

## Special Troop 71

### Chapter 71: Paratroopers Are Born to Be Surrounded

According to the rules of the exercise, the paratroopers had already lost their combat ability.

At this time, Lone Wolf Team B realized that a small team had infiltrated their rear. Their attention had been focused on the battle in front of them, so they did not notice that the enemy had circled around them.

“F \* ck! Who groomed this team! This combat ability is too terrifying. This isn’t a regular army at all.”

The medics were shocked. They looked at the paratroopers who had lost their ability to fight not far away, and then looked at the position of Liu Ye and the others not far away. At such a close distance, they did not even notice that there was someone lurking there. They even concentrated their firepower and killed the paratroopers.

Liu Ye and the rest’s camouflage, infiltration, and combat abilities were unbelievable to the medics. They were ridiculously strong.

“Everyone, be careful. This unit is different from the units we have encountered before. They are very familiar with special operations. We have to deal with them first!”

“Xiao Zhuang, snipe their firing point. Medic, Old Pao, you guys go around to their right.” Geng Jihui immediately gave the order.

“Siberian Wolf received!” “Bald-tailed Wolf received!”

“Mountain Wolf, copy!”

Soon, the medics and Old Pao rolled a few times and disappeared into the forest. Xiao Zhuang kept sniping at Liu Ye and the others with his sniper rifle. “Deputy Company Commander, they’re coming around.”

After Zhao Xiaowu fired at the medics, they reported when they saw that they did not hit the medics.

“Third Platoon Leader, have you arranged the anti-infantry mines that the Company Commander taught us?”

“It’s done! After we circled around just now, I asked a few soldiers to set up mines around.”

“Good! It’s best to stall them for a while!”

After listening to Zhao Xiaowu’s report, he felt a little better. They had already used the things that Qin Yuan had given them to the fullest in this exercise.

“They’re missing two people now. Those mines should be able to stop the two special forces for a while.”

“Let the brothers in the third platoon charge directly. We can only fight them in close combat! Even if we can replace two or three of them with a dozen of us, it’s not bad. If this continues, we’ll be sniped off by them one by one.”

Seeing his brothers being sniped by Xiao Zhuang, Liu Ye directly chose to let everyone charge into close combat. This way, the opponent’s sniper rifle would be very difficult to use. “Yes, sir!” “Third Platoon, press in!”

“Yes, sir!”

Liu Ye’s team had only 10 people left. The opposing Lone Wolf Team B’s paratroopers had lost their ability to fight. Other than the medics and Old Pao, they only had three people left. Liu Ye would definitely not give up this opportunity to charge.

The members of Third Platoon jumped into the forest one by one, constantly looking for cover to rush towards Lone Wolf Team B. Xiao Zhuang had a bad feeling.

“Report! They are coming towards us. My sniping is not very effective now!”

Geng Jihui also saw the situation that Xiao Zhuang mentioned clearly, and his expression gradually became heavy.

“Get the paratroopers on your back. We’ll retreat! Keep some distance from them.”

“Yes, sir!”

Geng Jihui knew that they had fewer people now. If they fought Liu Ye and the others in close combat, they would not have much of an advantage.

The paratrooper saw Xiao Zhuang running towards him and shouted loudly. He was already seriously injured. Bringing him along would only affect the combat ability of their entire team.

“Forest Wolves, take your team and retreat. I have lost my ability to fight.

Bringing me along will only affect you!”

“What are you talking about? When have we ever abandoned our brothers? At most, we’ll all die in battle!”

Xiao Zhuang ignored the paratrooper’s words and carried the paratrooper on his back as he retreated.

“Sigh... You guys, don’t you know that paratroopers are born to be surrounded?” “Still talking huh! I’ll really let them torture you here.”

Xiao Zhuang said in a bad mood. He felt extremely unbalanced in his heart after fighting such a sullen battle today.

“Don’t! Xiao Zhuang! I’m just joking. I’m usually not bad to you, right? I don’t want to be bullied by the regular troops.”

The few of them quickly ran into the forest behind them, while Liu Ye and the others followed closely behind.

“Old Pao, medics, what’s the situation on your side?”

Geng Jihui saw that the medical staff had already gone around for a while and did not see any movement from them. He quickly asked.

“Report! We’re really unlucky today. They arranged a bunch of firecrackers for us!”

“Mountain Wolf is helping me clear the mine now!”

The medic was helpless. He didn’t expect Liu Ye and the others to be so professional in setting up anti-personnel mines around the area. He and Old Pao had just circled around and entered a minefield, and he happened to step on a mine.

After listening to the report from the medical staff, Geng Jihui had a headache.

The unit they encountered was ridiculously strong in terms of strength and combat tactics. Their combat methods were almost on par with their special forces.

“They’re coming! ”

Qiang Xiaowei saw that Liu Ye and the others were already very close to him and quickly explained the situation to the crowd. Everyone’s eyes immediately turned sharp and their faces revealed a serious expression.

Today’s battle could be said to be the most difficult battle their special forces team had ever encountered.

“Put down your guns and fight them hand-to-hand!”

Geng Jinurs voice Immediately came from tne earpiece. From ms tone, one could tell that Geng Jihui was very serious.

“Yes, sir!”

Soon, Liu Ye and the others caught up and engaged the remaining three members of Lone Wolf Team B.

Although Liu Ye and the others were fighting against one person, Lone Wolf Group B’s combat strength was not something that Liu Ye and the others could compare to.

“Which unit are you from?”

After forcing Liu Ye and the other two to retreat, Geng Jihui’s eyes flashed with shock. Although he could still deal with Liu Ye and the other two, it was obvious that he did not have any advantage.

Liu Ye and the others’ fighting skills were too shocking. Every move was aimed at their vital points. Under the close cooperation of the three of them, he felt that he could not withstand them. Liu Ye and the others’ strength was not the combat strength of a regular army at all.

“We are the Red Army’s troops, of course!”

Liu Ye didn’t reveal his own troops. Geng Jihui’s combat strength also shocked Liu Ye deeply.

“Is this the strength of the special forces?”

Liu Ye endured the stinging pain on his arm. The three of them actually could not suppress Geng Jihui, and the situation of the battle not far away was the same.

The third platoon leader, Zhao Xiaowu, was also fighting with Xiao Zhuang with two soldiers. They couldn't gain any advantage at all, and the other three soldiers of the logistics company were at a disadvantage.

Through the current situation, Liu Ye finally understood how terrifying a special forces soldier was. He knew that with their current strength, they could not defeat the special forces of the blue army. They could only think of a way to stall for a while.

After saying that, Liu Ye raised his fist and rushed towards Geng Jihui. The other two soldiers followed closely behind Liu Ye. Geng Jihui saw Liu Ye and the others rushing over again, so he got into a battle stance.

The group of people gradually entered a white-hot melee. Ten minutes later, the three logistics company soldiers who fought with Qiang Xiaowei gradually lost. The scale of the war gradually tilted toward Lone Wolf Group B..

## Chapter 72: The Company Commander Said He Was Going to Catch Pigs!

However, Qiang Xiaowei was not any better. His right arm and left leg had been marked with a few red knife marks. He was seriously injured. If it was a real battle, he might not be able to win with such serious injuries. Because in actual combat, his injuries would seriously affect his combat strength. It could be said that he had won, but he had not won.

Xiao Zhuang was in the same state as Qiang Xiaowei, but he was in a much worse state. In actual combat, he had already been sacrificed. Because at the last moment, Zhao Xiaowu's dagger was also drawn on his neck.

The battle between Geng Jihui and Liu Ye was still ongoing. They had already exchanged dozens of moves, and neither of them could do anything to the other.

At the last moment, Geng Jihui caught the mistake of one of the logistics company soldiers and knocked him down.

With one less person, the pressure on Geng Jihui gradually decreased. Liu Ye and the others were gradually not his match. A few minutes later, Liu Ye was also knocked to the ground, and there were many red knife marks on Geng Jihui's body.

Liu Ye collapsed to the ground. Looking at the results in front of him, a smile gradually appeared on his face. They did not expect to be able to fight against the special forces one day. Moreover, more than ten people had almost wiped out an entire special forces team.

Geng Jihui looked at everything in front of him, and the shock in his heart never stopped. Their Lone Wolf Team B had already lost two people in the battle, two people were seriously injured, and two people were directly trapped by mines. It could be said that the entire team was directly wiped out.

Looking at Liu Ye and the others lying on the ground, the shock in his heart could not be suppressed and appeared on his face. The nine people lying on the ground plus Liu Ye and the others in front of him were only a dozen people, right?

“Lone Wolf Team B! Lone Wolf Team B! Please reply! Please reply!”

Old Gao’s voice immediately came through the earpiece. “Lone Wolf Team B, copy!”

“What’s the situation on your side? Why didn’t they attack us?”

Faced with Old Gao’s question, Geng Jihui could only reply with a sullen face.

“Reporting to Wild Wolf! Lone Wolf Team B was ambushed. Two members of the team were killed, two were seriously injured, and two were trapped in the minefield! ”

“The entire Lone Wolf Group B can be said to have been wiped out!”

“What?”

Hearing Geng Jihui’s report, Old Gao’s face darkened.

He knew the strength of Lone Wolf Group B. He did not expect the entire team to be almost wiped out. The shock in his heart was no less than Geng Jihui’s.

Even though the other side had put up a strong resistance, they had still managed to break through the Red Team’s command center at the expense of a member of Team A.

However, he did not expect that Lone Wolf Team B would be almost completely wiped out!

“What exactly happened?”

“Wild Wolf! I’ll report to you later!”

“Good! We are now at the Red Army command center. The Chief of Staff is on his way!”

“Yes, sir!”

Geng Jihui didn’t know how to explain himself, so he could only bring the soldiers and the logistics company back to the command center.

In Drill Area No. 3, where Qin Yuan and the others were defending, Fan Tianlei was looking at the entire Lone Wolf Assault Team in a rage. “F \* ck! You guys were wiped out by just a dozen people?”

“Chief of Staff! We...

Geng Jihui wanted to say something but hesitated. How would he dare to say anything! They were the special forces, but they were actually beaten up by more than ten regular soldiers. All of them had awkward expressions on their faces.

The members of Lone Wolf Team B didn’t even dare to breathe loudly. At this time, the medics and Old Pao also returned. Looking at the members of Lone Wolf Team B, they knew what they had just experienced.

“Chief of Staff! They are definitely not regular troops. Their strength and combat tactics are extremely powerful. We have fought with so many regular troops, but we have never seen them like this.”

Old Gao reported awkwardly with a red face. This time, even Team A had lost a teammate, let alone Team B.

Fortunately, they found that only a dozen soldiers in one direction were extremely powerful. The attack from the other direction was not as strong, so he directly broke through from there.

After successfully taking down the command center, Old Gao looked at their combat uniforms and it was obvious that they were not from the same company.

After hearing Old Gao’s report, Fan Tianlei’s sharp eyes swept across Liu Ye, the Sixth Company Commander, and the others.

“Are you all from the Iron Fist Regiment’s Sixth Company and Logistics Company?”

Facing Fan Tianlei’s question, the sixth company commander walked up and saluted.

“Reporting to the chief! Yes, we are from the 6th Company of the Iron Fist Regiment of the 801st Army of the Red Army! I am the sixth company commander, Feng Guanghua!”

Fan Tianlei nodded and continued to look at Liu Ye and the others.

“Reporting to the chief! We are the logistics company of the Iron Fist Regiment of the 801st Army of the Red Army! I am the deputy company commander, Liu

Liu Ye also saluted and reported.

“Logistics company?”

Fan Tianlei was also shocked. When did the strength of the logistics company soldiers become so abnormal?

Looking at the soldiers of the logistics company, each of them had a spirited gaze, dark skin, and a determined aura. He was very shocked. The stubborn resistance that the Lone Wolf Assault Team had just encountered should be them.

As the chief of staff of the Wolf Fang Special Combat Brigade, he knew very well what a soldier was like. He was curious why a logistics company was so strong that even the Lone Wolf Assault Team almost fell to them.

“You’re the deputy company commander? What about your company commander?”

Fan Tianlei finally realized that the company commander and the instructor of the logistics company were not around.

“Our company commander said that he’s going to catch pigs! They told us to wait for them here!”

Liu Ye thought that Qin Yuan and the others had probably already taken action, so he said Qin Yuan's original words without hesitation.

It had been almost two hours since they had set off. With the commander's ability, he should have completed the mission. Even if Fan Tianlei and the others knew about it now, it would be too late.

"Not good! Hurry up and go back!"

Fan Tianlei's face turned black when he heard Liu Ye's words. He finally realized that he had fallen into a trap.

"Hurry back immediately."

The Lone Wolf Assault Team also realized that they had fallen into a trap. The Red Army wanted to lure them over and attack the Blue Army's command center.

Judging from the current situation, the team that were going to raid must be quite strong. If that was the case, they might really be able to successfully raid their blue army's headquarters.

The entire Lone Wolf Assault Team was shocked. They immediately gathered and rushed to the helicopter..

## Chapter 73: My Name is Qin Yuan!

Fan Tianlei sat in the helicopter, his head covered with black lines. He only hoped that the Blue Army's command center had not been breached. Otherwise, they might really lose this exercise.

"Hahaha! Old Liu, this is the first time I've seen the Wolf Fang Special Forces suffer!"

"You don't know how badly we were beaten by them last year. You have no idea how happy I was when I saw their gloomy faces."

After the Lone Wolf Assault Team left, the sixth company commander laughed. He knew how aggrieved Fan Tianlei and the others were. He didn't expect the special forces to be defeated by the Red Army.

"I hope the company commander and the others have completed their mission. Otherwise, it'd be like I'm overstepping my boundaries!"

Liu Ye was still a little nervous. He had just said that the company commander had gone to catch pigs. If the company commander and the others did not complete the mission, he would be finished.

"Don't worry. With your company commander's strength, it shouldn't be a problem. Even if you don't say it, do you think they won't be able to react? You have to know that our command center is fake. If they find out, they will immediately react."

Seeing Liu Ye's gloomy face, the sixth company commander immediately comforted him, but his face could not hide the shock in his heart.

He knew that the soldiers of the logistics company were very strong, but he didn't expect them to be so strong. When he was commanding the soldiers of the logistics company, he had already seen their strength.

If it wasn't for the fact that their Sixth Company couldn't hold on anymore and became a breakthrough point, it was still uncertain whether the Lone Wolf Assault Team could break through their command center.

It had only been three months! The former appearance of the logistics company was still imprinted in his mind. The current logistics company might not even be able to defeat them even if they had two or three of the six companies.

How did Qin Yuan train? In three months, the entire logistics company had almost caught up with the special forces.

"I hope it's as you said, Sixth Company Commander!"

Liu Ye thought about it and felt that it was the same. After he said it, they rushed back and didn't realize that their current command center was fake. "Company commander! Don't blame me if you come back. I'm doing this to protect our command and combat system..."

"Yes! It is to protect our command and combat system."

Liu Ye sighed softly in his heart. He was deeply afraid that Qin Yuan and the others would not be able to complete the mission. If they came back and knew that he was the one who told them about their operation, he would be finished.

At this moment, Qin Yuan and the others had already infiltrated the Blue Army's command center. They had rushed over and realized that their command center had not been moved. It was obvious that the Blue Army did not take them seriously at all.

Relying on the early warning radar and the Eagle Eye shooting technique, Qin Yuan had already led the team to quickly take care of most of the soldiers of the special forces brigade. Now, he was sitting in the command center of the blue army.

"How is it? Have you contacted the Chief of Staff?"

A rough voice came from outside the door. Brigadier General He Zhijun and Bureau Chief Gao Shiwei opened the curtain and walked in.

"Don't move!"

"Don't move!"

Geng Hu held his pistol and pressed it against Gao Shiwei's head. He did not care that this was the commander of the military region. Zheng Xiaohu also pressed his gun against He Zhijun's waist.

"I'm sorry! Chiefs!"

"Your Blue Army command center was captured by our Red Army commandos 10 minutes ago. You are now captured!"

Qin Yuan looked at the two chiefs who walked in and then looked at the epaulets on their bodies! He knew that they should be the highest commander of the blue army, but the rank of the old man Geng Hu pointed at was also shocking.

“What is it? How is that possible?”

He Zhijun widened his eyes in disbelief as he looked at Qin Yuan. He did not believe Qin Yuan’s words at all. Why was his Blue Army command center directly destroyed?

However, the situation in front of them clearly proved what Qin Yuan said. A few people from the Blue Army’s command center were tied up in a corner. “Young man! It’s been so many years, but you’re the first one to put a gun to my head!”

Bureau Chief Gao Shiwei looked at Geng Hu with a sharp gaze and did not look angry at all.

“What’s the matter? I’ll pay! What can you do to me!”

“F \* ck, you’re already captured, so don’t talk so much!”

Geng Hu did not realize that the person he was facing was the commander of the military region. Although he had been in the army for three months, he still could not distinguish the ranks of the military. He did not care much about what Gao Shiwei said.

Qin Yuan looked at Geng Hu helplessly. Of all the people here, he suspected that only Geng Hu did not know that he was the commander of the military region. The group of people stared straight at Geng Hu.

“Company commander! Platoon leader! Why are you all looking at me?” “Is there a flower on my face? Did I not speak aggressively enough just now?!”

Faced with everyone’s stunned gazes, he thought that he was not domineering enough just now. He raised his leg and was about to kick Chief Gao Shiwei.

“Geng Hu! Stop!”

Qin Yuan saw that Geng Hu was about to kick him, and his heart trembled.

That was the commander of the military region! If he really kicked Geng Hu down, he’s on his own! At that time, he could not blame Qin Yuan for not being able to save Geng Hu!

“What’s wrong with you, soldier? Do you still have any discipline?”

He Zhijun’s heart trembled when he saw Geng Hu about to kick Gao Shiwei. Did this kid not know that the person in front of him was the commander of their military region? However, He Zhijun did not know that Geng Hu could not recognize his military rank at all.

Hearing Qin Yuan’s order, Geng Hu put down his raised foot. To him, he only listened to Qin Yuan’s orders.

“Good boy!”

Bureau Chief Gao Shiwei looked at Geng Hu with a smile. He did not scold him at all, but a murderous aura emanated from his body.

Qin Yuan looked at the old man in front of him and knew that he must be a person who had been through many battles. He had only felt this aura from his grandfather. He saw Chief Gao Shiwei walk up to Qin Yuan and size him up.

“What’s your name? In which unit?”

Faced with Gao Shiwei’s question, Qin Yuan went forward and saluted.

“Reporting to the chief! I’m Qin Yuan, the logistics company commander of the Iron Fist Regiment of the 801st Division!”

Looking at the straight and steely Qin Yuan, Bureau Chief Gao Shiwei’s eyes were filled with gratification.

“Good! He was a good soldier! He’s neither arrogant nor impatient, and his future is boundless!”

Bureau Chief Gao Shiwei looked at Qin Yuan, then glanced at the people from the logistics company. Finally, his gaze stopped on Geng Hu!

“You don’t know who I am?”

Bureau Chief Gao Shiwei stared at Geng Hu curiously. After so many years, this was the first time he had met a soldier who dared to point a gun at his head!

“I don’t care who you are! Even if the military commander comes, I won’t be afraid!”

Geng Hu’s voice was very domineering. Just now, he thought that the company commander and the others were staring at him because they felt that he was not domineering enough. Now, he had to let the company commander and the others see if Geng Hu was domineering enough.

Gao Shiwei laughed when he heard Geng Hu’s words.

“Are you sure? You’re not even afraid of the military commander?”

“What’s there to be afraid of? The Bureau Chief isn’t here. Other than our company commander, I, Geng Hu, have never been afraid of anyone!” “Geng Hu? It seems that he really lives up to his name. He’s really quite a tiger!”

Bureau Chief Gao Shiwei smiled. The group of people were dumbfounded by Geng Hu’s actions, especially He Zhijun, who looked at Geng Hu helplessly.

“Is this kid brainless? Doesn’t he know that the person in front of him is the military commander?”

## Chapter 74: He Is the Bureau Chief

Zheng Xiaohu was really worried that Geng Hu’s words would anger the Bureau Chief in front of him, so he quickly walked to Geng Hu’s side and whispered a few words into his ear.

“Geng Hu! He is the commander of our Southeast Military Region. You’ve been here for three months, and you still can’t tell the difference between military ranks?”

“What is it? He’s the commander of our military region?”

After hearing Zheng Xiaohu’s words, Geng Hu was stunned. His face fell as he looked at Gao Shiwei in disbelief.

He had never thought that the old man in front of him was the commander of the military region. He had just boasted shamelessly that he was not afraid of the commander. Now, his feet were trembling non-stop as he stood there.

“We’re done for! I just pointed a gun at the head of the military commander and almost kicked him.”

Gao Shiwei looked at the trembling Geng Hu and knew that the kid was scared out of his wits.

“It’s okay, young man! Your temper is a little fierce, but I like it!”

Geng Hu walked shakily to Lieutenant General Gao Shiwei.

Zheng Xiaohu was really worried that Geng Hu’s words would anger the Bureau Chief in front of him, so he quickly walked to Geng Hu’s side and whispered a few words into his ear.

“Geng Hu! He is the commander of our Southeast Military Region. You’ve been here for three months, and you still can’t tell the difference between military ranks?”

“What is it? He’s the commander of our military region?”

After hearing Zheng Xiaohu’s words, Geng Hu was stunned. His face fell as he looked at Gao Shiwei in disbelief.

He had never thought that the old man in front of him was the commander of the military region. He had just boasted shamelessly that he was not afraid of the commander. Now, his feet were trembling non-stop as he stood there.

“We’re done for! I just pointed a gun at the head of the military commander and almost kicked him.”

Gao Shiwei looked at the trembling Geng Hu and knew that the kid was scared out of his wits.

“It’s okay, young man! Your temper is a little fierce, but I like it!” Geng Hu walked shakily to Lieutenant General Gao Shiwei.

‘Chief I really didn’t know you were the commander of the military region just now! If I knew that, I wouldn’t have dared even if you lent me 100 guts!’

Geng Hu’s voice was stuttering. It was obvious that he was frightened by this situation. He did not know the military rank at all and looked at Qin Yuan with a resentful gaze.

Qin Yuan knew that the Bureau Chief in front of him would not be angry, so he did not stop Geng Hu from the beginning. He just wanted Geng Hu to know that sometimes he had to control his temper. Otherwise, he would suffer if he continued to do things without thinking.

“You’re all very good! After the drill, I’ll personally go and greet you!” Gao Shiwei looked at the people from the logistics company with gratification.

As soon as Gao Shiwei finished speaking, Fan Tianlei rushed in with the Lone Wolf Squad.

“Don’t move! Put down your guns!”

Seeing Fan Tianlei and the others return, He Zhijun was furious. No matter what, Fan Tianlei was a veteran in the army, yet he still made such a mistake.

“Comrade Chief of Staff! 20 minutes ago, our Blue Army command center was breached by the Red Army’s assault team. All the officers and brigade commanders in the command center were killed!”

He Zhijun’s face darkened. If Fan Tianlei hadn’t acted so impulsively, he wouldn’t have done this, let alone in front of the military chief.

“Right! And I, the commander of the Southeast Military Region, the highest commander of the Blue Army, was also held captive with a gun to my head!” Gao Shiwei said softly.

Fan Tianlei’s face was full of embarrassment. He didn’t expect things to turn out like this. He had fallen into this trap from the beginning. The other party seemed to know that he would lead the army to capture the Red Army.

“Di di di di ...”

At this moment! The computer in the command center of the blue army sounded a series of alarms!

All the blue dots on the map disappeared. After Qin Yuan captured the blue army’s command center, he immediately asked Geng Hu to fire a signal flare.

After Zhou Qing received the signal from Qin Yuan and the others, he directly commanded the remaining two missiles of the Red Army to fire at the Blue Army’s command center. He also commanded the various units of the Red Army to counter-surround the Blue Army.

At the same time, Qin Yuan also hacked into the blue army’s command system and commanded the blue army’s planes to bombard the blue army soldiers crazily.

“What happened? Didn’t we destroy their command system? How can the Red Army still be commanded?”

Seeing this situation, the Lone Wolf Assault Team members were dumbfounded.

When Fan Tianlei saw this, he knew that the Red Army’s command system that they had destroyed was fake.

“What a good move – luring the tiger away from the mountain! Swapping the crown prince with a civet cat!” Fan Tianlei sighed in his heart. He was very curious about who made him fall.

“This military exercise! Victory to the Red Army!”

Bureau Chief Gao Shiwei announced the results of the drill.

In the command room, the faces of all the soldiers in the special forces regiment darkened. This was the first time in many years that they had failed in a drill competition, and it was also the only time that they had almost been wiped out.

Bureau Chief Gao Shiwei looked at everyone and did not say anything.

Sometimes, after a failure, they would know that there was no such thing as an unchanging legend. There was always someone better! Such an outcome would only make the Special Combat Brigade more mature.

Although Qin Yuan and the logistics company were smiling, they did not get carried away! Chief Gao Shiwei's face gradually filled with a smile. He looked at Qin Yuan and was thinking about something.

Bureau Chief Gao Shiwei turned around and walked out of the door. He Zhijun

After Gao Shiwei left, Fan Tianlei looked at Qin Yuan and the others.

“Which one of you is the company commander of the logistics company?”

Qin Yuan looked at Fan Tianlei, who had a sour expression on his face. He did not expect Fan Tianlei to be exactly the same as Fan Shengkeng in the TV series! Before he could be surprised, Qin Yuan walked forward and bowed.

“Chief of Staff Fan, I'm Qin Yuan, the company commander of the logistics company!”

Fan Tianlei sized up Qin Yuan, who had come forward to salute him. He could tell from Qin Yuan's strength that he was not weak. Just his calm appearance made him feel shocked.

Looking at the people behind Qin Yuan, although their strength should not be as strong as the members of the Lone Wolf Assault Team, they were not much weaker.

Especially Geng Hu and Zheng Xiaohu, who were already on par with the members of Lone Wolf Group B. Looking at the calm Qin Yuan, he knew that it was not a waste to lose to Qin Yuan this time.

“Good boy! How dare you trick me, Fan Tianlei! In the past, I was the only one who tricked others. This is the first time I've been tricked!”

Fan Tianlei smiled and reached out to shake Qin Yuan's hand.

“Chief of Staff, please don't blame me! Who asked us to be opponents on the battlefield!”

“Besides! This time, it's just that you didn't know about our existence. If you knew, we would have been wiped out long ago.”

“We took advantage of you!”

Qin Yuan knew very well that they could win this time because Fan Tianlei did not know about them. The overall strength of the logistics company was still inferior to the Wolf Fang Special Forces.

Fan Tianlei's forehead gradually broke out in cold sweat, and his hand that was holding Qin Yuan's hand was slightly red. The moment the two of them shook hands, he wanted to test Qin Yuan's strength. However, he did not expect Qin Yuan to be so strong. He even felt that no one in the entire special forces brigade was a match for Qin Yuan.

Moreover, Qin Yuan's calmness and strength were beyond his imagination. With such a calm, brave, and resourceful chief officer, it was no wonder that he could bring out such powerful soldiers..

## Chapter 75: Chief of Staff, Are You Mistaken?

"Not bad! You have a bright future!"

Fan Tianlei put away his shocked heart and instantly looked at Qin Yuan with shining eyes. Qin Yuan and his company had great potential as special forces soldiers.

If they could recruit their entire company into their Wolf Fang Special Combat Brigade, then their Wolf Fang Special Combat Brigade would become even stronger. Moreover, Qin Yuan and the others were a company of 50 people! Fan Tianlei's gloomy face disappeared at the thought of this.

Looking at Fan Tianlei's smiling face, Qin Yuan knew that Fan Tianlei was definitely planning to play tricks again. Those who knew Fan Tianlei knew that as long as he smiled, there would definitely be some conspiracy.

"Chief of Staff, you flatter me."

Qin Yuan replied, and his originally clenched hands gradually relaxed. From Fan Tianlei's expression, he could feel that the display of their logistics company's strength had aroused Fan Tianlei's love for talent. He believed that he would come to ask for him soon.

"Good! Very good! This time, you guys have really broadened my horizons."

"I didn't expect that we would ever fall into the hands of others in all these years. This time, we actually fell into your hands! "

"After the drill report is over, I will go to your place to understand your company on a deeper level."

Hearing Fan Tianlei's words, the people of the logistics company gradually smiled. For so many years, no other unit had ever looked up to them seriously. This time, not only did they shock everyone, but they also received praise from the military commander. How could they not be happy?

They had been waiting for this moment for a long time. The three months of hard training had been for this moment. They just wanted everyone to look up to their logistics team and prove that they were not cowards. They could also become stronger than the regular troops.

“Alright! Chief of Staff, we’ll be waiting for your arrival.”

“Since the drill is over, we should go back and report to our chief.”

A smile flashed across the corner of Qin Yuan’s mouth. He looked at Fan Tianlei’s shining eyes as he looked at the soldiers of his logistics company. He knew that his goal of bringing everyone from the logistics company into the Wolf Fang Special Forces from the beginning could be achieved.

“Alright! You guys go back first!”

“Alright, Chief of Staff, we’ll be leaving first.”

“Alright! ”

After saying that, Qin Yuan led the second platoon out of the blue army’s command center.

Fan Tianlei looked at the backs of Qin Yuan and the others as they walked out and was not in a hurry to express his thoughts to Qin Yuan. After all, he felt that it was not the time yet. Moreover, he was very certain that Qin Yuan’s company would not be able to escape from his grasp.

In the entire Southeast Military Region, they were the only special forces brigade and special forces unit. It was the dream of every soldier in the Southeast Military Region to have the opportunity to join the special forces. He did not believe that Qin Yuan and the others would not come.

“Chief of Staff! Are you saying that they are really a group of pig soldiers?”

After Old Gao saw Qin Yuan and the others leave, he voiced out the question in his heart. The combat strength of Qin Yuan and the others in this military exercise made his jaw drop in shock. A regular force, not to mention a logistics force, almost wiped out their entire Lone Wolf Assault Team.

The strength of the team that Qin Yuan and the others had attacked the Blue Army’s command center was not inferior to the members of Lone Wolf Team B. If Qin Yuan and the others had been there when they attacked the Red Army’s command center, it would have been hard to say what the outcome would have been.

Fan Tianlei was also very shocked by Gao Gao’s doubts. He had never heard of Qin Yuan’s logistics company. Fan Tianlei recalled that the soldiers who made a fool of themselves during the military exercise last year were from the Iron Fist Regiment’s logistics company.

“What do you think? Their entire team is not weak. Qin Yuan is brave, resourceful, and very strong.”

“I just tested him. None of us here are his match!”

Faced with Fan Tianlei’s evaluation of Qin Yuan, the Lone Wolf Assault Team members present were also shocked. This was the first time they had seen the Chief of Staff evaluate a person like this.

“Chief of Staff, it can’t be that exaggerated! None of us in the special station brigade are his match?”

Hearing the Chief of Staff's evaluation of Qin Yuan, the paratroopers were also a little unconvinced. They were genuine special forces soldiers, while Qin Yuan and the others were just a logistics unit.

He admitted that Qin Yuan's company was a little strong, but Qin Yuan's strength was not to the extent that no one in the entire special forces brigade was his match.

"Humph! You still have the nerve to say that? Are you still not convinced?"

"You were almost wiped out by the soldiers they brought out, and you still have the cheek to question their strength?"

Hearing Fan Tianlei's scolding, the Lone Wolf Commando Team members were embarrassed and didn't dare to say anything. They had already lost enough face in this military exercise. As a special force, they were almost wiped out.

"Besides, do you still remember the soldiers who made a fool of themselves during the military exercise against the 801st Army last year?"

"Of course, I remember. It was the first time I saw such a cowardly soldier."

"That's right! At that time, those soldiers were still trembling in fear from the shells."

Everyone recalled the time when they fought against the 801st division last year. The soldiers of the logistics company could be said to have made a fool of themselves! What they didn't know was that those soldiers were the current logistics company.

"I can tell you with certainty that those soldiers who make a fool of themselves are the ones who want to destroy your group. They are the company led by Qin Yuan!"

During the military exercise last year, Fan Tianlei paid special attention to the troops when he saw the soldiers who made a fool of themselves. At that time, he didn't take it to heart when he knew that they were the soldiers of the Iron Fist Regiment's logistics company. After all, the logistics company was a place with more cowardly soldiers.

Therefore, when he found out that Qin Yuan and the others were soldiers of the logistics company, he was very shocked. After all, he knew what the situation of the logistics company was like back then.

"What is it? Those soldiers are them?"

"How is that possible? How could those soldiers become like this?!"

"That's right! Chief of Staff, you're not lying to us, right? How long has it been?"

How can those soldiers who make a fool of themselves become so strong?"

"Chief of Staff, are you mistaken?"

Just as Fan Tianlei said that Qin Yuan and the others were from the logistics company from back then, the group of Lone Wolf Assault Team members looked at Fan Tianlei in disbelief. Other than

shock, there was still shock on their faces. They would never believe that the soldiers who made a fool of themselves last year were Qin Yuan's team.

"Mistaken? Do you think I'm joking with you?"

"You've been training for so long, but you were almost wiped out by a group of pig soldiers who have been training for less than a year. Tell me, how dare you question them? "

Fan Tianlei was furious when faced with everyone's doubts. He had spent so many years training the Wolf Fang Special Forces!

To put it bluntly, every soldier of the Wolf Fang Special Combat Brigade was an elite soldier carefully selected from the hundreds of armies. Any one of them was an elite soldier of the regular army, but they had almost been wiped out in this military exercise.

Although the overall strength of Qin Yuan and the others were not as good as Wolf Fang's, it had only taken Qin Yuan and the others a year to train to such a level. How could he not be shocked?

To be precise, Qin Yuan had only trained the logistics company for three months, but Fan Tianlei did not know about it..

## Chapter 76: Almost Barbequed

The faces of the Lone Wolf Assault Team instantly turned red. Chief of Staff Fan Tianlei was right.

The strength of Qin Yuan and the others had indeed shocked them, but they did not expect Qin Yuan and the others to be the soldiers who made a fool of themselves last year.

"In the next few days, all of you will have to undergo devilish training. The next time you are wiped out by others, you will have to raise pigs!"

"Yes, sir!"

"Yes, sir!"

Fan Tianlei turned around and walked out of the command center.

"F \* ck! I really didn't expect that this unit of theirs would be those soldiers from back then!"

After Fan Tianlei left, the paratrooper heaved a sigh of relief. The oppressive atmosphere just now almost made them breathless.

Seeing the paratroopers, the medics looked at the paratroopers with a smile.

"Ostrich, you were the first one to be crippled!"

“You, why are you everywhere!” The paratrooper’s face turned green. He was really the first Lone Wolf commando member to be disqualified. The medics would rub salt into his wounds every time.

“Alright, stop talking! I hope you can learn from this experience.”

“Let’s begin the extreme 100-kilometer cross-country training.” Old Gao immediately gave the order to train.

“What is it? Commander, don’t! We just finished the drill. Can you let us rest?” The paratroopers were stunned when they heard Old Gao’s 100-kilometer cross-country training.

“You still want to rest after losing a battle?”

“Attention, turn right, let’s go!”

“Yes, sir!”

“Yes, sir!”

At this moment, no one dared to say anything. They were known as the whetstones of the three armies, but they had suffered a setback in this exercise. In the end, it was because they were not strong enough. If they were strong enough, there would not be such an outcome. Everyone lowered their heads and ran out.

At this moment, Qin Yuan and the others had also returned to their training area.

“Company commander? You guys are back? Did you complete the mission?”

When Liu Ye saw that Qin Yuan and his brothers from the second platoon had returned, he asked Qin Yuan about the results with great anticipation. After all, he had just put on a show in front of the Wolf Fang Special Forces. If Qin Yuan and the others did not complete the mission, he would be in trouble.

“The drill is over.”

Looking at Qin Yuan’s expressionless face, Liu Ye’s heart tightened. Looking at Geng Hu’s absent-minded look, Liu Ye knew that Qin Yuan and the others probably did not complete the mission.

“Company commander...I’m sorry! It’s all my fault!”

Liu Ye looked apologetic. After all, he was the one who pretended to say that the company commander and the others had gone to catch the pigs, so the Lone Wolf Commando Team immediately rushed back.

“Why should I blame you? You guys did well this time. I didn’t expect you to hold them back for so long.”

“We waited at the Blue Army’s command post for a full 20 minutes before they rushed back.”

“Besides, with such a domineering Geng Hu around, how can we not complete the mission?” Qin Yuan looked at Liu Ye and smiled.

“Ah! Then... Then... Does that mean we have completed the mission?”

“Yes, deputy company commander, it's done! This exercise is a victory for our Red Army, and the commander of the military region personally announced the results of the exercise.”

Zheng Xiaohu looked at the deputy company commander who was stammering and told everyone the news of the victory of the exercise.

“Then why are you all looking so gloomy? Especially Geng Hu, your face is as gloomy as if your father died.”

Liu Ye was stunned by their expressions. They had already won the drill, but they still came back with gloomy faces. He thought that he had gone overboard and failed to complete the mission.

“Deputy Company Commander, you guys don't know this, but Geng Hu directly pointed his gun at the head of the military commander.” Zheng Xiaohu immediately explained with a smile.

“Don't say anymore. I really didn't know that he was the commander of the military!”

Geng Hu's face was dark and he didn't dare to say anything. Just the thought of him pointing a gun at the Chief's head made him feel a wave of fear.

“F \* ck! The military commander? Geng Hu, you're awesome!” Liu Ye was stunned after hearing Zheng Xiaohu's report.

“Deputy Company Commander, Company Commander! I know I was wrong. I'll go back and memorize the military ranks now.”

After saying that, Geng Hu ran out in a flash. He really did not dare to stay any longer. If the military commander was really angry and came looking for trouble with them, he would be finished.

“Company commander! You guys are really amazing!” Liu Ye immediately flattered to cover up his embarrassment.

“Deputy Company Commander Liu, what did you say was your fault?”

Qin Yuan looked at Liu Ye and knew that Liu Ye must be hiding something from them, so he deliberately asked.

“I'm fine! I'm fine! Commander, it's really nothing...”

Liu Ye didn't dare to say that he had just been pretentious in front of the Wolf Fang Special Forces.

“Right! Are Old Zhou and the others back yet?”

Qin Yuan did not continue to ask Liu Ye. After all, he had already won the drill, so he asked Zhou Qing and the others. "They should be on their way back!"

"Good!"

At this moment, Company Six opened the curtain and walked in. As soon as he heard that Qin Yuan was back, he hurriedly ran over.

"Company Commander Qin! You guys are back? Has the mission been completed?"

"Fortunately, I didn't disappoint you! We won the drill." Qin Yuan also directly told him the results of the exercise.

"Good! Hahaha! Company Commander Qin, you guys are really amazing! This time, it was all thanks to your logistics company that we won!"

The 6th Company Commander laughed out loud. When he knew that the 808th Special Combat Brigade was going to have a battle drill, he had given up all hope. After all, he knew how terrifying the 808th Special Combat Brigade was.

However, he did not expect Qin Yuan to lead his logistics company and turn the tables. It was impossible for him to be unhappy when he heard Qin Yuan say that he had won the drill.

"Sixth Company Commander, if it weren't for all of us working hard together, we wouldn't have been able to complete the mission. Everyone's contribution is indispensable." Qin Yuan knew that the reason why they could complete the mission so smoothly was because of the cooperation of the Sixth Company. They had stalled the Lone Wolf Assault Team for almost two hours.

"Company Commander Qin, I knew that your logistics company was very strong, but I didn't expect you to be so strong."

"Which company in the entire Iron Fist Regiment is a match for your logistic company?"

"Company Commander Qin, your ability to lead troops is really too strong."

During this drill, the strength of the logistics company was displayed to the sixth company commander. Other than being shocked, he really did not know how to describe it. After all, the logistics company had become so powerful because of Qin Yuan!

Qin Yuan had only been in the logistics company for three months. In three months, he had transformed the logistics company from a cowardly soldier that everyone looked down on to its current strength. '1'0 put It Diunt1Y, It was almost as strong as the special forces.

"Sixth Company Commander, how could we have held them off for so long without your cooperation this time? Moreover, the strength of the sixth company is not bad." Qin Yuan knew that the strength of their logistics company had been exposed this time, so there was nothing to hide..

## Chapter 77: Inspection (1)

As the two of them were talking, Zhou Qing and the others returned.

After a brief exchange, they received a notification from the regiment headquarters.

“Report! Company Commander, Sixth Company Commander! I just received a notice from the regiment headquarters. The regiment commander wants you to go over immediately.” The messenger outside the door ran in to report.

“Company Commander Qin, let’s go together!” The sixth company commander said to Qin Yuan after hearing the communicator’s notification. “Alright! I’ll arrange for the team to return to the camp and we’ll go together!” “Good! Then I’ll let the soldiers of the Sixth Company go back too!”

“By the way, Company Commander Six, let the soldiers of the Sixth Company and the logistics company return to the logistics company camp together.”

“During this period of time, our company has been troubling your Sixth Company to help manage our camp. This time, let’s have a good gathering and let them relax after the exercise!”

When Qin Yuan heard that the sixth company commander wanted the soldiers of the sixth company to go back, he directly expressed his thoughts. After all, during this period of time when they went out for training, the soldiers of the sixth company had been helping their logistics company manage the camp.

“Alright, then let them interact with you more. After all, this time, they should know what it means to have someone better than them.”

In the face of Qin Yuan’s suggestion, the sixth company commander was also very happy. He also hoped that the soldiers of the sixth company could learn some of Qin Yuan’s training experience from the soldiers of the logistics company.

“Good! Then it’s decided.”

“Alright! ”

With that, the Sixth Company Commander walked out of the tent and headed in the direction of the Sixth Company.

“Old Zhou, Vice Company Commander Liu! Later, you will bring the soldiers of the 6th Company back to our camp. I will go to the regimental headquarters with the 6th Company Commander first.”

“Alright, Company Commander Qin.”

“Understood, Company Commander!”

After Qin Yuan finished speaking, he washed up briefly, changed into his normal clothes, and followed the sixth company commander to the regiment headquarters in a helicopter.

In the regimental commander’s office.

Kang Lei was laughing heartily. He had just returned from the 808th Special Combat Brigade. As soon as he came back, he asked Xiao Wu to inform the company commanders of the various companies to come to his office.

The military headquarters had already announced the results of the exercise. The Red Army had won, and the military chief had highly praised the Iron Fist Regiment.

The moment Fan Tianlei went to release him, he was so happy to see Fan Tianlei’s face. Every year, they would be suppressed by the special forces. Who would have thought that this year, their special forces would actually be defeated by their own Iron Fist Regiment?

“Old Bi, am I right? We really didn’t make a mistake. Qin Yuan, this kid, almost wiped out the Lone Wolf Assault Team with the logistics company and the sixth company.” The entire office was filled with Kang Lei’s loud laughter. “You don’t know how serious that dirty face of Fox Fan’s is. It’s rare to see him suffer! ‘

“Old Kang! I really didn’t expect Qin Yuan to let him manage the logistics company. This kid has almost turned the logistics company into a special force.” Political commissar Bi Guotao was also shocked. After receiving the notice, his jaw dropped.

After the start of this exercise, he and Kang Lei were directly captured by the special forces of the Blue Army. They were unable to command the battle during the entire exercise. Not only were all the commanders of the 801 Regiment captured.

Although they had already made good preparations, the Special Forces of the 808th Brigade weren’t just for show. They directly infiltrated and captured all the commanders of the 801st Regiment.

If Qin Yuan and the others had not turned the tide of the battle at the end, they would have entered the previous ending even faster. The speed of the 808th Brigade’s battle this time was not the same as the previous drills. It was extremely fast, accurate, and ruthless.

“That’s right! So this time, the military commander is paying special attention to it. Just now, Chief Gao Shiwei called me and said that he will come to our Iron Fist Regiment for an inspection in the afternoon.”

“The military commander is coming?”

Bi Guotao also asked Kang Lei in shock.

“Yes, I am! When have you ever seen the 808th Special Combat Brigade lose a battle? I heard that during this exercise, he went to the 808th Brigade and became the highest commander of the Blue Army.” “However, it seems that he was captured by Qin Yuan and the others.” “What is it? Old Kang, is what you said true?”

“That’s right! When I came back, I heard them say that a soldier from the logistics company even held a gun to Chief Gao Shiwei’s head.”

“Who is so bold! Don’t you know that he’s the commander of the military region!”

Bi Guotao looked at Kang Lei with a shocked expression. He was sweating profusely. After all, this was the first time he had heard of someone pointing a

gun at the head of a military commander.

“I’m not sure. I suspect that it’s the soldier from the logistics company who beat up the platoon leader last time and then came to us. ”

It was the first time Kang Lei had encountered such a soldier.

“Then the Bureau Chief won’t be angry, right?” Bi Guotao was also a little worried.

“Do you think the Bureau Chief is that petty? He won’t be angry with soldiers like this. Instead, he will like them even more.”

“You don’t know this, but I heard from an ex-Class 1 Sergeant Major’s squad leader that Chief Gao Shiwei had done something similar in the past. At that time, he had just joined the army and was unclear about his rank, so he followed his company commander to launch a surprise attack.”

“That’s good! It seems that we have to let the entire regiment learn some military ranks. I don’t want such a thing to happen again.”

Bi Guotao was a little shocked just thinking about it. If the Bureau Chief didn’t know what was going on, the Bureau Chief’s guards might have shot the soldier to death.

After all, he was pointing a gun at the head of a military commander! If it wasn’t for the Bureau Chief’s hint, the Bureau Chief’s guards would have killed Geng Hu on the spot. The Bureau Chief’s guards were armed with live ammunition 24 hours a day.

“You’re right. It was a little rash. We have to let the entire team pay attention. This time, the chief’s attitude is very clear. He should be here to see Qin Yuan’s company. ”

Kang Lei knew very well that from the situation of this exercise, he could tell that the higher-ups were preparing to carry out military reforms on the 801st Division. However, this time, there might be some changes because of Qin Yuan and the others, but Kang Lei could not guess what kind of changes would happen..

## Chapter 78: The Logistic Company Is Taken Seriously

Just as Kang Lei and the other two were still talking, Qin Yuan and the sixth company commander also rushed to the regiment headquarters.

As soon as they got off the helicopter, the company commanders of the Iron Fist Regiment greeted Qin Yuan and the sixth company commander.

They had just arrived and rushed over after receiving the notice from their regiment commander. Just as they were about to go to the regiment commander's office, they saw Qin Yuan and the others walking over.

This time, they had also heard that the victory of this exercise was entirely due to the Iron Fist Regiment. The military had already informed them of the situation of the exercise. Their Red Army had obtained the final victory, and they had especially emphasized that their Iron Fist Regiment was the turning point of this exercise.

At the end of the notice, it was the logistics company and the sixth company that turned the tide of the battle. Everyone was shocked.

Qin Yuan actually led more than a dozen people from the logistics company to raid the Blue Army's command center and successfully destroyed it.

The soldiers of the 6th Company and the remaining logistics company had actually delayed the Wolf Fang Special Forces for two hours and almost wiped out the Lone Wolf Assault Team. When everyone saw this notice, their jaws dropped.

808th Special Combat Brigade! Wolf Fang Special Forces! What kind of existence was that!

The few company commanders knew their strength very well. Such a terrifying existence had actually been defeated by Qin Yuan and the others. How could they not be shocked?

Although the drill wasn't that exaggerated, Gao Shiwei didn't leave any face for the Wolf Fang Special Combat Brigade. He wanted to let the soldiers know that they couldn't underestimate the enemy at any time. This report could also teach them a lesson.

"Company Commander Qin, Company Commander Liu! We all know that you are the turning point of this victory."

"You guys are amazing. This is the first time I've heard that the special forces brigade was defeated by our regular troops!"

"That's right! At the beginning of the exercise, we lost contact with the command center. The regiment commander and the others couldn't be contacted either, so it was a mess. Not long after, our entire company was directly destroyed by the blue army's artillery fire. All the soldiers in the company were sacrificed."

"If it weren't for you, our Red Army would have lost."

For a moment, Qin Yuan and the sixth company commander were surrounded by the company commanders of the other companies. A smug look flashed across the sixth company commander's face. Although this time, it was mainly due to Qin Yuan's logistics company. If not for Qin Yuan's logistics company, their sixth company would have been in the same situation as the other companies.

However, their Sixth Company was connected to the logistics department!

Even though it wasn't much of a contribution, at least it was hard work. Hearing the praise of the company commanders, the sixth company commander also smiled.

“Company commanders are too polite. This time, it’s all thanks to Company Commander Qin. If he hadn’t led us to counterattack at the last moment, snatched back our Red Army’s command system, and led the team to attack the Blue Army’s command center, we might have lost.”

The sixth company commander also pushed all the credit for this drill to Qin Yuan. After all, the victory of this drill was almost entirely due to Qin Yuan’s logistics company. The sixth company was only assisting them.

“This is the result of everyone’s hard work. This time, our victory wasn’t only achieved by our company. Without everyone’s help and hard work, we wouldn’t have won.”

Qin Yuan did not put on a smug expression on his face. He knew in his heart that this was only because the Blue Army did not know that there was a team like theirs, so he only had the advantage in intelligence.

If the Blue Army knew the strength of their troops and effectively defended against them, they might not have been able to achieve such an effect.

“Company commanders, the regiment commander must have called us here for something. Let’s hurry over.”

“Alright!”

“Alright! ”

After Qin Yuan finished speaking, a few of them walked toward the regiment commander’s office.

The moment they arrived at the office, they heard their regiment commander Kang Lei’s loud laughter. They knocked on the door and walked in.

“Regiment Commander! Political commissar! Why did you call us over?”

“You’re all here! Come and sit.”

When Kang Lei saw that Qin Yuan and the others had arrived, he called them over to sit down.

“I called you here this time mainly to summarize this exercise.”

“I believe you have all received the notification from the military regarding the results of the drill. Our Red Army has won this time. You should all know why.”

“This time, our Iron Fist Regiment’s performance has won the attention of the military commander. The military commander just called me and said that he will come to our Iron Fist Regiment for an inspection in the next few days.”

“I hope that in the next few days, every company will improve their training.

Don’t lose face in front of the military commander.”

“Does everyone understand?”

After everyone sat down, Kang Lei told them the purpose of calling everyone over this time.

“I understand! Don’t worry, Regiment Commander! We promise to complete the mission.”

Everyone immediately perked up. That was the chief of their Southeast Military Region! This time, the military commander came down to inspect them. Everyone wanted to show off their company in front of the commander.

“Qin Yuan, you’re not bad. I didn’t expect you to train the logistics company to this extent.”

“This time, the commander of the military region has paid a lot of attention to you. It can be said that we relied on you to turn the tide of the battle in this military exercise.”

Kang Lei looked at Qin Yuan with gratified eyes. After all, Qin Yuan and the others had gained a lot of face from the Iron Fist Regiment. This time, the military chief wanted to come down because of them.

“Sir, this is what we should do. This is also the result of everyone’s hard work.

We only did what we should do!”

Qin Yuan did not become complacent just because of one victory. There was still a long way to go for their logistics company. After all, this was just a drill.

Everyone in the office did not refute Kang Lei’s evaluation of Qin Yuan’s logistics company. This time, the logistics company had overturned their understanding of the logistics company.

They did not expect that the victory this time would be turned around by the logistics company that they had always looked down on.

Everyone looked at Qin Yuan and no longer looked down on him. After all, how long had Qin Yuan been in charge of logistics? To be able to train the logistics company to this extent in three months was indirect proof of Qin Yuan’s ability.

If they were to take over the logistics, it would be impossible for them to achieve such an effect, especially the Ninth Company Commander, who had a conflict with Qin Yuan previously. His face had turned green. Previously, he had been clamoring to compete with Qin Yuan, but now, he no longer had the courage to do so..

Chapter 79: Mission Completed! Reward Obtained!

“Since you all understand, then go and prepare! The military will reward you according to your performance.”

“This time, the military commander is here for an inspection. I hope that all of you will put in 120% of your effort and show the face of our Iron Fist Regiment.”

Kang Lei said loudly to everyone. He also attached great importance to the Bureau Chief's decision to come down to their Iron Fist Regiment. This might affect the fate of the Iron Fist Regiment after the reorganization.

"Yes, sir! Commander! We know!"

"Good! Then you can all go back first!"

"Yes, sir!"

"Yes, sir!"

"Qin Yuan, stay here. I have something to say to you!" Just as everyone stood up and left, Kang Lei called out to Qin Yuan.

"Sixth Company Commander, you can go back first! I'll come back later!"

"Alright, then Regiment Commander and Political Commissar! I'll go back first!"

"Good!"

After saying that, the sixth company commander returned to Qin Yuan's logistics company's base. After all, the sixth company was in the logistics company now.

"Regiment Commander! Political commissar! Is there anything else?"

"You brat, not bad! I didn't expect you to train the logistics company to this extent. It's almost as good as the special forces."

"I didn't expect the Lone Wolf Assault Team to almost fall into your hands. You don't know how glum that Fox Fan looked. You really made me proud."

Kang Lei laughed loudly. When he thought of how Qin Yuan and the others had made him look so proud in front of Fan Tianlei, the pride in his heart surged on his face.

"That right! The commanders of the military region have very high praises for your performance, Your merits and awards should be coming soon,"

Bi Guotao also looked at Qin Yuan with gratified eyes. This was the first time in so many years that the Iron Fist Regiment had been so proud, so he was also very happy.

"Regiment commander! Political commissar! This time, we also took advantage of the Blue Army because they don't understand our strength. "

"If they knew our strength and were prepared, we might not have been able to defeat them this time! The Wolf Fang Special Forces are still very strong."

Qin Yuan also told Kang Lei and the others the actual situation. After all, in terms of strength, their logistics company really could not compare to the Wolf Fang Special Forces. The logistics company had only been training for three months, and their experience could not compare to the Lone Wolf Commando Team at all.

“I know! However, your logistics team’s current strength has already shocked us.”

Kang Lei also knew very well that if Qin Yuan and the others were to fight head-on, they would definitely not be a match for the Lone Wolf Assault Team.

However, the logistics company was a group of lazy and troublesome soldiers. In just three months, their strength might not be a match for them in the entire Iron Fist Regiment.

“Everyone has witnessed the strength of your logistics company this time. This time, the chief specially selected your company for the inspection. He wants to personally go to your company to inspect the work. When you go back later, you have to prepare well.”

“Yes, sir! Understood, Regiment commander!”

“Right! Old Chief Qin also called me just now. I’ll give you a few days off after the military chief finishes his inspection! Go back and take a look at home.”

Kang Lei also just remembered that Old Chief Qin had called him just now, asking Qin Yuan to go home.

“Alright! The regiment commander and political commissar! Then I’ll go back first. Company Commander Six and the others are still in our camp!”

“Alright! You can go back first!”

“Yes, sir!”

After saying that, Qin Yuan bowed and walked out of the regiment commander’s office.

“Ding ... Congratulations to the host for completing the system mission to raise the strength of the logistics company to the top of the entire team. The system has detected that it has obtained the recognition of the entire team and rewarded the host with 10000 skill points.”

“Ding ... Congratulations to the host for obtaining the system reward of proficiency in all firearms, weapons, and equipment, as well as advanced driving skills.”

“Ding ... Congratulations to the host for obtaining 50 bottles of body-strengthening liquid.”

“Ding ... Congratulations to the host for obtaining an additional 500,000 Skill Points from the system.”

As soon as Qin Yuan walked out of the office, a series of system notifications sounded in Qin Yuan’s mind. Qin Yuan was stunned for a moment before he entered the system to check.

“System, organize personal data!”

“System received! I’m sorting out your personal data...”

Equipment Proficiency, and Advanced Weapon and Equipment Mastery Skill]

[Skill Points: 1205840]

Qin Yuan looked at the two additional skills rewarded by the system and could not wait to check them out.

Full Weapon and Equipment Mastery Introduction: In this world, as long as it was a gun user, they would be able to understand and use it. There was no blind spot in their knowledge of guns.

Soon, Qin Yuan felt that all kinds of firearms and weapons, and equipment suddenly appeared in his mind. Whether they were produced in China or foreign countries, theoretical knowledge surged into his mind. In an instant, he felt that his understanding of these firearms had reached an unprecedented level.

As for the Advanced Weapon Equipment Driving Skill, as the name implied, it meant that one had mastered the driving skills of tanks, airplanes, and fighter jets. Even if Qin Yuan got an aircraft carrier, he could drive it away.

Qin Yuan was also very satisfied with the two skills rewarded by the system.

After all, they were free as long as he did not spend his skill points to buy them. He wanted as many as they came. After all, the more skills, the better.

Looking at the more than one million skill points and the 50 bottles of body-strengthening liquid, Qin Yuan was overjoyed. After all, these 50 bottles of body-strengthening liquid could directly raise the soldiers of the entire logistics company to another level.

“System, organize the data of the soldiers of the logistics company!”

“The system is calculating for you...”

“Currently, the host is the only one who has broken through to Physique Level 60 and above.”

“There are currently two people who have broken through to Physique 45 and above: Geng Hu (46) and Zhou Qing (45)”

“Three people who broke through to Physique 40: Liu Ye (40), Zheng Xiaohu (41), Zhao Xiaowu (40)”

“The remaining soldiers are between Level 30 and 40!”

The system quickly sorted out the information of the soldiers in the logistics company for Qin Yuan. Qin Yuan looked at the physique information of the soldiers in the logistics company and knew that some of the soldiers' physique levels had been stuck at 30. There should be a problem with their physique.

It just so happened that the system had rewarded him with 50 bottles of body-strengthening liquid, which could change the physiques of the soldiers of the logistics company. The effect of the body-strengthening liquid was not only to increase the physique of a soldier by five points.

Most importantly, it could purify and change the various organs and veins in the body. Zhou Qing was the best example..

Chapter 80: I'm Afraid You Won't Dare to Train Like This!

Qin Yuan looked at the sky getting darker and remembered that he had agreed to entertain the brothers of the Sixth Company tonight. After logging out of the system, he boarded the helicopter to the logistics company's station.

Qin Yuan had also obtained the results he wanted for the military exercise this time. The mission of training the logistics company's strength to the top of the entire regiment in three months was considered completed.

He believed that it wouldn't be long before the performance of the logistics company in this military exercise would be known throughout the entire military region.

Soon, Qin Yuan returned to the logistics company's station. The soldiers of the sixth company were sparring with the soldiers of the logistics company on the training ground.

The soldiers of the logistics company were different from before. They had witnessed the strength of the logistics company during this drill, which aroused their desire to spar with the logistics company again.

Qin Yuan did not say anything when he saw this. Soldiers often wanted to compete with strong people. The last time their competition was stopped because of a sudden accident. He saw them all shouting. This time, he would let them compete to their heart's content.

The sixth company commander saw Qin Yuan walking in from outside the camp and walked out of the crowd.

“Company Commander Qin! You're back! What did the Regiment Commander say to you?” The sixth company commander walked to Qin Yuan's side.

“It's about the drill. In a few days, the commander of the military region will come down to our Iron Fist Regiment to inspect and let us prepare. The rest is just small talk.”

Qin Yuan directly copied the regiment commander's words. He had nothing to say to the sixth company commander. After this period of time, whether it was the sixth company commander or the soldiers of the sixth company, they all got along very well.

“What are you guys doing?”

Qin Yuan looked at the training ground. More than a dozen soldiers of the Sixth Company were surrounding Geng Hu and fighting. The cheers in the training ground were getting louder and louder. He asked the Sixth Company Commander.

“Commander Qin, you don’t know this. After I came back, my brothers from the Sixth Company had a sparring match with your brothers from the Logistics Company. Wasn’t our match last time interrupted because of an accident?”

“In addition, I’ve personally seen the terrifying combat strength of your logistics brothers this time. Our brothers from the Sixth Company want to see just how strong you are!”

“That’s why I didn’t stop them. I also wanted to let these bastards from the Sixth Company see the difference between their strength and yours! It’s good that they understand what training is in the future.”

The sixth company commander explained the reason to Qin Yuan. In fact, he also wanted the brothers of the logistics company to teach the brothers of the sixth company a good lesson. After all, how long had it been since the logistics company’s strength began? It was only three months.

It just so happened that he had a good relationship with Qin Yuan, the Sixth Company, and the Logistics Company. He also wanted to ask Qin Yuan for advice on training troops.

Qin Yuan looked at the dozen soldiers of the Sixth Company who had been defeated by Geng Hu and nodded with a smile. Geng Hu’s strength improved a lot after this period of grinding.

His reflexes and agility were much better than before. With Geng Hu’s current personal strength, he could still handle more than twenty soldiers of the Sixth Company with ease.

“Company Commander Qin! We have to drink tonight. I’m going to be thick-skinned and ask you how to train the soldiers.”

“Look at your brothers in the logistics company. Now, each and every one of them is a wolf soldier and tiger general. How long have you been in charge of this logistics company? You can’t hold back!”

The sixth company commander laughed loudly. He had an indescribable feeling when facing Qin Yuan. From the moment he met Qin Yuan, he felt that Qin Yuan was unfathomable. Even though their relationship was already very good, Qin Yuan still gave him an unfathomable feeling.

“Don’t worry! Sixth Company Commander, I have a copy of my training materials for the logistics company, but it depends on whether you dare to train like this.”

After saying that, Qin Yuan took out a document from his pocket. This document contained all the training subjects he had trained in the logistics company and some of his experiences. He had nothing to hold back from the sixth company commander, but it depended on whether the sixth company commander dared to train like this.

The sixth company commander took the information that Qin Yuan handed over and opened it. The expression on his face gradually changed.

His face darkened when he saw the soldiers of Qin Yuan's training logistics company sweeping at the soldiers with live ammunition. How could Qin Yuan dare to shoot at the soldiers with live ammunition? Wasn't he afraid of accidentally killing someone?

They were just regular troops, and there was no death rate for them unless there was a war.

And even if there was, who would dare to use such a perverted training method to train soldiers? The more the sixth company commander looked, the more shocked he became. He did not expect the soldiers of the logistics company to be trained like this. Looking at Qin Yuan, his eyes revealed a hint of admiration. Only Qin Yuan dared to do such a perverted training method.

"Company Commander Qin! I really have to hand it to you. You even dare to use such a perverted training method! Aren't you afraid of killing them?"

"Sixth Company Commander, strength and danger coexist. If you want to become stronger, there is no shortcut."

"Since they want to lose the label of being cowardly soldiers, they can only receive crueller training than others to obtain strength that others respect."

"The soldiers of the Sixth Company and the Logistics Company are different.

The soldiers of the Logistics Company have been ridiculed for too many years.

They want to be stronger and more respected than others."

Qin Yuan explained calmly. Qin Yuan was right. If it were any other army, he might not be able to train the soldiers to the current level of the logistics company in three months.

Because only those who had been ridiculed by others but could only endure it because they were not strong enough would have the strongest desire for strength because they needed a chance to become stronger.

The logistics company was such an existence. Therefore, under Qin Yuan's cruel training, none of them gave up because they knew very well that this was their chance. Qin Yuan really cared about them.

"Sixth Company Commander! To deal with the Sixth Company, you only need to increase the intensity of some routine training! I believe that their desire for strength will be very strong after this."

"But some of my training methods are too cruel, but there are also some that can be used as a reference for the training of soldiers."

Qin Yuan did not dare to let the sixth company commander train like him. After all, he had the precise assistance of skills. Wherever every bullet hit, the system would accurately analyze the direction in which the soldiers would dodge.

“Alright! Company Commander Qin, I don’t dare to train like you. It’s very easy for accidents to happen like this!”

“Besides, Commander Qin, you’re right. People who can accept such cruel training are not ordinary people. If they don’t have strong willpower, they won’t be able to persist.”

The sixth company commander was also very clear about why the logistics company could become so strong in just three months. After all, their mental state could be said to be stronger than many people. The environment had created them! Also, they had encountered a perverted existence like Qin Yuan..
