

Special Troop 861

Chapter 861: Ambush in the Jungle (2)

After all, they had a large number of people, and they couldn't afford to take on an operation that they weren't confident in.

"En, I saw it too. It seems that they are preparing to organize their army and attack us."

Qin Yuan said in a low voice.

This was something he had expected, so he did not panic at all.

"Are we still going to act according to the previous plan?"

Geng Hu asked.

"That's right."

"Scatter!"

Qin Yuan ordered.

The warriors hiding in the surroundings split into a few small teams and immediately scattered.

Qin Yuan had already planned it out. After this victory, the other party would definitely make a comeback. If they stayed where they were and waited for orders, they would definitely be heavily injured.

Right now, the logistics company's policy was to play guerilla warfare with the other party. The enemy advanced and I retreated, and the enemy retreated and I advanced. They were fighting a war of attrition.

Although their military strength was one-tenth of the other party's.

However, there was a very crucial factor, and that was military rations.

They had fewer people, so they didn't need much food. On the other hand, the enemy had tens of thousands of people. If they entered a war of attrition, the food they needed would increase by tons.

In this kind of desolate mountain, the other party would definitely not be able to last for more than a few days. This way, they would once again have the dominant advantage.

A few minutes passed.

The Daybreak Army, which had already gathered, had already begun to move forward, and had already walked a few hundred meters.

They had learned their lesson this time. They had already taken out their searchlights, illuminating the road ahead.

"Let's see where you can run to this time!"

The leading soldier said sternly.

All the soldiers of the Daybreak Troop were filled with endless anger and hatred towards the logistics company.

A moment later, they passed through the place where the First Unit had been annihilated and arrived at the low-lying area where the logistics company had been.

However, Qin Yuan had already ordered the soldiers to scatter and hide long ago. This place was already empty.

“What is it? Why is there no one here?”

The leading general asked doubtfully.

“Are these bastards playing hide-and-seek with us?”

“Every ten people form a small team and immediately start looking for traces of the other party in the vicinity! We can’t let go of any suspicious places!”

The general ordered.

“Yes, sir!”

The soldiers below received the order and immediately began to search the nearby area.

Although they had cars, the terrain here was very steep and not suitable for driving, so all the soldiers could only search on foot.

This way, they would lose their speed advantage.

It was on the same level as the logistics department.

No, it could be said that in terms of fighting in the wild, the logistics company’s combat effectiveness was not inferior to any other unit!

Sure enough, not long after they started searching, they found something!

However, this was not good news for them!

A person shouted sternly,

“Ah!”

Then, his teammates saw him fall to the ground.

” What’s going on?!”

A few people nearby immediately came over to check on the situation.

However, who knew that just as the few of them came over to take a look, a few sets of thin black poisonous snakes immediately darted out from this person’s body!

A few black scorpions also emerged from the grass nearby, baring their fangs and brandishing their claws as they stared at Daybreak’s soldiers.

These poisonous creatures immediately jumped onto their bodies. After that, they immediately let out the same shriek as this person. After that, they also became silent.

This commotion quickly reached the ears of the nearby soldiers. More and more soldiers immediately came over to check on the situation.

However, just as they were about to move, some of them fell into a deep pit that had been dug beforehand and broke their legs.

Some people were tripped by the vines of trees that could not be seen clearly in the dark night, falling heavily to the ground and unconscious!

This scene was simply very strange!

The nearby plants seemed to have gained life, causing great trouble and damage to Daybreak's team.

At the same time, tens of meters away, in a dark corner, the logistics company's troops also saw everything.

"Captain Green Snake and his white wolf, I didn't expect them to have such a move!"

A few soldiers from the logistics company said.

The person in the middle was wearing a dark green military uniform. It was Green Snake, and the black object next to him was crawling on the ground. It was his partner, the white wolf. It was wearing a black cloak to cover its white fur.

"I didn't realize that it knew this move either."

Green Snake stroked its head and said with a smile.

The big fellow also meekly wagged its tail on the spot.

"It can actually communicate with the animals here. This is really a magical power!"

Green Snake kept stroking the white wolf, giving him encouragement.

"No wonder! All the animals here are helping us! Daybreak's people are in big trouble!"

The soldiers of the logistics company were all laughing and laughing.

"You guys are still too inexperienced to play field games with us!"

"This time, this big guy has made a great contribution!"

"I didn't expect it to have such an incredible ability!"

"They've suffered this time."

"Most of their people are probably injured. They probably won't launch another fierce attack now."

Qin Yuan was also in this team, secretly calculating.

The soldiers beside him were quietly waiting for his order to attack.

This was because their plan was to wait for the other party to fall into their trap and immediately launch a sneak attack.

This way, he could give Daybreak a fierce attack to the greatest extent.

However, the other party was already in a mess, but Qin Yuan had no intention of giving orders.

A soldier beside him could not help but ask,

“Captain Qin Yuan, can we start the attack now?”

Qin Yuan had originally planned to launch an attack, but just now, he saw an unexpected situation!

In Daybreak’s team, Qin Yuan discovered two familiar figures!

One of them was tall, while the other had an ordinary build.

It was Qiuming and Qiuyang!

Countless possibilities appeared in Qin Yuan’s mind.

Had the two brothers snuck out and been captured by the enemy?

Or did the two of them join the Daybreak Organization behind Qin Yuan’s back?

This was because Qin Yuan saw that they were wearing their previous clothes and not Daybreak’s clothes. However, they were not controlled by Daybreak’s people. They were only standing in their array and quietly looking ahead.

Qin Yuan only had a moment of doubt in his heart, but he did not hesitate too much. Whether the Qiu brothers appeared here or not would not affect their entire team’s battle plan.

After hesitating for about half a minute, Qin Yuan immediately gave the order to attack.

” Logistics Company First Squad, follow me immediately and attack!”

“Yes, sir!”

The soldiers at the side immediately replied in unison.

The entire team suddenly jumped out from the forest in all directions and rushed to the surroundings of Daybreak’s troops, heavily surrounding this defeated army.

In fact, the logistics company was divided into three teams. Qin Yuan, He Chenguang, and Geng Hu only brought about 100 soldiers each, while the other party’s second team had at least 500 soldiers.

Even if half of the enemies were trapped in the jungle, they still had more than 200 people left.

They still had a significant advantage over the 100 people of the logistics company.

Unfortunately, the commander of the Daybreak second team, did not understand the team configuration of the logistics company. In the darkness, he could only hear the deafening shouts of the soldiers of the logistics company coming from all directions. He could only think that the logistics company had more people than them.

As a result, fear gradually took over his mind. He heard the weak-willed general shout in panic,

“Retreat from this forest. There’s an ambush here. We can’t continue to lose troops!”

With that, he turned around and ran back.

It had to be said that this was a completely stupid move.

Originally, if they had fought back on the spot, they would at least have a chance of winning. If they had run away rashly, they would only leave a bigger flaw.

A bright smile bloomed on Qin Yuan's face. He knew that it was time to pursue the victory.

Chapter 862: Sixth Squad Departs

“All members, those who can hear me, immediately attack Daybreak's troops.”

Qin Yuan's voice was not loud, but it was clearly heard by all the logistics company soldiers present.

“Yes, sir!”

The soldiers of the logistics company, who had been hiding for a long time, could not wait to show off their skills.

They were like sharp arrows in the night sky, flying out of the bushes rapidly.

They held different weapons in their hands.

Some were guns, while others were rare cold weapons, spears, darts, and so on.

These were all made on the spot in the forest just now.

Suddenly, the soldiers in the forest launched a fierce attack on Daybreak. Flashes of fire and shadows flashed in the air.

Countless Daybreak soldiers fell.

“Damn it! They really knew how to play! It always appears at this time!”

The Daybreak soldiers complained endlessly.

In the blink of an eye, the forest was engulfed in flames, turning into a beautiful sea of fire. Daybreak's army was completely defeated.

The soldiers were all wiped out by the soldiers of the logistics company due to fear and panic. Only the commander who ran the fastest escaped by luck.

Qin Yuan just stood where he was and observed everything in front of him casually. A few minutes later, the battle ended. The logistics company won a complete victory. They did not consume a single soldier and destroyed the second team of Daybreak's troops. Qin Yuan was very satisfied with the result this time.

This time, Daybreak had already lost a thousand soldiers, which was undoubtedly a huge blow to the enemy.

Unfortunately, the other party's leader had escaped.

However, there was no way for him to chase after them. After all, the other party had already run out of his military control. Qin Yuan could not take the risk and do anything rash.

The next step was simple. They just needed to move to the next position. There were dense forests within a few kilometers of this place, so they did not have to worry about not having these natural barriers.

On the other hand, Daybreak's sixth team also quietly began to advance towards Qin Yuan's battlefield.

Halfway there, they saw a dazzling light in front of them.

"What happened?"

A man in a black trench coat and a high-brimmed hat said.

One of the assistants beside him immediately replied,

"That seems to be the battlefield of the second team. It should be a battle! However, it's too far away to see the exact situation!"

The leader of the group, the man in the tall hat, had a heavy expression.

"I didn't hear the shouts of our soldiers. It doesn't look good."

His face was covered with a black mask, so his expression could not be seen. However, from his tone, one could tell that he was very worried.

He was the captain of the sixth team, Di Daozhang.

He was different from the other team leaders. He was a brave and resourceful person. Among the few teams in Daybreak, he was also highly regarded by Dong Zhejun.

Dong Zhejun had entrusted Di Daozhang with the important task of leading the team leader in this attack on the logistics company.

Therefore, Di Daozhang was very surprised to see the second team being attacked within a few minutes.

The Daybreak Troop, which had always been brave and good at fighting during their training, had encountered a tough opponent at this time and were in a deadlock with the other party. Di Daozhang didn't know whether he should launch an attack together.

It wasn't that he didn't want to support his teammates, but the higher-ups had given him a clear order to completely eradicate the remaining members of the logistics company.

Therefore, Di Daozhang had observed everything. Although he knew that the second team in front might have met with an accident, the most important thing now was to defend the position of the sixth team. If they left rashly, the logistics company might rush in.

In order to ensure the safety of the base camp, Di Daozhang could not act on impulse.

He had to first investigate the situation in the surroundings and in front of him.

"The few of you, go and check the surroundings. See if there are any traces of the enemy within a one-kilometer radius."

Di Daozhang had given such an order to his subordinates to confirm the situation around his sixth team. After confirming that it was safe, he could carry out the rescue operation for the second team.

“Yes, sir!”

His subordinates immediately set off. They drove their off-road vehicles and began to move nearby to explore the terrain.

Di Daozhang quietly observed the distance in the array, waiting for news.

Ten minutes later, the soldiers returned.

Di Daozhang heaved a sigh of relief when he heard the news.

“Captain! We have basically searched the area within a kilometer of this place! There are no abnormalities or clues about the enemy forces!”

“Good! Reorganize the troops and immediately advance in the direction of the second team!”

“Yes, sir!”

When the members of the sixth team heard the news, they were very excited and began to march forward.

The sixth team was the same as the second team, with about 500 people.

However, their team was very neat and looked much more well-trained than the second team. This was also the reason why Di Daozhang was usually well-trained.

“Form up! Let’s go!”

The captains of the small teams stood up and shouted. Immediately, the sixth team split into three teams and began to move toward the logistics company in three rows.

This aura was completely different from all the previous Daybreak teams. It was a feeling that made people feel extremely imposing.

Chapter 863: The Sixth Team Departs (2)

The sixth team was also moving very quickly. Although they were marching on foot, they had already covered a kilometer in less than five minutes.

” We’re still about a kilometer away from the battlefield!”

The soldiers at the front came back to report to Di Daozhang.

“Yes, maintain this state and go straight to the front line!”

Di Daozhang said calmly.

He knew that the longer he stayed, the greater the possibility of danger.

They were Daybreak’s greatest hope now.

After walking for a few more minutes, they were less than 500 meters away from where they were just now.

The soldiers could clearly see the charred forest ahead and the miserable state of the Daybreak soldiers on the ground.

“Captain! They are our people! It seemed like they had been ambushed by the other party! Heavy casualties!”

Di Daozhang frowned. As he had expected, the second team had most likely met with misfortune.

At this moment, a staggering figure suddenly appeared in the distance.

When the soldiers saw this, they could not help but mutter.

Who was running around in the wilderness in the middle of the night? Could it be that someone had lost their mind?

When they walked in, everyone reacted and exclaimed.

” Captain Zhou?!”

It was none other than the captain of the second team, Zhou Chu!

Di Daozhang had also rushed over after hearing the news and saw the battered Captain Zhou.

“Old Zhou? What happened?”

Di Daozhang looked at him in confusion.

“I... Our troops have been ambushed!”

Zhou Chu said breathlessly.

Di Daozhang hurriedly got someone to pour him a glass of water to calm him down before continuing to ask.

Zhou Chu drank a mouthful of water to catch his breath before saying calmly,

“It was the logistics company who attacked us. They used the forest as a cover, and we were unlucky. The forest was filled with poisonous creatures. Our soldiers went in and provoked those poisonous creatures and were bitten. Then, they took advantage of the situation and attacked us. I saw that the soldiers could not hold on, so they had no choice but to retreat!”

Zhou Chu looked nervous and his tone was very sorrowful.

Di Daozhang said nothing.

He squinted his eyes and looked at Zhou Chu for a while.

“How many of you are left?”

Di Daozhang asked slowly.

Hearing this, Zhou Chu’s expression turned even uglier.

“No... I didn’t confirm it in detail. The situation was urgent at that time, so I retreated first. There should still be survivors on the battlefield!”

Zhou Chu's voice was very low, and his tone made people feel very sad.

"Captain Zhou."

Di Daozhang said.

"It's not that I don't respect you."

"It's just that you know the iron law of the organization. I won't say anything more. You know the consequences of running away."

Di Daozhang said in a deep voice.

"Haven't you considered the feelings of your subordinates? As a commander, you actually ran away when your soldiers were in danger. Let alone us, can you forgive yourself for being so weak?"

"Don't say anymore..."

Zhou Chu shook his head and said in pain.

"Since things have come to this, there's no point in saying more. I can only fulfill my duties as an executive officer."

Di Daozhang's deep voice entered the other party's ears.

Then, there was a dull thud.

Di Daozhang walked up to Zhou Chu, who slowly fell on Di Daozhang's body. Strands of red liquid flowed out of his lower body.

Di Daozhang personally ended this deserter.

When the soldiers saw this scene, none of them made a sound and expressed sympathy for Zhou Chu.

Because fleeing at the last moment was Daybreak's greatest taboo, Zhou Chu received the ending he deserved.

"Throw the bodies away. Let's continue searching the battlefield over there."

Di Daozhang said as he pulled out his dagger from Zhou Chu's body, wiped it with a rag, and put it back into his body.

A few of his subordinates immediately threw him into a ravine at the side and ignored him.

"Let's go."

With that, Di Daozhang personally set off.

Just like that, the main group forgot about Zhou Chu and continued to walk towards the forest where the fierce battle had taken place.

They walked for another few hundred meters.

Everyone heard some subtle sounds coming from nearby.

This was not the sound of the wind blowing leaves or the sound of animals running.

Instead, it was a very frequent rustling sound.

It seemed to be coming from the front of the forest.

The forest in front of them was the only way to reach the battlefield.

“Captain, there seems to be something wrong with this forest!”

The scout at the front returned to report to Di Daozhang.

Di Daozhang frowned.

He had also heard these sounds.

He also knew that these factors might have a significant impact on his team.

However, they had no other choice. To reach their destination, they had to pass through this forest.

Therefore, the area of this forest was not small, and the naked eye could not see the edge.

Advancing or retreating was a crucial decision that would determine whether Daybreak had the upper hand in the war.

According to the sounds they heard, there was clearly a trap. However, if they gave up on advancing, all their previous efforts would be in vain.

This was indeed a dilemma.

“What should we do? Captain Di?”

a soldier asked.

Di Daozhang didn’t think for long before he decided to continue moving forward.

” Reorganize our military forces and march towards the forest.”

“Yes, sir!”

When the soldiers below received the order, they did not hesitate at all and immediately set off towards the forest ahead.

Without hesitation or doubt, they simply obeyed their captain’s instructions and arrangements unconditionally.

With iron-like discipline, this sixth squad was obviously the most elite troop in Daybreak.

Following the sound of muddy footsteps on the soft soil.

The soldiers of the sixth team entered the dense and wide forest.

“This is actually a swamp!”

Not long after, a soldier in front of them cried out in alarm.

” Be careful, grab onto the climbing objects nearby. Don’t get trapped!”

The nearby soldiers began to remind him.

This was a swamp, which Di Daozhang had not expected.

They had not made sufficient preparations beforehand.

Although they managed to grab hold of the vines and branches nearby, there were still many people. The swamp was vast, and there were already quite a number of people whose bodies were almost completely stuck in the mud, unable to move.

“Maintain order and don’t panic! Those who are not trapped, climb up the tree and walk along the tree!”

Di Daozhang himself had almost fallen into the swamp. Fortunately, he reacted quickly and grabbed a thick tree trunk to climb up.

In just a few moments, dozens of the original 500 men were trapped in the swamp, crying out in pain.

Although the swamp wasn’t as deep as it seemed, the mud in it was enough to reach the face of an adult. It wouldn’t be a problem for them to be trapped for a while.

” How many people were hit?!”

Di Daozhang asked the adjutant beside him.

“Captain! After our rough inspection, more than thirty of our brothers are trapped inside!”

the adjutant replied loudly.

“Is everyone else on the tree now?”

“Yes, I am! Other than those people, the other soldiers have climbed up the trees here!”

Di Daozhang glanced at the ground. He could not see the end of this muddy swamp. It was obviously impossible to walk this distance.

“Those on the trees, look for strips, branches, or tree trunks. Try to pull the brothers below up!”

Di Daozhang ordered again.

Although these people were trapped, they were not injured. Moreover, his team could not give up on his brothers for no reason. Di Daozhang decided to take the time to save them first.

However, just as he finished speaking, he heard a miserable cry. Then, a soldier fell from the tree and fell straight into the swamp. He quickly sank into it and stopped moving for a while!

” What’s going on?!”

A few soldiers nearby exclaimed.

“There’s something on the tree!”

The person beside the fallen soldier shouted.

Chapter 864: Ruin Together

” What?!”

“What happened?”

Upon hearing these terrifying words, the nearby soldiers all looked over.

There was nothing unusual in the dense canopy.

“There’s someone up there!”

the soldier repeated.

“Where is there someone? I didn’t see it!”

a soldier asked curiously.

At this moment, before his voice could completely stop, a rapier suddenly fell from the treetops and struck the man between his eyebrows.

With a muffled groan, the soldier fell to the ground.

The few people beside him saw everything and were shocked. There was indeed something on the top of the tree!

It was just that he did not know if it was a human or something else!

This shocking scene was reflected in the eyes of the Daybreak soldiers nearby!

Facing such a sudden fear, Daybreak’s soldiers didn’t dare to go up to the top of the tree to check on the situation. They all stood rooted to the ground, not even daring to breathe loudly.

All the soldiers began to panic. They raised their heads to check if the treetops above their heads were safe!

“This forest is really strange! First, the transparent swamp below, then the strange attack from the top of the tree!”

The soldiers felt that their surroundings were not safe, and the atmosphere in the team began to become tense.

Di Daozhang also understood that they were in a very dangerous situation, so his eyes revealed a solemn expression.

However, as the commander of the team, he definitely could not show a panicked expression. Even if he was surrounded by danger, he had to be calm and play a role in uniting the team.

With a stern expression, he shouted to the nearby soldiers,

“Everyone! Pick up the weapons in your hands and attack the top of the tree. There must be something on it. Otherwise, they won’t be able to attack us!”

“In the face of danger, counterattack is the best defense!”

After saying this, it was indeed very effective in raising the morale of the soldiers.

The panic that permeated the air earlier had clearly dissipated.

The soldiers followed Di Daozhang's method and fired at the hidden threats on the trees, but they did not achieve any substantial results.

However, due to the attacks of the Daybreak Army soldiers, the hidden weapons did not stop. Instead, they were fired even more violently, continuously shooting sharp thorns at the trees, stabbing the Daybreak Army soldiers.

Instantly, a large group of Daybreak soldiers received a storm-like attack. Unable to withstand it, they fell into the swamp.

"F * ck, what is this thing!"

The soldiers complained incessantly.

Di Daozhang was filled with regret. He had not expected that this was a trap set by the other party and that he had been deceived by the other party!

Di Daozhang was annoyed, but there was no time for him to catch his breath.

He could only give the order immediately.

"Everyone who can still move now! Immediately get down from the tree and move around the trunk at the root of the tree, away from the top of the tree!"

Upon receiving the order, all the Daybreak soldiers immediately began to move according to his method.

In the end, through their efforts, a portion of Daybreak's soldiers managed to escape.

As for the other soldiers, they were still a step too late. Half of them had already been shot by the spikes in the traps that had just been activated and were sent into the swamp.

By the time they reached the roots, the number of people had already been reduced to more than 200!

"It's already a blessing that we managed to escape! This forest is really too f * cking strange. Let's hurry up and leave this place!"

Daybreak's soldiers were extremely afraid of this forest and did not want to stay here for a moment longer.

"It's not like we haven't been here before. After all, this is our Daybreak's territory. However, the situation before and now is completely different!"

A soldier asked in confusion.

Di Daozhang understood that this was their territory. Although they weren't very familiar with this place, they would still pass by this place from time to time. However, today's situation was too strange!

However, Di Daozhang didn't have time to think about this. His primary goal now was to lead the team out of the forest.

According to their previous calculations, although they couldn't see the border of this forest at a glance, they had walked through it a few times and had a rough understanding of the route here. Normally, they had already walked about half the way.

So far, they had only traveled half the way, but they had already lost half of their troops. Di Daozhang felt a heartache. Not to mention that they would be scolded by Dong Zhejun when they returned, it was still unknown whether they could leave the forest alive!

The extent of this loss had far exceeded his expectations!

However, they had no way out. Next, they had to continue moving forward until they found a way to survive!

The second half of the journey in the forest was relatively safe.

Fortunately, nothing unexpected happened during the rest of the journey. After stumbling and marching, they finally left the swamp and the terrifying forest. They were only a few hundred meters away from the exit of the forest.

The time they spent was much less, and the soldiers of the sixth team had a smooth journey.

After walking for a few more minutes, they were only a few dozen meters away from the exit.

Chapter 865: Destroy Both Jade and Stone (2)

Through the dense forest, they could almost see the battlefield where the logistics company and the second team fought.

The flames flickered, and the shadows of the trees flickered on the battlefield. Countless soldiers lay quietly on the battlefield, and it was a tragic scene.

However, at this critical moment, there was a sudden commotion from the west.

These sounds seemed to be the sound of troops walking, and the sound was not small, as if it was deliberately made for Daybreak and the others to hear.

“What happened?”

All the Daybreak soldiers heard these sounds and immediately became nervous.

This was obviously an unfriendly attack. This was different from the sneak attack just now. This was a blatant provocation!

Then, they heard a loud voice coming from the direction of the footsteps.

“Daybreak scum! You have no way out! I advise you to surrender!”

It was He Chenguang!

They had been lying in ambush here for a long time!

The trap on the tree earlier was also carefully designed by them for this operation!

Now, almost all of Daybreak's men had suffered heavy injuries, and only a few defeated soldiers were left. It was finally time for them to reap the fruits of their battle!

Earlier, He Chenguang had been hiding behind a huge rock in the distance of the forest, secretly observing Daybreak's every move.

Of course, the traps on the trees were also set up by them to trap these people.

Just a few minutes ago, they had seized the opportunity to attack and deal a fatal blow to the enemy.

Although the logistics company only had about 100 people, they were now the elites who had been recuperating. Although the other party had a significant advantage in numbers, they were already a heavily defeated force. It was difficult for them to compete with He Chenguang's troops in a head-on confrontation.

He Chenguang and the others moved very quickly. Before Di Daozhang's men could react, they surrounded them from all directions and surrounded them in the dark.

"Logistics company?"

Daybreak's soldiers were shocked.

"As expected, the trap just now was your doing!"

"Hahaha! You guys are really slow to realize."

He Chenguang said from afar.

"Cut the crap. Today, this will be your grave!"

He Chenguang had no intention of letting them live. All the battles today were to annihilate Daybreak's troops.

He Chenguang immediately launched an attack.

Bullets shot out from all directions, like a burst of sparks, rippling in the night sky, instantly rendering it bright and transparent.

Di Daozhang's reaction was also very fast. Although they had lost nearly half of their men just now, it was not a problem for them to readjust their troops and prepare for the battle.

He pulled out his handgun and fired a shot into the sky. The sound of the gunshot instantly resounded throughout the entire venue, drowning out everyone's voices.

Di Daozhang shouted,

"All the soldiers of Daybreak Squad 6, as long as you still have a breath left, we will fight for the organization until the end!"

"Now, we've been forced into a dead end. There's no way out. Tell me, what do you plan to do?!"

"Do you want to become a corpse in humiliation, or do you want to fight to the death here and become a glorious sacrifice for the organization until the last moment?"

“We are willing to fight to the end for the organization! I won’t retreat!”

Daybreak’s soldiers immediately shouted in unison.

Di Daozhang’s Bright Spear Determination was indeed extraordinary in terms of cohesion.

Even the Daybreak soldiers who had suffered a huge blow earlier immediately erupted with astonishing combat strength.

While avoiding the firepower of the logistics company, they also launched a powerful counterattack.

He Chenguang was also shocked by this powerful aura. As the saying goes, even a dog will jump over a wall when it’s anxious. Moreover, this was the most elite soldier of Daybreak’s sixth team!

He Chenguang didn’t dare to be negligent. He understood that it would be very irrational for them to choose to fight head-on with the other party at this time.

Therefore, seeing that this attack had little effect, he began to adopt a roundabout guerrilla tactic.

“First, avoid the other party’s sharp edge and form a barrier in the surroundings! Wait for an opportunity to attack again!”

He Chenguang whispered to his soldiers.

After all, the soldiers led by He Chenguang were also elite soldiers in the logistics company.

Although they were outnumbered, they were still elites in terms of individual combat ability.

“Yes, sir!”

The soldiers under his command understood the logic behind this. Without any hesitation, they immediately executed He Chenguang’s strategy.

The number of attacking soldiers gradually decreased, and they slowly hid in the nearby obstacles and engaged in a circle with the other party.

Although he was temporarily evading, he had returned to the position where he had been lying in ambush. He did not give the other party any openings and gave the other party a chance to break out.

Di Daozhang commanded the soldiers to launch a crazy counterattack. He was delighted to find that they had suppressed the enemy’s firepower.

Slowly, he began to break through to the side, trying to break out of the encirclement.

However, Di Daozhang also realized that the logistics company had only given up on attacking, but the border defense network they were defending was still impregnable. When Daybreak’s soldiers tried to break through, they triggered the mines on the ground, causing countless casualties. This time, all the soldiers did not dare to act rashly. They all panted heavily on the spot.

“Damn it! These people were too cunning! They set up mines at the side! We’re trapped!”

The soldiers complained bitterly.

Di Daozhang was aware of his current situation and was extremely anxious.

If they followed the current rhythm, their side would indeed be completely wiped out in the end.

However, if they rashly broke through, they would also be killed by the explosion. Now, they were in a dilemma.

Although they had powerful martial strength, they were just wild beasts in a cage waiting to be harvested.

Di Daozhang's forehead slowly oozed sweat.

Time was running out, and the longer they delayed, the more disadvantageous it would be for them. He had to make a decision now.

"How many bombs do you have on you now?"

Di Daozhang asked the soldier beside him.

"Not much! There were still dozens of them! We lost too much in the swamp just now!"

The adjutant beside him said.

Di Daozhang frowned and said in a low voice.

"Now that things have come to this, we can only engage in a life-and-death duel with the other party."

"Since the other party doesn't want us to live, we can't let them have it easy either. Throw all the bombs into their formation."

Di Daozhang said resolutely.

The adjutant's heart tightened.

He understood what Di Daozhang meant.

If they decided to throw bombs at the other party, although they could cause a lot of damage to the other party, they would have to bear a greater risk.

The person who threw the bomb would be exposed to the other party's muzzle, and the effectiveness of the bomb was unknown.

"Captain? Did he really have to make this decision? We'll stall for time with the other party and wait for the fifth team to come and rescue us. What do you think?"

the adjutant said unwillingly.

"No, hesitation will lead to defeat. We have to take advantage of the current momentum to fight to the death with the other party. If we drag this on, we will only slowly weaken and walk towards destruction."

"My decision has already been made. Don't change it."

Di Daozhang said in a deep voice.

The adjutant sighed and could only nod in agreement.

He turned around and told the soldiers nearby Di Daozhang's order.

The soldiers also looked stern. Although they knew that this operation would most likely fail, none of them showed a panicked expression.

Everyone had an awe-inspiring look on their faces.

All the soldiers who still had bombs in their hands took out their bombs almost at the same time. They pulled open the bolts and suddenly charged into the defensive net formed by the logistics companies around them, ruthlessly throwing them at the enemy camp!

In an instant, deafening explosions sounded at the scene!

Chapter 866: Aren't You Looking Down On Us Too Much?

He Chenguang didn't expect the other party to use such an extreme method to fight.

Their soldiers were not prepared in advance and were shocked by this sudden suicide attack.

Although the soldiers of the logistics company managed to deal with these crazy bomb-throwers with their firepower in time, the bombs in their hands mercilessly smashed into the logistics company's position.

This also caused some of the soldiers in He Chenguang's team to be injured.

"They're crazy!"

The soldiers of the logistics company shouted.

Many of his brothers had already met with misfortune.

"Captain He! What should we do?"

This kind of attack continued. At least a dozen people came over with bombs and tried to die with them. Seeing that the situation was critical, the soldiers in front could not hold on anymore. They could only ask He Chenguang loudly.

How could He Chenguang not know their current situation?

However, he could not find a suitable way to deal with it for a while, so he could only be anxious in his heart.

To them, the situation had changed from being the one taking the initiative to being passive.

Right now, they had almost the same losses as the other party.

Although they were on the defensive, they were at an absolute disadvantage in terms of numbers. Even if they could fight one against many, they would not be able to resist the advantage of the other party's numbers.

"What should we do? Captain? If this continues, I'm afraid the casualties will be even greater!"

The soldiers at the side kept reminding He Chenguang.

A hint of determination flashed across He Chenguang's face.

"Everyone, retreat 50 meters!"

He Chenguang said resolutely.

He understood the meaning of this sentence.

That was, they had given up on attacking Daybreak and turned to retreat to protect themselves!

The people below had no intention of disobeying He Chenguang's orders. After receiving the instructions, they quickly withdrew from the battle.

"Retreat and gather at my position!"

He Chenguang continued to order.

Then, as the logistics company left, the battlefield slowly began to end.

Daybreak's team also stopped committing suicide or attacking.

They also got a rare chance to catch their breath.

"How much combat power do we have left?"

Di Daozhang asked in a deep voice as he protected his honor with all his might.

"Captain! We just paid with the lives of more than 50 brothers and the corresponding number of bombs in exchange for the enemy's withdrawal!"

a soldier reported.

"This is an acceptable ending."

Di Daozhang said in a deep voice.

"Although we have lost our troops and equipment, the situation is still within our control. This way, we still have a bargaining chip to continue fighting."

"The mines on the ground have basically been destroyed. We can move freely now."

"Check the remaining forces."

Di Daozhang said to his subordinates.

A few minutes later, the adjutant ran over and said to Di Daozhang,

"Captain, other than the dozens of soldiers who sacrificed themselves bravely just now, there are more than ten members who are injured! By rough estimation, there were more than 70 casualties! There are still about 150 people left!"

Di Daozhang nodded and waved him away.

He began to calculate in his heart.

Although their combat power had been reduced to about one-third of its previous level, this was only relatively speaking.

This was because the people of the logistics company had also suffered heavy losses. Although they did not know how many people the other party had lost, they were certain that the other party had suffered significant losses. Otherwise, they would definitely not have chosen to retreat.

At this thought, Di Daozhang began to plan his next move.

Although his troops had suffered a serious setback, they still had a certain degree of mobility. He could consider whether he could launch an attack on the other party now.

“Captain! Let’s immediately launch an attack on the other party! Now is the time for their momentum to weaken!”

“We’ll follow up the victory and pursue them. We’ll definitely be able to capture them all in one fell swoop!”

the subordinate said confidently.

Di Daozhang was also considering this problem. It was not that he had not thought of this method, but he had considered many other factors.

For example, whether the other party had other reinforcements, whether there were ambushes in the other party’s position, and so on.

After all, he had just gone through a bloody storm. He did not dare to take risks without confidence.

” Reorganize the army and rest for a while. We have just experienced a great battle, so we can’t continue to move forward with heavy loads.”

Di Daozhang said seriously.

The crowd didn’t object to Di Daozhang’s suggestion and tacitly agreed to rest on the spot.

“Captain, how much longer do we need to rest?”

The soldier beside him asked curiously.

“I don’t know. It depends on the other party’s situation. We can’t act according to our previous plan now.”

“What should we do now? Are you patrolling nearby?”

The soldiers nearby asked.

” Sure, but we only have two hundred people left. We have to move together. We can’t give the other party a chance to sneak in.”

Di Daozhang analyzed the situation seriously.

“Yes, Captain makes sense!”

“As long as we follow the captain’s instructions, we will definitely be able to break through the encirclement!”

After hearing Di Daozhang's words, the soldiers immediately became more confident.

As for the logistics company, they had unexpectedly suffered heavy losses from the previous confrontation. This was also something they had not expected. They would need some time to recover.

Chapter 867: Aren't You Looking Down On Us Too Much?

"Captain He, we didn't complete the mission on time. How are we going to explain to our brothers in the logistics company when we go back?"

The soldier beside him was very worried for him.

"We haven't failed yet. We were just caught off guard."

He Chenguang said in a deep voice.

"Now, we still have time to adjust our tactics and carry out the next step."

"How many brothers have we lost?"

He Chenguang asked.

"Captain, there were about 30 brothers guarding the front line!"

The people below immediately said.

He Chenguang frowned.

This amount was something he found hard to accept.

In this assault, they had lost one-third of their forces. Although it was not a serious injury, it was still a heavy loss.

What should he do?

Their original plan was to trap Daybreak's men here. They only needed to wait outside. They did not expect the other party to be so resolute and choose a suicidal attack.

As a result, both sides paid a heavy price and could only retreat in the end.

Therefore, things were in a deadlock.

If both sides did not move, then they would continue to confront each other.

If they entered to delay the time, then there was no doubt that the logistics company would gain a huge advantage. After all, Qin Yuan had analyzed the reason in detail before.

Therefore, they did not need to do anything now. They just needed to ensure their own safety.

"Everyone, retreat and defend. Return to our own camp and gather together. Look after your comrades. As long as we can withstand this wave, victory will be ours."

He Chenguang whispered to everyone.

"Yes, sir! Captain!"

Immediately, the people from the logistics company followed He Chenguang's instructions and gathered together. They shrank into a hidden spot in the forest and secretly observed the movements of the Daybreak Organization.

After receiving Di Daozhang's order, Daybreak had also entered a state of alert. Everyone gathered there and began to adjust their ranks.

"Captain! Should we send a distress signal to the organization and ask them to send someone to save us?"

a soldier suggested.

Di Daozhang pondered for a moment.

"No need. First of all, it's easy for us to leave a gap for the other party. Moreover, it will also make the organization suspicious of us. How can we be sure that this distress signal was sent by us?"

"Let's rest here for ten minutes. We'll immediately start moving towards the battlefield ahead."

Di Daozhang said solemnly.

"Yes, sir!"

Di Daozhang had made up his mind. Although they had obtained a moment of peace, there were still hidden enemies nearby. If he did not deal with them, there would always be a huge rock pressing down on his heart.

Therefore, even if he was leading some of the remaining soldiers and generals, he had to kill his way out.

Soon, ten minutes passed, and they had a short period of peace.

"Have you all rested? Let's set off for the battlefield ahead immediately."

Di Daozhang ordered.

"Yes, sir! Captain!"

His subordinates all received the order.

They immediately adjusted their ranks and began to slowly move forward.

Originally, they were only a few dozen meters away from the exit. Now, they sped up and successfully left the Forest of Death.

They arrived at the place where the second team had fought.

As time passed, the fire here had gradually extinguished.

There were only some leaves left on the ground and something indescribable.

There was not a single living being left.

Even warriors who had experienced many things would start to feel nauseous after coming here.

“Damn it! How tragic!”

“This second team is really unlucky! They were all wiped out in such a place! The people of the logistics company are really tragic!”

The soldiers began to discuss.

“Let’s not talk so much. Start checking the surroundings to see if there are any survivors and investigate what happened here.”

Di Daozhang said in a deep voice.

He roughly knew that there had been an intense battle here, but he had to know the details before he could report it to the organization.

Moreover, they had to find out if there were still enemies hiding here.

Although they only had less than 200 men, they had just escaped death and were no longer afraid of death. Moreover, the fifth team had set off at almost the same time as them, so they should be arriving soon.

Soon after, Daybreak’s troops began to search the area carefully.

“Did you find any survivors?”

“No, I’ve searched several places, but I didn’t find a single one!”

“We can investigate the battle here! It was also caused by the explosion!”

The soldiers reported to Di Daozhang.

Di Daozhang nodded slightly.

It was just as he had expected.

It was also because of the carelessness of the second team that they were caught by the other party and were eventually wiped out.

These stupid good-for-nothings!

Di Daozhang cursed inwardly.

Then, Di Daozhang summoned all the soldiers and told them to stop investigating.

“Everyone, come back. We don’t need to continue searching.”

Di Daozhang said loudly to the troops.

“Captain Di! There are survivors here!”

Di Daozhang was about to turn around and leave when he heard a voice from afar.

Di Daozhang frowned. If there were survivors, they might know some information about the other party.

Di Daozhang immediately rushed over without saying anything.

A few minutes later, they arrived at the location of the sound.

As expected, he saw a Daybreak soldier lying on the ground, his lower body charred and on the verge of death.

This person was almost unable to hold on any longer and was only emitting some weak aura.

“Drink some water! You’ll be fine!”

Di Daozhang said loudly as he approached the other party.

Then, he handed the water to the other party and let him drink it.

“Quickly bandage his wound!”

With that, Di Daozhang took the lead and took out bandages to bandage the other party’s wounds.

Some of the charred body tissues in his lower body were emitting a foul smell.

This person was already helpless.

Di Daozhang frowned. He knew that the other party did not have much time left, but he had to get some useful information from him.

He lowered his head to the soldier’s mouth and whispered,”

“Comrade, can you hear me? We will definitely get you out of here.”

“What happened just now? Can you tell me? This is very important to us.”

The soldier coughed a few times and answered with a hoarse and weak voice,”

“Is this Captain Di Daozhang? I’m from the second team...”

“We encountered an ambush...Our brothers have all sacrificed themselves...”

“The other party is the team led by Qin Yuan...”

“How many people are there?”

Di Daozhang asked in astonishment.

The other party wanted to continue, but he kept coughing and his body trembled uncontrollably. A few seconds later, he died.

Di Daozhang closed his eyes and slowly put her down.

“Carry him nearby and bury him.”

Di Daozhang walked back slowly.

He closed his eyes and his thoughts spun rapidly in his mind.

Qin Yuan, Logistics Company.

These two words kept repeating in his mind.

The team that had fought with them just now was obviously not Qin Yuan. This was because the team just now was not considered strong, and this second team had been destroyed in a short period of time. The opponent just now clearly did not have such ability.

It seemed like his enemy was not just a small team.

Di Daozhang took a deep breath.

“Have you found any traces of the enemy nearby?”

Di Daozhang asked.

“Sir, no!”

The soldier beside him immediately replied.

Di Daozhang calmed down and was about to order them to return the way they came.

Suddenly, she heard rustling footsteps coming from all around her.

A voice sounded,”

“Aren’t you underestimating us?”

Chapter 868: The Sixth Squad Fallen

Hearing this voice, Daybreak’s soldiers were undoubtedly extremely terrified.

This was Qin Yuan’s voice. They had long received news from He Chenguang and were lurking here, waiting for the other party to walk into the trap.

Of course, these defeated soldiers of Daybreak Team 6 could not recognize Qin Yuan’s voice because they had never seen Qin Yuan in person.

” Who is it?!”

” Logistics Company again?!”

the soldiers said in panic.

Before they could react, countless bullets were fired from all directions, and the pitiful Daybreak City soldiers became the victims of the bullets.

“Leave this place immediately!”

Di Daozhang, who was in the array, immediately gave the order. He knew that the other party had been waiting here for a long time.

“Damn it, I fell into their trap again!”

Daybreak’s soldiers complained incessantly as they retreated.

“What should we do? Captain!”

The soldiers asked in panic.

Di Daozhang frowned. This was something he had not expected.

After some thought, Di Daozhang shouted,”

“Don’t panic, form a defensive line! Defensive counterattack! Their firepower is not as fierce as we imagined!”

After receiving Di Daozhang’s order, Daybreak’s troops began to counterattack in an orderly manner.

Although Qin Yuan’s attack was very fierce, it was only a small portion of the team after all. There was an obvious difference in numbers between them and the other party.

A sneak attack could only cause temporary harassment to the other party, but it could not completely destroy the other party.

Di Daozhang had also gradually confirmed this principle in the battle.

Slowly, the logistics company’s offensive gradually weakened, and Daybreak’s people began to slowly gain the upper hand.

“They don’t have the strength to continue! We’ll hold on!”

Di Daozhang encouraged the team loudly.

Inspired by Di Daozhang, the team moved quickly and retreated from the attack range of the logistics company in the blink of an eye.

Qin Yuan was not in a hurry to attack. This was something he had planned long ago.

“Captain Qin, they escaped. Our plan succeeded!”

The soldiers from the logistics company said to Qin Yuan.

Little did they know that all of this was under Qin Yuan’s control.

Qin Yuan quietly observed this scene from the grass in the distance.

” Mm, don’t pursue them too deeply. They will naturally suffer.”

The corners of Qin Yuan’s mouth curled up slightly, revealing a smile.

On Daybreak’s side, although they had dodged Qin Yuan’s attack, they had also suffered considerable injuries.

The original 180 people had now been reduced by more than 30 people, and their combat strength had decreased by a lot.

“Damn it! They’ve played this place!”

“We’re all suffering in silence! How can I endure this?”

The soldiers let out a wave of dissatisfied complaints.

“We will wash away this shame sooner or later.”

Di Daozhang said in a deep voice.

As they went back and forth, the morale of Daybreak’s soldiers was very high, as if they wanted to cut the logistics company into pieces.

They had already retreated to the forest where the logistics company and the first team were fighting.

The group returned to the edge of the forest that was filled with swamps.

The soldiers sighed.

“I didn’t expect to be back here again!”

“Our journey is not over yet.”

Di Daozhang said in a deep voice.

He knew that this was definitely not the time to catch his breath. He had a feeling that their battle was definitely not over. Next, it would be a crucial battle.

Sure enough, before they could stand firm, a strange howl came from nearby.

This sound was not made by a human. It was more like a terrifying beast.

In fact, everyone in the logistics company knew what this was—a big white wolf.

Perhaps it was because it had nothing better to do, or perhaps it had a special hatred for Daybreak’s people, but now, it had once again arrived in front of Daybreak’s team.

Become their enemy.

In the shadows, the white wolf’s figure slowly appeared in front of the Daybreak soldiers.

” Isn’t this the big white wolf from before?!”

Daybreak’s soldiers also saw this scene.

Di Daozhang also had some understanding of this creature, but he hadn’t really seen it yet. He still felt lucky.

” Everyone, maintain your combat state. Be prepared for any sudden danger!”

Di Daozhang gave the final order.

He knew about the big white wolf’s existence, but he was not very familiar with its combat power, so he did not give the order to retreat. No matter how powerful the other party was, it was just a white-collar worker. It was impossible for him to not be afraid of more than a hundred people on his side, right?

However, things always deviated from what people thought. Soon, Di Daozhang and his Daybreak Troop paid the price for their ignorance.

The white wolf slowly walked out of the forest and slowly appeared in front of them with a deep roar.

“It really is that white wolf! He had been playing hide-and-seek with us before, and now he has finally appeared!”

The soldiers were all shocked. Now, they could launch a retaliatory attack on the other party!

After all, the white wolf had caused them countless troubles previously.

Di Daozhang didn't stop the soldiers from attacking the white wolf angrily.

However, before they could prepare and launch an attack, the white wolf beat them to it and began a surprise attack on them!

It moved its nimble body and shuttled back and forth between Daybreak's troops, crazily pulling and biting. Immediately, Daybreak's soldiers suffered a lot of casualties!

Chapter 869: The Sixth Squad Fallen (2)

"What's going on?"

"How can it be so fast!"

"I can't even see its movements clearly!"

"Damn it! If this continues, we won't be its match at all!"

As expected, Daybreak's soldiers were helpless against the white wolf.

Di Daozhang had not expected the white wolf to pose such a huge threat to them.

At this moment, he could not do anything about such a terrifying creature. He could only watch as the other party slowly devoured his troops.

"What's wrong with you guys? Hurry up and retreat. Don't attack anymore!"

Di Daozhang ordered again.

However, this time, his order was not small. Many soldiers had already fallen into the white wolf's attack range. Once they entered, it would be very difficult to escape.

The white wolves were frantically tearing at the Daybreak troops on the scene. Although they realized that they were no match for the other party, it was already too late. Most of the soldiers could not escape, and soon, a large number of casualties appeared.

Under the cover of a large number of teammates, the remaining members of the Daybreak Organization slowly escaped the white wolf's demonic claws.

From the people who had managed to escape, they knew that the battle just now had been an overwhelming one. In just a few minutes, Daybreak had lost more than 50 soldiers!

Now, there were only about a hundred of them left!

Di Daozhang's heart was bleeding.

In this battle, they had not even touched a single hair of the other party, and they had already lost more than half of their troops. This made the brave and well-versed sixth team lose face, making him unable to face the other members of Daybreak!

"Captain? What should he do? Our situation is very critical now!"

The soldiers below were also very worried.

Di Daozhang knew that he was in a critical situation.

However, they didn't have many troops left, and the space they could operate was very limited.

He only had two choices now.

The first was to flee at the last minute, and there might be a chance of survival. After all, although the other party was strong, there were too many of them, and they did not have enough strength to chase after them.

The second was to fight to the death with the logistics company. There was a chance that they could die together.

Di Daozhang didn't hesitate for long. His strong sense of honor made him choose the second option.

Soon, he calmed down and shouted,

"Soldiers of Daybreak Squad 6, I'll give you two choices now. One is to fight me to the end and protect Daybreak Squad's last shred of glory!"

"The second is to be a deserter. If you run back now, you will become a sinner for eternity!"

"You can choose for yourselves! I won't interfere with you!"

"I'll give you half a minute to think! We don't have much time left!"

Di Daozhang's expression was determined and he looked righteous.

The soldiers below fell into a contemplative silence.

However, this silence only lasted for a few dozen seconds.

Soon, they shouted in unison,

"I'm willing to follow Captain Di Daozhang to the death! I swear to protect Daybreak's honor!"

The soldiers of the army were very imposing.

Then, they used the last of their strength and began to launch a fierce attack on the logistics company.

Qin Yuan saw all of this. He knew that the other party was attacking with all his might. It would be unwise for him to fight head-on with the other party.

Moreover, the white wolf had already retreated from the battlefield and did not engage the other party too much.

"Are we playing hard to get with them? Captain Qin?"

a soldier asked.

"There's no hurry. When their aura subsides, we'll catch them all in one fell swoop."

Qin Yuan said in a deep voice.

His plan was indeed effective. Although Daybreak's men were full of momentum now, they were still a bunch of defeated soldiers and could not hold on for long.

They launched a frenzied attack on the logistics company's side, but they were all completely resolved by the logistics company like sticky candy.

Di Daozhang and his team members were very annoyed. They had used all their strength to launch an all-out attack, but they had not even hurt the other party's hair. This really made him very angry.

“Captain! Our attack has completely failed!”

The soldiers below were also very annoyed.

Di Daozhang's face was pale. Overwork had already made him look very haggard.

However, he was still very anxious. The enemy was right in front of him, and he was not a match for this seemingly weak logistics company!

“People from the logistics company! Listen up! If you have even the slightest will to fight! I won't be a coward here!”

” Show us your guts and courage! Fight to the death with us!”

Di Daozhang shouted with the last of his strength.

They tried to provoke Qin Yuan's troops.

However, Qin Yuan's logistics company was full of old bones. How could they be tempted by him?

They were all listening to Di Daozhang's shouts in the array with great interest, their bodies not moving at all.

Qin Yuan let out a laugh.

He replied loudly,

“Are these your last words?”

“How interesting. I didn't expect your organization to have such a loyal person.”

Qin Yuan chuckled.

He felt that people like Di Daozhang were very unique in Daybreak. They were a hundred times stronger than people like Lin Hai.

It was a pity to deal with them here.

However, this was a battlefield, and there was no such thing as worldly wisdom. The winner was king, and the loser was a bandit. Qin Yuan would not make a stupid decision just because he was soft-hearted.

After the other party launched the most violent attack, Qin Yuan saw the opportunity and immediately began to give the order to counterattack. Now that the last wave of aura of Daybreak's people had basically disappeared, it was time to launch the final attack on them.

“Go! They were already at the end of their rope, and there were less than a hundred people left! It’s time for us to reap the fruits of victory!”

Under Qin Yuan’s order, the soldiers of the logistics company immediately took action and launched the final encirclement and suppression of the sixth team of Daybreak.

The team split into two teams and surrounded Daybreak from both sides. Soon, they surrounded all the other party members in the open space outside the forest.

The white wolf also appeared from the shadows at the side and glared at Daybreak’s people.

When Di Daozhang saw this, he was already filled with endless despair. He began to say in a deep voice,

“Looks like we’re destined to die here today!”

He let out a sigh.

Daybreak’s team saw how dejected their leader was and their morale dropped. They did not continue to attack and waited for the final judgment.

Qin Yuan slowly walked out of the logistics company and came to the front.

He stared at Di Daozhang’s face and said in a deep voice.

” I didn’t expect you to be the most elite and loyal troops in Daybreak. Although you lost, you didn’t let down the organization’s expectations of you, and you didn’t lose to yourself. You can be considered the pride of the organization. You died with honor.”

” I’ll give you a chance to kill yourselves now. Consider it our respect for you.”

Qin Yuan’s eyes were sharp, giving off a strong domineering aura.

Di Daozhang could roughly guess who the other party was from his expression.

“You’re the captain of the logistics company, Qin Yuan?!”

“Yes.”

Qin Yuan replied succinctly.

“I’ve long heard that your strength is extraordinary. Humph, it’s my honor to be defeated by you today. You’re indeed an exceptional talent.”

Di Daozhang pouted.

“Brothers! We are Daybreak’s pride! From the beginning to the end!”

After saying that, he held the gun in his right hand and aimed it at his temple. A bang was heard and the silence of the night sky was broken.

The person fell down.

Di Daozhang sacrificed himself heroically.

“He’s a man.”

Qin Yuan said in a low voice.

When the rest of Daybreak's men saw this scene, they were all shocked. Their captain had committed suicide, so how could they still be in the mood to fight?

Some impulsive soldiers began to act like Di Daozhang, dying heroically on the spot. Some soldiers who were wavering in their minds put down their weapons and prepared to surrender.

Qin Yuan did not force them to a dead end. He got his men to put away their weapons and then detained Daybreak's captives.

Chapter 870: Geng Hu's Disappearance

This time, they finally won the battle with the sixth team and returned with a full load.

"That's great! We finally won!"

"This kind of victory is not easy!"

"We really need this kind of victory to boost our morale!"

"With this, the enemy's strongest troops have been destroyed by us. Their morale has been greatly reduced!"

The soldiers of the logistics company were overjoyed.

"It's too early for us to be happy."

Qin Yuan said in a deep voice.

"Don't forget, they still have a troop heading this way."

"What is it? There's another troop?"

Some of the less well-informed soldiers were surprised.

"That's right."

"According to Green Snake's report, we've eliminated two Daybreak troops. One kilometer away, there's another team heading towards us."

Qin Yuan had forgotten to tell his team members that when he was fighting Di Daozhang, he had received a report from the green snake in front of him.

As he spoke, a total of three troops attacked them at once. The first two had already arrived at their destination, which was Qin Yuan's location, while the last one was on the way.

"We don't have much time to rest."

Qin Yuan narrowed his eyes and said.

"There are about ten minutes left. The enemy will arrive at our battlefield."

"Everyone, get ready for battle. We'll welcome the last troop."

Qin Yuan's expression was dark.

Although the soldiers were a little surprised, they still followed Qin Yuan's orders and suppressed the joy in their hearts. They switched to the most vigilant combat mode and began to prepare for the battle.

"Count how many soldiers we lost."

Qin Yuan said to the adjutant beside him.

After a while, the adjutant received the report and said loudly to Qin Yuan,

"Captain! We have a total of 113 people this time. After the two battles just now, we lost 11 people! There are still 101 soldiers left!"

Qin Yuan nodded and asked him to leave.

He was thinking about the plan for this operation.

Originally, they were divided into three teams to deal with the other party's three teams.

Now that he and He Chenguang had completed their mission, only Geng Hu's last team was left.

Now, He Chenguang had also returned to their team.

Both teams were short of soldiers in the battle, but they did not suffer any injuries. They only lost a small portion of their troops and returned victorious.

As for Geng Hu's situation, they did not know.

He had just ended the battle and had not had the time to call the other party to ask about the situation.

"Call and ask about the situation over there."

He Chenguang walked over and said to Qin Yuan.

"Yes."

Qin Yuan nodded, took out the walkie-talkie, and dialed Geng Hu's number.

"Hello, Captain Qin."

Geng Hu's voice came from the other end.

"Geng Hu, how's the situation? How far are we from them?"

"Captain Qin! We can see the enemy's troops, but they don't know we exist!"

Geng Hu's voice was very excited, as if he had won a battle.

"Alright, pay close attention to the other party's movements. Don't act rashly!"

Qin Yuan reminded.

Compared to Qin Yuan and He Chenguang, Geng Hu was the more impulsive type. If he was allowed to confront the other party's team alone, there was a possibility that he would be brave but not resourceful and fall into the other party's scheme.

Right now, the most important thing for them was to unite and fight against the enemy together. Only then could they display the greatest function of the logistics company.

“Yes, sir! Captain Qin!”

Geng Hu readily agreed.

“Mm, you stay there and don’t move. We’ve already taken care of the enemies on our side! Send reinforcements over immediately!”

Qin Yuan said.

“Good! I’ll wait for you here! We hid in the bushes and were not discovered by the other party!”

Qin Yuan nodded and turned off the walkie-talkie.

Right now, their goal was very clear. As long as the other party did not have an army pressing down on them, they would gather all their forces and deal a heavy blow to the other party.

After hanging up the walkie-talkie, Qin Yuan immediately stood up and said to the soldiers of the logistics company beside him,

“I know that everyone has experienced a difficult battle in the past two days, but I can only disturb everyone’s rest time here.”

” Because our military strength is limited, we must consolidate all our military resources and launch the most efficient attack on them!”

“So! Right now, we need to reorganize our troops and immediately go to support Captain Geng Hu’s troops! Support our teammates, we must share the final victory with them! Is everyone ready?”

“I’m ready!”

Without any hesitation, a loud reply came from below.

Qin Yuan was very satisfied with this response and nodded with a smile.

“Good!”

“Give everyone five minutes to prepare. Once the time is up, we will set off immediately! Head to the west!”

“Yes, sir! Captain!”

Everyone agreed again.

After a simple rest, they began to move towards Geng Hu’s troops in the west.

This time, Qin Yuan and He Chenguang’s team merged to form a new team. They were filled with new vitality. From the number of people to the equipment, they had been greatly strengthened, and their overall strength had risen to a new level.

During the march, Qin Yuan had always maintained close contact with the green snake.

The green snake was monitoring the other party's every move at the front line, reporting to Qin Yuan what it saw at any time.
