

Star of Space 1571

Chapter 1571 Don't go even if you die

"Oh my gosh, it's so dangerous.

Someone couldn't help but patted his chest and said.

Yes, it was so dangerous. If they hadn't reacted in time and ran fast enough, they would have been buried with the demon.

Who would have thought that it was just a matter of killing the evil spirit.

Not only the altar, but also the entire county was crumbling. Fortunately, Sui Zimo said to run away, otherwise, everyone would really be buried with the evil spirit.

It's really terrible!

"Ah, our home, we don't have time to take out anything."

"A good family will be destroyed just like that. How can this be done? How can we live? Oh my God, what should we do!"

"Why is this happening? Why do you come to our county? If you hadn't come here, we would still be living well now. It's all you, it's all because of you!"

People who ran out of the county began to accuse Lin Caisang and Sui Zimo.

It was as if the two of them had made them homeless, and the look in their eyes seemed to ask the two of them to pay for their entire county.

"Ah."

Lin Caisang lowered his head and chuckled.

These people really have no self-awareness at all.

Were their old days called good? Killing demons and eating their flesh, is this what they call a good life?

"It seems that you haven't been beaten enough. Red gold, red silver..."

"No, no, girl, we don't dare anymore.

Seeing that she wanted to call the red, gold and red silver little ones again, someone quickly spoke up.

"You people, what are you talking about? If this place is destroyed, it will be destroyed. There are so many of us, how can we not find a place to go? Why are you making such a noise?"

In order not to get beaten, I can only point the conflict at my own people.

How dare they say anything? If they say anything, I'm sure Hong Gold and Hong Silver will beat them even harder.

Their bodies were already covered in scars, how could they withstand a few beatings?

"It's a pity that such a good county town was destroyed like this." The old patriarch led the demon clan members over and looked at the pile of ruins in front of him with regret in his eyes.

"It's better to destroy this place."

Lin Caisang didn't have that much sympathy and said coldly.

This place, which can be full of crime and killing, should be buried under the ruins, so as not to bring any trouble again after it is exposed to the light of day!

"Elder, you will take these people away and let them take away their merits!"

She glanced at the people in the county and spoke to the old patriarch. In short, none of these people with blood on their hands could get away with it so easily.

"What?!"

Everyone was frightened when they heard her words.

"I don't want to go to the demon clan, even if I die."

Some people shook their heads, and their faces turned pale when they heard the word demon.

They killed so many demons, how could they have a good life after going to the demons?

Those demons wouldn't want to cut off all the flesh on their bodies piece by piece, would they? This is not impossible.

Therefore, they really can't go to the Demon Clan!

"This matter is not up to you!"

Lin Caisang looked at them coldly and said.

When you killed the demon tribesmen, why didn't you think that you would end up like today?

Now, you have to pay the price. Who will give them the face to push back and forth? They are so beautiful.

Chapter 1572 If you want the antidote, come here

"If you do your best to defeat the demons, maybe you can live longer." She said to those people.

Although these people ate the flesh of demons, after all, they had little contact with demons and their lifespan was not wasted too much. They could always live longer, unlike Xiaoyu's family...

Forget it, everyone is dead, and she has nothing to say.

"If you people still have some conscience, you can reform yourself. There is nothing wrong with the demons. At least, you can remember how you ate the flesh of those demons every day!"

Everyone: "..."

They thought they could live forever by eating the human flesh of demons.

This is what Xiaoyu and his family told them, and they also watched Xiaoyu and his family become younger and younger, so they couldn't believe it even if they didn't want to.

Now I know that the demon is not a good thing, and I already know that I was wrong.

Why are they still allowed to go to the Demon Clan? How could the Demon Clan be a place that they, the Human Clan, can go to?

They didn't want to go to that place at all.

However, even if they no longer want to go, what can they do? Facing the strength of Lin Caisang and Sui Zimo, as well as the demons they couldn't defeat at all, what else could they say or do?

The answer is of course no.

"Then let's..."

"Elder, these elixirs are for you.

They still wanted to talk, but their sharp eyes saw Lin Caisang taking out several porcelain bottles from his small satchel and handing them to the old patriarch.

"This is....."

The old patriarch looked at the porcelain bottle. Although he didn't know what was inside, he still reached out and took it.

He looked at Lin Caisang with doubtful eyes.

"These people have all been possessed by evil spirits. This is the antidote. When these people realize that they have done something wrong and are willing to start a new life, you can give them the antidote."

Lin Caisang explained.

After hearing her words, everyone's eyes lit up and they wished they could reach out and grab it.

Unfortunately, they dare not.

"Girl, we already know our mistake, please give us the antidote." Those who were brave enough asked Lin Caisang directly.

However, as soon as he finished speaking, he felt a pain in his stomach, and then his whole body flew up and landed on the mud not far away with a 'bang'.

But it turned out that it was Sui Zimo who kicked the person out directly.

He looked at those people with a cold face, as if he wanted to kill all the people in front of him, causing those people to swallow their saliva and quietly retreat.

"If you want the antidote, come here."

He spoke to them.

Which of these people knows they are wrong?

All of them are willing to do anything for profit!

If you ask him, there is no need to be polite to them at all, and what kind of antidote should be given to them, just let them go to the demon clan and stay there for the rest of their lives.

His son is too kind-hearted, but this is not good either.

"We...we don't want it anymore, we don't want it anymore."

Someone stepped back in fear and swallowed his saliva.

In this situation, who would dare to step forward and ask for the antidote? Aren't they afraid of being beaten to death?

Although their lives are not precious in the eyes of these two Wuzhu Teahouse people, they are still very important to themselves!

"It's better if you don't want to."

Sui Zimo withdrew his gaze and looked at the old patriarch.

Chapter 1573 You are not invited to go

"Elder, we are not giving you the antidote to be a good person. If they still don't repent, this antidote must not be given to them. Even if it is destroyed, it cannot be given to them!"

He warned the old patriarch.

"I see."

The old patriarch nodded.

How could he not understand that if he gave these antidotes to those people and they did not repent, wouldn't it be like letting the tiger go back to the mountain and giving those people the opportunity to do evil again?

This lesson had already made him miserable. So many demons had died!

He definitely won't let something like this happen again!

"Don't worry, you two. I will order my clansmen to keep them under guard and I will never give them a chance to do evil again." He promised.

"Um."

Only then did Sui Zimo respond with relief.

"Sonny, let's go now, shall we?"

He looked at Lin Caisang, preparing to take her back to Wuzhu Forest.

"Then we will..."

"Sir, miss, do you two want to come and sit at my house?"

Just as Lin Caisang was about to go back with Sui Zimo, he saw the woman who had gone to Wuzhu Tea House stand up and ask them.

Lin Caisang frowned and turned to look at her.

"you....."

"No, no, sir, my house is far away, so I won't invite you." The man quickly walked out and said with a smile to the two of them.

He glanced at his wife with a very bad expression and pulled her behind him.

"What else do you want to do, can't you just shut up?"

"I....."

The woman opened her mouth, glanced at Lin Caisang and the two, then gritted her teeth, lowered her head and stopped talking.

She just didn't want to invite the two people from Wuzhu Tea House to her home, and also wanted to let their neighbors know what great people she had made friends with.

Is this also wrong?

But she clearly did nothing wrong, so why did she make her husband unhappy again?

Lin Caisang glanced at the woman, then at the man, and then looked back at Sui Zimo.

"let's go."

To be honest, she didn't have a good impression of this woman at all after knowing the truth about this county.

Now I want to jump out and show my presence in front of her. I really don't know who gave her face. I really want to make her angry.

If her man hadn't stopped him quickly, she would have scolded this woman again.

Shouldn't people who can't tell the difference between right and wrong at all deserve to be scolded?

"Walk."

Sui Zimo held her hand, and the two of them said goodbye to the old patriarch and left.

...

"Finally the mission is completed."

Sitting in the carriage, drinking the fruit that Sui Zimo peeled for her, Lin Caisang let out a sigh of relief.

Although this mission did not involve any fighting, it still made her feel quite heavy.

I never thought that one day I would see someone killing so many people for their own benefit, and the reason was just because they thought eating the flesh of demons would make them immortal!

It's really ridiculous.

If you can live forever by eating the flesh of demons, how can the demons themselves die of old age?

If you can't even figure this out, are you an idiot?

"Brother Mo Lian, can you teach me Kung Fu when you get back, okay?" She asked Sui Zimo who was driving a carriage outside.

"good."

Sui Zimo responded.

Chapter 1574 Don't care about anything

He also thought about it, it wouldn't work if he just protected Sonny all day long.

She always has to grow up on her own.

"It's just that practicing kung fu is too hard. Just don't cry and say you're tired."

He is afraid that if the little girl cries to him, he will soften his heart. He can be indifferent to anyone, but he cannot be hard-hearted towards the little girl.

"No, no, this definitely won't happen."

Lin Caisang immediately shook his head like a rattle.

Once she makes up her mind about something she wants to do, how can she complain about hardship and tiredness?

Besides, even if she was tired from complaining, she would be fine after she cried out. Wouldn't she still be able to get up and continue the next day?

"Brother Mo Lian, how about we practice here?" she suggested.

You can practice whatever you want in this virtual task. The key is that it doesn't take time.

When she was in that county, she spent the few days waiting for the old leader of the demon tribe to come to her door. She had asked her brother Mo Lian to teach her kung fu.

She felt that days like this were quite good.

"good."

Sui Zimo answered again.

"We will practice when we return to Wuzhu Tea House."

"Yeah."

Lin Caisang responded repeatedly, but...

...

In the Wu Bamboo Tea House.

Looking at the two people in front of him, Lin Caisang silently glanced sideways, slightly raising his head to look at Sui Zimo standing aside.

Where is the person who promised to teach her kung fu? Why do these two people appear here, or in this time period?

Jade mirror, come out, I need to ask you a very serious question!

It's a pity that Yu Jing couldn't answer any of her questions at this time. She just smiled at the two people in front of her and asked them to sit down first.

"Go ahead and leave it to me."

Sui Zimo looked at her and whispered to her.

"Um."

Lin Caisang responded, walked to the side of the fish tank, and put the red gold and red silver back into the fish tank.

After being outside for so long, if the two little ones are not put back into the water for a while, their fighting power will be gone.

But at this time, it happened that they didn't know what went wrong, and another mission came. They couldn't accept it even if they wanted to, so they had no choice but to bite the bullet and continue.

"You two, have a sip of tea first."

Sui Zimo made tea, brought it over, and placed it in front of the two young men.

"thanks, thanks."

The two immediately picked up the tea and drank it without fear of burning their mouths.

Then, he thanked Sui Zimo repeatedly.

Seeing this, Lin Caisang put the red gold and red silver back into the fish tank, then took a plate of pastries from the side and placed it in front of the two of them.

"Let's eat something first."

Sure enough, when the two young men saw the food, they didn't care about anything, grabbed it and stuffed it into their mouths.

After a while.

Lin Caisang's mouth was slightly open as he watched the two of them eat up the plate of pastries, and then drank all the tea that Sui Zimo had poured for them twice.

"You two, how long have you... gone without eating?"

She had wanted to ask this question for a long time, but she didn't ask it until there was no food left on the table.

Looking at the eating faces of the two young men in front of her, it really reminded her of a saying called - the womb of a starving ghost!

Watching one of the men hold out two fingers, she guessed.

"Two days?"

Then, she saw the man shaking his head.

She blinked, confused.

Chapter 1575 What is the appeal?

"Girl, we haven't had a full meal in twenty days." Another man said.

Lin Caisang: "..."

What is the concept of not having a full meal for twenty days?

Wouldn't these two people in front of me starve to death?

Twenty days!

How they survived is a miracle!

However, after a while, she realized that what they were saying was that they had not had a full meal in twenty days.

That means they can still eat something occasionally, right?

"You...Brother Mo Lian.

She looked at Sui Zimo.

Sui Zimo understood and immediately brought some fruits from another place and put them on the table.

"Thanks."

The two men looked at the fruit and swallowed.

"My name is Yun Zhi, his name is Yun Bai, and we are from Yuncheng."

While Yun Zhi was eating the fruit, he spoke to Lin Caisang and Sui Zimo.

"Our Yuncheng was originally a very prosperous place, but twenty days ago, there were thieves in our city. All the food from every household was stolen, and not a single grain of rice was left for us."

Yun Bai also said.

"Then what?" Lin Caisang asked.

This thief is really powerful. He can actually steal all the food from every household in a city.

And it was stolen in one day.

It must have been done at night, it was definitely not possible during the day.

"Then we didn't care about catching the thief, so we went to other cities to buy some food. Who knew that after just one meal, the food disappeared again."

When Yun Bai talked about this, Lin Caisang and the others could hear the anger in his words.

"It's been twenty days. Every time the food we bought was stolen, the people in the city were so hungry that their chests pressed against their backs. We really had no choice. I heard that the people in Wuzhu Tea House were very powerful. , I just want to come here and give it a try."

Lin Caisang: "..."

This thief really makes people hate him so much.

If her house was robbed every day, and if not even a grain of rice was left, she would be furious.

However, that thief was also very capable and could steal food under the eyes of so many people.

It's been twenty days. Anyone who wants to come to Yuncheng hasn't taken precautionary measures, right? But it was of no use to the thief. No matter how careful he was, he was still stolen.

"Then what are your demands?" Sui Zimo asked.

"Our appeal is to find that thief and let us give him a good beating!" Yun Zhi said immediately.

For the past few days, he had even dreamed of finding the thief and beating him until he didn't even recognize his parents.

I am so angry, I have never seen such a hateful thief!

Lin Caisang: "!!!"

The person in front of me is really...

What should she say? If this matter happened to her, it would definitely not be settled by a simple beating.

"Girls and gentlemen, please don't listen to Yun Zhi's nonsense. On behalf of all the people in Yuncheng, I request you to help us find the thief who stole our food and send him to where he belongs."

Yun Bai ate something and finally had the strength to raise his hand and slap Yun Zhi on the back of his head.

"Besides, ladies and gentlemen, I still want to remind you that that thief is definitely not an ordinary person, because he only stole food, but not gold and silver, not even a bit of gold or silver."

Chapter 1576 Only Fengcheng has it

"Yes, yes, this is true.

Yun Zhi heard Yun Bai's words and nodded quickly.

"In order to prevent the food from being stolen, we city lords put all the gold and silver in our homes into the food and wrote a note on it, asking the thief to take the gold and silver away and stop stealing food.

But it was no use. Early the next morning, the gold, silver and notes were still there, and the food... disappeared again. "

Lin Caisang: "!!!"

He actually brought something like this, not wanting any gold or silver, but only stealing food.

Why does she feel like this rhythm is a bit bad?

This was no ordinary thief. She had never seen a thief who only stole food!

"In that case, then we will..."

"Rest for two hours before setting off.

She was about to say let's go, but was interrupted by Sui Zimo.

Following his gaze, Lin Caisang saw the fish tank. Yes, the red gold and red silver still needed to be raised.

What's more...

She turned her eyes and looked at the white clouds and clouds in front of her.

These two people also need to be raised, otherwise they will starve to death halfway.

"You two, on the way to Wuzhu Teahouse, didn't you think of buying something to pad your stomach first?" She asked quietly the question she had wanted to ask all along.

White clouds and cloud layers: "..."

Please forgive me that they really didn't think of this question at the moment.

"I came here to ask for help, how could I have thought of that?" Yun Zhi muttered with a red face.

Yes, Yuncheng was in a critical situation. How could they take care of themselves? They had no choice but to come to Wuzhu Tea House for help.

In this way, they waited outside Wuzhu Teahouse for a long time. Because there was no one in Wuzhu Teahouse, even if they wanted to find someone to help, they couldn't find anyone.

...

Cloud City.

A place that looks richer than other places in every aspect.

"I heard that the clouds are rich in sapphire, and it is the kind of crystal clear sapphire that is only found in Yuncheng. It is very rare." Lin Caisang looked out from the carriage and said to Sui Zimo.

It is a pity that no matter how good the blue jade is, it is only something here and cannot be taken out outside the virtual space.

Otherwise, she would have to take advantage of this mission to get some blue jade back.

"Only Fengcheng has it," Sui Zimo said.

"Um?"

Lin Caisang closed the car curtain, then turned to look at him.

"Weifeng City, Brother Mo Lian, are you talking about Weifeng City in Liang State? There are also blue jade there? Why haven't I heard of it?"

Weifeng City in the Liang Kingdom is a big city with a very beautiful scenery. Whenever spring comes, only Weifeng City is filled with the fragrance of flowers.

The word "weifeng" comes from the fact that every spring in the city, as long as the wind blows, the sky will be filled with petals, making people forget to leave.

But, isn't it just a city with great scenery?

Why is there sapphire again?

"Few people know that the blue jade in Wei Feng City is more beautiful than anywhere else." Sui Zimo said.

"If you like it, you can ask your uncle for something. There is a sapphire mine in Weifeng City. It has been controlled by the governor of Weifeng City. No one else dares to touch it."

"Is there such a thing?"

Lin Caisang raised his eyebrows and asked.

According to what Sui Zimo said, the sapphire mine should have been concealed, but the governor of Fengcheng did not report it to the emperor, right?

"Tsk tsk, this county guard is really bold!"

Chapter 1577 Is this...happy?

You know, mining without authorization is a capital crime. Who dares to rush for the word death? It's not like he is impatient to live.

"The mine has not been mined."

Sui Zimo naturally knew the meaning of her words and explained.

"The governor of Wei Feng City is also a careful person. Apart from giving some blue jade to his family on weekdays, he doesn't do anything out of the ordinary.

Of course, the huge expenses of the Sheriff's family must be squeezed out of the sapphire mine. Relying on this sapphire mine, the Sheriff's family spends a lot of money outside. "

"Ah."

Lin Caisang sneered.

Isn't this almost the same? It shows what kind of person the governor of Weifeng City is.

"How did you know about this, Brother Mo Lian?"

She looked at Sui Zimo and asked.

Only the county guard of Fengcheng could hide the matter of the sapphire mine so closely, how could it be known so easily?

That would have been too careless. Wouldn't it have been exposed to the emperor a long time ago?

"If he wants to do business, he must have a provenance." Sui Zimo replied calmly.

Lin Caisang: "..."

The origins of those blue jade are all in her family, Mo Lianke, right?

"Then I'm going to cut off your financial resources. Isn't this... bad?"

She said to him angrily.

This county guard is really a pickpocket. I'm afraid he knows that Jiulian Palace is not a force of the Liang Kingdom, right?

Therefore, he was sure that the people in Jiulian Palace would not inform the emperor of Liang Kingdom, so he dared to be so bold and sell the blue jade to outsiders!

"Instead of letting others make money, it's better to honor my son. Isn't that a bad idea?" Sui Zi asked her back with a smile in his dark eyes.

"Okay, how could I say it bad?"

Lin Caisang smiled and nodded. This couldn't be better. As for the county guard, he occupied Liang Guo's property by himself. How could such a person be qualified to be the governor of a county?

"When this mission is over, I'll deal with that guy when I get back."

She said to Sui Zimo.

"Um."

Sui Zimo responded.

While he was talking, the carriage had stopped.

"arrive?"

Lin Caisang raised an eyebrow, turned around and saw that Yun Bai had already lifted the car curtain.

"Girl, sir, we are here."

"It's coming, it's finally coming."

"City Lord, I already know that Yun Bai and Yun Zhi are capable children. No, we finally invited the people from Wuzhu Tea House."

"Our Yuncheng is finally saved."

When Lin Caisang and Sui Zimo got off the carriage, they were frightened by the sight in front of them.

She saw people surrounding the carriage in circles, which could take away all the air from them, and made her completely confused.

"What is this scenario?"

She couldn't help but take a step back, and shrank closer to Sui Zimo.

"Why are there so many people? Are you... happy?"

She looked at the faces of those people, and they all looked very excited and happy.

Aren't these people supposed to be starving to the point of becoming emaciated and weakly wailing at her? Why was she excited when she saw it?

All right.

She thought it was better to do this. If someone really cried and cried, then she didn't know how to react.

"Girl, sir, please don't mind. Ever since Yun Zhi and I left, the people in the city have been looking forward to your arrival. They are so happy because they feel there is hope."

Chapter 1578 Where did you go?

Yun Bai saw that Lin Caisang and Sui Zimo looked a little unhappy, so he quickly explained.

After all, food has been stolen too many times, and everyone in the city has been panicked. Now that we finally have a little hope, can we not be happy or excited?

"Father, how is the situation in the city now?"

Yunzhi didn't look at Lin Caisang and the two of them, but looked at the man in brocade who stood in front of them.

At first glance, he should be the city lord of Yuncheng.

"Why."

When the city lord heard his words, he couldn't help but sigh heavily.

"No, since you left, two more batches of food... have been stolen from the city. The food in the city now has just been bought, and people have been specially assigned to watch it.

Thinking of the food that had been stolen so many times, the Lord of Cloud City was also heartbroken.

Where can such a thing exist? Yuncheng has never encountered such a thing in so many years.

Stealing food, and so much food was stolen, where was it transported from? Nothing has been shipped out from the city gate, only the food that has been shipped in these days.

"Two distinguished guests, you have had a hard journey, why don't you go and take a rest first?"

He looked at Lin Caisang and Jianwen Mo and asked.

"No need."

Sui Zimo spoke calmly.

"Please also ask the city lord to take us to the place where the food is stored, so that we can have an idea."

"this....."

The city lord looked at Lin Caisang, then at Sui Zimo, and nodded.

...

"What...what's going on?"

When Lin Caisang and Sui Zimo were brought to the place where the grain was stored, he was stunned when he saw the empty warehouse.

"Where are the people? Where have they gone? Get out of here, Lord!"

He yelled at the empty warehouse.

No wonder he was angry. Who would feel better after their food was stolen so many times?

"City Lord, we are here."

A muffled voice came from the corner.

Several people turned around and saw four guards lying in a mess on the back of the warehouse door.

"You...you guys...what's going on?"

The city lord walked over quickly and asked them.

"My subordinates don't know either. I was on guard just now when I suddenly felt a pain in my neck. I don't know anything about what happened after that." A guard had already woken up and put his hand on the back of his neck, explaining.

He really didn't know anything. He was obviously guarding in the warehouse, and nothing happened before.

How do you know...

They were attacked suddenly, leaving them no time to prepare.

"You...you opened the warehouse?"

"No, City Lord, we have not opened the warehouse." The guard's head shook like a rattle.

It's not like they were too brave. How could they open the warehouse without the city lord's order?

This is absolutely impossible.

"City Lord, we haven't opened the warehouse door at all."

The guards stood up, their faces also full of question marks, they still felt strange.

"Tell me, what's going on?"

Lin Caisang took a step forward and asked.

"Who is this....."

"Just say what you want, why are you so long-winded?"

At this time, who has time to answer the guard's doubts? The city lord said to him angrily.

"Well."

The guard choked at the city lord's words and hurriedly responded.

Chapter 1579 Dog Cat

"City Lord, when we were attacked, the door of the warehouse was not opened at all. Ye Yan)"

Although he was unconscious due to the attack, he still knew what it was like in the warehouse before he was unconscious.

The door of this warehouse must not have been opened before he was attacked, and the person who attacked him did not know what method he used to enter the warehouse under their noses without opening the door.

This is so strange.

"That is how the matter?"

the city lord asked.

However, even though that was the question, the city lord was not surprised by what they said.

After all, he had ordered several locks on the warehouse door before, but it was of no use. The food was still stolen, without exception.

"Subordinate, I don't know either."

How could the guard know what was going on? He only knew that the back of his neck was still hurting.

That girl's attack was so cruel that she almost cut his head off from his neck.

While the city lord was questioning the guards, Lin Caisang and Sui Zimo looked at the empty warehouse.

"Brother Molian, look here."

In a corner, Lin Caisang squatted down and looked at a few hairs on the ground.

She reached out and wanted to pick up the hair, but Sui Zimo reached out to stop her.

"Be careful.

"Don't worry, it's not poisonous, just a few ordinary hairs." Lin Caisang glanced at him and said.

But even so, Sui Zimo did not let her touch those hairs. Instead, he reached out and picked up the hairs himself.

"What kind of animal hair is this, and why is it so long?"

She looked at the hairs in confusion and asked Sui Zimo.

It's really strange. Each of these hairs is as long as half of her arm, but it is impossible to say that it is human hair.

Because this hair is yellow.

Moreover, Lin Caisang took the hair to the tip of his nose and smelled it, and immediately frowned.

"There's a fishy smell. It's not human hair, it's definitely animal hair," she said.

"Ask them and you'll find out."

Sui Zimo set his sights on the city lord and the others.

The two walked over immediately, and he handed the hair to the city lord.

"City Master Yun, do you have any animals with longer hair here?" he asked.

"this....."

"Sir, there are many animals with soft and long hair here. There is more than one kind. We have found hair like this before, but these hairs are really of no use."

Yun Zhi said to Sui Zimo.

He thought the two people at Wuzhu Tea House could find something, but unexpectedly, they also focused on these hairs.

Unfortunately, it is of no use. These hairs can be found anywhere, not just in this warehouse.

"Sir, the hair on your hand should be left by a dog-shaped cat."

Yun Bai glanced at the hair on Sui Zi Mo's hands and said to him.

"But in Cloud City, many people keep dog-shaped cats in their homes. They are not very precious animals. Moreover, dog-shaped cats are stupid and should not steal so much food."

"A dog-shaped cat."

Lin Caisang glanced at Sui Zimo and saw that he immediately loosened his hand, and the hair was thrown to the ground.

"Many people keep them. Are there still many people who keep them now? Have any of those who keep dog-type cats ever lost such animals? Please send someone to ask the city lord."

Chapter 1580 Have you discovered it?

"Okay, this city lord will send someone to ask."

City Lord Yun immediately summoned two guards and gave them instructions.

"Girl, what do you mean by this? Do you really think that dog-shaped cats stole all the food here?"

He felt that this was simply impossible.

Unless the dog-shaped cat became a sperm, it would be absolutely impossible for him to do such a thing.

Seeing the expression on the city lord's face that was simply impossible, Lin Caisang was speechless.

She didn't say that the canine cat stole it, she just asked them to check if there were any lost canine cats in the city. These people were thinking too much, right?

"Let's look around again. City Lord, if you have anything to do, you can go ahead and ask... Yun Bai to follow us.

Sui Zimo paused for a moment. He originally wanted to talk about Yun Zhi and Yun Bai, but after listening to the two talking before, he felt that Yun Bai was more reliable, so he eliminated Yun Zhi's name.

"Oh well."

City Lord Yun looked at Yun Bai, then at them, pursed his lips and nodded.

Although he also wanted to follow, it was obvious that the two people at Wuzhu Teahouse didn't want him to follow, so he couldn't stay shamelessly.

Therefore, in order that no more food would be stolen in Yuncheng in the future, he had better leave first.

It just so happened that there were some things over there that he needed to deal with, and since the food was out, he had to send someone to buy it again.

This is a top priority. We can't let the people in the city go hungry, right?

"Yun Bai, you are accompanying these two distinguished guests. If you need anything, just ask the city guards to take care of it.

He told Yun Bai beside him.

"Yes, City Lord."

Yun Bai responded respectfully.

...

After City Lord Yun left, Lin Caisang and Sui Zimo walked around in the warehouse before leaving.

"Brother Mo Lian, have you noticed?"

When he came outside, Lin Caisang raised his eyebrows at Sui Zimo.

"Um."

Sui Zimo nodded and responded.

He discovered that in addition to those dog-type cat hairs, there were also hairs from other animals in the warehouse.

It's just that those have less hair, while canine cats have more hair.

"Master Yunbai, do dog-type cats shed their hair during this season?" Lin Caisang looked at Yunbai who was walking with them on the street and asked.

"right."

Yun Bai responded.

"The shedding season of canine cats is different from that of other animals. It is winter now, which should not be the season for animals to shed their hair, but canine cats are different. Their bodies are different from other animals. They are warm in winter and cool in summer.

It can be said that canine cats' bodies become very cold in the summer, so they need thick hair.

In winter, canine cats' bodies become very hot, so they need to take off all their hair to dissipate the heat in their bodies.

This is also the reason why many people in Cloud City keep dog-type cats as pets. "

After hearing his words, Lin Caisang couldn't help but curled his lips.

This dog-shaped cat is like a small air conditioner, which can keep you warm in winter and cool down at the same time. What's more convenient than an air conditioner is that it can be moved.

No wonder there are so many dog-type cats.

If she lived in Yuncheng, she would definitely want to raise one, okay?

"Um."

She responded softly.

"Nothing will be found in the warehouse for a while, but... I believe something will be discovered soon."

She looked at Sui Zimo.
