

Special Troop 491

Chapter 491 - 491: Going Deep into the Battlefield

“There’s one more thing!”

Qin Yuan reminded him again, “Other than your compatriots, don’t try to sympathize with any local strangers here, let alone try to save them and help them out of kindness.”

“Although we are Chinese people with flesh and blood and shouldn’t be so cold, the land under our feet is constantly at war. It’s not something that we can solve with just a little help. There’s an old saying that people have their own fates since they came to this world. Some are rich, some are mediocre, some are poor, and so on. However, this is their fate. At least, it’s not something that you and I can change.”

“Millions of innocent people in this place have been suffering from war all year round. Some of them have been in war since they were born, and tens of thousands of civilians die in the smoke of war every day. The various countries’ peace-keeping forces stationed here all year round are powerless and unable to help.”

“Please remember our mission this time. Save our compatriots and escort them back to their country safely! Our strength is only enough to save our compatriots. You might think it’s a little heartless.”

“But this is the reality that we have to face. Unless you want to die with them, don’t act rashly. Control your restless heart and don’t cause unnecessary casualties because of your own mistakes.”

Everyone fell silent after hearing this, and their expressions were a little heavy.

People are not plants, they have a heart.

However, the Chinese soldiers did not lack sympathy and the courage to sacrifice.

In the hearts of these hot-blooded young men, wearing military uniforms meant protecting all the weak.

If he could still remain indifferent when facing a terrorist force that was wantonly slaughtering civilians, then he really did not deserve the military uniform he was wearing.

However, what Qin Yuan said was the truth. It could be seen that he had done his homework for this operation.

“In South Africa, there is no lack of war, death, and compassion. Our Chinese compatriots are the ones who need our protection the most.

There was nothing they could do about the innocent civilians except to pray in their hearts.

The war-torn world was too realistic. He couldn't help but sigh at the peaceful era that China had grown up in.

He Chenguang, Wang Yanbing, Li Erniu, Leng Feng, Shi Sanba, and Zhang Dajun looked at each other and sighed.

They could all imagine the cruel scene.

Even if they still chose to try their best to help, it would not change anything other than bringing endless danger to themselves or their comrades.

Two hours later, the plane finally landed.

A military officer from Country B walked towards them and said to them in English which was not very fluent, "Are you the special forces of China?"

"Yes, Comrade Major. May I ask if our vehicles are ready?" Qin Yuan replied.

"Don't worry, it's already prepared. All eight cars are inside."

"Yes." The major nodded and hesitated for a moment before continuing, "Are you really planning to enter the war zone? That's the most dangerous place. It's full of Reaper Armed Forces."

Qin Yuan said without hesitation, "Yes!" We have to go in. There are factories belonging to our Chinese compatriots in the war zone. They are already under control. We have to lead our troops in to save them. Even if chances are slim, we will not give up any chance to save them."

The major revealed an extremely envious look after hearing that.

"I really envy you Chinese people for being able to receive the protection of your powerful motherland and army. So far, your country is the first country to arrive in Country B to rescue your compatriots. I wish you all good luck and hope that your compatriots can return home safely. We have to fight to protect our country."

"Thank you, and good luck to you!"

After the two of them shook hands and said goodbye, Qin Yuan immediately waved his hand, signaling for everyone to get into the car and set off.

"Inform Captain Long that we're already on board and ready to head to the war zone!" Qin Yuan said to Gong Jian.

"Yes, sir!"

"Now, follow me and sneak into the occupied city from the established route.

We'll split up to find our compatriots and rescue them."

"We've already reached a friendly negotiation with Country B's military. They will assist us in providing information to the frontline appropriately so that our rescue operation will be smoother."

Qin Yuan arranged the actions after entering the battlefield in an orderly manner.

This time, they were able to obtain intelligence assistance from Country B on the frontline of the war zone. It was undoubtedly like adding wings to a tiger for this operation.

It was almost impossible to successfully evacuate the 100-plus people without being discovered by the Reaper Armed Forces. If they were discovered, they would be hunted down by a large number of armed forces.

“Captain Qin! Captain Qin!” Long Xiaoyun’s call came from the radio station.

“Please speak if you receive it!” Qin Yuan replied.

“During this operation, you must keep the radio communication unobstructed at all times. Report immediately if there is any situation! Immediately set off to enter the war zone!”

“Yes, sir!” Qin Yuan replied.

After saying that! Qin Yuan brought everyone into the car and sped towards the center of the battle. The battle zone was about 150 kilometers away from them. With the help of the book, they could reach the battle point in about two hours.

An hour later, Qin Yuan sent Shi Sanba and the other two to scout the way. They continued to move forward.

Half an hour later...

“Captain Qin, we have found no Reaper Armed Forces active in the first 30 miles. We are safe for now..”

Chapter 492: Going Deep into the Battlefield

“However, the Reaper Armed Forces is currently attacking Country B’s army!

Both sides were fighting fiercely to seize control of the city. It was obvious that Country B’s army was at a disadvantage. If this continued, the city could fall at any time! There are hundreds of thousands of civilians inside, and our Chinese factories are among them. Once they fall, the consequences will be unimaginable.” Shi Sanba rushed back and reported anxiously.

“Full speed ahead! We have to go and provide support as soon as possible!” Qin Yuan ordered decisively.

At once, everyone rushed toward the city at their fastest speed.

Half an hour later, Qin Yuan and the others appeared in the ruined town outside the city. From afar, they could still see the smoke from the artillery bombardment. Clearly, this place had just experienced a fierce battle. At this moment, they could already see corpses everywhere along the way, and the air was filled with an indescribable stench.

This small town was five kilometers away from the city. Everyone hid in the houses.

"Everyone, check your weapons and equipment immediately. Enter the battle zone in ten minutes and prepare for battle!" Qin Yuan ordered.

"Yes, sir!"

"Gong Jian, release the drones and scan the locations of the four armed forces and the approximate number of people in the city." Qin Yuan said to Gong Jian.

"Yes, sir!"

Gong Jian immediately brought Wang Yanbing to the roof and released the drone.

Gong Jian was in charge of observing the number and position of the enemies, while Liu Feng was in charge of drawing and taking notes. The two of them cooperated tacitly.

Soon, Gong Jian brought Wang Yanbing over with the simple map he had drawn earlier.

"Captain Qin, look! This is the number of people and regional distribution of the Reaper Armed Forces."

Gong Jian pointed at the map and said to Qin Yuan, "According to our observation, there are about 2000 people from the Reaper Armed Forces who attacked the city this time. Although Country B's army has more than 2000 troops, they have to allocate half of their manpower to evacuate the civilians, greatly reducing their actual combat effectiveness!"

"At present, nearly half of the area has been occupied. They have placed sentries on almost every street. As for their weapons and equipment, other than some conventional rifles, pistols, and assault rifles, they were not as powerful as the others. Other than guns, there are a large number of mortars, rocket launchers, and other heavy weapons."

"This is not the most terrifying part!" Gong Jian paused for a moment before continuing.

Gong Jian's eyes flashed with fear as he spoke.

"There are quite a few child soldiers in the Reaper Armed Forces. They were all tied with explosives. Disguised as a commoner here, we'll mingle in the crowded streets and alleys."

"Once they discovered that Country B's army was moving civilians, they did not hesitate to detonate the bombs on their bodies. Flicking. Most of the soldiers and civilians who died were killed in almost the same way."

"The main thing is that the city is in chaos. We can't see where the factories of our compatriots are."

"Have you found their headquarters?" Qin Yuan asked.

"Found it! Right here!" Shi Sanba pointed at the building in the center of the map.

“Isn’t their commander right here? But this command center is filled with soldiers. I estimate that there are no less than 300 of them!”

“It seems that the situation is much more cruel and complicated than we thought!” Qin Yuan said with a troubled expression.

“Then what should we do now?” Zheng Xiaohu asked.

“If we want to meet up with Country B’s army and find out the location of the Chinese compatriots, we’ll have to kill their way through!” He Chenguang said.

“In my opinion, there’s no need for that!”

Qin Yuan continued, “We have such a good position and opportunity. Why should we waste our energy to meet up with Country B’s army?”

“Captain Qin, do you mean that we should ambush them from behind and catch them off guard?” Gong Jian asked in realization.

“That’s right!”

Qin Yuan nodded affirmatively.

Remember not to act on impulse and go up to the enemy! Once you are discovered, you will be punished by military law!”

“We’ll ambush them from behind and disrupt their firepower, buying more time for the alliance army to move.”

“In a while, we’ll split into five groups and fight guerrilla warfare and sparrow warfare with them respectively. We’ll continue to interfere with their shooting and exhaust their endurance. In the end, we’ll lure them to the suburbs!”

“You must remember that once you are discovered by the enemy during the interference process, you must immediately retreat at full speed. You must not blindly engage in battle!”

“Yes, sir!”

Everyone replied.

“We don’t have the advantage in numbers, so we can only use our advantage to play roundabout tactics with them. They can’t do anything to us from a long distance!”

Qin Yuan said confidently.

“I’ll emphasize it again! Our goal is not to confront them head-on, but to find a way to stall for time so that Country B has more time to transfer the civilians.”

“Helping them is undoubtedly helping our Chinese compatriots! Do you understand?”

“Understood!”

Everyone nodded in agreement when they heard Qin Yuan’s detailed arrangements.

Although they were all strong, they were outnumbered by more than 2,000 armed militants.

“In that case, let’s begin the grouping immediately! Three people in a group.”

“Gong Jian, your team doesn’t need to enter the battle zone. Be responsible for drones and thermal imaging. Report the enemy’s location to us from time to time and inform us in time!”

“We can’t let any of our brothers fall into the enemy’s encirclement! Is there a problem?”

“No problem! I promise to complete the mission!” Gong Jian replied. After saying that, Qin Yuan began to group them.

The teams were still grouped according to the strengths and weaknesses of the members of the team.

One of them had outstanding individual qualities and leadership skills as the team leader, while the other two would be an assaulter and a sniper.

The overall strength of these people was not much different, but there was someone who had a certain ability that was especially outstanding.

For example, some were good at shooting, some were especially good at assaulting and charging, and some were good at blasting.

Five minutes later, Qin Yuan had already assigned everyone.

“Those who have already been divided into groups, move according to the original plan. The rest of you, follow me to carry out the more difficult task.” Qin Yuan suddenly became even more serious.

“What mission?”

“What mission?”

Geng Hu, Zheng Xiaohu, and the others asked curiously. The others were even more stunned.

“Charge into the enemy’s ranks and wait for an opportunity to kill the leader of the Reaper Armed Forces!” Qin Yuan said firmly, “It can be understood as a decapitation operation.”

“So it’s to capture the leader first. What a brilliant plan, Captain!” Geng Hu said with a smile.

At this moment, a call came from the command center.

“Do you know how many soldiers and weapons they have in the building? Just the few of you charging in is no different from suicide puppets.” Long Xiaoyun objected anxiously in the command center.

“That’s right! Captain, it’s not that we’re afraid of death, but...This is too dangerous.” Geng Hu said worriedly, “Just now, Gong Jian said that there are more than 300 soldiers around the enemy command center!”

“It’s almost impossible for just a dozen of us to charge in and behead them.”

“Captain Long, don’t be anxious. It’s not too late to object after hearing my plan out!” Qin Yuan smiled and said.

How could Qin Yuan not know how serious the current situation was? Therefore, he continued to tell everyone about the next deployment.

“I’ve already considered the concerns that you mentioned. That’s why I need to divide the people into small groups to cooperate with the operation. As long as we distract their firing points, we can speed up the efficiency of our infiltration into the enemy’s interior.”

“As long as we can successfully enter that building, we will have completed the first step of the decapitation operation.”

“Although there is a huge difference in numbers between the enemy and us, and it seems that we are outnumbered, nothing is impossible after my careful planning!” Qin Yuan was very determined.

“I’m confident that we can do it!”

As he spoke, Qin Yuan’s expression suddenly became solemn..

Chapter 493: Deep Into Danger

“Casualties are inevitable in war, and danger is inevitable! If we were really afraid of danger, we wouldn’t have chosen to join the Battle wolf Special Forces!”

Long Xiaoyun did not stop their operation after hearing Qin Yuan’s words in the command room. She only hoped that their operation would proceed smoothly this time.

At this moment, Geng Hu was looking at Qin Yuan silently and did not say anything else.

“Captain, are you serious?” Zheng Xiaohu looked at Qin Yuan in shock. “When have you ever seen me joke?”

“The two of you have followed me the longest in this group. Both of you are very outstanding, and your skills are the most comprehensive.”

“If the three of us work together, with the cooperation of the other teams, I have enough confidence to execute this plan successfully!” “Are you guys afraid of death?”

Qin Yuan gave Geng Hu and Zheng Xiaohu a final confirmation.

“Who’s afraid of death?”

“Who’s afraid of death?”

Upon hearing this, Geng Hu and Zheng Xiaohu were unhappy and said in unison.

“With you leading us, we will definitely be able to kill our way out. At most, we will die in battle! As a member of Battle wolf, I’m not afraid of sacrifice!” Zheng Xiaohu patted his chest and said.

“Captain! We believe in you!” Geng Hu continued, “Good! In that case, let’s set off immediately!”

“Remember it all! You must do as I say. Disturb from a distance of at least 100 meters. Don’t try to get close to the enemy!”

Qin Yuan instructed the Battle wolf members loudly.

“Once they attack you, retreat quickly. If someone is unfortunately shot, immediately cover the injured and retreat back to the suburbs for hidden treatment!”

“This operation is very dangerous, but I don’t want anyone to die. Do you understand?”

“Yes, sir!”

“Quickly check if your communication equipment is in good condition. Make sure it’s foolproof. Otherwise, you won’t be able to hear the enemy’s movements when they are reported. If you can’t grasp the enemy’s situation at the first moment, you’ll easily be imprisoned.”

As they spoke, everyone checked their equipment.

Qin Yuan continued, “Immediately assign the routes to each group. Which group goes to which street? You must remember your route clearly.”

Immediately after, Qin Yuan took the panoramic map of the city that Shi Sanba had drawn and began to assign groups.

Soon, in less than five minutes, all the teams were ready. With Qin Yuan’s order, the teams ran in different directions of the city.

Qin Yuan brought Geng Hu and Zheng Xiaohu along the original planned route and explored the direction of the enemy command building.

Soon, all the teams had infiltrated the battle zone.

Each district was responsible for two main streets.

At this moment, the Reaper Armed Forces were firing at the soldiers of Country B from various vantage points on the street.

The entire city was filled with gunfire and smoke.

Many civilians who were unable to evacuate in time were shot to death by the Reaper Armed Forces, and their bodies were strewn on the streets.

Soon, some of the members began to shoot at the Reaper Armed Forces members.

The Reaper Armed Forces had never expected that there would be enemies who dared to provoke them. They immediately mobilized a portion of their forces to chase after the gunshot.

The team members remembered Qin Yuan's orders. Once they found someone, they would immediately retreat.

Outside the city, Gong Jian was constantly watching the drones and thermal imaging technology to secretly monitor the movements of the Reaper Armed Forces.

He would report to the combat teams in the city from time to time so that they could keep track of the enemy's military situation and better carry out guerrilla warfare and sparrow warfare.

In fact, with Qin Yuan's strength, he did not need Gong Jian's intelligence at all. Under the radar scan, he could check if there were any enemy troops around him.

If they discovered enemy activity nearby, they would take a detour to avoid alerting the enemy.

Geng Hu and Zheng Xiaohu widened their eyes in shock when they saw Qin Yuan's amazing insight.

They silently followed behind Qin Yuan, constantly shuttling through the ruined streets. What the other two didn't understand was that they didn't see a single enemy despite the constant gunfire around them.

"Captain, aren't we afraid that the enemy will suddenly appear and shoot us?" Geng Hu couldn't help but ask.

"Exactly! I don't think you need to fumble around and observe. It's really cool to lead us around like this!" Zheng Xiaohu continued.

"If there were enemies, they would have fired at us long ago! Follow me!"

Geng Hu was speechless.

Zheng Xiaohu was speechless.

"Captain, do you have x-ray vision? Or do you have an extraordinary hearing?" Geng Hu asked half-jokingly,

"Stop talking nonsense! Be alert! Follow me closely. The Reaper Armed Forces's command center is 500 meters away. Be prepared for battle at any time!" Captain Qin said in a deep voice.

Qin Yuan thought to himself, 'What nonsense? How can I be your captain if I don't have some special abilities?'

The two of them immediately focused on their surroundings and quickly followed Qin Yuan to the enemy's command center.

Just as Qin Yuan had said, they were already so close, but they still did not see the enemy. This meant that there were no militants around them.

Soon, Qin Yuan brought the two of them to the roof of the tallest ruined building nearby.

The three of them quickly crouched on the roof. Qin Yuan stared at the blue building in front of him.

"The command center of the Reaper Armed Forces is that blue building in front of us. Their leader is in this building."

Geng Hu and Zheng Xiaohu poked their heads out and saw a blue building guarded by militants 300 meters away from them..

Chapter 494 - 494: Deep into Danger (2)

Then, he picked up the binoculars and looked over. He clearly saw three patrols pacing back and forth on the roof of the building, patrolling the surrounding environment.

As he shifted his attention to the building, he realized that every street fortress was lined with rows of Reaper militants wearing rags and black hoods, only revealing their eyes and nose.

After a rough calculation, there were more than 300 people. It seemed like Gong Jian was right.

This did not include the militants in the building.

Seeing this scene, the two of them could not help but feel their scalps go numb. How should they start with this formation? If he charged in directly, it would be strange if he would not be beaten into a sieve.

"Oh my god, this place is full of enemies. How can we enter?" Geng Hu said.

Geng Hu and Zheng Xiaohu revealed doubtful expressions.

"Who told you that we have to go in to kill them?" Qin Yuan said to Geng Hu with a smile.

"Captain... Could it be? You want to shoot from this rooftop?" Zheng Xiaohu was stunned and continued, "That doesn't make sense. There's not even a window, and we can't see anything inside. How are you going to fight?"

"Can't we fight even if we can't see?" Qin Yuan asked.

"Alright, cut the crap. Get ready for battle immediately!"

"Yes, sir!"

“Later, when I open fire, the enemy will definitely discover our position. The two of you will help me suppress the enemy’s fire and cover me. Understand?”

“Understood!”

The two of them replied in unison.

As Qin Yuan spoke, he picked up the Type 11 medium sniper rifle and skillfully switched it to the enhanced armor-piercing explosion.

“Captain Qin, what are you doing? Do we really have to snipe the target from such a distance?”

“This is a solid wall without even a window!”

“Besides, once they hear the gunshots, the entire building will be surrounded in less than two minutes. By then, we will become the meat on the enemy’s chopping board, waiting to be slaughtered!” Zheng Xiaohu anxiously expressed the fear in his heart.

“If it really comes to that, how can we complete the mission and successfully save our Chinese compatriots?”

Geng Hu and Zheng Xiaohu looked at Qin Yuan in shock. Looking at the flustered two of them, Qin Yuan appeared even calmer.

“Two minutes? Ten seconds is enough!” Qin Yuan continued, “I’ve observed it. The buildings here are mainly made of earth and brick walls. The thickness of the walls is 20 centimeters.”

“With the power of the sniper rifle in my hand, I can make a hole with two shots. According to my observation and judgment, I’m very sure that the leader of the Reaper Armed Forces is in the second room on the 15th floor.”

“As long as I break through a wall and shoot again, one shot every two seconds is enough to kill the enemy leader! The two of you are responsible for protecting me for these crucial ten seconds.”

“Captain, how can you be so sure that the other party’s leader is in that room? This isn’t within the detection range of our thermal imaging.” Geng Hu questioned.

“Intuition!”

After saying that, Qin Yuan was already prepared to ambush.

“Be alert! I’m going to start moving!”

The two of them no longer hesitated over the doubts in their hearts. They quickly cooperated with Qin Yuan’s actions and prepared to cover him.

Qin Yuan quickly used the radar to scan accurately and quickly determined the exact location of the enemy leader.

At this moment, in the blue building, a burly bald black man was playing with a woman in revealing clothes.

“Reporting, Commander! There’s an emergency.”

A militant ran in quickly and said anxiously.

The bald black man waved his hand to signal for the woman to leave.

“Continue.”

“We don’t know where the army came from, but they’ve split into multiple groups and attacked us from behind. In just ten minutes, more than a hundred people have died!” The militant reported breathlessly.

“Didn’t we exterminate Country B’s army? Where did so many reinforcements come from?” The commander of the Reaper Armed Forces analyzed calmly.

“I don’t know the details. They are all wearing combat uniforms, and there are no markings on their clothes. It’s difficult to tell where they came from!” “If you don’t even know what’s going on, what is the intelligence team doing?”

“Gather the troops immediately and focus on killing them. Don’t let a single one go!”

“How dare they behave atrociously under the eyes of my Reaper Armed Forces! We can’t let them leave alive!” The commander of the Reaper Armed Forces ordered with a livid expression.

“Yes, sir!”

The armed man responded and quickly rushed out.

Bang!

At this moment, a violent gunshot rang out outside the building.

“Why are there gunshots? Go out and take a look!” The building guard shouted.

Bang!

Just as he finished speaking, another gunshot rang out. At this time, a hole the size of a head had been punched through the wall of their room.

The two shots directly tore a large hole in the 20-centimeter thick mud wall, and it was 300 meters away.

With two gunshots, Qin Yuan’s position was quickly locked onto by the patrolling militants on the roof of the building.

“They’re on the roof of the building at 12 O’clock!” One of the armed commanders shouted into the intercom.

Everyone who confirmed the danger, hundreds of militants, focused their firepower in Qin Yuan's direction and fired crazily!

"Cover!" Qin Yuan shouted.

Geng Hu and Zheng Xiaohu did not hesitate to shoot accurately at the opposite side. Every shot from 300 meters was accurate, and every shot was a headshot.

In addition, more than 200 militants who were originally guarding the first floor quickly surrounded them.

"Oh my god! There are too many of them! They surrounded us so quickly."

Geng Hu exclaimed,

"It's time to get on the big guy. Watch carefully!"

As Geng Hu spoke, he swiftly set up his machine gun with a capacity of several hundred rounds and fired wildly at the militants.

The flames seemed to have gone crazy as they swallowed the crowd rushing towards the building. Dozens of militants were instantly torn apart, scaring the militants behind them into retreating quickly and not daring to charge forward.

On the other side, Qin Yuan was observing through the scope that the armed commander in the building was tightly surrounded by the human wall. He could only vaguely see the figure behind the human wall.

Bang! Whoosh!

The Reaper Armed Forces set up a rocket launcher and fired at their position.

"Rocket launcher! Hide!"

Geng Hu and Zheng Xiaohu quickly rushed back when they heard the sound, while Qin Yuan remained motionless and aimed at his target.

This was because he saw that the commander of the Reaper Armed Forces had already stood up and was looking at the situation outside. Thinking about this rocket, you should all die without a burial place!

Qin Yuan decisively pulled the trigger.

Bang!

"Captain! Let's go!"

The moment Qin Yuan finished firing, he was already dragged back by Zheng Xiaohu.

Boom!

The rocket launcher blew up a large part of the spot where Qin Yuan had sniped.

"Do you want to die? If you were a second later, you would have turned into ashes. "

Zheng Xiaohu looked at the hole that had been blown up and roared crazily at Qin Yuan.

Qin Yuan could not be bothered with Zheng Xiaohu at the side. He quickly took out his binoculars and looked in the direction of the building. He saw the armed commander lying in a pool of blood looking out of the building with his eyes wide open.

“Hehe! Their commander has already been killed by me!” Qin Yuan said happily.

“Wow! Captain, you’re too awesome! How did you do it?”

The two of them looked at Qin Yuan in amazement, their faces filled with admiration!

“Let’s not care about that for now. Let’s retreat while they’re still panicking and haven’t reacted!” Qin Yuan quickly led them to evacuate.

The three of them quickly retreated to another ruined building next to them.

“Geng Hu, two at your three o’clock, shoot!”

“Zheng Xiaohu, three at 10 o’clock, fire!” Qin Yuan shouted.

Geng Hu looked in the direction of the voice and realized that there were really two Reaper Armed Forces frantically approaching.

He decisively fired two shots in a row, instantly killing two militants with headshots.

On the other side, Zheng Xiaohu had successfully killed three militants.

Qin Yuan pushed the radar scanning system to the limit and discovered that there were at least 200 Reaper Armed Forces approaching crazily within a 200-meter radius.

Moreover, they had surrounded him from all directions.

Before the two of them could sigh at Qin Yuan’s amazing judgment, Qin Yuan continued to roar,

“Hurry up! Go to the building in front!”

Chapter 495 - 495: Break through the encirclement and rescue our compatriots!

As they spoke, they quickly ran towards a four-story building 30 meters ahead.

Their current situation was not optimistic. The enemy would soon outflank them. Qin Yuan and the others had nowhere to escape.

He could only fight with his back against the wall!

“What should we do? We’re completely surrounded. Captain, should we call for backup?” Zheng Xiaohu said in a panic.

“Quiet! Are you planning to send your comrades to their deaths?” Qin Yuan said angrily.

“Those who don’t want to die, listen to my orders from now on. Hit wherever I point. There’s no excuse!”

“Geng Hu, take my rifle. You need it more than I do.”

After saying that, Qin Yuan threw the rifle on him to Geng Hu. He used the sniper rifle and changed it to ordinary bullets. He lay down beside a window.

Geng Hu and Zheng Xiaohu each found a shooting position.

“Geng Hu! Eighty meters in the four o’clock direction, three people, kill them!” Qin Yuan shouted into his earpiece.

“Bang! Bang! Bang!” With three gunshots, Geng Hu quickly killed three militants.

At this moment, he had 10,000 questions in his heart. How did Qin Yuan make such a precise judgment? However, this time, he did not say anything else and chose to believe Qin Yuan unconditionally.

“Xiaohu, ten o’clock, four!”

“Roger!” Zheng Xiaohu received the order and immediately aimed at the ten o’clock direction. Another four gunshots were fired, accurately killing four militants.

“Xiaohu, 12 O’clock direction, 150 meters. A rocket gunner is preparing to shoot in your direction!” “Roger!”

Bang!

Zheng Xiaohu did not hesitate. He immediately aimed and shot the rocket cannoner.

At this moment, Qin Yuan controlled the east and west sides, while Geng Hu and Zheng Xiaohu controlled the south and north sides respectively.

Qin Yuan moved back and forth between the east and west, killing the enemies in an orderly manner.

At the same time, it served as the eyes of the north and south, accurately determining the number of enemies and the accurate distance.

Other than having the advantage in numbers, the enemies outside were far inferior to Qin Yuan and the other two in terms of marksmanship. They had received the strictest shooting training in Battle Wolf. No matter if it was a moving target or a stationary target, they could hit it in one shot regardless of distance!

More than 200 people, under Qin Yuan’s leadership, had already eliminated nearly half of the troops in less than a minute.

When the remaining Reaper Armed Forces saw such a fierce enemy, they suddenly slowed down their pace.

“Boss, are we still going to charge forward? We only have less than a hundred people left.” A militant asked their leader tentatively.

“Who is the person opposite us? I can’t believe there are only three of them.” The leader of the Reaper Armed Forces said in confusion.

“Their combat strength is too terrifying. If we charge up now, we’ll just be sending ourselves to death. Tell the headquarters to send more people.”

“Damn it! I don’t believe that I can’t defeat the three of them with so many people!”

However, before reinforcements arrived, they did not dare to act rashly and just stopped where they were.

“It’s almost time. They should have been intimidated by our firepower by now.

Let’s charge out!”

Qin Yuan’s radar quickly scanned and found a large wave of Reaper Armed Forces approaching from a kilometer away.

“Not good! The enemy has called for reinforcements, we must break out of the encirclement before they arrive.”

“You two, follow me!”

Qin Yuan said as he rushed out with the two of them. He hid in a corner of the room first.

Unfortunately, two militants suddenly appeared behind him. At that moment, Qin Yuan pulled the trigger with lightning speed.

Bang! Bang! The two gunshots decisively killed the two militants.

“Hurry up!” Qin Yuan urged them.

During this time, they encountered several groups of militants who had been lying in ambush in the surroundings in advance. Without exception, they were all killed by them one by one.

In a short while, they successfully broke out of the enemy’s encirclement.

Geng Hu watched as Qin Yuan rushed into the city.

“Captain, you’re heading in the wrong direction. Shouldn’t we be retreating out of the city and reuniting with the team?” Geng Hu asked Qin Yuan in confusion.

“What are you talking about? We have to think of a way to bypass the enemy’s firepower and immediately enter the city to meet up with Country B’s army and the peacekeepers. We have to seek their support. Otherwise, we won’t be able to defeat those thousands of Reaper’s armed forces alone!”

Qin Yuan explained to Geng Hu as he ran.

“Now that they have no leader, there will definitely be subordinates who are greedy for power. This is the time when their internal turmoil is unstable.”

“In addition, there are three to four hundred of them being dragged by our team members. This is a good opportunity to launch a counterattack! Kill them and save our compatriots.”

Qin Yuan analyzed the current situation of the two sides step by step in a clear manner. Now, it had changed from being outnumbered to being evenly matched.

Qin Yuan's tactical layout was changing as the situation changed.

"Hurry up, this way." Qin Yuan shouted.

Although there were many armed firepower points lying in ambush along the way, they were all broken through one by one under Qin Yuan's clever leadership.

Just like that, after charging for a full two kilometers, there were about a hundred Reaper Armed Forces fighting with Country B's army 300 meters away.

"Find cover and fire immediately!"

The three of them quickly found cover and immediately attacked the armed personnel from behind.

Bang! Bang! Bang! Bang! Bang bang bang!

With a series of gunshots, more than half of the Reaper Armed Forces who could not react in time were killed by the three of them..

Chapter 496 - 496: Break through the encirclement and rescue our compatriots!

By the time they reacted, they were all panicking. They had never thought that someone would shoot them in the back.

Qin Yuan immediately stood up and led Geng Hu and Zheng Xiaohu to charge forward. In one go, he killed someone with a single shot!

His marksmanship was shockingly accurate!

As long as the enemy was exposed within their field of vision, they would be shot dead without exception.

Geng Hu fully displayed his role as the number one firepower. With his heavy machine gun, all the armed personnel seemed to be in purgatory as they frantically fled.

The hundred Reaper Armed Forces were attacked from the front and back. In less than two minutes, the enemies on the scene were all shot clean, leaving no survivors.

Then, the gunshots stopped abruptly.

Country B's army knew that reinforcements had arrived, and their faces revealed a hint of relief.

"Don't shoot. We are part of the Chinese peace-keeping force. We are here to support you!" Qin Yuan communicated with them in fluent British English.

When Country B's army heard that they were reinforcements, they immediately rushed forward to hug them! The joy in their hearts was indescribable.

They had long been informed that the Chinese army would come to support them. They did not expect that they would come in time to save them.

“Hello, I’m their captain. This is my ID.” As he spoke, Qin Yuan took out his identification card and handed it to the black major of Country B’s army.

“Thank you!” The black major saluted after a closer look. Thank you very much for coming to support our country’s peace-keeping!”

“We killed their leader on the way here. Although there was a huge difference in the number of enemies, we still killed two-thirds of their forces.” Qin Yuan said in a calm tone.

“Therefore, while their military forces are severely frustrated and without a leader, I suggest that you inform the higher- ups immediately to suspend the evacuation work. We will fight side by side to counterattack and take back this city.”

‘You guys are amazing. Your bravery and combat strength really makes us admire you!’ the black major said excitedly.

“I’ll report to the commander immediately!”

As soon as he finished speaking, he saw the black major use the satellite phone to contact his superior.

After about five minutes...

“The higher-ups have agreed to suspend the evacuation of civilians. They are quickly mobilizing troops and preparing to launch a counterattack!” the black major said.

“Very good! Now, have your men follow us and kill our way back in this direction.”

As Qin Yuan spoke, he said to Geng Hu, “Immediately inform the various teams and ask them to increase their interference with the enemy. We are preparing to launch a full-scale counterattack!”

“Yes, sir!”

Soon, the various regions began to launch a full-scale counterattack against the Reaper Armed Forces.

As expected, without a leader, the morale of the militants, which was originally high, was extremely low. Facing Battle wolf’s counterattack, their combat strength was simply weak!

In less than two hours, the members of the Reaper Armed Forces had been beaten into a sorry state and were fleeing in all directions. They drove their cars frantically out of the city.

“Thank you so much! If you had arrived in time, who knows how many civilians would have been brutally massacred by the militants!”

The black major held Qin Yuan’s hands tightly and said excitedly.

“You’re welcome! While helping you, we are protecting our Chinese compatriots.”

“However, there’s something I need your help with.”

“No problem! If you need any help, just let me know!” The black major agreed readily.

“We have dozens of our compatriots in this city. We don’t know their exact location. We want to find them through your power.”

“Good! Give us the information about these people, and we’ll set off to look for them immediately!”

The black major answered readily.

After Qin Yuan thanked him, he turned around and said to the team members behind him, “Let’s split up and look for them. Everyone on the list must be seen alive or dead!”

“Yes, sir!”

Everyone from Battle wolf responded loudly.

“Instructor Gong! Hurry up and contact Captain Long and report our current situation. At the same time, ask if there are any new deployment missions!”

“Yes, sir!”

However, to his surprise, no matter how Gong Jian called out, there was no response.

“Captain Qin, I can’t contact him.”

“Maybe the signal is too bad, or it’s blocked.”

Qin Yuan frowned slightly. “The first thing they destroy in a city that is occupied by armed forces is the communication facilities. If our equipment is beyond a certain distance, there is indeed a possibility of signal instability!”

“The command center is far away from the battle zone. There shouldn’t be any accidents for the time being.”

“Then what should we do now?” Gong Jian said.

“Let’s not do anything for the time being. Maybe no news is the best news!”

“Follow the original plan and find all our compatriots here before making the next step!” Qin Yuan said clearly.

“Continue trying to contact him. Report to me immediately once you’re successful!”

“Yes, sir!”

Time passed bit by bit. With the help of Country B, Qin Yuan and the others quickly found all 33 of their trapped Chinese compatriots.

Unfortunately, seven of them were killed, six were injured to varying degrees, and the remaining 20 were safe and sound.

Seeing the Chinese soldiers that they were familiar with, the Chinese people were so happy that they cried tears of joy. In an instant, they cheered.

However, looking at the seven cold corpses, everyone could only silently mourn for them in their hearts.

There was no way to live in a war-torn place like South Africa. Those who came here to make a living were basically living carefully in this war-torn environment with the idea of seeking wealth.

Even if they were killed one day, they would be powerless to launch a counterattack and take revenge. Since he had chosen such an environment, he had already prepared for the worst.

Faced with this realistic and helpless situation, the only thing Qin Yuan and the others could do was to safely escort them back to their country and bring the bodies of the victims back to their families in good condition.

Geng Hu said to Qin Yuan, "Currently, a total of three cities are in a state of intense battle. There are a total of 66 people on the roster, but we have only confirmed the identities of 33 people at this time. There are still 30 people who are missing."

"However, fortunately... The remaining 30 people on the list all worked in the same factory. The factory is about 70 kilometers away from us."

Qin Yuan thought for a moment and said to Geng Hu, "How about this? We'll split up and leave half of us to save the remaining compatriots." As for the rest, escort these 33 people to the battleships and settle them down. After ensuring safety, you guys stay where you are and wait for orders."

"The place we're going to later is an unoccupied area of Country B. There shouldn't be too many armed forces. It's enough to bring half of the people there. It shouldn't be a problem."

"Alright, we'll listen to the captain's arrangements!"

Everyone nodded.

Qin Yuan immediately arranged for people to escort the surviving compatriots and their bodies away.

After the arrangements were made, he led the remaining people to the next area to rescue the remaining compatriots.

At this moment, in another city in Country B where thousands of Reaper Armed Forces were gathered, everything seemed so calm.

In a majestic-looking building, a man in his sixties with white satin on his head was sitting on the sofa in a luxuriously decorated suite.

There were four to five burly men guarding him, and he was the highest leader of the Reaper Armed Forces.

At this moment, a few executives who seemed to be the leaders of the Reaper Armed Forces walked into the luxurious suite.

"George, more than half of my 2000 men were killed in C City. The troops have already withdrawn from C City." Black executive A said angrily.

“When did they become so powerful? We’ve clearly done our investigation. With Country B’s military strength, it’s simply impossible to kill you.” Another black executive B said in confusion..

Chapter 497 - 497: Rescue Mission Is Extremely Difficult!

“Country B’s military equipment is far inferior to ours, let alone their numbers.

Killing them is as easy as turning a palm over!”

“I know the strength of Country B’s army very well. However, they have sent a very strong reinforcement this time. Although there are not many of them, their combat strength is very strong!” The black executive continued.

“Who are they? Did you find out?”

“I don’t know. It’s hard to tell where they came from from.” Black executive A shook his head as he spoke.

At this moment, the supreme leader of the Reaper Armed Forces, George, said in a muffled voice, “There’s no need to investigate! They are the special forces of China!”

“What is it? Special Forces?”

The few black executives were shocked, and a hint of fear appeared in their eyes.

“What happened? Why would they appear here to make enemies of us?” Black executive A questioned with a black face.

“Based on our understanding of them, Chinese soldiers won’t easily participate in the South African war.”

“I really don’t know why they came here to kill our team.”

Just as they were puzzled, George spoke.

“They are here to save their own people. There are many Chinese people doing business and scientific research in Country B.” George’s words instantly woke everyone up.

“What should we do? That’s the special forces!”

“As we all know, China values its own people. No matter which country they are in, they will definitely save their compatriots at all costs.”

“Otherwise... Should we take the initiative to send all the Chinese people in the controlled area to them? This way, they will naturally leave Country B after completing their mission.” Black executive C said timidly.

Black executive A instantly exploded when he heard this and roared at the executives.

“Bullshit!”

“They just arrived and already killed half of my men. How could we compromise with them so easily? Where is the morale of our Reaper Armed Forces!”

“I must avenge my dead brothers and fight them to the end!”

“That’s right! We can’t let our brothers die in vain. This show has just begun. How can we show weakness first? This will make us, the Reaper Armed Forces, useless in the eyes of our subordinates!” Black executive B echoed.

“If you ask me, since they’ve delivered themselves to our doorstep, we’ll kill them as well! Think about it, if the Chinese Special Forces were defeated by us, not only would it boost the morale of our subordinates, but we might make a name for ourselves in the armed forces of other countries.”

The more this black executive B spoke, the more excited he became. He was having a beautiful dream.

“That’s right! We can’t let this go, we must avenge our dead brothers!”

“Fight to the end!”

The executives present echoed.

“According to my understanding of China’s military operations over the years, the number of people they sent to maintain peace this time will definitely not exceed 100, because China’s military transport aircraft can’t accommodate too many people.” George analyzed calmly.

“I’m sure you know that the United Nations has been very gentle in communicating with us about the situation. They have never mentioned that any country’s peace-keeping troops have gone to Country B.”

“They have so few people, and we have tens of thousands of people. Do we have to be afraid of them?” Black executive A said.

“Besides, there’s no news from the United Nations. Even if we kill them all in the end, we don’t have to worry about causing an international conflict.” “Since that’s the case, what’s there to be afraid of? Kill them!”

George fell into deep thought after hearing that. He did not say anything more and gestured for the black guard beside him to hand him a cigar. He then began to smoke happily.

A moment later, his eyes suddenly burst with hostility. He put out the cigar in his hand and suddenly stood up to glance at the black executives in front of him.

“Since they dare to obstruct our great cause, then we’ll gather all our forces and play with them until the end!”

“If we want to successfully expand B Nation’s domestic mineral resources, we have to get rid of these arrogant special forces first!”

“They must be sneaking into our territory now. They’re thinking of killing us first, then rescuing the Chinese who are still here!”

“This time, we must make them pay a heavy price. We must eliminate them by the roots and make sure they never return!”

“Yes, sir!”

After Qin Yuan finished checking his equipment, everyone drove the off-road military vehicle provided by Country B’s army and quickly sped in the direction of the target.

After the convoy drove for nearly two hours, Qin Yuan and the others got out of the car and prepared to enter one of the small towns.

It was too noisy to drive in. After leaving one person in each car to watch over the cars, Qin Yuan and the others quietly sneaked into the town five kilometers ahead under the cover of the night.

In this small town full of deserts, there was no vegetation at all. There was bare land everywhere, and there was wind and sand.

At this moment, the town was eerily quiet. The hot weather and the corpses everywhere filled the air with a stench. Qin Yuan and the others subconsciously covered their noses and slowly groped forward.

“Now, with me as the center, spread out on both sides. According to the previous group arrangement, each group will be separated by 300 meters. Gradually infiltrate and cover this town, and slowly advance forward..”

Chapter 498: The Rescue Operation Is Extremely Difficult!

“Team 1, copy!” “Team 2, copy!”

“Team 3, copy!”

All the teams responded.

With Qin Yuan’s order, the members of each group quickly spread out and infiltrated the town from all directions in an orderly manner.

Right now, they knew nothing about the Reaper Armed Forces’s base camp, nor did they know the situation of their troops in various regions.

Therefore, in order to find out the enemy’s information more quickly and effectively, they could only use the method of the Academy of Sciences to explore separately.

“Gong Jian, quick, take a look. Did you find any Reaper Armed Forces in the town?”

Qin Yuan confirmed the enemy’s movements in the target direction

with Gong Jian.

"I haven't found anything unusual for the time being. It's possible that they're hiding well. Give me some more time."

Gong Jian replied to Qin Yuan while paying attention to the detector.

"Search carefully!"

"Yes, sir!"

Time passed bit by bit. The civilians hiding in various hidden corners of the town were found by Qin Yuan and the others one after another with advanced technology and equipment.

Soon, they searched the town thoroughly to ensure that all the surviving civilians had been found. Then, Qin Yuan contacted the army of Country B and asked them to send a car over to pick them up.

During this period, they discovered a small number of armed personnel. There were about 20 to 30 of them. Without any suspense, they were all quietly killed by Qin Yuan and the others.

Obviously, this town was not their main focus.

Just like that, Qin Yuan led everyone and searched a few other towns before immediately rushing to the place where the factories were especially dense.

These factories were all built in the suburbs far away from the city. They were close to an oasis and there was a clear river.

Captain Qin, there's no one in the factory except for the dead bodies!" Gong Jian walked over and reported the situation inside.

Qin Yuan saw Gong Jian's uneasy expression and asked with concern, "What's wrong?" Why do you look so pale?"

Gong Jian silently turned around and looked at the factory behind him.

Qin Yuan led the group of people slowly toward the factory. The moment they walked into the factory, he was stunned!

They saw corpses piled up in different corners of the factory, which shocked them.

Moreover, every single one of them had died with their eyes wide open, as if they were complaining about the unfairness of fate.

"This damned Reaper Armed Forces! I will definitely dig out their nest!"

"I'm going to kill these bastards! This is simply inhumane!"

No one was unmoved by this tragic scene.

"Captain! I found the corpse of an Asian!" Shi Sanba said breathlessly as he jogged over.

Qin Yuan followed Shi Sanba to another remote corner of the factory. He found many corpses lying on the ground.

Among them, there were about a dozen yellow-skinned people who looked to be in their thirties or forties.

After careful information comparison, it was confirmed that other than a few Chinese compatriots on the rescue list, the rest should be Asians from other places.

“According to the information given by the higher-ups, there are our compatriots in this factory, but their bodies have not been found yet. Or rather, they have already hidden in a safer place.” Geng Hu said.

Qin Yuan looked at the ID card and passport neatly placed in the bag in Geng Hu's hand, and his mood suddenly became extremely heavy.

If it wasn't for their livelihood, who would risk their lives to work in this war-torn country?

“Use the body bags to pack our own compatriots into the car, and then arrange to send them home.” Qin Yuan said sadly.

“Yes, sir!”

As for the other corpses, they could not help either.

Qin Yuan walked helplessly outside the factory and said to the others, “Continue to search and see if there are any survivors.”

“Yes, sir!”

Geno Hil seemed to have seen through Qin Yuan's thoughts. He silently walked to his side and patted his shoulder to comfort him. Perhaps this is their destiny.”

“Just like the old Chinese saying, life and death are fated. Everyone's fate is different. I hope they will stay away from war in their next life and be ordinary people.”

Qin Yuan sighed after hearing that. He couldn't help but feel that the common people who lived in war all year round were like ants. They had no ability to resist armed violence at all.

“Captain, we've found more than 30 workers!” Li Erniu said as he ran.

“Bring me there immediately!” After saying that, Qin Yuan immediately walked over.

“They hid in the basement of the factory's logistics warehouse and luckily escaped.” Li Erniu said.

Qin Yuan and the others went over and found more than 30 black men in factory uniforms squeezed into a small logistics warehouse.

“Ask them if there are any other workers alive and if they know where they are hiding.” Qin Yuan said to Li Erniu.

Li Erniu nodded and immediately went to communicate with the workers. Not long after, he returned to report.

“Captain, they said that hundreds of workers were led by the soldiers of Country B to hide in the primitive jungle behind. They couldn’t catch up in time and could only hide here.”

“Very good! Everyone, search carefully for another ten minutes. Gather at the factory entrance in ten minutes and prepare to enter the primitive forest.” Qin

Yuan ordered.

“Yes, sir!”

“Not good! Captain, there is a large group of Reaper Armed Forces driving towards us three kilometers away!” Gong Jian suddenly shouted.

“Hurry up! Everyone, retreat! They entered the primitive forest behind! Geng Hu, Zheng Xiaohu, follow me and stay behind!” Qin Yuan made a prompt decision.

In fact, behind the oasis was a large primitive forest. He did not expect that there would be a primitive forest in this barren Gobi.

They only needed to cross five kilometers of the oasis and they would be able to successfully escape the danger.

Qin Yuan and the other two quickly climbed up the factory to find cover and set up an ambush.

“Shoot! Cover their retreat and try to buy as much time as possible.” Qin Yuan shouted.

“Yes, sir!”

The two of them immediately raised their guns and fired at the long line of cars.

Bang! Bang! Bang!

As the gunshots rang out, the Reaper Armed Forces closest to them quickly began to fall.

In an instant, the enemy discovered Qin Yuan and the other two who were lying in ambush on the roof.

“Take cover! Pay attention! The enemy is shooting again!” “Split up from both sides and surround the entire factory!”

A black commander in the middle of the convoy shouted loudly.

Soon, nearly a hundred cars quickly spread out in a V-shape, flanking the factory from both sides.

At this moment, Qin Yuan had already set up his Type 11 sniper rifle and immediately aimed at the convoy.

Boom!

A fast-moving off-road vehicle was hit by Qin Yuan’s shot, and all the armed personnel in the vehicle were instantly blown away.

Bang!

Boom!

Qin Yuan kept shooting, aiming his guns at the fuel tank, killing more than ten militants at once.

This was the power of the Type 11 sniper rifle.

However, there were too many of them, and they were getting closer and closer to the factory.

After Qin Yuan fired eight shots and killed eight cars, the militants in front of them all rushed into the factory and quickly surrounded the three of them.

‘Quick, retreat!’ Qin Yuan quickly ordered.

The three of them quickly jumped down from the roof of the factory that was three to four meters high and quickly hid.

They had to rush into the primitive forest behind the road to meet up with their comrades before the Reaper Armed Forces discovered them and before the sun sets.

Geng Hu and Zheng Xiaohu ran and suddenly realized that Qin Yuan, who had been behind them, had disappeared.

“Where’s the captain?”

“Wasn’t he behind us just now? Why is he suddenly gone?”

“Not good! The captain went back alone to cover the rear! Let’s go back and support him!” Geng Hu shouted after he reacted.

“You two get lost!”

“I’ll stay here and stall for time. I’ll cover for you guys to leave first.”

“We must not let them discover our escape route. Otherwise, the civilians we rescued in the jungle will be finished.”

Qin Yuan shouted at them through the intercom as he quickly found cover and prepared to launch a surprise attack.

Geng Hu and Zheng Xiaohu didn’t dare to say anything and could only obey the order.

He quickly rushed into the primitive forest..

Chapter 499: Compatriots Saved

“Xiaohu, isn’t it too dangerous for the captain to cover the rear alone? This time, there were more than 3,000 people on the other side! I want to go back and help him.”

“Geng Hu, the captain must have his reasons for doing this. Let’s just follow his orders and not give him any more trouble.”

“With our captain’s ability, it might be better for him to escape alone than for three people to escape together!” Zheng Xiaohu said to Geng Hu.

Geng Hu thought about it and realized that what Zheng Xiaohu said made sense.

In the eyes of the others in Battle wolf, Qin Yuan had always been a mythical existence. Wherever Qin Yuan was, no matter how dangerous it was, they could fight with him in peace.

After Qin Yuan ended his conversation with Geng Hu and the others, he turned off his earpiece communication and quickly used his climbing skills to find a very hidden corner.

The speed of the Reaper Armed Forces was too fast. If Qin Yuan had not stayed to stall for time, they would not be able to retreat quickly while waiting for a large group of workers.

Qin Yuan had no choice.

“Geng Hu, hurry up and meet up with Instructor Gong and the others.” Zheng Xiaohu pulled Geng Hu and said.

“No, I’m still very worried about Captain. He can’t handle it alone! I want to go back and help him!” Geng Hu said worriedly.

“Don’t be silly. Didn’t I make myself clear just now? If we go back, we’ll only be a burden to Captain!” Zheng Xiaohu replied with a hint of anger.

The conflicted Geng Hu had a reluctant look on his face. He gritted his teeth and followed Zheng Xiaohu as they continued to run toward the primeval forest. As they ran, they would occasionally look back in the direction of the factory.

Qin Yuan’s radar scanned the specific location of the surrounding enemies and quickly predicted the route they would pass by. He planted hand-controlled bombs along the way.

“I didn’t find anyone!” “I didn’t find any special forces!”

“I don’t have any here either!”

The Reaper Militant kept searching inside and outside the factory for people who were suspected to be alive.

After a round of searching, he did not find a single person.

“This is bad! They must be running towards the Oasis Forest! Hurry up and chase!” The black executive shouted at the crowd.

Boom!

At this moment, a loud explosion sounded in one of the passages with more armed personnel.

The buildings on both sides collapsed, and more than a dozen armed men were instantly buried alive.

“Hurry up! There’s a situation over there! Quickly go over and take a look!”

The violent explosion successfully drew back the large team that was preparing to rush to the oasis forest!

And Qin Yuan, who had buried the bomb in advance, hid in the dark and stared at the armed men as they slowly approached. Once they passed by the location of the bomb, they would immediately detonate it.

Boom! Boom! Boom!

As the explosions resounded in the sky, the entire factory was instantly on fire.

The militants behind them were so frightened that they retreated quickly, not daring to approach the explosion zone.

“Damn the Chinese special forces! How dare you play dirty with me!” The black executive roared.

“Everyone, charge in. We must tear these damn special forces soldiers into pieces!”

At the command of the black executive, all the militants roared and rushed into the factory. They trampled on the bodies of their dead members and rushed forward without care!

Qin Yuan, who was hiding in the dark, did not dare to shoot from the beginning to the end. Once he exposed his position, the large group of militants would definitely shoot him into a sieve.

Fortunately, it was getting dark now. The structure of the factory was complex and varied, making it very suitable for him to hide.

Now, Qin Yuan’s plan was to make some noise from time to time to disrupt the thoughts of these Reaper Armed Forces, making them believe that the special forces had been hiding in the factory and had not escaped.

This way, they could stop them from rushing to the Oasis Forest to investigate the situation and buy more time for their comrades to transfer the factory workers.

On the other side, Geng Hu and Zheng Xiaohu successfully entered the primeval forest before nightfall and found Gong Jian and the others retreating in an orderly manner.

Two figures rushed out.

“Don’t shoot! We’re on the same side!” Geng Hu quickly stepped forward and shouted.

“Why are there only the two of you?” Gong Jian walked over.

“Where’s Captain Qin?”

Gong Jian asked them in confusion. He kept looking behind them, trying to find Qin Yuan.

Geng Hu and Zheng Xiaohu looked at each other after hearing this. They didn’t know what to say and suddenly fell silent.

Gong Jian became even more anxious when he saw the two of them!

“Why don’t you two tell me? What happened to Captain Qin?”

“Xiaohu, tell me!”

“In order to cover our retreat and not be discovered by the enemy, the captain stayed in the factory alone to fight with the enemy to buy us time.” Zheng Xiaohu said truthfully.

“Captain insisted that we retreat first, so we had no choice!” Geng Hu said helplessly.

‘ This is the Reaper Armed Forces of thousands of people. Is he going to take the risk and face it alone?’

“Is he crazy? Or are you guys crazy?”

“Instructor Gong! The captain said that he would definitely be able to escape.

Geng Hu and I believe in his strength!”

Zheng Xiaohu said confidently,” Listen if you don’t believe me. There are only explosions coming from the other end of the factory. There are no gunshots.

It’s obvious that the captain hasn’t been exposed yet.”

After saying that, they subconsciously looked at the factory in the distance with the sound of the explosion. They could not help but worry about Qin Yuan’s safety.

“Instructor Gong, why don’t you take half of the people to escort the civilians and continue walking in? Find the rest of the people in this factory. The rest of you will wait for the captain with us.” Zheng Xiaohu said..

Chapter 500 - 500: Compatriots Saved

Gong Jian hesitated for a moment...

“Alright, no problem!”

“Now, follow me forward. The rest of you stay here and wait for Captain Qin!”

“Yes, sir!”

After making the necessary arrangements, Gong Jian led the team forward, not daring to delay for even a moment.

At this moment, Qin Yuan, who was dealing with the Reaper Armed Forces in the factory, looked at the time. After confirming that Geng Hu and the others had successfully entered the forest, he began to plan to evacuate.

He continued to climb and jump silently on the outer walls of the factory. With the Mantis Climbing skill, these high walls were as easy as walking on flat ground.

Soon, Qin Yuan escaped from the enemy’s encirclement and successfully arrived at the periphery of the factory. He saw more than ten military off-road vehicles parked there, and seven or eight guards patrolling.

Bang! Bang! Bang!

Qin Yuan took advantage of their carelessness and sneakily attacked from behind. After a series of gunshots, the guards fell to the ground one after another.

The armed personnel in the factory heard the gunshots and chased after them! However, Qin Yuan had already stepped on the accelerator and drove away. "Hurry up! Hurry up and chase! Don't let him go!"

For a moment, all the militants drove their cars and chased after him! Dozens of cars chased after Qin Yuan.

Da da!

Da da!

As the militants chased, they fired their machine guns in Qin Yuan's direction.

Di di di...

The radar alarm in Qin Yuan's mind kept ringing.

Fortunately, he had special driving skills. Along the way, he had been taking a serpentine route, drifting left and right, successfully avoiding all the stones that were shot at him.

"Captain is here!"

Geng Hu was the first to react when he heard gunshots and the sound of a car engine in the distance.

"Everyone, get ready! Prepare to cover the retreat of the captain with fire!" Geng Hu shouted.

Everyone quickly spread out and found cover, ready to shoot at any time.

After the militants chasing Qin Yuan entered their shooting range, gunshots immediately sounded.

In an instant, bullets were fired wildly.

In order to dodge the attack, the dozens of armed vehicles that were chasing after him hurriedly moved left and right. They had no time to care about Qin

Yuan.

Qin Yuan took this opportunity to make a prompt decision. He quickly rushed into the forest and disappeared.

"Retreat quickly!"

Qin Yuan shouted after jumping out of the car.

"Yes, sir!" Geng Hu and the others quickly put away their guns and followed closely behind Qin Yuan. They quickly rushed into the depths of the forest to avoid being chased.

They retreated very quickly into the jungle. By the time the militants arrived, they had already disappeared without a trace.

“Search! I don’t believe they can escape from this primitive forest so quickly!” The black executive roared angrily.

More than a thousand militants rushed deeper into the forest to look for Qin Yuan and the others.

“Contact Boss George immediately. Tell him that we’ve spotted the Chinese Special Forces and request for four assault helicopters.” The black executive ordered the guard beside him.

‘Yes, sir!’

The forest was too big. To ensure that nothing would go wrong, they had to use armed helicopters to conduct an aerial search. They would definitely be able to quickly find this group of special forces soldiers who hated them to the core.

“Where are the others?” After getting rid of the group of militants behind him, Qin Yuan finally reacted and asked Geng Hu.

“They went to look for the factory workers hiding in the depths of the forest first.” Geng Hu replied.

“We have to speed up. We should be able to catch up to them soon!”

“There’s no need to chase after them. Inform them through the intercom immediately. We’ll split up and find them in the shortest time possible.”

“Otherwise, if the Reaper Armed Forces can’t find us, it will definitely gather a large number of armed forces to surround us!”

“We must rescue all the survivors before they surround us

“Yes, sir!”

Time passed bit by bit. Qin Yuan and the others kept searching back and forth in the forest.

During the search, they encountered one or two armed groups of twenty-one people. Obviously, they had been searching for factory workers recently.

This group of damned fellows! Even though the workers had escaped to the primitive forest, the Reaper Armed Forces had never given up on hunting them down.

Qin Yuan and the others, who were hiding in the dark, quietly looked at the enemy not far away.

“We have to speed up. Otherwise, if they find the workers one step ahead of us, we’ll all be finished!” Qin Yuan said in a deep voice.

“This bunch of bastards! You’ve already killed so many people, do you still have to kill them all before you’re satisfied?” Geng Hu roared.

“The Reaper Armed Forces is like the top of the militants. They are creatures without blood or humanity.”

Qin Yuan replied coldly to Geng Hu.

“They are the killing weapons that the armed leaders have deliberately cultivated. They kill for fun. They have no humanity at all!”

These seemingly irregular Reaper Armed Forces’ reconnaissance skills were not to be trifled with. They followed the traces left behind by Qin Yuan and the others and searched for their traces.

They had their own jungle off-road vehicle, and most of them drove the car crazily through the jungle.

This cat-and-mouse situation continued until the afternoon of the second day when Zheng Xiaohu and the others received good news from Gong Jian.

“Captain! Found it!” Zheng Xiaohu said to Qin Yuan.

“There are more than 100 people in total. They fled to the deepest part of the jungle. It was the indigenous people there who helped them. Other than the factory workers, there were more than a dozen soldiers from Country B.” “The good thing is that our compatriots are all inside.”

“That’s great! Let’s go! Let’s go meet up with them.” Qin Yuan said excitedly.

After another two hours of walking, they finally arrived at the place that Gong Jian and the others had described.

This primitive tribe had a huge mountain on its back, and the river next to the mountain surrounded the primitive tribe tightly.

In such an environment, the tribe’s residents were still very wary of outsiders.

Qin Yuan and the others had just approached the entrance of the tribe when a large group of people suddenly rushed out and surrounded them. Due to the language barrier, they were unable to communicate effectively with the tribesmen.

It was not until a few factory workers came out to explain that they were able to enter the tribe smoothly.

“Instructor Gong, where are the workers?” Qin Yuan asked anxiously when he saw Gong Jian.

“Don’t worry, they’re fine! They only came in the day after tomorrow. They didn’t dare to come out rashly because they were afraid of being discovered.”

“They’ve been waiting for help. I’ll bring you to the cave now.”

Gong Jian said as he led Qin Yuan and the others towards the cave.

After entering the cave, the small cave was filled with people. There were about a hundred people. Judging from their skin color, most of them were citizens of Southeast Asian countries.

Although their skin colors were different, their eyes were filled with fear and unease.

“Are you guys Chinese.” Zheng Xiaohu shouted at the crowd.

“We are! We are!”

The Asian people in the crowd stood up and answered.

Qin Yuan signaled Geng Hu to check the information on the list one by one. After a round of comparison, he finally confirmed that they were the last 30 people on the list who had lost contact.

“The People’s Liberation Army! It’s the People Liberation Army comrades.

We’re saved. The country has sent troops to save us!”

The compatriots who were originally filled with fear instantly cheered. Some people even cried tears of joy and surrounded Qin Yuan and the others to hug them.

“Wuwuwu... We can finally go home! We can go home now!”

Even though they had already made plans to face all of this before coming here to make a living.

However, when they were faced with the cruelty of war, they could not suppress the fear and regret in their hearts.

They fled all the way to the cave in the primeval forest and hid, waiting in anticipation and despair for someone to save them from fire and water.

“Comrade of the People’s Liberation Army! We’re really grateful to you guys.

Hurry up and save us. We don’t want to stay here any longer.”

One of the Chinese people in the crowd held their hands and pleaded with a pleading look.

Looking at their eyes filled with anticipation and hope, Qin Yuan and the others could not help but feel touched!

“Everyone, quiet down! Don’t be anxious. Since we’ve come here and gone through so much trouble to find you, we’ll definitely send you back safely and reunite with your families!”

Qin Yuan comforted his compatriots in front of him loudly and continued, “The international press has already sent warships to pick us up. Please rest assured!” We will do our best to escort you safely onto the battleship!”

“That’s great! That’s great!”

Hearing Qin Yuan’s reply, the 30 compatriots shed tears of excitement again..
