

Special Troop 521

Chapter 521 - 521: Facing the Difficulties

Under Qin Yuan's orders, everyone climbed onto the iron chain and moved up quickly without any distractions. In addition to focusing on climbing, they had to avoid the strong firepower below them.

Only by using the momentum to dodge and advance was the safest way. Moreover, he could not rest midway. Once he stopped, it would undoubtedly give the opponent a chance to aim.

Just as Qin Yuan and the others were climbing in the right state, the team from another country arrived.

It was C Nation's Wild Wolf Squad.

Before they reached the foot of the cliff, they heard gunshots coming from below.

"Which team is there? They are actually faster than us?" The captain of Wild wolf asked the person in charge of the assessment next to him.

"It's Battle wolf!" the person in charge said.

"They're doing rock climbing now."

"Let's go!"

"Let's surpass them!"

The Wild Wolf Captain smiled wickedly, as if he was already confident that he would win before the battle. In their hearts, they were invincible in rock climbing. No one could surpass them.

Based on their past experience, as long as there were no accidents this time, defeating Battle wolf would not be a problem. As long as they did not reach the finish line, there would always be a chance to take them down.

There were naturally precedents for them to be so arrogant. Unfortunately, they didn't know Battle wolf's background. Battle wolf wasn't as easy to fool as the average special forces.

The Wild Wolf team members quickly climbed up the cliff wall. Their smooth movements were not inferior to Qin Yuan and the others.

Just as they were trying their best to climb up, the gunfire on Qin Yuan's side suddenly went off. However, just as they stopped to think, a scream suddenly sounded.

"Ah!"

It turned out that their last member had accidentally lost his grip and fell off the cliff to avoid the firepower.

Immediately after, the smoke device on his body was instantly triggered. However, at this moment, he was not only facing the cruel reality of elimination, but even more cruelly, whether he could survive this fall was another matter.

Seeing this situation, the Wild Wolf Captain did not dare to delay any longer.

He quickly ordered his team members to climb up the cliff with all their might. "What is Battle wolf doing? Are they invincible?"

"I really shouldn't have invited them to participate in the competition!"

"How is this still the strength of the Chinese team members from previous years?"

"This..."

At the command center, the team leaders of the various countries were discussing the scene in front of them.

It turned out that Battle wolf had once again obtained first place in the rock climbing event and broke the previous record.

There was no doubt that this time it was 20 points again. They had won two rounds and broke the record. Just this result alone was enough to leave the other participating teams by several streets.

Because Battle wolf had broken the record in the first three obstacles, they were already the biggest dark horse in the judge's eyes.

The strength of Qin Yuan and the others brought a lot of pressure to the participating members of the other countries. "Oh my god! Battle wolf's strength is too shocking!" "If this continues, we will definitely lose."

"A devilish Battle wolf, an expert among experts!"

The leaders of the other countries expressed their amazement in their hearts.

This was actually a normal reaction, because Qin Yuan and the others' results in the two obstacles were already higher than the other teams' combined results in the three obstacles.

On the other side, Long Xiaoyun was still calmly standing in front of the big screen, focusing on capturing the competition situation of Qin Yuan and the others. She did not pay too much attention to the other people's chatter.

This was because Qin Yuan and the others had taken a big lead in the competition early on. They had easily obtained good results in the following competitions.

Qin Yuan and the others charged forward, creating waves of suffocating "death" atmosphere at the competition venue.

Soon, it was the last obstacle of the competition, which was the last low-altitude skydiving event. Actually, it didn't matter how many points they got for this obstacle.

This was because Qin Yuan and the others had already broken more than half of the records in all the events. Even if they got 0 points for the last low-altitude parachute, it would not affect their victory.

"Captain! Look, our results have long surpassed theirs by 800 streets! Doesn't this event seem a little redundant?"

Zhou Qing said to Qin Yuan in a relaxed manner.

“If we had known this would happen, we wouldn’t have had to spend so much effort to snatch the parachutes from Country Y.”

“That’s right! Captain, I think that what Instructor Zhou said makes sense!”

Geng Hu chimed in.

“What do you know!”

“I’ll give you a good lesson now!”

“No matter what, we should always be on high alert. We must always have a plan and foresight.”

“Because whether it’s a competition or a battlefield, we can never accurately predict the final outcome, especially in actual combat. The situation of the battle can change and reverse at any time according to the actual situation.”

“It’s the same in battle. You can’t relax until the last moment. Slacking means giving the opponent a chance to take advantage of the situation.”

“This kind of blind confidence is fatal on the battlefield. That’s why I hope that all of us Battle wolf will always maintain our initial reverence for the game..”

Chapter 522 - 522: Facing the Difficulty (Two s Combined)

“Alright then! Now, let’s continue to work together to complete the last event of the competition!”

“Does everyone have confidence?!”

“Yes!”

Everyone responded to Qin Yuan loudly.

As everyone knew, the difficulties that Battle wolf had encountered in this competition were several times more than the other teams. This was naturally the credit of the host, C Nation.

The other countries more or less had special treatment or went easy on them, but Qin Yuan and the others were facing a difficult competition.

However, even though the difficulty index was the highest in the entire competition, Qin Yuan still led the Battle wolf to face the difficulties without fear and achieved excellent results.

Even if the others were unhappy, they could only think about it in their hearts. No one dared to comment or protest on the surface.

Faced with such a perfect result, they could only accept it willingly.

They could only hope that they would make a major mistake or foul in the low-altitude jump segment to satisfy their ugliest thoughts.

There was nothing they could do. If Qin Yuan and the others did not make any mistakes and successfully completed this mission, most of them would have completely lost the chance to fight for the rankings.

However, to Qin Yuan, this was a huge joke. How could he leave such an opportunity for his opponent to take advantage of it?

They didn't have an accurate understanding of the strength of the Battle wolf Special Forces, but it didn't matter. This competition was to refresh the inherent image of the Chinese military in the international military.

This time, Qin Yuan's purpose in participating in the competition was not only to get a ranking, but to let everyone know the bravery and fearlessness of the Chinese soldiers and the invincible combat strength of Battle wolf.

The weather was unpredictable. Just as Qin Yuan and the others successfully boarded the helicopter again and the helicopter slowly took off, a demonic wind suddenly swept over.

The strong wind caused the helicopter to sway left and right, and they fell to the ground several times because they couldn't sit properly.

Due to the sudden hurricane, the plane had been hovering in the same spot. It did not dare to continue to increase its altitude, afraid that it would suddenly crash.

"Captain! What should he do? Why are we so unlucky?"

Zhou Qing said fearfully.

"That's right! Why did we encounter such a thing as soon as we boarded the plane?"

"This is too strange! Are we going to die together at this final moment?" Geng Hu was depressed.

Qin Yuan, who was at the side, calmly looked at the wind outside the window and quickly used the radar to determine the surroundings.

"All of you, calm down. Don't panic. Anything can happen in a field battle."

Qin Yuan continued to look out of the window while comforting the others without looking back.

"This is only a competition and you guys are already so flustered. If you really encountered an unexpected situation on the battlefield in the future, won't you guys immediately rush up and surrender?"

"Be more confident!"

Everyone did not continue talking after hearing this. They immediately took deep breaths and began to adjust their emotions, gradually calming themselves down.

"I've roughly guessed that there's an occasional strong gust of wind. According to past research on the climate, the wind will begin to weaken in about five minutes."

After Qin Yuan saw that everyone's emotions had gradually calmed down, he unhurriedly analyzed the weather conditions outside with everyone.

“Captain, what should we do now? Are you going to wait quietly for the wind to subside?”

Geng Hu interrupted in confusion.

“That’s right! After a while, the wind began to weaken, and the pilot immediately increased the altitude. After the height of the parachute, we will judge the way to parachute according to the wind at that time.”

“Because we don’t have much time to wait. Every competition has a time limit.

If you exceed the time limit, it will be considered a mission failure.”

Qin Yuan emphasized the danger and importance of this competition.

As expected by Qin Yuan, the wind gradually weakened after about five minutes. Seeing this, the pilot immediately pulled up to a suitable altitude according to the requirements.

Whoosh...

As the cabin door opened, gusts of strong wind rushed in from the cabin door. The sudden strong wind blew them into a mess in the cabin.

As the wind gradually weakened, Qin Yuan quickly turned on the radar to determine the parachuting environment. After a scan by the radar, Qin Yuan suddenly frowned.

According to the current wind speed of 20 meters per second in the competition venue, the limit for low-altitude parachuting was 15 meters per second. If they did not jump now, they would miss this seemingly best opportunity to jump.

Not only that, the data from the radar showed that after this wave of wind, a new hurricane would appear. At that time, it would be even more difficult for them to make a choice.

At this moment, the others were waiting for Qin Yuan’s orders. They all looked at him with anticipation, like a group of chicks waiting to be fed.

Qin Yuan did not hesitate anymore. After quickly making a gesture, he was the first to jump off the plane.

Zhou Qing and the others followed suit and jumped down. Because the wind was too fast, they were thrown higher into the sky. There were several times when they were almost blown into each other by the wind.

The situation at that time was very urgent and dangerous. The referee on the helicopter could not help but become nervous when he saw this scene. He kept his eyes fixed on the ups and downs outside the cabin.

At this moment, the leaders of the other countries in front of the big screen in the command center were laughing to themselves.

He thought to himself, This extreme weather is enough for them to suffer.

Unfortunately, Battle wolf had already experienced this kind of extreme challenge in the special training camp.

Although the current situation was different from what they had encountered during the special training, they had already trained their strong mentality to deal with all kinds of unexpected situations.

After a short period of panic, Qin Yuan and the others quickly adjusted their direction according to their past experience. They quickly and accurately opened their parachutes and landed in the designated direction outside the primeval forest.

In the end, Battle wolf successfully landed at the designated location, and none of the participants were injured.

In the last extreme low altitude parachute event, Battle wolf once again won first place with their strong psychological quality and adaptability.

They had broken the competition record again.

This result instantly made the other participating teams feel a deep sense of despair.

Other than Battle wolf, only Country B's team managed to pass.

The other countries had more or less suffered varying degrees of casualties, especially the losses of the Wild wolf. At the end of the competition, less than half of their members were left.

The ones who were eliminated were basically disabled to different degrees. Fortunately, they were all taken away by the medical team in time for treatment.

There was another special case in Country Y. Because their parachutes had been snatched by Qin Yuan and the others long ago, they were unable to complete the low-altitude extreme parachuting competition.

The organizers had requested for their results to be revoked, and now their team leader was trying his best to negotiate with the referees to retain some of their results.

If they didn't give them anything, then they would be in a tragic situation.

In fact, Country Y originally wanted to get the parachute back from Qin Yuan and the others. Unfortunately, when they sensed the helicopter taking off, Qin Yuan and the others had already finished the competition.

They could only lie in ambush and wait for the other teams to come over, trying to snatch the parachute of the next team.

Unfortunately, in the end, they did not get what they wanted.

They could only watch helplessly as the other teams completed the low-altitude parachuting event one after another.

At that time, the scene was visible to the naked eye. It was like an abandoned wolf in a pack of wolves.

Hence, the scene of their leader negotiating with the referee earlier.

Just like that, all the participating teams, except Country Y, successfully completed all the competition obstacles.

Since the competition was over, the organizers gathered all the participating members at the command post outside the primeval forest.

After the organizers gave a speech at the end of the competition, they sent a car to send them back to the base to rest. As for the results of the competition, they would be announced the next day after their overall scores were sorted

out..

Chapter 523 - 523: Returning with Honors

In the dormitory...

Qin Yuan and the others took a shower and changed into dry military uniforms. Everyone gathered under Qin Yuan's dormitory.

"I wonder how the results of this competition are?" Geng Hu said worriedly.

"That's right! Everyone was focused on the game and didn't pay attention to the score."

Compared to participating in the competition, the process of waiting for the results of the competition was even more painful.

"In my opinion...Our results won't be bad, and...Maybe it will be a surprising result."

Zhou Qing said confidently.

"Instructor Zhou, how did you know? On the way back, no one revealed the results of the competition to us."

Geng Hu questioned Zhou Qing.

"Geng Hu, do you still remember the person in charge who sent us back?" Zhou Qing asked Geng Hu.

"I remember!"

The others nodded in agreement. At this moment, Qin Yuan looked at Zhou Qing curiously.

Everyone was looking forward to hearing Zhou Qing's opinion.

"Before we got into the car, when he came to pick us up, I paid special attention to his eyes."

"I don't know." Zhou Qingxuan described it mysteriously. "The way he looks at us is more or less filled with envy, jealousy, and hatred."

"But I'm going to make a bold judgment. Our results for this competition will definitely be good, and very outstanding." Zhou Qing said confidently. However, Qin Yuan and the others did not buy it, especially Gong Jian.

"Then it's possible that our poor results shocked him!"

“It seems like you don’t know anything about this match,” Zhou Qing said as he looked at Gong Jian meaningfully.

“Although we’re the special forces that were invited to participate, they only wanted us to be cannon fodder at the beginning. Didn’t you notice that every time we do the competition, we’re faced with difficulties?”

“That’s right!” At this moment, Qin Yuan interrupted.

“I thought I was the only one who noticed, I didn’t expect Instructor Zhou to catch it as well.”

“Everyone, learn your insight from Instructor Zhou.”

Everyone nodded in understanding. Seeing this, Qin Yuan continued, “Yes! The organizers never thought of giving us an easy time from the beginning.”

“From the bad landing conditions at the beginning to the firepower interference encountered during the competition, it was obviously twice as much as the other teams.”

When everyone heard this, their faces reflected on the scene of the competition.

“Perhaps they deliberately arranged for us to be cannon fodder this time. It’s just that our outstanding performance on the way has deeply shocked them. “Right now, in their eyes, it might be the dark horse that surprised everyone.”

“Instructor Zhou was right about this! If our results are bad, that person’s expression will definitely be relaxed and happy, and there will be a look of schadenfreude.”

“Furthermore, I’ve been keeping an eye on all the participating teams in this competition. I dare say that if Battle wolf is ranked second, no one will dare to rank first!”

Everyone looked at Qin Yuan’s determined gaze and seemed to have a plan in mind.

That’s right! Battle wolf’s invincible strength, coupled with a god-tier captain like Qin Yuan, was naturally invincible. There was no need to belittle his own strength.

“However...” Zhou Qing changed the topic. “Captain Qin! Can we really get first place?”

“I’ve never gotten first place in all the assessments since I joined the army!” Zhou Qing joked.

“If I can win an award in such an international competition, I’ll be so happy!”

“We were the first to jump,” Geng Hu said. “We landed safely at the fastest speed.”

“When we finished the last subject, there were still many people struggling.”

“In other words, even if the other teams are ahead of us in a few subjects, we have the upper hand and are the first to complete all the competitions.” “I dare say that we will definitely get first place in the competition!”

“This is a good reason!” Qin Yuan agreed.

“Geng Huts analysis is very accurate.”

Everyone continued chatting for a while. Seeing that it was getting late, they went back to their dormitories to rest.

the next day

The International Special Forces Competition awards ceremony officially began.

Other than the participants who were injured in the competition and needed to be hospitalized, everyone else had arrived.

The ceremony began, and the organizers announced the results of the competition.

There were a total of ten subjects in this competition.

Battle wolf had obtained a total of seven first places, five of which broke the historical record, and two of which were second places.

With an absolute advantage in points, they crushed all the other teams and ranked first in total. They became famous in this International Special Forces Competition!

At this moment, they had truly swept away the participating teams from the European and American countries.

Qin Yuan and the others faced the mockery of the other participating countries, but in the end, they became the biggest dark horse in this competition with their strength advantage.

In the end, they received applause and respect for their strength. They let everyone see the military strength of the Chinese soldiers, as well as the strength and confidence that came from Battle wolf.

Before the start of the competition, the organizer had told Battle wolf to act according to their capabilities. However, he couldn't help but admire Battle wolf's results..

Chapter 524 - 524: Returning with Honor (Two s Combined)

“China's Battle wolf created the history of the International Special Forces Competition.”

When this was announced, the commanders were even more ecstatic and prepared a reception ceremony to wait for the heroes to return with honor.

With the glow of the victor, Qin Yuan led the team onto the stage to receive the rewards and glory that belonged to the first place.

Not long after the ceremony ended, Qin Yuan brought everyone on the plane back to the motherland.

On the way, Qin Yuan received a new order. Because of their outstanding performance this time, they had made a great contribution.

When Qin Yuan brought everyone back to Battle wolf Base and the good news spread throughout the base.

He had represented China in the International Special Forces Competition and successfully won first place.

The officers were automatically promoted to a higher rank, while the soldiers and officers were directly promoted to the rank of second lieutenant. Everyone was awarded a second-class medal of merit and entered into the national talent pool.

One had to know that this talent pool was much more valuable than the Southeast Military Region.

After all, if you didn't make a significant contribution to the country, no matter how outstanding you were, you wouldn't be qualified to be included in the national talent pool.

At this moment, Qin Yuan was already wearing the rank of lieutenant colonel. He had the proper treatment of a battalion commander. This trip to C Nation, Battle wolf was awesome.

Of course, the rest of the Battle wolf were promoted to the rank of central defender. It could be said that everyone had returned with their wishes fulfilled.

After returning to Battle wolf, they were naturally not done yet, because the rewards from the military region had not arrived yet.

No matter what, Qin Yuan was already a member of the Southeast Military Region. The higher-ups had already rewarded him, so it was their turn.

This time, good heavens, it was not simple!

The person who gave Qin Yuan the reward was Chief Gao ShiWei. He brought the Chief of the National Security Department and the little red booklet in his hand.

As she walked over, she handed it to Qin Yuan. Qin Yuan took it and was stunned!

"Gun license?" Qin Yuan suddenly could not believe that this scene was real.

He pinched himself hard. The intense pain told him that everything was real. It was the glory and privilege that he had exchanged his life for.

One had to know that only true high-level leaders were qualified to carry guns. Those with less experience would not be able to enjoy such treatment.

Qin Yuan really did not expect that he would be given a gun license after winning an international special forces competition.

Originally, he thought that after winning the championship, he would at most be promoted and take a long vacation.

Because of this, Qin Yuan understood how important competitive competitions were to a soldier.

"That's right!"

‘Qin Yuan, this is the honor that you exchanged your life for. You deserve to be assigned a gun.’ Gao Shiwei explained.

“Because your account authority has been upgraded to our level, the approval process for this gun license has already been completed with the organization before you came back.”

“Because your participation in the International Special Forces Competition has a huge impact on us. We have already received updated information on the peace-keeping mission. Whether you want to go and support us will depend on the arrangements later.”

“In order to ensure your safety to a greater extent, we decided to give you the right to carry a gun after a meeting.”

With such a good result, they had undoubtedly pushed Battle wolf forward by another big step.

Qin Yuan had already made such a plan. When he found out that he had formed Battle wolf, he had already made plans to participate in various actual battles in the future.

Such a situation would happen in every country. Peacekeepers had always only selected the best talents to go.

Therefore, Qin Yuan calmly took the gun license.

Gao Shiwei waved his hand behind him. The Bureau Chief’s personal guard quickly ran over and handed an exquisite gift box to Qin Yuan. “This is specially prepared for you. Open it and take a look!” “Your serial number is in here. It’s all registered.”

“Yes, sir!”

Qin Yuan slowly opened the box and found a brand new pistol inside. It was loaded with bullets.

After a simple confirmation, Qin Yuan put away his ID and gun.

However...In front of Gao Shiwei, Qin Yuan asked a question that he had been thinking about since he returned to Battle wolf.

“Chief, I’m already a lieutenant colonel in the Battle Wolf Squadron, shouldn’t

“Hahaha...

At this moment, Gao ShiWei burst into laughter.

“Even so,” Gao Shiwei explained with a smile,” this is not a real combat-level special force. For now, it’s not a problem for you to be promoted to a regiment-level officer.”

“I understand what you mean, but the organization has clear rules. This is not allowed to cross the line.” “What if he really is a regimental officer?” “Is there a turning point?”

Qin Yuan couldn’t care less and asked.

Gao Shiwei's face suddenly darkened as he replied coldly, "Then we'll talk about it in the future."

Qin Yuan, who was good at observing people's expressions, instantly understood what Gao Shiwei meant and did not continue asking.

"Alright then!"

"Let's go! Let's go to the training ground to see the others!" Gao Shiwei suddenly changed the topic.

As soon as Chief Gao finished speaking, he strode towards the training ground. Qin Yuan hurriedly followed behind.

After a day of rest, Qin Yuan and the others quickly revived and returned to their peak condition.

In the information command center.

They saw Qin Yuan, who was carrying the rank of lieutenant colonel on his shoulder, walk in with a mighty aura.

"Where's Captain Long?"

Qin Yuan stared at the big screen and said directly.

"I brought them to train CbQ." Chen Guowei replied casually.

"How is their progress now? Have you improved?"

Qin Yuan looked at the big screen silently and continued to ask, "Bring out CbQ's training room."

"Yes, sir!"

"Yes!" the technician beside him replied. After a series of operations, the big screen showed Geng Hu and the others training.

"They've gradually matured. They've been practicing with Iron Fist almost once a week for the past month."

"In addition to Long Xiaoyun's strict teachings, their combat thinking in the face of large-scale combat units is already very impressive.

Chen Guowei explained.

"Yes!"

Qin Yuan nodded in satisfaction. He looked at the figures of Geng Hu and the others on the big screen and said, "Looking at their matching and various reactions, we can see that their improvement this time is very impressive."

Seeing such results, Qin Yuan's heart relaxed. It seemed that these guys had really grown up.

Seeing that Qin Yuan and Chen Guowei had ended their conversation, Zhou Qing came up and said to Qin Yuan, "Captain Qin!" The enlistment work has already begun this year. Do you have any ideas?"

Qin Yuan naturally knew Zhou Qing's intention.

"Of course! We have to keep a close eye on the recruitment this time. We can't always let Old A pick people before us."

"We only have the Southeast Military Region and the South China Sea. We must firmly grasp these two regions. It's a huge loss for us if Old A poaches a talent away."

"When the time comes, we'll organize the information of the recruits into big data. We'll have a better idea in advance, and we'll be able to target them on the day of recruitment."

"I'll connect the information in advance!" Zhou Qing laughed.

"That's good. We must be flawless. As long as we record their information in, we can keep track of their situation at all times. We won't miss out on any outstanding talent."

Qin Yuan instructed clearly.

The main reason was that Qin Yuan wanted to attract more different types of talents for Battle Wolf, so he had to make preparations in advance. He used all kinds of explanations to make it sound reasonable.

"Alright, I'll definitely treat this matter with caution." Zhou Qing replied.

"You've really done your preparations in advance. Ordinary people really can't beat you."

Qin Yuan only smiled knowingly after hearing that..

Chapter 525 - 525: New Blood of Battle Wolf

In the blink of an eye, the day for the new recruits to join the army arrived.

In a certain city...

A tall and sunny boy signed his name.

"Those who have signed, line up over there to prepare for the physical examination!" The person in charge of registration said.

"Alright!"

The boy turned around and left to line up at the physical examination window.

Soon, after a few people passed by, a slightly thin boy signed his name. The boarding staff said to him, "Line up over there. It's the medical examination window."

"Alright!"

Then, he turned around and went to line up.

In another city, a well-built man was holding his 300 poems of the Song Dynasty. He was looking at them as he queued up, waiting for the physical examination.

A week later...

Those who had signed up to join the army and met the requirements were sent out by the military to receive the recruits. The recruits from all over the country were brought to the new recruits' companies.

A new recruit called He Chenguang began to accept the baptism of the army. At the same time, everyone's file was moved into the army with them.

Battle Wolf Base...

Company Leader's office.

Qin Yuan was focused on the recruit database.

After careful observation, he found that a few people's names were specially marked.

They were He Chenguang, Huang Yanbing, and Liu Sanniu. Qin Yuan was puzzled as to why these people were specially marked.

He was really puzzled. Just as he was frowning, Qin Yuan made a new discovery while browsing the roster.

"Lin Muze?"

Qin Yuan had an idea. Wasn't this the protagonist who fell in love with the special forces? This was really interesting.

Perhaps in order to make himself more certain, Qin Yuan began to subconsciously search in the recruit database.

Tian Liang and Luo Yong were accurately searched out by him, but they were both recruits who had just joined the army this year.

Qin Yuan was overjoyed.

At this moment, he was both sure and excited. After all, the more chaotic this world was, the more characters there were.

This was a step further for his dream of leading Battle wolf and killing Old A.

The more Qin Yuan thought about it, the more beautiful it became. He immediately marked Lin Muze, Tian Liang, and Luo Yong.

At this moment, Qin Yuan looked at Long Xiaoyun.

"Captain Long, when will you reach the promotion limit?"

"Next year," Long Xiaoyun thought for a moment and said with pursed lips.

If it was before Battle wolf came, Long Xiaoyun might not be able to figure it out. After all, a promotion to the colonel level was a difficult hurdle to overcome.

However, after entering Battle wolf, her journey had been smooth sailing and she had made countless contributions. Long Xiaoyun naturally didn't have any concerns in this regard.

At the very least, he would definitely be able to enter the colonel level. Once a unit like this absorbed you, it could basically be said that your future was boundless.

"So fast!" Chen Guowei, who had overheard Long Xiaoyun's words, suddenly interrupted. Chen Guowei curled his lips.

His expression of envy and jealousy was really sour. He had just been promoted to captain, and it was still early for his next promotion.

Qin Yuan was already a lieutenant colonel, and Long Xiaoyun would be promoted next year.

Everyone in Battle wolf Base was getting promoted. Soon, he was the only one left in the leadership of Battle wolf Base who was still stuck at the captain rank.

"Looking at you, it seems like you can't wait to make a contribution." Qin Yuan, who was watching the show from the side, did not mind provoking him. "Then why don't you go on the next peace-keeping mission?"

"That's exactly what I want! When can I go on missions? Captain Qin..." Chen Guowei immediately replied.

"With my skills, I can definitely fight ten of them at once!"

Chen Guowei sounded very confident.

"In your dreams! You can go just because you want to?" Qin Yuan immediately retorted, "That's without the approval of the organization. Do you really think it's a game?"

If Chen Guowei had not developed ankylosing spine disease after birth, Qin Yuan might have taken his wish into consideration.

However, for the sake of Chen Guowei's health, he had to take care of everything. He couldn't let him take risks and joke about his own health and life.

No matter how much he yearned for it, it was impossible for him to achieve it.

Therefore, Chen Guowei's way out was to work hard in the army and slowly endure until the promotion period arrived.

"That's a pity. Why would the organization agree to let me participate in peace-keeping?"

Chen Guowei said dejectedly.

"What are you panicking for? You're helping us stabilize the rear of the base.

That's a kind of sacrifice. It's a manifestation of another way of fighting."

Qin Yuan walked over and patted him on the shoulder.”It’s just a few more years. The opportunity to advance will come soon!”

“Yes, that’s true! You will fight bravely at the front line, and I will guard a base for you at the back.” Chen Guowei said firmly.

Southeast Military Region.

A group of senior leaders gathered in the conference room, waiting for the most senior leader to speak.

“Battle wolf has revealed his face this time. Let us take a good look at it ourselves.” An old chief who looked to be in his sixties said.

“Bureau Chief, you mean to let our troops experience the glory of Battle wolf?” The guard at the side immediately guessed the Bureau Chief’s thoughts.

After all, the guards had followed the Bureau Chief for many years, so they naturally understood his temperament the best.

“Yes! That’s right, I’ve always wanted to see this group of young people who have surpassed their masters.”

“The next annual exercise should be bigger. Let Battle wolf participate. It would be best if we can achieve unexpected results..”

Chapter 526 - 526: New Blood of Battle Wolf (2)

The Bureau Chief let out a hearty laugh after saying that.

Then, the Bureau Chief turned to look at Gao Shiwei. “Battle wolf is currently under your charge. You will be the host for the next show. I want to see a different atmosphere for the show!”

“Yes, sir!”

Gao Shiwei nodded. He started to think about how to make Battle wolf amaze everyone in the next drill and shock the general.

Moreover, the scale would be larger than before, and new elements would be added. In other words, this time, they had to be innovative and break the old drill routine of the past.

Moreover, it might not be as simple as a confrontation between two armies. Two armies facing each other? At this moment, Gao Shiwei seemed to have a new idea.

Perhaps, if the exercise was conducted in another way, would it make the entire exercise even more unpredictable?

At the same time, it was a good opportunity to test the training of the combat units below. If they encountered such a situation in actual combat, how would they deal with it?

He wanted to see if they could react quickly and make a reasonable and efficient response.

Since the Bureau Chief had requested it, then the next drill would become a new storm.

At this moment, the Bureau Chief seemed to have thought of something. He said to Bureau Chief Gao Shiwei, "Oh right, you have to call the Wolf Fang Special Forces to participate in this exercise."

"Yes, sir!"

Gao Shiwei actually understood the intention of the Bureau Chief's arrangement. It was nothing more than wanting to see Wolf Fang's strength.

Battle wolf Base...

Qin Yuan's selection of new recruits was progressing like wildfire.

Suddenly, the phone rang in the office. Chen Guowei strode forward to pick it up. "Hello! I'm Chen Guowei."

"Xiao Chen, is Xiao Qin here?"

Section Chief Zhang's voice came from the phone.

"So it's you, Section Chief Zhang!" When Chen Guowei heard that it was Section Chief Zhang, a smile immediately appeared on his face, and his tone softened a lot.

"Captain! Section Chief Zhang is looking for you! Come and answer the phone." Chen Guowei said to Qin Yuan.

"Coming!" Qin Yuan answered as he walked over to pick up the phone. Qin Yuan, who had quickly sorted out his emotions, put on a calm expression.

"Qin Yuan here."

"Xiao Qin, I heard that you've already connected the recruit information port?"

"Yes, Section Chief Zhang." Qin Yuan said calmly, "I'm trying to prevent the loss of talents. That's why I'm considering selecting talents from the source." Qin Yuan explained his reason firmly.

Section Chief Zhang understood what Qin Yuan meant. He did not want Old A to poach the talent first.

"You know how to prepare for a rainy day. You're very far-sighted. You did a good job!"

"Thank you for your praise, Section Chief Zhang!" Qin Yuan replied. "Alright! It's time to get down to business"

"This time, the higher-ups have sent a notice. The chief has specifically requested for Battle wolf to participate in the next annual military exercise."

At this moment, Qin Yuan had a puzzled look on his face."Section Chief Zhang, isn't there still half a year before the annual exercise begins?"

"Why are you notified so early? It doesn't make sense."

“There must be a reason for the long notice. Send me an email later. It’s for the units participating in the next annual exercise.” Section Chief Zhang explained seriously.

“Before the annual exercise begins, you must familiarize yourself with the information of all the units on the list, including their weapons and equipment.”

Qin Yuan saw that Section Chief Zhang’s explanation was so serious. He immediately understood and did not have too many questions.

“Yes!”

“The leaders of the combat department will contact you later. In the name of the combat department, they will go down to inspect the participating units on the list. Remember to pay more attention when the time comes.”

“Yes, sir!”

Not long after hanging up, the relevant documents were sent over. “Such a grand exercise?”

Qin Yuan carefully looked at the units participating in this exercise on the list. Wasn’t this a proper confrontation between two armies?

This was exciting, and it immediately aroused Qin Yuan’s fighting spirit.

In Qin Yuan’s memory, there had never been such a large-scale exercise.

This time, they had finally opened their eyes. They were fortunate enough to participate, which made Qin Yuan and the others feel extremely proud.

“What does Section Chief Zhang mean?”

Chen Guowei stood beside Qin Yuan and said.

“The list of participants for the next drill.”

“It’s already decided so early?” Long Xiaoyun took the list and said carefully.

“Isn’t this too early? There’s still half a year left.”

“Who knows what the higher-ups are up to? We just need to execute it.” Chen Guowei said.

Qin Yuan placed the document code on the table and quickly opened the system. He began to use the scanning system to understand the information of these participating units one by one.

Because he didn’t know the order in which the leaders of the operations department would go to inspect, he had to use the memory system to memorize the basic information of each unit.

This was to lay a good foundation for a better understanding in the future.

A week later...

The leader who followed the leader of the combat company around to inspect the work had completely broadened Qin Yuan’s horizons.

Let's put it this way.

In other words, while you clearly know that there are various units in the army, there are many things that you know but have never seen before.

When these situations were laid bare in front of you, you would be able to more intuitively and profoundly experience the super tolerance of the army's diverse nature.

There were motorized infantry, mechanized infantry, armored soldiers, tanks, and so on.

All kinds of weapons and equipment dazzled Qin Yuan. The wide variety of categories really gave him a headache.

If it were anyone else, they definitely wouldn't be able to take on such a heavy inspection mission.

Only Qin Yuan, this was a piece of cake for him. Then, Qin Yuan immediately activated the scanning system and stored all the important information into his memory.

However, at this time, he found that Long Xiaoyun's memory of these things was very fast. Her memory was simply amazing.

That was not strange. Long Xiaoyun was once a top student, so it was natural for her to remember these things.

Even though he had such a capable helper to help him, Qin Yuan did not dare to be negligent.

After all, it was not difficult to save that the higher-ups had other intentions for assigning him this mission. If he did not do it well, it would be very difficult to explain if there were any problems in the future.

Therefore, every time Qin Yuan returned with the leaders of the operations department, he would immediately return to his office and crazily analyze the information he had collected today.

From then on, Qin Yuan's daily life fell into a simple and profound life.

At the very least, before he was given any other missions, he spent most of his time studying the various information of the participating units.

As for Battle Wolf, he carried out his training and work as usual.

Just like that, three months passed quickly. Qin Yuan and the leaders of the operations department completed the inspection of all the units that were required to be inspected.

Similarly, three months had passed, and the life of the new recruits had come to an end. The new recruits from all sides had begun the assignment of new recruits to the next company.

He Chenguang, Huang Yanbing, Liu Sanniu, Lin Muze, Tian Liang, Luo Yong, and the others had finished their lives as recruits.

He was assigned to the unit that he should have been assigned to.

Qin Yuan was paying attention to these people at all times. When they were divided into companies, their information would be updated immediately.

Qin Yuan realized that these people were not on the list of units participating in the exercise.

The main reason was that their units were not qualified to participate in the exercise.

However, after a while, when the name list refreshed, he clearly saw He Chenguang, Huang Yanbing, and Liu Sanniu.

Later, Qin Yuan found out that these people were special talents hand -picked by Chief Gao Shiwei. After all, He Chenguang was a sniper genius.

Three spears and one hole were not just for show. They were all recorded in history.

Qin Yuan was looking forward to this fight between immortals. Everyone was the strongest among the strongest. If they were all gathered together, how interesting would it be?

Just as Qin Yuan was engrossed in his thoughts, Chen Guowei came over and patted his shoulder..

Chapter 527 - 527: Black Panther!

“What are you thinking about?”

“So entranced?”

Qin Yuan suddenly reacted and said, “Oh, it’s nothing. I was just thinking about something. I was suddenly a little engrossed in it.”

“What is it that can make our captain so fascinated?”

“Tell me about it?”

After Qin Yuan gave Chen Guowei a look, he turned around and walked straight to the administrative building.

“Where are you going?” Chen Guowei shouted.

“Command center!”

Qin Yuan waved his hand behind him without looking back.

Information command center...

Long Xiaoyun was busy working in front of various equipment and computers in the command center. Qin Yuan came here this time to have a good chat with her.

“Captain Long, I’ve thought it through. After this annual exercise, we’ll start recruiting.”

Qin Yuan calmly expressed his thoughts.

“Because according to the schedule, Old A’s recruitment will probably start soon.”

“When that time comes, we’ll take advantage of this momentum and recruit the talents we’ve selected in advance to fight the wolves.”

“It just so happens that the new recruits have gone through almost a year of training. We can see that they are improving. The time is just right.”

Seeing that Qin Yuan’s words were reasonable, Long Xiaoyun nodded in agreement.

Eastern Sea City...

In a shop that sold military outdoor products, the name of the shop was Iron Blood Army Soul.

Today, Qin Yuan was on leave to go shopping. He passed by this shop in plain clothes and walked in.

He looked around aimlessly, and his eyes fell on a pair of military boots in the corner. "Do you want to know more about the boots?" asked the shop owner, Lin Xiaodong.

"That's right! I want to choose a pair of shoes for outdoor cross-country use another day." Qin Yuan replied.

"Shop owner, do you have any good recommendations?"

Lin Xiaodong seemed to understand what Qin Yuan meant. He said, "Then you have great taste. The shoes in front of you are the best in terms of firmness and comfort."

"You might not understand, but although the army has special daily clothing and equipment that are cost-effective and durable, the comfort level is usually greatly reduced."

"When I was in the army, I often went out to buy some military boots, tactical vests, belts, and other consumables." "Oh! You were a soldier?"

Qin Yuan pretended to be curious and asked.

"Yes! But it's not the People's Liberation Army." Lin Xiaodong sounded a little depressed as he said, "I was a soldier overseas!"

"You're Chinese but you went abroad to be a soldier?" Qin Yuan pretended to ask.

For a moment, Lin Xiaodong was silent. At this moment, Qin Yuan slowly walked over and patted his shoulder, breaking the silence.

"It's rare to see a mercenary who hasn't crossed the red line of China's laws!"

Since he wanted to recruit Lin Xiaodong into Battle Wolf, he naturally had to deal with his worries.

Lin Xiaodong wasn't the only one.

When Lin Xiaodong heard Qin Yuan's words, his expression suddenly changed, and his entire person immediately became alert and tense.

But he immediately adjusted his emotions and said nonchalantly, "Brother, I don't understand what you're saying."

"If you're here to buy goods, I'm very happy to be your shopping guide."

Of course, Qin Yuan understood the meaning behind his words. Lin Xiaodong was beginning to reject and wanted to chase him away.

"You can buy the boots later!" Qin Yuan looked at Lin Xiaodong's puzzled eyes and said.

At this time, Lin Xiaodong's nerves were even more tense, as if he was ready to counterattack at any time to deal with an unexpected situation.

After all, he had just returned to the country and settled down. He just wanted to live a peaceful life as an ordinary person and did not want to be involved in those dark whirlpools again.

"Has Black Panther been looking for you recently?"

Qin Yuan walked to the corner and fiddled with his boots as he asked Lin Xiaodong casually.

At this moment, Lin Xiaodong was completely flustered. He was really prepared to sneak attack Qin Yuan from behind.

"Is it really a coincidence that I appeared in front of you without any warning? Qin Yuan said without turning his head.

"You used to be a professional sniper. Have you lost your ability to predict?"

"If I didn't come prepared, why do you think I'm here? Is it really because I like your boots?"

Qin Yuan's continuous questions made Lin Xiaodong's face turn green with fear.

"Why do you know so much about me?"

Of course, how could he not panic in front of a stranger who had thoroughly investigated his background?

This was not a good thing for a mercenary! "It doesn't matter who I am, but I can give you a new life."

Qin Yuan looked around the shop and said.

"Tell me!" Lin Xiaodong said after taking a deep breath, as if he was trying to force himself to calm down.

"Tell me, what do you need me to do for you..

"If Black Panther enters the country and comes to find you for a new mission, call me immediately!"

As he spoke, Qin Yuan took out a neatly folded note from his pocket and casually placed it on the bar counter beside him.

"You should be glad that you haven't accepted the mission to attack our country. Otherwise..."

"I won't stand here and tell you this calmly.."

Chapter 528 - 528: Black Panther!

"What makes you think I'll listen to you?"

"I didn't violate any ethics. I just want to live an ordinary life now." Lin Xiaodong stubbornly replied to Qin Yuan.

At this moment, ten thousand ways to get rid of Qin Yuan flashed through his mind, but in the end, he gave up helplessly.

First of all, he still did not know who Qin Yuan was.

Secondly, since his appearance was not a coincidence, and he knew his situation like the back of his hand. Perhaps his personal history had already been turned upside down.

Lin Xiaodong was very worried. If he acted rashly and failed, he was afraid that he would continue to live a life of fear for the rest of his life.

This went against his original intention of washing his hands of the industry.

"I know you want to live a peaceful and comfortable life as an ordinary person." Qin Yuan shrugged and started chatting with him.

"But for a professional mercenary, this is simply a luxury!"

"That's why your wish will only come true if you truly erase Black Panther's traces from your life."

Qin Yuan said logically. Lin Xiaodong, who was at the side, lowered his head and pondered over every word Qin Yuan said.

"It's not difficult to accomplish this task. The difficulty lies in whether you still harbor the feelings of gratitude from the past."

One had to admire Qin Yuan's ability to persuade people. With just a few words, he could speak into the deepest part of Lin Xiaodong's heart.

Lin Xiaodong was shocked that Qin Yuan had investigated his background in such detail, but at the same time, he agreed with Qin Yuan's words.

Not only is it the gratitude during difficult times, but it's also the camaraderie forged through life-and-death struggles during various missions.

Qin Yuan continued, "I'm sure no one knows better than you what Black Panther has been doing all these years. In addition, you're his capable general."

"He has 100% trust in you. If you don't grasp this opportunity well, it will be difficult for you to have such a rare opportunity to make a move in the future."

"I've basically said all I can about this matter. I hope you can think it through.

I've given you the chance. The rest is up to you to make your own choice."

"In my eyes, there are only national interests and the people." Qin Yuan said as he approached Lin Xiaodong.

"Your so-called life and death friend is nothing!"

“I’ll say this again; the right to choose is given to you. Do you want to live a comfortable life? You can decide for yourself if you want to continue being a cold-blooded killer!”

Qin Yuan suddenly reached out his hand.

Lin Xiaodong subconsciously waved his arm, wanting to block Qin Yuan’s hand.

However, Qin Yuan easily dodged it and patted Lin Xiaodong’s shoulder.

He grinned. “What are you nervous about? I just want to have a good chat with you.”

“This is the first time we’ve met. Don’t tell me you want to spar with me?”

Qin Yuan’s relaxed smile sent a chill down Lin Xiaodong’s spine. He was even more afraid of this man with unfathomable strength in front of him.

Even Black Panther, who was a level stronger than him, could not break through his counterattack ability as easily as Qin Yuan.

“I understand!” Lin Xiaodong tried his best to squeeze out a smile as he replied to Qin Yuan.

Qin Yuan nodded in satisfaction. Not bad! It seemed that he had done his homework well this time. He did not come here in vain.

Lin Xiaodong watched Qin Yuan’s figure gradually disappear after he left. He turned around and walked back to the shop. He sat weakly on the sofa for a long time, unable to come back to his senses. He still could not believe that what had just happened was true.

He deeply felt the pressure that Qin Yuan gave him. If he really confronted Qin Yuan on the battlefield, he might not be Qin Yuan’s match.

At the same time, he began to weigh the pros and cons.

Gao Shiwei was busy preparing the final plan for the exercise. Everything had been decided, and now he was just missing an opponent.

Because Gao Shiwei was preparing to personally participate in the exercise, he naturally had to find an equal opponent.

After a round of selection, Gao Shiwei finally decided to find Liu Jianshe. “How is it? Let’s participate in the exercise together!”

Liu Jianshe looked down at Gao Shiwei, who seemed to have come to provoke him. He was unwilling to be at a disadvantage.

“It just so happens that I don’t have anything urgent to do at the moment!” “Alright then! It’s settled then.” Gao Shiwei said excitedly.

“I’ll go and ask the leader later. You’ll be the one in charge of the blue and I’ll be the one in charge of the red!”

“No, I can’t! I’ll be the red one, and you’ll be the blue one!” Liu Jianshe emphasized.

Since the other party was the provocateur, he didn't hesitate to let the attacking side go.

"I'm going to move Battle wolf to the blue side. Are you sure you want to be red?" Gao Shiwei deliberately mentioned Battle wolf.

"Then if Battle wolf is blue, won't Wolf Fang be red?" Liu Jianshe was confused.

The monk was confused.

Gao Shiwei immediately went up to explain, "Actually, this is my arrangement for them...'

"Oh? You can do it this way?"

Liu Jianshe asked in surprise.

"It seems like this exercise is different from the past. Perhaps it will usher in a new era. "

"According to what you said, this exercise is full of suspense! This is really exciting."

"That's right!" Gao Shiwei patted his big belly and said.

"But when the time comes, we have to pretend that we don't know anything.

We can't let the people below see through us."

"Alright! This idea was not bad! It is an unpredictable test for either side."

Liu Jianshe nodded repeatedly! He had to admit that Gao Shiwei's unique idea was very novel!

It seemed that this exercise was really interesting! It was really filled with anticipation!

Not long after, Gao Shiwei reported the deployment before the exercise to his superiors.

Because after the exercise began, all the variables had a certain degree of flexibility. There was no fixed routine, so the red and blue teams naturally tested their respective adaptability.

No one could guarantee that everything would proceed smoothly according to the initial outline of the exercise.

After the higher-ups saw it, they agreed with Gao Shiwei's deployment plan very much. They felt that it was very suitable for the actual combat environment.

Battle Wolf Base...

Qin Yuan had gone out to look for Lin Xiaodong previously. He had only used the weekend shift as an excuse to go out for a walk, and he had successfully persuaded half of this troublemaker to defect.

As for what Lin Xiaodong was thinking, he had to figure it out before deciding. It would be best if he made a mutually beneficial choice.

If Lin Xiaodong deliberately covered up for him, then Qin Yuan would not let such a tumor continue to do evil in China.

Qin Yuan was very clear that Black Panther had been extremely active recently and would soon appear in China.

This was a once-in-a-lifetime opportunity. He had already planned it out. This time, he definitely could not let him leave the border of China safely.

Black Panther must be brought to justice.

“Captain! The leader is calling!”

Qin Yuan, who was on the training ground, was staring at the players training when he suddenly heard Chen Guowei’s voice from his earpiece.

“Alright, transfer him over!”

It had to be said that the modern military command system was really convenient, but it was all thanks to the innovation and development of the technical personnel in the army.

With a beep, the call was successfully connected.

“Leader Kang!” Qin Yuan greeted him directly. I’m Qin Yuan!”

‘Qin Yuan, I wanted to ask you if Battle wolf will participate in this annual exercise?’
Leader Kang went straight to the point.

Qin Yuan had an idea. He blinked and replied, “I’m not participating!”

Then, he pretended to be unaware and asked, “Is your Wolf Fang going to participate?”

“Yes, I am!”

“This year, the higher-ups have issued an order! Wolf Fang must join this annual exercise!” Leader Kang heaved a sigh of relief when he heard that Battle wolf was not participating.

The main reason was that Battle wolf did not participate, so their Wolf Fang’s chances of winning would be much higher! After all, if they had a powerful opponent like Battle wolf, it would be a fatal threat to everyone.

Wolf Fang didn’t want to become cannon fodder for Battle wolf on the drill ground and be crushed to dust. If they really fought, Leader Kang really didn’t know what to do..

Chapter 529: Drill Begins

As for Chief Kang’s inquiry of the exercise, Qin Yuan had been instructed to keep the entire matter strictly confidential from the beginning and not reveal anything to the outside world.

Therefore, Qin Yuan could only play dumb with him on the other end of the phone and pretend that he did not know anything.

The next morning, Qin Yuan received the notice of the exercise. It was neither the blue team nor the red team. Instead, they were participating in the exercise as a third party.

“A three-way battle?”

“How far will they go?”

Qin Yuan was speechless.

‘We have to face two armies at once. How are we going to fight?’ Chen Guowei was confused.

‘Captain Long, what do you think of this?’ Qin Yuan looked at Long Xiaoyun.

‘Do you mean to say that we have to rely on our system?’ Long Xiaoyun, who was standing at the side, had an epiphany.

‘Of course!’ Qin Yuan said with certainty.

‘If we don’t do this, it will be difficult for us to cause any waves if we throw all our forces into it.’

‘If we rely on the Beidou system and strike accurately, this is the main direction of our participation in this exercise.’

At this moment, Chen Guowei interjected, as if opening up a train of thought, saying, ‘If we rely on the system and combine it with our heavy artillery units...’

‘Wouldn’t that mean that we’ll be massacring everyone?’

‘That’s too exciting!’

‘This time, we’ll split up into two teams. The red and blue teams will each be responsible for one side. We have to balance the attack power. We can’t just target one side.’ Long Xiaoyun suggested.

‘I agree!’ Qin Yuan nodded and continued, ‘You lead a team to infiltrate the Red Team’s territory. I’ll lead a team to check on the Blue Team.’

‘Okay!’

As for the arrangements made by Bureau Chief Gao Shiwei, Qin Yuan could only silently apologize to the Bureau Chief.

‘Alright! It’s settled then!’

Qin Yuan led one team, and Long Xiaoyun led another team.

‘Then, should we decide on the command center now?’

Chen Guowei pointed at the big screen and said. On it was a complete map of the exercise area.

‘No need.’ Qin Yuan shook his head.

‘Why?’

‘There’s no command center for the drill. How is that possible?’ Long Xiaoyun and Chen Guowei looked at Qin Yuan in confusion.

“We can’t compare to them.” Qin Yuan shook his head. “No matter which side it is, they have a lot of people. Even if the highest command is destroyed, the rest of the people can fight independently.”

“First of all, we don’t have the advantage in numbers. If our command center is discovered first, it will be a fatal blow.”

“So I have another idea. We can make the command center mobile.”

“Mobile? On the armored vehicle?” Chen Guowei said.

“No!” Qin Yuan said.

“I plan to arrange it on the helicopter.”

“A helicopter?” The others looked doubtful.

He had never heard of a command center being arranged on a helicopter.

“That’s right!” Qin Yuan continued.

“Let’s say our command center is on a helicopter and becomes a mobile command center.”

“This way, not only will the command center be more secretive, but it will also be safer. It will be more convenient for remote control than having it in the car.”

“Yes! That makes sense.” Chen Guowei agreed.

“This way, we don’t have to worry about the armored vehicle with the command center accidentally plunging into the enemy’s territory.” Long Xiaoyun added.

“Yes! Also, they definitely wouldn’t expect us to arrange for the command center to fly in the sky!” Qin Yuan said with a satisfied smile on his face.

After they reached a consensus on this matter, they continued to discuss some details.

At noon.

Weng weng weng- –

A level one battle warning rang in Battle wolf Base.

The entire base quickly began to move.

Other than the logistics support and guards, the other subsidiary companies were all dispatched.

Long Xiaoyun led the IT staff and the MDT onto a helicopter. After adjusting their equipment, all the teams immediately set off for the exercise area.

At the same time, Qin Yuan and Gong Jian each led their respective team members and headed to the areas where the red and blue teams were involved.

Weng weng weng- –

On the helicopter, Long Xiaoyun began to convey various orders.

“Aerial Company: Send out reconnaissance aircraft and drones immediately. Spread out in the exercise area according to the plan and observe the situation on the ground. The combat aircraft will remain on standby.”

“Distant Fire Company: Try to get as close to the middle of the exercise as possible. After the order is given, you can fire at any coordinate point.”

“Armored Company: You guys follow behind the Farfire Company. Make sure that the Farfire Company has locked onto their shooting range and cover them from behind.”

If there are any new orders, we need to suppress the surrounding area of the Far Fire Company at all times.”

“The airborne company and the heavy firepower company will build a command post to interfere with both the red and blue teams. They can temporarily receive the enemy’s heavy firepower attacks and temporarily avoid the firepower.”

Long Xiaoyun was arranging the mission orders on the helicopter.

“Reconnaissance Company, be responsible for the safety of the armored company...”

Just like that, the orders were quickly passed down, and all the members received the orders and were ready to go.

The subsidiary companies that gradually left the base quickly adjusted their teams according to the orders and headed towards the direction of the exercise

area..

Chapter 530: The Drill Begins

The units participating in the annual exercise in the Southeast Military Region left their respective bases and headed toward the exercise area.

Gao Shiwei and Liu Jianshe took a car and headed to the direction of the command center that they had already set up.

However, what everyone did not expect was...

After Battle wolf entered the training area, an attack was launched. Their target was Chief Kang’s Wolf Fang.

Just as Chief Kang was on his way to the Wolf Fang headquarters, he was ambushed by Battle wolf.

It turned out that a Wolf Fang member had treated this drill as a real battlefield, showing that the explosion of the car had attracted Battle wolf’s attention.

Then, he carried his captain and ran. Finally, he ran to the beach. At one point, he really wanted to jump off the cliff. Fortunately, his teammates quickly arrived and pulled him back.

Perhaps if they were a step later, it would really be too late. It was very likely that it would refresh the history of the Southeast Military Region's exercise.

After all, to be able to treat a drill as a real battle, this person's psychological quality really needed to be strengthened. It was really not a joke. He even thought of jumping off a cliff.

Gao Shiwei was prepared to personally bring Chief Kang to the headquarters at night. When the sky turned dark, he would bring his men and set off.

It was a dark night.

Wolf Fang headquarters.

Pffft!

Suddenly, a blinding white light blocked their vision in the command post. They couldn't see clearly for a while. When they regained their vision, they realized that Chief Kang had disappeared.

Meanwhile, Gao Shiwei quickly returned to the temporary camp with Chief Kang.

When they returned to the Blue Team's territory, a roadblock unexpectedly appeared on the road in front of them. There were two members of the Blue Team who were on guard behind the roadblock.

Boom! Boom! Boom!

Geng Hu drove the jeep on the road, thinking about the direction of the exercise area.

Qin Yuan sat in the front passenger seat and paid attention to the road ahead. At this moment, while he was fiddling with the tactical tablet, he contacted Long Xiaoyun on the communicator.

"Bring up the image of my target within a hundred miles."

"Wait a moment, I'll arrange it immediately!" Long Xiaoyun's crisp voice sounded.

Soon, the screen of Qin Yuan's first stop quickly switched to the surrounding situation with the jeep as the center.

In this wilderness, the jeep's off-road performance was very good. It was agile and shuttled through the complicated road conditions.

In front of Qin Yuan, there was a unit moving forward. There was no doubt that it was Wolf Fang, because the only unit that could take the same route was Wolf Fang.

This was the fastest time that Battle wolf Base had gathered, and they came out quickly. Otherwise, they might have been left far behind by Wolf Fang.

"Wolf Fang?"

Qin Yuan had an idea and thought that this was quite interesting.

Qin Yuan still remembered that if Wolf Fang did not have Lin Muze's protagonist halo this time, they probably would not have been able to cause any trouble in this exercise.

After all, Gao Shiwei knew the strength of Wolf Fang. If they were to fight, they would probably be evenly matched with Battle wolf. They would definitely be a tough nut to crack.

After all, ordinary units were not Wolf Fang's match at all. Moreover, they were a frontline combat unit, and they were ranked in the top three in the Southeast Military Region.

Therefore, from the very beginning, Chief Gao, had first controlled the leader of the Wolf Fang, the Red Team.

After figuring out what was going on, Qin Yuan skillfully operated the tactical tablet. On the page, the best route for the warrior to head to the blue area appeared.

As expected, this was Beidou navigation suitable for military environments. Its functions were more powerful than ordinary navigation.

"This is the place!"

Qin Yuan pointed at a position on the tablet and said. That was the dividing line between the red and blue teams. Then, he handed the tactical tablet to Geng Hu, who was driving. "Let's go to this position first!"

"Yes, sir!"

Geng Hu took the tablet and placed it on the dashboard in front of the driver's seat. He followed the route and quickly headed to the location designated by Qin Yuan.

The route they chose was actually to avoid Wolf Fang and avoid a head-on confrontation on the same path.

Not long after they moved forward, they successfully parted ways with Wolf Fang. They continued to move forward for more than an hour before finally reaching their destination.

Qin Yuan connected the call with Long Xiaoyun again and asked for an update on the surrounding situation.

Looking at the nearby area, Qin Yuan could clearly see that the blue team was less than five kilometers deep. There were already people building temporary camps for disaster relief. "Let's go! Let's sneak over."

Qin Yuan immediately ordered. Geng Hu found a relatively hidden ravine. After they got out of the car, they covered the car with a layer of camouflage net. Then, they used local materials to block the side of the car to disguise the vehicle so that it would not be easily discovered.

After the jeep was hidden, Qin Yuan set off with Geng Hu and Gong Jian.

They carried their weapons and equipment with them. Qin Yuan was still used to using the high-precision sniper rifle from before, while Geng Hu and Gong Jian brought a rifle this time.

Two close-combat interference and one long-range sniper. It was a perfect combination.

In less than half an hour, he easily completed his goal. Because the Blue Army's small team only wanted to disguise themselves as an outpost.

They had been focused on disguising the outpost and had let down their guard. It was only after they had built the outpost that they realized that they were missing three companions.

Panicking, they quickly reported the situation. They unanimously believed that they had been ambushed because they were too close to the red square. However, they searched the surroundings for a long time, but they could not find any traces of the three of them.

After all, other than Bureau Chief Gao, and Liu Jianshe, no one knew that there was a third party participating in this exercise.

This outpost had received orders from the higher-ups to be on high alert at all times. Report immediately if there are any unusual movements.

On Qin Yuan's side, he stuffed the three captured Blue Team warriors into the jeep and changed their clothes and equipment that were marked by the Blue Team for the exercise.

In order to deal with them, he had been busy for half a day.

After Qin Yuan changed his equipment, he continued to set off. They used thick and thin branches as simple roadblocks.

It was already evening. Qin Yuan brought Geng Hu and Gong Jian and hid on the spot. They waited quietly near the nearest road between the red and blue sides.

After the sky turned completely dark, it was about nine o'clock.

Suddenly, they saw a UAZ with its lights off speeding past them, heading straight for the red zone.

Seeing that the sound of the jeep engine gradually disappeared into the night,

Qin Yuan immediately ordered, "Let's go!"

As he spoke, Qin Yuan brought the two of them to set up the roadblock that they had just finished.

"Captain, can we really catch a big fish like this?" Geng Hu asked.

"That's right! You spent a lot of effort to build this roadblock. Don't waste your energy." Gong Jian echoed.

Qin Yuan tidied up the roadblocks as he said clearly, "Since Wolf Fang is here to participate in this exercise, it stands to reason that he will definitely carry out the decapitation operation. The car that has just passed a long time ago might be Wolf Fang's car."

"Did you guys notice? They didn't even dare to turn on their lights. They're probably afraid of attracting the attention of the red team. We're just waiting here."

At this moment, Qin Yuan was very confident.

"What if?" Gong Jian said worriedly.

Qin Yuan did not say anything else. He just smiled and did not say anything.

"The two of you wait here. I'll find another place to ambush."

Qin Yuan observed the surrounding environment and said.

Then, he retreated to the bushes on the other side of the road and took out a grenade used for practice, clutching it tightly in his hand.

Time ticked by. An hour later.

Suddenly, a light shone from afar! At the same time, he heard a faint rumbling

Boom! Boom! Boom!

As the roar of the engine grew louder, they clearly saw a UAZ with its high beam headlights driving over.

“No. 1, there’s a roadblock ahead!” Miao Liang reported.

“Report! There are only two of them.”

At this moment, Gao Shiwei, who was in the back seat of the car, instantly felt that something was wrong. “Something’s wrong. Stop right now!”

Squeak—

With the sound of friction, the jeep stopped not far from the roadblock. “Why wasn’t it there when we came over just now?”

“Miao Liang, quickly get out of the car and see what’s going on.” Gao Shiwei ordered. He had no intention of getting out of the car.

“Yes, sir!”

Miao Liang quickly jumped out of the car and ran to the other side of the barricade, getting closer and closer..
