

Star of Space 2141

Chapter 2141 Zilingyu?

"Not so fast.

Sui Zimo sat down and gave her a piece of braised pork.

"Yinluqing's work must be very secretive, and it cannot be found out so quickly. However, according to the information obtained by Chu Shui, Princess Niu cleared out so many servants, and Yinluqing was very angry."

"of course."

Lin Caisang raised his eyebrows and nodded.

The current Niu Prince's Mansion is a blind spot for Yinluqing. How can he not get angry in a hurry?

"It's just that the angry one is a fake after all. Is this really clear?"

Hearing this, Sui Zimo nodded.

"What's fake is fake, there's nothing wrong with it," he said.

"However, I didn't expect that there was someone behind him."

"Um?"

Lin Caisang had just picked up the pieces of meat. After hearing what her husband said, she raised her head and looked at him.

"You mean there is someone behind Yin Lvqing? Who?" she asked.

In other words, there is someone behind Yinluqing who is helping him, or there is a master behind Yinluqing who is manipulating him to do all these things?

"Oh, you don't know anyone, but, husband, do you think the person behind Yin Lüqing is his master or his accomplice?"

There is a big difference between the two. As the prince of Ziyang Kingdom, Yinluqing has not many people who can become his master, but there are many people who can partner with him. In this thousand years On the Fantasy Continent, grab a handful.

"On this matter, we can only ask Yinluqing himself." Sui Zimo said.

Hearing this, Lin Caisang raised his eyebrows.

"We don't even know where Yin Lüqing himself is now."

If she could see Yin Lüqing, she would be the first to grab him by the collar and ask who the person behind him was.

But whether Yinlu Qinghui will say that is not certain.

However, she has many ways to make Yin Lüqing reveal the secret of the person behind him.

"The one named Nighthawk has already gone to find Yinluqing. I asked the two white foxes to follow him." Sui Zimo said.

The target for people to follow Nighthawk is too big. Only the white fox is small and fast and can keep up with Nighthawk.

"Um."

Lin Caisang responded.

"Eat more."

Sui Zimo gave her more food and asked her to eat more.

"Zilingyu was delivered to the courtyard this morning. I'll cook it for you tonight."

"Zi Lingyu?"

Lin Caisang paused while eating.

It has been a while since I came to Qianhuan Continent, so I naturally have a certain understanding of the spiritual creatures on Qianhuan Continent.

This spiritual fish is the best thing to replenish spiritual power. Princess Niu is actually willing to buy such an expensive thing. Is it for her son?

"Princess Niu is really willing to give up anything for her children."

Thinking about it, she reached out and touched her already bulging belly.

After her child is born in the future, she, the mother, will definitely collect all the good things in the world and give them to her.

"Prince Niu sent it." Suizi Mo Ding stared at his wife and said.

Lin Caisang: "!"

Did Prince Niu send it? Could it be that he was poisoned?

The person who wanted to kick them out one moment, gave them such expensive things to eat the next moment?

This had to make her suspicious. Did he want to poison them directly so that he could send people to throw them into a mass burial?

Chapter 2142 Same heartless

"Are you sure it was Prince Niu who sent it, not Princess Niu?"

she asked.

Hearing this, Sui Zimo nodded seriously.

He still knew who sent the things in the yard, and he was on guard against everyone in Prince Niu's Mansion.

"Those sub-spirit fish are very lively. If you want to raise a few fish in the golden beads, you can do that," he said.

"good."

Lin Caisang responded immediately.

It didn't matter who sent it, as long as she had something to eat.

As for the purpose of Prince Niu sending those Zi Lingyu here, that is not what she should think about now. Anyway, no matter what the purpose is, they will always know it when the time comes.

"I'm still interested in the imperial tomb of Zi Yan Kingdom," she said.

"There will be news about this matter soon." Sui Zimo said.

...

Ziyan Kingdom, where the imperial mausoleum is located.

"This mountain range is indeed majestic. Young Master, Jiang Li, we really want to give this place to..."

Shishu looked at the mountain range, then lowered his head to look down, and saw the imperial mausoleum built on the mountainside. There were so many phoenix stone sculptures in front of the imperial mausoleum, which was really spectacular.

Such a great place, are they really going to destroy it?

"Of course, if we don't stir up some trouble here, who in the entire Ziyan Kingdom would dare to discuss the matter of the imperial mausoleum?" Lin Changhong looked at the imperial mausoleum in the distance, with obvious excitement in his eyes.

"But, no matter what, this place is also the resting place of Baiqing's ancestors. If it is really going to be destroyed, that boy Baiqing won't..." Shishu still hesitated.

She couldn't even imagine that this order was actually given by her master.

"Baiqing doesn't care about this. If he knew it, it would be good if he didn't applaud." Jiang Li said.

"Well."

The waiter choked on his words.

Yes, Baiqing's temperament is just like that of her master and mistress...well, no, she should have learned from Jiang Zuo, they are just as heartless.

She used to think that this child was hopeless, but now...

"I heard the servants in Prince Niu's palace secretly saying that after Baiqing disappeared, not only did Prince Niu send no one to search for him within a few days, but even the emperor, who always loved him so much, didn't search for him. Within a few days, the people who had been sent out were summoned back.

Do you think there is something wrong with this emperor? "

Hearing this, Lin Changhong and Jiang Li looked at her in unison and raised their eyebrows.

As the king of a country, isn't it normal to have problems? I'm afraid that not only the treatment of Baiqing, but also other descendants will not care too much about the emperor, right?

Anyway, there are so many princes and grandsons. If one of the favorites dies, there can still be many favorites. It's not a big deal.

"It's strange that the emperor has no problem." Jiang Li said.

"this....."

Shishu was choked by Jiang Li's words again.

Indeed, they had searched the entire Zi Yan Kingdom, and there were not many good people among the royal family.

As the saying goes, if the upper beam is not straight and the lower beam is crooked, and the descendants are not kind, how can the elders be kind?

"Then now..."

"Let's go, there's always something to do."

Lin Changhong took the lead in raising his feet and walking towards the mountainside.

They have to do it early and late. Since there are good things in this imperial tomb, they must not return empty-handed.

...

'Boom, boom boom——'

Chapter 2143 It's also a crime that does not lead to death

Not long after, several loud noises came from the imperial mausoleum, shaking the entire mountain range.

The tomb guards guarding the imperial mausoleum immediately rushed out from all directions and surrounded the entire mountain range, trying to find out where the loud noise came from.

"Report!"

A mausoleum guard hurried over and came to a general wearing armor.

"General Qi, the northern part of the imperial mausoleum was bombed, and the West Underground Palace left a lot of footprints. There are a lot of treasures scattered outside the West Underground Palace."

"What?!"

When the man who was called a general heard this, he felt bad.

He is the general responsible for guarding the imperial mausoleum, which means that his entire family and life are entrusted to the imperial mausoleum.

Now, not only was the imperial mausoleum bombed, but the treasures that the royal family cared about most were all thrown all over the floor?

Who is he? Is he crazy?

He actually threw the treasures all over the floor. If it were him, he would definitely throw away all the treasures...

"wrong."

The general thought for a moment and looked at the subordinates in front of him with a dark expression.

"What are those treasures?"

As soon as he asked the question, before his subordinates could reply, he threw back his robe and headed towards the West Underground Palace.

After a while, the mausoleum guards looked at their general and sat down in front of the treasures. His whole body was covered with a strong layer of deathly aura.

"How could this happen? How could this happen?"

He kept muttering in his mouth, wishing he could cut into pieces the man who stole the treasures from the imperial mausoleum.

How could he deliberately scatter the treasures in the West Palace all over the floor? He obviously took too many treasures from there. He thought that they might be discovered by the guards guarding the

mausoleum, so they took away those treasures that they thought were unimportant. Yes, they were all thrown away.

If his guess was correct, the person who stole the imperial tomb should have stolen all the better and more valuable things.

"General, what's wrong with you?"

Lingwei, who had not yet figured out this question, asked when he saw his general looking so lost.

It was just that some treasures were scattered everywhere, but at least they were not lost. Some parts of the imperial mausoleum were destroyed, but it was not serious. Even if the emperor would blame it, it would probably not lead to death.

"General, let us report to the emperor truthfully. Even if the emperor appreciates the general's years of hard work and merit, he will not punish him too severely."

"You fart!"

After hearing this, the general cursed.

Why wouldn't the punishment be too severe? This time, he was the only one who died, so that would be an advantage for him.

Maybe, they will all be punished!

The emperor is a cruel and ruthless master, wouldn't he know?

He has been following the emperor for how many years. He has been following the current emperor since he was a child. The emperor trusts him very much. This has always been what he is most proud of.

Otherwise, the emperor would not be able to send him to guard the imperial mausoleum. This is the most important place that every emperor of Ziyan Kingdom considers it.

Who would have thought that it was because of the emperor's trust in him that he was directly entangled in this imperial mausoleum.

The person who stole the treasure just stole the thing. Anyway, the West Underground Palace is not guarded by generals like them. They can enter, and no one will know that the West Underground Palace has been stolen.

But the thieves threw some more outside the West Palace, and even planted explosives in the imperial mausoleum.

Chapter 2144 There's no next time

How much hatred is there against him, to be able to harm him to such an extent!

"call!"

He took a deep breath, finally regained his strength, and stood up crookedly.

This matter was such a big deal that almost no one in the entire imperial mausoleum didn't know about it, so they definitely couldn't hide it if they wanted to.

However, he was unwilling to give in. He had worked hard for the emperor for so many years, guarding the imperial mausoleum, and could not even be reunited with his family. And now, his family would have to lose their lives because of him?

No, he couldn't let his family die for him. Even if the news about the imperial mausoleum reached the emperor's ears, he would take advantage of it and arrange for his family to get out.

His family can no longer be allowed to stay in Zi Yan Country.

"Immediately count all the damaged areas in the imperial mausoleum. This general will report it to the emperor." He ordered the mausoleum guards.

"Yes, General."

Although the mausoleum guards were also frightened, they did not dare to disobey the general's orders, so they had no choice but to do it.

...

"Sangsang, Sangsang, are you resting?"

Lin Changhong's voice came from outside, but his words didn't last long before his mouth was covered by Jiang Li behind him.

"Sir, are you afraid that people outside won't know that the master and mistress are in Prince Niu's palace?" He lowered his voice and asked in Lin Changhong's ear.

They screamed so loudly that everyone in Prince Niu's Mansion would know that they came from Huanglu. Are those Yinluqing looking for?

Hearing this, Lin Changhong was also slightly shocked.

But he still raised his hand and slapped Jiang Li's hand covering his mouth, and Jiang Li let go.

"I forgot for a while, but pay attention next time."

Lin Changhong looked at his own sister who was looking at him with reproachful eyes, and he hurriedly smiled.

"There will be no next time." Lin Caisang looked at him and said.

If her eldest brother is allowed to go out again, everyone in Mengyan City will probably know that they live in Prince Niu's Mansion.

At that time, not only Yin Lūqing, but also the person behind Yin Lūqing will have to jump out to deal with them. Now is not the time to reveal their traces, but they must take a long-term approach.

"Okay, okay, let Chu Shui go out next time. That's okay." Lin Changhong had no choice but to say.

At this time, he couldn't make his sister angry, otherwise, his father and mother would have to beat up their son to vent their anger on their daughter.

So, first comfort his sister.

"Sang Sang, look at these, I brought them back from the imperial mausoleum. It turns out that in the imperial mausoleum of the Ziyang Kingdom, there is not only the Purple Qi Stone, but also the Dragon Seizing Pill, and this is it."

He handed a very red bead in front of his sister.

Suddenly, as if he thought of something, he turned the hand holding the beads and handed the Dragon Seizing Pill in front of Sui Zimo.

"This Dragon Seizing Pill is not a good thing, Sangsang, you'd better not touch it."

Otherwise, his parents will still beat him up.

Sui Zimo took the Dragon Seizing Pill, looked at it carefully, then looked at his wife and nodded.

"It is indeed the Dragon Seizing Pill, but it has no aura on it. It must be that no one has discovered the usefulness of this pill, and it has been abandoned."

he said.

"That's lucky." Lin Caisang said.

Yes, it's not a blessing. If this thing is really discovered and used, it will definitely be a disaster for Qianhuan Continent.

Chapter 2145 There are many traps

"There must be something else." She looked at her eldest brother and the others and asked.

Hearing this, Lin Changhong, Jiang Li and Shi Shu poured out all the things they had obtained from the big cloth bags on their bodies.

Only three clattering sounds were heard.

Lin Caisang looked at the shiny things on the ground in shock. It took him a while to react and looked up at the three of them.

"You're not here to cause trouble, are you here to steal something?" she asked, twitching the corners of her mouth.

With so many treasures, have they emptied everything from the Ziyang Kingdom's imperial mausoleum? It's really done!

"Mother, it's not our fault. In fact, these things... are indeed very good. Look at these weapons... eh. As soon as Jiang Li mentioned the weapons they brought out from the imperial mausoleum, he was The waiter bumped his elbow.

"Shishu, what's wrong with you?"

He choked and turned to look at the servant who bumped into him.

So good, why hit him? Did he say the wrong thing?

But the weapons and other weapons he brought out from the imperial mausoleum are indeed very practical.

Next, they will have a big battle with the people of Yinluqing. So, are these things just in use?

"Shut up, you."

The servant glanced at her master, then glared at Jiang Li.

Their master is an alchemist. As a subordinate, Jiang Li actually thinks that weapons made by others are good?

How little she cared about her master. If it were her, she would definitely kick him in the chest until he could no longer speak.

"I....."

Jiang Li opened his mouth, looking confused.

I really can't figure out why I said the wrong thing. Why does the official's face look so ugly? Are these weapons bad?

The weapons his master built were nothing compared to these...well.

At this moment, he finally understood why the servant told him to shut up. Wasn't he trying to boost others' ambitions and destroy his master's prestige? Why was he so stupid?

"Master, subordinates..."

When he heard that he was about to speak, Sui Zimo raised his hand.

"Madam, put all these things away. Maybe they will be useful to deal with Yin Lüqing in the future. If not, just return them to Yu Yin Baiqing later."

He looked at Lin Caisang and said.

"good."

Lin Caisang nodded and moved one hand, and the pile of things on the ground was taken into the golden bead space.

"Tell me, how is the situation in the imperial mausoleum?" Sui Zimo asked Jiang Li and Shishu.

"Back to the master, the terrain there is not complicated, but there are many traps inside. My subordinates and the young master wanted to enter the East Underground Palace, but they just took one step forward and were blocked by the traps."

Jiang Li told his master about the situation in the imperial mausoleum.

The mechanism there is one of a kind. He glanced at Lin Caisang before continuing to speak.

"The agency news there, even if the mistress goes there, it will be difficult for her to escape unscathed."

"Master, my subordinates can testify to this. It is true. The institutions there are really powerful." The servant secretary also agreed.

Hearing this, Lin Caisang raised his eyebrows and looked at his eldest brother.

"Sang Sang, the institutions in that place are really powerful. If your brother hadn't had some skills, he would have died there." Lin Changhong saw his sister looking towards him, thinking that she had heard what Jiang Li and his attendants said. Shu was not convinced, so he said something.

Chapter 2146 He will be my brother-in-law from now on

"Don't think too much, we are not saying that your machine skills are not good, are we?"

Lin Caisang: "..."

The corners of her mouth twitched severely.

How did they know that she was expert in mechanism arts?

Although she had read a few books about mechanism techniques, she copied those books to Lin Changhong, her eldest brother.

She is really not good at the mechanism technique at all, not to mention that the mechanism in the Golden Pearl Space has not been opened yet.

"You guys are really at the top of your game at flattery. How can I be so good at my little machine skills on the Qianhuan Continent?"

She said smiling at them.

"But according to what you said, there are more important things stored in the East Underground Palace?" she asked.

"Sang Sang, the East Underground Palace is the burial place for the royal family of the Ziyang Kingdom. At most, they are just some burials, right?" Lin Changhong said.

According to their inquiries, the West Underground Palace is where treasures are kept, while the East Underground Palace is basically where dead people are buried.

Did they hear wrongly?

Impossible, they really heard it.

Or maybe, in fact, the Eastern Underground Palace really contains better treasures, but it is just because they are afraid of attracting people's attention that they say that the Eastern Underground Palace is where the ancestors of the royal family are buried?

Otherwise, if the Eastern Underground Palace is full of coffins for dead people, why would there be so many sophisticated mechanisms?

Could it also be used to protect the bones of dead people?

Of course this is impossible.

"Tomorrow, you can go explore again." Sui Zimo said.

Lin Changhong: "..."

They just bombed several places in the imperial mausoleum today and stole a lot of money.

If we go back tomorrow, we won't be arrested. The tomb guards in the imperial mausoleum are not just pretending. They are all very powerful.

"Brother-in-law, you will be my brother-in-law from now on, okay?

Now the entire imperial tomb has been bombed. Although the area where it was destroyed is not big, it is a lot. Jiang Li and I will go there again tomorrow. Do you want us to behead people? "

All he could do was hehe, he really couldn't figure out what his brother-in-law was thinking, or did he really want to be his brother-in-law?

Everyone: "..."

"What did you say?"

Lin Caisang glanced at his eldest brother angrily and was speechless.

"The imperial mausoleum was bombed. It must be a mess now. Take advantage of the chaos to investigate so that no one will find out. If it takes a few days, the imperial mausoleum will be even more heavily guarded. Brother, do you understand?"

"this....."

After hearing his sister's explanation, Lin Changhong really thought that was what happened.

"Sangsana, according to your wishes, we might as well set off later, right?"

he said.

"If you think so, I have no problem with it." Lin Caisang shrugged and said.

"Want me to go with you?"

"How is this possible?"

Lin Changhong immediately widened his eyes and shook his head.

If he asks his girl to go with him, will the head on his neck still be there?

He will definitely be screwed down by his parents, right? If this is the case, even a beating will be saved, and you can just burp the fart.

"You are in Prince Niu's Mansion, I will go with them." Sui Zimo thought for a while and said.

After all, even Lin Changhong said the agencies there were very powerful, so they had to be more careful and prepare what they should.

"good."

Lin Caisang naturally had no objection.

However, she still took out the clothes woven from ice silk from the golden bead space and put them on.

Chapter 2147 Never let it go

...

That night.

The imperial mausoleum, which had already been bombed once during the day, heard roars again.

But this time, the explosives were not deliberately arranged, but the mechanism in the imperial mausoleum was broken, which caused the explosion.

What was different from before was that the damage to the imperial mausoleum was so serious this time. The tomb guards were even more panicked than before, looking everywhere for the person who destroyed the imperial mausoleum.

But how could they possibly find the people who had already left before the explosion in the imperial tomb?

"Where is the general? Where has the general gone?"

Captain Youling Guard grabbed a Tomb Guard next to him and asked.

Now that the imperial mausoleum has been destroyed like this, why haven't you seen the general yet?

Didn't he ask them to count up all the things lost in the imperial mausoleum, and he would take them back to report to the emperor and apologize to the emperor?

Why is it that at this time, no one is there?

Thinking about it, it seems that since the last time the imperial mausoleum was bombed, he has never seen the general again. Could it be...

Thinking of that possibility, the Tomb Guard Captain shook his head, thinking it was unlikely.

The general is the most trusted person by the emperor. There is no way he would run away just for the slightest loss of the imperial mausoleum. The last time the imperial mausoleum was bombed, the area was not large, so there was no way...

"The general has not come back since he left at noon.

Lingwei's words successfully negated the Lingwei captain's confidence in the general.

"Didn't... didn't come back?"

At this moment, the Tomb Guard Captain was also panicking.

What does he mean by not coming back? Does it mean that the general really escaped regardless of the bombing of the imperial mausoleum?

If he escapes, what will the general's subordinates do?

Originally, the emperor would be furious if the imperial mausoleum was destroyed, but now that the general only cares about himself and escapes, wouldn't they all be affected by the emperor's rage?

"No, it won't happen. The general must have thought of a way. It must be the case."

He said to himself in his heart, he couldn't imagine what would happen to the people here if the general really escaped.

How ruthless the emperor of the Ziyang Kingdom was, they had heard the general mention it when he was drunk. If he was really furious, it would be possible to wipe out the entire imperial mausoleum guards.

In other words, just killing these people would be easy, and it is more likely that their families would be affected.

"You continue to search, and you must catch the bold thief. You must not let go of any place!"

"Yes, Captain."

Lingwei responded and continued to search.

And here, when the Tomb Guard Captain saw his subordinates leaving, he took a deep look at the sea of fire, then took a deep breath, turned around and left.

He didn't expect that he could escape this disaster, but nothing could happen to his family.

At this moment, he could suddenly understand why the general ran away. If he took a risk for the safety of his family, so what, it was better than doing nothing, right?

...

On the busy street, a young man and woman were sitting at a stall, drinking hot tea, and then listening to other people talking about rumors there.

"If this continues, I won't hear any news."

Ban Wu looked at Shi Jian, who looked calm, and then looked at those people, who looked innocent.

I can't help but wonder, what are they doing here?

"We'll wait and see, maybe we can still find out something." Shi Jian didn't want to give up and wanted to sit down for a while.

Chapter 2148 The three Yi tribes will be punished with death

"I think I can't find anything out." Fei Wu shook his head.

Looking at them, it was clear that everyone's face was very panicked. Many people passed by in a hurry and did not stop at all.

Those who can sit down here and take a sip of tea are all people with a certain status, or people with good spiritual power who can ensure that they will not fall into the pit of the imperial mausoleum.

But unfortunately, from the mouths of these people, I couldn't hear anything about the imperial mausoleum.

He is really weird.

"Tell me, are they afraid to say it?"

"How about we arrest someone for questioning?" Shi Jian suggested.

"good."

Ban Jue responded, feeling that waiting like this was definitely not the way to go. It would be better to arrest someone directly and ask them.

...

A short while later, in a small alley that no one passed by.

An old woman over fifty years old was already holding the sword in her hand.

She looked at this woman and saw that she came from the mansion of a dignitary. She should be a servant in charge of purchasing. This kind of person is usually the best informed.

Only then did she focus on her.

"You...what do you want to do?"

The woman was carried in the hands of a masked woman. She was already frightened and asked tremblingly.

"Don't worry, we just want to ask you a few questions. As long as you answer them obediently, we won't hurt you." Shi Jian raised his other hand and patted the woman's face.

"You...what do you want to ask...ask?"

The woman was so frightened by the warm feeling on the swordsman's hand that she shrank her neck.

"Such a big thing happened in the imperial mausoleum. Why is no one talking about it in the entire Mengyan City?" Ban Jue asked.

Upon hearing his words, the woman's eyes widened instantly, and the look on her face was even more horrifying than when they caught her and wanted to kill her.

"Are you...are you crazy? Discussing the imperial mausoleum is a capital crime. If you are found out, you will be punished by the Yi clan!"

Banished: "!!!"

Shi Jian: "!!!"

Just talking about the imperial mausoleum will cause the Yi tribe to suffer. How important is the imperial mausoleum of the Ziyan Kingdom?

No wonder they had been wandering outside for almost a day and couldn't find out anything.

"You said you'd wait a little longer."

He glanced sideways and glanced at the sword attendant beside him.

Shi Jian's face was also full of embarrassment. How could she know that the imperial mausoleum of Zi Yan Kingdom was still not open to discussion.

However, just because there are so many monsters in the imperial mausoleum, the royal family will not allow the people to discuss it. Thinking about it this way, it seems to make sense.

...

Holding a bowl of egg custard in one hand and a spoon in the other, Lin Caisang raised his head and looked at Ban Jue and Shi Jian.

"What do you mean, the three Yi tribes?"

Even though this is a slave world, it is also a continent for spiritual cultivation.

The strong are respected, even if they are the royal family of a country, so what? Their Yi clan, to those strong men, is nothing like that, just listen to it.

"Mother, the people of Mengyan City really don't dare to discuss the matter of the imperial mausoleum." Ban Jue said.

"Those people we arrested before were so frightened that they couldn't even speak when they heard the word 'imperial mausoleum'. They didn't even care about the knife we put on her neck. They just pushed us away and ran away. We only caught one This woman, it was from her mouth that it was forbidden to speak in the imperial mausoleum."

"So that's it."

Chapter 2149 You can ask me

Lin Caisang glanced at her husband.

Watching him take the custard away from her hand and put it on the table, she also put Ban Jue and Shi Jian into the golden bead space.

"Husband, what should we do next?" she asked.

"Easy to handle."

Suizi Mo said.

...

"What did you say?"

In the yard, Princess Niu heard Yin Baiqing's words, and Shunying's eyes widened.

"You...they really went to the Emperor's Tomb...ugh!"

She was shocked, and quickly raised her hand to cover her mouth. She took a look at the fact that there was no one else around her except her son, and then she breathed a sigh of relief in her heart.

This young master and his wife are too bold. They even dare to blow up and destroy the imperial mausoleum.

It really scared her.

However, it is precisely because of such ruthlessness that great things can be achieved.

In the past, she was too good-tempered and thought of others first, which was why her son ended up living on a deserted continent.

If she could do it all over again, she would never be merciful to those people and wouldn't let them hurt her son.

Of course, nothing can happen again.

"There is nothing we can do about it. We have already found the imperial tomb, but we just can't find out the secrets in the imperial tomb, so we have to take this step." Yin Baiqing raised her eyebrows and said.

Of course, for him, blowing up the imperial mausoleum was not a bad idea. They also got a lot of good things from the imperial mausoleum.

But he would not tell his mother and concubine that one day his brother-in-law found many corpse cups in the East Underground Palace.

This is also the reason why brother-in-law Sui activated all the mechanisms in the East Underground Palace and blew it up after leaving.

There are so many corpses in the cup. If they all escape, will anyone in Ziyang Kingdom survive?

I'm afraid they'll all die in the mouth of the corpse cup.

I don't know who he is, but he is so vicious and raises such a terrible thing in the imperial mausoleum?

He guessed that he must be a member of the royal family. Otherwise, it would be impossible for anyone to be so bold based on the mausoleum guards guarding the imperial mausoleum.

"If you want to know about the imperial mausoleum, you can ask me."

Princess Niu raised her hand, patted her son's face lovingly, and then spoke.

Although she is just a princess and does not dare to interfere with the affairs of the court, she grew up in Mengyan City anyway. Even the information that cannot be found out for a while will be revealed in the mouths of those who are close to her. , you can still hear something.

"Princess, do you know?"

When Yin Baiqing heard her mother-in-law's words, her eyes immediately lit up.

Princess Niu chuckled lightly when she saw her son acting like this.

"I don't know much, but it's better than asking outside. Very few people outside have the courage to mention matters about the royal family," she said.

"Why?"

Yin Baiqing didn't understand and asked.

Now that the imperial mausoleum has been bombed, isn't it the time for everyone to mention this important event? How could they not dare to mention it?

"We all have curiosity, don't we?"

"Silly boy."

Princess Niu smiled again.

"No matter how great your curiosity is, it is not as important as your own life. Anyone in the Ziyan Kingdom who talks about the imperial tomb will be sentenced to death if discovered."

"hiss!"

Yin Baiqing gasped.

"Princess, is it true that no one in the Ziyan Kingdom dares to talk about the imperial mausoleum?"

he asks.

"of course not."

Princess Niu chuckled and shook her head.

Chapter 2150 The Emperor's Handiwork

It's just the imperial mausoleum. Those who imposed capital punishment on the Yi tribe were all targeted at ordinary people. Compared with the powerful and powerful people, or the nobles, even if they joked about the imperial mausoleum at home, there were Who dares to do anything to them?

Therefore, there is nothing bad to say about her.

"But why are you so interested in the imperial tomb?" she asked.

And Sui Zimo and Lin Caisang, why are they suddenly interested in the imperial tomb? Apart from some treasures, there is nothing special about that place, right?

"That's not because my mother found out that the purple gas stone on my body was always placed in the imperial mausoleum."

"What?!"

Princess Niu was shocked when she heard this.

She never knew about the Purple Qi Stone, but she only found out about it after Sui Zimo and the others mentioned it.

But this thing actually came out of the imperial tomb.

How could the treasures in the imperial mausoleum come into the hands of her son? Needless to say, someone must have deliberately taken them out from the imperial mausoleum and brought them to her son.

Who on earth is this person who is so vicious!

"No, that's not right."

Suddenly, she shook her head and stared at her son with burning eyes.

"Princess, what's wrong with you? Why do you look so bad?"

When Yin Baiqing saw the face of his mother and concubine, he couldn't help but regret it. He shouldn't have promised his brother-in-law to come here to trick his mother and concubine into getting information about the imperial mausoleum.

Did this scare the mother-in-law?

But that's not right. After all, his mother-in-law is also Princess Niu. In this Prince Niu's palace, she is the most talkative person besides his father.

No matter what, you won't be frightened just because the purple gas stone was taken out from the imperial mausoleum.

Could it be that there is something else going on in this?

"Princess, please don't scare me. What's wrong with you?"

"This is not right, Baiqing, please listen carefully to what my concubine is telling you."

Princess Niu took a deep breath, but was unable to calm down the uneasiness in her heart. She stretched out her hand, grabbed Yin Baiqing's arm, and said through gritted teeth.

"Concubine, you say it, I'm listening."

Yin Baiqing nodded immediately, and the expression on her face couldn't be more serious.

...

"What did you just say?"

Hearing what Yin Baiqing said when he came back from the princess's courtyard, Lin Caisang opened his mouth slightly and was in a daze.

"There are many places in the imperial mausoleum that no one can enter except the emperor? Not even Prince Niu and Yinluqing?"

What this means should be obvious to everyone, right?

In other words, the purple gas stone will be placed next to Yin Baiqing. Is there any handwriting from the emperor in it?

"Then the Zi Yan Kingdom can select a group of royal people to go to the West Underground Palace every once in a while to hunt for treasures. Won't these people bring out the Purple Qi Stone?"

"probably not."

Yin Baiqing shook her head.

"According to what my mother-in-law said, there used to be a guardian beast in the imperial mausoleum. This beast would only let people from the royal family enter the treasure land to hunt for treasures only if it ate the peace of mind fruit that is only available in the hands of the emperor."

Hearing this, Lin Caisang turned her head and looked at her husband.

What kind of mythical beast has she never heard her husband mention? Could it be that because this mythical beast is no longer powerful, her husband doesn't even bother to mention it?

"When we went there, we didn't find any mythical beasts."

Sui Zimo said immediately when he saw his wife's eyes looking towards him.
