could not help but want to laugh.

“Girlfriend? This will only affect the speed at which I draw my sword!”

“Besides, we’re already in the army. I belong to the army now!”

“If there’s a girl, I’ll feel sorry for her! After all, we spend most of our time in the army!”

Geng Hu had never thought about finding a girlfriend.

After hearing Geng Hu’s words, Qin Yuan fell into deep thought. Geng Hu was right.

They were now part of the army, belonging to the country and the people!

For a moment, he thought of Miao Xiaoxiao!

He had been busy for so long and had not had a chance to talk to Miao Xiaoxiao.

Qin Yuan felt that he had let her down.

“It seems that after this mission is over, I have to take some time to go back and see this girl!”

As he thought about it, a faint smile appeared on Qin Yuan’s face.

“Captain, what is this? It seemed that Captain really had someone in his heart!”

Looking at Qin Yuan’s expression, Zheng Xiaohu knew that Qin Yuan already had someone in his heart.

“Alright, take a good rest and adjust your condition!” “Although we have managed to defend the dam, our mission is not over yet!” “We have to be prepared at all times until the flood is over!”

After Qin Yuan came back to his senses, he immediately said to the Battle wolf team.

“Yes, sir!”

“Yes, sir!”

The members of Battle wolf replied in unison. They knew very well that the mission was not over yet, so they could not let their guard down!

“Geng Hu, remember to bring a few people to replace the brothers guarding the dam!”

Seeing that Battle wolf and the others were a little tired, Qin Yuan instructed Geng Hu.

“Yes, sir!”

“Alright, rest first! Be on standby!”

“Yes, sir! Captain!”

“Yes, sir!”

After saying that, Qin Yuan and Long Xiaoyun continued to walk out. “Why don’t you go and rest? Look at your wound, it’s bleeding again.”

At this moment, Long Xiaoyun saw that the gauze on Qin Yuan’s back was covered in blood and immediately reminded him.

This time, Qin Yuan’s entire back was almost smashed. The violent impact of the mudslide hit his body, and only Qin Yuan’s abnormal physique could withstand it.

If it was someone else, they might have already sacrificed themselves.

“I’m fine!”

“Let’s go to the dam again. Otherwise, I’ll still be worried!”

Qin Yuan did not care about the pain in his back. Now, he only wanted to go to the dam to inspect it again.

At the very least, he had to ensure that the flood of the dam had been blocked. Otherwise, he would not be at ease.

“Alright then!”

“I’ll go with you!”

Seeing that Qin Yuan was already like this, but he was still thinking about the safety of the dam, Long Xiaoyun was still a little touched.

After spending time with Qin Yuan during this period of time, she felt that Qin Yuan was becoming more and more different.

Back then, she had felt that Qin Yuan was too young. His temperament and sense of responsibility would not be so strong.

But now, it seemed that she was wrong.

Qin Yuan’s heart was filled with the entire country and its people. Qin Yuan had the backbone of a Chinese soldier!

And it was especially intense!

Just like that, Qin Yuan endured the pain and went out to patrol the dam for a week. Qin Yuan turned on the system radar to continuously scan the stability of the dam.

After Qin Yuan swept his gaze around and confirmed that everything was fine, he returned to the temporary lounge.

“It seems that even with this physique strengthening liquid, it will take some time to recover!”

After returning to the lounge, Qin Yuan undid the gauze on his back.

Looking at the flesh on the gauze, Qin Yuan sighed softly.

The injury on his ribs was slowly recovering. Although it was still very painful, at least it was not a big problem.

However, the flesh on his back had just been soaked by the rain, and now it was bleeding non-stop. He had to disinfect it immediately.

After Qin Yuan changed the gauze, he slowly leaned against the headboard and fell asleep.

Early the next morning, Qin Yuan was woken up by the noise outside the tent.

“What’s wrong?”

After Qin Yuan got up, he saw Geng Hu running over in a hurry as soon as he came out of the tent.

“Captain, I was just about to come over and call you when you woke up.” Seeing that Qin Yuan had woken up, Geng Hu said with a smile.

“What’s wrong? Why is it so noisy?”

Qin Yuan looked at the soldiers outside the door running in the direction of the dam and asked curiously.

“Captain, the villagers downstream of the dam have safely evacuated. The chief has already informed us of the flood discharge!”

Geng Hu immediately replied.

“Flood? Have they all safely evacuated? Did the Bureau Chief say that the flood was released to that area?”

Qin Yuan immediately asked after hearing Geng Hu's words..

Chapter 430: Blowing Up the Mountain!

The water storage capacity of the dam was shocking. No matter which direction the flood was discharged in, some places would be washed away by the flood.

However, there was nothing he could do about it!

“The Bureau Chief asked me to come over and see if you’re awake. Then, he asked me to call you over!” Geng Hu said with a smile.

“Let’s go!”

Coincidentally, Qin Yuan wanted to see if there was a better way to release the flood.

After all, there were many crops in the downstream area. As long as the flood was released, it would be bad no matter where it was released. After saying that, Qin Yuan followed Geng Hu to the entrance of the dam.

There were already many soldiers gathered here.

“Chief!”

At this moment, Qin Yuan walked to the side of Chief Gao Shiwei.

“You’re here? You’re smart. Come over and take a look. Is there a better way?”

Seeing that Qin Yuan had arrived, Gao Shiwei’s tightly furrowed brows relaxed.

This was because the flood discharge was already giving him a headache. After all, no matter where the flood was discharged, it would cause a lot of losses.

“Alright!”

After hearing Chief Gao Shiwei’s words, Qin Yuan walked in.

At this moment, the big screen displayed the geographical map of this area.

Qin Yuan took a closer look and realized that there were many villages and crops in the downstream area.

No matter which direction the flood went, it was not good.

For a moment, even Qin Yuan felt a headache.

“There’s nowhere to discharge the water!”

Looking at the map, Qin Yuan sighed softly.

“That’s why I don’t know what to do until now! The geologists and property analysts had already been there, but there was no better way!”

At this moment, Gao Shiwei sighed and looked at the big screen helplessly.

“Chief! I think we should do it here!”

At this moment, Qin Yuan’s hand pointed at a position.

“Here?”

At this moment, Gao Shiwei immediately looked in the direction Qin Yuan was pointing at.

It was actually a small hill on the map. Although it wasn’t very big, there was no way to drain the flood water there.

“This place doesn’t work at all. With this small hill blocking the way, how could the flood be diverted there?”

At this moment, Gao Shiwei asked in confusion.

Since Qin Yuan had said this, he looked at Qin Yuan as if he had already come up with a solution.

“Blow it up!”

Looking at Gao Shiwei's puzzled expression, Qin Yuan said indifferently.

"Blow up???"

"You mean to blow up this small hill?"

After hearing Qin Yuan's words, Gao Shiwei said in surprise.

"Yes! "

"Chief, we just need to blow up this hill and we can divert the flood here."

"Then, it will eventually flow into other rivers. There are many rivers here, and when the time comes, we can share the flood."

"This way, the villages and buildings downstream of the dam will not be harmed."

At this moment, Qin Yuan explained.

Because this was the best solution at the moment!

"The method you mentioned is indeed good, but it can't be done this way!"

"This small hill is too close to the dam. If we use explosives to blow up this small hill, it will directly reduce the bearing capacity of the dam."

"If we don't control it well, the dam will collapse too!"

At this moment, Gao Shiwei analyzed.

It was not that he had not questioned the geological experts about Qin Yuan's method, but it would not work at all.

"It's okay, Chief!"

"Leave the mission to us, Battle wolf!"

"Don't worry, our Battle wolf will definitely complete the mission!"

Qin Yuan knew what Chief Gao Shiwei was worried about. Wasn't he afraid that if the mountain exploded, it would directly affect the bearing capacity of the dam?

Qin Yuan had a system for this. As long as the system analyzed it well and controlled the amount of explosives, he would definitely be able to complete this mission.

"Let me think!"

At this moment, Gao Shiwei were deep in thought. This was not a child's play. If the dam failed to be controlled and collapsed, the losses would be even more serious.

"Don't think about it, Chief. Time is tight. If the rain continues, the flood will fill the dam again."

"Chief! Please believe in our Battle wolf! We will definitely complete the mission ! "

Seeing that Gao Shiwei was still hesitating, Qin Yuan immediately said. Now that the amount of rain was a little less, it gave them some time!

“Okay! I believe you, kid!”

“No matter what, we must complete the mission! I’ll leave these to you!” Gao Shiwei said in a deep voice after a few minutes of silence.

“Yes, sir! I promise to complete the mission!”

Qin Yuan bowed and immediately left.

With the system analyzing it, Qin Yuan was very confident.

“You’re up?”

Just as Qin Yuan left the command center, Long Xiaoyun walked over.

“Yes, the Bureau Chief asked me to come over!”

“I just received a mission! ”

Qin Yuan said with a smile when he saw Long Xiaoyun.

“Mission? What mission?”

“Aren’t we going to release the water today?”

After hearing Qin Yuan’s words, Long Xiaoyun was a little surprised. When she heard that there was going to be a flood today, she came over herself.

“Yes, sir!”

“We, Battle wolf, have accepted the mission to blow up the mountain. Go and inform those guys to gather now!”

Seeing Long Xiaoyun ask, Qin Yuan immediately replied.

“Blow up the mountain? Why?”

At this time, Long Xiaoyun was confused. This was the first time she heard that flood discharge would cause a mountain to explode. However, the way she looked at Qin Yuan did not seem to be joking.

“You’ll know in a while! Hurry up, we don’t have much time.”

Seeing that the sky not far away had darkened, Qin Yuan was worried that there would be an even bigger storm later.

“Alright!”

Seeing that Qin Yuan was keeping her in suspense. Long Xiaoyun could not be bothered to ask anymore. Qin Yuan liked this.

Anyway, she would know in a while, so Long Xiaoyun was too lazy to ask.

After saying that, Long Xiaoyun immediately walked towards the direction of the Battle wolf members.

A few minutes later, the members of Battle wolf had gathered.

“Captain! Is there another mission?”

“Yeah, now that the troops are gathered, they should want us to carry out some mission again, right?”

As soon as Qin Yuan walked in front of them, everyone immediately asked. ‘Yes! We haven’t completed our mission yet!’

“Although the flood is blocked now, the flood discharge will be a big problem!”

“After much consideration, the higher-ups have decided to let us, Battle wolf, carry out a mission!”

Hearing everyone’s questions, Qin Yuan immediately explained. “Captain! Tell me, what do you want us to do?”

“That’s right! After a night of rest, I’m full of energy now!”

When they heard that there was another quest, the entire Battle wolf team became excited.

“Captain Qin! What mission did the Bureau Chief assign us this time?” At this moment, Zhou Qing walked to Qin Yuan’s side and asked.

“Blow up the mountain!”

“Blow up the mountain???”

After hearing Qin Yuan’s words, everyone was a little stunned. Why did they want to blow up the mountain for no reason?

‘Yes!’

“Listen to my orders immediately!”

“Team one, you are responsible for splitting the gunpowder into each 5 kg explosive pack!”

“Zheng Xiaohu will help you!”

“Yes, sir!”

After hearing Qin Yuan’s order, everyone immediately quieted down. “Team Two, bring the drilling machine and follow me and Instructor Zhou!” “Yes, sir!”

“The few of you follow Captain Long and guard around this small hill. Don’t allow anyone to approach!”

“Yes, sir!”

“Yes, sir!”

At this moment, Qin Yuan immediately assigned tasks to the members of Battle wolf.

This explosion required precise calculations. It had to ensure that while the small hill collapsed, it could not affect the dam at the side!

Otherwise, all his efforts would be in vain.

Therefore, Qin Yuan needed to go to the small hill and carefully analyze the data..
