

Special Troop 631

Chapter 631: Generosity does not foster soldiers, and compassion does not establish a world!

Wu Tian didn't want to talk for a moment. It was as if he wanted to turn his grief and indignation into an appetite. He ate the crayfish crazily, sucking on the taste of the crayfish's shell as he ate.

That scene was extremely satisfying.

"Old Wang, you have to be careful this time. The modern battlefield is hard to guard against." Wu Tian instructed Wang Zhigang earnestly.

"I will remember your teachings."

"Thank you, Old Wu!"

"With our relationship, there's no need to thank me. I have to thank you for inviting me out to eat crayfish."

Wu Tian teased Wang Zhigang.

"I'm telling you, I'm a negative example of the Army in the theater of operations. I might not even be here tomorrow."

After saying that, the two of them raised their glasses and downed their drinks.

"I say, Old Wu, aren't you being too pessimistic? Do you really have to do this?"

"Right, let's not talk about me first. No matter how bad I am, I'm still like this.

As for you, why haven't you returned to Chenghai? There are only a few days left before the start."

Wang Zhigang listened to Wu Tian's reminder and said unhurriedly, "I'm sharpening the knife, but it won't delay the wood-chopping work. I'll go to the office again in the afternoon."

When Wu Tian heard that, he was baffled by his schedule.

"This... What's there to run now?"

"Check my pulse!"

"Pulse?"

These words made Wu Tian even more confused.

"Old Wu, you're just not good at reading the Bureau Chief's pulse. If you had known the Bureau Chief's expectations for this exercise earlier, you wouldn't have ended up in such a sorry state."

To be honest, Wu Tian was not capable of trying to figure out the thoughts of the leader. He only knew where the leader pointed and where to go. He was focused on moving forward and did not care about the ways of the world. "To tell you the truth. You said that the Bureau Chief doesn't like you, and he's never been nice to me either."

“You don’t know, but he came to my Mountain Leopard Special Forces base once. I specially went to the beach to catch a fish for him.”

When Wu Tian heard this, he began to listen attentively.

‘ But what about him? After he finished looking at the equipment and the barracks, he left without even eating.”

“Damn! The current Bureau Chief seems to be different from the past. He’s too difficult to serve.”

“It’s good that they’re different! What’s the use of pulling so many connections!

Right?”

It could be heard that Wu Tian did not approve of this kind of flattery. “There’s one more thing, Old Wang. Don’t forget what you promised me!” “What is it?” Wu Tian’s sudden words shocked Wang Zhigang. “What did I promise you?”

“Defeat the Blue Army and defeat Qin Yuan! What else could it be?”

Every time Wu Tian mentioned Qin Yuan, he would always be filled with anger.

“Aiyo! I say, Old Wu, is there a need to make it so tragic?”

“I already know how to fight this battle.”

“Good! Not bad!”

Wu Tian could not help but give Wang Zhigang a thumbs up when he saw how confident he was.

“I didn’t eat the prawns for nothing today. I can taste them better if I eat them blindly.”

Wang Zhigang suddenly whispered to Wu Tian.

At the Information Technology Center, Qin Yuan and the others stared at the surveillance cameras. Qin Yuan let out a long sigh.

“They’re probably done eating. Xiaoxiao, go tell them to gather up and return to the base immediately.” Qin Yuan said to Lin Xiaoxiao.

“Roger that! Arrange it immediately!”

Qin Yuan looked at Long Xiaoyun, who did not say a word, and was a little puzzled.

“Why aren’t you saying anything?”

“Say what?” Long Xiaoyun said expressionlessly.

“What do you think?”

“Not bad!” Long Xiaoyun said as she waved her hand at the surveillance audio.

“What’s not bad? This is too perfunctory.”

I'm talking about their performance. Wang Zhigang is better than Wu Tian." Judging from their performance, Wu Tian is closer to acting in his own character. He's more down-to-earth, but I personally think more of Wang Zhigang."

"Why?" Qin Yuan said in confusion.

"There's room for competition."

"That's a good reason." Qin Yuan nodded knowingly.

Long Xiaoyun continued to talk about her analysis of these two people.

"Wu Tian is straightforward, straightforward, and simple. He can easily grasp his emotions, so he can defeat him with ordinary tricks."

"But Wang Zhigang is a little confusing. He's shrewd and has superb acting skills. It's very dramatic to fight him."

"That's why I like Wang Zhigang more, because it's more exciting to fight with him."

Qin Yuan stared at Long Xiaoyun's eyes with a questioning gaze. It made her feel guilty.

"Why are you looking at me like that?" Long Xiaoyun rolled her eyes.

"You didn't say what you were thinking, right, Captain Long? It's not your style to hold back."

"We're both doing things against our hearts, aren't we?" Long Xiaoyun said with a smile.

"You mean to say that defeating the People's Liberation Army is the victory of the People's Liberation Army?"

"What we don't want to see is what we have to do every day. We switch between the two channels every day."

"We want them to win, but we also want to defeat them. They will be depressed because of their defeat, but we will not cheer for their victory."

"This is the inner struggle of a professional blue team. This feeling has always been bothering me."

After hearing Long Xiaoyun's explanation, Qin Yuan closed his eyes and pondered for a moment.

"Captain Long, you've said what I've always wanted to say but didn't dare to.

However, you're only half right."

Chapter 632 - 632: Generosity does not foster soldiers, and compassion does not establish a world!

“Captain Qin, you’re still the same as always. You never give people full marks.” Long Xiaoyun said with slight disappointment.

“This... That’s not what I mean. In ancient times, there was an ancient saying that goes, if you don’t control the army with kindness, you won’t do anything with love.”

If we show mercy to them, won’t our exercise be a formality?”

” Then what’s the point of such a drill?”

“You should also know that our professional Blue Team was born to temper the Red Army.”

“If we defeat them today, they will only lose a little pride now. What about in the future? If they encounter a real enemy, it’s very likely that they will lose their lives. ”

” You might even lose the dignity and interests of the country.”

“Of course, I don’t think the Red Army will lose to the Blue Army forever. One day, they will defeat us.”

“At that time, what else do you have to worry about?”

When Long Xiaoyun heard this, it really made sense. As expected, Qin Yuan’s perspective on problems was different.

“Alright! Captain Qin, you’ve made me completely convinced. After hearing what you said, I feel relieved.”

“Captain Long! Tell me, what should we do next?”

“Tell Lin Xiaoxiao’s intelligence center to keep an eye on Wang Zhigang.” ‘ Looking for a fighter while moving.” Qin Yuan said.

“Wu Tian is right. The Blue Army is just a group of wolf cubs. Their strength is far inferior to Dragon Shadow and Mountain Leopard. The 535 defense line can’t withstand the powerful firepower.”

“You’re right.”

‘ Right now, we can only engage in psychological warfare and information warfare. Otherwise, it’ll be like a mantis blocking a tank. In the end, we’ll be crushed until we can’t even find our bones.”

Qin Yuan joked about the tactical design this time.

After Wang Zhigang had lunch with Wu Tian, he went to the office to visit a few old comrades and superiors.

He also basically understood the intentions of his superiors, which really made him feel a chill down his spine.

It turned out that the chiefs did not care about whether they could defeat the Blue Army or not. Instead, they paid more attention to how they fought and what kind of attitude they used to fight the drill.

Wang Zhigang thought to himself, 'Looks like I can't be half-hearted this time. I can only concentrate on fighting this battle and win.'

With Wu Tian's example, if he defeated Starlight, he might be defeated even worse than him.

At this moment, Wang Zhigang called Zhang Xiaoyu.

"Yu, I've already booked a flight for eight o'clock in the evening. I estimate that I'll be home around eleven o'clock."

"Alright, the preparations on my side are going smoothly. The preparations of all units are also proceeding in an orderly manner. We're just waiting for you to come back."

"Captain Wang, how are you feeling? Was it smooth? Did you get anything?" Zhang Xiaoyu couldn't wait to ask Wang Zhigang about his harvest.

"Of course! I'm pretty clear about the situation here, and I've gained a lot." Wang Zhigang smiled confidently.

"That's great!"

Zhang Xiaoyu stood up excitedly and sighed.

"The initial plan is to hold a swearing-in ceremony tomorrow morning. We'll set off after lunch."

"There's limited time to prepare for this exercise. We have to hurry up and set off."

"Wait for me to come back tonight. I have some new ideas now. Let's have a meeting tonight to study them."

"Xiao Yu, inform the Mobu Battalion that they don't need to participate in the drill anymore. They need to stay at the base."

Zhang Xiaoyu was stunned. Why was he left behind?

"Leave the Mobu 1st Battalion behind?"

At this moment, Lin Xiaoxiao's intelligence center was carefully studying the latest information.

"Captain Qin, Shan Bao and the others left behind a Mobu battalion to not participate in the drill. What do they mean by this?"

"This is a lesson learned from Wu Tian. He's afraid that we'll destroy his nest."

Qin Yuan, who had seen through the mountain leopard's intentions, replied Lin Xiaoxiao calmly.

At the Mountain Leopard Special Forces base, Wang Zhigang rushed back overnight to hold a seminar.

“Xiao Yu, let’s start the meeting tonight!”

Seeing this, Zhang Xiaoyu stood up and began to explain the military deployment plan for this exercise to everyone.

“The route of this march is divided into three routes. Other than the 1st Battalion of the Mobu Army, the 2nd Battalion will be directly under the Air Battalion...Take the middle road and the highway to the north.”

” Armored Battalion, Engineer Battalion, Logistics Department, Field Hospital, take the train from the left to the north.”

“The artillery regiment and the special forces will take the right road to the north. The departure time is two o’clock in the morning the day after tomorrow.”

“The above order is the marching sequence of each unit. Now, please give instructions, Captain Wang.”

“Is the route of each troop clear?” Wang Zhigang immediately straightened his posture and asked. “It’s all clear!”

Everyone responded.

“This time, the head of the army in the theater asked our Mountain Leopard Special Forces to take over the Dragon Shadow Special Forces and continue to complete the final stage of the actual combat exercise.”

“Do you know why?”

” This is the high regard and trust that the chief of the theater of operations has for the Mountain Leopard Special Forces.

‘ But at the same time, it is also a comprehensive assessment of the military accomplishments of our Mountain Leopard Special Forces.”

‘ Right now, our mission is very clear. After the drill begins, we will take down the 535 defense line of Wolf Mountain Base within three days.”

“Everyone here must be very familiar with Wolf Mountain Base. You’ve been there at least five times for training.”

” Therefore, I’m not too worried about the coordination and attack of the troops after they arrive at Wolf Mountain.”

‘What I’m worried about is the long march.”

“Why do we have to set the departure time to the morning of the day after tomorrow?”

It’s to get as much time as possible for each unit to prepare. We have to consider the problems that we might encounter during the march and the enemy’s situation. We have to be prepared.”

” There is another important reason for the defeat of the Dragon Shadow Special Forces. I didn’t expect that you would think of it, and that is, to fight hard instead of fighting hard!”

I only noticed the deployment of troops, tactical movements, firepower, and command coordination when attacking the 535 defense line.”

“And they neglected the emergency response to the enemy’s situation that might appear during the march and delivery process. In the end, the Dragon Shadow Special Forces were destroyed by the Blue Army during the march!”

Wang Zhigang analyzed the key factors that led to the defeat of the Dragon Shadow Special Forces.

” The two commanders were captured by the Blue Army during the march. In the end, they failed at the last step!”

The more Wang Zhigang spoke, the more excited he became.

“How can we not learn from the painful lesson of this senior?”

“Our troops will advance in three directions. It will be beneficial for us to flexibly deal with and prevent the Blue Army from ambushing along the way.”

” As for the other two routes, even if it’s just one route, we can still smoothly advance north to the Wolf Mountain training base. Then, we still have a chance to win.”

Wang Zhigang explained his plan to everyone step by step, and everyone present listened carefully.

” Time is tight and the task is arduous. We’re also facing the Blue Army’s main force, the Battle Wolf and Wolf Fang Special Forces, who have just defeated the Dragon Shadow Special Forces. We’ve never fought them before.”

“Speaking of which, I’ll distribute a copy of the information about the Blue Army to everyone later.”

“After the meeting, take a good look and study it seriously.”

“What does the failure of the Dragon Shadow Special Forces mean? It’s about underestimating the enemy!” Wang Zhigang said firmly.

“Not only that, but they also lack sufficient understanding of the Blues. If we don’t know ourselves and our enemies, can we be confident of winning every battle?”

Wang Zhigang’s every word was a powerful warning to everyone.

How could this drill not be a difficult problem that came by chance? In other words, it was a test and an opportunity for Wang Zhigang.

If Wang Zhigang could really take down the 535 defense line within the stipulated time of the exercise, he would defeat the so-called professional blue army in one fell swoop.

The reputation of the Mountain Leopard Special Forces would soon surpass that of the Dragon Shadow Special Forces.

Due to the lessons learned from the Dragon Shadow Special Forces, Wang Zhigang did not dare to slack off in his deployment this time.

The planning and deployment were flawless, and people had to admire his shrewdness and outstanding military talent.

“At the end of the meeting, do you have anything to add?”

“Captain Wang, I have some different ideas.” Hong Di added.

At this moment, Wang Zhigang, who had originally planned to end the meeting, was stunned. He thought to himself, What’s wrong? There were still people who doubted his meticulous deployment plan?

He immediately looked displeased..

Chapter 633 - 633: Fight All Three Paths!

Wang Zhigang looked at his watch and paused.

“Alright! Captain Hong, tell me, it’s just that it’s getting late now, so let’s make it simple.”

Captain Hong nodded knowingly and began to explain his point of view.

Isn’t it a little too ostentatious to drive in three directions? Moreover, the distance between the three groups is 70 to 100 kilometers apart.”

“Once they are attacked, it will be difficult for them to coordinate with each other in time.’

Wang Zhigang listened to Captain Hong’s suggestion and seemed to be a little angry. Why did the well-planned marching plan seem inappropriate to him?

“How can you call it too ostentatious?” Wang Zhigang asked impatiently. “Good! Why don’t you tell me? Which route is suitable?”

It was obvious that Wang Zhigang was suppressing the anger in his heart. After all, they were still in the conference room, so it was not appropriate for him to explode.

I think it’s best to go in two directions, thirty to fifty kilometers apart.” Captain Hong continued.

It’s also very convenient to provide cover and support if there’s a situation.

Moreover, the troops are concentrated.”

“It is difficult for the Blue Army to or dare not launch an ambush. and it also

prevents the possibility of the Blue Army concentrating its superior forces to encircle and annihilate one of our troops.”

Wang Zhigang did not say a word. Zhang Xiaoyu, who was beside him, said,” Captain Hong, the three roads have been deployed in advance. The troops have already gathered in place.”

“In my opinion, we don’t recommend making any changes to the army.” Obviously, Captain Hong did not listen to Zhang Xiaoyu’s words.

“I also think that it’s not appropriate to leave behind the Mobu 1st Battalion.”

When everyone heard this, they whispered to each other and expressed their doubts. Wang Zhigang was even more so. He suppressed his emotions and let Captain Hong continue.

“Tell me, how is it inappropriate?”

” The 1st Battalion is the main force of our base. They are good at attacking and attacking. Their combat strength is the combination of the 2nd Battalion and the 3rd Battalion.”

” Moreover, we are attacking the 535 defense line this time. The requirements for the combat strength of the army are even stricter.”

” Although the Blue Army only has two battalions to defend, if we don’t concentrate our forces and launch a strong offensive, it’s not realistic to take down the 535 defense line in a short period of time.”

“So, I think a company of soldiers is enough.”

“Qin Yuan is a person who doesn’t play by the rules. He’s good at playing tricks and taking a back-up route. Dragon Shadow’s lair was destroyed because their back-up was empty.”

Wang Zhigang said angrily.

“Do we want to make the same mistake?”

“I think they just used that trick. They won’t try to attack our base again.” “After all, you just said that he doesn’t play by the rules.” Captain Hong analyzed.

‘ Moreover, Dragon Shadow’s base is less than 500 kilometers away from Wolf Mountain Base. It’s possible for the assault helicopters to attack.”

Our base is more than 1,500 kilometers away from Wolf Mountain Base. If the large fleet doesn’t refuel midway, it will be difficult to complete the attack in one go.”

At this moment, Wang Zhigang’s expression became even uglier. In his eyes, Captain Hong’s persistence was too stubborn.

” Therefore, I still suggest that we change the plan and let the Mobu 1st Battalion participate in the battle.”

Wang Zhigang was in a dilemma when he heard this. He turned his head away without saying a word. Zhang Xiaoyu, who was at the side, quickly tried to smooth things over.

“Captain Wang learned about the internal situation from the commander of the war zone and made the decision after collecting the situation of the Blue Army.

I don’t think we should change this plan.”

Zhang Xiaoyu spoke to Captain Hong in a negotiating tone.

Hearing this, Captain Hong realized that there was no point in continuing to persist, so he did not continue to dwell on this point.

“Since you insist on letting the Mobu Battalion stay, I have another suggestion. ”

“I hope the higher-ups can consider it.”

“What suggestion?” Wang Zhigang asked.

It’s not suitable for our special forces to follow the artillery regiment on the national highway. The road conditions are complicated, and we pass through three provinces. The speed of our march will definitely be affected.”

” We’ll take the national highway to prevent the middle road from being on the highway. After we receive resistance, we can continue on the other road.”

I don’t think he’ll be able to set up an ambush in three directions with the current strength of the Blue Army.”

“I didn’t deny Captain Wang’s plan of three routes. It can effectively avoid the risk of being blocked along the way.”

“Then what do you mean?” Wang Zhigang asked Captain Hong impatiently.

‘ I’m thinking if I can send my special forces over. I want to use civil aviation.

My team will travel in civilian clothes.”

” We’ll set off tomorrow morning. We’ll gather at Guangming City outside Wolf

Mountain and then infiltrate. We’ll hide at Pear Tree Gully, the closest line to

535 defense

” First, we can scout the enemy’s front line. Second, we can launch a surprise attack when the main force arrives.”

‘ Old Wang, I think Hong Yi’s idea is good. He has participated in many combat training overseas and has rich experience in winning by surprise.” “It’s good for us to defeat the Blue Army. Why don’t you consider it?”

“Captain Hong’s idea is very creative and bold. Xiao Yu is right! We need to win by surprise! It can be adopted!”

Wang Zhigang's attitude suddenly changed.

"The plan is not bad!"

"But after such a long period of hiding, are you confident?"

"I'm confident!" Hong Yi said firmly.

I'll send a squadron over first to observe the situation. It's easier to hide with fewer people. When the main force arrives, I'll send another squadron over to strengthen the assault force." "Alright!"

"We'll do it according to your plan!"

Chapter 634 - 634: Fight All Three Paths!

However, the Mobu 1st Battalion cannot be left behind. It is a great taboo for a soldier to repeat the mistakes of others."

"The defeat of the Dragon Shadow Special Forces is still fresh in the Bureau Chief's mind. If we commit the same crime again..." "Even if our Mountain Leopard Special Forces won, we would lose points." "Losing points? What points?" Hong Yi was puzzled.

I'm talking about the impression points. If the special forces can set up defense at the 535 defense line in advance, we'll send the 3rd Battalion of the Moto infantry that was originally arranged to enter the middle."

"Move to the right lane to follow the team!"

"Old Zhu!"

"Here!"

"After the 3rd Battalion passes, you will be in charge. No further notice."

I left the Mobu Battalion to guard the house and ensure the safety of the Mountain Leopard Special Forces."

"It gave the three armies of the Red Army enough confidence to advance. Wang Zhigang has already found the feeling of victory in the second phase of the big exercise."

The Mountain Leopard Special Forces were full of confidence and pride, and Wu Tian, who had unfortunately been eliminated, had yet to recover.

Grief and frustration shrouded the Dragon Shadow Special Forces base.

Wu Tian and Du Dahai led all the soldiers in the base to train on the training ground.

"Did you express your stance that day?" Wu Tian asked Du Dahai.

"Weren't you there?" Du Dahai replied. "I represent you and the organization!"

“Come back and summarize it properly!” “What conclusion?”

“Of course, where did you lose?”

Wu Tian became anxious when he heard that.

“Until now, I still don’t understand where I lost!” Wu Tian said aggressively.

“Keep your voice down. The people below are all here.”

Wu Tian’s sudden roar stunned Du Dahai.

“What are you shouting for? Don’t be stubborn. Admitting defeat isn’t shameful, right?”

Qin Yuan also began to make emergency arrangements.

‘ Captain Qin, we found out through satellite surveillance that the Mountain Leopard Special Forces are now divided into three groups. That’s why the original plan was to cut off the highway to stop the Red Army from advancing quickly.”

“I might not be able to reach it.” Qin Yuan replied.

“That’s right!”

“This Wang Zhigang is much smarter than Wu Tian.” Zhou Qing said.

“I want to hear your thoughts.” Qin Yuan said.

It’s undeniable that Wang Zhigang’s three-way strategy is very clear. It’s impossible for us to stop all three at the same time.”

” We can only do our best to stop the middle road. Also, we shouldn’t give up on the plan to cut off the highway.”

Liu Ye analyzed carefully.

“Vice-captain Liu’s words have a certain logic. However, if we only block one path, I’m afraid...” Geng Hu voiced his doubts.

“Your worry is reasonable. I think we should put all our effort into blocking the Red Army’s right flank, and the second team should launch an attack on the middle flank.”

Long Xiaoyun explained her analysis in an orderly manner.

“The right flank of the Red Army is a cannon regiment. Once the Red Army’s cannon regiment is destroyed by us or is blocked by a strong force,”

‘ The Red Army’s artillery will lose its support, and the infantry will not be able to break through the 535 defense line in a short period of time.”

“I support Captain Long’s plan.” Geng Hu agreed.

” The artillery regiment of the Mountain Leopard Special Forces will not be able to move fast if they take the national road.”

” This way, we can take advantage of the favorable terrain to organize a battle.”

” As for the troops that are advancing quickly on the highway, we can send out small teams to attack in multiple sections. Let them stop and go. This way, they won’t be able to take advantage of their fast mobility on the highway.” “Not bad!” Qin Yuan nodded and said.

“Both plans have their strengths, but for our Blue Army, we are still inexperienced.”

“We were able to defeat the Dragon Shadow Special Forces not because of our strength, but because the other party was careless and we took advantage of it.”

‘ Now we all know that the Mountain Leopard Special Forces are not the Dragon Shadow Special Forces.”

‘ As you all know, his three-way advance is very effective. Therefore, I think our strategy should be...”

“Disrupting their plans!” Geng Hu interrupted.

“That’s right!” Qin Yuan said.

“How?” Long Xiaovun asked anxiously

“I think..Fight all three paths.”

Everyone was puzzled. How could they fight all three paths?

“Isn’t this appetite a little too big?”

“If we really fight, I’m afraid we don’t have the strength to do so. However, if it’s not big, we’ll definitely lose!”

“My idea is to hit the snake seven inches away and use my strengths to attack its weaknesses. We’ll mainly harass them and mess up their plans.”

” They are now advancing in three directions, like three long snakes. There must be a weak link in them.”

‘ Our next task is to collect more information on this. As long as we find the key points, we’ll have a way to make a move.”

“As long as we can make them stop and go, our goal will be achieved.”

“How about this, Captain Qin! Then let’s come up with a detailed plan! ” Zhou Qing suggested.

“Good!”

Early the next morning, Hong Yi of the Mountain Leopard Special Forces brought a group of soldiers in disguise to board the plane at the local airport.

“Hong Yi...” Zhang Xiaoyu sighed.

“What’s wrong? Is Vice-Captain Zhang still worried about me?”

“It’s not that I’m worried. I just think that you’re exciting.”

“This is the first time I’ve fought against this Blue Army.”

” We’ve never met before. This time, we’ve finally met the Blue Team’s chief officer. ”

“How do you feel?” Hong Yi asked.

It’s a pity that we didn’t have any direct communication, but they seem very smart and young.”

“Maybe it’s a good thing for us to fight against the Blues as soon as we come up, but we can’t let our guard down.”

“The Blue Army’s reconnaissance ability is very strong, and the technical equipment is also very advanced.”

Hong Yi nodded in agreement after hearing this, and Zhang Xiaoyu continued.

‘ Everyone knows our captain’s temper. He doesn’t like his subordinates to refute his opinions in public.”

“But it’s not good for you to block so many people’s meetings and deny his decision.’

“This matter is of great importance. If you don’t say it, I’ll be afraid.

Zhang Xiaoyu immediately interrupted Hong Yi’s explanation.

“We can talk after the meeting.”

“I know what you said makes sense, but I can’t help it.”

Zhang Xiaoyu looked at the time on his watch and saw that it was almost time.

‘ Alright, I still have to catch up with the main force. Captain Wang and the others have already set off. I still have to rely on your special forces at the critical moment.”

“Alright! Then I’ll board the plane first!”

“Be careful!”

The two of them shook hands and said goodbye at the airport.

Blue Army Base Command Center-

“How is it?” Qin Yuan walked over to Long Xiaoyun and asked with concern.

” The Mountain Leopard Special Forces ‘1st Battalion is their main battalion for mountain warfare, but they’re staying at home.”

Long Xiaoyun said with a puzzled expression.

“Damn!

“I have to say that Wang Zhigang has come with ill intentions this time. He’s advancing in three directions and driving straight in.”

“In my opinion, if we really fight head-on, I’m afraid we won’t be able to block it.”

“Liu Ye, aren’t you planning the battle plan this time? Tell me.”

” This is the information obtained by the Information Center last night. They sent hackers to infiltrate the network of the Mountain Leopard Special Forces and intercepted the military plan.”

“On the right is an artillery regiment, a reinforced ground artillery battalion, and a long-range rocket artillery battalion. There’s a special forces team behind us.”

‘ Yan Guo will go north. We’ve set up two defensive positions around Mount Tongling and Mount Xiaomao. We should be able to intercept them for about two days.”

“I’m optimistic about Wang Zhigang’s middle path.” Long Xiaoyun expressed her different opinion.

“Middle lane?”

“How do you plan to fight?”

“I’ve made a plan here. Take a look!”

After that, they gathered in front of the computer in the command center and discussed with each other.

At this moment, the Mountain Leopard Special Forces were also setting off from the base one after another, heading all the way to the 535 defense line at Wolf Mountain.

Zhang Xiaoyu received the report that Hong Yifang had arrived safely and immediately reported to Wang Zhigang.

“Captain Wang! Hong Yi and the rest have safely arrived at Xiaoguang Airport.”

“Good! Tell them to keep in close contact and report their progress at any time.”

“Good!”

Hong Yi’s vanguard arrived first, and the Red Army could be considered to have taken the first step in this exercise..

Chapter 635 - 635: Use the First One!

“Captain Wang, I forgot to tell you something.” Zhang Xiaoyu said.

“What is it? Tell me about it.” Wang Zhigang said.

“When I sent Hong Yi and the others on the plane, he made up a code for me at the last minute. It was mainly to prevent anyone from eavesdropping and leaking secrets.”

” What era are we in now? Why are you still using such 1940s spy tactics? Now that there are frequency-hopping encrypted radio stations and network encryption technology, there’s no need to spend so much effort.” Wang Zhigang expressed his disdain for Zhang Xiaoyu’s code plan. “Hong Yi, say it. It’s necessary to be more vigilant.”

“What Hong Yi means is this. His current identity is an engineer in the company. They are their general manager. They are going to complete a project.”

” The 535 defense line is the construction site, and the combat operation is the construction plan. ”

When Wang Zhigang heard this, his train of thought seemed to have opened up.

“Yes! Not bad! Now that you mention it, it’s quite interesting.”

” Xiao Yu, call Engineer Hong immediately and tell him about the situation at the construction site. Tell him to pay attention to construction safety.” “We must put an end to industrial accidents!”

“I didn’t expect this! CEO Wang has gotten into character so quickly?” Zhang Xiaoyu joked with a smile.

Then, the two of them looked at each other and smiled. Then, Zhang Xiaoyu picked up the phone on the table and dialed Hong Yi’s number.

” The user you have dialed is switched off. Please try again later!”

“Hmm? Why was his phone turned off? Weren’t we on the phone just now?” Wang Zhigang said suspiciously.

“I think the battery is out. He’ll call back later.”

“Look!” Wang Zhigang took his laptop and moved closer to Zhang Xiaoyu, indicating for him to watch it together.

I heard that I’m going to fight the Blue Army. Several old comrades in the war zone sent me some information about the Blue Army.”

Zhang Xiaoyu read the information on the Blue Army's background clearly on the computer.

‘ Half a year ago, in order to further reform the training methods of the army, improve the actual combat training level of the army troops, and break through the bottleneck of the long-term peaceful environment, the head of a certain military region suggested the establishment of a blue army imaginary enemy force.’

Zhang Xiaoyu was about to say something to Wang Zhigang, but before he could speak, Wang Zhigang interrupted him.” Hey, don’t be in a hurry to say it. Read on first. There’s more.”

“This unit does not belong to any group army. It is directly commanded by the head of the army in the theater of operations. It is a brand new organization. The leader of the blue army, Qin Yuan, was transferred from the Academy of

Military Sciences.”

‘ Continue reading. There’s one more.” Wang Zhigang reminded Zhang Xiaoyu to continue reading.

It’s to avoid ‘inbreeding’ and all kinds of interpersonal relationships within the theater army. After Qin Yuan took office, he almost never met the commanders of the other army units in the war zone.”

” The Blue Army is built according to the digital establishment of foreign armies. The army is equipped with a sufficient number of civilian personnel to form an information center.”

“The Blue Army usually wears a foreign military uniform and speaks English, French, Japanese, etc. They mainly eat Western food. The camp area hangs the Wolf Head flag and sings a military song similar to that of the foreign army. The firearms and equipment are imported or the latest equipment that our country currently sells. We are currently renting two military satellites, which can obtain military intelligence information 24/7.”

“Oh my god! This is too awesome!” Zhang Xiaoyu couldn’t help but sigh when he read this.

“Don’t be in a hurry to be surprised. There are even more awesome things to come. ”

“The Blue Army also has two foreign military research experts. Both of them have participated in international peace-keeping operations and studied in foreign military academies. They have studied the construction of the foreign army’s Blue Army.”

“Captain Wang, this time we really feel like we’re fighting against a foreign army. ”

” That’s why it’s said that sharpening a knife will not delay the work of chopping firewood. I went to the theater army to collect this information and use all my connections to figure out the current situation of the Blue Army.”

How could Wu Tian know that the Blues have such a background? It would be strange if he could win!”

After listening to Wang Zhigang’s words, Zhang Xiaoyu’s face was full of admiration.

“Captain Wang, I didn’t expect you to be so thoughtful.”

“Think about it. It’s not easy to fight a drill. We have to put in some effort outside of the drill.”

Blue Army Command Center

Qin Yuan looked at the battle plan on the computer and smiled without saying a word.

“Captain Qin, what do you mean by smiling but not saying anything?” Zhou Qing immediately asked Qin Yuan what he was thinking.

“Will it work or not? We still have a second plan.” Long Xiaoyun also became impatient.

“There’s no need for the second one. I’ll use the first one!” Qin Yuan replied decisively.

“Really?” Zhou Qing confirmed.

“It’s true!”

Immediately upload it. Even if it doesn’t work, it will at least scare them.”

“Yes, sir!”

Zhou Qing, who received the order, immediately went to the computer to execute the operation.

‘ Captain Long, I heard from Xiaoxiao that he’s currently studying the humane qualities of the leaders of Dragon Shadow and Mountain Leopard.” “Tell me, what does this mean? Is there any explanation for studying this?”

” Xiaoxiao is analyzing a person’s fate and destination from the perspective of the character, behavior, and hobbies of the mission.”

“For example, Wu Tian and Wang Zhigang used to like drinking, but now the army rules forbid them from drinking. ”

‘ Some people might be able to smoothly transition to the emergency brake and have strong self-adjustment and adaptability. Others might find it difficult to adapt and inevitably get into trouble after drinking..”

Chapter 636: Use the First One!

” They started with a microscopic phenomenon to study the changes in the mental state of the soldiers after the military reform.” Is there any meaning to this research?”

The more Qin Yuan listened, the more confused he became.

Information science itself is a new cross -discipline. Only by going deep into it and verifying it horizontally can we obtain the so-called harvest.” Long Xiaoyun continued to explain to Qin Yuan happily.

‘ As for the meaning, I can’t really define it, but I feel that as long as we explore it, it will be meaningful.”

“Not to mention anything else, after hearing what you said, I’m really a little confused.” Qin Yuan shook his head and said.

‘ That’s not surprising. The era of the military region has suddenly entered the era of the war zone. The concept of the Continental Army has been broken.”

‘ The main battle zone, the main military service, the joint combat command system, and the military system will be reconstructed.”

“Who wouldn’t be stunned by such a huge commotion?”

Long Xiaoyun was not surprised by Qin Yuan’s reaction at all.

” Therefore, any exploration is meaningful, even if it fails.”

“Then tell me, what’s the point of failure?” Qin Yuan laughed as he continued to ask.

” The meaning of failure is to find a shortcut for the succeeding ones. It’s that simple.
”

“No! I don’t agree with what you said.”

“I don’t think it’s that simple.”

Qin Yuan refuted Long Xiaoyun’s point of view unhappily.

“What do you mean?”

“As for the loser, not only does he have to bear a huge pressure, but he also has to bear the responsibility and bear the consequences. It will make people doubt his strength.”

In the end, we might even face the survival of the fittest!

“That’s why no one wants to be a loser and a stepping stone for a winner.” “The logic is simple, but it’s not easy to understand.” Long Xiaoyun said. ” The first batch of participants in the military reform must be pathfinders, or even devotees who have to sacrifice.”

” The ones who truly enjoy the fruits of the military reform are undoubtedly the people who came later.”

” Therefore, we should have a clearer understanding of this. We don’t know how far the specialized Blue Army can go, but we still have to continue moving forward. This may be the courage and spirit of the military reform participants.”

“What else?” Qin Yuan continued to ask.

“I think you’re just pretending to be confused.”

I don’t deny that Wu Tian underestimated the enemy and didn’t take our Blue Army seriously. He lost because he stuck to the rules. He lost because he was out of touch with actual combat and didn’t understand the diverse forms of modern warfare.”

“That’s right!”

“We just struck first and gained the upper hand.”

“But Wang Zhigang has already made sufficient preparations against us. How are we going to fight against the Mountain Leopard?”

Speaking of this, Long Xiaoyun’s face clearly revealed a difficult expression. After all, the opponent this time was no small matter, and his strength could not be underestimated.

” As for them, they’re advancing in three directions. Their momentum is like a rainbow.”

“As for us, we don’t have the strength to split up and attack. We can only concentrate our forces to encircle and annihilate one of them.”

Qin Yuan said his plan confidently, but he did not expect Long Xiaoyun to disagree.

” This is an old tactic of yours. Wang Zhigang could easily predict that you would do this.”

“Old trick?” Qin Yuan was puzzled.

” That’s right. This was the tactic of mobile warfare seventy years ago. Today, as soon as our team attacked, the satellites in the sky would have clearly informed the Red Army of our movements.”

“As for the other two groups of Mountain Leopard, they will definitely be unstoppable. As long as we reach Wolf Mountain Base, will our 535 defense line still be dangerous?”

Qin Yuan fell into deep thought after hearing this. He did not think of replying to Long Xiaoyun at all. “Why aren’t you saying anything?”

“Didn’t you already say it?”

“I’m just raising a question. In the end, you’re the one who’s thinking about how to solve the problem.”

“You’ve proposed so many plans, and I’ve also approved the first plan.”

Long Xiaoyun was amused when she heard Qin Yuan’s words. She said with a smile, “You really know how to eat right away.”

“That’s true! We can’t attack us by force, nor can we encircle and annihilate us.

Our only method is to attack psychologically.”

‘ Now I understand. We’ll use psychological warfare, internet warfare, public opinion warfare, and use his 1,500-kilometer march to harass him in various ways.”

In short, we only have one goal, which is to disrupt the rhythm of his march. Every day we delay is a day, and every second we delay is a second.”

“Yes! We can make full use of our flexibility, young officers and soldiers, active thinking, advanced fashion, and the advantage of being good at cyberattacks.”

“Break into the Mountain Leopard’s internal department to fish in troubled waters and wait for an opportunity to attack.”

Long Xiaoyun explained her understanding of the military plan to Qin Yuan in a rigorous manner. Qin Yuan nodded in agreement as he listened.

The Mountain Leopard Special Forces on the march.

Zhang Xiaoyu repeatedly called Hong Yi’s phone. Half a day had passed, but his phone was still switched off.

“Why is Hong Yi’s phone still switched off?” Zhang Xiaoyu said doubtfully.

“Hmph, this Hong Yi really doesn’t take me, CEO Wang, seriously.” Wang Zhigang said disdainfully.

“What is he trying to do? You want to jump ship?”

Just as he was complaining, Zhang Xiaoyu’s phone rang.

“Ya! Speak of the devil. This must be Hong Yi’s call.” Zhang Xiaoyu said excitedly.

‘ Captain Wang, it’s a call from the military.” Zhang Xiaoyu carefully checked the caller ID. Suddenly, he frowned and said to Wang Zhigang,” Captain Wang, it’s a call from the military.”

‘ What’s going on?” Wang Zhigang was surprised.” Quick, take a look. What’s going on?”

“Hey, political commissar, what? The battle zone’s local area network has announced our route?” Zhang Xiaoyu picked up the phone with a head full of doubts.

“Impossible! That’s impossible!”

“Alright, alright, I’ll take a look right away.”

Zhang Xiaoyu hurriedly hung up the phone.

“What happened?” Wang Zhigang asked.

” The political commissar is surfing the Internet in his office. He found that someone has posted our route map on the local area network of the first battle area.”

“That’s impossible, right?” Wang Zhigang was also puzzled.

Zhang Xiaoyu immediately got someone to check the situation.” Xiao Liu, turn on the local area network immediately!”

“Yes, sir!”

At this time, when they saw the map of their march route on the local area network, Wang Zhigang and Zhang Xiaoyu were instantly stunned. For a moment, the air froze, and he did not know how to speak.

After a while, Wang Zhigang finally reacted.

“Who is this Smurf? What does he want?”

“How did they know about us?” Zhang Xiaoyu said angrily.

Just as they were still wondering about the identity of the other party, a call came in from the communication system. “It’s the team leader!” the soldier said.

“Put him through!”

“Yes, sir!”

“Captain Wang, there’s a situation!”

“What’s going on?”

” All of our plans were stolen by the Blue Army and posted online. All the troops saw it.”

‘ Commander Zhu has ordered the troops to stop moving forward. He’s asking for instructions on what to do next.”

Who told them to stop?!” Wang Zhigang was instantly furious when he heard that.

‘ He was worried that Mount Tongling and Mount Xiaomao would be ambushed by the Blue Army. The roads there are all winding. If one vehicle is destroyed, the entire convoy will be blocked.”

Wang Zhigang was instantly speechless after hearing that. This sudden situation had really caused their marching speed to be obstructed.

‘ Commander Zhu is right. We can’t ignore this factor.”

“This must be Qin Yuan’s doing. It must be them!” Wang Zhigang said angrily.

“What should we do now? If we don’t deal with it as soon as possible, it will definitely affect the morale of the troops if this continues.” Zhang Xiaoyu asked anxiously.

Wang Zhigang did not think much about it and immediately gave the order.

Inform all units to get off the highway at the intersection ahead. Gather near the toll station and wait for orders. Call the team leader over.”

Lin Xiaoxiao, who had intercepted the latest information on the advance of the Mountain Leopard Special Forces, immediately reported it to Long Xiaoyun.

” The armored train of the Mountain Leopard Special Forces has arrived at the first formation battle. It is estimated that they will wait here for two hours before regrouping.”

“Two hours?” Long Xiaoyun fell into deep thought.

“Is it possible to modify the operation chart in two hours?” Long Xiaoyun asked Lin Xiaoxiao tentatively.

Long Xiaoyun tried to stop the leopard’s advance by interfering..

Chapter 637: Psychological Warfare Interruption, Excellent Effect!

It’s difficult to complete the modification of the operation chart in two hours.”

Lin Xiaoxiao said bluntly.

” We have to enter the network system of the railway branch before we can carry out a series of operational attempts.”

“How about this, Xiaoxiao, you go and try it first. If there are any problems, communicate immediately.” Qin Yuan said to Lin Xiaoxiao.

“Yes, sir!”

Lin Xiaoxiao immediately turned around and went back to work.

” At this rate, their armored battalion will reach Wolf Mountain Base tomorrow night.’

“Find a way to keep their armored battalion at our first marshaling station for at least 24 hours.”

Qin Yuan seriously explained the arrangement work to everyone in front of the marching map.

” The second marshaling station needs to stay for at least 48 hours. This way, the effect will be achieved. Even if their armored battalion reaches Lang Mountain, it won’t be of much use.”

” From the information and intelligence data generated by the Red Army’s middle road advancement, our psychological warfare has achieved initial results. ”

Zhou Qing said.

” Wang Zhigang must be so angry that his face is pale. He might even be scolding Captain Qin. ”

Geng Hu teased from the side. His words made everyone laugh.

“You guys aren’t being nice. You guys did something bad and pushed all the sh * t onto me.”

Qin Yuan also pretended to be angry and said to Geng Hu.

“But this move might not be able to stop them for long. It can only temporarily delay their marching speed.”

“But at least we can make them stop. Even if it’s only for a few hours, it’s still a remarkable result.” Qin Yuan agreed.

“This little trick will be seen through by the Red Army very soon. Perhaps they have already seen through it and know that we are behind it.”

“If we see through it, we’ll come again. We’re not afraid of being slow, but we’re afraid of standing still.” Long Xiaoyun added.

” Those who have experience in military exercises know that it’s easy to stop the marching speed. If you want to increase the speed, it’ll take a while.”

” We don’t need to send out a single soldier or fire a single shot to interfere with their march. We just need to post a few messages on the Internet, and we will be the biggest winner no matter what.

Zhou Qing said.

“Captain Long, what about you? Help me keep an eye on them at home and release some smoke bombs from time to time. As long as they slow down, we will achieve the effect.”

“I’ll leave this to you. I have to go to the drill site to watch the show! ”

Qin Yuan and Long Xiaoyun arranged the work.

“You can’t leave!”

Long Xiaoyun immediately stopped Qin Yuan from leaving the command center.

‘Why?’

“Then what should we do next?” Qin Yuan asked Long Xiaoyun.

“What if we run out of ammunition?”

‘Yeah, who says so!’

“The information entries compiled by Vice-Captain Liu and the others have basically been sent out.”

Long Xiaoyun told Qin Yuan the truth.

“Have you used them all?” Qin Yuan asked.

“But I’m afraid that this wave of attacks won’t be enough.” Liu Ye said worriedly.

“After all, our interference operation this time isn’t a missile, and the information release is logical.”

“If the opponent sees through it, it will definitely be too late to make up a script.” Long Xiaoyun said worriedly.

“Then this means that you guys lack experience in network warfare.” Qin Yuan hit the nail on the head and pointed out their shortcomings.

“Battle experience?”

“That’s right! Why not?”

“Don’t you know how to serve them food?” Qin Yuan immediately used an analogy.

“Serve the dishes?” Long Xiaoyun’s mind was filled with questions.

“That’s right. When did the waiter serve all the dishes in one go when you went to the restaurant to eat?”

“Isn’t this serving them slowly one by one? You guys are good. You served them all at once. Then wouldn’t this customer have to pay the bill and leave after eating?”

When everyone heard Qin Yuan’s analogy and analysis, they immediately understood.

“I really didn’t think of this. It’s a good thing you reminded us, Captain Qin.” Liu Ye nodded.

“How about this, Liu Ye! Bring a few young and clever ones and compile some gossip. Anyway, as long as Wang Zhigang is unhappy, we’ll achieve our goal.” Qin Yuan gave Liu Ye some advice.

“But, Captain Qin. We don’t have any more shocking news to reveal now. This method is currently very difficult.”

“If it really doesn’t work, we’ll send the Chief of Staff’s battle plan to him.” Long Xiaoyun was shocked.

“What did you say? Do you want us to announce our plan to ambush the Red Army?”

“That’s right! Don’t you guys lack good news? One item is one item!”

Qin Yuan's unusual logic made it difficult for everyone to understand his battle strategy.

‘ We can throw this fake news out without worry. Can we really announce our battle plan to the public?’ Liu Ye refuted. “Isn't this handing over our assets to the opponent?”

“That's right! Captain Qin, this is too risky.”

“Now is not the time for us to gamble, Captain Qin.” Long Xiaoyun could not hide the doubt on her face.

“In terms of psychological warfare, I'm not as good as you, Captain Long. You usually study how to fool people all day long. I really can't compare to you in this aspect.”

Qin Yuan's words made Long Xiaoyun anxious.

“Who's lying? Captain Qin, you can't joke around like this..”

Chapter 638: Psychological Warfare Interference, Great Effect!

“No, to put it in layman's terms, it's making up lies to deceive people, right?” Qin Yuan quickly explained.

“Captain Qin! How can you compare psychological warfare to trickery?” Long Xiaoyun said to Qin Yuan with a serious expression.

‘ Psychological warfare uses the principles of psychology. It uses human psychology as the battlefield and uses various methods in a planned manner.”

It affects people's cognition, emotions, and will. It attacks people's minds imperceptibly and trades the smallest price for the greatest victory and benefits.”

It's a confrontational activity that uses propaganda to mentally disintegrate the local fighting spirit or eliminate the influence of the enemy's propaganda.” “What are you talking about?”

“Yes! As long as we can achieve our goal, we must use certain methods.” Qin Yuan replied.

” That's right. The principles of psychological warfare are based on psychological principles, mainly the law of attention, the law of need, the law of illusion, the law of thinking, the law of herd psychology, the law of reverse psychology, and so on.”

” The main methods are deterrence, strategy, feint, disguise, intimidation, deception, temptation, bribery, rumors, propaganda, and so on.” Long Xiaoyun heaved a long sigh of relief after her lengthy explanation.

“It's so hard to talk to you! I won't say anymore.”

“You'd better read some books and tutor yourself.”

“No, no, no, Captain Long, you’ve made yourself very clear. I understand, I understand!”

However, I feel that this method is quite unpleasant to hear. Let’s talk about tactics.”

‘ From a tactical point of view, let’s throw out a real battle plan now so that they can’t tell whether it’s real or fake.”

” They are bound to spend a certain amount of time analyzing and researching to verify the authenticity of our battle plan. “In that case, it will delay us.”

“I agree!” Liu Ye answered from the side.

” We can release some of the information, but the key battle plan must not be exposed. It must be hidden through technical means.”

At this time, the Red Army, which had been disrupted by Qin Yuan’s plan, had temporarily stopped near the highway.

“Captain Wang, isn’t the Smurfs going too far? We can sue him!” The captain of the Red Army team walked toward Wang Zhigang as soon as he got off the car.

“What’s wrong? I ordered the troops to stop, and I sued him in the military court?” Wang Zhigang responded calmly to the team leader’s roar.

“Right now, we don’t have enough evidence to prove that the Smurfs did it.

Even if we want to sue, we don’t have evidence.”

“The truth is right in front of us. Who will benefit if this happens? Isn’t it the Blue Army?” The more the captain spoke, the more excited he became. “Who are the Smurfs? It’s clearly the blue army, it’s Qin Yuan!”

“A few of the team leaders called me and felt that this exercise couldn’t be carried out.”

“Doesn’t this mean that our every move is exposed to the blue army?”

“My team leader! Why are you so agitated?”

Wang Zhigang comforted the team leader who had lost control of his emotions.

“This is Qin Yuan playing tricks on us. To put it bluntly, he’s playing psychological warfare with us.”

” They intentionally released this information on the local area network to make us officers and soldiers panic and make our troops stagnate. This is their ultimate goal.”

After listening to Wang Zhigang’s analysis, the team leader became even more excited.

“Captain Wang, I don’t think this is just a psychological battle. It’s also a personal attack.”

“I didn’t take it to heart. You guys don’t have to care too much.”

“Captain, I just analyzed the situation with Captain Wang. Now that the Blue Army dares to take the initiative to harass us with psychological warfare, it proves that Captain Wang’s analysis in the combat meeting is correct.” Zhang Xiaoyu added.

” The Blue Army is even weaker in actual combat. At the same time, they also know that it is impossible for them to defend Highland 535 for three days.” ” That’s why I want to make a fuss about the 1500-kilometer march.”

“As long as they can effectively stop and delay us from reaching Wolf Mountain Base, they can guarantee that they can hold on for three days and win.”

When Wang Zhigang heard this, he walked over from the side and said leisurely, “Actually, the Bureau Chief is very clear about this. I’ve thought it through now.”

‘ Why did the Bureau Chief order the Mountain Leopard Special Forces to conduct such a long-distance raid? Furthermore, the time limit is so strict. He wants to test us.”

” To assess our long-range mobility and command coordination abilities.”

“Good! Captain Wang, I understand now. I will immediately inform the troops to shut down all computers connected to the theater’s local area network.”

“No one is allowed to go online without permission!”

“Alright! Make the arrangements.”

At this time, Chen Zhi, who was in charge of the Red Army’s network information warfare system, came over to report.

“Captain Wang, in response to the provocation of the Smurfs, our network counterattack team has launched a counterattack against the Smurfs.” “Internet counterattack?” Zhang Xiaoyu asked in confusion.

‘Yes!”

“Look at this.”

Chen Zhi said as he turned on the military computer in his hand and showed it to them.

The provocative dialogue on Internet forums-

“Smurfs! If you have the guts, come out and reveal your true identity.”

‘ Smurfs are despicable people, ghosts in the gutter. Take them out and shoot them for half an hour.”

“Who organized this?” Wang Zhigang asked after taking a look.

” At first, it was the soldiers ‘initiative. Later, I proposed to form a network counterattack team to focus their firepower on targeted counterattacks.” “They are all network experts in our base. They are all university students.”

“Come! Look at this.”

As he spoke, Chen Zhi began to operate again.

‘ Comrades, after the radar king’s careful investigation, the Smurfs have revealed their true form. He is the main force of the Blue Army.”

“We must attack the 535 defense line and capture the leader of the blue army alive.”

“Comrades! Good luck!”

” The specialty of the Fifth Company Cookhouse is braised wolf meat.”

“I love to eat Dralsea ??????? legs!”

“This is the Blue Army’s scheme! The Red Army must boldly advance. There’s hope for victory!”

After Wang Zhigang saw it, he revealed a disdainful smile. He felt like a group of primary school students were blindly jeering.

“How is this a counterattack? I was clearly tricked by the Smurfs.”

“Fooled?” Chen Zhi asked in confusion.

“Stop this meaningless debate immediately. The Blue Army wants to create trouble on our way and disrupt our deployment.” Zhang Xiaoyu said directly.

” This will distract our attention and slow down our march.”

At this moment, Chen Zhi suddenly realized.

“I see! ”

Inform all units to turn off all computers connected to the Internet. You know that it’s the Blue Army’s psychological warfare, but you’re still arguing with them. Isn’t this wasting your time?” The team leader immediately ordered Chen Zhi.

“Alright, understood!”

“Report! Captain Wang, the Smurfs have made a new post.”

At this moment, a soldier jogged over to report.

“What new post?” Wang Zhigang asked the soldier.

“Just now, the Blue Army announced their combat deployment on the Internet to ambush us.”

“The location of the ambush has been announced.”

This was bad. When Wang Zhigang and the others heard this news, their shocked expressions explained everything.

The Red Army, who had set off again, was always paying attention to the content of the forums on the Internet in the battle command center.

“This can’t be true, right?” Zhang Xiaoyu’s face was filled with disbelief. “But we can’t not believe it. What if we hit a mine?” the captain added.

“This is completely unreal.” Wang Zhigang said disdainfully.

“This is completely the Smurfs ‘bluff! Inform the troops to advance at full speed!”

“Don’t have any misgivings!”

Wang Zhigang ordered decisively. It seemed that he had really seen through the Blue Army’s plan this time.

“Captain Wang, I’ll lead the Guard Battalion and the Engineer Company forward for 30 kilometers.”

“Good!”

“If you really encounter a situation, don’t linger in battle!”

Wang Zhigang had never expected that his meticulous plan to advance with such momentum would encounter the Blue Army’s invisible, unspeakable, and unclear sneak attack..

Chapter 639: It’s Impossible for the Blue Army to Have So Many Soldiers!

In order to deal with this annoying ghost-like attack, Wang Zhigang had to deal with it.

They knew that the Blue Army had done it intentionally, but they had no choice but to slow down and stop.

Compared to the main force on the highway, which was moving at an average tractor speed, the special forces led by Hong Yi could be said to be flying.

He had already disguised himself as a farmer and sneaked into Wolf Mountain Base to carry out reconnaissance.

“Do you see that? Can the people in the gully in front go up?” Hong Yi looked at the distant gully and said to his teammates beside him.

“This ditch isn’t marked on the map.”

“This should have been washed out by the mountains and rivers half a month ago.” Hong Yi analyzed.

“You drove the cows here just to scout this ditch?”

“That’s right!”

“I saw this ditch on the satellite map last night. I don’t know what it looks like.

Can people go up?”

‘ Looks like this ditch can be used as a hidden passage when we launch an attack.”

“That’s what I think. Let’s go! Let’s go and take a look.”

At this time, Liu Ye was in the command center thinking about how to deploy the next move.

“Seeing that the Red Army is not making any movements at this time, we can only wait and see their next move before making a judgment.” “Inform the special forces members to set off immediately!” Liu Ye turned around and immediately gave the order.

“Yes, sir!”

At this moment, Lin Xiaoxiao rushed over. “Vice-Captain Liu, where’s Captain Qin?”

“Captain Qin went to the special forces.”

“How could you announce the ambush plan of Copper Bell Mountain?” “There’s no other way.” Liu Ye led them into the conference room.

“The construction of the Little Mao Mountain position on Tongling Mountain has just begun. The blocking troops haven’t arrived yet.”

” Moreover, the Red Army will soon send reconnaissance planes to scout and attack with bomber planes. Then, the position will be completely destroyed.”

“That’s right!” Liu Ye suddenly understood. “Good reminder.”

Liu Ye said to the soldier beside him.

‘ How about this? Inform the resistance team to stop advancing.”

“Vice-Captain Liu, does Captain Qin know about your decision?” Lin Xiaoxiao asked worriedly.

He doesn’t know yet, but I’ll report to him immediately.”

“This decision is wrong.” Lin Xiaoxiao continued.

“The Red Army’s right flank must be blocked, blocked forcefully! Once the Red Army reaches Wolf Mountain, it will be a devastating blow to the 535 defense line.”

“We absolutely cannot give up on the Red Army. Absolutely not!”

“Xiao Xiao, we’ve already considered the problem you mentioned, but Captain Qin’s intentions are clear. As long as we can achieve the goal of stopping the Red Army, we can use any method.”

Liu Ye said calmly.

“What’s the next step?”

‘ Next, I’m going to hand over the task of stopping the enemy at Copper Bell Mountain to the engineering unit.”

“Let the engineers go up?” Lin Xiaoxiao asked in surprise. “No, no, absolutely not! You can’t make such a big joke.”

Lin Xiaoxiao quickly said.

“If we let the engineers go up and stop them, wouldn’t that be equivalent to sending them to their deaths?”

“It doesn’t matter. As long as we find their reconnaissance aircraft, we’ll withdraw from the position. When the bombing stops, we’ll go in and repair it.”

” This process only seeks results, not quality.” “It probably means that a jerry-built project will do.”

“Jerry-built project? Vice-Captain Liu, what do you mean?”

‘ Finally giving up the defensive position?”

“Just now, when we were discussing, Captain Qin and Captain Long’s psychological tactics had already played a certain role.”

I think if we change the real defense position into a virtual one, we can cooperate with them to play psychological warfare. It will be fake and real, real and fake, real and fake.”

“As long as we can make the Red Army stop and go, we will achieve our goal.”

On the other side, Hong Yi, who was disguised as a farmer, pretended to be herding cows and patrolling the mountains near Wolf Mountain Base.

“Captain Hong, we haven’t contacted Captain Wang and the others for a whole day. Should we report our current action plan to them?”

“No! Reporting now will easily expose ourselves. Captain Wang and the others are marching and can’t take care of us.”

“It won’t be too late to contact me when we reach Wolf Mountain.”

I’m warning you again. No one is allowed to use cell phones or radio stations.”

‘ Remove all the batteries from the cell phone and radio station. Whoever disobeys the order will be dealt with severely.’

“Understood!”

Hong Yi strictly prohibited the use of all communication equipment, perhaps because he was worried that the Blue Army would intercept their signal frequency and steal their military aircraft.

Just as they were about to continue exploring, a few armed soldiers suddenly appeared and blocked their way.

“Fellow townsman, you’re not allowed to go ahead!” The soldier said to Hong Yi and the others in a friendly manner.

The sudden appearance of the soldiers scared Hong Yi back a few steps.

‘What? What did you say?’ Hong Yi imitated the locals’ tone and pretended not to know.

” We’ve been having a drill recently. Didn’t you receive the notice from the township government?”

“I heard, I heard.” Hong Yi half-bowed and smiled.

“I saw that the grass over there was quite lush and the cows liked to eat it, so I wanted to bring it over for a walk.”

“We’ve never been here before. Let’s go now.”

Just as Hong Yi was about to drive the bulls down the mountain, a soldier suddenly called out to him.

“Fellow townsman, which village are you from?”

“I’m from Shanqian Village. What’s wrong?”

‘ What army are you from? You don’t look like the People’s Liberation Army..’

Chapter 640 - 640: It’s Impossible for the Blue Army to Have That Many Soldiers!

“Fellow villager, don’t ask anymore. This is the training base. Don’t run around in the future.”

“Hey, good, good, good!”

After saying that, Hong Yi drove the bulls down the mountain slowly. “Captain Wang, the captain’s worries are not without reason.”

” The Air Force’s reconnaissance planes will be able to detect the reconnaissance of Mt. Tongling and Mt. Xiaomao within 30 minutes. I don’t think there will be too many problems on the highway.”

Wang Zhigang followed the progress of the various armies in real time.

‘ Looks like there’s a reason for the failure of the Dragon Shadow Special Forces.’

Zhang Xiaoyu’s sudden sigh attracted Wang Zhigang’s curiosity.

“What do you mean?”

“Look, we’ve participated in many exercises, but we rarely encounter such unconventional exercises. There are also some conventional prevention and control of concealment and electromagnetic interference. Why would there be so many subjects on the road?”

I think that the appearance of this specialized blue army has given us a new opponent.”

“A lot of old ideas and habits have been forced to change and be innovative.”

“Little Yu, it’s right to have this kind of awareness, but you still have to eat it bite by bite. It’s impossible to get it done in one step.”

“Do you know how many years the training has been going on? Isn’t it constantly improving?”

Suddenly, the vanguard of the Red Army strayed into the minefield and was bombed. The team immediately stopped and got out of the car to be on guard.

Reporting to the captain, two vehicles in front of my guard camp have hit a mine. The troops have already arranged for vigilance.” The soldier hurriedly ran over to report the situation ahead.

“Inform the convoy to stop moving forward.” “Yes, sir!”

“It seems that the Blue Army is not all fake!”

‘ Order the engineer company to start the mine detection operation 100 meters ahead.”

“Yes, sir!”

After the team leader gave the order, he immediately called Wang Zhigang to report the situation.

“Captain Wang, we have encountered a minefield bombing in front of us. We have already started the mine clearance work.” “But we need at least half an hour to advance.”

The team leader said anxiously.

According to the original plan, they had to reach the designated location within an hour.

But now, there was a minefield in front of them, which seriously hindered their progress.

This had seriously delayed their battle plan.

‘What?’

“I really didn’t expect the Blue Army to deploy so quickly.” Wang Zhigang heard the report from the team leader.

He was a little surprised.

“It seems that the news released by the Blue Army is not fake.”

“Could it be that Qin Yuan wants to stop us all the way?” Zhang Xiaoyu took off his glasses and said in surprise.

“That shouldn’t be possible.”

“It should only blow up one or two cars.”

‘What are you afraid of? Immediately order the team leaders to continue advancing.’

“I don’t believe that Qin Yuan can stop us all the way.” Wang Zhigang immediately said.

He did not believe that Lin Xiao could stop him all the way.

At this moment.

Liu Ye had already arrived at the Bronze Bell Mountain area with his men.

‘ Report, the reconnaissance plane has discovered a portion of the Blue Army in the Copper Bell Mountain area.’

” And we’ve also discovered some fortifications.”

An information technology soldier reported to Wang Zhigang.

Order our air force to blow them up as soon as they are discovered.” After hearing the report, Wang Zhigang immediately gave the order.

“Yes, sir!”

“Get me the commander of the artillery regiment,” Wang Zhigang said to the signalman.

“Yes, sir!”

Very quickly.

The call went through.

“Du Ming, move the special forces to the front of you.”

‘ Control the important positions on the bell.’

“Cover your artillery regiment.” Wang Zhigang immediately said.

“Captain, we’re not behind the special forces.”

“Behind us are the 2nd Battalion of Mobu.”

Du Ming reported after hearing Wang Zhigang’s words.

“Captain, behind this artillery regiment is indeed the second battalion of the infantry.”

Zhang Xiaoyu immediately said.

“Alright, the second battalion of the Mobu Battalion it is.”

“Tell them to move in front of you and attack. We have to advance 20 kilometers. ”

“Do you understand?”

Wang Zhigang ordered.

“Captain, the 2nd Battalion is 20 kilometers away from us.”

“This!”

Du Ming asked in confusion after hearing Wang Zhigang’s words. “Order them to advance immediately.”

“Du Ming, you have to have a clear understanding. This is the Blue Army’s psychological war!”

“They don’t have that many troops at all. Why did they transfer them to Bronze Bell Mountain to stop us?” Wang Zhigang immediately explained.

He absolutely did not believe that Qin Yuan could mobilize so many troops.

He was still clear about the strength of the Blue Army.

“Yes, sir! Captain!”

Du Ming replied.

“Our air force will immediately launch an air strike on the Blue Army’s sniper position.”

“After the second battalion has secured the important positions, your artillery regiment must pass through quickly.”

“Don’t stop.”

Wang Zhigang said in a deep voice.

“Yes, sir!”

With that, Du Ming immediately called the second battalion of the motorcycle infantry.

At this moment.

Liu Ye and Zhou Qing were looking at a spot not far away with binoculars.

“Old Liu, our engineer station is here.”

Zhou Qing took out a map and said to Liu Ye.

“The Red Army will definitely send their air force to attack our sniper position.”

Liu Ye said softly.

As expected, a loud rumble came from the sky after a while.

“He really came as he pleased!” “Get me the engineer department.” Liu Ye said indifferently.

“Yes, sir!”

With that, the communications team member immediately connected the call to the engineer department. “How’s the situation over there?”

Liu Ye asked.

Report, we found two birds. They should be preparing to lay eggs.” Engineer Platoon 1 reported with a smile. “Alright, tell everyone to pay attention. Don’t blow up the end.”

“We’ll go home for dinner when it’s over!”

Liu Ye immediately ordered.

“Alright!”

At this time, the Red Army Air Force had already discovered the sniper position.

‘ Report, Skyhawk One has discovered the Blue Army’s sniper position.” “Do you wish to destroy it immediately?”

At this moment, in Wang Zhigang’s combat command vehicle, the Air Force had already sent news.

“Order Skyhawk to blow them up immediately!” Wang Zhigang ordered.

“Yes, sir!”

After receiving the order, the Skyhawk said,”

They immediately launched a fierce attack on the sniper position.

‘ Report, the target has been bombarded.”

Skyhawk immediately replied.

“Very good!”

After hearing Skyhawk’s answer, he was shocked.

A faint smile appeared on Wang Zhigang’s face.

“Order the second battalion to attack immediately and clear out the blue army’s blocking team!”

Wang Zhigang ordered.

“Yes, sir!”

Destroying a Blue Army sniper position would allow the artillery regiment to pass through smoothly.

At this moment, the Blue Army’s sniper team slowly climbed out of the trenches.

After Liu Ye ordered them to prepare for the battle, they were all stunned.

They hid in the underground trenches.

“Brothers, the command center has discovered that the Red Army has come up from the foot of our mountain.”

“The command center ordered us to snipe them in groups.”

“Everyone, pay attention. Everyone, get ready!”

“Yes, sir!”

After saying that, everyone went into hiding.

Qin Yuan had the entire Blue Army launch a sniper attack to create a fake and real chaos for the Red Army.

At this moment.

In the entire exercise command center.

Gao Shi and the Wei generals were watching the entire exercise. “Looks like Wang Zhigang is furious. He’s going to fight personally.”

“Qin Yuan’s move is very powerful.”

A Bureau Chief looked at the big screen and sighed softly.

“Indeed! ”

“I didn’t expect Battle wolf’s Qin Yuan to use the classic tactics of our army from earlier years.”

The other Bureau Chief did not expect this either.

This was the guerrilla tactic that their predecessors used to defeat more people with fewer numbers.

It was actually used by Qin Yuan on the current battlefield.

” This guerrilla warfare is our army’s starting tactic. Such tactics will not be outdated even now.”

Gao Shiwei praised with some gratification.

“I really look forward to what will happen next.”

“Yes, I am!”

All of a sudden, the Bureau Chiefs were looking forward to the outcome.

At this moment.

Qin Yuan was looking at the information on the screen in the Battle Wolf
Special Forces base.

“What are you thinking about?”

Seeing Qin Yuan fall into deep thought, Long Xiaoyun asked curiously.

“I’m thinking about how many obstacles will be created if this G3601 explodes.”

Qin Yuan smiled faintly..
