

Special Troop 691

Chapter 691 - 691: Wu Tian Untied the Knot in His Heart!

Wu Tian, who was standing outside the door, heard that Political Commissar He had sold him out.

She couldn't sit still anymore and hurriedly pushed the door open.

When Political Commissar He saw him walk in, he put down the phone and pretended as if nothing had happened.

Wu Tian said in exasperation.

"Old He, did you sell me out again?"

Political Commissar He looked at him with hostility.

I haven't found trouble with him yet!

You even questioned me first. Watch how I deal with you.

He asked back.

"Why are you eavesdropping outside the door?"

"What did he say?"

Political Commissar He cleared his throat and pretended to be serious.

Brigade Commander Qin said that this is a military secret and cannot be transferred."

"If you really want it, he can give it to you personally." "I've already made the call. You can do as you see fit!" Little brat, let's see if I can't kill you!

Wu Tian's face immediately fell when he heard that.

After all this time, he still had to do it himself.

The next day, out of curiosity, Wu Tian drove to the gate of the Mountain Leopard Brigade early in the morning.

Qin Yuan and the others were already waiting at the door.

When Wu Tian saw them, he went up to them with a smile.

"Brigade Commander Qin, you've caused such a huge commotion. I'm a little embarrassed."

I'm here to get the information about your confrontation with the 909th

Brigade. There's no need to go through so much trouble to prepare."

Qin Yuan thought that he was here to give his opinion, but he did not expect him to be here to get the materials.

He asked doubtfully.

“Eh? Didn’t I already send you the materials?”

Wu Tian was also dumbfounded.

Didn’t you say that the information about the second phase is confidential?”

“Do you need to hand it to me personally?”

Qin Yuan quickly waved his hand.

“I never said that!” “I already sent it to your Political Commissar He last night.”

“That’s not right, right?”

After thinking for a while, Wu Tian finally understood. “Oh no, Political Commissar He tricked me again!”

“I’ve made a fool of myself!”

“Since the materials have been sent to our 808th Brigade, I’ll go back and see you now.”

“But I still have to thank you!”

After saying that, Wu Tian planned to get into the car and go back to settle the score with Political Commissar He.

Qin Yuan quickly pulled him back.

“Brigadier Wu, look at you.”

“Why don’t you come into our Mountain Leopard Brigade to visit and learn more about our Mountain Leopard Brigade?”

In the future training exercises, we can also communicate better.

These words reminded Wu Tian.

He just wanted to understand what kind of team the Mountain Leopard Brigade was to be able to beat his 808th and 909th regiments.

He had to see his true face.

Thus, he said.

“Since Brigade Commander Qin has invited me, I can’t reject him.”

Qin Yuan walked over and patted his shoulder.

“Alright, alright!” “Then please!”

Along the way, the chief of staff of the Mountain Leopard Brigade, Liu Ye, introduced him.

“We’re simulating the foreign army, but we’re actually learning from the foreign army.”

“Because the foreign army has been fighting for many years and has combat experience. ”

‘ And these combat experiences are also lessons learned from major failures.”

” The combat techniques and training methods of the foreign army are updated very quickly. They are constantly adapted to the changes in the battlefield, so they are worth learning.”

After Wu Tian heard this, he nodded thoughtfully.

Imitation is actually a form of learning. If you don’t understand it, you can learn it. Once you learn it, it will become your own.”

Liu Ye continued to explain.

“Indeed, in the military field, it’s understandable for foreigners to implement a closed policy against us.”

” Therefore, learning from foreign armies and understanding their tactics is a special mission of our specialized Blue Army Corps.

‘ Transform the experience of the foreign army into a foreign army that our army can see and touch. Use it as an enemy and opponent to learn from.”

Wu Tian was enlightened.

“I see!”

“That’s why you dared to sneak attack my brigade headquarters at the beginning of the exercise and cut off my escape route.” “Did you learn all this from the foreign army?”

Qin Yuan smiled.

” Actually, this tactic is not new. You’re just treating the drill as a competition.

You’re too strict with the rules of the drill.”

“Think about it yourself. Are you only concerned about the 535 defense line?”

‘ What you lack are the rules of war and battlefield thinking!”

Wu Tian was a little confused by these words.

“Rules of war? Battlefield thinking?”

Liu Ye explained.

“Actually, it’s about not following the rules!”

Wu Tian was a little shocked.

“You don’t follow the rules?”

“Think about it carefully. There are so many wars in the world. Which country that started a war would pay attention to rules with you?”

“Just like how you punched our brigade commander!”

Qin Yuan echoed.

“I was thinking that my opponent would follow the rules just like me.”

“And what about me?” “He didn’t guard against it, so he got beaten up, right?”
Wu Tian smiled awkwardly.

Brigade Commander Qin, don’t mention this matter again.”

Liu Ye said solemnly.

” Actually, if we think about it from a different perspective, from the perspective of national interests and the mission of the military, then it’s not just a matter of one person taking a punch.”

” That would be the loss of national dignity and national interests, the threat to national security, and the destruction of the national economy!”

Chapter 692 - 692: Wu Tian Untied the Knot in His Heart (2)

If we don’t guard against it, and if we guard against it, then it’s the dereliction of duty of our soldiers and the incompetence of the army!”

Wu Tian could not help but fall into deep thought when he heard such serious words.

Brigadier General Wu, I’m not actually cheering for this violation. I’m just using this small matter to explain that war has its own special rules.”

If we apply the rules of sports competitions to war, there will be no one who will not be defeated!

Wu Tian nodded.

“I understand.”

” The battlefield thinking you mentioned is to get us out of the drill thinking that we are used to and warn every soldier that a war may happen today, not tomorrow.”

Qin Yuan saw that he was on the right track so quickly, so he smiled and nodded.

‘ Yes, as soldiers, we have to think about everything in the name of war.”

“In the name of war?”

“Well said!”

“Brigade Commander Qin, can I see the troops again?

After being ‘educated’ by them, Wu Tian’s knot in his heart was untied.

However, his curiosity towards the Mountain Leopard Brigade was even stronger. He wanted to see the appearance of this team as soon as possible.

‘ No problem, Chief of Staff Liu. Please show Brigade Commander Wang around. ’

“Yes, sir!”

After waving goodbye to Qin Yuan, Liu Ye brought Wu Tian to the daily training ground of the Mountain Leopard Brigade.

She wouldn’t know if she didn’t look, but she was shocked when she saw it.

How was this a training ground?

This was clearly the scene of a real war!

Unlike the 808th Brigade, there was no decent shooting range, no formal physical training facilities, and no professional tactical training ground.

In front of Wu Tian, there was only an unfinished building that had turned into ruins. Smoke filled the air.

On both sides of the road were a few scrapped cars.

The car was burning fiercely, and thick smoke was rising from it.

Liu Ye’s car drove past these roads, and Wu Tian’s heart was a little frightened.

The first team of soldiers hid in the unfinished building, while the second team of soldiers stood outside, planning to attack.

Smoke and fire filled the air, and bullets flew everywhere. It was no different from a real battlefield.

Immediately after, the soldier in the unfinished building threw a prop grenade at the side of the road, almost blowing up Liu Ye and Wu Tian’s car.

This gave Wu Tian a fright. “Chief of Staff Liu, can we go around it?”

Liu Ye smiled faintly.

He had experienced this kind of battle scene many times, and his heart could no longer stir up any waves. “No need, just charge over.”

The car began to accelerate, but the bombs around it did not stop. They kept exploding beside the car.

Although these were all props, Wu Tian felt as if they were real when he was up close.

He was extremely shocked.

Hence, he said pretentiously.

“Alright! Chief of Staff Liu, this is interesting!”

“Right?”

” The battlefield is too limited. I can’t use my equipment and firepower!”

Liu Ye knew what he was talking about.

It was nothing more than those tanks, planes, and cannons.

He explained.

‘ City warfare will be the main form of warfare in the future, especially for the army.

“The offensive and defensive confrontation between the various blocks and buildings here, the structure of the buildings, the layout of the courtyards, the underground culverts, the wartime use of the shops and houses, the research on the new tactics of urban sniper warfare...”

” These are all common topics in modern and future wars.”

‘ And our training is designed for the future battlefield.”

” The training of the Mountain Leopard Brigade is similar to the training of foreign armies. Training is like fighting a war, and fighting a war is like training!”

Wu Tian was a little puzzled.

“What did you say?”

“Training is like fighting a war? Is fighting like training?”

“Isn’t training just training?”

Liu Ye shook his head.

Our training is the same as fighting a war. What you’re seeing now is our daily training.”

Only by training in such an environment will the soldiers feel that they are very close to the training on the battlefield and have less psychological pressure.” “This way, fighting a war will be as easy as training.”

“Interesting!”

Then, the two of them drove into an unfinished building.

“Brigade Commander Wu, follow me!”

Liu Ye got out of the car and ran upstairs with Wu Tian.

After a while, the two of them arrived at Team One’s hidden sniper position.

Wu Tian and Liu Ye hid in the corner of the wall and carefully observed the situation upstairs.

Wu Tian asked.

“Why didn’t you kill the sniper on the other side?”

Liu Ye smiled.

“See if you can find their hiding place.”

Wu Tian stuck his head out slightly when he heard that. A bullet shot straight into the wall beside him.

It almost scared him half to death.

The two of them hurriedly lay on the ground.

Liu Ye glanced at him.

“This is the complexity and cruelty of urban warfare.” “The casualty rate of urban warfare is very high!”

“Interesting!”

Wu Tian said as he carefully crawled to the hole that had been pierced by the bullet.

He wanted to observe the sniper’s position through this hole.

Liu Ye didn’t give up and said.

It is impossible for the naked eye to discover the enemy hiding in the tall building. “Brigade Commander Wu, follow me.”

“Alright then.”

Then, the two of them came to the command camp in the unfinished building. It was filled with advanced precision instruments.

Liu Ye pointed at the screen and introduced.

“Brigade Commander Wu, this is the thermal imaging technology we used to scan the entire building from multiple angles.” “Look, this light spot is the sniper from just now.”

He’s moving up now.” “Then how can we eliminate him?”

“We can’t eliminate him yet.”

Because he’s at least two walls away from us.”

Only when he approaches our sniping point will he and his gun be exposed to the least protected area.”

“Only then will we have a chance to lock onto him.” Wu Tian gave him a thumbs up and nodded.

“I see! Amazing!”

It was noon.

Wu Tian and Liu Ye’s training tour had ended.

Liu Ye said.

“Brigade Commander Wu, our brigade commander invites you to continue visiting our GCH. What do you think?”

The tour passed in the blink of an eye. Wu Tian was still not done yet!

Hearing Liu Ye’s words, he was very happy and immediately replied.

“That’s good! Let’s go!”

He was already a little impatient.

Thus, the two of them drove to the tactical command headquarters of the Mountain Leopard Brigade.

Lin Xiaoxiao and Long Xiaoyun were already waiting for him. Long Xiaoyun greeted them when she saw them walking toward her.

“Hello, Brigadier Wu!”

“Hello, Captain Long!”

“Welcome, Brigade Commander Wu, to the Mountain Leopard Brigade for a tour and guidance!”

“Captain Long is too polite!”

Long Xiaoyun pointed at the screen and said.

“Please scan your index finger here before the door can be opened.”

“My index finger?”

“Yes.”

Wu Tian placed his index finger on it in a daze.

A second later, his personal information was displayed on the screen.

Wu Tian was shocked.

“Why is my photo on this?”

“I’ve never entered any information into your system.”

Long Xiaoyun smiled.

“Our information investigation center has already collected your identity information through other channels.”

As soon as he finished speaking, the door opened automatically.

“Please come in!”

“Good!”

With that, they walked in together.

Although the door was small, there was a lot of space inside.

Long Xiaoyun explained.

“Brigade Commander Wu, we used to be rivals.”

“Knowing yourself and your enemy is the most important task in winning a war.”

“We’ve collected all the relevant information about you and Political Commissar He. Otherwise, you wouldn’t have been able to enter this command center.”

” What? Did you even get my blood pressure?”

Long Xiaoyun teased.

Yes, your blood pressure is a little high now. It might be because you were a little nervous when you just passed the urban training ground.”

Wu Tian sighed.

“Yes, I am!”

“I haven’t experienced this for many years. I’m really excited and a little nervous..”

Chapter 693 - 693: The History of the Mountain Leopard Brigade

“This is our command center.”

As soon as she walked down the stairs, Long Xiaoyun shouted at Qin Yuan.

“Brigade Commander Qin!”

Qin Yuan and the few people in charge of the former Battle Wolf Brigade turned around.

“Ouch!”

“Brigadier Wu is here?”

Wu Tian looked at such a high-end command center in surprise and said.

Brigade Commander Qin, I didn’t expect your command center to be like this!”

Qin Yuan explained.

“This is a fully digitized command center. ”

“The real-time situation of our Mountain Leopard Brigade’s daily training can be seen here.”

“Come, take a look!”

As he spoke, Qin Yuan pointed at the big screen behind him.

“Chief of Staff Liu, can you introduce Brigadier Wu to the situation of our fully digitized command center?”

Liu Ye nodded.

Here, you can conduct an automatic assessment of the different professions and positions of the entire brigade.

Platoons and individual soldiers can also replay their training on the network system to check their training situation that day.

‘ This way, we can summarize the problems that occurred during training.’

” This command training system is 200% more effective than traditional training methods!

Wu Tian was shocked. “It can improve that much?”

Liu Ye nodded.

“Yes, this system is actually a big database of our entire brigade’s strength.

From the first day of enlistment, all the training conditions of the soldiers, including their physical fitness, physical fitness, psychological quality, and skill parameters, have been recorded in the big database for them to use at any time.

For example, when a soldier’s individual skill reaches a certain standard, they can automatically be promoted to a higher level of subject training. ” Therefore, I don’t have to repeat the basic and low-level training with videos that haven’t reached the standard yet.

” Therefore, it can help soldiers adjust their training intensity and skill difficulty reasonably during their effective service period.

“This way, it can play a very good supporting role in improving individual combat ability and rationally deploying troops.”

Hearing his explanation, Wu Tian’s surprise turned into shock.

The Mountain Leopard Brigade actually had such a complete and advanced training system.

This was nothing compared to the traditional training methods of the 808th Brigade!

No wonder they lost so badly. It turned out that these were all excusable.

Immediately after, the video on the big screen looked familiar to him.

He could not help but ask.

‘Why do I seem to have seen this film somewhere before?’

Long Xiaoyun smiled and said.

“Brigade Commander Wu, this is the training ground for urban street fighting that you and Chief of Staff Liu passed by just now.”

“The soldiers ‘daily lessons are recorded here, and every tactical move has to be evaluated.”

Captain Geng Hu explained.

” The screen now shows the attack and defense training of our special forces team, the second team.”

“When you passed by just now, it was the First Battalion training.”

Wu Tian smiled awkwardly.

“Oh no, did you all see my sorry state just now?”

‘ Those who enter our training center for the first time will break out in cold sweat.”

“We are training with real bullets!”

Wu Tian nodded.

“Yes, I am!”

” I can hear it. The gunshots and cannons are very real.” However, he was also a little puzzled. “But if we train like this, will there be any safety risks?”

“What if something happens?”

Don’t worry about that. The safety measures are completely reliable.”

” The system will automatically alert you if there is any potential danger.” Geng Hu did not forget to praise him.

However, Brigadier Wu’s calmness just now is also an example for us to learn from.”

“If you don’t believe me, take a look for yourself.”

Geng Hu pointed at the screen.

At this moment, the video on the screen had already switched to the scene of Wu Tian sitting in the car.

Wu Tian sighed.

“This should be what a battlefield should look like!” “ You’re so calm and composed. You’re indeed worthy of admiration!” Wu Tian was a little embarrassed by the praise.

“No matter what, I’m a veteran who has been to the battlefield.”

“When we fought in self-defense, we were the first to charge into the enemy’s position!”

” The first enemy I encountered on the battlefield was not my opponent. It was my own fear.”

Once you defeat fear, you will have the initiative on the battlefield!” Qin Yuan and the others listened with relish.

This was a veteran who had truly been on the battlefield. The experience and lessons he imparted were indeed worth listening to seriously.

Long Xiaoyun looked at him and said. “Brigade Commander Wu, do you want to rest?”

Wu Tian waved his hand and said.

“No need.”

“Take me to visit the military history museum of your Mountain Leopard Brigade!”

‘ I’d like to see what kind of glorious history the troop has to create such an excellent Mountain Leopard Brigade!’

Hearing this, the others all smiled.

Qin Yuan said.

Brigadier Wu, to be honest, our unit has been established for less than a year. There’s no history to speak of!’

” There are no glorious traditions to record.”

If we’re talking about history, before the military reform, our unit belonged to the Battle Wolf Brigade of the Southeast Military Region.”

“As for the people around me, they are all veterans of the Battle Wolf Brigade..”

Chapter 694 - 694: The History of the Mountain Leopard Brigade (2)

“After the military reform, the leaders of the ground forces in the theater of operations gradually turned our Battle Wolf Brigade into a brigade, named the Mountain Leopard Brigade.”

” After this battle drill, you should know that our newly established troop is specially designed to simulate the battle of foreign armies and become the whetstone of the army in the theater of operations.”

” The purpose is to fight against the army units in the theater of operations and train you to be more outstanding!”

Wu Tian nodded after hearing his explanation.

“I know all this.”

However, in your first battle, you defeated the 808th Brigade of the Tiger of South China and the 909th Brigade of the Dragon of North China. Isn’t this a glorious achievement?”

At the mention of this, none of the members of the Mountain Leopard Brigade were happy because of Wu Tian’s praise. Most of them were sentimental.

Long Xiaoyun said.

“Actually, this is not glory for our Blue Team, but a kind of sorrow!” Wu Tian was puzzled.

They had already won this battle, so how could it still be considered sad?

“Sad?”

The others nodded.

“Yes, I am!”

Don't forget, we are also part of the Huaxia army."

"We are training partners and also whetstones."

"The task of sparring is to let our comrades improve their combat strength so that they can defeat the real enemy."

He sighed and continued.

But our comrades can't even beat us, their sparring partners. What's there to be proud of?"

"We are just an imaginary enemy."

"But now, our comrades can't even defeat the imaginary enemy. What if they encounter a real enemy?"

"That's why we feel that these victories are a kind of sorrow." Only then did Wu Tian realize the importance of the Mountain Leopard

Brigade.

He also understood what she meant by 'sorrow'.

"What you said makes sense. It's worth being sad about!"

"Therefore, we don't have any honor to speak of. We don't need to build any honor rooms or military history halls."

"Then how do you do traditional education?"

"We've built a virtual military history museum on the Internet."

Wu Tian was interested.

"A virtual military history museum?"

"This is the first time I've heard of this!"

"Can you introduce them to me?"

Long Xiaoyun smiled and pointed at the big screen.

"Please take a look!"

At this moment, the screen was showing Qin Yuan at the 808th Brigade's military history museum. The scene he saw was exactly the same. Isn't this the same as the history of our 808th Brigade?"

"You could tell at a glance?"

"Of course. How can I not know my house number?"

"That's right. This is the information from the 808th Brigade Military History Museum."

” Although our Mountain Leopard Brigade doesn’t have a history, our Huaxia army has a glorious history!”

” Therefore, the history of the Huaxia army is the history of our Mountain Leopard Brigade!”

” We will let the soldiers remember at all times that although our Mountain Leopard Brigade is a professional blue army, we are also glorious Chinese soldiers ! ”

“We often tell the officers and soldiers that although we usually wear the clothes of the foreign army and hold some foreign weapons in our hands.”

But we are still the same, green radish with red hearts. Our hearts will always be red!”

” The traditional education of our brigade is divided into two parts.”

‘ Make a promotional video and set up an online military history museum to let the officers and soldiers understand the glorious traditions of our army. Don’t forget to join the army at the beginning. Teach the officers and soldiers to inherit the fine traditions and carry them forward!”

Wu Tian nodded.

“This method of yours is good!”

‘ Not only can we let the soldiers understand the glorious history and tradition of our Chinese soldiers.”

” We can also integrate the glorious history of each unit, so that the soldiers can learn and carry forward the legacy!”

Wu Tian visited the Mountain Leopard Brigade to understand the basic meaning of modern warfare.

Wang Zhigang was not idle either. He started his sea training in a hurry.

As soon as the chief of staff finished arranging the Hailutong tank formation, he jogged over to Wang Zhigang.

Reporting to the brigade commander, Team Three has landed on the left flank!”

“Return to the 107 highland in 20 minutes and meet up with the special forces! ”

Wang Zhigang took a look through the binoculars and said with some dissatisfaction.

“Why don’t you work with Lu Hang?”

“The helicopter arrived three minutes earlier than the tank!”

In three minutes, the enemy will be able to regroup their firepower and give us a devastating blow!” the chief of staff explained.

“I’ve communicated with them, but the interference from the other side is too strong!
”

"I want to tell them that the current has changed today. I want them to delay their entry by five minutes."

"But no matter how I shout, they can't hear me. The radio station is full of static."

Wang Zhigang was a little impatient. "Go and solve the problem immediately!" "Yes, sir!"

"I've already arranged for someone to settle it."

The Chief of Staff had spent a lot of effort on this training.

Wasn't this?

His mouth was already dry and he did not have the time to drink a mouthful of water.

He quickly grabbed a bottle of water from Wang Zhigang's hand and gulped it down.

Brigadier General, there's an explosive piece of news. Do you know about it?"

After resting for a while, the chief of staff felt that he should tell Wang Kezheng about this.

Wang Zhigang smiled. "What's wrong?"

"Did you bring grenades?"

"Wu Tian from the 808th Brigade gave Qin Yuan a good beating!"

"I heard that he was beaten up quite badly!"

He has multiple fractures all over his body. He has been in the hospital for more than half a month!"

The chief of staff did not know where he got these rumors from. If Qin Yuan heard them, wouldn't he vomit blood on the ground?

"Who told you that?"

"I've always been well-informed."

Also, because Wu Tian was punished, he was promoted to the position of Deputy Chief of Staff. The order was already announced, but it was taken back."

How could Wang Zhigang not know about this?

"The content of your version is basically true, but there are too many exaggerations."
"

"Qin Yuan and Wu Tian had a boxing match. The chief of staff of the Mountain Leopard Brigade, Liu Ye, and the brigade commander, Qin Yuan, had never fought Wu Tian, the brigade commander of the 808th Brigade."

"Qin Yuan, he was beaten black and blue. He returned to the camp to rest for three days."

Brigadier General Wu's order from the deputy chief of staff was delayed because he was punished during the last drill."

“Is this official news?”

“Quasi-official.”

“Wu Tian is really unlucky this time.”

“Actually, I also want to teach Qin Yuan a lesson.”

But we can’t make a reckless mistake like Brigadier Wu’s, right?”

“Yes! That’s right!”

“Brigade Commander, I want to learn from you!”

Wang Zhigang was a little confused by these words. How did this guy’s comprehension suddenly become so high?

“Learn what?” the chief of staff explained.

“Look, you’re always unusually enthusiastic about Qin Yuan.”

‘ And you can turn enemies into friends. You’re so humble and modest. You don’t put on airs at all.”

“If it were me, it would be really difficult to do it!”

Wang Zhigang looked at him with interest.

“Is that so?”

The chief of staff said firmly.

“Yes, I am!”

“And no one can say anything.”

It still makes it seem like we’re sincere and proactive. You’re even sending him off personally when he arrives at the airport. What a high standard!” Wang Zhigang only smiled when he heard his bullsh * t.

Then, he took off his military uniform and cap and began to walk towards the beach.

The chief of staff immediately knew what he wanted to do.

“Staff Officer Yang, bring the brigade commander’s hook!”

Then, he took off his uniform with a smile and followed her. “Brigadier, you are always so graceful when dealing with things.”

“I really want to learn from you for many years!”

The chief of staff looked at Wang Zhigang, who was fishing, with admiration.

“You don’t have to learn.”

“Qin Yuan and the others are carrying out the instructions of the commander of the army in the war zone.”

” Although we don’t welcome them, we still have to carry out the palm’s instructions.”

“Those who should be welcomed, those who should be treated, and those who should be sent off.”

“Courtesy is also a form of civilization..”

Chapter 695 - 695: 808th Brigade’s Stele of Disgrace!

“Don’t look down on their low levels, but their backgrounds aren’t small.” “We don’t have to compete with them.”

“I’ll accept the materials he sent over. I’ll listen to whatever he says.”

“I’ll absorb what’s useful. I won’t use what’s useless.”

The chief of staff had been listening to Wang Zhigang’s long speech, and his eyes were shining as he looked at him.

“By the way, Qin Yuan and the others grabbed information immediately. This move is indeed ruthless and brilliant!”

The chief of staff nodded.

I’ve established a Cheetah Team in the intelligence department.” “We have stored all the information about Qin Yuan in our database.”

“I just don’t know when I’ll be able to fight against the Mountain Leopard Brigade again.”

“I reckon it will take two to three years.”

Wang Zhigang took off his sunglasses and said calmly.

“Then let’s prepare in secret first.”

“It’s not Qin Yuan’s turn. He’s lucky.”

Once the time comes, strike accurately and eliminate them at a fixed spot!” “No matter what, we have to let Qin Yuan be a prisoner of our 909th Brigade!”

“Yes!”

Suddenly, the fishing rod beside Wang Zhigang’s feet started to shake.

The chief of staff shouted.

“The captives are here! The captives are here!”

Wang Zhigang, on the other hand, was calm and not as agitated as him.

“Don’t worry, this is very likely a big fish!”

The two of them got into position and held a fishing rod in each hand. They began to slowly reel in the line.

When the hook surfaced, a green thing was hanging on the hook.

How was this a big fish? It was clearly a pile of seaweed.

How could he laugh and tease her?

“Brigadier general, your fish is really big!”

The next morning, Commissar He and Advisor Yang arrived at Wu Tian’s office.

Wu Tian was lying on his desk, fast asleep.

The table was filled with the summary of the Mountain Leopard Brigade’s exercise, as well as his own written experience.

She did not touch the food on the coffee table.

Political Commissar He called out softly. “Hurry up and clean up these things.”

“The brigade commander won’t let us move.” “The brigade commander hasn’t eaten since last night.”

“Go and tell the canteen to prepare a new meal.”

It’s the brigade commander’s favorite pork head. We must get him some.”

“Yes, sir!”

After Staff Officer Yang left, Political Commissar He slowly walked to his side, picked up the report on the table, and casually flipped through it.

Perhaps Wu Tian heard the noise and gradually woke up.

However, his appearance shocked Political Commissar He.

His beard was unshaven and his eyes were hazy. He probably hadn’t showered last night.

How did he look like a brigade commander?

The first thing Wu Tian said dejectedly when he woke up. “Political commissar, you came at the right time.” “If you don’t come, I’ll go look for you too.” He Zhengwei did not understand why.

“Why are you looking for me?”

Wu Tian stood up, almost losing his balance.

He rubbed his sleepy eyes and said weakly. “I want you to save me.”

Political Commissar He had some doubts.

“I think you just woke up. Are you talking nonsense?”

Wu Tian shook his head.

“I came to look for you yesterday, but you didn’t open the door.”

“What are you talking about? You can’t be disturbed if you want to read the information.”

“And now you want me to save you?”

Wu Tian said with a pained expression.

“You know what?”

“I’ve already fallen into the abyss!”

“Political commissar, really!”

Political Commissar He looked at his half-dead face and quickly said.

“Hurry up and wash your face. I want to talk to you about serious matters!”

Seeing that he was unmoved, she pushed his shoulder.

“Go, hurry up!”

Only then did Wu Tian slowly walk to the bathroom.

Political Commissar He took advantage of this time to sit down and look at what he had written in the notebook.

The document on the computer was written with the reflection of the 808th Brigade and me.

” The excess of honor makes us complacent and blindly arrogant. It makes us seal our eyes and ears.

” We can’t see or see clearly what the tide of the new military revolution is. We can’t see that the crisis of future wars is right before us!

It’s good that I failed this time. Without this failure, I might still continue to fall.

If it wasn’t for this failure, the 808th Brigade might never have been able to welcome the true spring.”

“I fell into the abyss for many years, and I brought the army I led into the abyss...”

Seeing this, Political Commissar He gradually revealed a gratified smile.

This was because he knew that Wu Tian was able to write such well-known words to criticize him.

This was enough to prove that Wu Tian had truly walked out of the failure of this exercise.

It seemed that he had made the right decision to trick him into going to the Mountain Leopard Brigade to get the materials!

Not long after, Wu Tian finished washing up and pushed the door open.

His appearance was completely different from a few minutes ago.

He shaved off all the beard on his face. Perhaps it was because he had washed his face, but his dispirited appearance from before was gone.

Now, she was in high spirits as she walked in with a smile. Political Commissar He looked at him and joked with a smile.

“Aiyo, did you climb out of the abyss?”

“What’s wrong? Have you read what I wrote?”

Political Commissar He did not hold back on his words and praised.

“I did. Not bad, not bad!”

However, he did not forget to mock her.

“Although the sentences are not very fluent and the words are a little inappropriate, the meaning is still quite profound!”

Chapter 696 - 696: The 808th Brigade’s Stele of Disgrace!

“Alright, with your words, we can be considered to have reached a consensus.”

Political Commissar He was somewhat puzzled. “What do you want me to save you for?” Wu Tian thought for a moment and said seriously.

“I had a dream, a real dream!”

‘ I was so happy when I led my team to the 535 defense line!’

“At this moment, Qin Yuan walked over and said to me, why don’t you look behind you?”

“I listened to him and looked behind me.” “ I didn’t expect there to be a huge sinkhole on Highland 535!”

“I can’t see the bottom with a single glance.”

“Qin Yuan, continue. I didn’t let you come up, but you insisted on coming up.”

“After saying that, he pushed me and I fell into the pit.” “The deeper I fall, the more I can’t reach the bottom.” The more Wu Tian spoke, the more afraid he became.

“I couldn’t even shout it out back then...”

“After I woke up, I wrote these articles.”

But I haven’t finished writing them. They’re all fragmented thoughts.” “I was afraid that I would forget it later, so I wrote it down first.”

“But I remembered what you said,”

After listening to his speech, Political Commissar He was thinking about some problems with a serious expression.

When she heard him suddenly mention her, she quickly stood up and asked in confusion. "What did I say?"

"Concepts!"

"If the concept changes, then many views will change."

"How did it change?"

"I think I'm a little... Shameless." "That's not necessary, right?"

"It's true."

"I don't even know what humiliation is now."

"So, I have an idea." "What idea?"

It's to educate the entire brigade to know shame, and to establish the idea of courage after knowing shame among the officers and soldiers."

"Calling on the entire 808 Brigade to endure hardships and taste courage, to revive the glory of our 808 Brigade!"

"Tell us the entire brigade's officers and soldiers. Mobilize the officers and soldiers to investigate the problem!"

Political Commissar He suddenly realized.

"So you locked yourself in here for a day and a night to cultivate?"

Wu Tian smiled.

"Political commissar, you have to cultivate!"

I've read these things given by the Mountain Leopard Brigade three times over and over again. Three times in total!"

"When I finished watching it for the first time, I broke out in a cold sweat." "After I watched it again, the back of my neck started to feel cold." "After watching it for the third time, I was sweating and having a fever!"

At this point, Wu Tian's eyes shone with two rays of light, which shocked Commissar He.

"Now I understand why our 808th Brigade lost to the fledgling Mountain Leopard Brigade."

Commissar He nodded, and the way he looked at him changed.

This is the Wu Tian I knew back then!

When Wu Tian did things seriously, he had always been swift and decisive.

He had just expressed his determination to Political Commissar He, and in the afternoon, he called for someone to find a huge stone tablet.

They moved it directly to the entrance of the 808th Brigade's military history museum.

The entire brigade had arrived.

The confused soldiers looked at the big rock in front of the door and whispered.

"Hey, why do you think the brigade commander moved this rock here to block the way?"

He's even using a piece of cloth to cover it. Could it be a large piece of jade that our brigade found?"

"Brigadier, are you going to show us this diluted treasure today?"

A soldier with a wild imagination whispered.

The comrade beside him shook his head.

"I don't think it's like what you said."

The soldier in front was a little unconvinced by his rebuttal.

"Oh? Then tell me why?"

"In my opinion, this should be a stone tablet."

"Stone tablet?"

"Yes."

"You know how glorious the history of our 808th Brigade is." ' Most of this glorious history is engraved on stone tablets."

" The fact that this rock was moved to the entrance of the military history museum means that our brigade must have done something earth-shattering."

"In order to commemorate this glorious deed, the brigade commander carved it on a stone and wanted to place it in the military history museum." The latter said it in all aspects and was reasonable.

The warriors around him nodded, thinking that what he said made sense. The first warrior carefully examined the stone in front of him and nodded.

"It seems like you're right."

"Gather!"

While they were chatting, Wu Tian and Commissar He had already arrived.

Hearing the order, the soldiers who were still chatting quickly shut up. He quickly organized his team.

After organizing the team, Wu Tian began to take the oath.

” Comrades, the brigade party committee has made a decision after careful consideration.”

” Today, the entire 808th Brigade will be conducting a profound education on shame.
”

“The purpose of this education is very clear. It is to let all the officers and soldiers keep a clear head at all times from today onwards.”

From today onwards, we will bravely throw off our sense of superiority and the burden of honor.”

“Take shame as a lesson and work hard!”

“Don’t be afraid of shame, know shame!”

“Turning shame into motivation, knowing shame and then being brave!”

” Today, in front of the military history hall of the 808th Brigade, we will be holding the opening ceremony of the first monument of shame in the history of the 808th Brigade!”

“It’s to sound the alarm for all the officers and soldiers, especially the leading officials!”

If our 808th Brigade doesn’t keep up with the times, if we don’t stand at the forefront of the training reform, we will be able to achieve our goals.”

Our 808th Brigade will be overturned by the tide of the times, just like the failure of this exercise. We will sink!”

” Therefore, I suggest that we place this stone tablet that remembers our humiliation in the military history museum of our 808th Brigade, together with all the honors that our brigade has achieved in history.”

” I hope that this will become a rule of the 808th Brigade, to let history become a mirror and not a halo!”

“I hope that all the officers and soldiers can have a normal heart and remain calm.”

” Not only can you treat your results correctly, but you can also face setbacks and failures head-on!”

“Next, I will unveil the Stele of Shame!”

As he spoke, he walked in front of the stone tablet and was about to lift the curtain.

The warriors on the field were silent.

Unlike the expected uproar, the warrior at the back had indeed guessed correctly. It was just that it was the opposite of reality.

He thought that it was a historical scene to remember meritorious deeds, but he did not expect it to be a humiliating event.

Everyone was shocked.

Wasn't his brigade commander very proud to do such a thing?

They had always been proud of the history of the 808th Brigade.

This time, he actually put in the stone tablet that remembered his humiliation.

However, at this solemn moment, although everyone was surprised, they kept quiet and waited for Wu Tian to reveal the true appearance of the stone tablet.

Wu Tian had already made up his mind. His actions were swift and decisive as he lifted the cloth covering the stone tablet.

There was a huge, bright red word "Disgrace" carved on the huge stone tablet!

Next were the names of Wu Tian and Commissar He, followed by a simple record of the failure of the exercise.

Although it was simple, the bright red handwriting was particularly dazzling at this moment.

It bombarded the visual nerves of all the soldiers on the scene.

At the same time, it also gradually shattered the sense of honor and superiority that they had with the 808th Brigade.

Wu Tian turned around.

"Did everyone see that?"

My name, Wu Tian and the political commissar, will forever be engraved on this Stele of Shame!"

"Engraving your name means that you have made a military pledge!" "The 808th Brigade can't turn over a new leaf. We will be sinners forever!" "Who asked us to be the two current commanders of the 808th Brigade?"

'I'll be the first to make a statement. From now on, I, Wu Tian, will only do one thing, and that is to make a comeback!"

"I only have one request for myself. Remember history and live up to my mission!"

For the 808th Brigade, the flag will not fall if it is not disgraced!"

"Comrades, as soldiers of Huaxia, we must do it!"

A passionate speech directly stimulated the motivation of all the officers and soldiers of the 808th Brigade.

Everyone instantly felt their blood boil!

"We can definitely do it!" "We can definitely do it!"

"We must do it!"

Chapter 697 - 697: A Nation of Rites Must Be Vigilant in Times of Peace

After a loud roar, Wu Tian waved his hand, signaling them to stop.

Then, he said.

‘ Everything must be done with the battlefield as the background, with the wartime as the standard, and with the aim of winning!

After Wu Tian returned from Qin Yuan’s place, he had learned that fighting was like training, and training was like fighting.

” I also request that from today onwards, within a year, the 808th Brigade will not release any news about achievements, commendations, or meritorious service awards.”

“Our slogan is: Be brave after knowing shame, endure hardships and taste courage!”

“Brave after knowing shame, endure hardships and taste gall!”

“Brave after knowing shame, endure hardships and taste gall!”

“Brave after knowing shame, endure hardships and taste gall!”

Hong Yi, the captain of the 909th Brigade Special Forces, had a disagreement with Wang Zhigang during the summary meeting.

Now, he could only use high-intensity training to numb himself. Therefore, the members of the 909th Brigade were suffering during this period of time. Immediately after, Zhang Xiaoyu’s car drove to his training ground.

Hong Yi put down his work and jogged over.

Hong Yi asked when he saw Zhang Xiaoyu get off the car.

“Political Commissar Zhang, why are you here?”

Zhang Xiaoyu sighed.

“Hong Yi, ever since we came back from the Wolf Fang Mountain base, I’ve been wanting to find some time to have a good chat with you.”

“But I had too many things on my hands and didn’t have time to take care of them.”

” At the conclusion meeting, you expressed your opinion. Now that I think about it, I think it’s right and very positive.”

“But some of my thoughts might not be in line with the brigade commander’s.”

“Sometimes, I can tell that you’re hesitant to speak.”

Hearing him mention this matter, Hong Yi’s expression did not look any better as he replied indifferently.

“Yes, I don’t want to talk about it anymore.” “Why?”

“It’s useless to say it. It’s easy to offend people.”

“The brigade commander didn’t improve his work, but the conflict between me and him increased.”

“It’s much better not to say it.”

“Hong Yi, do you have a problem with Brigade Commander Wang, or do you have a problem with the work arrangements, work ideas, ideology, and living security of the brigade?”

Hong Yi thought about it and hesitated.

Zhang Xiaoyu said.

“It’s okay. Just say what you really think. Now, the two of us are just having an open chat. There’s no need to worry so much.”

“Then I’ll say it?”

“It’s okay. Go ahead.”

It’s mainly because of the brigade commander’s personal problems.”

Because the brigade commander’s attitude and words directly affect the entire brigade!”

“My opinion of him is also my opinion of the work in the brigade.” “Okay, then make it clear. This way, I can communicate with you two.”

” I feel that he doesn’t understand the rules and characteristics of modern warfare at all.

‘ Moreover, he is unwilling to listen to other people’s opinions.” At the mention of this matter, Hong Yi felt a little angry.

” I led the special forces to hide in the base of Wolf’s Fang for six days and seven nights!

“And in the end?”

“He used the special forces like ordinary infantry!”

“Then how am I supposed to bring out the strengths of the special forces?” Seeing that his tone was a little harsh, Zhang Xiaoyu explained. “You might have misunderstood Brigade Commander Wang.”

“He has a comprehensive consideration of the entire combat technique.” He thinks that your special forces have too much of a difference in hiding.”

‘ That’s why we waited until the artillery regiment was in place and the infantry battalion was in place before launching the general attack.”

“If we don’t prepare artillery fire and attack with artillery fire, you won’t be able to stand your ground even if you go up.” Hong Yi said disdainfully.

Isn’t this still his old traditional tactic?”

” Attack with artillery first, then let the infantry charge up the mountain.”

“It looks quite lively, but what’s the actual effect?” “This set of things has been used since ancient times!”

“The textbooks are full of this stuff!” “Only you guys know?” “The Blue Army doesn’t know?”

“1,500 kilometers. It took a lot of effort to pull the artillery regiment up.”

“I was hoping that they would be able to completely destroy the Blue Army’s fortifications.”

“But in the end?”

“It hasn’t even been ten minutes, and they’ve already been wiped out!”

“I get angry when I talk about this!”

Hong Yi really hated him to the core.

The special forces that he led had been lurking in the wilderness for such a long time.

He couldn’t eat or sleep well.

He did not expect this result.

Then how would he lead troops in the future?

Zhang Xiaoyu knew that he was unhappy.

“Hong Yi, calm down first.” “What you said makes sense.”

Hong Yi continued to complain.

“Our communication network has long been controlled by them, and they even set the artillery position on Hill 330.”

“The Blue Army already knew about this situation and information a few days ago.”

“But how did the brigade commander do it?”

“I didn’t know to change it immediately. I just pulled it up!”

” The blue army’s electronic reconnaissance means, helicopter aerial reconnaissance, and space satellite reconnaissance have long been keeping an eye on Commander Zhu and the others. How can they not be eaten up by them?”

Zhang Xiaoyu saw that he was a little agitated.

He sighed.

“Hong Yi, perhaps the brigade commander didn’t think this through in such an emergency. ”

“Yes, he might not have considered this thoroughly.”

But what I don’t understand and what’s most infuriating is that he actually asked all the officers and soldiers of the 909th Brigade to put on a show for the commanders!”

Chapter 698 - 698: A Nation of Rites Must Be Vigilant in Times of Peace (2)

“How did he think of this so thoroughly?”

“To put it bluntly, isn’t this treating the drill as a drill?”

“The combat principle of the special forces is to kill the enemy from a long distance.’

“We’re already lurking right under their noses.”

But they let us charge like infantry.

“This is a complete violation of the principles of combat!”

“If the two battalions of the artillery regiment were set up in two places that were relatively far apart, if the first battalion of the motorcycle could also come out with the main force, instead of guarding an empty family courtyard in Chenghai City.”

If the Electronic Warfare Retaliation Battalion can take the initiative to attack first, they will first implement electromagnetic coverage on the Blue Army.”

” The digital command cabin can move with the command post, not with the armored regiment.”

“If that’s the case, the two infantry battalions will launch a frontal attack on Position 535 at the same time.”

“My special forces will launch a sudden attack from the side and behind.” ” I dare say that the 909th Brigade will not be in such a situation!”

Hong Yi expressed his opinion on this exercise in one breath.

Zhang Xiaoyu thought for a long time and felt that what he said was right.

However, he was here to ease his relationship with Wang Zhigang.

He still braced himself and spoke up for Wang Zhigang. "Hong Yi, the brigade commander is actually very regretful."

"Don't mention this matter again in the future."

Hong Yi sneered.

If you don't mention it, I won't mention it. No one will mention it. Everyone wants to stand up and be the peacemaker."

"Is this a conclusion?"

In the conclusion meeting, the first thing you do is to set the tone and say that it's a 30 – 70 ratio. Who dares to speak?"

Zhang Xiaoyu had been captured by the Blue Army before the general attack. He did not have any say in this matter.

He could only give up.

"I will convince the brigade commander of what you have said."

"Hong Yi, what other plans do you have?"

Hong Yi closed his eyes and took a deep breath, as if he had already made an important decision.

In the end, he said.

"I want to change jobs."

Zhang Xiaoyu was shocked when he heard this.

"What did you say?"

At this moment, Qin Yuan was discussing the uniqueness of modern warfare with others on the Huaxia Military Region's Internet.

Based on the results of the battle between the Mountain Leopard Brigade and the 808th and 909th regiments.

Qin Yuan was the first to speak.

"I have always advocated that our army should not wait until the enemy has entered the country before we know what the enemy is like." "We should let our troops know that this is what future wars are like."

The other party replied.

"Paranoid!"

‘Modern warfare is happening every day.’

"Although we haven't eaten pork before, haven't we seen pigs run?"

"Dumb pig!"

“In recent years, although the Gulf War and the 911 terrorist war have appeared in the world, which are also called attacks, I’m used to calling them wars.”

” These modern wars have indeed allowed us to see the progress and development trend of modern warfare.

But we’re all outsiders after all. Most of what we see is on television.”

‘ Most of the battle situation and intelligence that we have seen are filtered scraps.

Or a few hindsight cannons that have become scrap metal after the smoke of gunpowder.

Don’t expect to find the core secrets of the leaders of the war on the Internet.

Because there are very few Chinese soldiers who are personally on the battlefield.”

” The cruelty of the battlefield, the sudden nature of the war, and the uncertainty of the battle situation.”

” The absurd pickup truck war made pickup trucks the gods of the battlefield.” ” Who would have thought that the Chinese soldiers would encounter war?”

Once the war starts, we will be plunged into extreme strangeness, nervousness, fear, and blankness.

Only after experiencing a real mistake, a large number of casualties, and financial losses can we find the opportunity and direction to fight back. Qin Yuan said so much in one breath, hoping to change this netizen’s view of modern warfare.

Who knew that he would say that?

“China has always been a peace-loving country with more than 5,000 years of civilization.”

“In addition, we have strong economic strength and national defense strength as our backing.”

” I believe that as long as we don’t start a war, it won’t happen to us for no reason. ”

Qin Yuan was so angry that he pointed at the screen and cursed.

“Stupid pig!”

“A stupid pig that will definitely be slaughtered!”

At this moment, Long Xiaoyun came in with a cup of tea.

Seeing that he had finally vented his anger, she could not help but tease him.

“Ouch!”

” Who is so capable to make the brigade commander of our Mountain Leopard Brigade so angry?”

Qin Yuan happened to have no one to tell about this matter. When he saw Long Xiaoyun suddenly come to visit, he hurriedly stood up.

“Hurry up and come over. What kind of person is this!”

He said that war won’t happen for no reason. He said that we are peace-loving people.”

Long Xiaoyun was indeed curious.

After placing the cup on the table, he leaned over to take a look.

After reading it, she turned around and stared at him with ill intentions.

Qin Yuan was in a fit of anger and did not notice her small gaze.

He was still cursing.

‘What’s wrong with people nowadays?’

“You don’t have any sense of danger at all. Don’t you understand the simple principle of being vigilant in times of peace?” “ You said you love peace and won’t be beaten.”

“I think they clearly don’t understand peace and chaos!”

“No, I’ve been talking here for a long time. Why aren’t you saying anything?”

“Could it be that I didn’t make my meaning clear enough?” “Why don’t you at least say something and express your opinion?” After saying that, Qin Yuan turned to look at Long Xiaoyun.

He realized that she was staring at him without saying a word.

Qin Yuan looked at her small eyes and felt a chill down his spine.

Her anger dissipated in an instant.

He said timidly.

“What are you doing...Why are you looking at me like that?” Long Xiaoyun looked at him and said something shocking. “I didn’t expect this!”

“Brigade Commander Qin, you’re actually such a coquettish person!” Hearing this, Qin Yuan immediately broke out in a cold sweat. “Why am I sulking again?”

Long Xiaoyun pointed at the chat history on the screen.

” There are pictures and the truth here, and you’re still trying to deny it?”

Qin Yuan argued.

“Big sister, I’m just having a serious chat, okay?”

‘ Captain Long, you have such a high IQ. Can’t you see the meaning between the lines?’

Long Xiaoyun shook her head.

“That’s not what I meant.”

” What I mean is that when you talk to your comrades and subordinates in real life, you should be as concise as possible.”

“You can even say nothing when you don’t want to.”

But on the Internet, he instantly became a keyboard warrior.”

“Look, this is a long string.”

“All these words added together, are they more than what you said to me?”

Qin Yuan was really speechless. “Big sister, can you prioritize things?”

“Are we discussing this problem now?”

“You’d better hurry up and tell me if what I said up there is right or wrong.”

Long Xiaoyun put away her playful heart and began to look at it seriously. After thinking for a while, she said.

“I think both of you are right.”

Qin Yuan could not help but feel a little anxious. “Captain Long, can you please use your brain?”

“What do you mean by both of them making sense?” “It’s obvious that only I make sense. His doesn’t make sense, okay?”

“Are you here to listen to opinions or to bicker?”

“If you want to argue, I’ll leave!”

Qin Yuan immediately cowered.

“Don’t, don’t, don’t. Just be merciful and tell me your opinion. I’m all ears.”

Long Xiaoyun rolled her eyes at him.

“That’s more like it.”

“When I say that both of you are reasonable, I mean...”

“Since ancient times, China has always been a country of etiquette.”

“He’s right about that, isn’t he?”

Qin Yuan nodded.

“Moreover, with the situation in our country, we can only watch the pigs run.”

“Are you going to report this to your superiors and ask the army to start a war so that the soldiers can eat pork?”

Qin Yuan was about to retort.

However, it's the duty of every country to be vigilant in times of peace. " We'll leave this matter to the leaders of the army to consider."

"With our current military ranks, we can only throw a grain of sand into the water. It won't cause any waves.."

Chapter 699 - 699: Zhang Xiaoyu Fury

Hearing her words, Qin Yuan began to fall into deep thought.

That's right!

"Just a few of us shrimp soldiers and crab generals will not be able to play any substantial role in this matter.

He could only rely on the Bureau Chief...The chiefs...

That's right! He had to rely on the Bureau Chiefs!

Qin Yuan's mind flashed, and he immediately thought of a good idea.

A smile gradually appeared on his originally bitter face.

Long Xiaoyun asked as she looked at his sneaky smile. "Brigade Commander, did you think of something funny?"

"Why are you smiling so wretchedly?"

Only then did Qin Yuan come back to his senses. He stopped smiling and said seriously.

"Brigadier General, I'm thinking of a way to solve this problem!" "How can you say that it doesn't affect our business?"

"Oh?"

"Then tell me, what method have you thought of to solve this matter?"

Qin Yuan smiled maliciously.

"I have my own ideas."

" Come with me to the theater command tomorrow. You'll know."

Long Xiaoyun bit him with her words.

The way he looked now was completely different from the way he looked on the internet and the netizen.

After Zhang Xiaoyu finished chatting with Hong Yi, he called for an emergency meeting as soon as he returned to the brigade in the afternoon.

Wang Zhigang sat in the meeting room until night time before he slowly walked in.

"Political commissar, what's so urgent?"

Zhang Xiaoyu would never give a good face to people who were late.

He questioned.

"I thought you were in the dormitory. Where have you been for such a long time?"

Wang Zhigang did not understand.

"I went to the sea training site before dinner. Second Company of the Third Battalion shot at the sea, but half of them missed."

"I was so angry that I told them not to sleep at night. Find out the reason before they sleep!"

"Isn't this embarrassing?"

Zhang Xiaoyu saw that he was in a fit of anger at this time, so he couldn't flare up at him.

She pushed up her glasses. "Isn't Old Zhu at the scene?"

"Can't we just let him handle it?"

"Do you really need a brigade commander like you to personally guide me?"

Wang Zhigang said as he patted the sand off his body.

"Someone will be coming from the military in two days."

"They want to test our brigade's assault vehicle's live ammunition shooting at sea. How can I not do it myself?"

"Besides, they're still like this. How can I be at ease?"

"I really don't know if I don't go. I'll be shocked if I go."

Zhang Xiaoyu poured him a glass of water and comforted him.

"The 3rd Battalion just arrived at the seaside training ground a few days ago. I think you're a little impatient when you're shooting live ammunition at sea."

"You're right!"

"I'm really anxious."

"The military will be coming for the assessment the day after tomorrow. Let's show the officers the results of five out of ten shots."

"Where is the face of the brigade commander of the 909th Brigade?"

Hearing him mention the matter of face, Zhang Xiaoyu immediately thought of what Hong Yi had said and acted it out for the chiefs.

He was immediately a little angry and said unhappily.

"No matter where you put it, you have to put it on your own neck."

“You can’t eat hot tofu in a hurry. It’s useless to cram at the last minute!”

Wang Zhigang did not hear the dissatisfaction in his words and began to complain.

‘ Why didn’t they inform us in advance that the military was coming for the assessment?’”

“Even if you gave me a notice ten days or half a month ago, it would have been good, right?”

“This is making us all flustered!”

Immediately after, she did not know what was wrong with her mind, but she could actually link this matter to Qin Yuan.

“Hey, don’t you think the army is imitating Qin Yuan by doing this?”

“A surprise attack on our brigade?” These words made Zhang Xiaoyu laugh.

“I don’t think we can completely blame them.”

“It’s mainly because we don’t usually do too much sea training.” “ Three days before the assessment, the training on the sea will begin.”

“It’s only natural that the results are not ideal.”

“If the results are not ideal now, then so be it!”

“As long as they work hard, I believe their results will definitely go up.” Wang Zhigang was a little curious.

“I say, this doesn’t sound like something you, Political Commissar Zhang, would say...”

Before he could finish, the chief of staff pushed the door open and entered. “Political commissar, brigade commander.”

Deputy Brigadier Zhu said that he has something to do. He can’t come to today’s meeting.”

The moment the chief of staff entered, he interrupted Wang Zhigang’s train of thought.

He asked.

“What did I just say?” the Chief of Staff said.

“Say what?”

“I just arrived. I didn’t hear anything.”

Wang Zhigang turned to look at Zhang Xiaoyu.

“I was talking to the political commissar just now. Where was I?”

Zhang Xiaoyu smiled faintly.

“You mean, this doesn’t sound like what a political commissar would say.”

“It can’t be?”

Wang Zhigang slapped his forehead and suddenly remembered. He said with some puzzlement.

“Yes, yes, yes!”

“You never speak like this.”

“Since the higher-ups are here to assess us, we have to show our best results, right?”

“How can you say that it’s not ideal?”

“Old Wang, there are more recruits in the second company.”

“The captain and gunner are soldiers who have been around for more than a year.”

‘ Moreover, it’s the first time we’re using new equipment. How can we play well?’

“I’m just recognizing reality.”

Besides, Vice Brigadier Zhu suggested training at sea.”

Every time, you always use safety as an excuse to deny permission. You can only fight on the shore and not allow the soldiers to train in the water.” ‘ Now, all of them are suddenly rushing into the sea. How can they fight well?’

Wang Zhigang saw that Zhang Xiaoyu pushed all the responsibility to him, so he quickly questioned the chief of staff beside him..

Chapter 700 - 700: Zhang Xiaoyu Fury (2)

“Ding Kai, didn’t you say that the sea conditions weren’t good some time ago?”

“There are many new recruits. If it’s the first time they go to sea, how are they going to explain if they sink the car and die?”

The Chief of Staff, who was sitting opposite Wang Zhigang, did not say a word for a long time, but he was inexplicably shot. He could not help but sweat profusely.

Zhang Xiaoyu was not so easy to fool. He knew that Wang Zhigang wanted to shift the blame at this moment, so he asked directly.

“Then why did you let them go into the sea to shoot with live ammunition

Although there were only the three of them in the meeting room, Wang Zhigang’s dignity as brigade commander was still inviolable. Being scolded by Zhang Xiaoyu, Wang Zhigang was also a little angry.

“Political commissar, you’re just bickering!”

Zhang Xiaoyu saw that Wang Zhigang was like this.

He couldn’t tolerate anyone’s objection to his decision.

She turned her head away angrily, not wanting to talk to him.

Seeing this, the Chief of Staff could only step forward and act as a peacemaker.

“Political commissar, brigade commander, what meeting?”

“Shall we drive?”

The chief of staff wanted to get them to end this topic quickly and shift their attention to the meeting. Zhang Xiaoyu said.

“Open it!”

“Today’s meeting is just to bicker!”

The chief of staff was crying in his heart!

Did he not look at the almanac when he went out today? Why did he always get caught in the crossfire no matter what he said?

Wang Zhigang also looked at Zhang Xiaoyu in surprise, not understanding

VVHdL ne Inedi1L.

He sneered.

“What’s wrong? Zhang Xiaoyu?”

“Did you take the wrong medicine today?”

Zhang Xiaoyu took a deep breath and calmed down.

“Old Wang, how can you say that?”

“I called you here today. We have a meeting to discuss the reason for the failure of the previous exercise with the Mountain Leopard Brigade.”

” I want to analyze the current problems of the 909th Brigade. I hope we can have a unified understanding.”

“Then why do you have to arrange it at night?”

“You’re really...”

Zhang Xiaoyu did not let him continue and retorted directly.

“I can’t sleep!”

Wang Zhigang was speechless.

After a while, she could only compromise and not argue with him.

“Alright, go ahead!”

“Do we still have any problems?”

“After we returned from the defeat, the officers and soldiers in the brigade had a lot of thoughts. Everyone could see it.”

However, the thinking of the leaders of the Standing Committee is not unified.

“What should we do for the 909th Brigade in the future? What should we do to turn the tables?”

“If the three of us do not have a unified understanding of our thoughts, a lot of work in the brigade cannot be carried out.”

“Also, there are some problems that everyone knows in their hearts, but they can only pretend not to see them because of their feelings.” In my opinion, this is an incompetent and irresponsible behavior!”

“I hope that from today onwards, this bar will be raised!”

“Not only do we have to deal with things, but we also have to deal with people!”

Wang Zhigang looked at him indifferently. He did not know that he was referring to him.

After he finished speaking, he said with a mischievous smile.

“What’s going on, political commissar?”

“Of course we can’t avoid it if there’s a problem! Right?”

“But did we lose?”

“The Bureau Chief didn’t even say a word of criticism.”

“Isn’t that right, Chief of Staff?”

The chief of staff did not expect that the spearhead would suddenly turn to him.

However, he had learned his lesson this time and stopped talking.

He just nodded with a smile.

Wang Zhigang continued.

“Why do you have to humiliate yourself?”

“I don’t agree with using the word ‘bickering.’ It won’t sound good if it gets out.”

“And it’s not a good influence.”

“We should be united so that we can move in unison, right?”

Zhang Xiaoyu sneered and did not say anything.

It seemed that Wang Zhigang was still as arrogant as ever. He did not know that there was a problem during this exercise.

“Political commissar, tell me.”

“If we have any problems with our training, we’ll change it immediately!”

“Can’t we just take action immediately?”

Then, he looked at the Chief of Staff. “Chief of Staff, tell me.”

The chief of staff was dumbfounded.

“I... I’m listening!”

Wang Zhigang rolled his eyes at him.

“I’m listening now, not talking.”

“Since the political commissar wants to argue, you should say a few words too.” “Tell me, does what I said just now make sense?”

The Chief of Staff glanced at Zhang Xiaoyu cautiously due to the pressure from his brigade commander.

After no emotions could be seen from his face, he stammered.

“I think...I think...”

Wang Zhigang was getting impatient.

“If you want to say it, say it. Don’t be so wishy-washy!”

After being reprimanded by him, the chief of staff blurted out without thinking.

“I think what the brigade commander and political commissar said makes sense!”

In this way, there should be no big problem with both sides taking care of each other, right?

When Wang Zhigang heard this answer, he gave him an approving look.

“That’s right!”

“What we both said makes sense. That’s not bickering.”

Zhang Xiaoyu asked.

“Then what should I call it?”

Since it all makes sense, it should be called a discussion... Investigate the problem.”

Wang Zhigang and the Chief of Staff laughed, trying to ease the awkward atmosphere.

However, Zhang Xiaoyu really planned to settle this matter this time.

He still had a straight face.

“Old Wang, I think you’re trying to smooth things over!”

Wang Zhigang was not a pushover either.

“Don’t say that. Isn’t it one of your political commissar’s jobs to mediate?” This made Zhang Xiaoyu angry.

Wang Zhigang was now clear about the purpose of Zhang Xiaoyu's meeting.

"I know. Recently, some comrades have reported some problems and dissatisfaction."

Zhang Xiaoyu sneered.

"What problems? What emotions? Tell me."

"Old Hong, Hong Yi."

He doesn't have any objections because the results of this exercise aren't ideal."

From the very beginning, he was filled with dissatisfaction.

He's playing with his emotions. Do you think I don't know?"

"However, what he said is not completely unreasonable."

"However, no matter what opinions you have, we must resolutely carry out the orders of our brigade party committee!"

He's kept this feeling until now, and he even suggested changing jobs."

"Do you think we can accept this kind of emotion?"

Zhang Xiaoyu said lightly.

"What else?"

"There's also Commander Zhu from before. He was also influenced by Hong Yi.

Now, he also can't stand this and is dissatisfied with that." "Tell me, if this kind of contradiction is exposed..." "Then what do the soldiers of our brigade think of our brigade leader?" "How should we carry out our work in the future?"

"If you complain too much, you'll break your heart. You should take a look at the scenery!"

"Be more magnanimous and broaden your horizons. Don't always be calculative about your personal feelings and vent them casually."

"Actually, this is a very bad habit." Then, he turned to look at the Chief of Staff. "Ding Kai, didn't I ask you to talk to Hong Yi?" "How did the discussion go?"

The chief of staff looked at Zhang Xiaoyu awkwardly.

Because of this matter, he had asked Zhang Xiaoyu to help him talk to Hong Yi.

However, she didn't know if Zhang Xiaoyu had done it.

He could only say vaguely.

"I... I haven't had the time yet."

After saying that, she looked at Zhang Xiaoyu as if she was asking for help.

Zhang Xiaoyu did not disappoint him and explained.

“I’ve talked to Hong Yi about this.” But the problem isn’t who’s complaining or who’s dissatisfied.”

“Then what is the problem?”

” The question is why they are angry and grumbling.”

” We brigade leaders don’t know the exact reason.”

Perhaps it was because the Chief of Staff had talked to Regiment Commander Zhu before, so he knew some of the reasons.

Therefore, he stood up and said.

“I think it’s probably because he’s dissatisfied with the Mountain Leopard Brigade. ”

“Everyone is not used to the confrontation of the Mountain Leopard Brigade.” “I’m not used to this kind of exercise that doesn’t follow the rules.”

” Therefore, everyone thinks that we should follow the requirements of the training program obediently, but in the end, it becomes a different routine when we fight..”
