

Star of Space 1941

Chapter 1941 I remembered

He also wanted to know where his eldest brother had gone, but his eldest brother didn't even show him the letter. What could he do?

Furthermore...

Seeing his mother like this, he wished that his eldest brother would not come back. He felt that it was better not to mention some things to his mother, such as the fact that his eldest brother had spiritual powers.

As for when his mother found out from others, that was none of his business.

"Ze'er, what did your elder brother do? He would always tell you this, right?" Luo Mianyi asked.

Knowing roughly where Yue Chushui went, she would have a direction.

After thinking about it these days, she still felt that Yue Chushui could not be kept. A person without spiritual power could curry favor with the leader of Haibo Kingdom. What if...

She thought to herself that fortunately Yue Chushui was not a spiritual practitioner.

However, even if Yue Chushui doesn't know how to cultivate spirits, if those people from Desolate Land come over, there's no guarantee that they won't support Yue Chu.

Coupled with Mrs. Yue who always defends Yue Chushui, she feels that the position that should belong to her son as the young master of the Yue family is also in danger.

"have no idea."

Yue Tianze directly replied with the word "mother".

"No....."

Luo Mianyi was almost choked by these three words about her son and looked at him angrily.

"How could you not know? You are his brother. He sent you back and then left. Wouldn't he explain it to you?"

she questioned.

Yue Tianze: "?"

Explain, explain what?

As for his eldest brother, who can't speak more than a few words a day, can you explain to him?

That day his eldest brother would save him, and he felt that he had become more capable and could impress his eldest brother.

Still explain?

Oh, by the way, his eldest brother really explained it to him.

"Yes, eldest brother said something to me."

"What words?"

Luo Mianyi's eyes lit up and she asked quickly.

"Let me think about it."

Yue Tianze recalled it carefully, and then looked at his mother seriously.

"Ah, I remembered."

"Say it!"

Luo Mianyi couldn't wait any longer and asked excitedly.

"Big brother told me to stay at home and practice well, and stop following those bastards from Yuzun Academy to practice. If I go out again, no one will come to save me even if I die."

Yue Tianze said to his mother word for word.

No, if his elder brother hadn't saved him quickly this time, he would have been a corpse... Oh, no.

Under the attack of the flying winged snake, there would not even be a corpse.

Because, after they are all dead, the flying-winged snake will swallow them all into its belly, so naturally there will be no corpses.

That's called a person who can't see people alive and can't see corpses after death!

Luo Mianyi: "..."

She stared at her son blankly, an unknown anger rising in her heart.

That loser, why do you say that to her son? Her son is a genius in cultivation, and he can already go out to practice with the people of Yuzun Academy at a young age.

And with Chu Shui, even if he is gone, he is just a burden.

Such a person still has the nerve to talk about her son! I really want to make her angry to death!

When Yue Chushui comes back, she must give him a good lesson.

wrong!

We can't let Yue Chushui come back like this, we must get rid of him before he returns to the Yue clan.

"You listen to your elder brother's nonsense. With all his abilities, he still talks about you? If he dares to talk about you again next time, just scold him."

Chapter 1942 No one told me

She warned Yue Tianze with a cold face.

Her son, Luo Mianyi, couldn't be looked down upon by others, let alone a loser. This was absolutely impossible.

"Mom, he is my eldest brother!" Yue Tianze said.

Besides, Yue Chushui said this really for his own good.

I really can't just follow others out for training in the future, it's too dangerous.

Even if you really want to practice, you have to wait until you are free and take your eldest brother to practice together. That way it is not dangerous and fun.

"What big brother, he..."

Luo Mianyi opened her mouth, wanting to say that she wasn't her eldest brother anyway, and she didn't give birth to him, but when the words reached her lips, she swallowed them again.

Although Yue Chushui was indeed not her biological child, she had promised to treat Yue Chushui as her own son. Many people did not know that Yue Chushui was not her son.

In this case, she would naturally not say it in front of her son.

"Anyway, remember, you are the future young master of the Yue clan. Chu Shui cannot cultivate spirits, so he is incomparable to you. Do you understand?"

She warned Yue Tianze.

"understood.

Yue Tianze responded with a faint voice.

Over the past year, he has finally figured out that although his mother brought her eldest brother back, she never thought of treating him as her own son.

He dared to predict that if he dared to say even half a word of good things about his eldest brother now, his mother would do something even more outrageous.

"Mom, sometimes I wonder, is my eldest brother your son?"

Suddenly, he asked.

Hearing this, Luo Mianyi's expression changed, and her whole person felt bad.

"What nonsense are you talking about? Who said this to you? Your eldest brother is not your mother's son. Who else can he be?"

Her heart skipped a beat, and she couldn't help but wonder if anyone among the servants of the Yue family knew about her relationship with Luo Qiuyi, and also knew that Yue Chushui was not her son.

Did she tell her son this secret?

Since Tianze has told it here, will he also tell Yue Chushui?

Therefore, Yue Chushui has not been close to her at all this year, and rarely even calls her mother. Is it because he already knew that he was not her son?

If that is really the case, then Yue Chu Shui must not be allowed to stay!

"No one told me."

Yue Tianze looked at his mother's excited look and raised his eyebrows in surprise.

"I was just thinking, we are both your sons, so how come Hao'er and I are treasures, while my eldest brother is just a piece of grass in your eyes? This treatment is too different, isn't it?"

Moreover, seeing his mother's attitude, he became even more suspicious. Could it be that his eldest brother was really not his mother's son?

If the eldest brother is not my mother's son, then whose son is he?

However, no matter what, the eldest brother must be his father's son. Otherwise, grandma and father would not bring him back, right?

"you....."

Luo Mianyi's face was extremely ugly. If she hadn't seen that the person in front of her was her biological son, she would have wanted to slap him.

Have you ever joked with your mother like this?

"If I keep talking nonsense, be careful not to tell your father to put you in solitary confinement!" She glared and warned Yue Tianze.

"Mother, how could you be unkind to your eldest brother? If not, it's because his son is not close to me, my own mother, so what can I do? Besides, he can't cultivate spirits. As one of the young masters of the Yuezhi clan, How could the position fall on his head? "

Chapter 1943 It's so terrible

"Ah."

After hearing what his mother said, Yue Tianze just smiled and said nothing.

If his mother's words were spoken, would anyone believe it? He doesn't believe it anyway.

Luo Mianyi became even more angry when she saw her son looking like this, and couldn't help but raise her finger to point at the tip of Yue Tianze's nose.

"You brat, stop talking nonsense. No matter how bad Chu Shui is, he is still my son. Also, you are not allowed to say such things in front of your brother in the future, do you understand?"

Yue Tianze: "..."

When did he say this in front of Yue Tianhao?

Wouldn't you bring someone so unjustly accused?

"For such a grown man, he might as well be as obedient as your brother.

Luo Mianyi glanced with disgust at her son who was old enough to make decisions of his own and had his own ideas.

It is said that a child has no control over his mother, and this old saying is indeed true!

"Your brother still knows how to help mother share things, but what about you? You go out for so long, and when you come back, you are only angry with mother. Why did mother give birth to a son like you?"

With that said, she turned around and walked away in a hurry.

Yue Tianze: "!!!"

He vaguely remembered that he went with his eldest brother to train with the disciples of Yuzun Academy. Was it the mother who mentioned it to him herself?

Why are you blaming him now?

Could it be that he wants to go? Mother didn't mention it herself. She said that going outside to experience something would also help you gain experience!

"Women are so fickle!"

He looked at his mother's retreating back and said.

...

In a small town not far from the Yuezhi clan.

Yue Chushui bought a house here, which was a small nest he prepared for himself.

When he has nothing to do, he will come here and plant some vegetables. Then he will buy some medicinal seeds and plant some medicinal materials in the yard.

At this moment, Yue Chushui was holding a pen and drawing something on the paper. There was a pile of paper on the ground, all of which was scrapped. At this moment, he was frowning.

"I'm so useless."

After a long time, he put down the pen in his hand and looked at the messy portrait in front of him.

He learned in the letter that it turned out that his uncle had probably come to Qianhuan Continent instead of missing as he claimed. Therefore, he wanted to draw a portrait of his uncle and then ask someone to look for him first.

However, in the past, he did not often go to the Lin family with the Liu family couple. Lin Baizhong did not really have a deep impression on him. He had only met him once or twice.

So now, if I want him to show the appearance of Great Bolin Baizhong, even if his painting skills are very good, he still can't draw it.

What's more, his painting skills are really... terrible.

Unable to draw, he sat down and looked outside the study door, "I don't know when Sister Sang Sang and the others will be able to come over. Will they come to the Yuezhi clan to find me first?"

Originally, he wanted to find his uncle first, but the Qianhuan Continent was so big and crowded with people, where would he go to find him?

Thinking of this, he couldn't help but secretly feel annoyed. After coming to Qianhuan Continent for more than a year, apart from practicing, he had forgotten how many friends he should make, even if they were friends who each benefited from each other, he should have made a few friends.

"How about returning to the Yuezhi clan first?"

He stood up and asked himself.

If Sister Sang Sang and the others come, they will definitely get to the Yue clan first, right?

If he is not here, what will happen if Luo Mianyi drives Sister Sangsang and the others away?

Chapter 1944 Is this a den of robbers and bandits?

After thinking about it, he decided to return to the Yuezhi clan first.

Even if he didn't want to see Luo Mianyi's unappetizing face at all, he didn't want to miss Sister Sang Sang and Brother Molian.

...

Eastern wilderness.

After flying for several days on a flying mount.

Finally, Sui Zimo and Lin Caisang and their group came out of the eastern wilderness where there was no life except for them.

"Finally, it's out."

Looking at the scene in front of him, Lin Caisang sighed.

"Master, Mistress, ahead is Zhendian, where should we go to rest for a night before we continue our journey?" Ban Jue looked at Zhendian not far ahead and asked.

Lin Caisang glanced at Sui Zimo, and then Sui Zimo nodded to banished Jue.

"Go and make arrangements."

"yes."

Ban Jue responded and took the lead in raising his feet together with Ban Wu.

only.....

When they came to the town, they were both stunned when they looked at the inn in front of them.

"You can't use silver coins to stay in the hotel, so what should you use?" Fei Wu asked.

"Use Yuan Stone."

The waiter looked at them as if they were idiots and said.

"Primordial stone?"

Ban Wu murmured these two words softly, then turned around and raised an eyebrow at Ban Jue.

"What about eating? For what?" Ban Jue asked.

"Of course we use Yuan Stone, what else can we use?" the waiter said matter-of-factly.

Two people: "..."

There are no primeval stones on them at all.

Not to mention their bodies, even the master and mistress, there can't be primeval stones on them, right?

"Then do you have a place where you can exchange silver coins for yuan stones?" Ban Jie thought for a while and asked the waiter again.

"Yes, but ten taels of silver are exchanged for one yuan stone. If you stay in an inn like ours for one night, one room will cost one hundred yuan stones." The waiter replied.

Two people: "!!!"

This is not an inn, this is a bandit's den, right?

Ten taels of silver per Yuan Stone, so one hundred Yuan Stones would require one thousand taels of silver?

And it's just one room!

Then there are ten people in their group, even if they sleep two by two, they will need five thousand taels of silver per night, and that doesn't include food!

"Go and ask the master and mistress first," Ban Wu said.

If they follow this spending method, it is estimated that all the money in their hands will be spent soon, no matter how much they have, they will never spend it.

...

"So expensive?"

Lin Caisang was shocked when he heard the words of banning Jue and Wu.

On this thousand fantasy continent, the cost of one night is enough for their family to spend more than a year at home. It's simply incredible.

"Brother Mo Lian, it seems we can't stay in this inn anymore." She looked sideways at Sui Zimo and said.

Coming to this place means they are starting over, right?

The silver and gold on my body are all worthless, and I can empty them out with just a little movement.

"Go and exchange the Yuan Stone and stay one night."

Sui Zimo thought for a moment and then gave instructions to the two banished men.

"Yes, Master." The two banished Jue and others responded, then went to exchange for the Yuan Stone and prepared to stay at the inn.

"Sang Sang, I have the impure spar and the pure spar that my mother gave me, otherwise..."

Lin Changhong saw that they, who were originally generous, became stretched thin when they arrived in Qianhuan Continent, so he wanted to use the things that his mother had given him before.

However, Sui Zimo and Lin Caisang did not give him this opportunity.

"Not allowed!"

They both spoke to him at the same time.

Chapter 1945 Don't sell the medicinal materials

"Why?"

Lin Changhong asked with a puzzled look on his face.

Before they left, their mother told them that these things were only for use in critical moments.

Now they are in trouble. Isn't it a critical moment? Can't it still be used?

"Brother, we just encountered some problems now. We can't just back down. Those things should be reserved for the most difficult times to save your life. Of course, if you can't use them, it's best not to use them."

Lin Caisang said to his eldest brother.

My mother couldn't just give it to her eldest brother. She also gave her a lot of things for self-defense.

However, she had no intention of using these things unless it was critical. Even if she had to start over from scratch, of course, even in such a difficult situation for the Lin family, she could make money and move up step by step.

She believed that they didn't have to worry about anything when they came to Qianhuan Continent.

What's more, she still has a universal bead space. If it doesn't work, she can just eat and drink all the space. That's okay.

"Jiang Zuo, Jiang Li, go and find out how to earn Yuan Stone in Qianhuan Continent." She ordered Jiang Zuo and the two of them.

"Mother, it's better for me and Jiang Li to go together. I'm a woman, and it's easier to inquire about things among women." The servant stood up and suggested to Lin Caisang.

When asking about things, it is more convenient for a man and a woman to go there. If two men go there, it will inevitably arouse people's doubts, and maybe they won't be able to find out anything by then.

Moreover, when they first arrived in Qianhuan Continent, they didn't just want to know how to earn Yuan Stone, there were other things as well.

"Okay, you go together."

Lin Caisang responded and asked her to leave with Jiang.

"Jiang Zuo, take this medicinal plant and go to a drug store to see if you can sell it. Be smart and don't sell the medicinal plant."

She took out a freshly dug medicinal material from the golden bead space and handed it to Jiang Zuo's hand.

She dug this when she was in Haibo Country. After planting it in the medicine garden space for several months, it has grown a lot. She doesn't know if she can sell it for a good price.

Of course, this is just a small trial. If the sales are good, you can sell more medicinal materials.

"Yes, Mistress."

Jiang Zuo responded, took the medicinal materials and left.

...

After a while, the two of them had exchanged the Yuan Stone and opened five rooms in the inn to stay.

Shi Jian and Ban Jue were standing in the lobby with the waiter, looking like they were having a very happy chat.

Of course, the purpose is still to find out something.

They still knew too little about Qianhuan Continent. After all, it was impossible to get such complete information about Qianhuan Continent from the eldest princess.

We still have to let them go to the actual place and examine it before they know what to do specifically.

Soon, Jiang Zuo came back in a hurry, holding a bag in his hand. It contained something that could not be seen, but it was definitely not bad.

"How's it going? Jiang Zuo."

When Ban Wu saw him, he quickly came forward and asked.

"I....."

Jiang Zuo opened his mouth, but seeing that there were several strangers in the lobby, he didn't say anything directly.

"Go back first and see the master and mistress before we talk."

"good."

Ban Wu glanced at Ban Jue who was still chatting with the waiter, and then went in with Jiang Zuo.

A short while later, a small pile of Yuanjin stones in several colors was placed in front of Lin Caisang. Looking at the Yuanjin stones on the table, several people's eyes were full of excitement.

Chapter 1946 It's quite dangerous

"Mother, I didn't expect that your medicinal materials would be so easy to sell. You sold them for one hundred yuan in gold and stone," Jiang Zuo said.

one

"However, the medicine shop here is not very visible. My subordinate asked. In Qianhuan Continent, a small part of the medicinal materials and elixirs are auctioned in the auction house. Of course, they are all top-quality medicinal materials. .

And those low-grade medicinal materials that are not worth auctioning are sold at random stalls on busy streets. "

"Would you like to set up a stall?"

Lin Caisang raised his eyebrows, and in the next moment, everyone understood what his mistress meant.

After a while, Jiang Li and Shi Shu also came back.

"Mother, in this place, no one else can, but those who sell medicinal materials and elixirs are definitely the hottest business, especially the medicinal materials that can condense spiritual energy. There are many people who are snatching them and they can't buy them.

The servant told him all the information he had gathered.

Of course, it was not just about selling medicinal materials, but also other news. She also told them all. Jiang Li also added a few words that the servant had forgotten.

"Okay, starting from tomorrow, let's make some money here first." Lin Caisang patted the table, stood up, and said to everyone.

...

the next day.

I didn't get up early in the morning and set up a stall outside to sell medicinal materials.

Lin Caisang took out one of the many medicinal materials in the medicine garden space and showed them to Jiang Zuo and others. It was herself who had taken all the medicinal materials in the Jinzhu space early in the morning. All the medicinal materials were drawn into a booklet.

"You go out and find out now."

Seeing that they had almost recognized the medicinal materials, Sui Zimo said.

"Master, I want to go out too."

Zhong You has not been assigned anything since he came with us, he said.

"Then you follow Sister Shijian and help her record it." Lin Caisang thought for a while and nodded.

The reason why Zhong You is not allowed to go out to do things is because his spiritual power is the weakest and she is afraid that he will be bullied in Qianhuan Continent. Moreover, she is responsible for taking Zhong You with her, and she cannot really ignore everything. .

"good."

Seeing that he could finally go out, Zhong You immediately responded happily.

"You all should be careful. You would rather not find out anything than let yourself get hurt. Do you understand?"

Lin Caisang looked at them and explained.

"Yes, Mistress."

Several people responded at the same time and went out.

...

After everyone left, only Lin Caisang and Sui Zimo were left in the room, and they entered the Jinzhu space.

"These medicinal materials, I really hope they can be sold."

Looking at the medicinal materials in the medicine, Lin Caisang sighed and said.

"Actually, we can think of other ways, madam."

Sui Zimo put his arm around her waist from behind and pulled her into his arms.

They wanted to earn Yuan Stone, and there were many ways to do it. His wife had worked very hard to dig out these medicinal materials, and he was a little reluctant to just sell them.

He knew that his wife liked these medicinal materials.

"Do you want to go to the beast forest to hunt monsters to sell?" Lin Caisang naturally guessed what Sui Zimo was thinking.

After coming here, the money in their hands has become worthless. The only things that can be used are the things in the golden bead space in her hands.

Of course, if there is no golden bead space, they can also hunt World of Warcraft to make money, but that is not the only way, and it is quite dangerous.

Chapter 1947 Go sell your craftsmanship

"no.

Sui Zimo shook his head.

Hunting monsters? Those monsters had no grudge against him, and he didn't really want to hunt them.

"Didn't you buy an alchemy book in the Jinzhu Pavilion? I can follow the methods in it and make more weapons. Here, good weapons are as valuable as elixirs."

Lin Caisang: "..."

She really couldn't help it and wanted to remind her husband.

"Husband, alchemy requires... materials!" she said.

"I know."

How could Sui Zimo not know that alchemy requires materials?

"So, after you sell this batch of medicinal materials, let's go to Wuji Lake first. There are many medicinal materials and alchemy equipment there.

There are just too many dangers.

Lin Caisang added silently in his heart.

But who says they can't go to places with many dangers? Wujitan is a good place. I heard from my mother that there are also Wuji shrimps there, which are particularly delicious. Of course, they are also very expensive and cannot be afforded by ordinary people.

Of course, there are a few other things to grab.

"Then after we sell the things here, we will go to Wuji Lake?" she asked.

"No."

Sui Zimo shook his head after hearing her words.

"No?"

Lin Caisang looked at him doubtfully, his eyes full of confusion.

He didn't mention it himself, so why couldn't he say it?

"We don't sell medicinal materials here."

Sui Zimo kissed her little cheek and said.

Outside the Eastern Wasteland, there is just a small town, and it is also a remote town. The price of selling things here is completely different from selling these medicinal materials in other places.

His wife had worked so hard to grow these things, so how could he just sell them?

"Besides, I want to take advantage of these days on the road to pick all the fruits in the food garden and make jam."

he said.

Hearing this, Lin Caisang's eyes lit up.

Yes, everything in the farm space can be sold.

They can't earn other yuan stones, but they can always sell food, right?

However, she felt really strange about letting her husband sell his craftsmanship, and she felt sorry for him.

"Then I will also make some pastries and sell them, as well as dried fruits. There are always more ways to go," she suggested.

Her husband can't be left alone to cook and sell food, it's better to have her by his side.

"good."

Sui Zimo responded.

...

After staying in the town for another day, the group of them left.

After driving for more than ten days, we finally arrived at Yunxia City, a subsidiary city of Sky City.

At that time, there was a lot of excitement among the Yuezhi clan. Luo Mianyi looked at Yue Chushui who had come back from the outside without any injuries. It was very disturbing, especially knowing that he had obtained a piece of the Haibo Kingdom. token, and my heart felt like it was being gnawed by tens of thousands of ants.

After coaxing him several times, he wanted Yue Chong to get the token from Yue Chu's sailor and give it to Yue Tianze.

But Yue Chong is not a fool who doesn't understand anything. Naturally, he won't listen to Luo Mianyi and do such thankless things.

Not to mention that the token was given to Yue Chushui by the leader of Haibo Kingdom. Even if it wasn't, he would not touch Yue Chushui's brow at this time, knowing that Lin Caisang and Sui Zimo, It's coming soon.

If he treats his son Yue Chushui badly at this time, he is simply asking for his own death.

From the very beginning of their contact with Lin Caisang and Sui Zimo, he knew that these were two people who did not follow common sense. If they made them unhappy, they would most likely be killed.

Chapter 1948 Don't even think about it

Of course, it is very possible that his fish is dead, and the net between the two of them has not been broken yet!

So now, if he can avoid conflict with Yue Chushui, he can avoid it.

"Brother Chong, how could you do this? Chu Shui is your son. How can a father be so afraid of his own son?" Luo Mianyi looked at her husband like this and was really furious. He couldn't help but accuse.

No matter how great Yue Chushui is, he is also Yue Chong's son, right?

How can any father in this world be so afraid of his son? What's more, that son is still a loser and has no ability at all.

Such a person can be so feared by Yue Chong. What if Yue Chushui is an outstanding person? Will she and her two sons still have a place in this family in the future?

"You don't need to remind me whether Chu Shui is my son or not!" Yue Chong glared at her coldly.

If Yue Chushui was not his son, he wouldn't need to be so worried. He could just drive him out of the Yue clan.

But unfortunately, Yue Chushui is his son!

He knew very well that his mother, Mrs. Yue, was on Yue Chushui's side. What's more, there was Mrs. Luo who loved her grandson to death. Together, these two old people could feed him a pot. .

Now we have to wait for the couple Zimo and Lin Caisang...

I don't know what kind of fate that couple followed. They just arrived in Qianhuan Continent and they became the savior of the leader of Haibo Kingdom.

Now it's better, I dare to write a letter to threaten him directly.

Originally, if nothing happened, he would not care about a simple letter. However, that simple letter caused him internal injuries, and it took him several days to recover.

So that couple must not be simple.

"Don't even think about the things on Chu Shui's body. There are so many things from the Yue clan, aren't they enough for you? Do you have to go to Chu Shui's body to get them? As a mother, do you still want to show some respect?"

He asked Luo Mianyi coldly.

"I....."

Luo Mianyi was questioned to the point where she couldn't say a word.

She really wanted to say, could she spend as much as she wanted on the Yuezhi clan's things?

The power of the housekeeper has always been in the hands of the old immortal Mrs. Yue. Her daily expenses are only her own dowry and the moon silver provided by the Yue clan.

Moreover, she was originally at odds with Madam Yue. Apart from Yue Yin, Madam Yue would not give her anything extra!

As the wife of the head of the Yue family, she is not as good as the other wives.

Let's talk about her natal family, right?

Since she insisted on marrying Yue Chong, except for the dowry, her mother has not given her any support. Even her two sons are not welcome in the Luo family.

But now that Yue Chushui is back, her mother has begun to take action, and she even wants to hand over half of Luo's property to Yue Chushui, a loser!

Aren't her Ze'er and Hao'er the biological grandchildren of the Luo family?

Thinking about it, she felt so sick that she felt like killing someone!

However, no matter how sick she felt and wanted to kill someone, what could she do? Her mother is partial to Yue Chushui and doesn't care about Ze'er and Hao'er. How can she still argue with her mother?

Even if we fight, we won't get anything, right?

"Brother Chong, how can you say that?"

She looked at Yue Chong with a sad face, looking like Da Bailian.

"I say this and think this not just for you. If you have the token of the leader of Haibo Kingdom in your hand, then our Yuezhi clan's status in Yunxia City will immediately have to rise a few levels. .

Chapter 1949 We both know it well

Not to mention in Yunxia City, even in Sky City, people can think highly of them. How come those people who are so fawning have not broken through the threshold of our Yuezhi clan?

But now, that token is in Yue Chushui's hand. He is a waste who doesn't know how to cultivate spirits. What's the use of holding that token? It can't be eaten as food.

Instead of putting the token in his hand, which is of no use, then why can't he take out the token and give it to you as a filial piety? You are his biological father. Is there such a clear distinction between father and son? "

It has to be said that Luo Mianyi's words touched Yue Chong's heart.

Of course he wanted to get the token in Yue Chushui's hand. Not only that token, but also it would be best if Yue Chushui could give Mrs. Luo, his mother-in-law, to Yue Chushui. Hand over all the things belonging to this grandson!

But is this possible?

Will Yue Chushui hand over all those things to him?

The answer is of course impossible!

Although Yue Chushui is his son, his attitude towards him in the past year has been too cold, and he is not as good as an ordinary servant.

In a situation like this, how could you ask him to hand over the things?

"Don't even think about this!"

He still had a cold face and glanced at Luo Mianyi.

"If you have time to plot against Chu Shui, you might as well go see Ze'er and Hao'er more. I heard that Ze'er hasn't left the room for a long time since being sent back by Chu Shui?"

As a mother, you don't even care about your own son, but you still have the time to talk to me about tokens or not.

Even if Chu Shui will hand over the token, that's not what you can imagine. The token from Haibo Kingdom belongs to our Yue clan. Furthermore, although Chu Shui calls you mother, what exactly do you think? Whether she is his mother or not, we both know very well. "

"you--"

Luo Mianyi was almost angered to death by Yue Chong's words.

"Brother Chong, we agreed at the beginning that when I marry you, Chu Shui will be my son from now on. Although he was Tianyu at that time, but now that Chu Shui has been found, he will naturally be too..."

"It would be great if you could know that Chu Shui is your son." Yue Chong interrupted her and said pointedly.

Luo Mianyi choked on his words again. Was he blaming her for not taking good care of Yue Chushui?

It's not her biological son, why should she take good care of him?

But when it came to this matter, she felt a little guilty, because the reason why she was able to marry Yue Chong in the first place was because she had promised to treat her sister well because of the old head of the Yue clan and several elders of the clan. The son is regarded as his own son.

However, she clearly has her own son now, so why should she always think about other people's sons and wrong her own son?

If a person does not serve himself, he will be punished by heaven and earth. This is always true, right?

Thinking about it, she had nothing to feel guilty about. Who made Yue Chushui's life miserable without his own mother? He deserved it!

"If you have nothing to do, just go down. Don't disturb me here to deal with my affairs." Seeing that she didn't speak any more, Yue Chong asked her to go down first.

"I....."

Luo Mianyi naturally refused to give up and wanted to give Yue Chong some advice.

But Yue Chong obviously didn't want to hear what she had to say anymore and gave her a cold look.

"Some clan elders are coming over later. Do you want them to hear how you treat Qiu Yi's son? Huh?" he threatened.

"I....."

Chapter 1950 Feed those dogs!

When Luo Qiuyi was mentioned, Luo Mianyi's silver teeth were about to be bitten into pieces.

But there is no way. Even if she is dead, Luo Qiuyi will be her Achilles heel in this life. To this day, the elders of the Yuezhi clan are all on Luo Qiuyi's side.

Because those clan elders have more or less received favors from Luo Qiuyi.

Therefore, she could only knock out her teeth and swallow blood.

"Brother Chong, I will go back first. As for the token..."

"roll!"

Yue Chong saw that she was still stubborn and had said so much, but still thought about the token in Yue Chu's sailor, so he angrily yelled a word at her.

Luo Mianyi was so frightened that she didn't dare to say anything. With red eyes, she turned around and left quickly.

She really didn't expect that after so many years of marriage, Yue Chong would actually yell at her, and it was a very impatient roar. She had never seen it in her life. It was the first time, so she was naturally scared.

"Huh, talkative woman!"

After Luo Mianyi left, Yue Chong snorted coldly at the study door and cursed again.

...

The Yuezhi clan is in another courtyard.

Madam Yue, as the head of the Yuezhi clan, naturally has many servants who are loyal to her.

Therefore, Yue Chong and Luo Mianyi quarreled in the study, and Luo Mianyi was kicked out again. She soon found out.

"Ah."

Mrs. Yue held a piece of pastry in her hand and sneered.

"He's quite ugly and tough."

However, this stubbornness is just because he failed to get any benefits from his son, so he took his temper out on his wife.

If Chu Shui had offered the token with both hands, I'm afraid that within a few days, Luo Mianyi would have coaxed the token into her own hands, and then she could do whatever she wanted outside again.

He can still use Chu Shui's name.

Because that token was given to Chushui by the leader of Haibo Kingdom.

"Old lady, this pastry..."

The nanny next to Mrs. Yue did not comment on the master, but looked at the pastries in her master's hands and the plate of pastries on the table.

Hearing this, Mrs. Yue lowered her eyes and glanced at the delicate pastry on the plate, and then threw the piece in her hand directly into it.

"Take it and feed it to the dogs in her yard!"

He ordered to grandma.

"Yes, madam."

Even though she responded, she still swallowed carefully.

The dogs that Mrs. Yue mentioned were not real dogs, but the maids who gave Luo Mianyi advice and poisoned the eldest son's pastries. They were all serving Luo Mianyi this month. Madam's.

The old lady is indeed an old lady. A single word can determine the life or death of so many maids.

But yes, these people are really brave. They dare to touch anyone, and they even set their sights on the eldest young master.

Poison...

Also, they don't know at all that the eldest son never eats food from the clan. All the food he eats is bought by himself.

Moreover, it is not just as simple as the eldest son buying it from outside.

When the eldest son goes out to buy food, he always does it very... How should I put it, very casually. After going out, he will buy wherever he wants to go. In short, he will not give any chance to those who are following him to do something.

Of course, it is even less likely that people will have the opportunity to guess where he will go shopping next time.
