

## Star of Space 101

Chapter 101 Maybe it seems like this

Moreover, in Hongling Town, the rich are so rich that they ooze oil, and the poor are so poor that they eat grass roots. It is extremely unbalanced and arouses suspicion.

There is a reason why the county magistrate suspects that there is something wrong with Hongling Town.

"this....."

Lin Caisang looked sideways at Ya Molian, suddenly feeling a little uneasy.

She was just a peasant girl with all her medical skills but no power at all. If Ya Molian hadn't mentioned it at this moment, it would have been impossible to think that Hongling Town was still a dragon's pond and a tiger's den.

"You don't have to worry. As long as I'm here, nothing will happen to you." Seeing that she didn't speak, Ya Molian comforted her.

"Brother Mo Lian, do you think this strange disease here is because the county magistrate sent people to check for something? The people in the town were afraid that some news would be leaked, so they killed and silenced those who knew the inside story. ah?"

After hearing Ya Molian's words, Lin Caisang felt much more at ease and raised his own doubts.

"How long have you been here? Have you found out where the disease came from?" Ya Molian asked her instead of answering her words.

"The source of the disease? That's even stranger."

When mentioning the source of the disease, Lin Caisang looked helpless.

"Um?"

"All the people in Hongling Town are sick, but they are also poisoned." Lin Caisang said.

"What's the meaning?"

Ya Molian was confused by her. There was a big difference between the two. A disease is a disease and a poison is a poison. How could it be possible for a disease to be poisonous at the same time? What's the point?

"If you don't understand medicine, you may not understand what kind of strange symptom this is.

Lin Caisang's face looked solemn, but it was hidden by the mask, but her tone was very serious.

"I have treated many patients, but I have never seen such a strange disease, because this disease is poisonous. How should I put it? It's like you extracted its toxin from a poisonous snake, but you happened to be extracting its toxin. At that time, it developed a strange disease, and then the disease and the poison finally combined to form a strange disease that is difficult to cure. "

As she spoke, she muttered in her heart, as if she was stunned. I wonder if Ya Molian can understand?

"That means they were still poisoned." Ya Molian summarized her words and asked.

"Well."

Lin Caisang was stunned for a moment, then nodded.

"Maybe, it seems, it seems like that."

In fact, she didn't know, and she was still checking it out. She didn't know whether it was a disease or a poison.

"Why did those people want to kill you? What did you do after you got here?" Ya Molian asked.

The little girl has been here less than a day and she is being targeted? She is just a doctor, and she is a girl who doesn't look like a doctor but a little liar. Who would be so eager to attack her?

"It's nothing. I just checked one person. This person is the source of the illness in Hongling Town, but he is already dead." Lin Caisang said.

She told Ya Molian about her previous suspicions about the Gong family, and she also guessed in her heart that those people were most likely sent by Mr. Gong, because her previous words must have scared him.

"You!"

Ya Molian glanced at her helplessly.

She is already causing trouble when she just arrived. She is indeed a little girl that makes people worry.

"If there is anything that needs to be done, just leave it to the government officials to handle it. Why do you need to do it yourself? If I hadn't come, I don't know whether your head would be there or not."
