

Star of Space 137

Chapter 137 In fourth place, please upgrade

"Yes, Palace Master, I am resigning.

"Go and get the Wind Spirit Whip from the Health Preservation Palace, and then get the Wanku Whip Technique."

Just when Ban Jue was about to leave to do things, he heard his palace master speak again. He gave up on his legs and turned to look at his palace master in disbelief.

"Palace Master, Wanku whip technique..."

It was hard for him to guess that the palace master ordered him to get the Wind Spirit Whip for the sake of the mulberry picking girl, but this Ten Thousand Dry Whip Technique... seems to be impossible for the mulberry picking girl to practice, right?

However, the things decided by the palace master are not something he can say no to.

"Yes, Palace Master."

He responded and went out holding his breath.

...

In the Golden Pearl Space, Lin Caisang was immersed in the jade books, looking at them all about poison techniques.

"Yu Jing, why are there so few poison spells here?"

After watching for a while, Lin Caisang raised his head to look at the jade mirror and asked.

She found that the jade books on poison techniques she read were all of the most elementary level, and they were all things she had already mastered. They were not of much help to her. At most, they were just a refresher on the knowledge she had learned before.

‘Medicine Technique – Breeding Technique – Planting Technique – Poison Technique – Kung Fu – Divination Technique – Organ Technique... Poison Technique is in the fourth place, please upgrade. ’

I saw a few lines of words displayed on the jade mirror, and Lin Caisang's head was covered with black lines. To upgrade, she had to have the time to upgrade. She couldn't eat a big hooves in one go, right?

“Haste makes waste, you know?”

He rolled his eyes angrily. Although he knew the truth in his heart, he still couldn't help but ask.

"Isn't there a better way?"

‘Haste makes waste. ’ Yujing replied with five words.

Lin Caisang: "..."

He actually used her words to block her!

"I know haste makes waste, but what's the point, right? Look at this society, this world, there are poisons everywhere. If I go to treat anyone, they are full of poisons."

She spread her hands and said.

It's not that she is anxious to take a big step and is not afraid of falling to death, it's just that this world is like this.

If she can't learn some poison skills, she will be poisoned by others one day, and she doesn't even have the ability to save herself, then isn't the game over?

"You don't want me to be poisoned when I go on a mission, right?" she asked.

'Enter the Golden Pearl Order before you are poisoned to death, and all poisons can be eliminated. 'Yu Jing said.

Lin Caisang: "!!!"

Is there such a good thing? Her whole body lit up.

"Can everyone do this? Isn't this detoxification too simple?" It feels amazing just thinking about it.

It's a pity that she thought too well. Just when she felt that the Jinzhu Space was too useful, when Ya Molian was in a coma, she could get him to slip into the Jinzhu Space...

"That's not right, there is no poison in Yamolian's body at all..." Qing.

Before she finished saying the word "Qing", when she looked up at the jade mirror, she saw four big words written on it: "Contract owner only!" '

Lin Caisang: "..."

Well, she knew it would be like this, how could such a good thing happen?

But it would be great if she could be safe and sound. She didn't ask for anything else. She had to make enough food and clothing by herself. Some things still had to be done by herself.

"Then I want to learn the poison technique. You can find a way for me, now, immediately, immediately!" She said to the jade mirror seriously and without refusal.

'mission failed.'

Four more words appeared in the jade mirror.

Lin Caisang: "..."

Please forgive her for almost choking to death on these four words.
