

Star of Space 2251

Chapter 2251 I feel something is wrong

Of course, this is limited to the current level of Jinzhu Space. If she opens another space, that will be another story.

But now, it still doesn't work.

...

After a while.

Yin Lūqing was untied from the ropes tied to her body.

He thought that he would finally have that time to escape secretly while Sui Zimo and Lin Caisang were not paying attention.

Who knew that before I had even thought about this idea, I felt my body move.

The next moment, his vision went dark and he couldn't see anything.

"where is this place?"

He was so dumbfounded. How could he go from broad daylight to this dark place where he couldn't even see his fingers in the blink of an eye?

"Sui Zimo, Lin Caisang, come out to me!"

Yin Lūqing shouted into the air, thinking that Sui Zimo had poisoned him and blinded his eyes.

He thought that if he shouted like this, Sui Zimo's people would cover his mouth again for fear of attracting the Tomb Guards and Yulin Guards in the imperial mausoleum.

But after a while, he realized that no one paid attention to him.

"Sui Zimo, aren't you afraid of being discovered? This is the imperial mausoleum. The mausoleum guards and the Yulin guards of Emperor Zi Yan will rush over and capture you directly!"

He continued shouting into the air.

I couldn't believe that even though he shouted so loudly, Sui Zimo and his group could still hold back from attacking him.

However, no one paid any attention to him, not even one.

What's more, even the fiery-tempered Qi Wu didn't kick him anymore.

Slowly, he felt something bad in his heart.

He shouted so loudly just now that there would obviously be an echo in the imperial mausoleum, but he didn't hear anything just now!

"Sui Zimo, Lin Caisang, come out to me!"

To verify, he shouted into the air again, but still didn't hear any response.

He felt a thump in his heart and thought to himself, could he have come to a place he shouldn't have come to?

So, he decided to pretend that he was a blind man and run around.

It would be good if he could really run away. Even if he was rescued by Ling Guard or Yu Lin Guard, when he got in front of Emperor Zi Yan, he could say that Sui Zimo and others had kidnapped him.

However, after he ran a lot, his heart felt cold!

Because there is no such smooth road in the imperial mausoleum. It is on the mountain, so there are ups and downs, right?

And the place where he is now is as flat as the water surface, without even a protruding stone.

Finally, he realized that he was not blind.

The reason why he couldn't see anything was not because he was blind, but because this place was a place without light, dark!

...

On this side, Yinluqing was in infinite fear.

On the other hand, he was taken out of the Infinite Prison for no reason. Then the environment changed. He thought he was going to be caught by his parents, and he was scared for a while.

Who knew that the one who caught him was actually a bird!

"What are you?"

He asked, looking in a daze at the little guy flapping his wings in front of his eyes.

Little Caique: "!"

This guy actually said he was a thing!

"You are the thing, your whole family is... No, I can't say that!"

It stretched out its wings and covered its mouth, but miraculously it didn't fall down!

Chapter 2252 Someone is guarding

When he was about to scold him, he thought about the identity of the guy in front of him and thought that if he really scolded him, he would also scold his owner. He quickly changed his words. 6

"I'm Xiao Caiqiao. You are the master's brother, right? You will stay here from now on. Have you seen that waterfall? Go there and practice your martial arts."

Lin Changhong turned his head and looked over along the wing of the little colorful sparrow. Sure enough, he saw the waterfall that flowed down so fast that it could break the rocks.

"You want me to go to that place?"

"right."

Little Caique nodded seriously and vigorously.

"Go quickly, the master asked me to keep an eye on you. If you don't go, the master will...hehe, you know."

It gave Lin Changhong a bad look.

Lin Changhong: "..."

It's pity that he really wants to scold someone now, but who should he scold?

Of course he can't scold his sister!

Brother-in-law...

I doubt that after scolding him, he will be thrown into some weird place by his girl again.

Mom and Dad...don't even think about it!

So after thinking about it, he felt that he should scold himself in his heart!

Sadly, why is he at the bottom of the family? Anyone can beat him up or scold him, but no one dares to mess with him!

"Okay, I'll go.

What else can be done?

...

On the other side, Sui Zimo was guarding Lin Caisang, and the group had arrived at the foot of the thatched house.

The thatched cottage, after being bombed once, is gone.

There is a hole directly leading to the ground, and the bottom is divided into two roads, one main road and one branch road.

They have already entered the main road once, and it was damaged beyond recognition by them. Naturally, they cannot enter.

But what happened was that in that passage, the explosion happened to hit the branch.

The branch road was not destroyed at all.

"Zimo, isn't this a bit too coincidental?" Lin Caisang asked as he looked at the two passages.

At both ends of the passage, one was blocked, while the other was open.

Of course, the unobstructed passage would not be discovered unless you looked carefully. It was still protected by a layer of protection. If Prince Niu had not brought her here before, she might not have been able to discover it for a while.

If someone is hiding in here, it's really accurate.

"I'm afraid there's something more terrifying inside." Sui Zimo glanced at the passage and said calmly.

"Something more terrifying?"

After banishing several of them, they all gasped when they heard their master's words.

Couldn't what the master said be true? Is there really something more powerful and terrifying?

If that's the case, then what exactly does the scourge Ziyang Emperor want to do? If you come up with so many things that can harm the common people, aren't you afraid that they will be backlashed one day?

"Everyone should be careful when we go in later," Lin Caisang told Exiled and others.

Of course, she herself will be more careful. If something goes wrong, she will throw them all into the golden bead space. At least she can avoid it.

"Come on, Sonny, be careful."

Sui Zimo took Lin Caisang's hand and walked into the passage first.

But just in case, he moved his wife a little behind him to check for safety.

Not long after, a few breathing sounds reached their ears.

"There are people guarding over there."

Lin Caisang lowered his voice and said to everyone.

Chapter 2253 No entrance found

It should be the Yulin Guards that Emperor Ziyang brought before. It seems that this thing is really important, so that Emperor Ziyang can keep it top-secret without even caring about it, and just let the Yulin Guards guard it here.

"My subordinates went over..."

Ban Jue glanced at Ban Wu, and the two of them wanted to knock those people out.

They were just a few Yulin guards, they didn't take them seriously.

However, Sui Zimo glanced at them coldly, making them speechless.

"master....."

"As long as they move, everyone above will know that we are here." Sui Zimo said.

Emperor Ziyang is not in vain, this person is much smarter than they imagined.

If he was really afraid that someone would destroy his last treasure, how could he only send a few Yulin guards here?

These people are definitely just bait.

"What should we do?"

Ban Yue asked.

People are guarding him, and they can't be killed without being knocked unconscious, so how are they going to get past?

"Zimo."

Lin Caisang just called Sui Zimo.

Then, she took out a cloak from her golden bead space and handed it to Sui Zimo.

Sui Zimo took it and put it on himself.

The next moment, Exiled Yue and the others opened their eyes wide and looked ahead in disbelief.

Because when their master put on that cloak, he actually disappeared from their eyes. He disappeared!

What kind of cloak is this? It's so awesome!

"Mother..."

"Wait."

Lin Caisang interrupted him, lowered his voice and said.

Hearing this, the banished people didn't dare to speak, and they didn't even dare to take a breath.

After a while, Sui Zimo returned to them and took off the cloak from his body.

"The entrance was not found," he said.

It seems that this entrance is not easy to find.

"I gonna go see."

Lin Caisang thought for a while, then took out a cloak from the Golden Pearl Space and put it on himself.

Then, the two of them walked towards the place where the Yulin guards were guarding.

There are not many Yulin guards over there, but each one's eyes are very sharp. Even if they don't feel danger, they are always vigilant.

And this landowner really looks like a dead end road without an entrance, and the traces of digging holes are all very natural.

Lin Caisang couldn't see where a door could be installed here.

I looked left and right, but I really couldn't see anything.

However, they can't just go home because of such a little difficulty, right? When we come this time, we must destroy the son of the evil devil, or those things that Emperor Ziyan thinks are more terrifying!

Therefore, they absolutely cannot just go back.

After taking a faint breath, she slowly turned her hands, and then, there were two more porcelain bottles in her hands.

She opened a porcelain bottle, poured out two pills, swallowed one herself, and gave the other to her husband.

After both of them took the elixir, she opened the other porcelain bottle.

He turned the bottle sideways and poured the powder onto the ground. Then he used his cloak as a fan and swept it a few times.

"Where does the wind come from?"

A Yulin guard immediately felt a cool breeze and looked at one end of the passage in disbelief.

"What kind of wind is this? I think you are having a convulsion, right? Where is the wind coming from?"

Chapter 2254 Other... places?

The other Habayashi guard didn't feel anything, and glanced at the companion who spoke before.

"Watch carefully. There is no room for error in this mission. Otherwise, we all will have to go around in trouble. The emperor is paying attention to this place."

he said.

"Your Majesty is just too careful."

Another Yu Linwei couldn't help but curled his lower lip and said disdainfully.

"I didn't tell you. What kind of place is this? The other side was blown up and blocked. Moreover, the entrance to the passage is blocked. How could anyone come in?"

"shut up!"

The first one to speak, Yulin Wei, heard this and scolded him with a cold face.

"The Emperor is wise and mighty, that's just in case!"

"Yes, it is always right for us to stay here."

The second guard responded. It was not that he thought Emperor Ziyang was so wise or powerful, nor that he admired Emperor Ziyang so much.

Rather, I felt that if they spoke ill of their master like this, if someone sued them, they would be miserable and who would be able to escape?

Therefore, it is better not to cause trouble and talk nonsense.

"Anyway, we are in the imperial mausoleum. We are guarding everywhere. We don't have to run all over the mountains here. The people above have to provide us with good food and drink. How nice."

"Why.

Several Yulin guards started to sigh as they talked.

In fact, what's the good thing? They left Mengyan City and came to this ghost place to guard.

Moreover, the things in this imperial tomb are obviously being targeted. It is probably useless for them to guard them like this, right?

But in this case, they are smart and will not tell their companions.

Anyway, just live here one day at a time. I hope no one can find this place.

only.....

After a while, the consciousness of the few people talking began to slowly blur.

Unknowingly, although several people had their eyes open, they could not feel anything. Even when Lin Caisang started talking to her husband, they could not hear her.

"Zimo, there is no secret door on this wall at all."

After a while, after touching the wall again and again, but still unable to find any doorway, Lin Caisang took off his cloak and spoke to Sui Zimo.

"Look elsewhere."

Sui Zimo also took off his cloak and replied.

"other places?"

Lin Caisang was stunned by what he said. This place can be seen at a glance. Is there any other place to see?

She looked at her husband and then at the other Yulin guards.

Could it be that she wanted to ask them where the entrance was?

But she thinks that even though these people are guarding this place, they probably don't know where the entrance is, right?

Otherwise, how could someone as cautious as Emperor Zi Yan be so confident in letting a group of people guard the entrance?

You know, there have been many people who have betrayed Emperor Zi Yan recently in this imperial mausoleum alone.

If it were her, I'm afraid she wouldn't be able to tell these subordinates about the entrance directly, right?

"Perhaps there is something else we haven't discovered yet."

She touched her chin and said quietly.

On the other side, the banished men who were lying at the corner of the passage were simply stunned as they listened to the conversation between their master and their mistress.

Chapter 2255 Underground

Could it be that their master and mistress spoke so loudly that even the Yulin guards couldn't hear them?

But if they heard it, why didn't they react at all?

However, those people obviously had their eyes open, and he could really see them.

Turning his head to the side, Xu Wu secretly looked at his master and mistress, really secretly, only his head and a pair of eyes were exposed, looking thief-like.

Lin Caisang, who had just been talking to her husband, turned around and saw three pairs of eyes.

Lin Caisang: "..."

Could these three guys not be so scary?

"What are you doing there? Why don't you come over?"

She said to them.

After hearing what his mistress said, he banished them and looked at me, and then at you, and finally, like a mouse, he walked over cautiously.

"Mother, what's wrong with them? Are they dead? They can't hear us when we speak so loudly?" Ban Wu asked.

"Look for the agency."

Lin Caisang didn't have time to explain anything to them, so he gave orders directly.

Is she pretending to be an alchemist?

She can still make these people unconscious without knowing it, okay?

But asking them to keep their eyes open and not move in any position is a little difficult, but it is also not difficult for her. After all, she has many ways, right?

"oh oh.

Several people responded and began to search carefully in the passage.

However, no matter how hard they searched, they still found nothing even after half an hour.

Lin Caisang: "..."

She was almost starting to doubt life.

Is this place the entrance they are looking for? Is it really here?

"Zimo, tell me...this entrance can still fly into the sky and shield the earth...ugh!"

As soon as she mentioned the Flying Shield Land, she choked, then lowered her eyes and looked at the ground beneath their feet.

Could it be that it will still be underground?

"underground."

Sui Zimo also thought of it and said.

Lin Caisang took a deep breath, and several people began to search for something on the ground seriously.

Sure enough, after a while, Fei Wu discovered a somewhat abnormal stone slab. He opened it and saw that it was a mechanism control seat.

"Master, Mistress, here."

When Sui Zimo heard it, he didn't immediately go forward to check. Instead, he quickly walked to his wife's side and then helped her to look at it together.

"Be careful, don't fall." He warned Lin Caisang carefully.

"I know, I will be careful."

Lin Caisang raised his eyes and glanced at him, replied softly, and then looked at the mechanism control seat found by Ban Wu.

"It seems that this is the right place, but I don't know where will a path be opened after this mechanism is opened? But no matter where a path is opened, you have to be careful."

She added another sentence.

After the opportunity control seat is opened, I don't know if it will be able to unlock the secret of Ziyan Emperor.

In case it was a trap, she still had to be prepared at all times.

"come to me."

Sui Zimo glanced at Ban Wu and motioned for him to get out of the way.

But how could Ban Wu give in? Even if there was danger, he, as a subordinate, would have to block it for his master.

How could he be afraid of this mere agency and let his master put himself in danger?

"Master, please come down."

So, without saying anything, Fei Wu moved out of the way and stretched out his hand to turn the mechanism on the ground.

Chapter 2256 Abnormal Behavior

Sui Zimo didn't expect that Ban Wu would directly touch the mechanism.

Not only him, but even Lin Caisang didn't expect that Ban Wu would directly touch the agency. By the time they came to their senses, it was too late to stop them.

"Be careful."

The two of them pulled up their cloaks at the same time and covered several people together.

The next moment, there was a roar.

The entire ground shook violently due to the triggering of the mechanism, and a staircase was seen falling from above their heads.

Sui Zimo picked up Lin Caisang by the waist and moved not far away to prevent his wife from being hurt by the stairs.

The banished several of them also stepped aside.

"It's actually up there."

Lin Caisang was really amazed at this institution.

She thought it would be further down, but she didn't expect it to be a staircase coming down from above.

This means that this underground palace is above?

"Walk."

She turned her head and glanced at her husband, then the two of them quickly walked towards the stairs and disappeared into it.

Execute a few to follow closely.

Soon, the stairs gradually closed again, as if they had never been opened.

...

"what's the situation?"

On the ground, everyone also felt the ground shaking.

"Go and check the situation to see if someone has broken in."

When the leader saw this, he immediately gave instructions to the Yulin Guards behind him.

"Yes, Commander."

The Yu Linwei responded and hurried to a palace.

And the commander, after giving instructions to his subordinates, felt that it was inappropriate to ask an ordinary subordinate to check the situation.

Therefore, he went with him in person.

In the palace, there is a large crystal ball, and the image inside is where Sui Zimo and the others were standing before.

"Commander, nothing's wrong, they are still standing."

Seeing that the few people guarding the entrance were still standing there and there was no other movement at all, the Yulin guard let out a sigh of relief and turned to the commander who was following him.

"Is nothing wrong?"

The commander was not a careless person and narrowed his eyes slightly.

The shaking feeling just now was so obvious, how could it be nothing?

"Take a few people and check over there. I want to make sure everything is okay there!"

It's not that he doesn't believe the image in this crystal ball, or that he's suspicious, but it's just a precaution.

If something happened to that place, the only fate for him and all the Yulin Guards under him would be death.

Emperor Ziyang must be furious.

If it had been before, he could have run away like those people.

But now it's really no longer possible. All their family members are under the control of Emperor Ziyang. To put it bluntly, they are being detained. As long as they do any rebellious behavior here, their family members will bear the brunt.

Therefore, he did not dare to be careless at all.

"Commander, you are making too much fuss. No matter how capable those people are, they will never be able to find it."

When the Yulin Guard heard the commander's order, he didn't think it was a big deal at all.

"Besides, Commander, you have also seen it. The old monster and the others are still standing there with their eyes open. There is no abnormal behavior at all. That proves that no one is approaching them, so how can anything happen?"

"idiot!"

The commander glanced at him coldly and cursed.

Chapter 2257 What did I do wrong?

Then he raised his hand and knocked out the Yulin guard with one palm.

"Well!"

The Yulin guard was beaten out and fell heavily to the ground, spitting out a mouthful of blood.

"To lead you..."

He didn't expect that he would be treated like this just for saying something casually.

Is the commander crazy? Is what he said wrong? Nothing happened at all, so why be so surprised?

"By the time something happens, it will be too late!"

The commander did not look at him again, but called several other Yulin guards and asked them to check the underground palace.

He will not be like those people in the past, who usually live in peace and quiet without worrying about anything, wait for the real thing to happen, and then run away with their family.

To be honest, what's the use of those people even if they run away?

How many people are the eyes and ears of Emperor Ziyang in the entire Qianhuan Continent? What will be the fate of those people if Emperor Ziyang's people find them?

He could predict that those people would definitely be more than just skinned and cramped, they would definitely be worse.

"Drag him down, take him to training camp and start all over again!"

He ordered the other Yulin guards who did not come to check but were by his side.

How can a person who is so casual and can say that nothing happened has happened without verifying anything is worthy of staying in the Yulin Guards?

This person has to go to the training camp and start all over again, maybe he can only be eliminated, right?

"Yes, Commander.

The Yulin Guards responded and directly dragged the Yulin Guard down.

Before the Yulin Guard could react, he was dragged down by his companions.

"What did I do wrong?"

He muttered to himself, not knowing what he had done wrong.

He just said a few casual words. What's more, nothing really happened. Is this wrong?

"Commander, commander, this subordinate knows that he was wrong, please spare him this time."

After a while, Habayashi Wei reacted and shouted into the air.

Everyone in the Habayashi Guards came out of the training camp. That place is a place of life or death. How many people have not gone through the things in the training camp and will stay there for the rest of their lives and will not be able to get out. ah.

And he had obviously already gone through it, so why did he have to go through it again and suffer all kinds of torture?

Could it be that just because he said something wrong, he made you unhappy?

He is not convinced, really not convinced!

But, so what, in this place where power and cultivation are more important than anything else, as the Yulin Guard, if he is the leader, it is all his.

Even if the commander wants him to die, he has to do it obediently!

If he had known this, he would not have said so much and just listened to the commander's instructions and went to check.

At this moment, he didn't know how much regret he felt in his heart. He was so regretful that his intestines were blue.

"Commander!"

No matter how much he yelled, shouted, or called, he still couldn't get a single response from the commander.

...

Not long after, several Yulin guards in the underground palace heard footsteps coming from far and near.

"Why are you here? But what happened above?"

Seeing that it was his companions who were coming, the Yulin guards were all surprised and looked at them with confusion.

Nothing is happening here, what are they doing here?

Chapter 2258 Won't the secret be revealed?

It shouldn't be time to change shifts yet. Coming down so early to replace them, the answer is, of course, impossible.

"Is there any movement here?"

asked Habayashi Wei who came down from above.

"Is there any movement?" Several Yulin guards shook their heads at the same time.

What kind of movement could they have here? It couldn't be quieter. How could ordinary people find this place? What will happen?

This is really a puzzling question.

"What happened up there?" one of them asked.

"The mountain above shook. The commander thought something happened here." Yulin Wei replied.

"That's right."

Without a leader by their side, they speak more casually.

"Perhaps somewhere has collapsed again?" they guessed.

The previous underground palaces were bombed to look like that. Some stones were loose and it was possible for them to collapse again.

"may be."

The Yu Linwei who came down from above also nodded.

"As long as everything is fine here, I will check elsewhere."

What he thought was that as long as there was nothing here, they could just take a look at other places, and this was the top priority.

"good."

The Yulin guards nodded and watched them leave.

"I thought the commander was so good today that he would ask someone to replace us so early. Who would have known that there was something happening from above."

After the other Yulin Guards left, the few Yulin Guards who were guarding began to make sarcastic remarks.

"Since when has the commander been so generous?"

One of the Yulin guards sneered and shook his head.

Their leader is like a vampire. How can he give up if he doesn't suck all their energy away?

"The commander won't let anyone come and change our class before the time is up. Just wait and see." He said.

"Yeah, just keep it, keep it, someone will come to replace us when the time comes." Another person replied.

"However, it's strange to say that there is a vibration up there, why don't we feel anything here?" He thought and asked.

The earthquake was felt above the ground, but they didn't feel anything here. Isn't this a little strange? They were obviously guarding the ground.

"Perhaps it was just a slight earthquake. The imperial mausoleum was destroyed like this, and some places collapsed again. Isn't this a normal thing." The Yu Linwei who spoke before said.

As he said this, he also made a joke.

"I don't know which kind of god actually blew up the imperial mausoleum like this. No wonder the emperor is so angry, afraid that we will come to guard it. The tomb guards in this imperial mausoleum are all trash.

The imperial mausoleum is a place that few people set foot on, and they can't even defend such a place!
"

"Hush, don't say this anymore. If the commander hears it, he will inevitably be punished again." Another Yu Linwei quickly signaled him to be silent.

There are some words that they can't say out loud. If the commander hears them, their skin will be bruised, or... they might be dragged back to the training camp to be rebuilt.

"I know, I'll just talk about it here." That Yu Linwei said.

If it were with the commander, how could he dare to say this? Maybe even if he farts, the commander will blame him.

"Just hang on, we'll be able to change shifts soon," he said.

...

"Mother, won't those people outside expose the truth?"

Chapter 2259 Are these poisonous corpses?

Walking in the passage again, Fei Wu was walking at the front, asking as he walked forward.

He directly stunned those Habayashi guards. What if they were discovered when it was time to change shifts?

Then they are in this underground palace, shouldn't they be allowed to catch turtles in a jar, so that they can be caught directly?

This is absolutely impossible.

"Don't worry, they won't remember anything." Lin Caisang said.

The medicine she administered was just right, not too light or too heavy. When those above realized something was wrong and came down to check, the Yulin guards were already awake.

Moreover, the medicinal powder also has the effect of confusing people's memory. They will automatically make up for it with some previous memories, and naturally it is even less likely to be discovered by others. She is very confident about this.

"Are we going down here?"

Her feet were walking very smoothly, and her only feeling was that they were going down.

"yes."

Sui Zimo next to her replied with one word.

"This passage is very long. It seems to go all the way underground."

"That's it."

After listening to his words, Lin Caisang nodded.

Just go down. If you go up, it is impossible for Emperor Ziyang to continue to place the mother body of another evil son here.

Because in the previous underground palace, after they bombed it, it was impossible to feel the breath of Phoenix Vein, let alone on the upper floor of that underground palace?

Therefore, the other underground palace must be under that underground palace.

Only below can you feel the breath of Phoenix Vein more clearly.

"Then keep walking and see what terrible things this Ziyang Emperor has done to destroy this Qianhuan Continent."

"Later, be careful."

Sui Zimo warned her worriedly.

Hearing his words, Lin Caisang raised his head and glanced at him.

"I know, and I will be careful. You should also be careful."

They all have to be careful, because no one knows what is in this underground palace.

...

Not long after, the group finally found out what Emperor Zi Yang had done in this underground palace.

"Master, what is this!"

Ban Jue and Ban Wu asked at the same time, but their bodies were in different directions, dealing with different monsters.

Those monsters in black clothes pounced on living people when they saw them. They were not polite at all. Moreover, the swords in their hands were also considered sharp weapons. When they slashed at those monsters, they were like No wounds at all.

"Poison corpse!"

Sui Zimo circled Lin Caisang's waist with one hand, avoiding the poisonous corpses, and replied.

"These are poisonous corpses?"

Lin Caisang was also surprised for a moment.

But soon, she realized that these were indeed poisonous corpses, but they were more powerful than ordinary poisonous corpses.

"It seems that Emperor Zi Yan is really not to be underestimated. He dares to do any vicious things."

She sighed.

If the poisonous corpses here were released, there is no telling how many people on Qianhuan Continent would be harmed.

"Mistress, please don't lament and think of a solution!" Ban Wu was about to cry.

There are so many poisonous corpses, they only have a few people and a few hands, but there are no one knows how many poisonous corpses are on the opposite side.

Although there were lights here, looking at the densely packed poisonous corpses, he couldn't count how many there were. Anyway, he knew one thing, there were really a lot of poisonous corpses here!

Chapter 2260 Take the porcelain bottle in my hand

"Master, I think that after we eliminate these things here, we should also eliminate the Ziyang Emperor!"

Ban Yue said.

Just destroying these poisonous corpses is of no use at all. As long as Emperor Ziyang is still there, he will definitely come up with more terrible things. This is an endless cycle!

"Let's destroy these things first!"

Wu Wu gritted his teeth, raised his hand, and swatted away the two poisonous corpses that were rushing toward him.

However, after finally taking two shots, more poisonous corpses pounced on him, with their red eyes wishing they could suck all the blood from his body.

He was so frightened that the sword in his hand trembled and he slashed directly at the poisonous corpses.

but.....

He looked at the poisonous corpses with a mournful face.

Because he slashed at them, but nothing happened to them, not even a scratch on their skin!

"Master, these poisonous corpses cannot be killed. They are just like the mother body of the evil son."

He found out and quickly said to his master.

There are so many poisonous corpses here. Is it possible that they all have to be burned with fire?

But this is an underground palace. There is not enough air in the first place. If it is burned by fire, can they still stay here?

"Sonny, be careful."

Sui Zimo naturally discovered the strangeness of these poisonous corpses long ago.

Because he beat out the poisonous corpse without stopping, he just got up on the spot and continued to rush towards them.

Of course, these poisonous zombies can also sense which people in the outside world are more powerful, and they will automatically avoid them, and then look for the weak ones they can attack.

Therefore, at this moment, many poisonous corpses pounced on the banished people.

"Zimo, I have some drugs here. Let's see if I can stun them."

Lin Caisang took out a few porcelain bottles from the golden bead space and handed them to Sui Zimo. There was no way to continue fighting like this.

If these poisonous corpses have the same mother body as the previous evil son, they will definitely not be killed.

They can only find a way to calm these poisonous zombies first.

"Try it."

Sui Zimo took the porcelain vase in her hand and said only two words.

It's not that he doesn't believe in his wife's medical skills, but that these poisonous corpses are really difficult to deal with.

"Um."

Lin Caisang responded and took two bottles of poison powder in his hands.

However, when she wanted to open the lid of the porcelain bottle and spread the poisonous powder on the poisonous corpses, her eyes blurred and the porcelain bottle in her hand suddenly disappeared.

Then she raised her head and looked at Sui Zimo.

"Zimo, did you take the porcelain bottle in my hand?" she asked.

Sui Zimo turned around after hearing her words, but...

Before he could say anything, he felt a light touch on his hand, and the porcelain bottles he originally held in his hand disappeared.

he:"....."

The next moment, his dark eyes dimmed, and he directly held his wife in his arms and looked at the underground palace cautiously.

He was certain that something extraordinary existed here.

"Is it the mother body of the devil's son?"

The hair on Lin Caisang's body stood on end, and he looked around cautiously as he asked.

"Maybe." Sui Zimo said.

In other words, there is something else here.

The mother body of the evil son back then was not so brave and powerful, able to come and go without a trace, and could even take things away from their hands.
