

Star of Space 1521

Chapter 1521 Do you dare to do this?

"I told you a long time ago that this is a place where there are people outside the world, and there is a sky outside the sky. Why don't you understand? Do you think those two people are vegetarians? Just let you disturb their heads?"

If possible, he really wanted to beat the man in front of him to death.

He had given them numerous warnings not to touch the two newcomers, as they were not to be trifled with.

But the person in front of me just refused to listen.

"Do you know that it was because of your pride that you almost killed all of us!"

"I....."

The person who was slapped listened and lowered his head silently.

"Clan leader, don't be angry with Ah San. He just wants to deal with those two people. There is nothing wrong with that." The person next to him started to persuade.

They didn't think there was anything wrong with Ah San wanting to deal with those two people.

Anyone who enters this county is not a good person. They all deserve to die and none of them deserve to live!

"shut up!"

The old patriarch shouted sharply at the man.

"It's not wrong. If it's not wrong, can he take all of us to death? You don't want to live so much, why don't you go find those two people to die now?"

"Patriarch, you underestimate us too much. There are so many of us, how can we still not be able to deal with those two people?" Another person heard the old patriarch's words and couldn't help but curled his lips and said something back.

With so many of them, would they let those two people take advantage of them?

Did the old patriarch underestimate them too? As long as he is given a chance, he will definitely be able to take down those two people. Otherwise, it is impossible for everyone in this county to become a walking zombie. It is not their ability.

"That's right, Patriarch, you are just too timid. Who are those two people? Can they be the opponent of so many of us?"

"Yes, Patriarch, there are so many of us here, one person can drown them all with just a drop of spit!"

Others also echoed.

"You... you..."

The old patriarch was so angry with them that he almost hit them with the crutch in his hand.

I have seen people seeking death, but I have never seen anyone so eager to seek death.

Those two people who dared to enter the county at this time must have come prepared. And when they saw so many people in the county turned into zombies, they were not afraid, let alone left.

Why? It must be for them!

"You all shut up and listen to the clan leader."

Finally, a woman stood up and shouted at the unconvinced people.

"From the moment those two people entered the county, I felt something was wrong. The aura of those two people was completely different from those of ordinary people. Do you really think that they entered here by mistake?"

"If you didn't enter here by mistake, what else could it be?"

Several people asked at the same time.

"You guys are really... what can I say about you?" The woman looked at them and sighed helplessly.

"Why don't you think about why they weren't afraid at all, and they took away two human corpses on the street? That's why they came prepared.

What's more, didn't Ah San say that he saw the little girl cut open the stomach of a corpse and then sewed it back up again after a while? Do you think this is something that a simple person can do?

If it were you, would you dare to do this? "

Chapter 1522 It's not easy to come out

she asked these people.

"Why don't you dare? We dare to pick out all their meat. It's not like we have never done such a thing before." one of them said.

Yes, they have been doing this kind of thing every day these days, are they still afraid?

woman:"....."

They were doing such a thing, but they only did it because they were forced into desperation.

"If we hadn't killed so many people, would we have done such a cruel thing? No!

But those two people didn't know anything, but they still cut open the people's stomachs. They were obviously checking how those people died and why they became like that!

Why don't you understand? Those two people must be capable human beings invited by the people who escaped before! "

"hiss!"

Several people gasped when they heard her words.

A capable human being? !

"Is he really a capable person from the human race?" one of them raised his own doubts.

"Clan leader, if the human race is capable, can we... be able to defeat him?" Another person asked.

These people are just ordinary people of the demon clan. If they really meet the capable people of the human race, they might not be their opponents.

"What do you think?"

The old patriarch asked him with a cold face.

The man looked at the others, then at the old patriarch, and shook his head instinctively.

How could people like them defeat the capable people of the human race? That capable person was the best among the human race, and there were only a few of them.

"Clan leader, what should we do?" Someone was worried.

If they really met a human being, then all the things they had done before would have to be uncovered.

Let the capable human beings know that the people here were made like this by their demon clan members, and they will definitely not let them go.

It's just a trivial matter that won't let them go, because they are afraid that those capable people will blame all the demons.

"We did it. How about we go find those two people and explain it to them?" someone suggested.

"are you crazy?"

Someone immediately disagreed and shouted out.

How could they just go out like this? Even if they were capable humans, as long as they walked fast and left this county, they would not be discovered.

At most, those two people knew that what happened in this county was done by the demons.

"Chief, I think we should leave here first. After those two people are gone, we will come back for revenge."

Another person spoke up and suggested.

"Yes, yes."

Someone immediately agreed.

"It's impossible for those two people to stay here forever, right? After they leave, we can come back. Chief, what do you think? Unless those two people want to live here, this is impossible. Right?"

The old patriarch listened to their words, and exhaled heavily, looking into the distance with a faint look.

"We can't leave like this. It's not easy for us to come out."

If he just left like this, how could he be willing to do so? The people in this county had harmed so many demons, so how could they be so easy on them?

If they leave here now, they don't know when they can come back.

And the people here have lost their hearts and will not live long at all. When they come back next time, the people here will probably have become bones, right? We can't let them be so cheap!

"As long as we don't conflict with those two people, we can just avoid them."

Chapter 1523 Who is afraid of those two people?

"Is it really possible?"

The woman asked hesitantly after hearing the old patriarch's words.

Is it really okay to avoid them? Those two people obviously came with bad intentions. If you just avoid them...

They can hide, but what if those two people come to the door?

"Chief, I think those two people are pretty powerful. Will they find us soon? They can smell our breath."

"laugh."

The old patriarch sneered.

He wasn't worried about this at all.

"Now the entire county is filled with the scent of our demons. It's impossible for them to find us."

After he entered this county, the demonic blood mist he dropped here was not for nothing. It would naturally make it impossible for the two people to find them.

"Then we have to feed those people. Would it be easy if they caught us during meal time?" another person asked.

They came to this county just for revenge. If they just hid in the county and did nothing, how could that be possible?

But those two people already know the places where they put their meals. It is not impossible to wait there for them to appear, and it is still a sure place to catch them.

"this....."

Hearing this, the old patriarch felt embarrassed.

Yes, even he didn't expect this. What if he was really caught by those two people?

Although the people from the human race look weak and weak, none of them are as powerful as the demons, but those who seem to be weak are still vicious!

Just like the people in this county, they look like ordinary people, but when it comes to killing people, they do their part!

If they were really caught by those two people, I'm afraid it would be... a disaster.

"Let's do it this way. From now on, the time for us to put the food out is not fixed. We can put it out whenever we want. Before putting it out, keep an eye on those two people and know their approximate location.

It's always right to stay away from those two people. "

Even so, let's play a cat and mouse game with those two people to see if those two people can catch them!

"Clan leader, is this okay?" someone asked uncertainly.

Those two people are said to be so powerful, can we really just let them play with us?

Why do they feel so unreliable?

"Then what do you think we should do? Let's go back first and let everyone in this county die slowly?" the old patriarch asked them.

After hearing his words, everyone fell silent.

How can they be willing to go back? They will never go back until the people here die!

"Clan leader, let's do as you say. Let's fight those two people and see who is better, them or us! There are so many of us, can't we beat those two people?"

After a while, a person stood up and said to everyone.

Those two people are just two people, and there are so many of them. Are you still afraid of two people when playing hide and seek?

"Yes, there are so many of us, who is afraid of those two people?"

Others echoed.

"Okay, that's it."

Seeing that they all agreed, the old patriarch nodded immediately.

"Ah San, you and Ah Wu go to the cave again. Those two people should have left. You go and get those corpses back. We will start preparing meals for those people."

Chapter 1524 Are you afraid that they will suffer a loss?

"Yes, patriarch.

Ah San and Ah Wu responded and left.

...

From that day on, for three consecutive days, Lin Caisang and Sui Zimo played a cat-and-mouse game with the demons.

Every time that weird sound sounded, it was at an irregular time. Sometimes, even after taking a deep breath, the sound could still be heard.

But when Lin Caisang and Sui Zimo chased after them, they only had time to see the wolfing walking corpses. There was no trace of the demons at all, and they could almost tire them to death.

"Brother Mo Lian, this is not the way to go. They have thought of a way to deal with us, so they don't take us seriously at all."

They can't keep an eye on each other all the time, and it's impossible for the two of them to be separated, so they can only spend so much time.

"Um."

Sui Zimo had obviously expected this.

"Sonny, send out the red gold and red silver."

He said to Lin Caisang.

"Red gold, red silver?"

Lin Caisang raised his eyebrows and looked at Sui Zimo amusedly.

"Brother Mo Lian, it's not like you don't know that Hong Gold and Hong Silver only have a quarter of an hour of memory. What can they do if they go out?"

Should Hong Gold and Hong Silver be allowed to wander outside like the walking zombies outside?

"Don't do anything, just let them walk outside." Sui Zimo looked seriously into Lin Caisang's eyes and said.

Lin Caisang: "..."

Does her brother Mo Lian regard red gold and red silver as the walking dead outside?

"Brother Mo Lian, what do you mean?" she asked.

However, as soon as she finished asking, looking at Sui Zimo's eyes, she understood what he meant.

"Understood."

She nodded.

"This is a good idea. Let the red, gold, and red silver go shopping outside."

She had tested Hong Gold and Hong Silver before, giving them a task, and then she would follow them. After a quarter of an hour, the two of them would be walking aimlessly somewhere.

Moreover, although those two people only have a quarter of an hour of memory, they are no less curious than anyone else. They will take a look wherever they go. Look, that is called carefulness.

People who don't know will definitely think that they are looking for something.

You would never have thought that Hong Gold and Red Silver were two little dogs who were lost and didn't know what to do next.

"Red gold, red silver, come out."

She immediately called out Red Gold and Red Silver.

"Master, please give me your instructions." They both spoke to her at the same time.

"You go outside and look for anything strange." Lin Caisang ordered them.

"Yes, Master."

Hongjin and Hongyin nodded and went out.

Just like that, the two of them didn't come back until most of the day passed. In the middle of the day, Sui Zimo took Lin Caisang out for a look.

I saw Hong Gold and Hong Silver wandering around, similar to those walking zombies, except that their faces were a little more angry, and when they heard something, they would stop and take a look.

"Those demons won't attack red gold and red silver, right?"

Lin Caisang was a little worried and asked Sui Zimo next to her.

"Are you afraid that they will suffer a loss?" Sui Zimo asked her, raising an eyebrow.

Lin Caisang: "..."

She couldn't help but twitch the corner of her mouth, feeling that this topic was impossible to discuss.

"I'm not afraid that they will suffer a loss, I'm afraid that those who are eyeing red gold and red silver will suffer a loss."

Even though Hongjin and Hongyin were just two koi, they were very capable. In one of the previous missions, she and Sui Zimo had to deal with too many people.

Chapter 1525 Who are you provoking?

I couldn't handle it anymore and almost got chopped.

In desperation, she called Hong Jin and Hong Yin for help, but little did she know that these two little dogs knocked down those who made her and Sui Zimo gasp for breath.

With such two little ones, how could those demons be their opponents?

But until the matter in the county is investigated, those demons hiding in the dark cannot be killed or wounded.

"That's good."

Obviously, Sui Zimo was not worried about this issue at all.

Those demons were playing tricks on them, so why should he be polite to them?

"As long as I don't hurt you, it doesn't matter who dies or is hurt." He said to Lin Caisang.

Lin Caisang: "..."

Well, she had nothing to say.

...

"Clan leader, what should we do?"

The faces of those demon clan members looked sad since they saw the red, gold and red silver two wandering around on the street.

"Look at my face, how it was beaten?"

A demon tribesman pointed at his pig-headed face. As soon as he touched it, he couldn't help but gasp. It was painful.

"Ah Qi, why did you attack those two people? It's too reckless." The old patriarch looked at Ah Qi and wanted to scold him, but looking at his face, he couldn't bear it. .

He just shook his head at him and said helplessly.

Ah Qi: "..."

He really had nothing to say.

"Clan leader, you have misunderstood Ah Qi. He didn't treat those two people at all." Another person came out and said a fair word for Ah Qi.

"Yeah yeah."

Ah Qi nodded quickly, indicating that he was really innocent.

"Patriarch, am I provoking someone? Those two guys are wandering the streets every day, making us have to be careful about everything we do. That's not all. As long as there is a little movement, they will definitely Will appear.

What can we do? "

This time, he didn't provoke those two people, he just met one of them.

He thought, since he had encountered that person head-on anyway, he might as well go out and have a fight to see what that person's strength was.

How do you know...

He didn't even take action yet. He just raised his hand and was kicked by that person, almost knocking out his heart, liver, spleen, lungs and kidneys.

Then, his face became like this.

Not only the face, there was no good space anywhere else, it was all bruised.

Of course, he couldn't show them the parts he shouldn't have exposed. Only this face was beaten the most.

Just like this, he had to block it with his hands many times, otherwise, his parents would not recognize him in the future.

"Chief, we are really...the two people are walking on the street all the time, day and night, without sleeping." Another person said to the old patriarch.

"What can we do, we can only hide.

But those two people are so capable. As long as we make the slightest movement, they will arrive immediately. When they see us, they will punch and kick us without even saying a word.

Patriarch, what should we do about this matter? "

The key is that they don't dare to go out now. If they go out, they will be caught, and then a lot of trouble will come towards them.

Seeing that those walking zombies are about to starve to death, continuing like this is definitely not an option.

Chapter 1526: Hit someone when you meet them

"That's right, Patriarch, please think of a way quickly. Those two people are really bullying people too much!"

Except for that woman, everyone else spoke and said to the clan leader.

They really couldn't bear it any longer. What's even more disgusting is that after the two guys beat the people, they didn't ask any questions or take them to the other two people, and just left in a big way.

Until now, they don't know what kind of magic operation those two guys are doing.

After listening to the words of the clan members, the old clan leader took a deep breath and polished his yellow teeth.

"Well, I'll go there in person and discuss it with those two people to see if I can..."

"Clan leader, you can't go.

Before he could finish his words, the others hurriedly stopped him.

"We are still young and can withstand a few beatings from them, but if your bones are gone... don't get beaten up."

"Yes, yes, before leaving the clan, the clan elders told us to take good care of you."

"Chief, let us go. Let's go and comfort those two people. As long as you say a word, we can go."

The old patriarch looked at them and sighed.

"Stop talking, I'll go."

If you let them go, won't they be beaten into pig heads?

He finally saw that the two people walking around on the street were just like the walking dead. They were unconscious and just did whatever the two people in the yard said.

And as long as these demons don't show up, those two wandering people will keep wandering on the streets, letting them do nothing.

Therefore, he must come forward now.

"Clan leader..."

"You don't need to talk about it. This matter should come to an end."

Seeing what they wanted to say, the old patriarch raised his hand to stop them from continuing.

If he could, he really wanted to kill all the people in this county. As long as everyone in this county died, then the demons would no longer suffer.

But now it seems that it is impossible to do.

"Chief, you can't..."

Several people still wanted to persuade, but the old patriarch obviously couldn't listen anymore, and left slowly with his crutch.

"What can we do? How can the patriarch go? Those two people are very ruthless."

Seeing that they could not persuade the old patriarch, everyone became worried.

"That's right, those two people didn't even let them talk. They hit each other when they met. If you look at my face, you'll know what's going on." The demon was beaten with injuries all over his face. The tribesman pointed at his face and said.

"What's the use of talking about this now? Hurry up and take a look."

...

In a room, Sui Zimo made a pot of tea for Lin Caisang and poured a cup for her.

"Drink some tea first."

Lin Caisang took it and sighed lightly.

She felt that this was simply the easiest task she had ever taken on. Whether it was a virtual task or any other task, it was never that easy.

I actually spent several days idle in this yard.

The key is that even if she is idle here, she can't refine medicine or do anything else, because the Golden Pearl Space is obviously inaccessible, and she doesn't know if the things refined here can be brought back to the Golden Pearl Space. go.

Naturally, he and Sui Zimo could only stare at each other and rest in the room.

"Brother Mo Lian, do you feel it? I'm almost growing hairy."

Chapter 1527 Wait for me to marry you

She said to Sui Zimo.

"Ah."

Sui Zimo chuckled when he heard her words.

"You have to wait until your hair grows."

He is also idle, and occasionally goes to the yard to practice his sword, and Sonny can also practice the Wind Spirit Whip in the yard.

In fact, life like this is really good, if the environment can be changed.

"Sonny, tell me, if there weren't so many things happening around us, would we be able to live a peaceful life like we do now? Huh?"

Hearing this, Lin Caisang was stunned for a moment, but quickly came to his senses.

"Even if there are all those messy things around us, we can still live a peaceful and comfortable life in the future." She said.

Can we still let them deal with those miscellaneous people for the rest of their lives? No matter what, she couldn't let those people fight her so many times. She had to hold those people down as soon as possible.

"right."

Sui Zimo naturally agreed with her words.

"Actually, I think that not only Chu Shui, but also we should cultivate our spirits as soon as possible and go to Qianhuan Continent. Just waiting here for the person behind the scenes is completely useless."

Lin Caisang said.

They are waiting for that person to appear, but by waiting like this, they will always be in a passive state.

And if they go to Qianhuan Continent, then they will be the active party. Even if they are still in the light, they can still give a fatal blow to the person in the dark.

"Go to Qianhuan Continent... hurry up.

Standing up from Qianhuan Continent, Sui Zi narrowed his dark eyes and tapped the table with his index finger.

"Soon?"

Lin Caisang looked at his face seriously, as if trying to spot a flower from his face.

"Brother Mo Lian, do you mean that we are also preparing to leave for Qianhuan Continent?"

"Um."

Sui Zimo nodded.

"Wait until I marry you."

Lin Caisang: "..."

Sui Zimo, can you be more shameless?

"Isn't it early?"

"It's getting late. Next year... it's time to get ready." Sui Zimo said.

Yes, next year his son will be a hair-age boy, so he needs to be prepared. This year, he has a lot to do.

Lin Caisang: "!"

She silently narrowed her eyes slightly and looked at Sui Zimo seriously.

"Brother Mo Lian, are you... hiding something from me?"

I always feel as if I don't know something. Could it be that I am too sensitive? It shouldn't be possible, right?

"Have it?"

Sui Zimo raised his eyebrows and looked at her.

"It's nothing, I just discussed with your mother when to marry you into Prince Mo's palace."

"puff!"

Lin Caisang spurted out all the good tea she had just tasted because of these words.

She looked at him in shock, really wanting to punch a hole in his face. What did he say?

"Brother Mo Lian, the discussion you mentioned is not what I think, is it?"

He wouldn't go behind her back and discuss something with her mother, would he?

Impossible. She was always with her mother at that time. Even when they were not together, she was still with Sui Zimo. How could they have time to 'scheme' her behind her back?

unless.....

"Did you write a letter to my mother?"

The only possibility she could think of was that Sui Zimo must have secretly written a letter to her mother behind her back.

"Um."

Sui Zimo didn't deny it, he just nodded and admitted it.

Chapter 1528 Is it calculated?

"If you want to marry a princess from the Liang Kingdom, you have to work hard, don't you?"

He looked at Lin Caisang and said quietly.

Lin Caisang: "..."

He worked so hard, and he even hid it from her!

"How did you tell my mother that she agreed with you?"

Her mother had just found her daughter, who was the rule. Could she allow Sui Zimo, a big-tailed wolf, to take her daughter away?

"Sang'er, you're always going to get married, and I'm always going to get married. If that's the case, why don't we be upright? Why hide it?" Sui Zimo looked at her and said.

"so what?"

Lin Caisang raised an eyebrow and asked him.

She wasn't being pretentious, but if she didn't think carefully about this matter, it could easily cause big trouble.

Emperor Wei was already very dissatisfied with her identity. It would be best if he could provoke her relationship with Sui Zimo and let her deal with Prince Mo's palace. How could he let go so easily?

"what have you done?"

"Why should I do anything?" Sui Zimo chuckled.

"I just sent someone to spread the word, saying that... the daughter of Princess Liang is a little girl who has just been found from the countryside."

Lin Caisang: "!!!"

It is said that old ginger is spicy, but Emperor Wei must have never thought that it was a piece of rotten ginger that was too old, right?

How could he fight with the scheming Sui Zi Mo?

"You don't want to trade me for Liang Guo's 'me', do you?"

This is okay, Emperor Wei will definitely feel that he finally removed one of his eyes, causing Sui Zimo to break an arm.

But when he finds out that he personally gave this arm to Sui Zimo, will he be so angry that he can never get out of bed?

This is not impossible.

"Brother Mo Lian, you are plotting against the person behind Emperor Wei."

Her mother escaped from the Qianhuan Continent. The person behind Emperor Wei could not have known this, because her mother had been surrounded by many people from the Qianhuan Continent who wanted to harm her. .

And the person behind Emperor Wei must be very interested in her mother.

Perhaps, he also thought that he could hold her and Sui Zimo in his hands and control her mother.

This is simply one link after another, trying to plot someone to death directly.

"Is the plan in place?"

Sui Zimo chuckled, but he didn't feel that at all.

"If that person can be plotted so easily, we will get an advantage."

But, can it be that easy?

"Don't mention this in advance. Let's get things done here first. Then... someone is coming."

Before he finished speaking, when he felt something moving in the yard, Sui Zimo immediately stood up, pulled Lin Caisang towards him, and the two of them quickly walked out of the yard.

"who?"

In the courtyard, the old patriarch of the demon clan was standing. There was no one around him, just him.

"Who are you and why did you come to this small county?" The old patriarch looked back and forth at Sui Zimo and Lin Caisang with a pair of sharp eyes, as if he wanted to see through them.

Unfortunately, no matter how hard he looked, he couldn't see through the two people in front of him.

"Ah."

Lin Caisang chuckled.

"It finally came out."

No wonder she and Sui Zimo had been waiting in this courtyard for so long, and finally waited until someone came out.

Chapter 1529 How many are there?

It seems that Hong Gold and Hong Silver, two guys who have no memory but can beat people randomly, are not useless at all. At least it is not easy to force the old man in front of them out.

"Let's not talk about us, let's talk about you. As a member of the demon clan, why do you want to go to the human clan to hurt people and kill people?" She asked the old clan leader.

"Injury to death?"

When the old patriarch mentioned these four words, his tone was full of sarcasm.

"Are those people in this small county worthy of being called human beings? Can they also be regarded as lives?"

He asked Lin Caisang and Sui Zimo in return.

"Aren't they worthy of being called human beings?"

Lin Caisang pretended that he knew nothing and asked him.

"Even if they don't deserve to be called human beings, what does this have to do with you? Why do you take their lives?"

"You...you obviously know that, don't you?" The old patriarch looked at them and asked.

He couldn't believe that the two people in front of him had been here for so many days and still found nothing!

The people in this county are not worthy of being human at all. They have killed so many demons. Isn't the life of their demons not life?

Just let them kill at will?

"What can we know? Haven't you been staring at us? Don't you know that we have been in this courtyard all this time and have never been out at all. What can we know? Huh?"

Lin Caisang asked him again.

"You...you...as expected, the human race are all cunning people, no exception." The old patriarch looked at them angrily, his tone full of resentment, and said.

"Since you don't know, let me tell you. Is this called done?"

"Please tell me."

Lin Caisang raised his eyebrows and motioned for him to speak.

"Haven't you already been to that altar before?" the old patriarch looked at them and said.

"You guessed it right. That altar is used to kill us demons. There is a weird smell on that altar that can make us demons lose resistance after smelling it and let the humans capture them. Killing without any resistance.

Many people in our clan were killed by them. Not only did they kill people in our clan, but they also drained their blood to make elixirs, and then picked out all their flesh and used it to cook soup for the county. People drink!

do you know?

The people in this county have never raised poultry. The meat they eat is all the meat of our demon tribe!

You have also seen before that there are so many bones in that cave, all of them are the bones of our demon clan. There are so many and they are piled so high, how many there must be!

How many demons have died at the hands of these vicious people? Can they still be counted?

You say, shouldn't people like them be punished? Shouldn't they die?

No, they deserve to die. Even if they die a thousand or ten thousand times, it will not be enough to eliminate their sins! You don't know, people here actually say that the human flesh of our demons can make them more powerful.

From now on, they will no longer eat other meat, but only the meat of demons! "

The more he spoke, the more excited he became. In the end, his face turned red as he spoke, and he kept banging the crutch in his hand on the ground, as if this was how he could vent his anger.

"So, you just let them eat the flesh of their own people?" Sui Zimo asked him.

Chapter 1530 This is impossible!

"right!"

The old patriarch took a deep breath and nodded to Sui Zimo and Lin Caisang.

"Don't they like to eat meat? Then I will let them continue to eat. See how much they have enough to eat, and I will let them eat as much as they want! Anyway, in this county, there is plenty of meat for them to eat, so they can eat it slowly! "

He did not deny that he just wanted revenge and watched those vicious people eat the flesh of his relatives and compatriots!

After listening to his words, Lin Caisang sighed and shook his head.

This is definitely difficult to do by oneself. People in this county are really reluctant to sympathize.

She thought that if the woman who had been to Wuzhu Teahouse before and her family had not happened to come here to visit relatives, maybe everyone here would have died and no one would have known about it.

"How did you dig out their hearts?"

It is very simple to dig out the heart, but it is not that simple to let people survive after their heart is dug out.

Anyway, from her point of view, this matter is really not something that ordinary people can do, and that ordinary people include herself.

"A forbidden technique in our clan puts their hearts into the demon clan's purification pool. That pool can nourish those hearts and allow them to continue to resonate with their original owners, ensuring that the original owners will not die."

The old patriarch said with a cold face.

Now that things have happened, there is nothing left to say. After saying it, he feels better, at least he no longer has to feel so aggrieved.

"The purification pool nourishes the heart. It needs the blood of the original owner as nourishment, right?" Sui Zimo asked.

"how do you know?"

The old clan leader was shocked. The purification pool was a secret in their clan. Even other demon clan members didn't know about it. How did this man know?

"You guys are really extraordinary, you actually know this!"

Lin Caisang: "..."

She silently glanced sideways at Sui Zimo.

I really want to say that you can guess this just by guessing, okay?

Looking at the dead people, all the blood was almost drained from their bodies, and you can understand the reason.

"I don't care what grudges you have against the people in the county, but now that we are taking care of this matter, you must return those hearts so that the people in the county can survive."

She looked at the old patriarch with cold eyes and spoke word by word.

"This is impossible!"

The old patriarch denied her words without thinking.

Giving them a happy death and preventing them from eating the flesh of their companions was the biggest concession he could make.

How is it possible to let these vicious people continue to live?

"These evildoers should have died long ago. Keeping them will only harm more people! Enough people from our demon clan have died. Is it true that the lives of human clan members are lives, but the lives of our demon clan members are not? Life?"

"Then what's the use of killing them? Look at them, they feel nothing now. Even if they eat the flesh of their companions, they still don't have any reaction. Is this the way of revenge you want?"

Lin Caisang looked at a walking corpse passing by outside their yard and asked the old patriarch.

Those people don't feel anything now. They have no fear or fear. Even if you cut their flesh with a knife, they won't feel it.

"You must know that they have no thoughts and no ability to think."

Old patriarch: "..."
