

## Special Troop 611

### Chapter 611: Special Training Begins!

Qin Yuan subconsciously looked at the time on his watch. It was exactly seven o'clock in the morning.

From here, they should be able to reach their destination before dark. The intensity of the training this time far exceeded the usual intensity.

It was to stimulate the physical potential of all the members.

Only a breakthrough in quality could bring about a qualitative improvement.

If one wanted to have equal strength, one had to be stronger than ordinary people.

"Old Zhou, we have to go!"

Qin Yuan immediately said.

"Alright!" Zhou Qing replied.

After saying that, the two of them immediately chased after the soldiers.

Two hours later, Qin Yuan asked all the team members to stop.

"Report! Battle Wolf members have assembled, please instruct us!" After Liu Ye confirmed that everyone was here, he immediately reported to Qin Yuan.

"Report! Wolf Fang team members have assembled, please give your orders!" Old Gao followed closely behind and reported.

Although Old Gao's military rank was higher than Qin Yuan's, the one leading the training was Qin Yuan.

"Very good! Everyone seems to be in good spirits today!" Qin Yuan looked around at everyone and said.

"The purpose of today's 100-kilometer cross-country race is to challenge your physical limits and break through your physical endurance. Challenge the impossible."

'After all, the opponents we are facing in this exercise are not ordinary special forces. They are the high-end special forces of Dragon Shadow and Mountain Leopard, which are millions of times stronger than ordinary special forces.

Qin Yuan continued to warn everyone in an orderly manner in a high-pitched and firm tone, hoping that the team members could see his actual good intentions through the ultra-intense training subjects.

“If you don’t intensify your training, your current strength is not enough to fight against the extraordinary Dragon Shadow and Mountain Leopard Special Forces.”

” Therefore, from today onwards, you must be fully focused and face every training seriously and diligently!

“Everyone, do you understand?” Qin Yuan shouted.

“Yes, sir!”

All the members of Battle wolf and Wolf Fang responded to Qin Yuan’s orders in unison. The response resounded throughout the entire training ground, and the momentum was self-evident.

Than ?etnrtad tho 1 nn—Izilnrnatur in nrdarlxr

manner...

Everyone set off with weights one after another. The original basic weight was 30 pounds, but now it had increased to 60 pounds.

“Is Captain Qin trying to train us to death?”

“It’ll probably be dark by the time we finish the 100 -kilometer cross -country run. ”

“I wonder if we’ll be dead or alive after we finish running.”

The team members all complained about this abnormal training. Who said it wasn’t? Normally, 30 kilometers was the limit for training. This time, it was increased to 100 kilometers.

If it were any other special forces soldier with a weaker physique, they would probably collapse halfway through the race.

How could they not be afraid of such intense training?

To put it bluntly, the second half of such an overload training was usually supported by thoughts and mutual encouragement from teammates.

Liu Ye saw a few people in front of the team whispering to each other. He quickly ran to the front of the team.

“What’s going on with you guys? Don’t talk nonsense during training.” Liu Ye shouted.

“Train properly. Don’t let me hear any more comments that hinder training!”

“Yes, sir!”

Everyone responded to Liu Ye’s reprimand.” If anyone in the team is found to have spread rumors and disturbed the training mood, they will be punished by military law!”

After a round of reprimanding, everyone became more obedient and continued to carry their weights seriously. At first, everyone was in a relaxed state and moved forward at a constant speed.

“Old Geng, have you seen our captain?” Li Erniu subconsciously looked at the back of the group and asked Geng Hu in confusion.

“In the past, shouldn’t the captain’s strength be enough to press us to the ground and rub us crazy? Why are you so behind today?”

After hearing this, Geng Hu also turned around to try to find Qin Yuan. As expected, he did not find Qin Yuan either.

“Could Captain Qin be holding back some big move and suddenly give us such a shocking operation?”

Geng Hu responded to Li Erniu as if he was used to it.

“That’s true! It’s not the first time that Captain Qin has played beyond the ordinary, hehe!”

“Let’s focus on carrying the weight forward!” Geng Hu reminded.

“Alright!”

At this moment, Qin Yuan was brewing and integrating the energy in his body. After all, this was the first time he had experienced the special training to break through the limits of his physical strength.

He had to integrate the various energy fluids given by the system into his body and convert them into his own advantages. Only then could he better cope with the hellish 100 -kilometer cross-country training.

After about ten minutes, Qin Yuan felt that the energy bar in his body had basically reached its peak. He began to jog.

Qin Yuan slowly ran around the training ground. At this time, the team members who had set off earlier than him had long disappeared from his sight, but this did not affect his plan.

After about two minutes, Qin Yuan felt that the energy in his body was almost ready. The time was ripe, and he gradually began to speed up.

After Qin Yuan slowly increased his speed, his footsteps became faster and faster. After his speed increased, he felt that the faster he went, the more obvious the energy in his body would burst out. He did not feel tired at all.

Originally, Qin Yuan was worried that if he increased his speed too quickly, it would cause the energy in his body to reject him. Judging from his current physical performance, this worry was completely unnecessary..

Chapter 612 - 612: Special Training Begins!

This time, Qin Yuan was even more confident. He began to chase after Battle wolf and the others at a speed as fast as the wind. He had to surpass them as fast as possible.

At this time, the team that was temporarily in the lead didn’t see any obvious difference. When they were about one-third of the way, the distance between them gradually began to widen.

Those who were physically weaker had already started to fall behind. Other than Geng Hu, He Chenguang, Xiao Zhuang, and the others who had better physical fitness, the others were more or less out of breath.

“Paratroopers! The medics! The two of you hurry up and catch up. We can’t lose face for Wolf Fang!” Xiao Zhuang said in a provocative tone.

The paratroopers, who were originally a little dispirited and tired, suddenly became energetic as if they had been injected with chicken blood after hearing Xiao Zhuang’s provocation.

“Who said that our Wolf Fang is inferior to Battle wolf?”

“Old Pao! Hold on tight! Cheer up, we must reach the finish line before Battle wolf!”

“Watch me! I’ll catch up to you now!”

Old Pao had been encouraged by his companions to be ruthless.

Wang Yanbing heard Wolf Fang’s blatant provocation from the side, but he was not willing to be outdone.

He shouted at the team members behind him, “Battle Wolf, rise! We can’t lose to Wolf Fang!”

“Everyone, focus and charge forward! You must complete this training first!”

“Yes, sir!”

The Battle wolf members responded to Wang Yanbing’s encouragement.

The members of Battle wolf Team One smiled faintly and didn’t say anything, only following the team slowly.

Because they all knew that the show was yet to come.

Just as the two teams were goading each other into chasing each other, the originally boring training environment suddenly became lively again.

This small interlude made everyone temporarily forget the fatigue that long-distance cross-country training brought to their bodies.

All of a sudden, a figure flashed past their group like a bolt of lightning. For a moment, everyone was shocked by the storm that this lightning-fast figure brought.

They didn’t even see who had just flown past them. They were so fast that they couldn’t even see their faces clearly.

“Oh my god! Who was that figure just now?” “Did any of you see it clearly?”

“What? Did someone pass by just now?”

Some of the team members didn’t even realize that it was a human. That’s right. How could a normal person achieve that speed that was like wind and lightning?

It was simply abnormal to the extreme. Everyone started to discuss it one after another, saying it in a godly manner.

Suddenly, Lin Muze interrupted, "It's Captain Qin!" That was Captain Qin!"

Lin Muze's sudden outspokenness interrupted their discussion. They all looked at Lin Muze in disbelief.

Because they had already traveled one-third of the distance of this long-distance cross-country journey.

Qin Yuan, who had stayed at the starting point, was so much behind them. How could he believe that the "lightning" figure that had just flown past was Qin Yuan?

"How can you be so sure that it's your Captain Qin?" Xiao Zhuang looked at Lin Muze in confusion.

"Yeah! It's hard to convince the public to believe that it's Captain Qin based on just one figure."

"Unless...Otherwise, it would be very difficult to make an accurate judgment based on a figure. Are you seeing things?"

The members of Wolf Fang expressed their doubts about Lin Muze, and the members of Team Three could not help but comment.

"Lin Muze, did you really see it clearly?"

"Team Qin!" Lin Muze became anxious. He raised his voice to defend himself. "No one is more familiar with Team Qin than us Battle Wolf!"

"If I say it's him, it must be him. It can only be him! Other than him, no one else can display such abnormal physical strength."

Lin Muze's words made everyone speechless. There seemed to be no problem with his words.

In the entire Battle Wolf, other than Qin Yuan, who else could be so abnormal?

Just as Aardwolf was about to say something, Qin Yuan's scolding came from their communicators.

"You guys are standing there and not running away. Are you trying to rebel?" Get moving! I'll wait for you at the finish line. Don't disappoint me!"

On the other end of the communicator, Qin Yuan pretended to be angry and scolded them, hoping to intimidate them and arouse their fighting spirit.

At this moment, everyone believed that Lin Muze's judgment was true. Qin Yuan had really surpassed them, who had set off half an hour earlier.

It was simply unbelievable. No matter how hard they trained, the top special forces would never be able to reach the speed of light as fast as Qin Yuan.

Faced with Qin Yuan's stern scolding, they did not dare to be in a daze anymore. They replied to their communicators one after another.

"Roger that! Captain Qin."

Then! Battle wolf and Wolf Fang quickly returned to their training mode and continued to move forward. After they completed this 100-kilometer cross-country run, there was still shooting training waiting for them.

Now, they were already tormented halfway through the 100 -kilometer cross-country. They really did not know what kind of crazy training mechanism would be waiting for them in the shooting training.

Battle wolf had always been trained by Qin Yuan. To them, it was relatively easy to adapt to Qin Yuan's fickle and harsh training habits.

Unknowingly, the cross-country training was halfway through. At this time, the gap in physical fitness had obviously widened.

The first to take the lead were undoubtedly Geng Hu, Zhou Qing, He Chenguang, Li Erniu and the others. At first glance, Battle wolf's physical advantage was obviously better than Wolf Fang's.

"Yo! Old Gao, what happened to your Wolf Fang?" Li Erniu shouted at the tired-looking dog head, Old Gao, pretending to tease him.

"Did you guys turn your wolf fang into a dog fang? You're so far behind us."

"Yeah, it'll be embarrassing if word gets out." Zheng Xiaohu took the opportunity to chime in.

During normal combat drills, Wolf Fang and Battle wolf were on par with each other, so the difference was not obvious.

During Qin Yuan's special training to break through the limits of his physical strength, it was obvious that Wolf Fang's physical strength was weak. This was one of the purposes of his training this time.

They would discover problems in time so that they could teach students according to their aptitude and do more targeted training in the following training.

After all, Wolf Fang was different from Battle wolf, who had been trained all the way here. They had their own ideas about what kind of training intensity they could adapt to.

Wolf Fang had temporarily taken over their training because of the big drill that would be held soon. There was not much time before the big drill began, so he could only quickly understand Wolf Fang's actual situation through daily special training.

When the Wolf Fang people heard such provocation, they were furious. How could they care about the fatigue on their bodies?

After being provoked by Battle wolf and the others, the originally listless and listless people suddenly became spirited.

"Li Erniu! You son of a bitch! You're the one with the worst mouth." The paratrooper refuted Li Erniu while panting.

"When I catch up, I'll tear your stinky mouth apart!" The paratrooper's flushed face was filled with anger, visible to the naked eye.

“Paratroopers! They’re trying to trap us! Look at how serious you are.” Xiao

Zhuang, who had seen through everything, tried to comfort the paratroopers.

However, the paratroopers who were in a fit of anger did not listen to anything else and rushed forward. Seeing this, the other team members were afraid that he would lose control and cause trouble.

They had to catch up quickly. Just like that, they chased each other and provoked each other. Finally, they reached the finish line before lunch and completed the 100-kilometer cross-country.

Those who had just reached the finish line did not have any more words or temper. They were all tired and laid on the ground to rest.

“Damn! I’m finally free. I can finally rest for a while.” Old Gao complained breathlessly.

“Oh? Don’t tell me you think today’s special training is over just like that?” Qin Yuan asked..

Chapter 613 - 613: Just an Appetizer?

“What? Does Captain Qin mean that this 100-kilometer cross-country is just an appetizer?” Lin Xiao blurted out in disbelief.

“Then don’t! Lin Xiao, don’t jinx me. I’m almost crippled after this 100 kilometers. ”

“Captain Qin, don’t tell me you’re so determined to train us to death?” Lin Mu Ze complained.

That’s right, Team Three was the new blood of the Battle wolf that had just been recruited this year. They had suffered this kind of torture before in the Recruit Company. It would be strange if they didn’t complain about this sudden incident.

Qin Yuan could not help but frown when he heard this. He looked at the soldiers lying on the ground in a mess. Other than Battle Wolf Team 1 and

Team 2, who looked to be in good condition, all of them were extremely

He was slightly disappointed. Qin Yuan suddenly coughed dryly.

“Cough. Cough...”

Hearing Qin Yuan’s cough, they, who were originally lying on the ground, immediately sat up straight and waited for Qin Yuan to speak.

“With your current training condition, that’s too disappointing.” Qin Yuan sighed as he spoke.

However, as soon as he turned around, he quickly put on a serious expression and deliberately raised his decibel as he said, “I’ll repeat it again tonight.”

“This military exercise is no small matter! Either you become famous in one battle, or you become a bear in one battle.”

‘ Moreover, your opponents this time are Dragon Shadow and Mountain Leopard. They are not ordinary people in the special forces. How can you fight them head-on in your current state?’

When the soldiers heard Qin Yuan’s reprimand, they subconsciously lowered their heads, feeling ashamed of Qin Yuan’s expectations of them.

Seeing this, Qin Yuan seized the opportunity to strike while the iron was hot and said, “If you don’t want to be pressed to the ground by your opponent’s strength during the drill, then treat every special training seriously!” There’s no excuse!”

“Yes, sir!” Everyone sat up straight and responded to Qin Yuan loudly.

“As long as you don’t die from training, you’ll train to the death! I’ll follow you in every training in the future. If I can do it, I believe you can do it too!”

After the intense recharge, everyone’s morale was high. At this time, Lin Xiao, who had been holding back, finally could not help but say something.

“Captain Qin! You said you were training, but your physical performance during the 100 -kilometer cross-country was too abnormal.”

“That’s right! He was clearly so far behind us, so how did he manage to surpass us in such a short period of time and be the first to reach the finish line?” Lin Muze echoed from the side.

“This lightning-like speed is too shocking. That’s not something that can be casually trained.”

“Captain Qin, share your experience with us. We want to be as good as you.”

Hearing this, Qin Yuan snickered in his heart. He thought to himself, ‘I’m a special forces soldier with the system’s support. How can I be compared to your mortal bodies?’

In this 100-kilometer cross-country, Qin Yuan had only used one-third of his energy, which shocked them to this extent.

If he really used all his energy to unleash it, his speed would be comparable to the flight speed of a large plane. It would be terrible if they saw it. Fortunately, Qin Yuan, who had the foresight, restrained his strength when he unleashed it.

Now that they had asked, he could probably fool them, but he could not tell the truth. Qin Yuan held his chin with his right hand and lowered his head to think for a moment.

Before I became a special forces soldier and your captain, I trained myself day and night so that I could become an outstanding special forces soldier one day.”

” The intensity of my training every day far exceeds that of the soldiers who joined the army at the same time. Other than sleeping, I’m training. Now that I’m training you, the training time has gradually shortened.”

“As long as you train hard according to my training plan, there will definitely be a significant improvement in both physical fitness and combat skills.”

At this moment, Qin Yuan noticed that it was already 1.10 pm. It was time for everyone to eat something simple to fill their stomachs and rest up to prepare for the special shooting skills training in the afternoon.

It’s almost time. You guys should hurry up and replenish your energy with dry food. Gather at the shooting range at 1:30 sharp for the next shooting training.”

After saying that, Qin Yuan found a shady place and took out an exquisite compressed biscuit. He ate it in big mouthfuls with the drinking water provided by the army.

As he ate, he thought about the details of the shooting training in the afternoon. When he thought about it, he would grab a branch and draw circles on the ground.

The soldiers on the other side took advantage of this short period of leisure time to close their eyes and rest.

“Paratroopers! What do you think Captain Qin will do to us this afternoon?” the medics whispered to the paratroopers.

“Who knows? We’ll take it one step at a time.” The paratrooper responded with his eyes half-closed.

“Looks like I won’t have a good time these days.”

Xiao Zhuang, who was listening from the side, could not help but say,” Hurry up and rest to recover your energy. I’m afraid there will be another ‘tough battle’ in the afternoon.”

After a while, everyone closed their eyes and rested at the temporary resting place. The scene looked really peaceful.

Soon, it was 1:28 p. m. Qin Yuan saw that it was time and quickly stood up to pack his luggage.

He grabbed the whistle hanging in front of his chest, followed by a loud and long whistle..

Chapter 614 - 614: Just an Appetizer?

“Beep beep beep-”

“Gather immediately! Head to the nearby shooting range!”

When the soldiers who were in a light sleep heard the whistle, they immediately bounced up and tidied up their luggage on the spot. In less than two minutes, everyone stood neatly in a small square.

“Battle wolf have assembled! Please instruct me!” Zhou Qing stepped forward and reported.

“The Wolf Fang members have gathered! Please instruct me!” Old Gao followed closely behind and reported.

“Good! Have you all rested well?” Qin Yuan asked them in a probing tone.

“Rest well!”

Everyone answered in unison. Even if they hadn’t rested well, they didn’t dare to make a sound. They knew that this was a gift.

“Set off immediately!”

Under Qin Yuan’s order, everyone jogged in small steps and headed towards the shooting range not far away.

About ten minutes later, they arrived at the shooting range built in a specific environment on the off-road field.

Before the shooting training begins, I want to see your proficiency in dismantling your guns.”

Qin Yuan looked around at every soldier and said in a serious tone.

“Captain Qin, isn’t the dismantling of this gun the easiest? Which special forces soldier can’t disassemble and assemble independently with their eyes closed?” The paramedic asked in confusion.

It’s such a simple basic skill. Which one of us isn’t skilled in it?”

“Well said. This is a very simple and basic skill. It is one of the skills that you must master when you first enter the military camp.”

Qin Yuan was not angry when he heard the paratrooper’s words. Instead, he continued to speak.

“This special training will be a small-scale competition. Although it’s a gun dismantling competition, it’s an upgraded version of your daily training. Usually, you’ll be dismantling a standard rifle.”

” This time, I want you to disassemble two sets at the same time. The two worst performers will be punished with 200 push-ups!”

The rules were set. Everyone had no choice but to obey Qin Yuan’s orders. After all, it was the duty of soldiers in the army to obey orders.

However, it was not a problem for them to disassemble a single standard rifle. However, if they disassembled two rifles at the same time, they would be flustered. If they made a mistake, the problem would be huge.

Although there was no time limit, no one wanted to be the last two to be punished.

“From the looks of it, you guys have tacitly accepted the rules of this competition.”  
Qin Yuan looked at their reactions and continued.

‘ I will now announce the rules of the competition. Later, you will be divided into groups of two. Each time, two groups will compete at the same time.”

I’ll disassemble the standard rifles used in the competition. You guys have to quickly determine the parts you need to assemble from this mess.”

‘ There is no time limit for the entire competition. The two players who take the longest time will receive 200 push-ups as punishment.” “Do you understand the rules?” Suddenly, Qin Yuan raised his voice.

“Yes, sir!”

Everyone said in unison.

However, when the soldiers heard Qin Yuan’s explanation of the rules, they were dumbfounded. One person assembled two guns at the same time, so two people in a group would have four guns.

This meant that the four guns had been dismantled and all the parts were mixed together. It was like playing with a puzzle, which made them feel troubled.

However, they had no other choice. Soon, the teams split into groups and set up temporary tents next to the shooting range to prepare for the match.

Qin Yuan skillfully dismantled the standard rifles one by one. In a short while, the spare parts of the eight guns were piled up into a small mountain.

According to the drawing order, the first to start the competition was Geng Hu and Zheng Xiaohu. The two of them were old friends of Qin Yuan, so this naturally would not be difficult for them.

Qin Yuan saw that Geng Hu and Zheng Xiaohu were standing in front of the table and ready. He pressed the stopwatch in his right hand that had already returned to zero and signaled for them to start with his left hand.

The two of them quickly picked out the parts that needed to be assembled from the messy parts.

Their proficiency shocked everyone in the three teams. They had never seen such a scene before.

Their assembly movements were almost synchronized, as if they had rehearsed it before. There was no excess in each movement.

Kacha!

Kacha!

With two clicking sounds, Geng Hu and Zheng Xiaohu completed the assembly of the first gun almost at the same time. They quickly and tacitly put the next gun together.

The two of them were focused on the assembly parts in their hands. Their almost synchronized assembly movements instantly stunned everyone.

“The soldiers that this Head Captain Qin brought out are indeed worthy of their reputation. Their speed is too shocking.” Old Pao said in shock.

“Isn’t that so? This level of proficiency has never been seen in our Wolf Fang.” The paratroopers chimed in.

Just as they were chatting, they heard two crisp and familiar clicking sounds.

“Kacha!”

“Kacha!”

It sounded almost simultaneously again “Report! Assembly complete!”

“Report! Assembly complete!”

Geng Hu and Zheng Xiaohu made the same gesture to complete the match.

Qin Yuan quickly stopped the timer and walked over to check the rifles they had assembled. As he checked, he nodded in approval.

“Now, I’ll report their time.” Geng Hu, 36 seconds!”

‘ Zheng Xiaohu, 36 seconds!” Wow.

Everyone was in an uproar.

Two rifles in 36 seconds, and all the parts were messed up. It was really amazing.

It meant that they only needed 18 seconds to assemble a rifle.

This result was truly shocking!

“Oh my god! God! How did you two do it? You Battle wolf are too awesome!” The paratroopers at the side looked at Geng Hu and the others enviously like fans.

“Paratroopers! Look at you, I’ll surpass them and broaden your horizons!” Aardwolf was furious.

After the paratroopers heard this, they stood weakly to the side and did not dare to speak again.

The match continued...

“Zhou Qing, Liu Ye, get ready!”

Zhou Qing and Liu Ye calmly walked to the assembly table and prepared to start the competition.

Qin Yuan made a gesture, and the two of them began to assemble their own parts. Compared to Geng Hu and Zheng Xiaohu, their performance was more fluid.

Under everyone’s gaze, he quickly completed the assembly of rifles one after another. It was as if in their eyes, Qin Yuan’s arrangement of the spare parts was so unnecessary.

“Report! Zhou Qing has completed the assembly!”

“Report! Liu Ye has completed the assembly!”

It was perfect! It was another flawless assembly. In terms of time, it seemed to be even faster than Geng Hu and Zheng Xiaohu.

After Qin Yuan stopped counting, he faced the two people standing at attention in front of the assembly table and officially reported the time.

“Zhou Qing! 35 seconds!”

“Liu Ye! 32 seconds!”

Their self-contained assembly memories were as if they were carved into their DNA, completely unaffected by the messy sequence of components.

Needless to say, their 30-second time was naturally not the last place. The outstanding performance of the first two groups undoubtedly put pressure on every member behind them.

This was especially true for the Battle wolf, who had less training experience. However, they were not worried about this. Instead, they were happy to have such a strong comrade!

It meant that their decision to join Battle wolf was not wrong, and it strengthened their determination to continue to grow into outstanding special forces soldiers.

The competition continued in an orderly manner, and the difference in time between the participants gradually widened. The rankings gradually became clear.

The last group consisted of paratroopers and medics. At the beginning, the two of them were still assembling in an orderly manner.

The paratroopers must have been too nervous and missed a part, which resulted in the subsequent assembly being unable to proceed smoothly.

One wrong step led to more mistakes. He became even more nervous as he watched the paramedic progress smoothly. The paratroopers, who were in a panic, hurriedly patched up the missing parts and finally installed them successfully.

After standing at attention, the paratrooper looked a little discouraged, but he was still waiting expectantly for Qin Yuan to announce the length of the match.

“Paratroopers, time used: 1 minute 36 seconds.” “Paramedic, time used: 1 minute 12 seconds.”

The specific rankings would be announced later..

Chapter 615 - 615: Becoming Strong Is Not That Simple!

Qin Yuan carefully sorted out the results of the assembly of the standard rifle.

After about five minutes, he finally sorted them out. On a piece of white paper, Qin Yuan's elegant handwriting carefully recorded the ranking of each of them.

“It's finally done!” Qin Yuan said with a long sigh of relief.

When everyone heard that the results of the rankings were out, they could not wait to go forward and wait for Qin Yuan to announce the results.

“Next up, we will announce the results of the competition. This time, the ranking is a matter of time. I will only announce the top three and the last two.”

“If anyone else wants to know their actual ranking, you can come over and check it out later.” Qin Yuan said.

First place Liu Ye, second place Zhou Qing, Geng Hu, and Zheng Xiaohu are tied for third place...”

Qin Yuan looked at the rankings in his hand and saw the last place. He looked at them with unsatisfied eyes and continued, “The last paratrooper, the second last medics.”

The paratroopers and medics who heard the results were dejected.

“Damn! If I had known this would happen, I would have willingly accepted my punishment!” the paratrooper said dejectedly.

“paramedic, let’s go receive our punishment with Captain Qin!”

“Don’t be discouraged, the two of you. You need to strengthen the details of the process and adjust your mentality during the game. There won’t be too many problems.”

Qin Yuan comforted them.

“Roger that! Thank you, Captain Qin, for your careful teachings.”

The paramedic replied to Qin Yuan.

” I’ll definitely pay more attention to my mentality in the future. I was really nervous this time. How careless!” The paratrooper sighed.

Alright, it’s a good thing that you’re able to recognize your own shortcomings.

This is just a small competition among us.”

Qin Yuan continued to summarize the competition.

“This competition is only to test your ability to deal with emergencies.”

“It’s also so that you can discover your shortcomings and shortcomings in this competition and also appreciate the skills of your outstanding comrades.”

” Take your excellent comrades as examples. In the future, you must also make up for your shortcomings. You must always be alert and perfect your various combat skills.”

‘ I must become an elite special forces soldier in modern warfare.”

“Yes, sir!”

Everyone replied to Qin Yuan in unison.

“Good! I won’t say much. I’ve said enough words of encouragement. Now it’s time for punishment.” “Paratroopers, medics, get ready!” Qin Yuan suddenly shouted.

“Yes, sir!”

The paratroopers and medics replied in unison.

” 200 push-ups, get ready!”

As soon as he finished speaking, the paratroopers and medics prepared their push-ups almost simultaneously, waiting for Qin Yuan’s order.

Immediately after, Qin Yuan made a start gesture, and the punishment of push-ups officially began.

As expected, the special forces soldiers’ physical fitness was not to be underestimated. The push-ups were really fast and standard.

However, Qin Yuan was counting at the side, so they did not dare to be careless. They could only accept the punishment seriously and did not dare to slack off.

Two hundred push-ups were like appetizers to them. After a hundred push-ups, they did not feel embarrassed or nervous.

Qin Yuan began to wonder if he had set the punishment too rashly when he first set the rules.

“Not bad! Your Wolf Fang’s physical fitness is really awesome!” Qin Yuan teased them as he counted.

Before the paratroopers and medics could react, Old Gao, who was beside them, immediately took over the conversation.

“Of course! Our Wolf Fang is after all an outstanding talent selected from the various military camps through strict screening.” “A mere 200 push-ups is at most an appetizer!”

Old Gao said proudly.

“Yes! Not bad! Old Gao was indeed good at leading troops! Today, I’ve seen that you live up to your reputation.”

Suddenly, Qin Yuan had an idea. He smiled and said to the paratroopers and medics who were doing push-ups, “Your captain said that this is just an appetizer. Why don’t I give you guys some extra food?”

“This... Captain Qin, we don’t want to do this!” the paramedic said anxiously.

“That’s right! Captain Qin, the rules of the game have been agreed long ago. This last-minute increase is not in line with the rules.” the paratrooper replied.

Of course, Qin Yuan understood that once the rules of the game were set, they could not be easily changed unless it was necessary, be it rewards or punishments.

Qin Yuan’s teasing was just for fun. He would not really impose punishment on them.

“I was just casually mentioning it. Look at how scared you guys are.”

” Concentrate. There’s still a countdown of ten push-ups to complete the punishment.”

” Countdown: 10.9.8...3! 2! 1!”Qin Yuan began to count down word by word.

“Done! You two hurry up and relax your muscles. Next, prepare for shooting training!”

After the punishment ended, Qin Yuan did not forget to remind the paratroopers and medics to relax their tense muscles to prevent muscle spasms from happening after exercise, which would affect the training later.

A 1000 -meter moving target was not a moving target with a shooting distance of 1000 meters.

Instead, he started from a position 1000 meters away from the target. As he moved closer, he aimed at the bullseye of the target.

“Everyone, pay attention! All of them! Immediately check your guns.. Raise your hand when you’re done!”

Chapter 616 - 616: It’s Not That Easy to Become Stronger!

“Yes, sir!”

Following Qin Yuan’s order, everyone subconsciously began to check their guns. One after another, they raised their hands to indicate that they had completed the gun inspection.

Following Qin Yuan’s order, Wang Yanbing quickly fired.

The first was to stand at attention and shoot. After hitting the target three times, he quickly moved his body to the left.

Then, he moved while shooting at multiple targets that suddenly appeared.

After moving a certain distance, he changed to a kneeling position and changed the direction of his shooting. He immediately fired at the multiple shots that suddenly appeared on his left and right.

The result was that all the bullseyes hit the center.

Then, she got up and quickly moved forward. She quickly reloaded her magazine as she sprinted forward. Then, she lay on the ground and immediately changed her prone position to shoot the bullseye of the target that was further away.

It was another clean and neat shooting action, so perfect that not a single action was redundant. After shooting, he quickly got up and continued to charge forward.

Just as Wang Yanbing was sprinting toward his target, a few moving targets suddenly rose up not far in front of him.

However, Wang Yanbing was fast. The moment the moving target rose, she immediately made a response. Perhaps it was an inherent muscle memory formed by daily training.

Wang Yanbing knelt on the ground and quickly pulled out the pistol at his waist. He quickly aimed at the target that suddenly appeared.

In an unexpected situation, he methodically operated and broke through the targets from near to far.

After completing the shooting operation, he quickly wanted to roll a few times. Then, he used his inertia to get up, changed back to the rifle, squatted down, and quickly moved toward the target.

After charging for a short distance, Wang Yanbing lay on the ground again and crawled forward quickly. She looked like a giant lizard that was quickly pouncing on its prey.

After crawling for some distance, Wang Yanbing finished the final shot with her fast rifle in a prone position.

” Wang Yanbing’s skills are too good. This is a 1000-meter moving shot. If it were me, I don’t think it would go so smoothly.”

Lin Muze, who was watching from the military’s visual surveillance equipment, sighed.

‘ Muze, we can definitely do it too. Although we’ve just been selected to join the Battle wolf and don’t have much combat experience, we have the passion of iron and blood!’

“So we don’t have to be discouraged. As long as we train well with Captain Qin, we will be as brave as their experienced old Battle wolf.”

He Chengguang walked to Lin Muze’s side and patted his shoulder to encourage him.

“That’s right! Since we were able to stand out from our comrades and become a member of the Battle wolf Special Forces, it means that we are outstanding enough.”

” As long as we don’t change our minds, we will definitely become the elite warriors of Battle wolf!”

“Let’s do it together!” Lin Muze said in one go.

After saying that, they quieted down and continued to look at the monitor.

Wang Yanbing’s entire shooting process seemed to be very smooth. His constantly changing shooting postures and perfect displacement movements were simply dazzling.

All the god-like operations that could only be seen on television were perfectly performed by Wang Yanbing, using his strength to prove the classic saying that art comes from life.

However, Qin Yuan paid more attention to the details than the others. He could see the problem more thoroughly and grasp the key points from a professional perspective.

Throughout the entire process, Wang Yanbing did not make a single mistake. Every shot was always accurate and not a single shot missed the target.

Whether it was Wang Yanbing’s techniques or movements, they were all extremely experienced.

The entire shooting process was a perfect visual feast.

This could also be seen from the side. The amount of training Qin Yuan gave Battle wolf was devilish.

It could be seen from this 1000-meter shooting that he had been abused many times.

The intensity of the training wasn't much for Battle wolf Team 1 and Team 2, but for Team 3 and Wolf Fang, it would be quite a challenge.

For a normal special forces soldier, they completely understood what a distance of 1000 meters meant. They also understood how difficult it was for Wang Yanbing to travel 100 meters in a very short time.

As for Qin Yuan, as someone who had been through it before, he had seen many elite marksmen carefully selected from the army in his previous life. He could tell the depth of their skills.

Wang Yanbing's marksmanship was at the level of a sharpshooter.

‘ Everyone can see this, right? This is the final result of our special training. I hope that every one of you will be able to participate in this special forces exercise with such results.’

” Although Wang Yanbing has done very well, I hope that you can do even better and break through your limits to stimulate your potential.” Qin Yuan instilled the training objectives into the soldiers.

Does everyone have confidence?!!” Qin Yuan roared.

“Yes! There was! Yes!”

The loud response echoed in the empty shooting range.

After saying that, the soldiers began their shooting training in order, while Qin

Yuan observed their training from a high vantage point on the hill beside them.

As he watched and analyzed, he gradually had a thorough understanding of the training of the soldiers under his command.

The experienced Qin Yuan could easily sum up their current problem.

In the beginning, they did not have much of a problem standing still and shooting.

Continuous shooting required hitting three bullseyes at the same time. For some players who were inexperienced, they still missed the target.

Or when the first target area was completed, they could not react in time to the sudden appearance of multiple targets.

This was especially true for the new members of Team 3. They barely passed the first round of training and missed the target most of the time.

The coordination between the movements and the marksmanship was not smooth and perfect. This could only be done through daily intensive training. Over time, every shooting movement would be coordinated with the body to form a muscle memory.

The next time he encountered it, he would be able to react instinctively and quickly. Any kind of muscle reflex was better than the body's reaction after the brain judged it.

On the battlefield, time was life. The difference between life and death was only a moment. The faster the bullet was, the faster the bullet was. Even 0.01 seconds could change the outcome of the entire situation.

Therefore, on the battlefield, one could not completely rely on the brain to control their instinctive reactions. This required repeated training during daily training to achieve this superb realm.

At this moment, a wail came from the shooting range. Qin Yuan heard it and looked over.

It was Lin Xiao from Team 3.

Usually, we only train shooting from 300 meters away. This time, the difficulty has suddenly increased by so much. The uncertainty of the target has also increased by quite a bit.”

Indeed, the same time requirement suddenly increased to a high difficulty of 1000m. Anyone would complain.

Lin Xiao had been one of the best in the company before, but he had never thought that he would come to Battle wolf.

Facing Battle wolf, who was full of experts, and the intensity of the training, compared to them, he seemed more like a new recruit.

Lin Xiao, stop complaining. Who asked us to run into a large-scale drill that's hard to come by in the past few years?” Lin Muze said.

If it was any other time, the intensity of Battle wolf's training would be gradual, step by step. It was only because of this large-scale exercise that they had no choice but to compress the original half a year of training to three months.

The special training before the drill, as the name suggested, was a daily training with a difficulty of ten stars. It tested the endurance, explosive power, potential, and so on.

It was a process of repeated tearing and healing through extreme training intensity that forced them to break down, breakthrough, and breakthrough again..

Chapter 617 - 617: Quinquennial Joint Military Drill!

After Lin Xiao complained, he quickly returned to his shooting practice. It seemed that he was not affected by the negative emotions.

It seemed like he couldn't adapt to the high-intensity training pressure for a while.

Seeing that everyone was training seriously in full swing, his originally worried heart finally relaxed.

The afternoon sun was originally shining brightly, but gradually, the sun began to set.

Qin Yuan subconsciously looked at his military watch and saw the time. It was time for them to go back. He had let them out early in the morning to train for the whole day.

The training was so intense that it was time for them to go back and rest. There would be new training subjects tomorrow morning. Qin Yuan quickly ran down from a high place and whistled.

“Gather!”

With Qin Yuan’s order, everyone immediately stopped training and quickly gathered in his direction.

Not long after, a small square team appeared in front of Qin Yuan.

“Everyone has been training hard all day. Go back early today and have a good rest. Tomorrow is another ‘tough battle’.”

Qin Yuan said in a relaxed tone.

“It looks like it’s about time. It’s just in time to go back to the canteen and eat. It’s been hard on you recently. I’ve also communicated with the canteen and made some corresponding improvements to your recipes.” When everyone heard this, they became excited.

Geng Hu, the glutton, was especially excited.

“Captain Qin, tell us what new dishes you added? Now that you mention it, I’m hungry.”

Geng Hu said excitedly.

Geng Hu, you glutton. You’re so excited when you hear about food.”

“Captain Qin! Food is the most important thing for the people. We train so hard every day, so we have to eat well to train better!”

Everyone burst into laughter when they heard Geng Hu’s quibble.

“Alright! Stop talking nonsense in front of me!”

Qin Yuan suddenly became serious.

If you’re free, turn your glib talk into motivation for your training. Bring out your strength and potential.” Let me see your invincible strength during the drill.”

“Alright! I won’t say much.”

“Everyone! Today’s training ends here. Dismissed!” Qin Yuan ordered the dismissal.

“Yes, sir!”

Just as he finished speaking! Everyone quickly dispersed like wild horses that had been released from their reins. They ran all the way back to the base and enjoyed the most relaxed moment of the day.

Qin Yuan also seized the time to return to the base to seriously review the training situation today. He summarized the training situation and sorted out many of the questions that he had asked throughout the day.

It was so that he could better formulate and adjust the training plan later. Although every training mission arranged by the higher-ups would have a very detailed training plan.

However, they would usually make adjustments to the training according to the daily training situation, so that the training plan would be more suitable for the soldiers' training situation. Teaching students according to their aptitude would yield twice the result with half the effort.

Just like that, under Qin Yuan's careful training plan, the soldiers' combat skills improved by leaps and bounds. Soon, two to three months came to an end.

At this moment, Long Xiaoyun brought Lin Xiaoxiao to the training base to report to Qin Yuan about the training situation during this period of time.

"Captain Qin! I'm training him!"

Qin Yuan heard Long Xiaoyun's voice and turned around.

"That's right! Captain Long, that's right. The strength of the opponent this time can't be underestimated. In addition, the time is tight and the task is heavy."

"I can't wait to train them day and night. Fortunately, after these few months of special training, the results are quite remarkable."

Qin Yuan said calmly.

"Captain Long, speaking of which, I've been busy with training during this period of time. I haven't had time to ask about the training situation in your information technology department."

Qin Yuan suddenly changed the topic and asked about Long Xiaoyun's situation.

"I came here this time to tell you about this." Long Xiaoyun replied to Qin Yuan with a smile.

"The improvement of my technology is also progressing very smoothly. In order to better prepare for the drill, I even applied to the higher-ups to introduce the latest information technology equipment."

"The new equipment has been used very smoothly, especially for Lin Xiaoxiao, even though she's new here."

However, he performed very well in his job. His learning efficiency in the new equipment was especially good, and he quickly adapted to the new environment. "

When Qin Yuan heard this, he looked at Lin Xiaoxiao and praised her, "Lin Xiaoxiao! Not bad. Our Captain Long doesn't praise people easily."

"To be able to receive such praise from Captain Long, it means that you are serious about your mission in the Information Technology Department."

“Thank you for your praise, Captain Qin and Captain Long! I’ll definitely work harder in the coming days!”

Lin Xiaoxiao, who was praised by Long Xiaoyun and Qin Yuan, revealed a bright smile like a little girl.

“Yes! Not bad! I really didn’t choose the wrong person!” Qin Yuan continued to say with certainty.

“Captain Qin, I actually have something I want to ask your opinion on.” Long Xiaoyun suddenly hesitated.

“Captain Long, speak!”

“This Xiaoxiao was specially recruited by Captain Qin. Because she performed very well in the information technology department, I wanted to hand over the newly introduced information technology equipment to her.”

“What do you think?”

Chapter 618 - 618: Quinquennial Joint Military Drill!

When Qin Yuan heard this, he immediately laughed.

“Sure! No problem! Since I gave him to you, he’s yours. Captain Long, if you think he’s suitable, keep him.”

“Xiaoxiao, hurry up and thank our Captain Long for entrusting you with this important task!”

Lin Xiaoxiao immediately stood up and saluted Long Xiaoyun.

“Thank you for your trust, Captain Long. I won’t let you down!”

“When I first saw you, I thought you were a good soldier. It’s a good thing that I didn’t waste my effort to bring you into Battle wolf.”

“Otherwise, our Captain Long will lose a beloved general!”

“Captain Qin, don’t make fun of me. How can the person you chose be wrong?” Right at this moment, a signal soldier from Battle Wolf Base ran over to relay the message.

“Reporting to Captain Qin! Chief Gao Shiwei suddenly came and is waiting for you and Captain Long in the conference room.”

The signalman straightened his body and saluted.

“Please go to the base conference room immediately!”

“Alright! Go back and tell the chief that we’ll go over immediately after arranging the training.” Qin Yuan replied to the soldier in a gentle tone. “Yes, sir!” After the signalman replied to Qin Yuan, he quickly turned around and jogged towards the administrative building of the base.

Although he was surprised by the sudden visit of Chief Gao Shiwei, he did not ask much.

Looking at the back of the signal soldier, Qin Yuan turned around and called Liu Ye over.

“Liu Ye, the chief is here. Captain Long and I have to go back to check on the situation. I’ll leave the training ground to you. Keep an eye on it.”

“Yes, sir! Captain Qin! Don’t worry, leave this place to me. I’ll help you keep an eye on their training.” Liu Ye answered firmly.

After saying that, Qin Yuan and Long Xiaoyun brought Lin Xiaoxiao to the conference room of the administrative building of the base.

At this moment, they were also wondering why Gao Shiwei, suddenly came to Battle wolf Base without saying a word. After thinking about it, Qin Yuan and Long Xiaoyun were confused.

When they arrived at the door of the conference room, they were not in a hurry to enter. Instead, they subconsciously stood at attention and tidied up their appearance. After ensuring that they were neat, they knocked on the door and signaled for them to enter the conference room.

Chief Gao Shiwei heard the knocking and turned around. A warm smile appeared on his face.

“Qin Yuan, Long Xiaoyun, you came at the right time!”

“I came here specially to talk to you about this exercise.”

Qin Yuan was puzzled when he heard this.

“Chief, haven’t we already gone through the drill process? Was there any change now? Logically speaking, if there are any changes, the director department will directly contact our base.”

“Why did I trouble you to make a trip personally, Chief?”

” The scale of this large-scale exercise is not to be underestimated. I have to personally come to your base to go over the details with you to ensure that this exercise is foolproof.”

Gao Shiwei’s peaceful smile disappeared and his expression turned serious.

At this moment, Gao Shiwei, suddenly noticed Lin Xiaoxiao, who had been standing silently behind Long Xiaoyun and Qin Yuan. He saw that she was an unfamiliar face.

Gao Shiwei asked with concern, “Yo!” The little girl behind looks quite unfamiliar.”

“Is this Battle wolf’s new friend that we recruited a while ago?”

Hearing Chief Wei's concerned greeting, Qin Yuan gave Lin Xiaoxiao a look, and Lin Xiaoxiao immediately understood.

He immediately straightened his back and saluted Gao Shiwei." Hello, Chief! I'm a new member of Battle wolf's IT department!"

Gao Shiwei looked at it and smiled.

"Yes! Not bad! He's very smart and has a good mental appearance. He's a promising talent!"

"That's right. He just joined the information technology department not long ago, but he's already recognized by Captain Long with his strength."

Qin Yuan followed Gao Shiwei's words.

" This time, Lin Xiaoxiao will be in charge of the latest information technology equipment!"

"Yes! Very good! As their leader, you should be able to recognize talents and make good use of them!"

Gao Shiwei praised them for their good management.

"Qin Yuan, since I'm here this time, I'll let you know about this military exercise in advance."

Gao Shiwei, immediately brought the topic back to the main topic, which was also the true purpose of his sudden visit.

" The first battle of the Blue Army's drill in three days will be a confrontation with the strongest Dragon Shadow Special Forces in our military region."

"Dragon Shadow Special Forces? Chief, that is the famous Amur Tiger in the military region. They are the king among kings of the special forces."

Qin Yuan recalled his previous understanding of the background of the Dragon Shadow Special Forces.

"That's right!"

"So if you want to achieve good results in the exercise this time, you can't let your guard down. You must be on high alert and not relax for a second."

Gao Shiwei said with a worried look in his eyes. He considered that the Battle wolf were all new recruits who had little experience in combat.

Regarding this issue, don't worry. After three months of hard training, with Battle wolf and Wolf Fang's current strength, they can handle a large-scale military exercise."

Qin Yuan promised Chief Gao Shiwei solemnly. Seeing Qin Yuan's determination, Chief Gao Shiwei was temporarily reassured.

” Three days later, in the first phase of the battle drill, the blue army formed by you, Battle wolf and Wolf Fang, will guard the 535th defense line of Langshan Base.”

” The Red Army is represented by Dragon Shadow and Mountain Leopard

Special Forces. They will attack your base in three days.” ” As long as you hold the 535 defense line, you win!”

Gao Shiwei paused for a moment before continuing.

Because the environment of this exercise is highly simulated, as long as it doesn’t violate the red line of the director’s team, you can be flexible in the tactical response of the exercise.”

“Don’t be restricted by the rules. There is no director team in a real war. You may encounter unexpected situations at any time and need to respond quickly and in time.”

If you lose the 535 defense line this time, the Red Army will win!”

“Qin Yuan, Long Xiaoyun, the two of you better remember that the ultimate goal of this Blue Army exercise is not to win or lose, but to execute the action and obey!”

Just as he finished speaking! Long Xiaoyun and Qin Yuan immediately straightened their bodies and saluted.

“Roger that! I promise to complete the mission!”

Qin Yuan and Long Xiaoyun responded to Chief Gao Shiwei in unison.

His loud voice echoed in the conference room.

The background of Dragon Shadow and Mountain Leopard, who were involved in this exercise, was very powerful.

The glorious deeds of these two special forces were well known in the military. No matter what important mission the higher-ups had to carry out, the figures of the Dragon Shadow and Mountain Leopard Special Forces would always be present.

He had also participated in the National Day military parade many times. He had participated in six major military exercises since Dragon Shadow and Mountain Leopard, winning six grand slams.

Now that Battle wolf and Fang Ya, who had little experience in this exercise, were fighting against Dragon Shadow and Mountain Leopard, it was understandable for Chief Wei to be worried.

Battle wolf had only been established for less than a year. The strength of the first and second teams was commendable, but the third team had just arrived this year. It was like a new weapon that had not been opened yet. In principle, they still needed to continue to adapt for a period of time.

“However, the higher-ups attach great importance to this year’s exercise. The weapons they equipped you with are the most advanced and imported. Some of them haven’t been opened yet.”

Gao Shiwei said.

” This is also a good opportunity for you wolf cubs to experience an advanced weapon and broaden your horizons!”

However, it’s not enough to just have good equipment. The human factor is the most important factor. Only when a good weapon is matched with a good talent can the weapon unleash its greatest power.”

” Chief is right. I will definitely remember your teachings. I will definitely lead the soldiers and lead them to achieve outstanding results in this military exercise.”

Qin Yuan replied firmly to Chief Gao Shiwei.

Alright, I’ve come here to tell you guys more or less. I hope that you guys can win the big exercise this time and win the championship in one fell swoop!” “It’s getting late. I have to go back first. There are still a lot of things waiting for me to deal with!”

Chief Gao Shiwei said as he walked out. Qin Yuan and Long Xiaoyun also hurriedly went up to send Chief Gao Shiwei off in a car..

Chapter 619 - 619: The Confrontation Begins!

Three days later...

The war zone’s army decisive confrontation exercise began as scheduled.

At this moment, the captain of the Dragon Shadow Special Forces Base, Wu Tian, looked at Qin Yuan’s background information in his hand. He took a cursory look and casually threw it back to the soldier beside him.

” This Battle wolf is a special forces unit that has just been established for less than a year. Moreover, there are new special forces recruits who have no combat experience.”

Wu Tian said disdainfully.

“Captain Wu, I heard that after Qin Yuan joined the army, he entered many military academies for further studies. He focused on studying the latest technology and tactics. He has a Ph. D. in tactics.”

Du Dahai, the vice-captain of the Dragon Shadow Special Forces, continued Wu Tian’s words.

“Humph! Doctorate in tactics? You brat.” Wu Tian snorted as he walked into the military SUV that had been parked at the entrance of the base.

“Dahai, come with me. We still have a lot of details to confirm later to make sure everything goes well.”

Wu Tian stopped Du Dahai, who was about to walk to another SUV.

“Alright! No problem.”

“Xiao Liu! You guys follow Captain Wu’s car!” Du Dahai immediately informed the driver.

“Yes, sir!”

After Wu Tian and Du Dahai got into the car, the Dragon Shadow Special Forces ‘huge drill troops collectively set off towards the 535th defense line of Wolf Mountain Base.

At this moment, Wu Tian, who was in the car, was still extremely dissatisfied with the opponent who organized this exercise.

“What’s going on with the higher-ups now? They want us to fight against a team of Battle wolf that has been established for less than two years.”

‘ No matter if it’s in terms of qualifications, strength, or experience, they’re all different.”

Wu Tian kept complaining.

In other words, it’s like two people playing Chinese chess. You’re obviously looking down on me by giving me a car full of guns.”

Du Dahai, who was listening at the side, also had some experience.

“Yes! You’re right. Personally, I prefer to meet my match and meet a good talent. Right?”

“That’s right! Who says so!”

“Besides, this Qin Yuan is just a researcher at the Academy of Military Sciences. He’s also a liberal arts graduate. He’s also involved in information technology and tactical research. What kind of talent is he?”

“If you ask me, there’s a mistake in the decision of the battlefield’s army’s decisive battle confrontation exercise.” Wu Tian said angrily.

“This... Captain Wu, don’t say this. If word gets out, be careful of being punished.”

Du Dahai reminded Wu Tian that he had said something rash.

“We understand the logic. We’re not all on the same side. We’re all on the same side.” Wu Tian explained.

At this moment, Du Dahai, who was sitting in the back seat, observed the environment outside through the front windshield.

” We’re about to enter the highway. Same old rules. You take the lead and I’ll cover the rear. Slow down.”

“Okay!”

It shouldn't be too much of a problem to reach Wolf Mountain before evening." Du Dahai looked at the time on his military wristwatch as he spoke.

"Xiao Li, pull over." Du Dahai said to the driver.

"Yes, sir!"

In fact, the organization had arranged for Battle wolf and Wolf Fang to fight against Dragon Shadow and Mountain Leopard. They did not expect the Blue Army to stand out at all.

At most, he would be a sparring partner for Dragon Shadow, Mountain Leopard, and the others. Moreover, he wanted to use this exercise to verify the true effect of the professional blue army in training practice.

He hoped that he could find some problems in the process of building it.

At the same time, the organization also wanted to use this large-scale exercise to let the entire army once again experience the famous legendary special forces of the Army.

After all, their combat style was worth learning from.

At this time, the blue army's helicopter temporary command center was hovering above the exercise area.

On the plane, Qin Yuan was observing the situation on the ground through the windshield with binoculars.

"Captain Qin! Come over and take a look." Lin Xiaoxiao called out to Qin Yuan, gesturing for him to come to the computer to check the drill data.

Qin Yuan also walked over when he heard the sound.

"Captain Qin, look!" Lin Xiaoxiao pointed at the real-time satellite surveillance on the computer screen.

Lin Xiaoxiao was nervously operating in front of the computer.

Wu Tian, where are they now?" Qin Yuan asked.

It should be at the front of the convoy, traveling at about 80 kilometers per hour." Long Xiaoyun said while looking at the data on the tablet in her hand.

"It is estimated that the vanguard troops and the frontline command center will arrive at Wolf Mountain at five o'clock in the afternoon. The assembly will be completed around seven o'clock."

'Where is the Dragon Shadow Special Forces?" Qin Yuan continued to ask.

"A battalion of the Army Engineer Regiment of the theater of operations has already arrived at Wolf Mountain. They're setting up a cannon position on the 303rd highland."

Long Xiaoyun reported the situation to Qin Yuan in real time.

“Huaibei Army, a battalion of the Long Range Rocket Cannon Regiment. They have also set off from the 8th camp and are expected to arrive at Wolf Mountain Base before evening.”

Qin Yuan nodded knowingly and continued to understand the situation.

‘Have the drones in deep camouflage been sent out?’

It’s been half an hour since we set off. I reckon we’re already above the Hongtian Lake Bridge.” Lin Xiaoxiao, who was operating in front of the computer, said as she switched the computer pages.

“Let’s switch to the screen.”

“Yes, sir!”

Lin Xiaoxiao immediately changed the scene.

” This is the GD15 highway. This is the most convenient route for Dragon

Shadow’s main force to travel to Wolf Mountain.” Qin Yuan looked at the screen and nodded with certainty. ” The drone will lower its altitude and go against the current.”

‘Yes, sir!’

At Qin Yuan’s request, Lin Xiaoxiao immediately adjusted the height of the drone remotely..

Chapter 620 - 620: The Confrontation Begins!

At this time, a drone disguised as an eagle flew over the GD15 highway. It quickly changed its direction and flew low toward the Dragon Shadow Special Forces convoy.

Hawk’s radar has detected the target. Distance: 20 kilometers.” Lin Xiaoxiao reported.

“Team Qin, if we want to set up an ambush, I think the best ambush point should be on the Huaiyang River Bridge 70 kilometers ahead.” Liu Ye suggested.

” This bridge is 1206 meters long. The center of the bridge is 50 meters above the water.”

Liu Ye looked at the bridge data that he had collected earlier and continued.

‘When the Dragon Shadow fleet is five kilometers away from the bridge, we’ll arrange for the armed helicopters to approach the bridge from both sides of the river.”

“Hover below the bridge and above the water.”

‘When the convoy reaches the center of the bridge, another assault helicopter can suddenly appear above the bridgehead and attack Dragon Shadow’s vanguard.”

Liu Ye explained the tactical analysis in an orderly manner. Qin Yuan fell into deep thought as he listened.

” At this moment, their convoy will definitely stop and fight. As for me, I will lead the assault helicopters that are lying in ambush on both sides of the bridge and attack the mount of Dragon Shadow Special Forces Captain Wu Tian from both sides of the bridge.”

“Yes! Not bad!” Qin Yuan expressed his approval of Liu Ye’s meticulous plan.

“I think your plan is quite perfect, but have you thought about it?”

Qin Yuan’s words suddenly changed, and Long Xiaoyun and Liu Ye immediately paid attention to him.

The two of them revealed doubts in their eyes. The plan was clearly so thorough, could there be a loophole?

“Even if we successfully attack Wu Tian, Wu Tian is no longer around. He still has the vice-captain in his team.”

“According to the rules of this exercise, the vice-captain can still continue to command the battle in place of the captain.”

‘ Let’s assume that all our plans will be exposed by then.”

It had to be said that Qin Yuan’s analysis of problems was very unique. He could always see through the surface to see the essence.

Including the location of our temporary command center in the air.”

” Then their assigned helicopter group and missile air defense units will undoubtedly target us.”

“If we really get to that point, we’ll be dead. We’ll fall into their surveillance circle and we won’t be able to stop them from advancing.”

Qin Yuan analyzed the various possible risks that he would encounter if this plan was implemented step by step.

At this time, Long Xiaoyun seemed to have understood Qin Yuan’s intention.

“Captain Qin, do you mean to change the plan?”

“That’s right!”

” We must be unconventional and think in reverse to catch the enemy off guard.”

If it’s a real battle, when faced with a battle situation of thousands of transformations and a vicious enemy, you must make good use of reverse thinking tactics to have a chance of winning by surprise.

“Then, Captain Qin, do you have any new ideas for this operation?” Long Xiaoyun continued to probe.

“The image captured by the drone just now has completely shown that he was in level one combat readiness throughout the entire march.”

Liu Ye let out a long sigh after listening to Qin Yuan’s analysis.

“That’s right! With the current position of Dragon Shadow’s commander, He Zhizhou, it would be ideal if we could take out their military and political officers at the same time.”

Qin Yuan did not reply directly. Instead, he looked at Lin Xiaoxiao, who was in front of the computer.

“Xiaoxiao, did you find anything new?”

‘ Captain Qin, the eaglet has arrived at the rear of the convoy. We’ve discovered many small cars and ambulances.’

Lin Xiaoxiao reported the situation truthfully.

“What about their ammunition and fuel trucks?” Qin Yuan asked.

‘ Currently, there are no traces of ammunition trucks or fuel supply vehicles.’

” This doesn’t make sense. Such a big operation, such a long-range mobile equipment, how could they not bring fuel?”

Liu Ye voiced his doubts.

“According to the information we collected from the first five exercises of the Dragon Shadow Special Forces, Wu Tian paid great attention to saving ammunition and fuel during each exercise.”

Long Xiaoyun quickly flipped through the cloud data database on the tablet in her hand.

“This combat habit of his comes from his native family’s tutoring relationship.” Long Xiaoyun looked at the relevant information and continued.

His father is a veteran of the New Fourth Army. He is required to be extremely thrifty in his daily life, whether it is food or clothing.”

“He said that every bullet is the blood and sweat of the people.”

” Therefore, every time he participated in the exercise, the vanguard troops would be filled with fuel and ammunition, and the follow-up troops would only bring one- third of it.

If we can’t take down the target within three days, he will order the delivery of ammunition and fuel.’

After Qin Yuan listened to Long Xiaoyun’s explanation, a thought-provoking smile appeared on the corners of his mouth.

“It seems that Captain Wu is an officer who knows how to live.” Qin Yuan smiled.

“But they brought out all their equipment this time. Without enough supplies, how are they going to fight a tough battle with us?”

‘ Perhaps, is there a possibility that Captain Wu thinks that taking down the 535 defense line is a piece of cake?’

“Captain Wu might not even take us seriously.”

“I understand!”

When Zhou Qing heard this, he came to a sudden realization.

In other words, they are already building their artillery positions. Then their long-range rocket artillery battalion will definitely reach Hill 303 ahead of time.”

“Once his command center arrives at Wolf Mountain Base, it’s very likely that they’ll start preparing for artillery fire.”

“That’s right! Your judgment is very accurate this time, Zhou Qing.” Qin Yuan said with certainty.

I don’t know if you guys noticed, but their infantry unit is at the front of the convoy.” Long Xiaoyun added.

Once the artillery fire is ready, their infantry battalion can immediately attack the 535 defense line that I set up.” “Damn it! From the looks of it, they want to end this quickly!”

Geng Hu immediately said.

” You guys are right. Your analysis of Dragon Shadow’s tactics is very accurate.” Qin Yuan confirmed their judgment.

If their plan succeeds, our current defense line 535 will not be able to resist Dragon Shadow’s fierce attacks.”

At this moment, there was a sudden movement from the intelligence gathering soldier.

” The intelligence center has sent the latest information!”

” All members of the Dragon Shadow Special Forces have left the camp. The rear of the team has successfully entered the highway.” Qin Yuan immediately asked, “Check where Wu Tian is immediately!”

“Wu Tian has already left the canal bridge with the vanguard.”

“How far is it from his lair?”

“About 260 kilometers.”

When Qin Yuan heard this, he immediately had a scheme in his mind, and the corners of his mouth revealed a devilish smile. He immediately gestured for the others to come closer.

‘Look, Wu Tian is far away from his base. Why don’t we go to his camp and take a look?’

‘What? Captain Qin, you’re not following the drill rules.’ Liu Ye questioned Qin Yuan’s plan in confusion.

‘Captain Qin, don’t tell me you’re planning to sneak up on their battalion headquarters and destroy their rear?’

Long Xiaoyun analyzed.

‘Team Dragon, this is a modern battlefield. There’s no need to distinguish between front and back.’ Qin Yuan refuted Long Xiaoyun’s statement and continued.

‘Since our strength is not symmetrical, let’s fight an unbalanced battle.’

‘Immediately inform all the battalions to abandon the plan to intercept and kill them by land! Change course and head straight for Dragon Shadow’s lair.’

Qin Yuan immediately ordered Liu Ye.

‘Yes, sir! Arrange it immediately!’

As the order was given, all the troops that had been lying in ambush on the land immediately changed their direction and flew straight to the Dragon Shadow Special Forces ‘headquarters.

Suddenly, the drone monitoring system sounded a danger alarm, attracting Qin Yuan and the others.

‘What’s wrong with drones?’ Qin Yuan immediately asked.

‘The eaglet should have been discovered by the Red Army’s air defense red radar.’

‘Think of a way to get rid of it immediately.’

‘No, the Red Army is using strong electromagnetic interference at the same time. The command transmission channel is blocked. Unable to give orders!’

At this time, Wu Tianjun of the Dragon Shadow Special Forces used the communication landline to ring.

Wu Tian picked it up casually. ‘What is it?’

‘Reporting to Captain Wu! The Blue Army drone has been discovered by our radar and has now locked onto the target. After accurate analysis, it has been confirmed to be the Blue Army’s unmanned reconnaissance aircraft.’

‘Cut the crap! Shoot him down immediately!’

‘Yes, sir!’
