

Star of Space 2311

Chapter 2311 It's a bad pregnancy...

Judging from his clothes, he should be from the City Lord's Mansion. But is this person from the City Lord's Mansion still bringing guests with him?

"No, we have already signed up." Lin Caisang smiled at him and replied.

"Have you signed up?"

When the man heard her, his face was obviously surprised.

I've signed up, did you come here to sign up?

Impossible, right?

He has always been here, starting registration in the morning and finishing registration at dusk, never leaving for a moment. If these two people came to register, he should have an impression, right?

Because of the two people in front of them, the woman was a pregnant woman, and she had the scent of medicine on her body, so she was obviously an alchemist.

And another person.

Even if he doesn't seem to have any ability, if his wife signed up, he should also sign up, right?

After all, which man would want his wife to go on adventures in the vast forest alone while pregnant with a child? He must accompany her.

But he was certain that he had never encountered such a combination before.

"Well, we have signed up, and it was our family friends who signed up on our behalf." Lin Caisang explained.

"That's it."

The man understood after listening to her words.

Could it be that the family came to sign up because the husband was reluctant to let his wife suffer and did not want her to go, but his family signed up secretly and forced his wife to go?

If that's true, this is so inhuman.

"What do you think you two came here for today?"

Could it be that they didn't want to sign up and came here to get their registration fee back?

"Just take a look." Sui Zimo replied directly to him.

man:""

How undesirable it was to see him. You know, he was assigned to take charge of the registration matter.

Looking at the many people here, how many wanted to curry favor with him, but he didn't even give them a chance, but the couple in front of him didn't want to see him that much!

"Then watch, there are many people here, madam, you should be more careful."

He smiled, told Lin Caisang, turned around and left without saying anything else.

Lin Caisang looked sideways at her husband and shrugged.

I find it quite strange. Why is this person talking to them for no reason? Are they really that attractive?

"There's nothing to see here, why don't we go back and take a stroll?" Sui Zimo suggested.

There are too many people in this place, and it is not suitable for his wife to continue to stay. It is better to find a relaxing place.

"good."

Lin Caisang nodded.

"Let's go back first. Maybe there will be someone waiting for us."

...

The two turned around again and walked towards the inn.

But before he reached the inn, he met Chu Shui coming out.

"Chu Shui, why are you out? Didn't you say you want to practice?" Lin Caisang asked with raised eyebrows as he looked at the people walking towards them.

"I met someone and spent a lot of crystal stones, so I gave my room to them. I plan to live with them first and squeeze in together." Yue Chushui said to them.

"Sister Sangsang, that lady seems to be here to see you." He said.

Hearing this, Lin Caisang looked at her husband and raised an eyebrow.

What kind of situation is this? She is not here, but she directly asks for a guest room next to her and moves in?

Could it be that she was carrying a bad fetus in her belly...

Well, it seems like she shouldn't think so, but she really can't help but think so.

Chapter 2312 Not an ordinary person

"Go and see.

The people had already arrived, and Sui Zimo had no other choice but to wait until the time came to see them, so he could protect his wife.

...

In the inn, Dong'er accompanied the city lord's wife and had already settled in the guest room next to Lin Caisang and the others.

As for Dong'er, the city lord's wife quickly went outside to keep an eye on her. When she saw Lin Caisang and the others, she immediately came over to report to her.

"I'm here, I'm back."

Outside the inn door, Dong'er saw from a distance that Sui Zimo was holding the pregnant Lin Caisang over.

She swallowed the breath in her heart secretly.

She is finally back, and her wife doesn't have to wait any longer. Otherwise, if the city lord knows that his wife is out, he may be really anxious and have to search the streets for her.

It was already a troubled time, and as the right person beside the madam, she naturally didn't want more things to happen that would disturb the city lord.

"Madam, you are finally back, you... uh!"

Just now, I only saw Lin Caisang and the person supporting her, but I didn't see another person beside them.

But when she looked over, she naturally saw the young man whom he had just given money to and given the room to them.

It turns out that they are actually together?

She recalled the previous events in her mind. Fortunately, she had always had a gentle temper, and none of her words had angered the young master. Fortunately, that was fine.

"Girl, it's early today." Lin Caisang looked at her lightly and said.

"hehe."

Dong'er just smiled.

It's not that she's early, but that her wife can't wait any longer.

Ever since she knew that Lu Tianfeng was a scheming person, Madam was worried that there was something strange about the child in her belly.

Moreover, most of the alchemists in the city lord's palace are very close to Lu Tianfeng, so naturally Madam does not dare to go to those alchemists.

What if the Madam's suspicion of him is leaked?

"My wife is a little anxious. I hope this lady will forgive me."

"It's okay."

Lin Caisang smiled faintly and walked to the inn.

...

After a while, Lin Caisang took Sui Zimo to the room where Yue Chushui was, where the city lord's wife was now.

Seeing Lin Caisang coming over and seeing her so young, the city lord's wife was really in a daze for a moment.

Such a young alchemist?

Of course, she would not doubt Lin Caisang's ability. After all, she had heard from Dong'er about what happened yesterday.

This lady could see the murderer's killing methods at a glance, which showed that she was not an ordinary person.

"Young Master, madam, do you dare to call me this?"

she asked politely, stepping away from her chair.

"My husband's family name is Sui."

Lin Caisang glanced sideways at her husband before replying to the city lord's wife.

In fact, it is possible that his surname is Lu, but this is not something they can say now.

"It turns out it's Mr. Sui and Mrs. Sui. The woman is very polite."

The city lord's wife bowed slightly to them. After all, she was asking for something from them, so she still had to pay the due courtesy.

"Mr. Sui, Mrs. Sui, my surname is Ding."

"Mrs. Ding."

Lin Caisang called out.

He secretly raised his eyebrows, could he be from the Ding family?

"Mrs. Ding, please sit down and let me take your pulse first."

"Here comes Mrs. Laosui."

The city lord's wife nodded, sat down on the chair behind her, and put her hands on the table.

Chapter 2313 Am I not pregnant? !

"nothing."

Lin Caisang smiled lightly, raised his hand and put it on the wrist of the city lord's wife.

In just a moment, the corners of his mouth that were originally smiling suddenly tightened. He raised his eyes and quickly glanced at the city lord's wife.

Then he continued to check her pulse, but as time went on, her brows became more wrinkled.

"Mrs. Sui, what's wrong with my pulse?" The city lord's wife looked at her expression, and asked worriedly.

On the side, Dong'er was also very nervous when he saw this.

She knew that her wife was right to worry. That Lu Tianfeng was indeed not a good person, and he would not even let go of the child in her wife's belly!

"Mrs. Sui..."

Just when she was about to ask, Lin Caisang's hand on the pulse of the city lord's wife had already been put down.

"Mrs. Ding is fine. Although she is a little older, it is still possible to get pregnant." Lin Caisang looked at her and said.

"Um?"

The city lord's wife looked at her doubtfully.

"Mrs. Sui, what do you mean by this?"

What does it mean that pregnancy is possible? Isn't he already pregnant?

She already had the flesh and blood of her husband in her belly. Could it be that he was pregnant with a false pregnancy?

"You mean...I'm not pregnant?!"

This is impossible. Not only Lu Tianfeng, but also other alchemists in the city lord's mansion have come to see the pregnancy. How could something that is certain be false?

"Well, that's about it. That's it. Lin Caisang nodded and did not deny what she said.

"What?"

After hearing her words, not only the city lord's wife, but also Dong'er beside her screamed in surprise.

"It's impossible. Why isn't my wife pregnant? I've seen several alchemists. They all said that my wife is pregnant. It's just that the fetus is unstable and she needs to take various tonics."

she said.

She is obviously pregnant, but as an alchemist, why does it turn out that she is not pregnant?

"Mrs. Sui, could it be that you took the wrong pulse? Why don't you take the pulse again?" she suggested.

"I checked my pulse several times and the result was the same." Lin Caisang chuckled and shook his head.

At this time, she had not yet connected the lady in front of her with the city lord's wife, so she thought she was a lady from the Ding family.

"Mrs. Ding's pulse pattern does look very much like pregnancy, and almost 100% of the alchemists will regard this phenomenon as a pregnancy pulse after taking your pulse."

"Then...then what actually happens?"

At this moment, the city lord's wife felt as if someone had poured a bucket of ice water on her head, and her whole body felt chilled.

His lips were numb and his speech was a little unclear as he asked.

She's not pregnant? She's not pregnant? She's not pregnant at all?

Because of this child, she was excited several times, feeling that the City Lord's Mansion had finally ushered in a new life. .

But now, some people actually say that she is not pregnant.

"There is a kind of sky-frost night-leaf flower in Baiduo Hangou. Its stems and leaves are all fiery red. Human skin will be burned if it touches it, but its flowers are ice blue and covered with a thick layer of frost. "

Lin Caisang introduced Tianshuang Yeyehua to her.

"I...am I actually poisoned by Tianshuang Yeyehua?"

Mrs. Chengfu asked in a murmur.

She knew that this kind of Sky Frost Night Leaf Flower could make women have symptoms of pregnancy after taking it, and it could last for three months, making many alchemists unaware of it.

Chapter 2314 The poison of Tianshuang Yeyehua

It turns out, what is pregnancy? What young city lord? It's all fake.

Everything was just done by Lu Tianfeng.

She thought that when she was found to be pregnant, Lu Tianfeng happened to be pregnant, and he was the first person to offer to diagnose her pulse and tell her accurately that she was pregnant!

Since someone said she was pregnant, and the second alchemist and the third alchemist came to diagnose her pulse, they would definitely no longer suspect that she had the symptoms and pulse of pregnancy because she was poisoned.

This Lu Tianfeng is simply too scheming.

"Mrs. Sui, are you sure about this?" She looked at Lin Caisang and asked in a low voice.

If it were anyone else who had her medical skills, Lin Caisang would definitely throw her hands away and leave.

But the situation now is different. The lady in front of her is obviously pregnant, but she has also been diagnosed as not being pregnant.

Everyone would doubt it, and there's nothing to be unhappy about.

"The poison of Tianshuangyeye flower can be detoxified with the juice on the stem of Tianshuangyeye. And the juice is okay for ordinary people, even those who are pregnant, to eat it. Mrs. Ding might as well try it. "

She suggested lightly to the city lord's wife.

"this....."

After hearing her words, the city lord's wife hesitated.

It's not that she doubts Lin Caisang's words, but the juice from the leaves and stems on this Tianshuangye is not so easy to obtain.

Moreover, if she was really poisoned and not pregnant, then Lu Tianfeng would definitely be keeping an eye on the antidote. If she sent someone to get it like this, wouldn't she be betrayed immediately?

Lu Tianfeng's people have been keeping an eye on the City Lord's Mansion for many years. He is afraid that if there is the slightest disturbance in the City Lord's Mansion, he will know about it.

"Mrs. Sui, I don't know about this antidote. Can you prepare it for me? My family affairs are indeed a bit complicated and cannot be explained clearly in a few sentences."

Yes, the sworn brother who I thought was the most kind-hearted person turned out to be an out-and-out poisonous snake. How could he let others know this casually and lose the face of the City Lord's Mansion?

Even if one day Lu Tianfeng is really to be dealt with, it will be done secretly and will not alarm the people of Sky City.

Hearing this, Lin Caisang glanced sideways at Sui Zimo, and then looked back at the city lord's wife.

"Mrs. Ding, in fact, the poison of Tianshuang Yehua can be eliminated automatically in just three months. Moreover, this poison has no other effect except giving women the symptoms of pregnancy and will not harm the body itself.

How about how many months can you wait? "

she suggested.

"No, no."

The city lord's wife immediately shook her head after hearing her words.

She is now eager to know whether she is pregnant. It is not that she doubts the alchemist in front of her, but that it is really difficult for her to accept the fact that she is not pregnant.

"Mrs. Sui, I'm really sorry to trouble you. I think...if possible, I want both the antidote and the poison."

Although she wanted to confirm that she was pregnant in Vladivostok, she didn't want Lu Tianfeng to see that she had detoxified.

Lu Tianfeng, this bitch, is really good enough.

In the past, she thought he was so nervous because of other reasons. The child in his belly came to check her pulse every now and then.

Now I know that Lu Tianfeng was simply afraid that the poison in her body would be detoxified and he would expose the fact that he poisoned her!

This bitch, she really wanted to kill him with one slap.

Chapter 2315 Go to Baiduohan Valley

"That's it.

Lin Caisang glanced at Sui Zimo again.

"I'm going to Baiduohan Valley and I'll be back in three days." Sui Zimo said helplessly.

"good."

After hearing his words, Lin Caisang immediately smiled and responded.

"Mrs. Ding must have heard it too. My husband will go to Baiduohan Valley, but it will take three days or more." She looked at the city lord's wife and said.

"So, thank you both." The city lord's wife stood up.

The matter here has been settled, and she can't wait to return to the city lord's palace to tell her husband about this matter.

"In the past few days, I will come to the inn to stay for a few hours. Mr. Sui, if Mrs. Sui gets the antidote, I will definitely not... At this time, talking about money seems a bit tacky, but money is also indispensable.

However, in the future, whenever you two find me useful, I will do my best. "

"Mrs. Ding is too polite." Lin Caisang smiled.

Then, she watched the city lord's wife leave.

"I originally thought it was just to check the pulse and prescribe a prescription to protect the fetus, but I didn't think about it. The person is not pregnant at all, it is just a false pregnancy!"

She sighed quietly.

Sure enough, her previous intuition was right. There was really something wrong with this lady's fetus, and it was a big problem.

"For a big family like the Ding family, it would be fine if the lady was just a nobody. But if she is the head lady, I'm afraid that just because of the false pregnancy, life in the Ding family will be difficult in the future."

Yue Chushui also said.

I'm pregnant, what a joy it is, I'm going to be a parent.

But suddenly, I was told that I was just poisoned and not pregnant at all. If it was a man who loved his wife, that would be fine, but if it was...

Life will definitely not be easy.

"Who knows?" Lin Caisang shook his head.

"Sang'er, you will be in the Jinzhu Space these days. Don't come out." Sui Zimo opened his mouth and said to his wife.

"ah?"

After hearing his words, Lin Caisang was stunned.

"Why should I stay in the Golden Pearl Space?" she asked in confusion.

"I'm going to Baiduohan Valley." Sui Zimo said.

"I know this."

Lin Caisang nodded, still quite puzzled in his eyes.

"But, didn't the two of us go together?"

"If it was before, it would be possible, but not this time." Sui Zimo said.

He can pamper his wife, but he will never let her take risks.

Although Baiduohan Valley is a very ordinary place for the strong, there are many blood orchids there, which can be extremely harmful to pregnant people.

Of course, he would not say this directly.

"Now the matter of going to Haikuo Forest is all on dad. Someone died in the city. If dad has something unexpected over there, he might come to find us.

Therefore, one of us must stay here. "

he said.

"Then I can't go?"

There was no disappointment in Lin Caisang's tone, he just said calmly.

"Then I'll prepare some more things for you. I'll definitely use them when the time comes."

With that said, she really went to prepare things for her husband.

However, when she came out of the Golden Pearl Space, Sui Zimo looked at the bamboo basket in front of her. Nine times out of ten, it was filled with food...

"Sang Sang, are you so afraid of me that you want to starve to death outside?"

Chapter 2316 Conspiracy!

He opened his mouth and asked.

"Yeah." Lin Caisang nodded.

...

In the city lord's mansion.

After the city lord's wife returned to the house, she changed her clothes and went directly to the front yard to find Lu Tianlan.

"Madam, why are you here? If you need anything, just ask the servants to tell me and I will come over."

Seeing his wife, Lu Tianlan, who was still frowning, stood up from the chair and went over to the city lord's wife, asking her to sit down on one side first so as not to tire herself out.

However, the city lord's wife just faced him.

"City Lord, I have something to tell you, something very important." She looked at Lu Tianlan very seriously and said.

Hearing her words, Lu Tianlan was stunned for a moment, but soon realized what he was doing and asked everyone in the study to go out. No one was left behind, whether they were guards or secret guards.

"Ma'am, what is so important?"

He asked after everyone had gone out and the study door was closed.

"City Lord, have you ever heard of a plant called Tianshuang Yeye?" the City Lord's wife asked.

"Tian Shuang Ye Ye?"

Lu Tianlan repeated her words and frowned.

He is not an alchemist, and naturally he is not that familiar with medicinal materials. He has never even heard of Tian Shuang Ye Ye.

But at this time, if his wife can mention it now, it must be related to the important thing she wants to say, right?

"Yes, Tianshuang Yeye is the poison in the flowers of this plant. It can make women look as if they are pregnant. All the symptoms are exactly the same as those of pregnant women. Even the pulse cannot be diagnosed."

The city lord's wife faced him and spoke word by word.

She could feel that with every word she said, her hatred for Lu Tianfeng increased even more!

"you--"

And Lu Tianlan, after hearing her words, his eyes widened in disbelief.

"Madam, you...you don't mean..."

His eyes glanced at his wife's belly. Although he didn't want to believe it, he had to wonder if she was talking about him?

"City Lord, ever since I found out about Lu Tianfeng's ulterior motives, I have always been worried and wanted to find an alchemist to check it out for me." The City Lord's wife sighed softly and shook her head.

"But most of the alchemists in the city lord's mansion have friendships with Lu Tianfeng, and I don't dare to randomly look for them.

So yesterday, I ordered someone to find an alchemist in the city, and I went out specifically today to ask her to diagnose my pulse. Little did I know, she actually diagnosed that I was not pregnant at all, but was poisoned! "

"You went outside?"

Hearing that his wife had gone outside, Lu Tianlan first frowned.

But when he thought that someone had actually diagnosed her as not pregnant, but poisoned, his whole heart felt as if it was suddenly covered in ice, and he shivered with cold.

Poisoned, actually poisoned? !

"Are you feeling uncomfortable? Since it was poisoning, did the alchemist tell you how to detoxify it?"

After being stunned for a moment, he immediately asked after coming to his senses.

"Don't worry, City Lord, I'm fine."

When the city lord's wife saw his reaction, she breathed a sigh of relief and grinned.

She was afraid that after hearing the news, Lu Tianlan would be as disappointed as she was before.

She had longed for this child and had been looking forward to it for several months, but she never expected that all of this was just Lu Tianfeng's conspiracy!

Chapter 2317 Effortless planning

Lu Tianfeng must have known about her desire to give birth to a child for the city lord again, and then he came up with the idea of having a substitute for Tao Zang in the future!

This person's stomach is really full of bad water, and he doesn't have the thoughts of a normal person at all!

"It's just that we have to go to Baiduo Hangou to get the antidote. The alchemist's husband will get it for us. It's not for us, the City Lord's Mansion, to get involved in this matter.

she said.

She actually wanted to send people to Baiduo Hangou herself, but Lu Tianfeng would definitely keep an eye on them.

The people they sent went to Baiduo Hangou, and Lu Tianfeng would definitely know.

That's why she begged Lin Caisang and Sui Zimo to help her find them before. Of course, she will definitely not treat them badly in the future. In this sky city, they will be the people protected by the city lord's palace from now on.

"Lu Tianfeng, you are so bold!" Lu Tianlan took a deep breath and cursed.

He is really lawless and dares to do anything. In order to achieve his goal, he even poisoned her to make everyone think that his wife was pregnant!

"Madam, you have been wronged by this matter. I have already started to deal with Lu Tianfeng's forces, but it is not that simple to eliminate them. But when his forces are eliminated, I will definitely have my wife to take revenge. "

He said to his wife.

Lu Tianfeng, he would never let this person die so happily. Lu Tianfeng was simply more hateful than Lu Tiankuo back then!

"City Lord, I thought it was not a question of whether I would take revenge or not. The problem we are facing now is huge." The City Lord's wife reminded him.

The problems they face are not huge.

For Lu Tianfeng, it was just a matter of a little poison, but with her and the city lord, it was different.

"What is spreading all over the city now is the child in my belly, and it has been rumored that I have become the Young City Lord. If I suddenly tell them that the news of my pregnancy is false, it is just because I was poisoned.

Not only the people in the city, but also the elders in the city lord's mansion will not give up. "

In the city lord's palace, there are many people who do not support Lu Tianlan, not just one or two.

If they found out about this, they would definitely make a big fuss, and maybe it would be spread that she was going crazy because she wanted to have a son, and deliberately poisoned herself to give herself signs of pregnancy.

And they can say that when it's time to give birth, she will bring a Ding family child over.

In this case, even the Ding family may be put on fire by the old city lord's wife and those who do not support the city lord, and will be unable to advance or retreat.

"Also, Lu Tianfeng was responsible for my pregnancy. City Lord, what on earth did he want to do? Is it just to enter the sea forest?

If this is really the case, what is there in the vast forest that could make Lu Tianfeng plan so painstakingly? "

After hearing her words, Lu Tianlan's eyes darkened.

At this point, he had not figured out what Lu Tianfeng wanted to do?

If what he wanted was to enter the vast forest, then Lu Tianfeng didn't mention anything else when he said before that he would not be responsible for entering the vast forest.

Or maybe he has already thought of other ways to enter the sea forest?

After all, he has been pretending to be ill for so long, and he doesn't know as few alchemists as others. If he wants to find a few people to sneak into the vast forest, he can still do it.

Chapter 2318 It's too worrying

"I still have to investigate this matter. Madam, you would rather be patient for a while and keep this matter secret.

"Ok, I know."

The city lord's wife nodded, of course she knew not to say anything.

Since it was Lu Tianfeng's conspiracy, he must be planning something else. If he were to alert the enemy now, Lu Tianfeng would definitely be more covert about what happened next.

It's better to pretend not to know anything and see what Lu Tianfeng wants to do.

"City Lord, I know what to do, but..."

She paused and looked at Lu Tianlan.

"It's just that Lu Tianfeng's ambition is too great. No matter what he wants to find in the vast sea forest, I think he still can't succeed. If he really gets what he wants, we will continue Down, it will be even harder.

She gritted her teeth and said.

Hearing this, Lu Tianlan took a deep breath.

How could he not know this? But what exactly does Lu Tianfeng want to do when he wants to go to Haikuo Forest?

"Madam, you should go back first. I will ask Anian to come over to discuss this matter, so that we can know how to deal with Lu Tianfeng."

He said to her.

"good."

The city lord's wife responded and left.

...

In the inn, as Sui Zimo expected, Lin Baizhong came over soon.

But Sui Zimo had already set off, and Lin Caisang was the only one in the inn room. Of course, Yue Chushui was accompanying her.

"Sang Sang, why are you alone? Where did Zimo go?" He looked and asked when he didn't see his son-in-law.

"Something happened. Zimo has to go to Baiduohan Valley. It will take three days to go back and forth." Lin Caisang replied.

"Baidohangou?"

Lin Baizhong was stunned for a moment, but in the end he didn't say anything.

Maybe some medicinal materials were missing when his precious daughter was refining the medicine, and it was only available in Baiduo Hangou, right?

"Sang Sang, I heard that you were the one who talked about the killing methods of those alchemists who were killed outside?" he asked.

He came here today because of the killings of alchemists that had occurred in Sky City these days.

Originally, he would not disturb his precious daughter.

But suddenly I heard that the murderous method was revealed by a pregnant lady who lived in the inn where his daughter was staying.

Then besides Sangsang, who else could it be?

"Um."

Lin Caisang nodded.

"I just said it casually," she said.

Lin Baizhong: "..."

Does this girl know that if she says this casually, she may suffer revenge from the murderer?

It's very possible that the murderer's next target will be her, right?

"You kid, you are too troublesome, and so is Zimo. I can really trust you to stay alone in the inn!"

He shook his head and looked at his daughter helplessly.

However, what can he do? His daughter is his treasure, and he can only protect her.

"I'm fine too. Although I'm in the inn, I have to refine the medicine in the past few days, and it will all be in the space." Lin Caisang said.

She still has to prepare a lot of things. When heading to the Sea-Kuo Forest, she can't really prepare only food and drink, but nothing else at all, right?

You still need to prepare a lot of elixirs.

"It's just, dad, now the matter of going to Haikuo Forest has fallen on you. Is it also your business to find the murderer?" she asked.

When he heard the word 'murderer', Lin Baizhong's face suddenly darkened.

Chapter 2319: Those who do not prove it

"I was prepared to intervene in this matter, and I just took over." He said.

"This Lu Tianfeng has really done nothing. So many people have died, but not even a trace of it has been found. When I ask the guards around him, they all know nothing about it!"

Thinking of what he had to do with Lu Tianfeng today, he felt angry!

"Yeah?"

Lin Caisang didn't care about what his biological father said.

It was something that had been expected a long time ago, so there was nothing surprising about it.

"Dad, think about it, he was supposed to go to the sea and forest, but you ended up being the one to do it. It's weird that he can look good on you!"

The fact that he hasn't fallen out with you yet proves that he is a tolerant person. If it were anyone else, he would have jumped up in anger and pointed his nose at you.

"He does."

Lin Baizhong grinned and sneered.

He looked at Lu Tianfeng's face, which was even more ugly. It would be best to just make him angry to death.

It's a pity that good people don't live long, and disasters stay for thousands of years!

"Or maybe..."

"Or what?" Lin Caisang asked.

"Sang Sang, do you think there is such a possibility?" Lin Baizhong approached his daughter and spoke in a low voice.

"Do you think the murderer was someone sent by Lu Tianfeng? He wanted his people to enter the sea forest, so he thought of getting rid of all the reputable and capable alchemists first. ?"

he said.

"Why do you think so?" Lin Caisang asked again.

However, it was really possible. She and Zimo also estimated that there was something in the vast forest that Lu Tianfeng wanted to get very much.

So this time, Lu Tianfeng will probably send many people into the sea forest to search for it. Perhaps, he will also risk the danger and go in to find what he wants.

"I took this case into my hands and found that the alchemists who were killed were very strong. I estimate that they can be included in the list and go to Haikuo Forest."

Lin Baizhong said.

"Moreover, they all went to Lu Tianfeng's house before to see Lu Tianfeng openly, but secretly, perhaps to bribe him."

Perhaps even they themselves would not have thought that they would spend some money to give themselves better protection, but they would end up risking their lives because of it.

If they knew, they would definitely stay away from Lu Tianfeng.

"Maybe, but these are just speculations and cannot be proven." Lin Caisang shrugged and said.

Even if it was really Lu Tianfeng who did it, how could he admit it? And they thought so just because they made assumptions in view of Lu Tianfeng's viciousness.

Whether he did it or not, they still have to dig out the murderer themselves.

"Dad, look at my scarf, doesn't it look good?"

She took off the scarf from her neck, put it in front of her father, and asked.

Hearing this, Lin Baizhong just glared at him fondly.

"You'd better hurry up and surround us."

If what they expected was correct, the murderer must have targeted his precious daughter.

Maybe she didn't even need to wait for her to go out on the street. She could witness how the murderer killed just in this room.

But if that is the case, it can also be proved that this matter was not done by Lu Tianfeng. If it were him, when it was so obvious that everyone would suspect that the next target was Sangsang, he would definitely not send anyone to kill him again. .

Chapter 2320 It is indeed not the case

Although Lu Tianfeng is conceited, he is not a fool.

"Lets see."

Lin Caisang also said the same.

Anyway, they all knew that Lu Tianfeng's head was full of bad ideas.

"Dad, has the city lord taken any measures against Lu Tianfeng?" she asked.

Hearing this, Lin Baizhong just shook his head and sighed softly.

"It's not that simple to deal with Lu Tianfeng. Not to mention the hidden forces under his control over the years, let's just talk about his prestige in Sky City. It can't be dug out at once."

They had never discovered Lu Tianfeng's forces before, so it was not an easy task to dig them out now.

Moreover, Lu Tianfeng still has prestige in Sky City, and many people have been treated by him.

Moreover, in the eyes of outsiders, he is still a philanthropic person.

It is easy for the common people to be deceived by people's superficial kindness. If they deal with Lu Tianfeng now, many people in Sky City will stand up and speak for Lu Tianfeng.

"Yeah?"

Lin Caisang touched his chin and looked at his biological father.

"Dad, tell me, are there any children of the devil around Lu Tianfeng?" she asked.

Lin Baizhong: "..."

It's hard to answer this question. Although he hopes it doesn't exist, he estimates that nine out of ten it does.

"What do you want to do?" he asked.

"If your city lord is not afraid of embarrassment and directly exposes Lu Tianfeng and his evil son to the people in the city, will anyone be willing to say good things for Lu Tianfeng or even stand on his side?"

Lin Caisang asked him.

Lin Baizhong: "!!!"

If the people of Sky City knew that someone was raising a son of the devil in the city, the world would be in chaos, okay?

But I have to say that this is the best way to make Lu Tianfeng lose all the hearts of the people in one fell swoop.

"Sang Sang, the son of the devil, must not appear in this world," he said.

"I know."

Lin Caisang nodded.

"That's why we have to force Lu Tianfeng to take out his evil son. Otherwise, how can we kill the evil son?"

she said.

"Sangsang, you... you still have the mother body of a demon child. One of them has not been solved yet. If you bring another one over, I'm afraid... it won't work, right?" Lin Baizhong asked her.

The former queen of Ziyang Kingdom was okay, at least she was still a person who could control her own temperament.

But she was able to control herself because she was strong enough.

But the same cannot be said for others!

Who knows what the mother body of the evil son next to Lu Tianfeng is like, what if it is the same as the previous one that was destroyed.

That is very dangerous. Perhaps it is not an exaggeration to describe it as eating people without spitting out their bones.

"You can find a way slowly. The worst case scenario is to keep them locked in the Golden Pearl Space. No spiritual energy or evil energy can be absorbed in the Infinite Prison, and the children of evil spirits cannot grow in their cultivation there. "

Lin Caisang said.

As for the future, with so many of them here, can they still think of a way to deal with them?

"You."

Lin Baizhong had nothing to do with his daughter.

But there is indeed no way to destroy the son of evil.

"We must be careful in everything. Lu Tianfeng cannot expose the son of the devil to us. It is his sharp weapon, but it is also his weakness."

he said.
