

Star of Space 114

Chapter 114 None of them are good things!

But this doesn't make sense. After all, Third Young Master Gong is also half the master of the Gong family. There are so many people around him who can take advantage of him. Why should he kill this half master? It makes no sense.

Moreover, she always felt that this was just a fantasy in her mind. Could it be true?

"No, that's not the case. It's possible that the pregnant woman didn't commit suicide."

She shook her head. She had always thought that the pregnant woman committed suicide, so she completely rejected her idea. But what if the pregnant woman was killed by someone else?

What if she knew in advance that Third Young Master Gong wanted to attack her child, and then used the trick to give Third Young Master Gong the poison that she should have taken? Then when Third Young Master Gong catches a strange disease, it will be a success, right?

Later, Gong Sangong discovered that he was infected with an incurable poison, so he killed the pregnant woman.

"This is the most reasonable explanation, but what about the solution to this poison?" She still had no clue.

'Master, have you forgotten that you are the head of the Lin clan?' Another line of words appeared on the jade mirror.

Lin Caisang looked up and his head was suddenly covered with black lines.

Yes, after traveling through time, she really forgot that she was once the head of the Lin clan. The Lin clan also has a special anti-epidemic pill - Wufear.

With this elixir, is she still afraid of just a few strange diseases?

"Understood.

Soon, Lin Caisang returned to the inn room, then opened the door and walked out, rushing all the way to the man who claimed that he had all the medicinal materials at home.

Then, the housekeeper took her to the drug store to get the medicine in person. All the processes were completed by herself without anyone else's hands.

Two hours later, five 'Fearless' coins were in Lin Caisang's hand.

"Take these four pills and give them to your master. Let him take them first for the most serious people in the house." She walked outside the medicine shop and said to the housekeeper who was waiting there and never left.

"Also, tell your master, from now on, no one is allowed to enter this pharmacy without my permission!"

"Thank you, Miss Liu, thank you, Miss Liu."

The housekeeper thanked Lin Caisang profusely and ran away with four pills in his hands.

After that, Lin Caisang also went out and went to the thatched shed. She gave the medicine in her hand to the old woman she met first and asked her to take the pill first to detoxify. She also wanted to see the effect.

After a while, Lin Caisang breathed a sigh of relief when he saw that the old woman's complexion was much better.

After settling the old man, she turned around and continued to the drug store, where she immediately emptied out all the medicinal materials, as well as medicine jars, etc., as long as they were in the drug store, she moved them away.

Return to the Golden Pearl Space to refine 'Fearless'.

...

A few hours passed in the blink of an eye. On the other side, Wu Zuo had arrived and examined the corpses. Most of them were tortured to death, which made Capt. Wei so angry that he almost spit out a mouthful of blood.

His scarlet eyes stared at Mr. Gong who was cowering aside, and he wanted to take him to jail on the spot.

Fortunately, several police officers nearby saw something was wrong and hurried over to persuade him, so he did not attack Mr. Gong.

"Wei... Capt. Wei, this really, really has nothing to do with me. I didn't know that scoundrel would do such a thing." Mr. Gong was still looking at Capt. Wei carefully. Head, cry out for yourself.

"If the upper beam is not straight and the lower beam is crooked, you and your family are not good people!"

At this moment, how could Chief Wei be polite to him? Seeing that he didn't like anything about him, he just snorted and cursed.
