

Special Troop 501

Chapter 501 - 501: Retreat!

“Shi Sanba, you stay here and appease them.” Qin Yuan turned around and assigned Shi Sanba.

After saying that, he led the others out of the cave.

“Captain, the people from the Reaper Armed Forces have already done everything they can to surround us. If we bring so many people with us, it will be very difficult to break through.” Geng Hu said.

“I already thought of that!” Qin Yuan’s face revealed a solemn expression.

If it was just Battle wolf’s men, breaking out of the forest would be a piece of cake.

But now, apart from successfully breaking out of the encirclement, they had to ensure that these 100 unarmed survivors were safe.

If they brought them along, it would definitely slow down the entire escape speed and attract more danger.

Once they slowed down, the people from the Reaper Armed Forces would definitely chase after them and catch them off guard.

When they were surrounded by thousands of people, they would not be able to save anyone. They would probably have to die in this green forest.

Faced with the thorny situation, Qin Yuan did not dare to act rashly. He had to carefully consider before making new arrangements.

He had to ensure that this operation was foolproof.

Geng Hu looked at Qin Yuan hesitantly and said to him timidly, “If we only leave with our compatriots and abandon the others from other countries, we are confident that we can successfully break through.”

Geng Hu’s words stunned the other comrades. Everyone seemed to understand something in their hearts, but they hesitated.

That’s right.

If it was only their own compatriots, they had a 90% chance of successfully breaking out of the encirclement. They did not have to take too much risk and at the same time, they could successfully complete the rescue mission sent by the organization.

They could completely ignore the civilians of other countries outside of the mission.

However, once Qin Yuan made a choice between the two, the civilians abandoned by them would definitely be cruelly surrounded and massacred by the Reaper Armed Forces.

After a series of complicated thoughts, Qin Yuan shook his head and sighed. "Think about it from another perspective. When they evacuated from the factory, didn't the soldiers of other countries bring our compatriots to escape into this primeval forest regardless of nationality or race?"

"Don't they know that it's easier and less dangerous to abandon our compatriots?"

"But they didn't make a choice in this matter. Instead, they chose to treat everyone equally and protect everyone who needed to be protected. They fulfilled their responsibility as soldiers."

"In such a turbulent country, they are not strong, but they want to protect their compatriots and the civilians of other countries."

The more Qin Yuan spoke, the more excited he became. Geng Hu, who was beside him, buried his head low as he listened, as if he was ashamed of his hasty remarks.

Qin Yuan continued, "And we are the Chinese soldiers with a prosperous country and a strong military force. What reason do we have to give up on the benefactor who risked his life to protect our compatriots?"

Hearing Qin Yuan's words, everyone fell silent.

"Captain, let's discuss the evacuation plan for all the civilians. We'll leave together without anyone falling!" Zheng Xiaohu shouted excitedly.

"Yes!"

"Yes!"

Everyone agreed.

"Let's just treat it as us returning the favor. Besides, we have absolute strength in jungle battles. At most, we can fight to the death with the Reaper Armed Forces. Let's have a good fight!" "We are not afraid of death!"

Battle wolf and the others laughed.

Qin Yuan, who was watching from the side, felt very gratified.

"In that case, listen to my arrangements!"

"Geng Hu! Take a dozen people with you to convince all the tribes here to evacuate with us. Otherwise, we will face a massacre."

"Yes, sir!" "Zheng Xiaohu, Li Erniu, bring the workers out. We're preparing to evacuate."

"Yes, sir!"

"Give me the map!" Qin Yuan shouted at Shi Sanba.

Shi Sanba quickly handed the map he had drawn in advance to Qin Yuan.

Qin Yuan carefully considered it and determined a reliable retreat route. Although this route wasn't the fastest way to get out of the forest, it was very well hidden. It was easy to defend and difficult to attack, so it was relatively safe.

Soon, Geng Hu brought everyone from the tribe over.

They were all the original residents of the tribe. They had never thought that they would leave their hometown one day. However, in order to save their lives, they could only choose to escape temporarily.

"Everyone is assembled. Let's set off immediately!"

The tribe and the workers walked in the middle of the team. There were nearly 500 people in the team. They followed the set route and moved quickly in an orderly manner.

Qin Yuan turned on the radar warning scan in all directions and maximized its function.

Other than scouting the enemies within two kilometers, they scouted the terrain and the possible presence of poisonous snakes and insects in the surroundings.

Gong Jian was constantly operating the radio station along the way, trying to get in touch with the command center.

"Boss, there are many traces of human life here. They should be left behind by the indigenous people of the primitive tribes."

"There are a lot of footprints here. They should have escaped. From the traces, they shouldn't have gone far!"

After more than two hours, the people from the Reaper Armed Forces finally found the primitive tribe where they were originally hiding.

"That's great! Let's see how you're going to escape from me!"

The black executive shouted excitedly and quickly gave the order.

"Everyone, give chase at full speed. Attack helicopters, follow the direction they fled in.. Lock on their exact location quickly!"

Chapter 502 - 502: Evacuation!

"Inform the people behind us to attack from both sides!"

"Yes, sir!"

Then, everyone drove their cars and chased after the footprints left on the ground.

Di di di...Di di di...

At this moment, Qin Yuan, who was leading the team to evacuate urgently, suddenly heard the urgent alarm sound of the radar in his mind.

"Military helicopters!" Qin Yuan quickly shouted.

“Hurry up! Everyone, take cover immediately. They’re coming.”

“Conceal! Hide!”

Qin Yuan shouted.

Country B’s soldiers and Battle wolf quickly hid with their men.

“There’s more than one helicopter. The terrain here can’t block the helicopter’s aerial reconnaissance. It won’t be long before they’re all discovered!” Qin Yuan analyzed the situation as he used the radar to scan.

Right here, he discovered through reconnaissance that there was a cave less than two kilometers away. The terrain was relatively high, and it was very suitable for covert combat.

However, this cave was on a steep bounty: The real difficulty was naturally a piece of cake for the Battle Wolf Special Forces, but it would be very difficult for the soldiers of Country B and other civilians.

What Qin Yuan did not expect was that the Reaper Armed Forces would even use a helicopter to surround them.

“Boss, we found them! Three kilometers ahead of you!”

The militants on the helicopter noticed Qin Yuan and the others and quickly reported the situation to the black executives on the ground.

“Captain! There’s a signal!” Gong Jian, who was the first to climb to the top of the cliff, shouted excitedly.

“Contact immediately and request for air support!” Qin Yuan immediately ordered.

“Yes, sir!”

“Other than the combat personnel, everyone else should enter the cave and hide!” Qin Yuan shouted.

“No one is allowed to come out without my order!” Qin Yuan roared. The workers were terrified and quickly hid in the cave, not daring to move.

“Not good! A rocket launcher! Hide!”

The warning of a rocket attack flashed in Qin Yuan’s mind as he shouted at everyone.

Boom!

Boom!

Two rockets were fired from the helicopter.

It just happened to land at the spot where we were gathered just now. If it wasn’t for Qin Yuan’s reminder, a few of them might have been blown up on the spot.

“Everyone, quickly hide. The enemy’s firepower is very intense now. Don’t leave the cave rashly.”

Qin Yuan instructed the people in the cave again.

As soon as Qin Yuan finished speaking, the helicopter hovering above them had already set up a large-caliber machine gun and fired at them.

Da da...

Da da...

“Hurry up! Quickly enter the cave!”

The members of the Battle wolf and the local soldiers ran at high speed, and the bullets narrowly missed them.

“Damn you!” Qin Yuan could not help but curse. He quickly took off all his equipment, then carried the Type 11 sniper rifle and rushed out.

“Captain! Where are you going? It was dangerous! Come back quickly!”

Shi Sanba saw Qin Yuan rush out without hesitation and could not help but follow closely behind.

At this moment, Geng Hu rushed forward and grabbed Shi Sanba by the waist, preventing him from rushing out of the cave!

“Geng Hu, are you crazy? Why did you stop me? I can’t let Captain take the risk alone.”

Shi Sanba shouted at Geng Hu in shock.

“Don’t cause trouble. With our captain’s strength, there won’t be any accidents.”

Geng Hu said confidently.

“If any of us go out, we’ll only drag down the captain and affect his performance. The Type 11 sniper rifle in his hand will definitely be able to take out the enemy’s assault helicopters.”

“We’ll listen to the captain’s arrangements and protect the workers here. Just wait for Captain’s news.”

Boom!

Right at this moment, an enemy assault helicopter in the sky was hit and exploded.

“F * ck! Captain is awesome!”

Qin Yuan’s superb spear technique attracted a wave of praise from everyone in the cave! They cheered excitedly when they saw the Reaper Armed Forces ‘assault helicopter crash!

Boom!

Immediately after, a violent explosion sounded. Without a doubt, another helicopter was shot down.

Qin Yuan continued to run at high speed, avoiding the helicopter's shots.

Even though the Reaper Armed Forces had sent helicopters to surround them, they still had no way to deal with the powerful Qin Yuan.

The black executive was stunned when he saw their helicopter being shot down!

Retreat quickly! Retreat quickly! This sniper is too abnormal." One of the militants in the helicopter shouted into the intercom.

When the remaining two planes saw Qin Yuan's almost crazy firepower, they were so scared that they wanted to escape quickly!

But? Could they really escape?

"You want to run? No way!" Qin Yuan used the Mantis Climbing skill to quickly rush to the top of a towering tree and quickly aimed at a retreating armed helicopter.

Bang!

Unsurprisingly, the attack hit the target, and the plane that was hit instantly exploded in the air.

There was only one plane left. Seeing that it was about to fly a kilometer away, Qin Yuan immediately used the radar to lock onto the target and aim. In just three seconds, he was successfully hit by Qin Yuan's exquisite marksmanship.

Boom!

The last assault helicopter crashed with a loud explosion.

A kilometer away from Qin Yuan and the others, the leader of the Reaper Armed Forces, who was chasing them, saw that all of his planes had been shot down without landing. He suffered heavy losses.

The black executive was so angry that he almost vomited blood on the spot!

"All of you, charge! We must beat them into a hornet's nest!"

Qin Yuan immediately returned to the cave.

"Captain, you were too brave just now! We were so shocked when we were in the cave!"

Shi Sanba praised Qin Yuan with admiration.

"Now is not the time to be happy. The Reaper Armed Forces are about to bring their men over." Qin Yuan said in a deep voice.

"Listen, we have no way out now. We can only fight to the death with the enemy. If we succeed, we will return to the country together. If we fail, we will probably be lonely ghosts in this primitive forest!"

"Let's fight in groups according to the previous plan. All groups, get ready to fight!" Qin Yuan ordered loudly.

“Yes, sir!”

Just as they were waiting for the Reaper Armed Forces to enter their ambush range, Gong Jian sent them some good news!

“Captain! The local reinforcements will arrive in 20 minutes!”

It was really timely. Everyone was excited when they heard this news! With the hope of victory ignited in their hearts, the morale of Battle wolf and the others soared!

At this time, Qin Yuan had climbed to the top of the cliff and used the radar to carefully search for the surrounding enemies.

“Everyone, get ready!”

Qin Yuan ordered. Everyone immediately entered a state of alert.

The enemies who were gradually approaching saw that their target was getting closer and closer. They rushed and fired at the same time. For a moment, the two sides fell into a fierce battle.

Although there were many people in the Reaper Armed Forces, their firepower was not fierce. They were basically messing around. If they rashly attacked, they would only be live targets.

After all, there were more than 30 skilled firepower users. If they were to unleash their full firepower at the same time, it would be enough to suppress the armed forces on the other side.

The leader did not order the team to attack directly. Instead, he kept interfering with Qin Yuan and the others, luring them to keep firing. When they ran out of bullets, they would only be fish on the chopping board, waiting to be slaughtered.

“Everyone, use the bullets in your hands sparingly. Shoot after aiming. Don’t waste them!”

“The enemy doesn’t dare to enter our firing range. We just need to suppress them 200 meters away and wait for our reinforcements to arrive before we launch a collective counterattack!”

“Roger!”

“Roger!”

“Roger!”

At this moment, the local military helicopter slowly flew into the primitive forest area.

“Captain! Captain! Our reinforcements are here!” Gong Jian shouted excitedly as he rushed out of the cave.

As the plane gradually approached, the loud roar of the plane’s engine attracted the attention of Qin Yuan and the others.

“The efficiency is really awesome! Everyone, listen to my command and prepare to launch a general attack at any time!”

When Qin Yuan saw that the reinforcements had arrived, he felt confident. He was no longer fighting alone!

As the two sides fought fiercely, the armed helicopters in the air turned on their machine guns and fired wildly at the enemies on the ground. Qin Yuan led everyone to launch a sneak attack on the ground.

For a moment, the militants did not know which side to look at first. They could only run and hide crazily. However, how could you hide in such a huge primitive forest just because you wanted to?

The aerial firepower continued to suppress and cover Qin Yuan and the others..

Chapter 503 - 503: Return!

After about ten minutes, the huge team of nearly 2000 people was reduced to about a hundred people by Qin Yuan and the others.

The black executives who were extremely arrogant at the beginning could not care less at this time. They quickly took the remaining people and fled in a panic.

“Hurry up! Retreat quickly! If we don’t retreat now, we won’t be able to go back!” The black executive shouted hysterically.

“Get in the car and leave. One day, I’ll make them pay for this with interest!”

The black executive shouted as he urged the soldiers beside him to quickly drive and escape!

“Captain! Should we continue to chase after them and finish them off?” Geng Hu said furiously.

“I’m not chasing.” Qin Yuan replied in a low voice.

“What? Are we going to let them go just like that?” Geng Hu asked in confusion.

“Don’t pursue a desperate enemy! Their forces must have suffered a great loss in this battle. After they return this time, they should be quiet for a long time and not dare to cause trouble again.”

Qin Yuan and the others watched as the off-road vehicles of the remaining members of the Reaper Armed Forces gradually drove away until they disappeared.

Qin Yuan quickly used the radar to scan the surrounding environment. After confirming that the crisis was over, he walked back to the cave to report his safety to everyone.

“Don’t worry, everyone! Now that the danger outside has been completely eliminated, you guys should get up and count the number of people before retreating immediately.”

When everyone heard Qin Yuan calmly tell the good news, they instantly jumped up and cheered!

“Good job, People’s Liberation Army!”

” The Battle wolf Special Forces are the most valiant and heroic soldiers. They are the good soldiers of our people!”

“After I go home this time, I don’t want to come out again. I want to live well under the protection of my motherland.”

Everyone expressed their joy and gratitude to the Battle wolf Special Forces and the soldiers of Country B.

Some of them were so excited that they hugged their heads and cried. They had been waiting for this moment since they started running for their lives. It was too torturous. Every minute and every second passed in fear.

Now that the crisis had been resolved, the heavy burden in their hearts could finally be lifted. They no longer had to fear the Reaper Armed Forces that could take their lives at any time.

Qin Yuan looked at the scene in front of him and felt very gratified. He instantly felt that all the dangers he had encountered along the way were worth it for this moment.

Didn’t he choose to be a soldier for this moment? To protect the prosperity of the motherland and the stability of the people?

“Now, all of you start packing your luggage and prepare to set off. We’ll cross the jungle and return to the warship!”

Qin Yuan, who was touched, did not forget his mission to retreat. He immediately gave the order.

“Instructor Gong, while there is a signal, inform Captain Long immediately and prepare for the rescue. We should be able to bring our compatriots back to the warship before sunset today!”

“Yes, sir!”

Just as Gong Jian turned on the radio and was about to call the command center, Qin Yuan suddenly interrupted him and continued.

“Also... If she asks about the situation on our side, just say that everything is fine and let them prepare to receive us!”

“Understood!”

Qin Yuan did this mainly because he did not want Long Xiaoyun to worry about them. In addition, the Reaper Armed Forces had already been successfully repelled, so this process was not that important to him.

It was Qin Yuan’s habit to report the good news but not the bad news. This was because he understood that the most important thing in any operation was the result.

As for the process, it was to help Battle wolf gain new experience!

If the mission failed and they failed to rescue their compatriots, then no matter how heavy the price they paid in the mission, it would not change the outcome of the mission failure.

Gong Jian quickly communicated with Long Xiaoyun.

“Captain Long! The Reaper Armed Forces has been successfully repelled by Captain Qin. Now, we can immediately bring our compatriots back to the battleship.” Gong Jian said excitedly.

“Did any of your Battle wolf members get injured during this rescue mission?” Long Xiaoyun asked Gong Jian worriedly.

“You guys broke off contact for a long time. I was worried sick that you guys would be controlled by the Reaper Armed Forces.”

“Captain Long, don’t worry! Our Captain Qin is so heroic! I’ll tell you in detail about his heroic deeds against the militants after I return to the country!” Gong Jian comforted Long Xiaoyun with a smile.

“Alright! Now that you’ve removed the Reaper’s Armament, when do you plan to return to the warship?”

“I was just about to tell you about this!”

“Captain Long! We’ll return to the battleship immediately. We’ll probably arrive before sunset. You just have to arrange for a meeting.” Gong Jian said.

“Alright, I’ll wait for you to return with your compatriots on the battleship!”

After saying that, they cut off the satellite call. Gong Jian stood up and walked towards Qin Yuan.

“Captain, Captain Long is ready to receive them. We can arrange for a retreat at any time.”

After Qin Yuan heard this, he said in a deep voice, “Alright!” Now, let’s re-plan the route back to the battleship.”

As he spoke, Shi Sanba naturally handed over the hand-drawn topographic map that had been modified and adjusted many times.

Qin Yuan took the map and studied it carefully, trying to find a faster and safer route to leave the primeval forest smoothly.

Not long after, Qin Yuan quickly made a choice based on his experience.

“Geng Hu, gather everyone immediately. We’re preparing to return. I’ll lead you out of this damp primitive forest.”

“If we stay too long, our compatriots will easily get sick!”

Chapter 504 - 504: Return!

“Yes, sir!”

“I’ll go to the cave and get them out immediately.”

Geng Xiaohu ran into the cave and called for everyone to come out of the cave. He quickly counted the number of people and confirmed that no one was missing. He immediately turned around and reported to Qin Yuan.

“Captain, the number of comrades has been counted. There are no missing people.”

Qin Yuan immediately walked over and said to the crowd, “My fellow countrymen, since the means of transportation we prepared are all outside the forest, I’ll have to trouble you to walk out of the forest with me first. Then, we’ll take a ride back!”

“Okay! No problem!”

“Captain Qin, let’s go now!”

“With the People’s Liberation Army here, we’re not afraid!”

His compatriots responded to Qin Yuan one after another. It was obvious that they were eager to return to their country.

“Good! Let’s go!”

With Qin Yuan’s order, everyone moved out of the forest in an orderly manner under his leadership.

The members of the Battle wolf team walked in front to scout the way, with their compatriots and workers in the middle, and the soldiers of Country B at the back of the team.

After walking for about half an hour, the team suddenly stopped. The soldiers of Country B rushed up and said to Qin Yuan, “Captain Qin, the primitive tribal residents who fled with us want to stay in their tribe.”

“They have been living in the tribe for generations, and their living habits are completely isolated from the world. If we force them to return to the city, it will be very difficult for them to survive.”

“A little further ahead is the entrance to their tribe. Now, their collective wish is to return to the tribe and start a new life.”

Qin Yuan thought for a moment and said to the soldier.

“Alright! What you said makes sense. We should respect their choice. After all, this is their home for generations.”

After hearing this, the soldiers of Country B hurriedly walked to the leader of the indigenous residents and gestured in a language that Qin Yuan and the others could not understand. They were probably expressing the good news that they could continue to live in the tribe.

After hearing this, the tribe leader excitedly brought the rest of the tribe to dance around them with the tribe’s unique farewell dance.

The brisk dance seemed to be thanking them for saving the tribe. Qin Yuan and the others clapped their hands in response to their enthusiasm!

The leader of the tribe made a hand gesture, and the tribe members ended the dance. The leader walked towards Qin Yuan and held his hands tightly.

They kept expressing their gratitude to Qin Yuan in their language. Although Qin Yuan did not understand, he still smiled and nodded in response.

As the tribal leader spoke, tears of excitement flowed down his face. At this moment, Qin Yuan turned his gaze to the soldiers of Country B, trying to seek an interpreter.

“What the tribal leader means is that he’s very grateful for your help this time. You saved their entire tribe, and he’s very touched.” A soldier from Country B came over and translated with a smile.

“The tribe leader hopes that you can come to their tribe as guests in the future. They will always welcome you.”

“The story of you saving their entire tribe will be passed down from generation to generation.”

Hearing this, Qin Yuan and the other team members could not help but tear up.

“Salute!”

“Salute!”

Suddenly, Qin Yuan and the others returned the highest military etiquette to the tribe, responding to their recognition of the Chinese soldiers.

“The ceremony is over!”

After a short exchange of greetings and farewells, the tribal leader led everyone in the tribe and left, gradually disappearing from everyone’s sight.

After Qin Yuan and the others saw them off, they continued their journey. About an hour later, they finally saw the car that they had prepared in advance in Country B outside the forest.

Under the arrangement of Qin Yuan and the others, the compatriots and civilians were arranged to get into the cars in an orderly manner. They scattered the people into each car.

On the way back, he saw the town that had been reduced to ruins because of the war and the streets littered with corpses. His heart was incomparably heavy and complicated.

They couldn’t imagine how bustling these ruins were once. Now, there was only a sigh of regret.

After more than two hours of driving, they finally arrived at the tarmac of

Country B’s military transport plane. After bidding farewell to the soldiers of

Country B, Qin Yuan led everyone to board the plane and return to the warship.

The plane gradually took off under the gaze of the soldiers of Country B. This meant that all the compatriots on the plane would completely leave this place that would devour their lives at any time. At this moment, they were extremely lucky.

The most excited ones on the plane were naturally our compatriots. "I can finally go home and hug my beautiful wife and cute children."

"I won't think about working abroad again when I go back this time!" The compatriots spoke their hearts with emotion.

"Yeah, after this narrow escape, I've really seen through many things. Being alive is already the greatest happiness. It's not a problem to have more money or less."

"It was like a nightmare. I was prepared to die when I escaped into the cave."

"Being able to sit on the same plane as our comrades from the People's Liberation Army today feels like I've been reborn." As she spoke, tears welled up in her eyes.

"We will always support the People's Liberation Army of our country and thank them for protecting us with their lives."

Everyone on the plane expressed their gratitude for their narrow escape. They were even more grateful to the Battle wolf Special Forces for saving their lives. It was as if no amount of fancy words could perfectly express their gratitude.

Two hours later, the plane slowly landed on the military apron of Country B not far from the warship. Long Xiaoyun and his team were already waiting on the ground.

After getting off the plane, Long Xiaoyun and the others went up to greet him.

"Captain Qin! Welcome back in triumph!" Long Xiaoyun said as she opened her arms to him, indicating a hug to welcome him.

Although Gong Jian did not reveal too much in his final report. However, Long Xiaoyun, who was one of the leaders of the Battle wolf, knew that they had escaped death this time.

It was already a miracle that they could all come back alive!

"How is it? I can be considered to be a big shot this time!" Qin Yuan responded to Long Xiaoyun generously.

"What about the others? Is anyone injured?" Long Xiaoyun asked Qin Yuan with concern.

"A few of my teammates suffered some superficial injuries. It's not a big problem. I'll go back to the warship and ask the accompanying military doctor to treat them later." Qin Yuan said in a deep voice.

"That's good!"

"We've already arranged a place for our compatriots to rest on the ship. Let's settle them down and prepare to return home."

“Geng Hu, you and the other brothers bring our compatriots back to the ship to settle down! The resting place has been arranged.” Qin Yuan’s calm tone guided Geng Hu to work.

“Yes, sir! Captain, I’ll bring them back to the ship to rest.”

Geng Hu said as he moved.

“They must have been frightened by this experience. After returning to China, we will contact an authoritative counselor to give them psychological guidance.”

Long Xiaoyun said calmly. Then, she looked at her other brothers.

“It’s been hard on you guys. It was such a tricky mission. Look at our Battle wolf members, they are all in their twenties. Who in the family isn’t the apple of their parents’ eyes?”

Long Xiaoyun sighed with emotion and continued, “You will be part of the psychological therapy after we return to China. The organization takes our mental health very seriously!”

“Yes!” Qin Yuan immediately straightened his body and saluted. Thank you for your concern for Battle wolf.”

After saying that, Qin Yuan smiled and followed everyone back to the ship. Looking at Country B that was gradually getting further and further away, he felt a lot of emotions in his heart.

Qin Yuan recalled that during the mission, there were several times when he was so close to dying in this desert. Fortunately, he was able to successfully escape with his special skills every time.

However, not every special forces soldier was born with the ability to cheat like him. Most of them were born with mortal bodies, and the level of the skills they mastered could only be improved by training day after day.

What he wanted was for Battle wolf to have a higher level of equipment. Combat skills. Although they could not be said to be cheating like him, they still had to be able to improve their skills in various environments..

Chapter 505 - 505: International Special Forces Competition

After returning from the mission, Battle wolf resumed his usual training routine. With the help of a professional counselor, the others quickly returned to normal.

They would slowly adapt to the changes in their roles after participating in a few more such combat missions in the future. After the battle, they could adjust their mentality and no longer need the help of a counselor.

At this moment, Qin Yuan was planning to bring Battle wolf to participate in the annual International Special Forces Competition.

“Captain Long, the registration time for the annual special forces competition is about to arrive. What do you think?” Qin Yuan started chatting with Long Xiaoyun on the training ground.

“Yo! Captain Qin, I can’t tell! Why are you so concerned about the special forces

Long Xiaoyun teased Qin Yuan in surprise.

“Captain Long, you flatter me! It’s all thanks to our brothers that we were able to successfully complete the mission.” Qin Yuan humbly continued.

“Those brats have told me about your strength in Country B. I won’t be happy if you keep being humble.”

Long Xiaoyun continued to tease him, “Those brats in our team talk about you every day. They’ve all regarded you as their idol.”

“Captain Qin, you’re short on me every day. As the captain, I’m so jealous!”

This made Qin Yuan’s face turn red. He could only smile foolishly at the side. “Come on, this is the training ground. You can’t tease me like this.”

“But then again! The special forces competition you mentioned just now, there’s something. If there’s a chance, I’d like to let them experience it as well.” Long Xiaoyun changed her tone and said to Qin Yuan in a deep voice.

“It’s great that you have such thoughts! I thought the same thing.” Qin Yuan said excitedly.

“Then...Captain Qin, tell me your plan.”

“Since you don’t have any objections, I’ll submit an application to the Bureau Chief tomorrow.”

Qin Yuan and Long Xiaoyun chatted as they paced around the base, exchanging ideas and plans for the special forces competition.

Half an hour later...

“Then it’s settled. I’ll lead the team to participate in the special forces training before the competition. You stay at the base to handle the daily affairs of the base.” Qin Yuan said to Long Xiaoyun.

“Good! This arrangement is not bad. I believe in your strength!”

“I believe that you will definitely be able to lead Battle wolf out of the encirclement and win the championship in one go!” Long Xiaoyun looked at Qin Yuan and said firmly.

The next morning, Qin Yuan could not wait to knock on the door of Chief Gao Shiwei’s office.

“Knock, knock, knock!”

There was an orderly knock on the door of Gao Shiwei’s office.

“Please come in!”

Qin Yuan slowly pushed the door open and walked to his desk. Gao Shiwei looked up and saw that it was Qin Yuan. A friendly smile instantly appeared on his face.

“It’s Qin Yuan! You’re really early this morning! Don’t just stand there. Sit down and talk.” Gao Shiwei said as he guided Qin Yuan to sit down and chat.

Qin Yuan did not sit down immediately. Instead, he saw that the tea in Gao Shiwei’s cup was already empty, so he took the teacup and said, “Chief, let me refill your cup of tea first!”

“Good, good, good! You’re really a meticulous and filial child. Your grandfather is blessed!” Gao Shiwei said kindly.

Looking at Qin Yuan, who was helping him refill his tea, it was as if he was looking at his own grandson.

“Chief, your tea is ready! Be careful, it’s hot.”

Qin Yuan carefully handed over the teacup and sat down on the sofa at the side. “Speak! What good news do you have this time?”

“I want to bring Battle wolf to participate in the special forces selection training and bring the members who passed the selection to participate in the special forces competition!” Qin Yuan straightened his back and said with a firm gaze.

“Oh? But kid, your Battle wolf’s strength can completely reach the strength of a Soldier King! Why do you still want to participate in the competition?”

“Back then, Battle wolf’s selection process was considered to be very carefully selecting one out of a hundred to select such an elite squadron!”

Gao Shiwei sipped the hot tea in his cup and asked Qin Yuan.

‘ Chief, it’s precisely because we’ve returned from this peace-keeping mission that we feel that we need to accumulate more and richer combat experience.

Our combat strength still has a lot of room for growth.”

Qin Yuan calmly replied to Chief Gao Shiwei, “So we need to exchange pointers with the more outstanding and top-notch special forces soldiers. We need to learn from each other’s strengths to improve Battle wolf’s overall strength in all aspects!”

“This special forces competition is a rare opportunity. I believe that Battle wolf will win the highest honor for the organization!” Qin Yuan made a firm promise.

“Good! I agree!”

“Kid, I like the way you’re unwilling to be satisfied with the current situation.

You're brave enough to challenge and strive for perfection!"

Gao Shiwei replied to Qin Yuan with relief, "I was worried that you would be content with the status quo and that it would be difficult for you to break through again. However, seeing your attitude now, I'm very relieved!"

"I believe that you will definitely lead Battle wolf out of the encirclement and obtain the highest honor! At that moment, I will personally celebrate for you."

"Thank you, Chief! Qin Yuan will definitely live up to everyone's expectations and return with honor!"

Qin Yuan immediately stood up and saluted.

Qin Yuan was about to open the office door and leave when he suddenly hesitated. He turned around and looked at Chief Gao Shiwei, wanting to say something but hesitating.

Gao Shiwei noticed Qin Yuan standing at the door hesitantly.. "Why are you hesitating?"

Chapter 506 - 506: International Special Forces Competition (2)

"Chief, I do have another request, but...I don't know how to say it." Qin Yuan was uncharacteristically stuttering.

"It's okay. There's nothing you can't say here. Don't worry and speak frankly." Gao Shiwei replied to Qin Yuan.

"Chief, I have a bold request. I want to build a small laboratory in Battle wolf Base. I can handle the daily research funds. You just need to provide the materials and equipment."

"Hmm? What a strange idea. Come over and tell me in detail, what kind of research do you do in this laboratory?"

Gao Shiwei, who was intrigued by Qin Yuan, could not wait for Qin Yuan to continue.

"As for me, I just want to try and see if I can make some improvements to Battle wolf's current weapons and scouting equipment."

"I was mainly inspired by the peace-keeping mission in South Africa."

"If we can have more elite weapons and equipment, then no matter what kind of combat environment we face in the future, we will be able to get twice the result with half the effort."

Qin Yuan confidently told Chief Gao Shiwei what he was thinking.

Gao Shiwei smiled and said, "You!" You always have some strange ideas that make people's eyes light up."

"However, I like your idea very much! It's approved!" Gao Shiwei said with a smile.

“But let me say this first. This research is all about real weapons and equipment. You must pay attention to your safety. Don’t accidentally go off and hurt yourself!” Gao Shiwei warned Qin Yuan seriously.

“Yes, sir! Chief! I’ll definitely be careful!” Qin Yuan replied happily.

“It’s just that researching and improving weapons requires professional researchers. Can your small laboratory do it?”

Suddenly, Gao Shiwei questioned Qin Yuan’s strength in confusion.

“Don’t worry, Chief. I majored in scientific research in university and I also have relevant research on weapons. Please believe in my ability. I definitely won’t disappoint you.” Qin Yuan said confidently.

“Alright! In the future, if you need anything in this laboratory, just tell me. I’ll try my best to satisfy your needs.”

“I also want to let those military researchers take a good look and know that our Battle wolf also has research talents. Kid, you’ve made me proud!” Gao Shiwei said earnestly.

“Yes, sir! Chief!” Qin Yuan replied with a military salute.

Gao Shiwei hesitated for a moment before saying to Qin Yuan, “In my opinion, you have to be busy with the laboratory. On the other hand, you have to take care of the preparations for Battle wolf’s special forces competition. I’m afraid you’ll be distracted by taking care of both sides!”

“You see, how about this, you focus on your laboratory and devote yourself to researching the improvement of weapons and equipment. Let Long Xiaoyun lead the team to prepare for the Battle wolf competition. What do you think of my arrangement?”

Gao Shiwei smiled and said to Qin Yuan. After Qin Yuan heard this, he considered for a moment and replied, “I’ll listen to your arrangements, Chief.”

“If I really had to take care of both, I would really have three heads and six arms. Chief, you’re really thoughtful.”

Qin Yuan did not forget to flatter Chief Gao Shiwei at the end.

At this time, Gao Shiwei directly picked up their cell phones and called Long Xiaoyun to arrange the task.

After making the arrangements, Qin Yuan jogged back to the base happily, unable to wait to share the two good news with everyone.

“Brothers! The general has agreed for all members of Battle wolf to participate in the special forces competition!” Qin Yuan said excitedly.

When everyone heard this good news, they instantly boiled over and cheered excitedly!

“Captain! That was great! Even in my dreams, I want to participate in this special forces competition!”

“That’s right! I missed it last year due to special circumstances and regretted it for an entire year.”

“Exactly! This year, not only can we participate in the selection, but we can also follow the captain all the way through and fight side by side.”

“Of course! With the captain leading the team, Battle wolf will definitely be invincible. Victory will definitely belong to us!”

Everyone was expressing their most excited feelings. At this time, Long Xiaoyun slowly walked in from outside the door and interrupted them with a lazy, mature voice.

“That might not be the case! Your Captain Qin doesn’t have time to lead the team!”

As soon as he said this, everyone’s mind was filled with question marks as they looked at Long Xiaoyun with a puzzled expression.

“What’s wrong? You don’t believe me?” Long Xiaoyun pretended to be coquettish as she said this and turned to look at Qin Yuan.

“Captain Qin? You even hid such a big thing from them.”

When everyone heard this, they interrupted excitedly before Qin Yuan could speak.

“Captain! What’s wrong with you? What does Captain Long mean?”

“Yeah, say something! We were so anxious.”

Everyone talked about it one after another. Actually, it was no wonder that everyone was so nervous. Ever since Qin Yuan took over Battle wolf, he had personally led all the missions, big or small.

When they suddenly heard that Qin Yuan was not leading the team this time, they could not help but be a little excited. The main thing was that they were worried that something had happened to Qin Yuan.

Long Xiaoyun, who was standing at the side, couldn’t help but cover her mouth and laugh secretly, like a little girl who had succeeded in her prank.

“Captain Long, look at you.” Qin Yuan finally couldn’t hold it in any longer and said, “You’re so reckless. You’re so eager to see the world in chaos.”

“Actually, I already had an idea about this when we were on our mission. I didn’t tell you guys because I didn’t tell the chief.”

Qin Yuan took a long breath and continued, “I plan to set up a laboratory in the base that specializes in the research and development of improved weapons.”

“Wow! Captain! You’re really going to be awesome. You actually know how to do weapons research!” Geng Hu said in shock.

“Our captain is too awesome. He’s practically the all-rounded soldier king of the new era!”

“As the Bureau Chief asked me to devote myself to the research of weapon improvement, unfortunately...I originally wanted to personally lead you to participate in the special forces competition selection training, but now I can’t do that.”

“After all, this is your first time participating in the competition. It has a lot of meaning. I don’t want to miss it either.” As Qin Yuan spoke, he looked at Long Xiaoyun. Seeing this, Long Xiaoyun also walked over from the side.

“Fortunately, Captain Long is watching over you guys. In the next few days, Captain Long will lead everyone to participate in the training for the special forces competition.”

“All of you must do your best. During the collective selection, all of you must be nominated! Do you understand?”

“Yes, sir!”

At this time, Long Xiaoyun also stepped forward and said, “Just now, I was just joking with everyone. Our Captain Qin is also shouldering many responsibilities this time. We can’t fight side by side with everyone!”

“But I’m much stricter than your Captain Qin. You guys have to be careful.” Long Xiaoyun looked around at everyone and said.

“Although this is your first time participating in such a competition, I believe in your strength. As long as you are willing to work hard, the highest honor will definitely belong to you.”

“Do you have the confidence to win the championship?” Long Xiaoyun shouted.

“Yes!”

“Yes!”

“Yes!”

Everyone replied confidently.

Qin Yuan, who was at the side, saw that everyone was full of confidence and nodded in satisfaction.

Early the next morning, Long Xiaoyun led everyone to pack their bags and prepare to set off for the special forces training base for special training.

After sending off the team members who were going to participate in the special training, Qin Yuan focused on his weapon improvement experiment.

Qin Yuan strolled through the extremely quiet Battle Wolf Base. He felt empty in his heart. He was not used to not hearing everyone's training slogans.

Qin Yuan came to the well-decorated laboratory and looked around, nodding in satisfaction. Qin Yuan looked at the excellent materials and equipment and was stunned!

If his small laboratory could be decorated like this, then the laboratory in the military factory would be even more shocking. Today, his horizons were broadened.

Gao Shi, Chief Wei, walked in and said to Qin Yuan, "How is it?" This setup isn't bad, right? I spent a lot of effort to get these things for you." "I'm very satisfied. I was stunned when I walked in just now."

"Thank you, Chief! Thank you for your trouble!" Qin Yuan said gratefully.

"Then take a look at what you lack here. Just tell me and I'll arrange it. I guarantee that I'll arrange everything for you." Gao Shiwei said with a smile.

Not long after, Qin Yuan made a list of hundreds of materials on the computer and handed it to Chief Gao Shiwei.

"Chief, I'll have to trouble you with the materials on this list."

Gao Shiwei looked at it carefully and said, "Oh!" You're not scrimping! Alright, I'll go and arrange it for you now. Wait for my good news!"

Gao Shiwei said as he walked out of the house.. Qin Yuan watched him from behind and said, "I'll wait for your good news!"

Chapter 507 - 507: Beginning Weapon Research and Modification

At this moment, Qin Yuan already had a preliminary improvement plan in his mind.

The first thing to be modified was accuracy and bullets.

Qin Yuan already had a blueprint for the improvement of the 95 rifle and related bullets in his heart.

Without a word, he started working in the laboratory.

Qin Yuan did not immediately make a move. He spent three whole days to understand these pieces of equipment. Time flew by, and they stayed for a week.

The materials that Chief Gao Shiwei had helped to prepare a week ago were sent to Qin Yuan as scheduled. Now, his daily life was basically fixed in the laboratory.

Qin Yuan had not slept well for more than a week. When he was hungry, he would just eat something to keep himself filled for the time being.

After all, since Qin Yuan was determined to study these precision weapons, he had to focus on the whole thing.

Even if he had the skill buff given by the system, he still had to focus 120% on studying.

Professor Zheng, who had heard the news and rushed over to assist in the weapon improvement research, could not help but be shocked when he saw Qin Yuan in such a sloppy state in the research room.

“Qin Yuan, what’s going on with you? How did you end up in such a sorry state while researching a weapon?”

“Did you encounter any difficulties?”

The sudden voice interrupted Qin Yuan, who was frantically operating the program in front of the computer. He turned around and realized that it was Professor Zheng, who was in charge of weapon research and development in the organization.

Qin Yuan, who was overjoyed, quickly stood up to welcome him. He replied very politely to Professor Zheng, “So it’s you, Professor Zheng. I was so busy messing around that I forgot that you were coming.”

As early as a week ago, when Qin Yuan decided to set up a research lab, Chief

Gao Shiwei had specially invited Professor Zheng back to assist him in his research work.

Qin Yuan continued to respond to the professor, “I haven’t been out of the research lab for more than a week. Because it’s my first time coming into contact with it, it’s inevitable that I have to spend more time and energy on research than ordinary people.”

“Yes! Not bad! There aren’t many young people who can work so hard these days!” Professor Zheng smiled as he nodded and praised Qin Yuan.

“You’ve been working so hard for so long. Did you get any new research results?” Professor Zheng said to Qin Yuan with a smile.

“Yes, I was just waiting for you to come and ask you to help me test it!” Qin Yuan said as he took out a modified rifle and handed it to Professor Zheng.

“Professor Zheng, look! This is a modified Type 11 sniper rifle. Please try and see if there is any improvement in accuracy. Help me test the results!” Qin Yuan looked at Professor Zheng with anticipation.

Professor Zheng took the gun and looked at it carefully. It was indeed a common type of rifle in the armed police and regular army troops.

This was a common gun used by the special forces during missions.

“You finished modifying this gun in a week?” Professor Zheng looked at Qin Yuan in shock.

Professor Zheng was a professional in this area. He knew that it took a lot of manpower and resources to make a gun.

From the design of a gun to the official production, there were many layers of testing. It was unknown how many procedures were needed before it could be stored in the arsenal.

Any weapon would have its strengths and weaknesses. If one wanted to overcome it, they would need an entire research and development team to discuss it with dozens of experts.

Qin Yuan could modify a Type 11 rifle in a week. How could Professor Zheng not be shocked?

“Whether it’s a mule or a horse, do we have to take them out for a walk?” Qin Yuan said with a smile.

“You should be very clear about the original data of this gun. When you go to the shooting range later, you can test it yourself and avoid the data. Wouldn’t it be clear at a glance?”

“Good! Let’s go to the shooting range and give it a try!” Professor Zheng answered readily.

In Professor Zheng’s impression, Qin Yuan did not have any experience in weapon research. Now that he had just returned, he suddenly said that he wanted to start researching weapons. How could he not be suspicious?

“Hearing you say that, I really can’t wait!” Professor Zheng looked at Qin Yuan and said.

Before he finished speaking, the two of them walked straight to the shooting range of the base.

Qin Yuan, who had not left the room for a long time, was a little uncomfortable when he suddenly came out. When he walked out, he subconsciously used his hand to block the dazzling light.

The accuracy of the handgun was between 50-100 meters, while the rifle was between 50-300 meters. The main test method was to use the three-point positioning method.

At the same distance, he could accurately shoot the target and then look at the dense distance of the single hole to calculate the corresponding data.

Before every gun was stored in the warehouse, it had to go through all kinds of precise data tests.

Therefore, they had to use this rifle from the reformed country to do a three-point positioning again. If the bullet holes were denser than before, it would prove that the accuracy of this gun was better than before.

“Professor Zheng, please try! I’ll see if there’s anything that needs to be improved later. I’ll adjust it again!” Qin Yuan said to Professor Zheng.

“Good! No problem!”

As Professor Zheng spoke, he began to adjust his shooting state and prepare to shoot. Qin Yuan retreated to the grass at the side and waited.

Soon, gunshots came from the shooting range.

Although Professor Zheng's shooting skills were not as good as those of the special forces, it was more than enough to test the rifle.

The distance between the rifles was 50 meters, and there were a total of six targets.

After the gunshots stopped, three shots were fired at each target..

Chapter 508 - 508: Beginning Weapon Research and Modification

When Qin Yuan brought back the targets for Professor Zheng to analyze and compare them one by one, Professor Zheng's expression instantly froze.

He repeatedly checked the data, afraid that he would miss out on any details.

"This... This data is too shocking. Could it be that I saw wrong?" Professor Zheng muttered to himself in disbelief.

"Oh my god! Qin Yuan, this is 10% higher than our previous best score. You're too awesome."

"It's amazing to have such results in just a week. How did you do it?"

"This is too shocking! What a genius!" Professor Zheng could not help but praise Qin Yuan.

Of course, this result was already within Qin Yuan's expectations. He was secretly delighted when he heard the professor's continuous praise for him.

"Professor, you flatter me! Do you think there's anything lacking that needs to be adjusted?" Qin Yuan humbly asked Professor Zheng for advice.

"No need! This is already perfect. Qin Yuan, don't belittle yourself. This is already an excellent result of research and development." Professor Zheng replied affirmatively.

After saying that, Professor Zheng fell into deep thought...

The accuracy of a rifle was strictly tested.

When the military factory started mass production, they had to go through at least three rounds of review and testing procedures under extremely strict supervision before they could completely put these guns into use in the army. In other words, every gun used by the troops had a strict standard.

It would be extremely difficult to raise the standard by one point!

If they could still level up, how could those experts not do so?

This was because when they were testing and adjusting the weapons, they had already determined that these weapons had reached the peak of their technology and there was no need to improve them anymore.

This Type 11 sniper rifle had been in use for many years. If there was really a technological upgrade, how could the military factory not have any news about

The top-notch technology that so many professional scientists could not break through was actually broken through by Qin Yuan! Although it was only a small 10%, this was already a new technological history in the military industry. This would be recorded in the historical research and development data.

This time, Qin Yuan was really awesome. If the experts knew about this, it would definitely cause a huge uproar in the circle.

“Qin Yuan! You do it! Test it again!” Professor Zheng suddenly shouted at Qin Yuan.

“Good!” Qin Yuan agreed.

After Qin Yuan’s superb marksmanship test, he sorted out the data again and found that the second result was even better than the first!

This time, Professor Zheng was completely convinced and acknowledged this formidable young man in front of him from the bottom of his heart.

At this moment, Professor Zheng couldn’t wait to take out his phone to report the good news to Gao Shiwei!

After Gao Shiwei received the news, they were overjoyed! He immediately put down everything he was doing and rushed to the base laboratory.

When Qin Yuan and Professor Zheng returned to the laboratory, Chief Gao Shiwei arrived.

As soon as Gao Shiwei entered the laboratory, he shouted at Qin Yuan, “Qin Yuan! You’ve really made a great contribution this time!”

“At first, I still doubted your ability. Now that I see that you have improved the accuracy of your rifle so much, this is a historic breakthrough!”

When Qin Yuan heard this, he burst into laughter as he quietly listened to Chief Gao Shiwei’s praise for him.

“Thank you, Bureau Chief, for your affirmation of my improvement results! In the future, I will definitely accumulate more experience and improve more high-end weapons and equipment to strengthen the arsenal of our Battle Wolf

Qin Yuan replied decisively.

Listen to Qin Yuan’s bold words! This would make many experts feel ashamed!

In the research institute, many experts had to go through countless days and nights of suffering to improve by one percentage point.

However, Qin Yuan only used a week to obtain a historical breakthrough result of 10% increase. This was not something that ordinary people could match. “Qin Yuan, tell me, how did you achieve such good results this week?” Gao Shiwei could not wait to ask Qin Yuan about the process.

“Chief! Please forgive me for not being straightforward, because the research and development involves the analysis and decoding of a lot of precise data. It’s really not something that can be described clearly in a few words.” Qin Yuan said frankly.

Qin Yuan’s heart was as clear as a mirror. How could he drag everything out? If he told the truth, wouldn’t his special system physique be exposed?

The quick-witted Qin Yuan found this excuse in the hope that he could dodge it.

When Chief Gao heard Qin Yuan’s words, he thought about it carefully. It seemed that he really did not know much about weapon research and development.

“That’s true! I’m really not good at this!” Gao Shi nodded.

“However, you still have to sort out the information on the improvement process later and submit it to the Research Institute. If your plan is approved, it will be a great achievement!”

“Not only will you gain glory, but our entire company will be rewarded!” “Good! No problem!” Qin Yuan agreed readily.

As Qin Yuan spoke, he went to the drawer and took out something that looked like a document and handed it to Chief Gao Shiwei.

“Chief, I’ve long prepared for this. I’m really grateful for your recognition of my improvement results! It would be even better if I could contribute to Battle wolf! ”

“Not bad! He could predict everything in advance! It’s really rare to have such a broad vision.”

Gao Shiwei took the document from Qin Yuan’s hand and could not help but praise it again! It seemed that he was really happy to the extreme this time!

Gao Shiwei naturally walked to the sofa at the side and sat down. Tell me, with your extraordinary talent, other than improving the rifle, what other improved skills do you have that we don’t understand?”

“Look at our arsenal. There are still those that can be optimized!”

“Chief! I have to take this step by step. I did some research on engineering before I joined the army. It shouldn’t be too difficult to research other weapons and equipment.”

“After upgrading the accuracy of the rifle, I’ll have to start researching other weapons. ”

“Once there are new results, Professor Zheng and I will definitely report to you the results of the improvement! Please rest assured!” Qin Yuan promised Gao Shiwei confidently and firmly.

“Alright! I’m relieved to hear that! Professor Zheng, you can help Qin Yuan improve his weapon. If there are any problems, feel free to let me know.” Gao Shiwei instructed them.

“Yes, sir! Chief! I will definitely remember your instructions and assist Qin Yuan in his research and development.” Professor Zheng replied to Chief Gao Shiwei with a straight face.

In the next few days, with the help of Professor Zheng, Qin Yuan’s research work in the laboratory became more and more smooth.

All kinds of explosives, rockets, detectors, and other improved weapons were produced by Qin Yuan one after another. The relevant test reports were sorted out one by one.

A month passed, and the accumulated test reports gradually filled the entire filing cabinet. Qin Yuan looked at the full report and nodded repeatedly to admire the results of his improvement. He was overjoyed.

However, he was most satisfied with the Type 11 sniper rifle among all the weapons that he had. After all, it was his partner who had accompanied him in the peace-keeping mission.

From time to time, Qin Yuan would still bring this rifle to the shooting range for various tests, as if he was looking for a higher-level breakthrough.

Qin Yuan kept pulling the trigger at the target a thousand meters away. After firing more than ten bullets in a row, he finally stopped.

“Not bad indeed! It was still easier to use after the improvement! It’s really 100% accurate!”

Qin Yuan admired his masterpiece with great satisfaction, and the corners of his mouth could not help but curl up.

In order to maximize the lethality, he had even specially developed a custom-made bullet for this purpose. This was a 20% increase in damage compared to the previous conventional set.

Comparing the improved version to the original version, it was an exaggeration to say that the difference was like the difference between heaven and earth! This technology was definitely a first-class sniper rifle in the world.

At this moment, Gao Shiwei came to the laboratory again.

Qin Yuan hurriedly jogged back to the laboratory from the training ground. He hurriedly returned to the laboratory and found that the person standing beside Chief Gao was an unfamiliar face..

Chapter 509 - 509: Invitation from the Weapons Research Institute

Chief Gao saw Qin Yuan standing at the door with a shocked expression and quickly called him over to introduce him.

“Qin Yuan, don’t just stand there. Come over quickly! Come and meet the director of our weapons research lab, Lin Haidao, Director Lin!”

Chief Gao beckoned Qin Yuan as he introduced the two of them to each other.

“Director Lin, this is the captain of our Battle Wolf, Qin Yuan.”

“Hello! Comrade Qin Yuan!”

“Hello! Director Lin!”

The two of them shook hands and exchanged pleasantries.

“I’ve long heard of Captain Qin. You’re indeed a talented man after seeing you today. You’re better than your master!”

Lin Haidao looked at Qin Yuan carefully with an excited expression. He had just met him and was already praising him.

“You are indeed a rare genius. I won’t waste any more time on formalities. I’ll get straight to the point.”

“Director Lin, please go ahead! Qin Yuan is willing to hear the details.”

Qin Yuan politely replied to Lin Haidao, indicating for him to continue.

“After we tested your modified rifle, we found that its performance is indeed much better than before.”

“Therefore, we immediately sent your improvement results to the First Laboratory of Light Firearms in the headquarters. After their rigorous testing procedures, they unanimously recognized your improvement technology!

Lin Haidao said to Qin Yuan passionately, “The director of our headquarters’ light thermal weapons laboratory was also thinking of meeting you.”

“I came here today to personally invite you. I want to see if you have time to go back to the headquarters with me to meet those old experts and researchers.” “At the same time, we can also exchange our experience in weapon research and improvement.”

Although Qin Yuan felt flattered after hearing this, he did not show it. Instead, he asked calmly, “Then, was this rifle developed by their research institute?” “Not exactly, but they participated in two-thirds of the research.”

As Lin Haidao spoke, his gaze fell on the Type 11 sniper rifle in Qin Yuan’s hand.

“The sniper rifle in your hand was developed by their laboratory in collaboration with experts from other research institutes. It was jointly developed by the First Laboratory and the North China Group.”

The North China Group was one of the three largest military corporations in China. Currently, many of the weapons and equipment in service were basically developed by the North China Group's research institute.

Just as Qin Yuan was hesitating whether to accept the invitation or not, a familiar voice suddenly sounded in his mind.

“Ding!”

“Congratulations to the host for successfully modifying your weapon and equipment
XI. Constitution attribute points +50.”

Qin Yuan suddenly quivered. He had been busy with the research and development of weapons recently, so he had forgotten about the reward after the improvement.

It had been so long since the modification was successful, and the reward was only late.

It turned out that no matter how many weapons and equipment Qin Yuan improved, only those that had been approved by the headquarters 'research institute could receive the system reward.

At this moment, Qin Yuan's physique had increased by 50 points. He instantly felt that it would not be a problem for him to endure for another week.

Moreover, Qin Yuan's laboratory had an improved sniper rifle. If he could pass this rifle again, he might even receive a wave of rewards.

Qin Yuan could no longer suppress the excitement in his heart. He was beaming with joy as he said excitedly, “Wait for me first. I'll change my clothes and leave with you immediately.”

After saying that, Qin Yuan turned around and asked Bureau Chief Gao Shiwei, “Bureau Chief, I want to bring this newly improved sniper rifle with me. I'll bring it back with me when I come back.”

“Yes! Agreed! I hope you can bring back more surprises when you come back!”

Gao Shiwei agreed with Qin Yuan.

“Yes, sir! Thank you, Chief!”

Chief Gao and Lin Haidao looked at each other and smiled. They were sincerely happy for Qin Yuan.

Although Chief Gao no longer delved into where Qin Yuan's superb research and development skills came from, he was a Battle wolf person. All his glory was Battle wolf's glory, and it was his glory.

After packing up, Qin Yuan carefully carried his sniper rifle and followed Lin Haidao into the car.

“Qin Yuan, since you're so outstanding in this area, do you have a chance to develop in the field of research and development?”

“With your strength, you can definitely become a top expert!” Lin Haidao looked at Qin Yuan with anticipation.

“No, Director Lin!”

Qin Yuan also bluntly rejected the Seaside Forest Blade. This made the Seaside Forest Blade speechless for a moment.

Qin Yuan waved his hand and said, “Actually, researching weapons is just a hobby of mine. I don’t intend to show off my skills in this area.”

“That’s why I won’t put all my energy into this. I enjoy working hard with my brothers in the Battle wolf on the training ground and the battlefield.” Hearing Qin Yuan’s explanation, Lin Haidao was a little disappointed.

Even so, Lin Haidao still did not give up and persuaded Qin Yuan unwillingly.

“I heard that you’re about to get married. If you’re always active in the front line, it’ll naturally be more dangerous. If you switch to the field of weapons research and development, maybe you can have a better development in our field, right?”

“Impossible!”

Qin Yuan shook his head decisively and said firmly, “I appreciate Director Lin’s good intentions, but everyone has their own aspirations. I hope that we can respect each other’s decisions and not force others to do what they want..”

Chapter 510 - 510: Invitation from the Weapons Research Institute (2)

Qin Yuan’s words made Lin Haidao blush, and he could not help but feel embarrassed.

Since he had already said so, he did not say anything more. Lin Haidao looked at the box containing the sniper rifle.

“Why did you bring the Type 10 sniper rifle over? Did you change this one too?” Lin Haidao asked Qin Yuan in confusion.

Qin Yuan looked at the box and nodded. “It can be considered a little modified. Now, its original performance has increased by at least 5%.”

“What?”

Lin Haidao exclaimed in surprise.

“Are you serious? Qin Yuan, you’re not bragging, are you?” Lin Haidao questioned with a face full of doubt.

“Why would I lie to you?” Qin Yuan replied coldly.

Then, he rolled her eyes and shifted his body. “I’ve brought my gun with me. Even if I fool you here, I can’t fool those experts, right?” After hearing this, Lin Haidao gradually calmed down.

“That’s true! It’s all my fault for being too excited. I’m really sorry!”

“You know what? The reason why the Type-10 sniper rifle was not mass-produced was mainly because the cost of research and development was too high. However, its actual lethality is not as outstanding as the 11th move.”

“The Type 11 sniper rifle is suitable for small equipment and moving crowds. Currently, it is specially used by special forces.”

“But as our first large-caliber anti-materiel sniper rifle, it has extraordinary significance for our research institute.”

“To tell you the truth, we’ve never stopped improving this gun in the laboratory. Now, the laboratory has a preliminary draft of the improvement.”

“It’s a pity that it’s only a sketch. I haven’t been able to achieve a higher breakthrough.”

Lin Haidao said with a regretful expression.

“We’ve always hoped for a new breakthrough in the improvement of the Type 10 sniper rifle so that we can mass produce it and apply it to more combat environments.”

“Do you know what it means to increase the strength of the Type 10 sniper rifle by 5%?”

“What?” Qin Yuan asked curiously.

“This is simply too shocking!”

“If your improvement results pass the expert’s test, they will be so angry that they will vomit blood on the spot!”

After Qin Yuan heard this, he said indifferently, “The 5% I said earlier is just the foundation. It’s mainly because the materials that the research lab in the base can get are very limited.”

“If the materials are sufficient and there’s no shortage, this gun can be optimized by at least 15%, and the cost will be 30% lower than before.”

At the side, Lin Haidao was already completely dumbfounded. At this moment, his eyes were filled with shock.

Not only could the performance be improved so much, but the cost could be reduced by another 30%!

This was something that many experts would not even dare to dream of.

“Director Lin, I’m not joking! I’m just telling the truth. There’s no need to be so shocked.” Qin Yuan looked at Lin Haidao.

“No, no, no, it’s not that I don’t believe you. It’s just that this is too shocking!” Lin Haidao hurriedly explained.

They took some time to reach and Qin Yuan was idle for a while, so he discussed the principle of modification with Lin Haidao.

Lin Haidao was the best in this area, but he did not understand many of the principles Qin Yuan had explained.

Even so, he was certain that Qin Yuan definitely had extraordinary talent and attainments in this area.

This young man who was only in his twenties had too much energy in his body. Lin Haidao wished he could immediately bring out all of Qin Yuan’s talents.

If Qin Yuan was willing to concentrate on developing in this area, he would sooner or later become a powerful figure in China’s military industry.

After more than ten hours of bumpy journey, they finally arrived at a train station.

“The laboratory is actually hidden in the mountains? This is unbelievable.” Qin Yuan said in surprise.

If the army was in a remote mountainous area, it would still make sense, but...A research and development center specializing in weapons was actually built in the deep mountains and forests.

It was really puzzling.

Lin Haidao pretended to smile mysteriously and did not explain to Qin Yuan’s curiosity.

After another hour of driving, a large group of buildings slowly appeared in Qin Yuan’s field of vision.

Qin Yuan was deeply attracted by the unique building in front of him. He could not help but lean closer to the car window to take a closer look. He could not help but sigh in his heart, “So this is the military factory!”

“That’s right. This is one of the branches of the North China Group.”

“The laboratory is right here.” Lin Haidao said with a smile. It was inside. “The reason why we chose this place is actually more for safety reasons.” Qin Yuan could feel the very strict security of the military factory.

Lin Haidao showed his ID, and after a long inspection, they drove in.

The interior of the military factory base was very empty. It took more than ten minutes to drive to the research institute.

In the end, Qin Yuan followed Lin Haidao to the back of the mountain. There was a small factory here, but the door plate said that it was a logistics warehouse.

However, the entrance of a small logistics warehouse was heavily guarded. Qin Yuan knew that it was not as simple as it seemed on the surface.

Just by looking at the number of guards at the door, it was obvious that there were twice as many as the ones at the door just now.

‘Qin Yuan, this is actually the first laboratory we’re going to. The so-called logistics warehouse is just to hide it from the public.’

Lin Haidao said.

“There are more than a hundred security personnel here, and each of them is equipped with real guns and bullets. There are more than 30 light weapons research experts, and some academicians from the North China Group and our country are among them!”

“The talents inside are all favored by the heavens, so the security here is especially strict. Even the factory manager can’t enter easily!”

“If anyone barges in without permission, no matter who it is, the security personnel have the right to shoot them directly.”

Qin Yuan could not help but feel a chill down his spine. He did not expect there to be such a heavily guarded place.

After all, the laboratory was full of top-level secrets, especially the scientific research experts inside. They were national treasures.

If a country had a mature team of scientists, then what military progress could the country make?

Qin Yuan habitually used his radar skill to scan the entire research room. It was as Lin Haidao had said.

After entering, they stopped outside a gray building.

There were five people standing outside the building. As soon as Qin Yuan and his wife got out of the car, they came up to them. “Director Li, this is Comrade Qin Yuan.” Lin Hai Dao immediately introduced.

“Qin Yuan, this is Li Rong, Director Li.”

“He’s the person in charge of the First Light Weapons Laboratory. This time, Director Li strongly requested me to invite you over.”

“Hello, Director Li!”

Qin Yuan first saluted and greeted him, then respectfully extended his right hand.

Seeing this, Li Rong politely shook hands with Qin Yuan to welcome him.

This research institute had gathered so many top talents, silently contributing to the national defense cause in this isolated mountain area.

Although they were not as vigorous as the special forces on the battlefield, their contribution to national defense was not inferior to the special forces. In fact, they contributed even more.

As for Li Rong, he had been in this research institute for 15 years and witnessed the development of light weapons in these 15 years.

“It’s true that heroes come from young people since ancient times. Comrade Qin Yuan is indeed a talented person. He’s already an outstanding special forces soldier at such a young age, and he’s even able to be so outstanding in the military industry.”

“It’s really not simple! Young people nowadays are really better than their masters.”

“Chief Physician Li, you flatter me! I’m just messing around in my spare time.” Qin Yuan said humbly.

“Hey. It’s too modest to say that. Your improvement results have passed our unanimous approval. Everyone in the laboratory has been clamoring to invite you over to exchange experience.”

They chatted for a while before Li Rong and the others brought Qin Yuan around the laboratory..
