

Star of Space 115

Chapter 115 I won't give it to you even if it's nothing!

"Wei Captou, Wei Captou, my wife's strange illness is getting better. It's getting better, and everyone has hope. Suddenly, a loud voice came to the angry Wei Captou's ears, making him Startled.

"What?"

After a while, he turned around and looked at the old man, and saw that he was beaming with joy at this moment.

"It's getting better, how come it's getting better?"

"Don't you know? It was Miss Liu who gave me the pills. She gave me four pills and said those who were seriously ill would take them first. My wife was seriously ill, so I gave her one pill first."

The old man looked confused when he saw them being so surprised.

"Didn't Miss Liu give you the pills?"

"Pills, what pills?"

When Mr. Gong heard the pills, his eyes suddenly lit up and he rushed towards the old man.

"Old man, where are the pills? You still have three. Give them to me quickly. People in my family are dying."

The attitude of wanting to snatch the remaining three pills from someone's body simply shocked the others, and even stunned the old man.

"Fuck you, I won't give you the pills in my hand even if they are gone!"

After coming back to his senses, he pushed Master Gong away and asked him to return the favor. Did the old man always hurt him like this?

What's more, there are many sick people in his family. Just four pills are enough to give to whom, and give it to the person named Gong. Doesn't he look like a fool? The bad breath in my heart hasn't come out yet. 6 9 s h u x c o m

"Steward, I heard that Mr. Chen's daughter is very ill. I'll give her one pill first."

Before, I thought that everyone had divided them, but now it seems that he only has these four pills in his hand. Fortunately, they were not used up all at once.

"Yes, sir, the young one will go right away."

The housekeeper took a pill from his hand and turned away.

"you--"

Master Gong looked at the butler's figure, gritted his teeth, and stared at the master with scarlet eyes.

"Captain Wei, Miss Liu's medicine is working, and our town can be saved." The old man looked at Capt. Wei and said.

When Capt. Wei heard what he said, he let out a heavy breath, finally he was saved.

The reason why the county magistrate sent him here with the police before was to prevent the strange disease from getting out of hand and suppress it with force. Fortunately, the people in the town were still soft and did not cause trouble. What a big deal.

Now that he has life-saving medicine, he can finally let go of the breath he was holding in his heart.

"Liuzi, go and spread my message and tell everyone to pay attention and protect Miss Liu's safety. Don't let the common people rush into her." He told the policeman beside him.

The antidote was prepared, and now was the most critical moment. He was afraid that everyone would make too much noise in order to grab the medicine, which would make Lin Caisang anxious and make mistakes.

"Okay, boss." Liuzi accepted the order and went to find someone.

"Captain Wei, let me go over there and take a look." The old man thought for a while and followed Liuzi over.

That was his family's medicine shop, so it would be easier for him to come forward and keep the people calm. Moreover, he was still from Hongling Town.

"I also....."

When Master Gong saw him leaving, he wanted to follow him.

But before he could say anything, he was stared at by Captain Wei.

"Master Gong, where else do you want to go? Don't you think there's not enough trouble in Hongling Town? Just calm down and stay here!" Capt. Wei said rudely.
