

## Special Troop 531

### Chapter 531: During the Drill

“Where are you taking me?” Chief Kang, who was wearing a mask, was anxious. He struggled to speak.

“Old Kang, don’t be in a hurry. We just want to invite you over to have a bite or two.” Gao Shiwei did not pretend to be confused and said with a smile.

“Are you sure this is an invitation? This is clearly kidnapping.” Chief Kang said unhappily.

“This... It’s true that this method is a little rough, but I’m doing this so that I can successfully invite you, right?”

Gao Shiwei pretended to be confused.

“Otherwise, why would you be willing to leave with me so easily?”

The two people in the car lowered their voices and bickered with each other. The interior of the car was rustling, and the outside of the car was peaceful.

On Miao Liang’s side...

When Geng Hu and Gong Jian noticed Miao Liang’s appearance, they shouted, “Stop!” Passcode!”

After saying that, the two of them quickly raised their guns and aimed at Miao Liang.

“Don’t, don’t, don’t! Comrade, don’t shoot!”

Miao Liang immediately raised his hands above his head and stood rooted to the spot, not daring to move.

“The password!” Gong Jian shouted again.

“Wait a moment. Number 1, do you know the password?” Miao Liang asked with an embarrassed expression.

“Wait!” At this moment, Gao Shiwei was also quite confused.

They came out in a hurry and did not care about the password at all.

However, at this moment, Chief Kang, who was in the car, looked at Geng Hu and Gong Jian carefully through the window and seemed to have noticed something.

Indeed, Chief Kang had met Geng Hu once before. With his sharp eyes, he recognized the muscular Geng Hu at a glance.

“Old Gao! Why are Battle wolf’s men here?” Chief Kang asked Gao Shiwei with a puzzled expression.

“Look, isn’t that Qin Yuan’s right-hand man, Geng Hu?”

Upon hearing this, Gao Shiwei looked through the darkness and realized that they really did resemble each other.

“Old Gao, this kid Qin Yuan is not honest. Before the exercise, I even specially asked him if he would participate. This kid said he won’t participate.”

“What do you think he’s doing?”

At this moment, Gao Shiwei did not plan to hide it anymore. “I arranged it! I was the one who asked Qin Yuan to keep it a secret.”

“And he doesn’t belong to neither the Red Team or the Blue Team.”

“Then what is their identity in the drill?” The confused Chief Kang asked anxiously.

“They’re a third party.”

A third party? This completely shocked Chief Kang. This time, he became even more anxious. He struggled to get out of the car and return to inform Wolf Fang.

However, how could Chief Wei allow him to escape so easily? With a backhand, he knocked him out.

He activated the red smoke device on his body, and a cloud of red smoke instantly burst out of the car.

At this moment, Gao Shiwei sighed and said, “Old Kang, this is something you shouldn’t know. I’m sorry that you found out in advance.”

“I wanted to invite you back to the headquarters for a drink or two, but it’s a pity.”

Then, he spoke to Miao Liang through the intercom. “Get back to the car immediately. This is a trap. There’s no password at all!”

“Yes, sir!”

After Miao Liang heard that, he immediately retreated back into the car.

At this moment, Gao Shiwei opened the backseat door and pushed Chief Kang out of the car. He ordered, “Activate the super off-road mode immediately.”

“Yes, sir!”

At this point, Miao Liang skillfully operated, and soon the entire exterior of the vehicle, from the shell to the tires, was covered with an armor-like metamorphic substance. This was impenetrable, how could they fear a mere makeshift roadblock.

“Number One, why are we doing this?” Miao Liang asked in confusion.

“They’re not the Blue Army at all. They’re the third party in this exercise. Their targets are the Red and Blue teams.”

“If I’m not wrong, Qin Yuan must be lying in ambush nearby, waiting for an opportunity to ambush us. We can’t let him know that I’m in the car.” Gao Shiwei explained.

“Wait a moment. After I open the door and push Old Kang off the car, you immediately charge through the barrier. Consider it a personal favor to him,” explained Chief Gao Shiwei.

“Yes, sir!”

Qin Yuan was lying in ambush at the side. When he saw the sudden scene, he was suddenly stunned. The armored vehicle was suddenly armed. Why did Miao Liang suddenly retreat to the vehicle?

Just as he was wondering about all this, he saw someone being pushed out of the car. Then, the car suddenly accelerated and broke through the roadblock they had set up.

Qin Yuan and the others rushed up to see who was thrown out of the car.

When he got closer, he saw that it was Chief Kang from the Red Team. It seemed like he had been eliminated. The heavily injured Chief Kang woke up in a daze.

Qin Yuan and the others quickly helped him up and let go of his tied hands.

“Chief Kang, why are you in such a sorry state?”

Qin Yuan held back his laughter and continued, “This exercise has just begun.

Why are you in a hurry to go offline?”

The two people at the side couldn’t help but laugh out loud. This time, Chief Kang was furious.

“Qin Yuan, you’re good. You even swore that you didn’t receive the notice.

You’ve really tricked me.”

“The higher-ups told me to keep it a secret.” Qin Yuan scratched the back of his head and said embarrassedly.

“Alright, alright! There was no need to say anything! I admit defeat!”

Then, Qin Yuan brought the armored vehicle that he had hidden earlier and placed it together with the three people from before. They walked back to the armored vehicle together. The moment they opened the door, they were stunned.

The three Blue Team warriors that they had captured earlier were actually playing poker.

“Cough!” Qin Yuan coughed violently..

Chapter 532: During the Drill

When the three of them saw who it was, they hurriedly put away their cards.

“You guys are really talented. You even brought poker cards with you when you’re participating in a drill.”

Geng Hu teased.

One of them hurriedly explained, “We were playing poker when we called for an emergency gathering, so we put it in our pocket.”

“I originally planned to go back and continue playing after the drill ended. Who knew that I would be eliminated at the beginning.” The Blue Team warrior said with a slightly regretful tone.

“Not bad, not bad!” Gong Jian said as he gave them a thumbs up.

These three people were really interesting. If not for their luck, they would not have been eliminated at the same time.

“Alright, you guys stay here together. We’ll go back and continue participating in the exercise.” Qin Yuan said to Chief Kang and the others.

“You’re just going to leave us in this desolate mountain?” Chief Kang looked around at the pitch-black forest and said with a broken heart.

“Chief Kang, wouldn’t we be exposed even faster if we left you by the roadside?”

“I’ve already informed the organization to send a car to pick you up. You’ll definitely arrive tomorrow morning.”

“You guys can just make do for one night. We’ll leave first. We still have a mission on our hands. Time is tight.”

Qin Yuan replied calmly. “Alright! We’ll listen to you!”

“Let’s go!” Qin Yuan ordered.

Without much hesitation, he removed the camouflage of the jeep and drove away. Not long after, he disappeared into the dark forest.

Everyone looked at the jeep that was getting further and further away.

“Come, come, come. You don’t have to treat me as your chief anymore. We’re all prisoners of war.”

Chief Kang said without putting on airs, “It’s a long night. Let’s play cards together.”

The brothers played cards in tacit understanding, enjoying the loneliness brought by the long night. They were looking forward to the next day when the director department would send a car to pick them up and evacuate them from the drill site.

Wolf Fang’s temporary base. “Our Chief Kang has been eliminated?”

“This is unbelievable! What happened?”

He Jie asked in disbelief. "Can you confirm Chief Kang's location now?" "No! After the Bureau Chief was eliminated, all the communication devices on him were deactivated."

The technician shook his head regretfully.

"As long as the equipment terminal is cut off, we won't be able to find the general's exact location."

"Is everyone the same?" He Jie asked.

"Yes, that's right!"

That was too unfortunate. He Jie had originally wanted to find the Bureau Chief through the GPS and understand what had happened. In the end, the exercise anti-cheating system suppressed his thoughts.

In fact, in the previous exercises, they had tried to locate the location of the attack by deciphering the search location after their comrades were eliminated, and then wait for an opportunity to counterattack.

However, such an abnormal situation had caused their Bureau Chief to be eliminated immediately.

According to the drill arrangements of the two sides, there was no reason for the Blue Team to do it. It was very likely that a new force had participated in the drill.

He Jie was muttering in his heart. He had encountered an accident at the beginning of the game. It seemed that he had to adjust his battle plan.

However, he still did not know where this new force that had joined the exercise came from, so he did not know where to start.

Assuming that this was a special forces unit under the command of a general army, their average standard would definitely not be as good as theirs. However, to be able to abduct Chief Kang and eliminate him right under their noses, it should not be an ordinary special forces unit.

It was very likely that they were carefully selected and trained troops. In that case, they could not underestimate the enemy. They needed to be even more cautious and fail in the gutter.

Immediately, He Jie adjusted the current battle plan according to the actual situation. At this time, the chief was not around, so he had to shoulder the responsibility of the Red Army alone. He could not let the Red Team's highest leader, Liu Jianshe, lose face.

Not long after, in the early hours of the morning, the main force of the Blue Army frantically approached the Red Army. Unsurprisingly, both sides launched an intense exercise and exchanged fire.

At this time, the Blue Army took advantage of the fact that the Red Army was leaderless and attacked with heavy firepower. Taking advantage of the night, they quickly broke through the vanguard sentry post.

Due to the tight schedule, the plan had not been fully adjusted before it was completely defeated. It looked like he could not hold on any longer.

He Jie quickly sent out the various combat teams of Wolf Fang. In the area where the Blue Army was close to the Red Army, they carried out a carpet encirclement of the enemies that were lurking on the other side. After a night of fierce fighting, the battle between the red and blue armies entered a stalemate.

“Captain, what should we do now?”

On a hillside, Qin Yuan and the other two were lying in ambush in the grass. Looking at the Wolf Fang members who had just searched from below, Geng Hu asked carefully.

“Don’t move. You can’t let the Wolf Fang people discover you. They’re too vigilant.”

Qin Yuan ordered in a low voice.

At this moment, Qin Yuan had an idea. Looking at the Wolf Fang Warrior who was gradually walking away, he immediately waved his hand to let the two of them leave first. The three of them immediately entered the forest.

Fortunately, they had hidden the car long ago. Otherwise, it would not be convenient to hide if they were still driving at this time.

“Captain, where should we go now?” Geng Hu asked.

“Let’s think of a way to sneak into the Blue Army first.” Qin Yuan carefully looked at the blue army logo on his clothes.

Qin Yuan’s lips curled into a devilish smile. If he did not take the opportunity to sneak in at this time, how would he understand the Blue Army’s exercise unit?

If he didn’t make good use of it, how could he be worthy of the clothes he had obtained with great difficulty?

Soon, Qin Yuan and the other two arrived outside a temporary camp.

This was the Blue Army’s base camp.

They observed confidently for a while, and Qin Yuan decided to hide his high-precision sniper rifle.

With the rifles of the eliminated Blue Team members, he swaggered over with Geng Hu and Gong Jian.

“Stop! Which unit are you from?” The sentry at the entrance of the camp asked loudly.

“Sir, we’re from Regiment 203. We got lost last night.” Qin Yuan quickly replied.

“Regiment 203?”

“The password?” The guard at the door walked over with a gun and asked.

Qin Yuan paused for a moment and hesitated for a moment before replying,

“Sir, the three of us actually got separated before we reached the outpost.” “I haven’t even had the time to understand the password.”

Qin Yuan pretended to be very wronged and innocent as he explained to the sentry.

“How dare you act recklessly without knowing the password? Wait here obediently!”

“I’m not going to kill them.” The guard stopped and immediately told the guard beside him, “Go and inform them. Ask them how to deal with these three soldiers.”

“Yes, sir!”

The sentry quickly ran into the camp and ran out after a while.

“Squad leader, the company commander said to bring them in!” the sentry said.

“Okay! Continue to stand guard, I’ll bring them in!”

After saying that, the sentry said to Qin Yuan and the other two, “Follow me!”

“Yes, sir!”

Qin Yuan and the others followed closely behind the sentry into the camp. After meeting with their company commander and explaining to him, the company commander asked them to temporarily follow them to the land and send them back to the 203rd Regiment after the exercise was over.

First of all, the 203rd Regiment had already attacked the Red Army’s territory. It was obviously unrealistic to send them back.

They still had their own exercise tasks to complete.

He had learned some information about the 203rd Regiment from Qin Yuan. It was only when the information was in line that he was relieved to let them stay in his camp.

Therefore, Qin Yuan and the other two successfully infiltrated the Blue Army camp and successfully ambushed them.

Just as Qin Yuan was trying his best to sneak into the Blue Team’s camp, Long Xiaoyun did something big on the other side.

After the helicopter entered the exercise area, Long Xiaoyun went to the information technology personnel and began another task.

She did not tell Qin Yuan about this matter in advance. She wanted to talk about it after it was done.

Long Xiaoyun hoped that she could use her idea to make it easier to win the drill.

Pa, pa, pa—

In the helicopter, Long Xiaoyun’s agile hands were typing on the computer keyboard quickly, and more than a dozen technicians were focused on operating the information on the MDT.

“Report! The Blue Army’s command system has been successfully hacked!”

A technician was excitedly reporting to Long Xiaoyun as he looked at the constantly changing codes on the screen. “At present, we can directly operate the Blue Army command system.” “Very good! Well done!” Long Xiaoyun praised.

“However, don’t act rashly. Start hacking into the Red Army’s command system!”

“Yes, sir!”

The technician was excited. He turned around and returned to his post. He quickly got back to work..

## Chapter 533 - 533: The Time Is Right, It's Time to Act

Everyone began to work on cracking the Red Army's command system.

As they had accumulated experience in cracking the Blue Army's command system, this time, with everyone's joint efforts, the cracking work progressed a lot faster.

After about half an hour, the technician immediately reported to Long Xiaoyun. "Report! Successfully hacked into the Red Army's command system!"

At this moment, the cabin instantly exploded into an uproar. Everyone was cheering for this.

"Good!"

Long Xiaoyun's anxious face finally relaxed and revealed a faint smile.

At this moment, she took out her communicator and started to call Qin Yuan. Calling Captain Qin! Please reply!"

There was no sound from the other end of the communicator. There was no response.

Long Xiaoyun repeated a few more times, but there was still no response. The technician at the side had a bad feeling. "Did something happen?" "This is a drill. There's no reason for there to be no signal."

"Position it immediately! Confirm their location!"

Long Xiaoyun didn't hesitate and immediately gave the order.

"Yes, sir!"

"Satellite positioning successful. Real-time monitoring and tracking completed."

Qin Yuan's current location flashed on the satellite control screen. "Awesome! Captain has already infiltrated the enemy camp!"

"As expected of my military idol!"

"He's really handsome!"

The technicians at the side exclaimed in admiration when they saw this scene. At this moment, after Long Xiaoyun confirmed that Qin Yuan and the others were safe, she immediately sat in front of the computer and quickly started operating.

Then, the scene changed. He saw a few enemies hiding in the grass in the forest. Obviously, this was not what she wanted to see.

The scene changed again. At this moment, they saw Qin Yuan and the others swaggering around the Blue Army camp.

Long Xiaoyun picked up the communicator and was about to speak when she suddenly hesitated for a moment. She put it down and continued to watch Qin Yuan and the others.

At this moment, they were following a Blue Army soldier to their tent. After they entered the tent, the soldier left.

At this moment, Long Xiaoyun felt that the time was right and immediately called Qin Yuan, "Captain Qin!" Please reply!"

After ensuring the safety of the surroundings, Qin Yuan said, "Roger!" What's the matter?"

"When you called me earlier, the environment wasn't suitable for me to reply, so I disconnected the signal immediately to avoid being exposed."

"Captain Qin! Good news!"

Long Xiaoyun said excitedly.

"We have successfully hacked into the command system of the Red and Blue Army. We can now control them on the spot and use their system to issue orders! "

"This... This is too explosive!"

Qin Yuan, who had been lying down and resting, immediately jumped up from the bed when he heard this news. He was instantly energized.

"Captain Long? Really?" Qin Yuan could not believe it for a moment. He wondered when Long Xiaoyun had become so powerful.

However, on second thought, Long Xiaoyun was a technological talent introduced by Battle wolf, so she really had the ability.

"That must be true! This is a life-and-death drill. How could Captain Qin use this kind of thing to play dumb with you?"

"So powerful!"

Qin Yuan gave a thumbs up in the tent. In his excitement, he immediately restrained his emotions.

"There's no rush, " he said calmly." Wait for me to confirm the location of their headquarters."

"Captain Long, continue to monitor their movements. Inform me immediately if anything happens." "Alright! No problem!"

Long Xiaoyun nodded.

Although Long Xiaoyun had the technical ability to crack the firewall of the combat system, it would be difficult to achieve the best effect without a thorough combat strategy.

If they were exposed in advance, it would only alert the enemy even more, and it was very likely that it would affect their own battle plans.

How could Qin Yuan be willing to use this to simply disrupt the formation of the red and blue teams? He was secretly plotting to use this to defeat them in one move.

“Pay special attention to intercepting the secret code commands of both the red and blue teams. Don’t miss any critical information.”

Qin Yuan ordered again.

“Yes, sir!”

Long Xiaoyun replied straightforwardly.

Long Xiaoyun ordered the technicians to monitor the command signals of the red and blue teams constantly, intercepting and analyzing them all at once.

Of course, there would be many encrypted code words in the middle, but in

Long Xiaoyun’s eyes, it was child’s play. As long as she intercepted the information, she could easily crack it.

Finally, the heavens paid off, and Long Xiaoyun finally got some valuable information.

Wolf Fang He Jie asked the Special Research and Operations Center for the latest anti-sniper infiltration satellite system. Not long after, the combat center arranged for a helicopter to send them to the temporary camp of the Red Team.

After a careful conversation with the technicians, He Jie began to install and commission the anti-sniper infiltration satellite system.

Of course, this key information was quickly grasped by Long Xiaoyun through the system monitoring, and then immediately reported to Qin Yuan.

“Captain Long! The Red Army has installed an anti-sniper infiltration satellite system that can accurately lock on to the enemies who enter their combat area.”

“If that’s the case, then it’s too fatal!” Qin Yuan said worriedly, “What about us?”

Do you have any countermeasures?”

“Of course!”

Long Xiaoyun naturally had a plan in mind. She only informed Qin Yuan after thinking of a countermeasure.

“I’ve already made arrangements. When they install the system, I’ll set up a trap..”

Chapter 534 - 534: The Time Is Right, It’s Time to Act

“We’ve already marked all of our Battle wolf members as their own units. Don’t worry.”

Long Xiaoyun said confidently. Hearing this, Qin Yuan finally heaved a sigh of relief.

“At that time, even if you infiltrate their camp, they won’t be able to detect you.”

“That’s naturally great! Since they have already started to withdraw their soldiers, it’s our turn next.”

Qin Yuan stood up from the camp bed and waved to Gong Jian and Geng Hu. He immediately packed his luggage.

“Captain Long, you continue to pay attention to their every move. Now, I’ll bring people out to find their base camp. Keep in touch!”

Qin Yuan calmly instructed Long Xiaoyun as he packed his luggage.

“Yes, sir!”

After the three of them packed up, they first let Geng Hu observe the situation outside. After confirming that it was safe, they quickly sneaked out of the camp from the periphery before anyone noticed them.

Then, following the markings they had left behind, they successfully found the high-precision sniper rifle that they had hidden. Then, they went to their jeep and quickly drove deeper into the military camp.

It was at this time that He Jie used the system to capture some of the Blue Army’s small fries who were released to scout for information.

This was not the result he wanted the most. He wanted to use this to discover the third party participating in the exercise.

“Hurry up and take a look. Where are the enemy markings?” He Jie asked with a frown.

“Yes, sir!”

The technician who was operating the system immediately replied.

“Look! Here!” The technician pointed at the red dot. “No, the situation seems to be getting weirder and weirder.”

He Jie began to ponder.

“I keep feeling that there are still people from other special forces who have infiltrated. ”

He Jie thought for a moment and immediately ordered, “Send people to set up defenses around the command center immediately!”

“Pay attention and stay alert at all times. We must not let the enemy discover the location of our command center.”

“Yes, sir!”

“Also, there’s no need to withdraw all the people who were in the previous clean-up operation. Leave a portion of them to continue to scout in secret. Don’t make too much noise. Pay attention!”

“Yes, sir!”

On Qin Yuan’s side, he drove the jeep with the identity of the Blue Army and traveled unimpeded in the area under the jurisdiction of the Blue Army’s camp. Soon, he entered the deepest part of the Blue Army’s area.

At this moment, Qin Yuan received another message from Long Xiaoyun.

The Wolf Fang of the Red Army once again sent out a team to surround them. However, this time, they were much more low-key. They even sent a small team to the command center to set up control.

Not long after, Long Xiaoyun sent the latest intelligence.

He Jie brought a small team to the command center to set up control, saying that the Red Army soldiers had already touched the swamp near the Blue Army command center.

All of this was due to the anti-sniper equipment installed by the Red Army, which allowed Long Xiaoyun to further invade the Red Army. In Long Xiaoyun’s eyes, the Red Army had no more secrets to speak of.

“Map.”

Qin Yuan operated the tablet in the car and quickly found the map of the entire exercise area. With his sharp eyes, he immediately found the location of the swamp.

Although he had already used his radar to scan the terrain here, he was already very familiar with this place.

However, he didn’t want to show it directly. In addition, Long Xiaoyun’s outstanding performance had provided him with such convenient conditions, so he had to hide himself even better.

Thinking of this, Qin Yuan could not help but want to give himself a thumbs up.

“Surrounded by mountains on both sides and backed by swamps, the terrain is naturally easy to defend and difficult to attack. The Blue Army’s command center is most likely here.”

“Let’s go!”

After Qin Yuan located the location, he handed the tactical tablet to Geng Hu, who was driving. He reminded him, ‘We have to rush to this place immediately. Remember to find a place to hide the car in advance.’

“Yes, sir!”

Geng Hu sped up because he knew that the Red Army team had been sent out again. If they did not hurry to their destination, there was a high chance that they would be surrounded.

At this moment, the jeep's speed had already reached its limit. The off-road performance of the military off-road vehicle was really at its peak.

He traveled all the way through mountains and rivers... No matter what kind of road conditions it was, under Geng Hu's extreme control, it was as smooth as walking on flat ground.

On the way to the Blue Army's command center, Geng Hu found a jeep driving at a moderate speed.

"Follow me!" After Qin Yuan finished speaking, he asked Gong Jian, who was in the back seat, to pass him the high-precision sniper rifle.

"Yes, sir!" Geng Hu gradually slowed down.

Qin Yuan took the high-precision sniper rifle from Gong Jian and slowly lowered the window. He stretched out the muzzle and carefully tilted his head to aim.

He looked at the interior of the car carefully through the 8x scope.

"There's only one female soldier! Chase after her and ask what's going on."

Seeing that the danger was over, Qin Yuan quickly put away his high-precision sniper rifle and gave the order. As he spoke, he handed the sniper rifle to Gong Jian, who was sitting in the backseat.

Geng Hu put away his tactical tablet and increased his speed again. Soon, he caught up to the jeep in front of him. Beep beep beep- —

Geng Hu pressed the horn hard.

Tang Xin, who was driving to the command center, saw a jeep catching up through the rearview mirror.

She was shocked and subconsciously stepped on the accelerator to accelerate. Suddenly, he thought about it. This was the Blue Army's military region. The Red Army should not be so arrogant.

Therefore, she gave up on accelerating and slowly slowed down to roll down the window. She tried to find out who the other party was and had no intention of getting out of the car.

Very soon, the two cars drove side by side.

Because Qin Yuan and the others were wearing the uniforms of the ordinary soldiers of the Blue Army, Tang Xin's military rank was obviously at the leader level, so she could only call her chief.

The main reason why they wanted to gain the upper hand was to make Tang Xin believe in the identity of the Blue Army.

Tang Xin was confused. She blinked her big eyes and didn't know what to do.

Looking at Tang Xin who was shocked, Qin Yuan continued to shout, "Chief, the password! If you don't say it, I won't be polite."

It was obvious that Qin Yuan's tone was much tougher than before. It was as if he was going to pull the trigger if he did not agree.

Tang Xin came back to her senses and immediately said, "Pingchuan, roger!"

“Gao Yuan!”

Seeing this, the corners of Qin Yuan’s mouth curled up slightly as he put down his gun and said with a smile, “Chief!” Where are you going?”

“I was just about to go to the command center to take a look!” Tang Xin saw that it was one of her own people and her vigilance was relaxed.

He felt that it was safe if the password matched.

“What about you guys? Where are you going now?”

Tang Xin didn’t know that the blue army’s new password every day was intercepted by Long Xiaoyun at the first moment, and was immediately conveyed to Qin Yuan.

In fact, a complicated mission was like a lock that was difficult to open. As long as one had the key, they could complete it smoothly and easily.

No matter how vigilant the blue team was, they would still be intercepted by Long Xiaoyun.

“That’s on the way. We received orders to go to the command center.”

“Chief! Seeing that you’re alone, it’s not safe in the wilderness. There are no live ammunition weapons. We’ll follow behind you to escort you.”

Qin Yuan said kindly.

Tang Xin thought of Qin Yuan holding a gun and asking for the password. She was indeed vigilant. Moreover, it was reported that members of the Red Army had already infiltrated. If anything happened on the way, the consequences would be unimaginable.

“Alright, then you guys follow behind me.”

Tang Xin nodded in agreement and continued to drive forward. She didn’t know that she had been successfully used by Qin Yuan.

“Follow me!”

The three people in the car revealed a relaxed smile. Now they could finally enter the Blue Army’s highest command openly.

Sure enough, as they expected, with Tang Xin leading the way, Qin Yuan and the others easily sneaked into the temporary camp of the Blue Army’s highest command.

“Chief, we’re going to report the mission to the leader! Goodbye.”

Qin Yuan said goodbye to Tang Xin happily.

“Alright!”

Qin Yuan and the other two looked at each other and smiled. They immediately turned around and hid in a corner.

“Captain, what should we do next?” Geng Hu asked Qin Yuan.

“There’s no hurry. Since the Red Army is here, why don’t we let them make this place a little more lively? When the time comes, we’ll be like the mantis stalking the cicada, unaware of the oriole behind.” Qin Yuan was plotting a big plan in his heart..

Chapter 535 - 535: Make a Big Deal!

Qin Yuan stared at Tang Xin who slowly walked into the tent. After a while, he saw her come out of the tent and walk into another tent.

After a while, a man in Tang Xin’s military uniform slowly walked out of the tent. Qin Yuan focused his eyes and saw that it was He Chengguang.

He was a member of the Red Army, yet they had managed to sneak in.

Qin Yuan had met him several times when he was a new recruit, so he recognized him at a glance. “Be careful. Don’t be recognized by the people inside.”

Qin Yuan instructed.

“Yes.”

At this moment, they realized that the Red Army was only slowly approaching the Blue Army camp, but in fact, some of them had already infiltrated.

They had already begun to lurk, ready to attack.

Then, they saw He Chengguang begin to sneak around the Blue Army’s command center.

About half an hour passed.

He Chengguang got an 88 sniper rifle from somewhere and slipped into the chimney in the middle of the camp.

“Good fellow, you’re really young and impetuous!” Gong Jian laughed and said,

“He did what we wanted to do.”

“Let’s go! Let’s go and clean up the car together.”

Seeing that the time was ripe, Qin Yuan brought Geng Hu and Gong Jian and prepared to take action.

They went back to the parking lot and dismantled the bombs that He

Chengguang had installed just now and threw them into the cars next to them. Then, the three of them began to pretend to be blue army guards and stood up.

“The password!”

“Pingchuan, roger!”

“Gao Yuan!”

With the password, Qin Yuan and the other two stood calmly on the spot.

On the other side, He Chengguang climbed up the chimney pipe with great effort and pressed the detonation remote control.

Boom! Boom! Boom!

Explosions of bombs were heard around the Blue Army's temporary camp, and the entire camp began to fall into chaos.

All the troops that could be mobilized began to search for the culprit in the camp.

"The opportunity has come!"

Qin Yuan's eyes lit up. He quickly went to the side of the jeep and opened the back door. He pulled out a high-precision sniper rifle from under the seat.

He raised his gun, aimed at a figure on the top of the chimney, and pulled the trigger.

Bang!

Blue smoke rose from the top of the chimney, and He Chengguang was eliminated. He was now wearing the Blue Army's combat uniform.

He Chengguang turned the gun around and aimed at the direction of the shot. He was stunned again.

He had clearly placed enough bombs in that jeep. Why would there be such a low-level accident like a failed detonation?

At this moment, He Chengguang's expression changed drastically. Could it be? Was there someone else besides him who ambushed the Blue Army's command center?

Because it was impossible for the Blue Army. First of all, they wouldn't accidentally injure their own people. Secondly, he had no reason to expose himself because Tang Xin, who was knocked out by him, wouldn't wake up so soon.

Was he a Red Army teammate? That was not the case. If a teammate had really infiltrated the Blues' headquarters, it was impossible for him not to know.

This time, He Chengguang was in a dilemma. Who was hiding in the dark and sniping him?

After thinking about it, the answer might really only be a guess.

That was that this exercise was unusual and there was a third party participating.

If it was really as he had guessed, it would be very interesting. It would definitely bring more uncertainty to this exercise, and it would no longer be the traditional mode of confrontation between the two armies.

Someone from the Blue Army had been eliminated, and this had already alarmed Chief Gao Shiwei.

"Someone has been eliminated from the chimney."

The warrior who noticed the situation immediately warned the others.

"Go up! Suppress him!" Gao Shiwei shouted from below.

"Yes, sir!"

As soon as he finished speaking, a team member quickly climbed up the chimney and escorted He Chengguang down.

Bureau Chief Gao, took a closer look. Isn't this He Chengguang from the Red Army? Before he joined the army, his father had asked Gao Shiwei to take care of him.

The Blue Army soldier held He Chengguang and said, "Chief, this person is not from our Blue Army. He is from the Red Army. He stole our Blue Army clothes."

"What should we do with him next?"

"Send them to the prisoner of war camp!" Gao Shiwei said lightly.

"Yes, sir!"

Now, here was the problem! Gao Shiwei suddenly had the same doubt as He Chengguang. Could it be that Qin Yuan and the others had snuck in?

This is bad! If Qin Yuan and the others snuck in, they would be in big trouble!

However, Gao Shiwei did not immediately tell everyone that there was a third party participating in the exercise.

"Alert!"

Gao Shiwei ordered.

"Yes, sir!"

As he spoke, he asked the guards to cover him as he retreated into the command tent.

The Blue Army soldiers spread out and escorted Gao Shiwei safely back to the tent.

Qin Yuan, who was in the corner, saw this scene and immediately assigned tasks to the two people beside him.

"Geng Hu! You go over there! Gong Jian, go to the other side!"

"Keep an eye on the commander of the Blue Army and be ready to take him down at any time."

After all, no one had expected such a complicated and ever-changing situation to happen in this exercise.

After Geng Hu and Gong Jian left, Qin Yuan looked around warily and

Immeamate1Y canea Long Alaoyun, "capcam Long, connrm my current location immediately."

"Roger!"

"The location has been confirmed!" Long Xiaoyun said.

"According to the signal data analysis, your current position is the highest command of the Blue Army."

Long Xiaoyun confirmed Qin Yuan's location with certainty.. "We can arrange for a precise strike!"

## Chapter 536 - 536: Make a Big Deal!

“No rush!” Qin Yuan stopped Long Xiaoyun and asked, “How’s the other team?”

“They’ve already confirmed the location of the Red Army’s highest command.

They’re waiting for your orders!”

Long Xiaoyun replied to Qin Yuan firmly.

Qin Yuan nodded silently and said, “Alright! Tell them to stabilize. Now, we’re ready to do something big!”

“Immediately send the coordinates of the two command centers to the Far Fire Company and get them to prepare for battle.” “Tell their company commander to wait for my orders!”

“Yes, sir!”

Long Xiaoyun immediately took action. First, she quickly sent the location of the headquarters of both sides to the plan or case, and immediately conveyed Qin Yuan’s instructions.

Near the middle of the drill, in the valley where the plan or case was hidden, Commander Wan of the Far Fire Company received the order conveyed by Long Xiaoyun.

“Everyone, prepare for battle immediately!” He immediately ordered. “All equipment, prepare for battle immediately! Wait for the order to fire!”

“Yes, sir!”

The communicator immediately relayed the company commander’s orders.

Commander Wan of the Far Fire Company immediately contacted Qin Yuan. The Far Fire Company has entered combat readiness and is awaiting your orders!”

Ever since Qin Yuan led the team to obtain supreme glory in the International Special Forces Competition, he had been promoted. Battle wolf’s reputation had long reached its peak in the base.

Everyone trusted Qin Yuan unconditionally. They felt that following such a captain would definitely give them a chance to stand out.

“Company Commander Wan, I’m now in the Blue Army’s command center. To make a long story short, I don’t have much time to make detailed arrangements.” Qin Yuan explained the current situation.

“Captain, we will always listen to your orders!” Commander Wan said firmly.

“Good!” Qin Yuan looked at the situation around him and gave an order. “Order the Far Fire Company to immediately board the formation and confirm the coordinates. There must be no mistakes!”

“The rocket launchers belonging to the Far Fire Company are ready to fire!”

“Remember! Prepare for battle and be on standby. When the time is right, I will give the order to fire immediately.”

“Yes, sir!” Commander Wan immediately replied loudly.

Far Fire had been in a state of invisibility for a long time since he joined Battle Wolf. Because of the unit’s attributes, he had never dropped any equipment.

Now that he finally had a chance to fire fiercely, it was undoubtedly a powerful shot in the arm.

The other armored companies could still go out occasionally. After all, their shooting range was still acceptable, unlike their Far Fire Company.

They only had a long range and were not allowed to use their equipment when participating in events. Wasn’t this clearly a scam?

But so what? He had to obey the organization’s arrangements and accept this and that.

Now that the opportunity had come, how could Commander Wan not be excited?

This was a big mission to take down both the Red and Blue command centers in one bite! For the first time, Commander Wan felt proud.

“Immediately execute it! Report immediately after everyone is in place!”

Qin Yuan continued to order.

“Yes, sir!”

Commander Wan quickly ran out of the temporary camp with the communicator and quickly headed to the rocket artillery position a few hundred meters away.

This time, the Far Fire Company must play an irreplaceable role and prove their strength through this performance.

“Company commander! All the rocket launchers have been activated.”

“Coordinates confirmed!”

“Distance: 84 kilometers. Target: Blue Army command center. Flight speed: 58 seconds...”

“Distance: 75 kilometers. Target: Red Army command center. Flight speed: 58 seconds...”

“Please instruct me!”

When the duty officer in charge of the position saw Company Commander Wan rushing over, he quickly stood up and greeted him. Then, he stood at attention and reported to Wan Lin.

The Far Fire Company had a command vehicle, six launch vehicles, and six ammunition carriers.

At this moment, the command vehicle and the launch vehicle were all in firing mode. The launch vehicle was already filled with rockets for the exercise.

“Alright, everyone, prepare for battle!”

Commander Wan immediately ordered.

“Yes, sir!”

Even the duty officer quickly ran to convey the order while Commander Wan boarded the launch vehicle.

“Captain, our company is ready for combat. We can provide long-range fire support at any time.”

“Good! Silence communication, wait for my order to fire! ”

“Transfer immediately after launch!” Qin Yuan said immediately after receiving the news.

“Yes, sir!”

Company Commander Wan was already seated in the support position of the launch position. All personnel were ready for combat.

The communicator was placed in front of Commander Wan. As long as Qin Yuan gave the order, the six launch vehicles could launch long-range fire suppression on the enemy at the same time.

The rocket launcher’s operator was sitting in his seat with full concentration, waiting for the order to be issued.

Slowly, it was already evening. As the sunset slowly faded, it was already a pitch -black night.

However, at the position of the Far Fire Company, everyone was still staring at their positions, not daring to relax in the slightest.

The replacement players were even more seamless.

Whoosh! Whoosh! Whoosh!

The sudden downpour broke the silence of the night.

The bean-sized raindrops hit their faces, and the sound of the rain gradually entered their ears. Despite the environment, they still did not move in the storm.

Relying on his iron-like will, he held on to his post despite the torrential rain.

“Fire!” At this moment, an order came from the communicator.

“Fire!”

“Fire!”

“Fire!”

Suddenly, earth-shattering roars sounded from the True Essence of the Far Fire Chain!

That was the roar from the hearts of the steel-like warriors. It was the confidence of the most outstanding Far Fire Company in the Southeast Military Region.

Boom! Boom! Boom!

The six launch vehicles unleashed their might at the same time. Amidst the earth-shattering roar, the rockets used for the exercise quickly tore through the sky.

They split into two groups and pierced through the rainy night, dragging their long wings of fire as they quickly shot in the direction of the highest command center of the red and blue teams.

Blue Army Command.

The commander of the Blue Army entered the command tent under the cover of his teammates.

“Chief!” Commander Xu saluted Gao Shiwei.

“What’s the situation outside now?” Gao Shi, Chief Wei, had already known that the outside world was in chaos, but he still wanted to confirm the actual situation outside.

“Chief, we can’t stay here any longer!” Commander Xu said bluntly.

“The current situation is too strange. It seems that a third party is participating in the exercise, but it seems to be a trap of the Red Army.”

“Now that the enemy has infiltrated the command center, we must immediately protect you and evacuate!”

The more Commander Xu spoke, the more flustered he became. At this moment, Gao Shi and Chief Wei were indeed in a different state of mind. He felt that it was the right decision to let Battle wolf join the deployment of this exercise.

Qin Yuan used his strength to prove this point. The effect of the exercise was exactly what Gao Shiwei wanted.

At this moment, he was even more certain that the ones who had infiltrated the Blue Army camp were Qin Yuan’s Battle Wolves. Other than him, no one else had such a decisive method.

Even so, a drill was still a drill. At this moment, he was cooperating with Commander Xu to measure the attack of the multi-national war wolves.

At this moment, Commander Xu gave the order for the team to guard the surroundings of the tent. If it was not a familiar face, they would kill without mercy. He had to ensure the safety of Gao Shiwei.

Gao Shiwei, knew Battle wolf’s strength the best. Waiting for death would only make Qin Yuan push his luck. Hiding was not a good idea.

Qin Yuan was famous for being unscrupulous in order to achieve his goal on the battlefield. There was always a way to force him to appear.

Instead of being so passive, it was better to take the initiative to attack. It was better to strike first and leave with Commander Xu first. Evacuation was the most feasible method at the moment.

However, he did not know that the password had already been leaked. It was probably too late to change the password now.

Because even if they changed immediately, it was inevitable that they would be intercepted by the other party during the process.

Therefore, after thinking about it, the transfer plan was still more reliable.

Gao Shiwei tapped his fingers on the table. Battle wolf had played a good hand. Qin Yuan had really put him in a dilemma this time.

In the director's department.

When the Battle Wolf and Far Fire Company entered firing mode, the commander of the Southeast Military Region arrived at the scene under the protection of the guards.

"Chief!"

All the officers stood up and saluted..

Chapter 537 - 537: Beheading

"I just came to take a look."

The Bureau Chief returned the greeting with a kind smile. After saying that, he slowly walked to the chief seat and carefully looked at the big screen in front of him.

"What's the situation at the drill site now?" The Bureau Chief said as he looked at one of the panels.

"Chief," the director immediately said, "the Red and Blue teams are currently in a stalemate. Battle wolf has already figured out what the two command centers are doing."

"What's puzzling is that although Qin Yuan is hiding in the temporary camp of the Blue Army's command center, he has never launched a general attack or retreated."

"However, he has already begun directing his firepower to attack the red and blue sides."

"Oh? Is that so?"

The Bureau Chief was immediately interested when he heard that. He looked at the big screen and said, "Show me Qin Yuan's field of vision."

"Yes, sir!"

The big screen switched back and forth, and Qin Yuan's figure immediately appeared. He was hiding in a corner without moving.

"Qin Yuan seems quite ambitious." The sharp-eyed Bureau Chief immediately saw through Qin Yuan's thoughts.

"It seems that he wants to behead Gao Shiwei before he stops."

“Judging from the current situation, Qin Yuan’s intention is roughly like this. Originally, a Red Army soldier was already squatting at the top of the chimney, waiting for Gao Shiwei to appear.”

“In the end, they were killed by Qin Yuan with a single shot just as they started to ambush.”

“Following that, he made a series of arrangements to have the Far Fire Company on standby. It’s obvious that his ultimate goal is Gao Shiwei.” The Bureau Chief calmly analyzed Qin Yuan’s battle strategy.

The Bureau Chief nodded slowly and paid attention to Qin Yuan’s next move to see how he would behead Gao Shiwei.

Qin Yuan and the other two formed a triangle with horns on the outside and surrounded the tent of the command center. They crouched far away to prevent being exposed.

Qin Yuan was actually not sure if Chief Gao would move ahead of time under the current situation. But even if he wanted to move, he should at least come out.

Gao Shiwei, had gone to Battle wolf Base to look for Qin Yuan a few times not long ago. Geng Hu and Gong Jian had met him several times. They could clearly remember the Bureau Chief’s appearance.

Qin Yuan’s order to them was to take action immediately as soon as Chief Gao Shiwei appeared.

Therefore, the three of them waited quietly.

They waited for an entire afternoon, and night soon fell. While the moon was dark and the wind was high, Qin Yuan and the others tacitly moved forward a short distance.

In this pitch-black night, it was more beneficial for Qin Yuan and the others to ambush.

They moved forward again. The command tent was dozens of meters ahead, and their eyes were fixed on the tent door not far away.

However, the heavens did not favor him.

Crash!

A torrential rain poured down.

Qin Yuan and the other two’s luggage were quickly soaked. The torrential rain brushed past their faces, but they still did not move.

Until a certain moment.

The curtain of the command tent not far away was lifted, and an umbrella was opened. Then, a figure came out, but his face was covered by the umbrella.

However, judging from the figure under the umbrella and the way he walked, Qin Yuan was sure that this was not Chief Gao.

After all, it was rare to see a figure like Chief Gao.

Then, several figures with umbrellas walked out of the command tent. Coincidentally, their faces were covered by umbrellas.

However, it was no longer important.

Qin Yuan had already identified the target among them. He was at the back and had a slightly plump figure. It must be Chief Gao.

This Commander Xu was really good at deceiving people. He thought that he could successfully evacuate Gao Shiwei by deceiving everyone.

Unfortunately, he never expected that not only had Qin Yuan and the others met Gao Shiwei, but they had deeply engraved his appearance in their minds.

Therefore, this move was just child's play to Qin Yuan. He saw through it at a glance.

"Move out!"

"The target has appeared! "

With Qin Yuan's order, Geng Hu and Gong Jian immediately entered their shooting preparation state.

Since Chief Gao had already appeared, Qin Yuan's plan began.

Qin Yuan raised his rifle high and aimed at Commander Geng. His target this time was not Gao Shiwei.

At the same time, Qin Yuan did not use a high-precision sniper rifle because the distance was too close this time. If he used a sniper rifle, the design speed would be too different from a rifle, and it was very likely to delay the battle.

Qin Yuan would not do such a thankless thing. His goal was to end the battle quickly.

The moment Qin Yuan gave the order, the three of them pulled the trigger almost at the same time. After firing a shot, they quickly moved their muzzles and shot another one.

Bang! Bang! Bang!

In an instant, only three guards were left.

"Enemy attack!" "Lie down!"

"11 O'clock, 7 O'clock, 3 O'clock."

"Retaliate immediately!"

It had to be said that the strength of the special forces team arranged beside Gao Shiwei was indeed not to be underestimated.

However, their reaction speed and accuracy were really shocking.

However, no matter how fast they reacted, finding cover, hiding, and waiting for an opportunity to counterattack, they still could not escape Qin Yuan's precise shooting speed..

Chapter 538 - 538: Beheading (2)

After a while, other than Gao Shiwei and Commander Xu, everyone else in the camp was eliminated.

Commander Xu flipped over and took out his pistol. He fired wildly at Zheng

Qingfang's Geng Hu until his bullets ran out. He then asked the guards to take Gao Shiwei and hide in the tent in the blind spot on the other side.

A few umbrellas were scattered on the ground. Under the heavy rain, they kept making crackling sounds.

“Charge!”

Time waited for no one. In the enemy camp, they had to seize every second.

Qin Yuan and the other two rushed out from the corner and ran towards the tent where Gao Shiwei was hiding.

Bang! Bang! Bang!

He dashed forward and fired non-stop. His marksmanship was more accurate than the opponent's. He was simply suppressing his strength.

“I'll draw the firepower!”

One of the people on the other side said loudly. He wanted to create an opportunity for his teammates to move and find a more advantageous cover.

If they could not stop Qin Yuan and the others from attacking, the consequences would be unimaginable if this situation continued to drag on.

As expected, as soon as he appeared, he was immediately killed by Qin Yuan.

At this moment, another member of the Blue Team also raised the sniper rifle in his hand and aimed it at Qin Yuan.

Qin Yuan immediately reacted from the corner of his eye. He pounced forward and rolled, successfully dodging the opponent's aim. He turned around and fired a shot. A wisp of his signature blue flame curled up.

At the same time, there were others who wanted to kill Qin Yuan. Just as they poked their heads out from behind cover, they were immediately eliminated.

They did not have the chance to aim at Qin Yuan at all.

Bang! Bang! Bang!

in the blink of an eye

Only Gao Shiwei and Commander Xu were left looking at each other.

“Charge!”

Geng Hu held his gun, and Ying Zheng rushed out of the dark like a cheetah, rushing towards the direction of Gao Shiwei and Xu at high speed.

Because behind him, the Blue Army's reinforcements had already surrounded him.

Qin Yuan and the others seemed to have a tacit understanding as they rushed in the same direction at the same time.

Bang! Bang! Bang!

Bullets were fired non-stop.

“Chief, there’s really no other way!”

As he spoke, Commander Xu took out a practice grenade from his pocket.

Gao Shiwei wanted to say something but hesitated.

He reached out his hand and pressed on Commander Xu’s shoulder. He looked at the three people who came over and said, “Their ultimate goal is me. If you stay alive, you can avenge me.”

With that said, Commander Xu followed him with his gaze. Gao Shiwei, stood up and slowly walked out.

“Don’t move!”

“Don’t move!”

Geng Hu and Gong Jian pointed their guns at Gao Shiwei and shouted at the same time.

“Cut the crap! Take him away!” Qin Yuan rushed over and said loudly.

“Yes, sir!”

“Chief! I’m sorry...”

After that, Geng Hu and Gong Jian carried Gao Shiwei to the jeep. Qin Yuan held his gun up and followed the three of them.

“Qin Yuan?”

‘Qin Yuan of the Battle Wolf Special Forces?’

Commander Xu was stunned in the dark. He never expected the third party to be the Battle Wolf.

He seemed to have understood in an instant. This exercise was personally organized by Gao Shiwei. It was impossible for him not to know. It was obvious that he was pretending not to know and did not want to reveal it to him.

The last action just now was actually a hint for him to recognize the situation and give up struggling.

However, what he did not understand was that their goal was clearly to behead him. Why did they only kidnap Chief Gao?

At this moment, Commander Xu’s eyes were filled with anger. He wanted to rush forward and eliminate Chief Gao Shiwei immediately.

However, anger was anger, but there was nothing he could do now. He could only watch as Qin Yuan and the others took Chief Gao Shiwei away.

“Charge!”

The blue army in the camp surrounded them. Commander Xu quickly walked out from the corner and pointed in the direction of the jeep. He shouted, "They're over there. Go!"

A large group of Blue Army soldiers shouted as they charged forward.

Boom! Boom! Boom!

As a dazzling light shot from the front, the Blue Army subconsciously closed their eyes and even subconsciously used their arms to block their eyes.

Then, the engine of a jeep roared wildly as it turned around, staring straight at an empty tent beside it.

This move made good use of the advantage of the tent and successfully covered them as they rushed out of the blue army's encirclement. At the same time, Qin Yuan roared into the communicator, "Fire!"

"Fire!"

Screams came from the communication device.

Bang! Bang! Bang!

The jeep rode on the rainy night, and under the rain of bullets, it hijacked Gao Shiwei and rushed out of the camp of the Blue Army's highest command.

At this moment, in the Battle Wolf Far Fire Company's camp.

Whoosh! Whoosh! Whoosh!

Streaks of flames shot into the sky, cutting through the rainy night and disappearing into the air.

"Hurry! "

"Retreat immediately!"

Commander Wan jumped off the launch vehicle and quickly organized the company to evacuate.

"Yes, sir!"

The guards quickly replaced the people at each point and began to operate the transfer.

The team members who had been watching the spot for a day, with their tired bodies, took advantage of the gap and began to eat the specially processed military rations.

Boom! Boom! Boom!

After everything was sorted out, the team of the Far Fire Company quickly moved. The mechanical infantry company guarding the periphery covered the distance and covered the movement of the Far Fire Company.

The two companies, one in front and one behind, quickly searched for other suitable positions in the rainy night.

In the director's department.

When they saw Chief Gao walk out from the corner, Qin Yuan and the others did not shoot him and eliminate him. Instead, they hijacked him into the jeep. This scene instantly stunned all the officers in the directing department.

“Qin Yuan actually kidnapped Gao Shiwei. This...”

The Bureau Chief was also speechless as he watched Qin Yuan take Gao Shiwei away. This time, he would probably be popular in the military camp for a while.

After all, in the old general’s memory, there had never been such a case of a commander being kidnapped in the Southeast Military Region’s military exercises over the years.

Therefore, it was hard for Chief Gao to not be popular this time.

As the first commander-in-chief to be kidnapped in the history of the company, he would probably make the headlines of the military newspaper after the exercise ended. However, judging from the current situation, he probably wouldn’t have to wait until the exercise ended to see the headlines.

This was because there were many military media outlets gathered. They had already begun to write articles enthusiastically.

A few of them left immediately after witnessing this scene. They were probably planning to report the shocking news back to their unit.

Other than Chief Gao Shiwei, Qin Yuan naturally became famous as well. He also brought the Battle Wolf special forces to fame.

Of course. The three of them forcefully kidnapped the highest commander of the Blue Army’s command center into a car. Wasn’t this something unexpected?

“The rocket has arrived!”

At this moment, someone shouted.

Everyone looked at the big screen and saw a string of flames cutting through the sky in the rainy night and smashing into the camp of the Red Army’s highest command.

Boom! Boom! Boom!

A red mushroom cloud slowly rose from the temporary camp. Even though it was a rainy night, it could not stop the red smoke from rising into the sky.

“The Red Army’s command center has been wiped out!”

“What about the Blue Army?”

“Immediately!”

The scene changed to the command center of the Blue Army.

“It’s alright. At the very least, the Blue Army...”

Before he could finish his sentence, a string of flames came from the rainy night.

There was another deafening boom.

A blue mushroom cloud rose into the sky

Although he knew that this would be the case, he was still shocked by the scene.

Moreover, the two highest command centers were wiped out almost at the same time.

The next drill was obvious, and he felt that it would be a mess.

At this moment, Commander Xu had no more hope in life. He had thought it through. Almost all the soldiers from the red and blue teams had been killed by Qin Yuan and the others.

They had kidnapped Gao Shiwei, and the command center of the Blue Army and Red Army.

Even he himself was gloriously eliminated by the rockets.

Prisoner of War Camp.

When He Chengguang was eliminated, his heart was filled with despair. This was because he had already missed the best opportunity to behead him, and there would be no more chances to turn things around.

In the jeep.

Gao Shiwei's face was as dark as water. He had understood everything the moment he was dragged away by Gong Jian and Geng Hu..

Chapter 539 - 539: Near the End

Not long after, flames streaked across the sky, and deafening roars came from the temporary camp behind the car.

Gao Shiwei looked in the direction of the command center in surprise and saw the blue mushroom cloud.

"Qin Yuan, you actually used the Far Fire company." Gao Shiwei said indignantly.

In the past, it was rare to use such heavy long-range firepower equipment in military exercises, because such weapons and equipment would greatly reduce the difficulty of the exercise.

As the name implied, the purpose of the exercise was to test the reactions of the soldiers on the battlefield in the future, as well as the flexible use of weapons and equipment. However, long-range weapons were just to lock onto the coordinates and shoot directly.

Not only could it speed up the progress of the exercise, but it would greatly reduce the enthusiasm and participation of the soldiers.

This was why it was rare to see such a lethal heavy weapon appear in the exercise.

Usually, they would only use planes, tanks, and other things to bombard them.

However, these things could be guarded against in advance, unlike the weapons of the Far Fire Company. As long as the coordinates were within the range of the weapon, everything would be over.

"Chief, this is the most important weapon in a battle!" Qin Yuan said proudly. After all, he had brought Battle wolf to do a big job.

He had even settled the highest command of both the red and blue teams. Anyone would be overjoyed.

After Qin Yuan's ruckus, the situation of the drill had entered a chaotic stage.

Because they knew that Battle wolf was a third party, the highest commander was taken care of. The key was that his actions were hidden as if he had used a smokescreen, causing both the red and blue teams to mistakenly think that the other party had made the first move.

Then, each unit began to fight on their own. Some of them joined forces with the same goal, which was to fire at the other party.

The battle between the two armies in the exercise area was very lively, but Qin Yuan took the opportunity to command Battle wolf to mix in the chaos. From time to time, he would fan the flames on both sides and push forward, making the battle between the red and blue sides become more and more intense.

Just like that, when they knew that the red and blue sides had lost 70 – 80% of their troops, Qin Yuan appeared again and let Far Fire kill them by surprise, successfully obtaining the final victory.

Wasn't this the true portrayal of the fisherman benefiting from a fight between snipe and clam?

Only now did they know that this third party was the hidden force from the beginning. It was to test whether the Red and Blue armies had such a high level of crisis awareness.

If they were to continue to follow the logic of the battle between the two armies, it would be too backward. The actual situation on the battlefield was unfathomable.

Therefore, after this drill, they should have a deep understanding.

Some units criticized Battle wolf verbally, some blamed themselves for not being sensitive enough to the enemy's situation, and of course, there were some who remained silent.

But no matter what, Battle wolf had once again become famous in the exercise, and its reputation spread far and wide! Once again, it became a hot topic in the Southeast Military Region.

The Battle wolf had once again been "deified", and most of the soldiers of the Xiangjin Special Forces placed the Battle wolf as their top priority.

As for Wolf Fang? They had only heard the news of successive defeats. Comparing the two, it was likely that everyone had already had the final answer in their hearts.

After the drill ended, Battle wolf had undoubtedly won the entire drill. Battle wolf's fame once again shocked the entire Southeast Military Region.

In the director's department.

The Bureau Chief happily looked at the scene of Qin Yuan escorting Bureau Chief Wei back to the base.

"Qin Yuan, this kid. As expected, I didn't misjudge him. Young people nowadays are really better than their masters." The old general praised Qin Yuan kindly.

"The addition of Battle wolf this time has indeed added some new surprises to the previous exercises. Every scene is shocking."

The officer at the side echoed the Bureau Chief's words.

"That's right! Usually, it's just two armies confronting each other. There's no suspense." The Bureau Chief continued.

"This time, the two armies will face off against each other. With the addition of the Battle wolf ambush, it has completely broken the fixed pattern of the past and has added a lot of uncertainty to the exercise."

With Battle wolf's participation, the entire exercise environment was as complex and ever-changing as a real battlefield.

It tested the leader's ability to adapt and the flexible use of the art of war. There were not many resources allocated to Qin Yuan for this exercise, and he still had to bring everyone to face two top companies with rich combat experience.

The Bureau Chief continued, "It seems that letting Qin Yuan join was the best choice this time." Without him, there would be no such wonderful exercise."

"I was worried that Old Gao's suggestion would make Battle wolf feel that it was unfair. One versus two, it seems like an impossible task."

"Chief! You're worrying too much. Look at how well Battle wolf performed in this exercise. It's simply a superb performance." The officer at the side smiled and replied to the general.

"Hahaha! That's right! I didn't expect that my old bones would be able to witness a real-life exercise before I retired. No regrets! I have no regrets!"

The Bureau Chief's hearty laughter filled every corner of the directing department. Everyone gave the highest evaluation of Battle wolf's performance in this drill.

"Qin Yuan is a good seedling for the army. He's a natural-born soldier king!" an officer praised..

Chapter 540 - 540: Near the End (2)

"Not only that, but he has a lot of research on the art of war. Just by looking at his performance at the drill site, you can tell that Qin Yuan has read a lot of military books."

"Yes!"

The Bureau Chief nodded affirmatively. "I believe that under Qin Yuan's leadership, Battle wolf will definitely make more outstanding contributions to protecting the country in the future."

"That's right! Our country needs more all-rounded military geniuses like this!"

The Bureau Chief changed the topic. "Oh right, is Battle wolf's recruitment starting again?"

“That’s right, Chief. I reckon that after the drill ends, they’ll be busy recruiting new members when they return to the base.” The officer beside him immediately replied.

“Arrange it immediately. No matter what requirements Qin Yuan has for this recruitment, no matter which company he wants to recruit talents from, we will definitely give our full support.” the Bureau Chief said.

“Yes, sir!”

“I’ll arrange it immediately after I’m done with the finishing work of the exercise. Don’t worry, Chief, I’ll make the necessary arrangements!”

The Bureau Chief suddenly thought about it and continued. “There’s one thing we need to pay attention to. We can’t be too ostentatious at this time. It won’t be good if it spreads!”

“The palm of your hand and the back of your hand are both meat. We can’t let the other companies criticize Battle wolf. Pay more attention to the details when you arrange work.”

“Alright! Chief, I understand your good intentions. It’s been hard on you.”

Battle wolf Base.

Qin Yuan continued to prepare for Battle wolf’s recruitment.

He Chengguang, Lin Muze, Tian Liang, Luo Yong, these few people he was determined to get.

“It hasn’t even been a year since the last recruitment. I guess the students this time are from the last recruitment.” Gong Jian analyzed.

“It’s not a big problem. It’s fine as long as it’s suitable for us.” Qin Yuan shook his head and said.

“Moreover, relatively speaking, recruits are easier to polish than veterans.” “That’s right! I agree!” Chen Guowei immediately agreed.

“When we were in the Flying Tiger Reconnaissance Company, we understood that the new recruits are more malleable than the veterans.”

“Those seasoned soldiers are all like old foxes. They don’t have any drive at all.

The new recruits are still the best. They have the drive.”

Qin Yuan ignored Chen Guowei. Instead, he stood up thoughtfully and said loudly to Gong Jian, ” Give me a report on the recruitment immediately. Report it immediately. I’m going to pick up a new recruit.”

Gong Jian, Chen Guowei, and Long Xiaoyun stared at Qin Yuan with widened eyes.

Qin Yuan grinned. “You’ll know when the time comes.”

The mysterious Qin Yuan made them even more confused about what he was up to.

After saying that, Qin Yuan turned around and called Geng Hu to drive away from Battle wolf Base, heading towards Eastern Sea City.

“Captain, where are we going?”

On the way, Geng Hu asked Qin Yuan as he drove.

“Pick up a new recruit!” Qin Yuan leaned lazily against the passenger seat, his hands behind his head, and his hat on his face as he said slowly.

“I don’t understand. What kind of recruit would you have to personally pick up?”  
Geng Hu said, puzzled.

“A specially recruited one!” Qin Yuan explained calmly.

“Special enrollment? That would be amazing! He must be especially strong in some aspect.”

“No, no, no! This isn’t important. The key is the person himself.”

Qin Yuan shook his head and said.

Geng Hu did not understand what Qin Yuan meant, but when he asked again, Qin Yuan stopped talking and took a nap. He could only focus on driving and head to Eastern Sea City at full speed.

Eastern Sea City.

The jeep drove for more than three hours and finally arrived at the villa area on the outskirts of East Ocean City. Lin Xiaoxiao was already waiting at the door of her house for Qin Yuan to pick her up.

“A woman?” Geng Hu was dumbfounded.

Geng Hu looked at Lin Xiaoxiao who was sitting at the back. Why did they recruit a female special forces soldier? What was Qin Yuan up to?

However, Lin Xiaoxiao still looked pretty.

Lin Xiaoxiao’s enlistment procedures had naturally been completed long ago.

“What are you looking at? Drive properly!” Qin Yuan looked at Geng Hu’s mesmerized gaze and shouted.

“Oh, yes!”

Geng Hu immediately started the jeep and slowly drove out of the villa area, heading straight for Battle wolf Base.

Lin Xiaoxiao’s enlistment did not attract the attention of others, including Chief Gao Shiwei. It was a secret recruitment.

So now, Lin Xiaoxiao had successfully joined Battle wolf without anyone noticing.

Back at the base.

Qin Yuan directly handed Lin Xiaoxiao to Long Xiaoyun. “This? Captain Qin, what do you mean?”

Long Xiaoyun looked at Lin Xiaoxiao in confusion.

“Captain Long, I’ll hand her over to you now.” Qin Yuan said to Long Xiaoyun, “She has just arrived at Battle wolf, so I’ll leave her to you for now.”

“Bring her to familiarize herself with the army for the next few days. Then, take part in the recruitment and see her potential.”

“Lin Xiaoxiao?” Long Xiaoyun continued to size up Lin Xiaoxiao. “Yes, Ma’am!” Lin Xiaoxiao tried to stand up straight and replied loudly.

“Follow me.”

‘Yes, Ma’am!’

Long Xiaoyun arranged a place for Lin Xiaoxiao to stay. It was next to her dormitory for convenience. After all, a female soldier couldn’t stay too close to a male soldier.

In addition, she was specially recruited by Qin Yuan, so she had to take care of her even more carefully.

Although Qin Yuan did not directly reveal the reason why Lin Xiaoxiao joined Battle wolf, she had inquired about her background and identity along the way.

After chatting for a while, Long Xiaoyun was relieved to find that it was just an ordinary background.

The female soldiers in the information center taught Lin Xiaoxiao about the military, including some daily individual movement training. Long Xiaoyun didn’t have that much time to train a new recruit every day.

Lin Xiaoxiao was trying her best to get used to everything in Battle wolf Base. The first lesson she learned was confidentiality.

Of course, Lin Xiaoxiao was not in contact with any real secrets at the moment. She was not even qualified to enter the information center, but her consciousness had to be established first.

After Qin Yuan settled Lin Xiaoxiao down, he went to the Iron Fist Group alone. He found that Old A had arrived before him and called Kang Lei out.

“This guy is really fast.” Qin Yuan touched his chin and said thoughtfully.

Suddenly, he had an idea.

He quickly got into the car and told Geng Hu to drive immediately to the next destination.

At a certain company.

After Lin Xiao joined the army, he started his path as a soldier king. When he was in the recruit company, he had fully displayed his amazing talent.

The recruit company commander was shocked that the recruit Lin Xiao had the bearing of a soldier king.

What was a Soldier King? One who was far superior to others in terms of individual and comprehensive abilities, not in a single aspect.

Lin Xiao's personal results far surpassed the second place in the recruit company's final assessment, and he was immediately spotted by the brigade commander Shi Qing.

After Lin Xiao left the company, Shi Qing arranged for him to be in the best company. After witnessing Lin Xiao's sniping ability, he decisively arranged for him to be a sniper.

Lin Xiao had successfully become the number one sniper of the entire brigade.

When Shi Qing found out that Battle wolf and Wolf Fang were looking for someone, he was still pondering how to make a decision. He had to understand that with Lin Xiao's temperament, if he knew about this, it would be terrible.

Lin Xiao would definitely make a move. Shi Qing was extremely unwilling to let Lin Xiao, the apple of his eye, run away just like that. That was a talent that he had carefully selected. How could he be willing?

However, just as he was hesitating, Qin Yuan appeared.

Qin Yuan went straight to Lin Xiao this time.

"I really didn't expect a recruit to make Battle Wolf Squad Leader Qin Yuan come down personally."

Shi Qing smiled in surprise.

"Brigade Commander Shi, you must be joking. How can an ordinary recruit compare to Lin Xiao?" Qin Yuan replied with a smile.

"I've done my homework in advance. Lin Xiao's data is particularly eye-catching among all the recruits."

"Ever since Lin Xiao joined the army, everyone has seen his performance in all aspects. Anyone would fight for such a talent."

Qin Yuan said with a smile.

"So, you came directly this time?" Shi Qing asked Qin Yuan.

"That's right! This shows how much importance I attach to Lin Xiao." Qin Yuan replied affirmatively.

"We value talents, especially people like Lin Xiao."

Shi Qing naturally understood in his heart that he could not stop the special forces from selecting people, even if he was the brigade commander..
