

Star of Space 1491

Chapter 1491 Theoretically?

"Because Wuji Prison is not as high-level as Lian Xinmai. You cannot rob Lian Xinmai by grabbing someone else. Of course, this person is limited to you, the master." Cai Que said frankly.

In this golden bead space, Lian Xinmai was born to protect the master. If someone wants to punish the master in the golden bead space, Lian Xinmai will immediately run out to protect the master.

Therefore, no matter what happens, it is impossible for the master to return to the Promise Prison.

"You mean, not just this time, but also the next time, and the next time, no matter which time I make a mistake, I won't be able to go back to the Promise Prison?"

Lin Caisang asked sharply, raising his voice.

"It seems, maybe, maybe that's the reason?" Cai Que chuckled twice and said.

Lin Caisang: "!!!"

She finally found a way to learn more, and suddenly a connection with her heart came out, which directly strangled her good wishes to death. What kind of thing is this?

This is equivalent to a fat man who, after being hungry for several meals, suddenly sees a large table of delicacies not far away.

Then he finally came to the table with frivolous steps. Just when he was about to start eating, he was poured a large basin of cold water on him. He opened his eyes faintly and listened to the person who splashed water telling him with clenched teeth:

Wake up, you've had enough sweet dreams, it's time to get up and get to work!

Why is there such a cruel reality, especially this reality, she actually told her: I am doing this all for your own good, you should thank me!

"What about the knowledge I want to learn?" She gritted her teeth and asked Cai Que?

"Knowledge? What's so good about that damn thing?"

Cai Que did not take it seriously and snorted in a disdainful tone.

"Master, let me tell you, Lianxinmai is more interesting than those useless things. You must have never seen it. Come with me."

With that said, Lin Caisang watched the colorful sparrow fly away into the distance.

She pouted and couldn't help but think to herself, what could be more important than learning more knowledge? She no longer believed in that evil.

However, since she couldn't go out anyway and had nothing to do, she had no choice but to follow Cai Que to have a look.

...

A few hours later.

Lin Caisang had to admit that what Caiqiao said was indeed much more important to her now than reading more books.

Quickly walking out of a transparent barrier, she raised her hand, wiping the sweat on her head with her sleeves, and came to Cai Que's side.

"Queque, am I the only one who can come in to this place?" she asked.

It turned out that Cai Que's so-called fun place turned out to be a waterfall, and as soon as she entered the waterfall, she could feel dangers coming from all directions.

The water that was originally falling straight down suddenly turned into water men holding sharp weapons, forcing them towards her.

She could only be forced to resist and beat the water man to pieces.

This is definitely the best place to practice!

It's just such a good place, but it would be too boring for her to practice alone. If she wants to go to Qianhuan Continent with Sui Zimo in the future, then the two of them must make progress together.

"This... Lianxinmai, in theory, can be entered by the master alone." Cai Que said.

"Theoretically?"

Hearing this, Lin Caisang blinked and looked at Cai Que.

"So from a practical point of view, can we still bring people in?"

she asked.

Chapter 1492 Of course...not possible

"It seems that's the case." Cai Que nodded.

"In other words, can I really bring people in?"

Hearing the news, Lin Caisang felt happy, as long as she could bring her brother Mo Lian in.

"That's what I said, but...Master, it will be a bit expensive for you to bring people in." Cai Que reminded her.

"Consumption..."

Hearing this word, Lin Caisang immediately thought of her already pitiful points.

Don't we need points again?

"You can earn points, it's nothing. Tell me, how many points do I need to bring someone in?"

She patted her chest grandly and asked.

"Master, take a pulse quickly. What you need to spend is not points." Cai Que said.

"What is the value of moral virtue or gratitude? Tell me?" Lin Caisang had already changed into a helpless expression.

Now, as long as she doesn't spend her Yin Virtue Points, she really hasn't made much money because of her Yin Virtue Points. She has to wait for her body to recover before she can hurry up and do more virtual tasks.

"It's... merit points." Cai Que said weakly.

Lin Caisang: "!!!"

WTF? Why is there another merit point? Where did these things with any value come from?

She's going to be dizzy, okay?

"How can I improve this merit score?" she asked, twitching the corners of her mouth.

"Merit points are very easy to earn, Master. As long as you teach others to learn, or when you treat others, the patients have made great contributions to the country, and they can also earn merit points. The premise is that you treat them for free. sick."

Cai Que immediately replied.

"Of course, if the master has enough money, you can also provide disaster relief, build bridges, pave roads, etc. These can also earn merit points."

Lin Caisang: "..."

She probably concluded that the so-called merit points are actually made of money.

"Then as long as I have enough merit points, can I bring others in?" she asked.

"Of course... you can't."

Just when Lin Caisang was about to take a breath, Cai Que changed his words and shook his head.

"Why not?"

Lin Caisang was about to get angry. Didn't he say it well before? Why couldn't he do it again?

Little Caique, please tell this girl clearly, otherwise, I will pluck your hair and roast it for you to eat. Do you believe it or not?

Her cannibal eyes were fixed on Cai Que.

"Master, you...what do you want to do?"

Cai sparrow can talk, so it is naturally spiritual. It is impossible not to feel how dangerous its master is now, so it hurriedly flaps its wings and moves away from her.

"Master, please listen to me first. In fact, it is not impossible. There is always a way. Just like the Jinzhu Pavilion, you are the only one who can enter, but if you really want to bring others in, , that's not impossible.

However, the Lianman Meridian and the Jinzhu Pavilion are different. What is needed there is Yin Virtue Value, while what is needed in the Lianxin Meridian is Merit Value. "

"You mean, as long as the person I want to bring in has high enough merit and enough merit points, he can come in?" Lin Caisang asked.

However, she couldn't help but ask herself, would her brother Mo Lian's merit score be a negative number?

There was no way, who told Jiulian Temple to be the place to do bad things? She didn't know if her brother Mo Lian had done a few good things, or in other words, it was actually too late to do it from now on. of?

Chapter 1493 All can be redeemed

"It's that person who often came to Jinzhu Space before, Sui Zimo. How many merit points does he have now?" she asked.

"That person's merit score is higher than yours." Cai Que replied directly to her.

Lin Caisang: "..."

She has saved so many people...well, all for a fee, especially those in high positions. Everyone feels that if she doesn't get a big benefit, then she wants to put them to death!

However, she also taught others, such as her brother, and Lin Chushui and the others. Aren't they all developing better and better under her influence?

How come Brother Mo Lian's merit score is higher than hers.

"Tell me clearly, why is his merit value higher than mine?!"

"Because he has done more good things than you!" Cai Que said innocently. 6 9 3 h u x . d d
m

"But he has killed more people than me... No, I have never killed anyone, and he has killed many people!" Lin Caisang said.

Although she knew it was not the time to care about this, she felt really unbalanced at the moment!

If she can't argue with her brother Mo Lian, then she can't argue with the little Caiqiao in front of her, so she can kill the boring time by the way!

"But it doesn't matter if the merit points are not related to the number of kills." Cai Que's voice became even more innocent.

Lin Caisang: "!"

By saying this, she understood that taking pulse pulse only counted merit, not demerit.

"Moreover, that person cooks for you every day and cleans the housework. These are all gratitude points that can be obtained from you."

Just when she was about to say something, she heard Cai Que speak again, and then added a sentence at the end.

"What does it mean to get it from me?" Lin Caisang asked.

Everything else is easy to understand, that is, you can get merit points for whomever you work for, including cooking and cleaning housework. There is nothing to understand.

But what does it mean to get it from her? There is no need to say this, right?

"That person takes care of you, and then allocates some of your merit points to him. Isn't this difficult to understand?" Cai Que explained.

Lin Caisang: "???"

Why is there still such a setting?

Although it is not impossible to allocate it from her to Sui Zimo, is it a bit too... bullying her?

"Then my merit points are pitiful?" she asked angrily.

"That won't happen." Cai Que quickly shook his head.

"Actually, the merit points are really not of much use to the master. They are just used to exchange for some skill books."

As for these skill books, in fact, the more the Golden Pearl Space upgrades, the owner will naturally know about them, and there will be no need to redeem them.

According to this, the merit points are actually not of much use to the master.

"Oh, by the way, every time the master wants to bring someone in to connect with the heart, he still needs some merit points, but whether the person you bring in only stays here for a moment or for a whole year, he only needs the same merit points. As long as he comes in once, that's fine."

After thinking about it, he explained it again.

"oh."

Lin Caisang nodded understandingly.

With this explanation, she understood.

"What kind of skill book can merit points be exchanged for?" she asked.

"That's a lot."

The colorful bird flapped its wings and flew to Lin Caisang's shoulder.

"There are mechanical books, kung fu books, divination books, medical books, poison books, planting techniques, breeding techniques, etc. Anyway, whatever books you want can be exchanged. It depends on what the owner needs."

It said.

Chapter 1494: Make him half dead

"Is there anyone who practices spiritual arts?" Lin Caisang asked.

"Spiritual skills are quite special. Master, you have not yet cultivated the spirit. You must get the book to start spiritual wisdom in Jinzhu Pavilion before you can redeem the spiritual skill book in Lianxinmai. Moreover, the spiritual skill book in Lianxinmai is only applicable to It applies to you, the master, and not to others."

Cai Que said.

Okay, Lin Caisang curled his lips, asking was in vain, he still had to do virtual tasks.

"Didn't you say there was a bed? Where is it? I'm going to take a nap."

She was sleepy and hadn't slept for several days. She had been enduring the pain in her body and studying.

"Master, please take a look.

As soon as Cai Que finished speaking, Lin Caisang felt a colorful streak of color flash across her eyes, just like the colors on Cai Que's body, and a rainbow bed was set up directly next to her.

"This is really... simple and crude." But she liked it.

Looking at the 'bed', she raised her hand and touched it. It was still warm, so warm that she could sleep without a quilt.

Finally able to get some sleep, she lay down on her without any ceremony, and fell into a deep sleep after a while.

"Hey, Master is really tired. Fortunately, Lian Xinmai was opened early, otherwise Master would still be suffering in the dark enchantment." Cai Que looked at the sleeping Master, sighed faintly, and flew gone.

...

As if he had slept for a long time, Lin Caisang woke up in a cold sweat.

"Well!"

She felt that the pain that had subsided started to spread towards her limbs and bones again, until she could no longer bear the pain.

She knew that this was caused by the poison in her body acting up again, which was caused by the so-called Golden Pearl Space being detoxifying her again.

At this time, she couldn't do anything but let the poison in her body take effect, and she could only endure it.

"It's so painful that it doesn't pay off. Don't let this girl know who poisoned you. If you let me know, I'll kill him too!"

She whispered into the air while enduring the pain in her body.

Although the poison on Sui Zimo was given to him by Concubine Lian, the person who secretly ordered it was the emperor, and behind the emperor was the person they had always wanted to know.

Now she and Sui Zimo have no idea who that person is.

But the Yin Baiqing in their hands, as long as that person still wants Yin Baiqing, it is impossible not to show up, then they will definitely have a chance to avenge the poison.

"When the poison... is cured, I will make a lot of poison and wait for that bastard to find it and put it all on him!"

As she thought about it, she felt that the pain in her body had subsided a lot.

...

Among the Shuiyin Mountains.

Ban Jue followed the man from Qianhuan Continent, who was seriously injured and poisoned, to the lushest peak on Shuiyin Mountain.

"Idiot, you can't even deal with an individual, what's the use of me raising you!"

Even though he was far away, the sound that he could hear was not clear, but because he was under the wind, he could still vaguely hear some words, especially the curse words, the tone was particularly strong, so he naturally heard them. It's crystal clear.

The voice didn't sound like someone who was seriously injured and poisoned. Was it another person scolding the person he was following?

"Master, please listen to my subordinate's explanation. Sui Zimo is not as simple as Emperor Wei reported to you. None of the beasts he raises in his house are good."

Chapter 1495 Those two can only die!

The man in black, who had suffered a loss in Prince Mo's Mansion, knelt in the grass and said to another person.

Looking from the direction of the banishment, one could only see the back of that person, and nothing else could be seen, but one could vaguely feel the chilling aura on that person's body.

He could only hide himself deeper so that they could not feel his presence.

"Sui Zimo will always be just an ant in my hand! You can't do things yourself, how dare you have the ambition of others?" The man was very angry, as if he would tear off the man in black's head in the next moment. Similar.

"Look at you, what have you become?"

Looking at the subordinates in front of him, his brows were twisted into knots.

When his subordinates lose face, doesn't it mean that he loses face? How could he tolerate this kind of thing?

I couldn't help but wonder, is Sui Zimo really that powerful?

Why doesn't he believe it?

"Tell me, what's going on?"

"Master, my subordinates went to investigate Prince Mo's Mansion that day. Before they could see anyone in the mansion, they were blocked by a black panther and a white fox.

The man in black replied respectfully to the man.

"Originally, my subordinates didn't care. They are just two wild animals. Just kill them. How could you know...

These two wild animals are not simple at all. They are like spiritual pets on the Qianhuan Continent. They are particularly spiritual. The subordinate's injury was caused by the black panther. Moreover, the subordinate never expected that one of them would be injured again. An ordinary white fox, even its claws are poisonous! "

This was something he never expected.

If he had known from the beginning that the white fox was actually poisonous, no matter how seriously injured he was, he would have caught the white fox and presented it to his master.

"Injured by a black panther..."

There was immense disgust in the man's words.

How could he tolerate his subordinates being no better than a leopard raised by Sui Zimo?

This ironclad fact really made him breathless!

The man in black was secretly shocked when he heard his master's voice of disgust. He knew very well what kind of person his master was.

The master would not keep subordinates who were of no use, so he hurriedly explained.

"Master, I never thought that the white fox was poisonous and was injured by the black panther later. However, don't worry, master. Once the subordinate is healed, I will go to Prince Mo's Mansion to capture those two. I will honor my master."

"laugh."

The man sneered.

Will he be able to appreciate the little thing Sui Zi Mo has in his hands?

There were so many spiritual pets lining up in Qianhuan Continent, waiting to be his pets, but he didn't care. The two Sui Zimo had no choice but to die!

"Where's Yin Baiqing?"

Regardless of other things, he just wanted to know the whereabouts of Yin Baiqing.

Was it really as stated in the message that he was taken away by Sui Zimo?

If that was the case, then even if he had to take action personally, he would still get Yin Baiqing back. Yin Baiqing could die, but she must not fall into the hands of Sui Zimo!

"This... my subordinates haven't found it yet."

The man in black spoke for a moment, and finally could only grit his teeth and reply.

"But according to what Emperor Wei and our Princess Yi said, there is no doubt that Yin Baiqing is in Prince Mo's Mansion."

"should?"

The man's eyes flashed with a dangerous light.

"What I don't like to hear the most is the word "should"."

What shouldn't be said by others is just empty talk. They haven't seen it with their own eyes, so how can they tell the truth!

Chapter 1496 Don't let Sui Zimo survive that night!

"Master, Princess Yi, is ours.

The man in black was surprised when he heard what he said, raised his head and looked at him, reminding him.

No matter what, Princess Yi is one of their own, right? That woman would not dare to lie to them. Her and Prince Yi's life and death were still in their hands.

How dare she lie to her master?

"How many years have you been by my side?"

Suddenly, the man asked him.

Hearing these words, the man in black felt a chill on his back, and dense cold sweat broke out.

"I understand. I will investigate the facts personally and will never easily believe anyone's words."

"Um.

When the man heard what he said, he responded lightly to express his satisfaction.

"Master, what should we do after we find Yin Baiqing?" the man in black asked.

"kill!"

The man gave him a questioning look and uttered a word coldly.

"My subordinate understands."

The man in black heard his words and responded.

"When Yin Baiqing is found, I will not let Sui Zimo survive that night!"

He said harshly.

"idiot!"

When the man heard his words, he gritted his teeth and cursed.

If he hadn't had something for this idiot to do now and couldn't kill this idiot directly, he would have done it long ago!

"How many times do I have to tell you that Sui Zimo cannot die!"

"hiss.

Even the man in black couldn't help but gasp.

Sui Zimo cannot die, so the person the master said he wanted to kill was Yin Baiqing?

That boy belongs to the master...

How could he kill his own relatives at every turn?

However, this doesn't seem to be surprising. The master has always been cold-blooded and ruthless. It doesn't matter if he kills a relative who is not his blood relative, right?

"My subordinates understand that once Yin Baiqing is found, he will be killed without mercy!"

"Um."

The man responded.

It's just one Yin Baiqing. He can get as many Yin Baiqing as he wants. As long as Sui Zimo doesn't die, his great wish can still be realized.

"If Yin Baiqing is not in Sui Zimo's hands, then he doesn't need to be killed."

After thinking for a while, he added another sentence.

But this possibility is almost non-existent. Yin Baiqing must be in the hands of Sui Zimo, but I don't know if Sui Zimo found anything from Yin Baiqing.

If found...

This is really difficult to handle. Sui Zimo really gave him a huge problem!

"Has Sui Zimo done anything unusual recently?" he asked.

"Back to Master, Sui Zimo chased his subordinate once a few days ago, but he used poison to fend him off. Now, he should still be raised in his mansion."

The man in black said.

"Did you use poison?!"

The man's voice couldn't help but become louder, and there was a hint of displeasure between his eyebrows.

"This is."

The man in black also felt his master's displeasure, but he still had to answer.

Who made Sui Zimo's ability too powerful? And he was injured at that time. If he had to force himself, he would definitely die in Sui Zimo's hands.

The master will definitely not care whether he dies or not. If he dies, the master can still send others to the deserted continent.

But he doesn't want to die yet!

"Damn it! Who told you to use poison on Sui Zimo?!"

When the man received his confirmation voice, he rushed towards him with overwhelming anger.

Chapter 1497 Even Sui Baiyin is the same!

Because he needed to better control Sui Zimo, Sui Zimo had already been poisoned with Yin poison. Now every time he uses poison on Sui Zi Mo, it is possible that the Yin poison will be drawn out.

That was not a toxic episode that you could just get through!

"I want Sui Zimo to live. Don't you understand, you idiot?"

He gritted his teeth and asked the man in black.

If Sui Zimo could die if he said so, he wouldn't care at all. Why would he bother to put in so much effort to poison Sui Zimo?

Isn't it just to allow Sui Zimo to have better control in his hands?

"Master, my subordinates don't understand. Sui Zimo is now out of control. Master, why...why don't you just kill him?" The man in black couldn't help it anymore and raised his doubts.

Judging from these few confrontations, Sui Zimo was far beyond the control of his master.

For such a person, he didn't understand why the master kept him?

Could it be that the master kept him just so that one day, Sui Zi Mo Lai would rebel against the master?

"When will it be your turn to question me about this matter?" The man looked at him displeased and asked coldly.

"If I let Sui Zimo live, he must live. If he suffers even half a loss, you don't have to come back. Just stay there and be buried with Sui Zimo! Do you understand?"

Hearing this, the man in black gritted his teeth and responded.

"My subordinates understand, there will never be a next time."

"Just understand."

The man nodded with satisfaction.

"Leave all the antidotes for Sui Zi Mo with Emperor Wei, and tell that old guy to deliver them to Prince Mo's Mansion without landing once. If you don't deliver them even once, I will ask for one of his fingers!"

"Yes, Master." The man in black responded.

He now suspected that this year-old Zi Mo had some shady relationship with his master.

Otherwise, why would the master still be so partial to someone he clearly has little control over?

What the master means now is that as long as Sui Zimo is fine, it doesn't matter whether the others die or not. He doesn't care at all, does he?

Even Sui Baiyin is the same!

"Master, my subordinate also inquired about something." He said to the man.

"What's the matter?"

"More than ten years ago, there was someone who escaped from Qianhuan Continent. My subordinates found out that she was the eldest princess of the Liang Kingdom, and... she now has a son and a daughter who are about to reach adulthood."

"oh?"

A man's voice was rarely full of interest.

He knew about the woman who escaped from Qianhuan Continent and ascended to heaven, but he didn't know which one she was.

But she didn't expect that she was the eldest princess of the Liang Kingdom.

When he took Sui Zimo to Huanglu, he also thought about sending him to Liang Kingdom.

It's a pity that Emperor Liang is a tough guy, and the royal family of Liang Kingdom is also upright and upright, so he can't do anything even if he wants to.

He had no choice but to settle for the next best thing and choose the greedy Emperor Wei.

"People who escaped from Qianhuan Continent can actually have a son and a daughter. This is really... haha." He chuckled twice, thinking it was really incredible.

"That being the case, let Emperor Wei ask for the eldest princess's daughter and send it to Sui Zimo." He ordered.

"What?!"

The man in black looked at his master with wide eyes as if he had heard some fantasy.

Chapter 1498 I understand

What on earth was the master thinking, sending Princess Liang's daughter to Prince Mo's Mansion to be given to Sui Zimo?

No matter how bad that little girl is, she is still the biological daughter of Princess Liang. How low can her status be? Does the master want Liang Guo to support Sui Zimo so that it will be easier to deal with Emperor Wei and themselves?

I really don't understand what the master is thinking!

"Master, that is Princess Liang's daughter. She..."

"Do you want me to repeat it again? Huh?"

Interrupting his subordinate's words directly, he narrowed his eyes and asked coldly.

"No, I understand, I will take care of it now." The man in black changed his words and immediately responded.

No matter what the master is thinking, it is not something that one of his subordinates can ask. Perhaps, after hearing that Princess Liang escaped from Qianhuan Continent, the master thought of some better idea to deal with Sui Zimo?

This is also unknown.

"It's just... Master, there is a female doctor by Sui Zimo's side now. According to Emperor Wei and Princess Yi, the female doctor's medical skills are very good. My subordinates are worried..."

"What are you worried about? Huh?"

The man cut off his words again.

Are you worried that the poison in Sui Zimo will be cured?

Can the poison in Qianhuan Continent be so easily solved?

What's more, the poison he put on Sui Zimo could not be cured by just bringing in any doctor from Qianhuan Continent.

"Since it's as powerful as you said, then... let's get rid of it."

he said again.

He only needs Sui Zimo to be alive, and it is better to have fewer people around Sui Zimo, especially the powerful ones.

"Yes, I obey my orders." The man in black responded.

...

After a while, the man in black had left.

But Ban Jue, who had been hiding far away, still didn't dare to move, because the person who had spoken to the man in black before was still standing there, motionless like him.

After a long, long time, it seemed like a century had passed.

In fact, it was only an hour's work. Ban Jue couldn't bear it any longer and murmured in his heart: This man must be stupid. He could stand alone for so long in this barren mountain.

Is he preparing to stand like a stone sculpture?

However, it didn't take long for him to understand.

It turned out that it was not the man standing there motionless, but...

It was just an image, not a real person at all. When the man in black spoke to him just now, he was only speaking through this image.

"No wonder he heard such an angry voice, but he didn't even move a finger on the man in black!" It turned out that it wasn't that he didn't want to move, but that he couldn't move.

That means that even if he stood closer, as long as the man in black didn't notice him, this man wouldn't be able to notice him, right?

In this way, he felt relieved.

After taking another look at the image, he turned around and left the Shuiyin Mountains.

...

"That's just the way it is."

In Prince Mo's Mansion, after returning from exile, he told his prince everything he saw and heard in the Shuiyin Mountains.

"I don't want to keep any emotion, but I must keep you. My lord, it seems that your status is not low in that person's heart."

The first half of the sentence is serious about talking about something, but in the second half, it becomes different, almost becoming a joke.

Chapter 1499 Nothing happened

Yes, that man didn't even want to keep Yin Baiqing, just because Yin Baiqing might come to his prince's side.

It can be seen that there is something important in Yin Baiqing, which the man does not want his master to know, and it just so happens that Yin Baiqing is in Prince Mo's Mansion.

Only then did he issue the killing order!

But what is it about his prince that can make him like this?

"Want to know why?"

Sui Zimo looked at the expression on Ban Jue's face and raised his eyebrows and asked.

Hearing this, Ban Jue nodded immediately.

He really wanted to dig something out and see what that man wanted his prince to do.

"If you want to know, hurry up and find the person, and you will know everything." Sui Zimo stared at him and said quietly.

Banishment: "..."

How can he catch people out of this?

Let alone whether he can find that man, even if he can beat him, he and that man are separated by a landmass. How to catch him?

"My lord, please don't embarrass your subordinates. I don't have that ability."

He said with a sad face.

"If you don't have the skills, then learn the skills."

Suddenly, a crisp voice rang from their ears. Wingdings: 

After Sui Zimo heard the sound, he immediately stood up and walked in that direction.

"Sonny."

Before he even got close, he reached out and pulled the person over, hugging her tightly into his arms.

Ban Jue and Jiang Zuo on the side looked at each other knowingly, then turned around and went out.

"I'm fine, nothing happened."

Lin Caisang was in his arms, stretched out her hand and patted his back, comforting him.

She knew that he was worried about her, but this matter had to happen like this, and there was nothing he could do even if he was worried.

Fortunately, her body was well maintained, and she practiced kung fu at the waterfall and strengthened her body. The poison in her body was detoxified faster.

So she came out in just seven days.

You know, according to Jin Zhuling's words, if the poison introduced from her body can come out of Jin Zhu's space in half a month, then she is very lucky.

Little did she know that when the Lianxin Meridian was opened, she would shorten the time by double.

"Don't do that again, Sonny, I'm worried."

Sui Zimo still hugged her, but his arms were still a little looser, fearing that hugging her too tightly would cause damage to her body.

In fact, he was not worried. Although he was worried, he also knew that nothing would happen to Sonner in the Jinzhu Space. He was just suffering from the fact that he knew that he was the one causing Sonner the pain, but he could not stop it!

"Okay, there will be no next time. I have already studied the poison on your body, and I will not use this method again." Lin Caisang promised.

In fact, this method can only be used when there is no other way.

Not only could she not afford to spend up her points, but she herself couldn't bear it. After being locked up for a few days, even though her treatment in the following few days was quite good, she felt that she had lost more than one lap of weight.

When she returned home, she didn't know how to explain to her grandpa and grandma.

"Brother Mo Lian, I'm... hungry."

She touched her belly and said with a flat mouth.

"I'll cook it for you, you... you go with me and wait in the kitchen."

Originally, he wanted her to wait here, but after thinking about it, he hesitated and decided to let her go to the dining room with him.

Lin Caisang: "..."

Chapter 1500 But she is in a hurry!

Do you want her to watch it first, feast her eyes and then sing with her belly?

Okay, she endured it.

Just go, her stomach is not important right now, comforting her brother Mo Lian first is the most important thing.

...

Yacun.

Sui Zimo still didn't come with her.

But the two of them made an appointment, and when she went back to meet him, they set off to do a few more virtual tasks for him, trying to get to Jinzhu Pavilion as soon as possible to get the secret book of spiritual cultivation.

That way, Lin Chushui wouldn't have to wait in Yacun all the time. She knew that Yue Chong and Luo Mianyi were already impatient with their waiting.

"Sangsang, why have you lost so much weight?"

Knowing that Lin Caisang was back, Yue Chong and Luo Mianyi came down from Menghuang Mountain and sat down to have dinner together.

Lu Qiubo felt heartbroken when he saw that his granddaughter had lost a lot of weight after only being away for a few days. He wished he could put all the good things on the table into his granddaughter's bowl.

"In the mountains, there is nothing to eat or drink, but it will be good when we come back. Grandma will make up for it for me."

Lin Caisang smiled and said half-jokingly.

"Yes, make up for it and eat more." Lu Qiubo responded seriously while putting the chicken into her bowl.

Suddenly, a chicken leg fell from the sky and was placed in Lin Caisang's bowl. She looked sideways and saw Lin Chushui beside her, who seemed to hesitate for a long time before placing the drumstick into her bowl.

"Sister Sangsang, thank you for your hard work. Eat more," he said.

"good."

Lin Caisang gave him a big smile in return.

"Although we haven't collected all the things that should be collected, it's almost enough. Chu Shui, in a few days, you can go back with your parents. If you take a look in the next few days, you are still bringing What to go back to?"

She glanced at Yue Chong first, then at Luo Mianyi, then looked at Lin Chushui again and said.

"Um."

Lin Chushui lowered his head and responded softly.

It could be roughly heard from his voice that he was actually reluctant.

But the thing was there, his parents were waiting to take him home for reunion, there was no way he could stay here forever.

"Sister Sang Sang, you can wait a few more days. I'm not in a hurry. You can wait until grandma has nursed you back to health, and then you can take care of my affairs."

After thinking for a while, he said again.

Yue Chong: "..."

As expected, the son is from someone else's family. This statement is absolutely correct.

Luo Mianyi: "..."

The son is not in a hurry, but she is!

There are two little ones waiting for her to take care of at home. How could she stay here forever?

"Chu Shui, actually our family really doesn't lack anything, otherwise..."

"Mom, are you in a hurry to go back and see your brothers?"

"Well."

Before she could finish her words, she was stopped by her son's words. Luo Mianyi's face turned red and she didn't answer the question.

"There's no rush, and neither is mother."

Although she had become familiar with her son in the past few days, when it came to her other two sons, she could feel Chu Shui's discomfort and resistance.

Therefore, when talking to Chu Shui, she tried to avoid mentioning her two young sons.

However, although she didn't need to mention it, she still thought about it in her heart. It was the flesh that fell from her body. If she didn't feel sorry for him, who would? She felt equally sorry for her three sons.

"Miss Lin, if you have anything to prepare, just prepare it slowly. We are not in a hurry here. We really are not in a hurry."
