

Star of Space 2471

Chapter 2471 Feeling worthless

In that case, we can definitely get the most medicinal materials in the vast sea forest.

"Um?"

Finally, I was sitting in the room, planning to hear again which powerful girl dared to take advantage of her husband.

She finally stopped sitting, stood up, and walked to her husband.

"Husband, let me take a look, which angel actually brazenly asked you to put down your wife and form a group with her. Could it be that this girl's face is really big?"

She looked at the girl, not to mention, at first glance, she really looked like a bird, but as long as she frowned a little, she would feel pity for her.

But when I look at it again, my cultivation is so incredible that I can't even stand it at a glance.

"Are you this young master's wife?"

When the little girl saw Lin Caisang coming out, she raised her chin high, as if she was a heinous person and had something in her way.

"If you have any self-awareness, you should form a team separately from your husband. With the way you are now, following him will only drag him down. Don't you understand this?"

"What does it have to do with me dragging down my husband?" Lin Caisang asked her.

"I....."

The little girl was choked by Lin Caisang's words and didn't know how to reply.

After a while, she blushed, glanced at Sui Zimo shyly, and then looked at Lin Caisang with a righteous look.

"Although it doesn't matter, I feel worthless for this young master, can't you? You are pregnant, and you still want to enter the sea and forest. You are just going to cause trouble.

If you really think about this young master, you shouldn't hold him back! "

"hehe."

Lin Caisang chuckled and looked sideways at her husband.

Sure enough, her husband's face was as dark as ink.

"Look, your husband understands this truth, why don't you understand it? Madam, I advise you to leave Hongye Building as soon as possible, so as to free up the space for other people with true intentions. A capable person."

The little girl also saw Sui Zimo's face and felt even more proud.

Her words must have played into the hands of this young man. This woman is a burden. As long as she says a few more words, she will definitely be able to convince him to give up this woman and form a team with her.

"ability?"

Lin Caisang turned her gaze back from her husband and landed on the little girl.

Please forgive her for her blindness. She looked left and right, up and down, but she didn't realize how capable the little girl in front of her was.

"Zimo, how could such a person enter Hongye Building? You can ask later."

"good."

Sui Zimo responded.

"Don't be angry with this kind of person, you won't see her soon."

He glanced meaningfully at the little girl in front of him, who had no self-awareness, and said to his wife.

Although the little girl was not self-aware, she could still hear some words that were not good for her. When she heard Sui Zimo's words, her face suddenly turned ugly.

What does this gentleman mean?

She came over with good intentions to persuade him to think about himself and not be dragged down by this pregnant woman.

But what happens now? Do they actually want to join forces to report her? How could they do this? It's so vicious!

Chapter 2472 A person must have self-respect and self-love

"You... you are really too vicious. I have not offended you, but you actually want to report me. Oh, why am I so unlucky to meet such a heartless person?"

While she was talking, the little girl started crying in front of Sui Zimo and Lin Caisang, as if she had been bullied by them together.

And her cry successfully attracted the attention of others.

"What's going on? Little girl, why are you crying?"

When several alchemists heard the cry and saw that it was a little girl, they came over and asked softly.

"I....."

"This little girl is trying to persuade my husband to abandon me and form a team with her.

Without waiting for the little girl to speak aggrievedly, Lin Caisang spoke directly to the alchemists and told the truth.

"ah?"

The alchemist who had just asked the little girl was almost stunned when he heard this.

They had all heard about the young couple in front of them. The man was an alchemist and the woman was an alchemist. They were both very powerful. Even if they needed to find other people to form a team, it would be impossible for them to separate?

Isn't this little girl sick? She actually persuaded this alchemist to abandon his wife and form a team with her?

"This... little girl, do you really... really want this young man to abandon his wife and form a team with you?" An alchemist among the crowd asked the little girl softly in disbelief.

Is it wrong to let a man, a husband, abandon his wife and form a team with other women?

How big of a face do you have to be to be so shameless and say this to others?

If this is the case, then they should stay away from this little girl these days. With such a unclear mind and only their own people in their eyes and hearts, what if they enter the sea forest and harm them?

Each of them has only one life, and they can't put their own lives in danger just because of an outsider.

They're not that generous.

"Little girl, how could you do this? They are a couple. It makes no sense for you to come here and try to separate them. Do you know that?"

The other alchemist was older and educated the little girl.

Little girls these days are so shameless, how can they do anything?

In his opinion, it was not that the little girl felt that the young master's wife was dragging down her husband, but that the young girl saw that the young master was handsome and fell in love with him.

Therefore, I deliberately wanted to find some topics to seduce the pregnant lady so that they could not get along with each other, and she could take advantage of the opportunity to show her face in front of the young master and let him give her to her. Remember?

Such a little girl is really amazing.

"Little girl, you have to be self-respecting and self-respecting. You can't fall in love with anyone and ignore even the most basic moral principles. This lady has not offended you. Why do you alienate the relationship between husband and wife?"

"I....."

The little girl opened her mouth, only to feel a breath of bad breath stuck in her throat, unable to say a word.

What did she do wrong? She obviously didn't do anything. It was this woman who was pregnant and still ran to Hongye Tower and wanted to go to Haikuo Forest. She was not here to drag this young man down.

Chapter 2473 I will avenge you!

It was just for the sake of this young master that she spoke a fair word for him. How could it be her fault?

"Little girl, you, even if you really fall in love with this young man, you shouldn't do this. His wife is still pregnant with a child. If you are angry at me, what are you going to do to compensate him? "

"Tsk, tsk, maybe they just want to make this lady angry, so they can make it up to themselves right away?"

"The world is really in decline. How come people's hearts have become like this?"

Several alchemists were talking to each other about the little girl in front of them, until she turned red and almost ran away.

However, she is not willing to give in. Why do so many people want to speak for a pregnant woman who ignores her husband's safety and insists on going into the sea and forest? Isn't she charming enough?

"I have fallen in love with this young master, so what? I am also doing it for this young master. Look at her, a pregnant woman, why would she take her man to adventure in the sea forest? , this is not seeking death.

She committed suicide, why should she drag this young master down? She might as well die by herself! "

"you--"

Hearing the word "death", Sui Zimo moved his hand, and a burst of spiritual power shot out.

The next moment, the little girl was knocked out, hit a pillar, and then fell to the ground, splashing dust all over the ground.

At the scene, all the alchemists watched the little girl fall out, but no one stepped forward to help, because everyone knew why the little girl was so vicious that she was beaten.

She deserved it and she couldn't blame anyone else.

"puff."

The little girl spat out a mouthful of blood, lay there, raised her head, and looked at the man who attacked her in disbelief.

She thought that the man should have a crush on her. After all, she looked so bright and charming, like a flower. How could he be willing to do something to her?

"You...you actually hit me?"

She looked at Sui Zimo with endless sting in her eyes.

It was as if she was the original Sui Zimo, and Lin Caisang was just the mistress standing next to her husband at the moment.

"If I hear another insulting word about my wife from you, I will kill you!"

Sui Zimo's cold voice warned her, did he really think that his tolerance of her was because of her?

If it weren't for the fact that he didn't want to cause trouble in the Hongye Building, how could he allow such a clown to stir up trouble in front of him and tarnish the eyes of his wife!

"you--"

When the little girl heard his words, tears fell down.

"Hey, what is this? Why did a little girl like this come to Hongye Tower?"

The alchemists looked at the little girl, who had been beaten even now. They still didn't know what they had done wrong. They seemed to think that the couple in front of them had done something wrong.

Everyone was helpless and didn't know what to say.

"Get out of the way, get out of the way, get out of the way."

Suddenly, a rough voice came from not far away, and the alchemists were pushed aside. At a glance, they saw the little girl lying on the ground after being beaten.

"Zo'er, what's wrong with you? Who bullied you? Tell me and I will avenge you!"

Behind the man, there were also several companions. They first helped Suo'er up, then patted his chest and said to her.

Chapter 2474 It's too late!

Who dared to bully their group of companions because of his ambition? This Wang Suo'er was already a member of their group, so it didn't mean that she was very capable.

It's because the little girl's mouth is so sweet that she can make all of them happy.

Therefore, no matter whether the little girl has any skills to rely on, they are willing to take good care of her in the vast forest.

But now, before they even entered the sea forest, Miss Zuoer was bullied. How could they let this matter go? This revenge must be avenged.

"I...I'm fine. This young man didn't do it on purpose, it was all instigated by his wife.

Wang Suoer looked at Sui Zimo and Lin Caisang with a faint look, a trace of malice flashed in his eyes, and he looked at Lin Caisang with his red lips curled up.

Does this man want to deal with her?

Haha, let's see if they have this ability. Now his teammates are here. They all promised to protect her, and just now, she has already taken down the big guy in front of her.

Now, if she doesn't want to do anything, they will do it for her.

Now she is going to let the woman who dares to seduce the man she likes be punished by her companions. She wants to see if in the end, the man will help his wife and suffer their beatings with her.
!

"Did this little bitch bully you?"

When the rugged man heard this, he thought it was okay. He rolled up his sleeves and rushed towards Lin Caisang.

"Wait a minute, that young master is quite capable. I originally wanted him to join our team, but who knew that his useless wife actually stopped him!

Brother Huang, if you can get him to join our team, we will definitely be able to get twice the result with half the effort when entering the vast forest this time. "

Seeing that the rough man was going to beat him up, Wang Suoer quickly added another sentence.

After all, she still likes this young master. If she can get rid of that annoying woman, then this young master will definitely become his man.

She has this confidence.

When the other alchemists saw this scene, they really wanted to slap Wang Suo'er with a big mouth.

This little girl looks young, but she has such deep thoughts and evil plans!

With such a person, how could their Commander Lin recruit her to Hongye Tower? There must have been a mistake somewhere. Could it be this little girl who secretly took someone else's place and got in?

It's not impossible. People nowadays are very courageous.

"Let him join our team?"

Upon hearing this, the rugged man finally looked at Sui Zimo and raised his eyebrows.

What's so good about a man who looks like a woman? Can he have the power he has? Could it be something that is not useful?

But if Wang Suo'er took a fancy to him, he might be quite capable.

"Zuo'er asked you to join our team. Come here quickly. Why are you waiting? And that bitch, get out of the Hongye Building quickly. Don't let me carry you out.

If that time comes, it will be too late! "

He stared, and after speaking to Sui Zimo, he glared at Lin Caisang fiercely and threatened.

Lin Caisang: "..."

She really didn't expect that there would be such a person in Hongye Building.

Chapter 2475 Form a team

How did her own father recruit people? Who are these people? It really makes people speechless.

"An alchemist?"

Looking sideways, she raised an eyebrow at her husband.

This person looks like an alchemist at first glance, and he also has some spiritual power and is quite strong.

It's a pity that as soon as he entered Hongye Building, he was obsessed with such a vicious little girl, and she was coaxed into it.

"Um."

Sui Zimo nodded to his wife.

"You go rest and I'll take care of it," he said.

"Need not.

Lin Caisang grinned at him.

How to deal with this? It's not a very simple matter. Once the medicine is given, everyone has to listen to her.

"Aren't you just a reckless man? Wherever we need to use force to solve the problem, we can save our energy if we can," she said.

Then, she took out a small porcelain bottle from her small satchel, and slowly opened it. Everyone saw a stream of white smoke floating out of the porcelain bottle.

Then and then...

"You...stinky bitch...ah!"

Huang Manghan stood not far in front of them, but he couldn't move at all. He was about to ask them what they had done to him.

But he was slapped directly, and his whole face was distorted in pain.

"Clean your mouth!"

Sui Zimo glanced at him with cold eyes, warning.

"hiss!"

Huang Manghan gasped and felt a stream of hot liquid flowing down from his nose and dripping onto the clothes on his chest.

He lowered his eyes and saw that there was blood. He was so frightened that he almost fell to the ground.

But at this moment, his body was stiff and he couldn't fall down at all. He could only stand like this.

"You, what on earth do you want to do?"

He was a little scared in his heart. If he was like this, his other companions would also be standing motionless.

In fact, Huang Manghan really guessed that his companions who came with him, plus Wang Suoer who pointed them to deal with Lin Caisang, were all fixed there and could not move at all. of.

As for the other alchemists, nothing happened, just like normal people.

"What are we going to do?"

Lin Caisang glanced sideways, raised an eyebrow at her husband, and then looked at Huang Manghan.

"Don't you want my husband to form a team with you? Now I think this proposal is quite good, Zimo, how about we form a team with them?"

"It's all up to you."

Sui Zimo raised his hand lovingly, touched his wife's face, and responded.

"What?!"

Hearing their conversation, Huang Manghan was so surprised that his mouth opened so wide that it could fit a goose egg.

Before, he thought this bitch was a harmless beast and someone who was easy to bully at first glance, so he thought he would be stronger and pull this man into his team.

But now, it's obvious that this woman is not easy to deal with. It's just a simple matter of making them unable to move.

If they really entered the sea forest together, then they wouldn't all have to listen to this couple?

What else is going on with him, the eldest brother in everyone's eyes?

"No, no, this is just what Wang Suo'er promised you. If you want to form a team, just form a team with her. It's none of our business." One of the team members in Huang Manghan's team finally couldn't stand it anymore. Said directly.

Chapter 2476 Want to protect me

Why did they have to bear the burden of the trouble Wang Suoer caused in the end?

They can solve their own problems by themselves, and if they can't see it, Wang Suo'er just made a complaint to Huang Manghan deliberately. Who knows whose fault it is.

Maybe it was Wang Suo'er who offended someone for his incomprehensible words, and the villain complained first.

Isn't this what Wang Suo'er would do?

"Yes, yes, it was Wang Suo'er who asked you to form a team. It has nothing to do with us. It's not our fault. If you want to find her, just go find her."

Almost immediately, several team members spoke up, blaming all the faults on Wang Suo'er anyway, but originally, Wang Suo'er was the one who caused it, and they just followed Huang Manghan to watch the fun.

"You...you..."

Not long after seeing Wang Suoer, he was betrayed by his companions, and tears suddenly fell down.

"Brother Huang, I am really doing this for our teammates. You have to believe me, I..."

"Okay, shut up!"

When life is threatened, even the so-called cute girl in the eyes is no longer the same thing.

Huang Manghan glanced at Wang Suo'er impatiently, his face livid.

"If it weren't for you, how could we be like this? Wang Suo'er, from now on, you are no longer a member of our team. Just find whoever you want to be your teammate. In short, don't come here. We became it."

"I...you..."

Wang Suo'er couldn't believe what he heard.

Is this the man who just said nice things in her ears, wants to avenge her, and bullies that woman back?

Why did such a little setback make them completely ignore her?

Is it because her charm is not strong enough? She couldn't even stomach a rude man. For him to talk to her like this, she almost wanted to make her vomit blood.

"Brother Huang, we are a team. Didn't you say before that you wanted to protect me?" She shed tears and looked at Huang Manghan.

Hearing this, Huang Manghan rolled his eyes and was speechless.

If he were to protect a little girl in normal times, it would be no problem for him. Even if he entered the vast forest, he would not be afraid. He thought he had this strength.

But what is the situation now?

Each of them was unable to move. They didn't know what kind of poison they were poisoned with, but the lady in front of them didn't even lift a finger, and she made them like this.

How could you offend such a person? He's not stupid. When he knows he can't be offended, he still insists on going up. Isn't that looking for death?

Especially this lady, who was brought back by Wang Suo'er. If she doesn't take care of it herself, should she let them do it?

There are little girls everywhere, not least Wang Suo'er. Maybe in the afternoon, there will be other little girls coming to Hongye Building, many more prettier than Wang Suo'er.

In his opinion, the lady in front of him was countless times more beautiful than Wang Meier.

"I said I want to protect you, but don't get me into trouble. Look what you're doing now. The husband and wife are doing well, so why are you trying to separate them?"

He had a righteous look on his face and said to Wang Suo'er in a very serious tone.

Chapter 2477 Do you know each other?

"Even if we let them form a team with us, we should invite this lady to go with us. Wang Suo'er, don't think I can't see it. You just like the appearance of this young master, right?"

Tsk tsk, when she was in front of me before, she said she liked me, but she just turned around and fell in love with her.

Why are today's little girls so unreliable? You can do anything, Wang Suo'er, do you still want some dignity as a girl? It's so shameful. "

"you--"

Wang Suo'er had a bad breath stuck in his throat, and almost fainted from Huang Manghan's words.

Huang Manghan was so gentle to her before, he almost plucked the stars and the moon in front of her to coax her.

But look now, he actually said that to her!

"Tsk, tsk, the little girl today is really willing to do whatever it takes to achieve her goal, even betraying herself."

"Isn't that right? I've just coaxed a man with my front legs, and I'm holding another man with my back legs. I'm really eating what's in my mouth, looking at what's in the bowl, and finally thinking about what's in the pot."

"Whose girl is this? How could she do such a shameless thing?"

"Let me see, why does she look so familiar? Did that man just say her surname was Wang? She couldn't be the most shameless fifth lady of the Wang family."

Something happened here, and many other alchemists and alchemists gathered around. After asking the people nearby, they heard everything about it, and then they started to point at Wang Suoer.

Moreover, someone actually knows Wang Suoer.

"What? That bitch from the Wang family?"

Someone screamed when they heard the word "Fifth Miss of the Wang Family". They quickly took two steps forward to see Wang Suo'er's face, and then took two steps back.

"It's really her. This face is just like that bitch of the Wang family. Hey, everyone, hurry up and stay away from her. It will be terrible if she gets caught!"

Hearing the man's words, Lin Caisang silently glanced sideways and looked at her husband.

"Someone actually knows her. It seems that she is a celebrity." She raised her eyebrows and lowered her voice.

"Just look at it."

Sui Zimo reached back, used his spiritual power to draw a cloak from the chair, and put it on Lin Caisang.

"Who is the fifth lady of the Wang family? Do you know her?"

Many people present had never heard of this fifth lady of the Wang family, so they asked the people next to them.

"We know each other. How could we not know each other? This Wang family is not from Sky City, but from Mo Shangcheng. In that realm, they can be considered to be prominent figures."

The man glanced at Wang Suo'er and said.

"But, it's the Wang family. They have a fifth daughter who is only twelve years old. She has not yet grown up. She has secretly made a life-long private arrangement with the young masters of dozens of families in Mo Shang City.

Note that it was not just one family, but dozens of families. They all held her in their hands and gave her all the good things. "

"Isn't it terrible that there are people like this?"

Everyone looked at Wang Suo'er's face, and they all looked bad. What a cheap bitch she must be.

No, no, this can no longer be described by the word mean, but vicious. Isn't this deceiving the feelings of other people's young masters? I defrauded dozens of them.

It's really terrible.

Chapter 2478 Still so arrogant

"Who says it isn't?"

The alchemist rolled his eyes at Wang Suo'er and responded to the person who answered.

"She thinks she is very smart and is very busy with these things. Little did she know that two of the young masters are good friends, and the two of them actually told the truth about this matter.

Now it's good, but haven't we just stirred up a hornet's nest?

So, the two people rushed to Wang's house to question them, and even the elders were invited out. The matter became more and more troublesome. As a result, the other young masters who had secretly made a lifelong commitment to Wang Suo'er ran away when they heard the news. coming.

That scene is so spectacular!

There were so many high-profile figures, all of whom were well-known figures in Mo Shangcheng. They were all crowded into the Wang family at once, and Mr. Wang almost became so angry that he wanted to commit suicide.

And this Wang Suo'er actually asked those young masters and brothers. They were all told to keep it secret and no one was allowed to tell anyone. Why did other people know about this matter?

She actually didn't feel that she had done anything wrong at all, but felt that the fault lay with others and that they should not expose her affairs to the outside world, causing the vicious things she had done to escape. "

"Oh my god, this is really a lot of experience. There is such a person."

"You, you..."

Wang Suo'er was so angry that he trembled all over after listening to the alchemist's words.

"Who are you? How do you know about my family? Tell me your name. When I get home, my father will kill you and I will never let you go!"

Wang Suoer's face was as red as a boiled shrimp, and she could hear someone behind her speaking ill of her.

But because her whole body was stiff and she couldn't twist her neck at all, she couldn't see who the person behind was, but she knew that that person had dug out all her secrets.

How will she hang out in Hongye Building for the rest of the time? She must be too late to form a team. Does she want to venture into the vast forest alone?

And she will never let go of the person who dug into her!

"Hmph, what's so great about your Wang family? You've already arrived at Sky City and you're still so arrogant. I don't even know what to say!"

The man snorted coldly, not taking Wang Suoer's words to heart at all.

Wang Sao'er asked him how he knew about her. It was because Wang Sao'er's incident involved one of his cousins. It is said that his cousin still feels shameless to see others.

Since then, my cousin has always locked himself in the house and never seen anyone.

Now that he had finally avenged this revenge, he wanted to see how Wang Suoer could stay in Hongye Tower?

But then again, Wang Suoer is not an alchemist or an alchemist, so how did she come to Hongye Tower? Did it fly in with wings?

"I heard that that bitch of the Wang family is neither an alchemist nor an alchemist. How did she come to Hongye Tower?" He whispered again.

But the sound was just loud enough for everyone around to hear it.

"She's not an alchemist?"

"She's not an alchemist either?"

"Then how come she is in Hongye Building and still wants to enter Haikuo Forest?"

Others were shocked when they heard his words. Without thinking, they must have come in under someone else's name, right?

However, shouldn't a person who comes in under someone else's name pretend to be a bear and hide?

Chapter 2479 Why do you say that about me?

She actually came out to cause trouble because she was not famous enough. She wanted everyone in Hongye Building to know her and know who she was and how she got in, right?

Who is this person? It's simply speechless.

"You guys, it's all because of you!"

Wang Suo'er saw that his bottom had really been dug out by those people, and stared at Sui Zimo and Lin Caisang with scarlet eyes.

If it weren't for them, how could she be recognized by those people?

"Why don't you agree to my request? Wouldn't it be better to form a team with us? What's so good about that little bitch who has to protect her? A woman with a big belly enters the sea and forest, that's what she is... A complete burden!"

Just wait, you follow her into the vast forest, and just wait to be eaten dry by the monsters in the forest!
"

She looked at Sui Zimo viciously and yelled at him.

She so kindly asked this man to form a team with them, but she didn't appreciate it. She had to be with this little bitch. Is it so easy to break into the vast sea and forest?

There are monsters there that eat people but don't spit out bones. Without her help, this man will definitely die there.

When the time comes, she wants to see if this man will regret it.

"Shut up, you!"

Finally, someone couldn't stand it anymore and roared at Wang Suo'er.

"Don't even look at what you are? You only have so little spiritual power, and you can't even protect yourself. You're not an alchemist, let alone an alchemist, and you still have the nerve to criticize others.

This lady herself is an alchemist and can subdue a group of you, and her spiritual power is higher than many of us here.

You still want to compare with this lady, where is your face? Was he left at home without being taken out? "

"You, you... why do you say that to me?"

Wang Suoer was so angry that smoke was coming out of his nostrils, and he was even more angry.

"I don't have a big belly. Just like her, it would be inconvenient to even walk in the vast forest. She can also step on the monsters to deal with. You think well. With such a burden, who is willing to follow them? Form a team?"

I am the only one who is kind enough to be willing to team up with this young master. Who among the others is willing? "

She felt that she had good intentions, but was treated like a donkey. She was really unlucky.

As soon as she said this, the other alchemists and alchemists were speechless. After all, none of them wanted to be a burden.

If she really arrived in the sea-wide forest, this lady would definitely not be able to walk fast, and maybe because of her, other people would be chased by monsters, and life and death might be out of her control.

"this....."

The others looked at Lin Caisang with a bad expression, lowered their heads and stopped talking.

"Huh, did I get it right?"

Wang Suo'er felt very proud when he saw that they were blocked by his words.

"Master, it's too late for you to regret now. As long as you are willing to abandon her, I can form a team with you. Don't think about it anymore, I..."

"If this young master abandons his wife, who wouldn't want to form a team with him, but you?" An alchemist looked at Wang Suo'er with contempt and said.

Sui Zimo's spiritual power can be seen by anyone with eyes, but it is so powerful. How many people here can match him?

Chapter 2480 Is it a big change?

If he didn't have his wife by his side, who wouldn't want to form a team with him? Would it be Wang Suo'er's turn who has a higher eye than the top?

However, who among the people present would dare to say such shameless words to Sui Zimo?

Let a man give up his wife and form a team with them. They are all respectable people. Although they have worked for some big shots, they are at least moral.

They can't do such a thing.

"What kind of person is this? He really thinks he is a person. Look, he is such a beautiful woman. If this young man really falls in love with you, he is blind. "

There was an alchemist who couldn't help but say something fair.

"I'm talking to this young master, what's the matter with you? You bitches, why do you have so much trouble? Be careful, I tell my father and I'll kill you all!"

Wang Suo'er was extremely angry and roared at the alchemists and alchemists.

She was coaxing this young master to come to her side. Aren't these lowly alchemists and alchemists just envious of her being favored by this young master?

Just wait, when she leaves Hongye Building, she must ask her father to give these people a good look, so that they can't stay in Qianhuan Continent any longer. Otherwise, how can she let go of the bad anger in her heart?

Everyone: "..."

It's true that everything is possible if you have a father. Do you really think that just a mere Wang family in Mo Shangcheng City can make a huge difference in Sky City?

"Does the Wang family have anything to do with the City Lord's Mansion?"

An alchemist raised his doubts. Otherwise, how could Wang Suo'er be so vicious even though he had done something wrong?

There must be someone in Sky City who will support her, right?

"I know that there is a girl in the Wang family. She seems to be a concubine in Master Tianfeng's house. I heard that she seems to be quite favored. She should be Wang Suo'er's sister or something.

Someone answered the alchemist's words.

Everyone suddenly realized that they had entered the Hongye Building through the path of Lu Tianfeng, the sworn brother of the city lord, right?

Since they are relatives of Mr. Tianfeng, it stands to reason that they should not say that.

But this Wang Suo'er is so shameless, he can do all kinds of disgusting things, and he actually wants others to abandon his wife and join her sister's team.

Wasn't she just telling people openly that the young master had abandoned his wife and would follow her from now on?

It's so disgusting.

"How could any of Mr. Tianfeng's relatives be so disgusting? Is there a mistake?"

"That is, could this be a relative of Mr. Tianfeng? If it is true, I would doubt whether Mr. Tianfeng is the person we admire in our hearts."

"Is this Wang Suoer actually the sister-in-law of Mr. Tianfeng?"

"Tsk tsk, with her appearance and mind, it's no wonder that her sister entered Mr. Tianfeng's house, and she is only worthy of making noises on the street and playing a life-long game with so many people. No wonder Woolen cloth."

After Lu Tianfeng was dug out, everyone mocked Wang Suoer again, and even Lu Tianfeng's impression among the masters was much worse.

"You...you..."

Wang Suoer was almost pissed off by them.

That's all she said, but even Master Tianfeng and her brother-in-law dared to say that.

Aren't they afraid that she would tell her brother-in-law what they said?
