

Star of Space 1511

Chapter 1511 Becoming stupid and unrecognizable

Unexpectedly, I would hear Mo Tong's name again today.

"I wonder what sister has to ask for?"

she asked.

"I....."

Upon hearing the word appeal, the woman's eyes began to turn red, and the next moment, big tears fell down.

Lin Caisang: "..."

She turned her head silently and looked at Sui Zimo.

It seems that she didn't say anything. Does this expose someone's sadness?

When Mo Tong was killed so miserably, he didn't cry like this. Is this... more pitiable than Mo Tong?

However, those who could be forced to come to their Wuzhu Teahouse were not desperate. She could understand their mood.

"Sister, don't be sad. Let's talk about it first. Crying won't solve any problems."

She didn't want to speak so coldly, but that was the fact. Perhaps, if the woman delayed for a moment longer, she would be in danger for a moment longer.

"I...girl, I...I'm sorry." The woman wiped her tears and apologized to Lin Caisang first.

"It's like this. Two months ago, my husband-in-law, my father-in-law, and my two children went to a county to visit relatives. I was quite happy to find relatives I hadn't seen for many years, but how could I know...

Since we arrived there, strange things have happened in that town every day. Gradually, my little daughter has become stupid and stupid, and she doesn't even recognize anyone.

Then came my eldest son. Not only did they become stupid and unrecognizable, but they also had no memory at all. Their faces were expressionless and they refused to eat or drink. It was really scary, so scary. "

Thinking of the scene she saw in that county town, she couldn't help but tremble all over, and even her lips turned purple and black. It was because she was frightened.

"Well, what then?"

Lin Caisang asked while pouring her another cup of tea,

"My husband-in-law noticed something was wrong in that place and ran out with all his life to protect me. But when we got to the gate of the county town, I came out, but I believed him... He also became like my eldest son and youngest daughter.

I dragged him desperately, trying to get him to run away with me, but he ignored me, threw him away, and went back to the county seat. "

The woman swallowed and continued.

"After that, I asked many people to go to that county to rescue my husband-in-law and his two children, but none of them came back... I had no choice but to ask for help everywhere, and then I met Mrs. Mo Tong.

She asked me to come to Wuzhulin to ask for your help. She said that you are very powerful and that no monsters or monsters can be your match. "

Lin Caisang: "..."

This Mo Tong must have praised her and Sui Zimo to the heavens.

"Then what is your request, to save your husband and two children?" she asked.

"no no."

The woman shook her head after hearing her words.

"Girl, I...I want to ask you to find out why that county turned into that. If you can, please save all the people in that county. They are really pitiful."

Yes, it can't be pitiful.

Everyone is neither eating nor drinking, as if they have been possessed, that is, they will starve to death!

"Have you found out anything strange about that county?"

Lin Caisang glanced sideways at Sui Zimo, and when he nodded, she continued to look at the woman.

"Okay, then it's settled."

No matter what the task is, she has to do it anyway. Does she still have the right to choose?

Chapter 1512 Gusts of dark wind

The answer is of course impossible!

How could Jin Zhuling let her choose her own tasks? It would be good to keep giving her tasks.

Pick, she should stop having sweet dreams, wake up and get up to do the task.

...

After riding in a carriage for a whole day, almost breaking people's bones, Lin Caisang and Sui Zimo arrived at a very remote place under the guidance of the woman.

"Is this a county seat?"

Lifting the curtain of the carriage, she looked up at the county that was defined as very large in her heart.

In fact, it is not as big as a cliff village.

But although it is about the same size as Yacun, it has a city wall, so it can naturally be called a county town.

However, looking at the surrounding areas of the city wall, they were all taken over by weeds. They were so tall that she guessed they were as tall as her. This showed that no one had taken care of them for many years.

"How dare you walk into such a place?"

She looked at the woman in the carriage and asked her.

"Well."

The woman choked at her words and turned red.

"Originally I didn't dare, but...but I was really desperate. My husband's business was destroyed, so I had to borrow some money from my relatives, and that's why I came here."

If it was normal, how could she dare to come to such a place?

"oh."

Lin Caisang nodded.

No wonder, it turned out to be money.

As the saying goes, people will die for money and birds will die for food. This is also a normal thing, not to mention when you are desperate, you want to fight even more.

"Girl, is it...shall I go in with you?"

she asked quietly.

"No need."

Without waiting for Lin Caisang's reply, Sui Zimo directly rejected her proposal.

"Don't go in. It's useless if you go in. It would be bad if you accidentally become like the people in the county." Lin Caisang also said.

This woman is the initiator of the mission. If she dies, will her mission be considered completed or failed?

Therefore, while completing the task, protecting the woman is also the most important thing.

"You drive the carriage and stay at Mo Tong's house. After we finish our work here, we will come to Mo Tong's house to find you," she said.

"Oh, okay, okay."

The woman responded repeatedly. Although she was thinking about her husband and two children, she also wanted to enter the county town.

But she knew even more clearly in her heart that if she went in together now, she would cause trouble for the two people in front of her, and nothing would happen at all.

So, she'd better leave and stop causing trouble to them.

...

In the county town.

As soon as he stepped in, he felt gusts of cold wind blowing into his neck.

The next moment, a cloak fell on her shoulders, and Sui Zimo's warm voice came from above her head.

"Dropped."

"Um."

Lin Caisang responded.

"Brother Melian, this place has..."

"Demons."

Sui Zimo took over what she said.

With such a cold breath, it is impossible even for ghosts, it can only be demons.

Having done a lot of virtual missions, I naturally understand the situation here. The demons have lived in the ice and snow all year round, and a cold aura has naturally formed on their bodies.

"Yes, demons."

Lin Caisang nodded seriously.

Apart from the demons, no one else can be thought of.

"There's someone there."

Coincidentally, as soon as I entered the county town, I saw a person who looked like a zombie, walking over here, but as soon as he reached the place where he didn't touch the county wall, he turned around again and left.

Chapter 1513 What we eat is human flesh

Lin Caisang: "..."

This man is really just like the woman described, completely unconscious.

Two big living people like them were here, but they didn't react at all, and there was no wave in their eyes.

"It's breathing, it's still alive." Sui Zimo led her directly to the man's side.

Lin Caisang had a pair of leather gloves on his hands. After putting them on, he directly grabbed the man's wrist.

"Has a pulse."

Then she raised her hand and placed her hand on the man's heart.

"Brother Melian, he has no heartbeat."

Now, she was almost shocked. She couldn't imagine that a person had a pulse, but no heartbeat.

Without a heartbeat, how did this person have a pulse and breath?

Sui Zimo also put on a pair of gloves, raised his hand and pinched the man's lower jaw, then looked into the mouth.

"This man ate less than an hour ago."

He said to Lin Caisang.

"Um."

Lin Caisang responded.

"Ignore him first, and then see if other people are in the same situation."

"good."

Sui Zimo directly let the person go.

The two walked inside for a while and met a few more people, but they were all in the same situation without exception.

"Brother Mo Lian, you said that if a person has just eaten, it is possible that he has just been killed like this, but everyone we meet is like this. Isn't it a bit too coincidental?"

Lin Caisang raised his hand, held his chin, and asked him.

Could it be that they were so lucky that all they met were people who had just been murdered?

This is impossible, knowing that there are people in this county who have never returned, how can there be so many people coming to seek death? That is definitely impossible.

"There are people feeding them all the time." Sui Zimo said with certainty.

Otherwise it couldn't have been such a coincidence.

"Just follow them and they will eventually be found."

"right."

Lin Caisang nodded.

Anyway, they have plenty of time, so no matter what, just follow these people first and see where they go, then you will know?

...

A few hours later.

"What is this sound?"

Along with a harsh sound, Lin Caisang and Sui Zimo discovered that the people who were wandering leisurely on the street were all rushing to the same place.

Although there was still something on their faces, there was a hint of haste in their steps.

Moreover, the mouth that was originally closed was slightly opened, revealing sharp teeth.

"Follow up and have a look."

Sui Zimo took Lin Caisang into his arms, and the two of them followed the others.

"hiss!"

When they arrived at that place, not only Lin Caisang, but also Sui Zimo couldn't help but gasp.

I saw several long tables in a courtyard. There were warm meals on the long tables, all of which were mixed with rice and vegetables. Those thoughtless people were scrambling to eat them one by one. .

It's like eating something delicious.

At first, Lin Caisang thought that these harmful demons were pretty good. At least the dishes in their meals were all meat.

Although these people are thoughtless, their treatment is pretty good.

But later, she discovered it.

As a doctor, his nose is extremely sensitive. Although the meals are all cooked, the aroma of each kind of meat is still different.

As a modern person who has eaten countless kinds of meat, Lin Caisang had to draw a conclusion in his heart.

What those people eat is human flesh, nothing else!

Chapter 1514 Is it easy to attack us?

"This...this is too cruel.

She gritted her teeth and watched those people eating with big mouthfuls and grabbing the food with their hands.

"Brother Melian, are we going to... stop it?"

She looked at Sui Zimo and asked.

"It can't be stopped." Sui Zimo shook his head.

There were only two of them, but there were many people in the yard. How could they stop them?

And these people are thoughtless. Even if they pull people back, what's the use? As long as they let go, these people will rush towards the food again.

"While everyone is eating, let's take a look at a few more points." He suggested to Lin Caisang.

Come to think of it, although this county is not big, it is unlikely that there are only such a few people.

There must be several places like this courtyard, otherwise these thoughtless people would have overcrowded the courtyard.

"good."

Lin Caisang responded immediately.

The two turned around and left. After a while, they found four other similar courtyards in the county.

The scene inside was exactly the same as the first courtyard. All the thoughtless people were eating there with gusto, and they wanted to eat the basin on the table together with the table.

But after searching around, I only saw those thoughtless people eating, but not a single thoughtful living person or demon.

"Those people can't deliver food here without leaving any traces, right?"

This doesn't make sense.

"We arrived suddenly. Those people must be hiding." Sui Zimo said.

Lin Caisang: "..."

What's the use of hiding it? They're already here. Do they still want her and Sui Zimo to spend time with them here?

"wrong."

Suddenly, her expression changed.

"Brother Mo Lian, are those people hiding themselves so they can attack us?"

She looked at Sui Zimo and asked.

Come to think of it, this is the only possibility. According to the woman, after she ran away from the county, several groups of people entered the county.

But later, people nearby noticed something strange about the place.

Then, people took turns guarding outside the county town, and no one came in after that. She and Brother Mo Lian were the last two people to come in.

"maybe."

Sui Zimo responded lightly, and his slightly narrowed black eyes scanned the surroundings.

"Sonny, find a place to live first. I have a feeling that the problems in this place cannot be solved in a day or two."

"Um."

Lin Caisang also nodded.

She and Sui Zimo have also done many tasks, and they know that the demons are the most difficult to deal with.

And it's really weird here.

...

"Just live here."

In an ordinary yard, Sui Zimo tidied up a dusty room.

"The two of us share a room," he said.

"Um."

Lin Caisang naturally had no objection.

She was afraid that she wouldn't be able to sleep at night if she didn't live in one room. She was scared.

"Brother Mo Lian, although I can feel the aura of the demons, I really can't sense where they are. What should I do?"

"Because in this county, the scent of demons is everywhere."

Sui Zimo said to her, took out some cakes from the package and handed them to Lin Caisang.

"Eat something first."

Lin Caisang nodded and raised his hand to take the cake in Sui Zimo's hand.

Chapter 1515 Almost got her trapped

But as soon as I stretched out my hand, I remembered the meat and rice that I had seen in the yard before, and suddenly I lost my appetite.

"Forget it, I won't eat. I have no appetite."

She can't eat anything now, and everything she looks at feels like looking at human flesh!

"Then eat an apple."

Sui Zimo didn't force her to eat the cake, but took out another apple and handed it over.

No matter what it is, you have to eat something. Otherwise, if you are hungry, how will you have the strength to deal with the demons here?

"Don't think about that, think about it, this is just a task, a virtual task." He said to her.

Hearing this, Lin Caisang took a deep breath and nodded.

Yes, this is a mission, and it is a virtual mission. Those human flesh are actually virtual, right?

She comforted herself like this, then reached out and took the apple into her hand, made a 'click' sound, and took a bite.

"This apple is so sweet, Brother Melian, you want to eat it too...who!"

"who!"

Two voices sounded at the same time. Sui Zimo and Lin Caisang both felt that someone was peering at them from outside, and they shouted loudly outside.

Putting the apple in his hand on the table that had been wiped clean, the two looked at each other and chased out.

"There was obviously someone there just now, but now, there is no movement at all."

After staying in the yard for a while, they didn't notice any movement, as if it was just their illusion.

But is it possible for two people to have an illusion at the same time?

The answer is of course impossible.

"Go back first, you can always catch him." Sui Zimo raised his hand and patted her face and said.

"good."

Lin Caisang responded, and the two of them walked back.

"This apple is delicious, Brother Melian, you should eat one too."

As she said that, she picked up the apples on the table and prepared to continue eating, but unexpectedly...

A big hand cut off the apple that was about to be stuffed into her mouth. She looked doubtfully at Sui Zimo who stopped her, then slowly retracted her gaze and placed it on the enlarged apple in front of her.

Lin Caisang: "..."

What kind of trap was this prepared? He almost got her into it.

"Brother Mo Lian, it seems that we really have to be careful."

Putting the apple back on the table, she sneered and sat down on the stool.

It's really hard to guard against, isn't it?

Who would have thought that the demon they noticed just now was deliberately letting them notice it, just to sprinkle medicine on her apples.

Of course, that person's purpose may not have been this in the first place.

After all, no one could have predicted that she might put down her food while chasing the enemy.

But the impromptu uprising was able to almost trap her.

"yes."

Sui Zimo nodded, took out an apple from the bag again, and handed it to her hand.

"Eat this."

His baggage has always been on his back and has never left it. As expected, this place is really full of pits, and you have to be extremely careful every step you take.

"After you eat, I'll catch a few people and you can take a look."

"good."

Lin Caisang responded and started eating again.

And the apple that she had taken a bite of before and could no longer be eaten was also put away by her.

After she finished eating, she wanted to find out what kind of poison was on that apple!

...

Not long after, Sui Zimo came back with two unconscious people, and two more were not only unconscious, they had fallen down and were not even breathing.

Chapter 1516 A shocking secret

After tying them up, they threw them away in the yard, and then called Lin Caisang over.

"Sonny, there's something strange about these people."

"What's weird?"

Lin Caisang asked as he walked over.

There is no one in this county who is not strange. They are all very strange.

"When I was on the street just now, I saw these two people walking fine, but they fell to the ground after a while. After falling to the ground, they immediately stopped breathing."

Sui Zimo looked at the two motionless corpses and said.

"Um?"

Lin Caisang also looked at the two corpses and raised his eyebrows.

Squatting down, she reached out and opened the mouth of one of the corpses, and looked inside the mouth.

"They were eating those meals in one of the five courtyards just now," she said.

"right."

Sui Zimo naturally did not deny what she said.

Although there were too many people in the county town, he couldn't remember whether he had met these two people before, but he was sure that these two people were eating before, because there were traces of grabbing food on their hands and on the sides of their mouths. Oily.

"Brother Mo Lian, please move them to another room. They are not breathing anymore. They are really dead."

Of course, only death would allow her to study it better. If it were like the other two alive, she wouldn't know what to do.

Because although these people have no thoughts and no heartbeat, judging from the pulse, there is almost no pain in their bodies, and they don't look like they have been poisoned.

"good."

When Sui Zimo heard her words, he immediately picked up the two bodies and put them in another room that they had almost tidied up.

Lin Caisang stood up and looked at the two thoughtless people who were tied up. They were tied up like this, but the two feet that were not completely tied were still moving, as if they were still there. As if walking.

"hiss!"

She suddenly felt a chill coming from the bottom of her heart, and thought to herself: Isn't this too evil?

After shivering, she looked at Sui Zimo who had disappeared into the yard, quickly raised her feet and followed her brother Mo Lian.

...

In the room, the chest of one of the two corpses had been sewn shut again.

Lin Caisang looked at Sui Zimo with an ugly expression.

"It seems that the corpse was the same, and its heart was also ripped out." She glanced at the other corpse and said.

No wonder she couldn't feel their heartbeats when she examined the walking corpses before. It turned out that everyone in this county had their hearts ripped out.

"That should be the case." Sui Zimo said.

It seems that the demons used special means to poach the hearts of everyone in this county.

But what he couldn't understand was that since he had already obtained the hearts of these people, why were they still allowed to live like walking zombies?

This makes no sense, right?

"What do these people want to do?" Lin Caisang naturally thought of it.

What's the point of letting people live like this when they can easily cut out their hearts and kill them?

In other words, those demons have some ulterior and shocking secret that requires these people not to die immediately, but to let them live without a heart like this?

But after much thought, she couldn't think of a reason.

"In the past few days, if we walk around the county town a few times, we will always find some traces."
Sui Zimo said.

Chapter 1517 The corpse will expose them

"Yes, let's go take a look at the two outside first. Lin Caisang nodded.

With that said, the two of them walked outside, and the two zombies actually stood up. Although their bodies were tied, their feet were still walking.

Even if I can't take big steps, I still want to go out step by step.

But after Sui Zimo came in, he had already locked the courtyard door, so the two walking zombies could not escape.

With a sharp look in his eyes, he dodged directly in front of the two people and brought them back.

"Sonny."

"Um."

Seeing Sui Zimo's eyes turning to her, Lin Caisang immediately responded and walked over.

"Apart from the fact that their hearts are missing, I really can't find out what other illnesses these two people have." After a long time, Lin Caisang gave up studying the two people and raised his head and said to Sui Zimo.

Yes, for these two people, she had a blood test and it was normal; a pulse test and it was normal; their breathing and other things were also normal.

Everything is normal except for the missing heart.

"Sonny."

Sui Zimo thought for a long time, and finally looked at Lin Caisang and spoke.

"Did you find anything when you dissected the corpse just now?" he asked.

"What did you find? No, isn't it just that the heart is missing?" Lin Caisang replied.

However, during the dissection just now, she actually felt that something was wrong, but for a moment, she couldn't remember it.

"There's not a lot of blood." Sui Zimo said coldly.

Hearing this, Lin Caisang's eyes lit up.

Yes, she felt something strange during the autopsy. The body was still warm. How could the amount of bleeding be so small, almost non-existent?

Moreover, the two corpses were unusually white. It didn't seem like the corpses had been left for a long time, but rather... they had lost too much blood.

"I see!"

She raised her hand and pointed her index finger at Sui Zimo.

The two of them rushed towards the room with the two corpses at the same time, but...

"Where's the body?"

The two corpses that were supposed to be lying on the wooden board were nowhere to be found at this moment. Only Lin Caisang and Sui Zimo were left with their big eyes and small eyes.

"It was stolen." Sui Zimo said with a cold face.

It seems that these demons are really not to be underestimated. Under their noses, they were able to steal two corpses and steal them quietly.

"That....."

Lin Caisang immediately took a few steps toward the door and looked at the two walking corpses in the yard.

But they were still fine, still taking small steps in the yard.

"They...are still there."

She looked at Sui Zimo, a little surprised.

Instead of snatching back the living zombies, these people would steal back two dead corpses. What's the point of this?

"You can't attack living people, but corpses will expose them." Sui Zimo said with a cold face.

After listening to his words, Lin Caisang understood.

Yes, just like just now, she could leave two walking corpses in the yard and come to the room to dissect a corpse.

Because in their opinion, the walking dead can still be saved, but the corpse can be manipulated however she wants.

After all, if you don't thoroughly study the strange phenomena here, you don't know how to start, right?

"Then they take these corpses back..."

Halfway through her words, she twitched the corners of her mouth and remembered the phenomena she had seen in those five courtyards before.

The walking zombies grabbed handfuls of rice and meat and stuffed them into their mouths.

Chapter 1518 The blood of demons

And that meat, isn't it just...

"I left incense on those two corpses." Sui Zimo looked at her and said.

"Brother Mo Lian, you are really amazing!"

Lin Caisang's eyes lit up, and he raised his thumb at him, leaving a scent, that means they can pursue him however they want.

"Quick, let's chase him now."

So what are you waiting for? Hurry up and chase him. She pulls Sui Zimo and rushes out of the yard.

If they wait until they turn the corpse into flesh, it will be too late. No matter how good the tracking incense is, if it is found on the walking dead in every county, what else are they going to check?

No need to check anything anymore.

"Walk."

Sui Zimo also knew that there could be no delay, so he took Lin Caisang after him.

...

"is it here?"

Following the scent, I went further and further away, and finally came to a deserted place.

"There is such a deserted place in a county. What is it used for, Brother Mo Lian." Feeling strange, she couldn't help but mutter to Sui Zimo.

This place gave her a really uncomfortable feeling, as if someone had tied her alive to a pillar there.

"A place of worship."

Sui Zimo looked at those pillars, and then looked at the dark colors on those pillars, which were obviously bloodstains left over from a long time ago.

he said.

"hiss!"

Lin Caisang couldn't help but gasped.

"Isn't this place where the demons use to kill people?"

"no."

Sui Zimo shook his head and denied her words.

"These bloodstains are dark, and most of them have penetrated into the stone pillars. It can be seen that this sacrificial site did not happen overnight. It should not be the blood of those careless people."

He walked over with Lin Caisang, used his long sword to scrape off some stone chips from the stone pillar, and brought it to the tip of his nose to smell it.

The next moment, he immediately frowned.

"The blood of demons," he said.

"What?!"

Lin Caisang was shocked and immediately snatched the long sword from his hand and smelled the stone chips on the sword.

"It is indeed the blood of demons."

But how could there be demon blood in this place? How could so many demons die in such an inconspicuous small county?

"Brother Mo Lian, take a look again. Are there demon clan blood stains on these pillars?" She said to Sui Zimo.

"good."

Sui Zimo responded.

But he did not let Lin Caisang go, but took her to see the blood stains.

After a while, the surrounding stone pillars had been inspected. Without exception, the bloodstains on these stone pillars were the bloodstains of the demons. After careful observation, he found that these bloodstains had been accumulated over many years. Only then will there be.

In other words, this seemingly inconspicuous small county has been killing demons and using their blood for sacrifices for many years!

"Brother Mo Lian, I very much suspect that the unintentional people this time were retaliated by the demons."

Lin Caisang looked at the blood stains and her whole body was really cold. If those people hadn't turned into walking zombies at this moment, she would have scolded them thoroughly.

Or, beat them up!

Are the demons not humans? Just let them kill as they say?

Ever since she started taking virtual missions, she never felt that any group of people here was superior to others.

Chapter 1519 They are all dead bones

Since everyone lives in the same environment, they are equal. The people in this small county have killed so many demons and suffered backlash in the end, so they deserve it!

"Maybe, let's see.

Sui Zimo responded lightly and said.

Even if it is true that these people are being retaliated, they still have to save the woman after taking over the mission.

"Follow me closely. There may be some secret passage here. We have to find out here."

"good."

Lin Caisang naturally responded.

He reached out and grabbed Sui Zimo's left arm tightly, and the two began to search the sacrificial site.

...

'boom--'

With a loud noise, the stone slab was slowly moved away in the most empty place of the sacrificial site, revealing a long stone staircase.

"Want to go down and take a look?"

Sui Zimo looked at her and asked.

It was getting dark soon, and he knew that the little girl didn't like doing this kind of thing at night.

Anyway, the secret passage has been discovered. If they look at it tomorrow, it will actually be the same.

"Go ahead, just prepare the torch." Lin Caisang gritted his teeth.

Anyway, it is an underground secret passage. Even if you come during the day, it will be pitch black after entering, without any difference.

But if they don't go down now and come back tomorrow, they are likely to find less things. Those demons will definitely empty this place and leave.

"Then follow me closely." Sui Zimo warned her.

"good."

Lin Caisang responded again, with an extra torch in his hand, and handed it to Sui Zimo.

"for you."

...

Along the way down, the two of them did not encounter any danger, but...

When they walked forward on the dark road and came to a large cave, they were shocked by the scene in front of them.

"This is...this is..."

Lin Caisang's red lips trembled and she couldn't speak a complete sentence clearly.

"It's okay, I'm here, I'm here."

Sui Zimo held a torch in one hand and patted her back with the other.

However, even he was shocked after seeing the scene in front of him.

I saw that in the cave with nine twists and turns, except for one walkway, all the other places were piled with bones of dead people, some old and new. The scene was really terrifying.

"These...these are..."

"These are not the people who just died." Sui Zimo continued her words and said.

Even if those people's meat was made into dishes, the bones here are not those people's, but...

"I know."

Lin Caisang swallowed.

Of course she could tell that these bones were not real, but those piled up in such a pile were all demon clan bones.

"Why did so many demons die? Did the people in this county kill all the demons?"

Otherwise, why would there be so many dead people's bones? It's simply too scary. From this point of view, it's no wonder those people turned into walking zombies. It seems that there is karma.

"There are some pots over there, go and have a look." Sui Zimo did not answer Lin Caisang's words.

But with so many dead people's bones, even if they didn't kill all the demons, they would still provoke the demons' murderous nature. How could the demons not take revenge?

Ignoring the bones, he looked to the other side.

"oh."

Lin Caisang responded softly and followed Sui Zimo towards the pots.

"These...are all used for cooking, right?"

Chapter 1520 There are so many unexpected things!

After looking at the pots and then at Sui Zimo, Lin Caisang said.

"There are a few corpses over there. It seems that the demons are cooking here." Sui Zimo said.

After hearing this, Lin Caisang looked in the direction Sui Zimo was looking, and immediately wanted to vomit. She had seen a lot of corpses, and when operating on people, she could cut them as she wished.

But when she got here, she just couldn't help but feel sick.

"It seems those people have withdrawn."

Those demons were also on tight guard, otherwise how could they have withdrawn so quickly?

"Let's see what else we can find." Sui Zimo said.

The two of them slowly observed the cave, but apart from the bones of dead people on the ground, there was really nothing that could be found in this place.

And those are basically the bones of demons.

"There's nothing. Those demons are really thorough." Lin Caisang shrugged and said.

Sui Zimo looked around again without saying anything. After a long time, he fixed his gaze on the large pots.

"Sang'er, tell me...why are there so many demon bones here?"

He spoke out and asked Lin Caisang quietly.

"Um?"

Lin Caisang was stunned by his question and raised her eyes to look at him.

"Brother Melian, what do you mean?"

There are so many demon bones here, is there anything wrong? Isn't that altar used to offer sacrifices to demons?

Then those people brought the demons who had been sacrificed here. Is there anything wrong with throwing them away?

However.....

Her eyes followed Sui Zimo's and slowly looked at the pots, and she was suddenly startled.

"You don't mean that the people in this county... can't do it, Brother Melian."

She shook her head, refusing to believe that the people in this county could be so scary.

The sacrificial altar I saw before has already shown the cruelty of the people in this county. If there is this again, it will really lose all humanity!

She swallowed involuntarily, feeling terrible.

"Whether it is possible or not, you will know after taking a look."

Sui Zimo drew out his sword and scraped hard on the iron pot, making a harsh sound.

Then, Lin Caisang leaned over, smelled it carefully, and immediately frowned.

"In addition to the smell of iron and human flesh, there is also the smell of demons. It is very strong and cannot be left overnight." She said to Sui Zimo.

Sure enough, her brother Mo Lian was right. The people in this county are really heartless!

It's not enough to kill those demons as sacrifices, but they also treat them as delicacies and eat them! This is simply... She really can't imagine what kind of existence the people in this county are like!

It seemed that she had to redefine the nature of this mission.

"Go back first."

Sui Zimo inserted the sword into the scabbard and said to her.

Lin Caisang nodded.

...

'Snapped! '

A slap fell on the face of a man with green patterns on his face.

"I'm sorry, Patriarch, I really didn't expect those two people to be so powerful." The person who was beaten did not feel that there was anything wrong with being beaten, and instead apologized to the old man in front of him.

"You didn't expect it. There are so many things you didn't expect!"

The old man held a cane in his hand and knocked on the ground hard.

If he hadn't reacted quickly this time and evacuated from the secret passage leading down from the altar in time, so many of them would have been trapped in the hands of those two people!
