

## Star of Space 2521

Chapter 2521 What a bad luck!

Especially when he saw that behind Lin Baizhong, the guards had come over and were really about to throw them out of Hongye Building.

At this moment, they couldn't care less about not walking with that couple.

"No, no, no, Commander Lin, please listen to my explanation. We still have people, but they are not here yet. They will be here soon." Another man explained quickly.

I cursed secretly in my heart, isn't Commander Lin too hard to talk to?

"Is there anyone else?"

Lin Baizhong's expression finally softened and was no longer cold.

"Even if there are people, that's fine. Come on, please watch these three people. If no one comes later, they will never be allowed to enter Haikuo Forest!"

But he still called the guards to guard these three people.

When the three people heard this, their faces suddenly turned green.

They also thought that they could get away with it later, and the three of them formed a team and entered the sea forest.

But they didn't expect that Commander Lin would let his guards guard them!

"Yes, Commander." The two guards immediately came over and stood beside the three men.

Three men: "..."

It makes it seem like they did something wrong. How could this be possible?

Even if they want to enter the sea forest, they still have the right to move around freely, right? How can they be guarded like this?

"Forest....."

One of the men wanted to speak, but Lin Baizhong had already turned around and walked away without even looking at them.

The three people were really dumbfounded that there was such an operation.

Come on, there is no other way. We can only wait for the couple to come over. As for the other two people, we will find a way then. I don't know if they can finally enter the sea forest.

Think about it, they are really unlucky!

After a while, Sui Zimo finally supported Lin Caisang, followed by Lin Changhong and Yue Chushui. The four of them arrived belatedly.

When the three men saw that there were actually four people, their eyes suddenly brightened.

Regardless of the fact that he was still wailing in his heart about how unlucky he was, he said something to the guards beside him and hurriedly walked to Sui Zimo and the others.

"Why are you here? We have been waiting for a long time!"

As soon as the words came out, they were words of blame. Yes, they had been waiting for a long time, especially being guarded by the two guards, like prisoners.

As alchemists and alchemists, when have they ever been treated like this?

"Who are you?"

Before Sui Zimo and Lin Caisang could speak, Lin Changhong stood up behind him and asked directly to the three men.

"Well!"

The three men were stunned by his question.

The key is.....

Look at the pregnant lady, and then look at the young man who came out to question them. These two people actually have the same face.

Like, it's so similar!

And this face, why do they feel so familiar, as if they have seen it before somewhere.

"We...we are on the same team as you." One of them finally came to his senses and replied to Lin Changhong.

"A team?"

Lin Changhong looked the man up and down with his eyes.

"Then why haven't I seen you before?"

"this....."

The three men choked on his words again.

Can they say that before they came to the lobby, they were thinking of ways to join other teams?

If there was really no other way, how could they come forward?

Chapter 2522: A side head and tail weed

You know, the lady in front of you is pregnant, and she has a big belly. If she gets bumped into in the vast forest, will they save her then? Or not to save him?

This is really a difficult problem.

It's dangerous enough in the vast forest, but they also have to carry a pregnant woman with them. How much more difficult will it be?

"Now is not the time to talk about this. Among all the alchemists and alchemists, there are only seven of us left. We can just form a team. You will definitely not be able to enter the other teams."

The man in green clothes spoke to them.

It's not that they dislike her, it's that everyone present dislikes this lady.

There was still a rumor in Hongye Tower that whoever formed a team with this lady would be unlucky. At that time, they looked like it had nothing to do with them.

But now, this misfortune has fallen on them.

"That being the case, have you prepared anything?" Lin Changhong asked directly.

Three men: "..."

Isn't this because he wants to steal their things and keep them for himself?

Even if you are in the same team, you still have to keep your own things. How can you give them to others? That is something that can save one's life when there is danger.

"We are naturally well prepared, but we have only prepared our own things, not yours." The man in green said.

"oh.

Lin Changhong said simply.

The disgust in his eyes was well hidden by him, as if he was coveting their little possessions.

His sister has a whole golden bead space, and there are so many things in it!

"That....."

"Sister Sangsang, brother-in-law, it seems like there's a roll call over there, let's go over there."

Lin Changhong wanted to say something else, but Yue Chushui spoke before him. Everyone looked in the direction he pointed. Sure enough, several teams had already rushed over to register.

Of course, the seven people from each team were registered. In fact, they didn't understand why they needed to register?

"Go over there."

Sui Zimo glanced over there and said.

"Okay."

Lin Changhong nodded immediately, raised his feet and prepared to pass.

However, he stopped and looked at the three men who were still standing stupidly, and couldn't help but frown.

"What are you three standing around doing? Go there together and wait for us to register you? We don't know your names either."

Tsk, you are still showing your bitter face, pointing out that you can start a quarrel among other teams, and then give up their original teammates and let them join?

What a three-headed and side-footed wallflower!

"Okay, okay, let's go."

The three men still grimaced and nodded.

They really don't want to be with these people, but do they still have the right to choose? Of course there is none.

"call!"

One of the men took a deep breath, exhaled it heavily, then pulled the other two and followed Lin Changhong to sign up.

Now that the matter has come to this point, there is no other way. We can only take one step at a time.

Soon, everyone's names were registered.

Every team takes care of its teammates and chooses a captain. For Sui Zimo and his team, naturally, the captain is Lin Caisang.

Let a woman with a big belly be the captain, and the other three men all twitched their mouths and wanted to die.

Chapter 2523 The Roar of Warcraft

They just said that they were unlucky to be in such a team.

They had already struggled enough with this pot-bellied woman in their team, and now they actually made him the captain.

None of the three people are happy.

But what's the point of not being happy? In terms of the number of people, the three of them, Sui Zimo and the four of them, in terms of strength, they are simply not strong enough for Sui Zimo to throw a punch.

What can we do? Let's just go for a walk in the vast forest. Maybe with luck, we can find some medicinal materials?

Thinking about it, they stopped worrying and listened intently to Commander Lin's speech above, memorizing all the things they should pay attention to when entering the vast forest.

But when they heard one of them, they were not allowed to change teams at will after entering the Haikuo Forest. Otherwise, they would be immediately expelled from the Haikuo Forest and all the medicinal materials they obtained would be confiscated.

At this time, the three men were really angry.

Originally, they had planned that if there was a team missing someone in the vast forest, they could just go there.

After all, it's so dangerous in the vast forest, so it's normal for a few people to die, right?

But now that Commander Lin said this, their newly born thoughts were poured with a basin of cold water, and they suddenly cooled down!

"What should I do? This won't work?"

One of the men glanced sideways and secretly looked at the other two.

"Forget it, forget it, let's just do it, it's bad luck for us!" The other man had no choice but to say this.

The Haikuo Forest does not belong to them, so of course they cannot have the final say. What Commander Lin said must be what the Lord of the City meant, and they did not dare to disobey.

"What, what else do you want to do? How about we separate here, eh?" Lin Changhong turned to look at them and asked coldly after hearing what they said.

"no no."

The three men shook their heads.

"No way, we are... not joking, we can't take it seriously, haha."

Even if they want to take it seriously, no one will take it seriously. The rules above are so strict that they can't even change teams. What can they do?

...

After a while, a vortex was opened directly in Hongye Building.

Every member of the team was bound together by spiritual power and walked into the whirlpool together. When they came out, they were already in the vast forest.

"Ho, ho ho!"

As soon as they entered the sea forest, everyone heard the roars of monsters. It seemed that they had sensed the invasion of humans and were about to resist.

"hiss!"

Several teams landed in the same place at the same time. Several women in the team couldn't help but gasp when they heard the roar.

When they were outside, they had never heard such a terrifying roar of a monster.

The air pressure was once low, and everyone was overwhelmed by the pressure of those beasts, and their faces began to turn pale.

"What should we do? Let's disperse quickly?"

Soon, some people started to take action, wondering if the people here were separated, would those beasts just chase a group of people?

Then other people will be safe, right?

"Spread out? Are you kidding me?"

When the captain of one of the teams heard this, he was speechless and rolled his eyes at the woman who spoke.

This is still in their team, why are they so stupid?

Chapter 2524 Ignore them

If everyone gathers together, it is possible to compete with the monsters, but if they are separated, won't they be defeated individually?

That's a monster, not a wild beast. Do you think they have no brains? I also thought that they would only chase one group, and the others could escape. It was really a beautiful thought.

He can guarantee that after they are separated, those monsters will only chew up the members of each team until no bones are left.

That is the monster, the monster in the vast forest!

"If any of you are afraid of death, please leave quickly and don't get in the way here."

He said sternly at those who were greedy for life and fearful of death and wanted to push the danger to others.

Before entering the Sea-wide Forest, everyone sharpened their heads for the medicinal materials and alchemy materials in the Sea-wide Forest, trying to get in.

But now, the monster is not in front of him yet, but he is so scared when he hears the roar.

If they can, don't come in, why bother?

"Well!"

Those who looked fearful and wanted to escape suddenly turned ugly when they heard his words.

"Why are you talking? We were just panicked for a moment and didn't react. Do you need to make us so embarrassed? Everyone went to Haikuo Forest for the wife of the city lord. Don't act like you are. It's like something special."

"That's right. With so many roars of monsters, everyone will inevitably be scared if they don't react for a moment. What do you want to do?"

"Look at him, he definitely wants to show his face in front of Commander Lin, right? Haha, Commander Lin is not here now, there are only guards from the Commander's Mansion, what are you doing there?"

People around him mocked the captain.

They hate this kind of people the most. They are obviously the same as them, but they pretend to be scared. Who are they trying to scare?

"you....."

The teammates next to the man were so angry that their eyes widened when they heard what others said.

Did the captain make a mistake? Those people were obviously afraid. The captain just told the truth. How could he be wrong?

"Zhang Lie, ignore them."

When the man saw that his team member was about to quarrel with those people, he immediately stopped him.

The roars of those monsters were getting closer and closer, and they were about to bite them. But these people still had the time to argue with him here about whether to please Commander Lin?

There is no need for them to pay attention to such people, they should just focus on immediate matters.

"Everyone is prepared to meet the enemy."

"Zimo, that team is quite good. Maybe we can try to cooperate." On the other side, Lin Caisang raised his hand to touch his chin and said to Sui Zimo beside him.

"Sangsang, do we still need to cooperate with others?"

Without waiting for Sui Zimo to answer, Lin Changhong asked his sister.

Although the man looked righteous and awe-inspiring, since he didn't come to form a team with them, it could be seen that he was not a good partner.

"Um?"

Lin Caisang was stunned for a moment, then turned to look at his eldest brother.

"It seems...that's true."

She nodded, listening to the roar of the monster that was getting closer and closer, and feeling the increasingly intense trembling under her feet.

"Then, brother, be prepared to face the enemy."

"Needless to say, it has been prepared for a long time."

Lin Changhong raised his chin proudly, feeling that it was natural for him and Yue Chushui to fight against each other.

Chapter 2525 You deserve to die

You can't let his girl deal with those monsters with a big belly, right? Then if his father saw him later, he wouldn't be able to kill him!

Moreover, he didn't stay in his sister's golden pearl space for nothing, okay? The art of mechanism has also improved to a higher level, and the cultivation of spiritual arts has not fallen behind.

"Um."

Lin Caisang nodded with satisfaction.

Soon, a large number of magical beasts rushed towards them.

Looking at the densely packed monsters, everyone's scalps began to feel numb. No wonder people outside said how dangerous it was in the vast forest. Looking at this posture, could it not be dangerous?

This is almost catching up with the wave of Warcraft. If you are not careful, your entire army will be wiped out.

But even if the whole army is annihilated, there is no room for regrets, because they have already entered the sea forest, and if they want to leave, they will have to wait until a month later.

Therefore, everyone is ready to face the enemy.

For a moment, all that was heard were the sounds of people fighting with monsters, as well as bursts of screams. It could be seen that many people were injured, and they were seriously injured.

"Zimo, do you need our help?"

Lin Caisang was hugged by Sui Zimo, standing on a large tree, stepping on the branches and looking down.

The few people in their own team were okay, at least they could handle it. Even the three losers, with the occasional help from her eldest brother and Chu Shui, were able to kill the monsters neatly.

But it was different for other teams. She thought, if it weren't for the guards of the Commander's Mansion secretly helping them, many people would have died at the hands of the monster.

"What a rabble."

She shook her head. Speaking of rescue, she really didn't want to save those people!

One by one, they push me and I push you. How can this be killing the enemy? He was obviously pushing the person next to him to die and blocking the claws of the monster for him.

Although many monsters died, people suffered more injuries.

"Don't worry about it. If you can't pass this test, you deserve to die." Sui Zimo looked at those people indifferently and said softly.

This is just the most basic level of monsters in the vast forest, and the powerful ones haven't emerged yet.

If you can't even deal with this level of monsters, what happens next? Is it time for everyone to put their lives on this place?

Therefore, it is simply impossible for them to save him!

"That's right."

Lin Caisang nodded seriously, feeling that her husband was right.

Then just ignore them for the time being, let them get hurt first, and polish off the arrogance in them that doesn't know where they came from.

...

A wave of magical beasts consumed almost three hours of everyone's time.

After all the monsters were killed, everyone was out of breath. Regardless of whether there was blood on the ground, they fell to the ground one by one and could not get up.

"Sang Sang, these are the monsters that Chu Shui and I killed. Look, are there many?" Lin Changhong came to his sister, looked at her proudly, and asked.

"Um."

Lin Caisang glanced at the monsters and nodded his head.

Lin Changhong and Yue Chushui killed half of the monsters, giving those people a chance to breathe.

"Sang Sang, you've been killing monsters for so long, are you hungry? Can I roast monster meat for you? Or do you want to eat something else?" Lin Changhong saw his sister nodding, and then said.

His sister is not hungry, and she is pregnant with his little nephew.

Chapter 2526 Go farther?

"Okay, you and Chu Shui go clean one out and let's burn it.

Thinking of the monster meat, Lin Caisang's stomach began to feel. He had just been watching them kill the monsters, but he had lost track of time.

"well."

Lin Changhong responded repeatedly and left with Yue Chushui.

The trio of wallflowers who just walked over and were about to join them said: "..."

Should this role be changed? Those two men were obviously the ones who killed the monsters for more than three hours. Why did they have to prepare barbecue for this pregnant lady after killing so many monsters?

Shouldn't it be the people who didn't work, and now the meat is roasted and eaten by the people who are half dead from exhaustion from killing monsters?

However, although they thought so in their hearts, they did not dare to say it out.

Who knows that those two people just now are really strong. They killed almost half of the monsters. Their spiritual power seemed to be free of charge, and they were smashing out.

As for those monsters, they would not die even with several other attacks, but under the hands of these two people, they could be killed with one move!

Now they can all feel the envious looks from other teams. With two such powerful people here, what does it mean to protect a pregnant woman?

"Sonny, let's have some pastries first."

Sui Zimo helped Lin Caisang sit on a big rock, took out a bag of pastries and handed it to her.

Everyone smelled the aroma of the pastry from the smell of blood, and immediately swallowed, thinking, if I had known better, I would have formed a team with them.

Looking at the three people, although they were killing monsters like them, they were not as embarrassed as them. They were able to stand up and walk to Sui Zimo and the others.

But what about them?

But he was lying on the ground, unable to stand up, he was too tired.

I have monster meat on hand, but even if I am so hungry that my stomach is growling, I don't want to get up and pack up those monsters to roast and eat.

...

Soon, Lin Changhong and Yue Chushui had already taken out the two monsters, found firewood, and were waiting for the barbecue.

Therefore, the two of them looked at the man who was still feeding his wife.

"Zimo, come over and bake." Lin Changhong urged.

He and Chu Shui can cook and grill meat, but the grilled food is definitely not as delicious as Sui Zimo.

Therefore, this matter should be left to its own devices. After all, Sang Sang likes to eat food cooked by her husband. This is something everyone knows.

"Um."

Sui Zimo responded lightly, turned his head, and gave Lin Caisang an instruction.

"Sonny, eat a little to fill your belly first, but don't eat too much. We'll have barbecue later."

"Mmm Good."

Lin Caisang responded while eating.

"But Zimo, don't be here. There are so many monsters with such a strong smell of blood. I wonder if other monsters will come after smelling it. If it is such a low-level monster, that's fine, but if it is some high-level monsters, , I'm afraid it will be difficult for us to deal with it, right?"

She glanced briefly at the staggering people and spoke calmly.

The point is, smelling the blood in that place made her feel a little nauseous, and she could hardly eat the pastries in her hands.

"Then let's go further?"

Sui Zimo suggested, glancing sideways at Lin Changhong and Yue Chushui.

The two of them didn't say anything, just picked up the two monsters and firewood, and left.

Chapter 2527 People without self-awareness

Suizi Mo also helped his wife to leave.

"Hey, wait a minute!"

Seeing that they were all gone, the trio of wallflowers shouted and followed them in a hurry.

The other people who were pretending to be dead on the ground heard the conversation between Sui Zimo and Lin Caisang, and then they felt something was wrong and stood up as if their buttocks were burning.

Now they are sleeping in a pile of corpses of monsters. If it is true as the lady said, these corpses of monsters have attracted more powerful monsters, then don't they look like they are waiting to die?

"Captain, should we go with them?"

A man saw that Sui Zimo and his group were all gone, so he suggested to his captain.

There were just two people in that team, so if they followed that team, at least their safety would be guaranteed.

"Walk."

The man called captain glanced at the backs of Sui Zimo and others, gritted his teeth, and led the whole team to follow.

Seeing this, the other teams naturally followed suit.

These days, whoever is stronger will follow him. When comparing face and life, they naturally choose the latter.

So, everyone followed Sui Zimo's group to another place, but they could only watch as they began to barbecue and smell the aroma of barbecue, while those people could only eat cold and hard dry food. .

It's okay for the men. After all, they spend a lot of time away from home, so eating solid food is normal.

But the women were different. They looked at Lin Caisang, a pregnant woman, doing nothing, but there were three grown men surrounding her, killing, cleaning, and roasting monsters.

I really feel it's so unfair.

Especially those three men, all of them are very handsome.

Such a man should be by their side and make them happy. How could he be by the side of a pregnant woman with a big belly?

"Zimo, someone is trying to cause trouble."

Being stared at by several unkind eyes, Lin Caisang, who was nestled next to her husband, couldn't help but curled her red lips and softly reminded the man who was grilling meat.

These women are really fed up. How dare they even think about their husbands? Are they not afraid of ending up in the same fate as Wang Suoer?

As for Wang Suoer's fate, although no one knows where she went in the end.

But everyone felt that Wang Meier was quietly taken out because he offended her, and he might have died in the hands of a 'vicious' woman like her.

Anyway, that's how it was spread when we were in Hongye Building.

But she didn't know where such news came from, or maybe someone wanted to target her.

"There are many people who have no self-awareness."

Sui Zimo raised his free hand, patted Ren'er's face, and then looked at the whole roasted monster on the fire.

"You'll be ready to eat soon. Go sit over there and I'll cut a plate for you to eat first."

"good."

Lin Caisang nodded and sat down obediently.

Lin Changhong followed her there, while Yue Chushui continued to stand beside Sui Zimo.

"Brother-in-law, where should we go first?" he asked.

Before entering the Haikuo Forest, the captains of each of their teams got a map, so they could go wherever they wanted first.

"We'll discuss this later." Sui Zimo said lightly.

Chapter 2528 Call me Sister Yin

Out of the corner of his eye, he caught sight of two dark figures walking towards them. It seemed that they were attracted by the roasted monster.

"Hey, you're a pervert, you've mistaken me!"

Yue Chushui naturally spotted those two figures and sighed softly.

He thought, those two women couldn't come just for their barbecue, but wanted to get close to his brother-in-law, right? After all, they had been focusing on Sui Zimo before and wanted to snatch his brother-in-law away from his sister Sangsang.

Just such a bright look in his eyes, everyone can notice it!

"Shut up!"

Sui Zimo had a cold face and glanced sideways at him.

In fact, he also found such ungrateful women quite annoying. It would be best if he could slap one of them and beat her to death.

But in front of his wife, it's not good to be so bloody, and here, he doesn't want to cause any trouble and cause trouble to his father-in-law.

Therefore, he could only take a deep breath and ignore the two women leaning against him.

But just because he ignored her, it didn't mean that she suddenly became self-aware and didn't come over to support him. No, soon the two women had already reached Sui Zimo's side.

"This young man..."

"Auntie, are you okay?"

Sui Zimo didn't give the two women a chance to finish speaking. He looked up at them and asked coldly.

Two women: "..."

Although they are a bit older than the man in front of them.

But this is Qianhuan Continent. At their age, they are still little girls. There are so many unmarried girls, how can they be called aunt?

The two people's faces turned blue and white, and they almost cursed at Sui Zimo.

Fortunately, their hearts are not as strong as usual, and they are still warning themselves secretly that this young master must have been in contact with others and not very good at talking before, and he did not say this on purpose.

Therefore, the two of them soon smiled again and looked at Sui Zimo.

"Look what this young master said, we are not much different from each other. My surname is Yin. If you don't mind, please call me Sister Yin." One of the women raised her foot and got a little closer to Sui Zimo.

"Aunts, you're welcome. You two look to be older than my father. I can't call you sister," Sui Zimo continued to say to the two women in a cold voice.

"You two aunts should stop being polite to me. We are not familiar with each other and can only be regarded as strangers. I have to barbecue for my wife and I have no time to chat with you two aunts."

"you--"

The two women really heard it now. This man said this to them on purpose, just to make them leave quickly.

Their eyes couldn't help but glance at Lin Caisang, who was chatting and laughing with Lin Changhong.

What's good about a woman with a big belly?

Even though the face is still so beautiful, but with a big belly, the figure will be out of shape. Maybe after the child is born, he will become a fat man!

How could such a woman be protected by this handsome young man?

At this moment, their faces were twisted with jealousy.

Feeling dissatisfied, they naturally wanted to prevent others from getting what they wanted, so the two quickly cleaned up their ugly faces and continued to smile at Sui Zimo.

Chapter 2529 I am easy to bully

"Sir, don't be so serious.

The woman who was talking to Sui Zimo glanced at the other woman, and then the other woman moved a little closer to Sui Zimo.

"We were only attracted by the monster meat you roasted. Look at us. We have been killing monsters for so long, and now we are hungry. Otherwise, how about you give us a monster? ?"

"Yes, yes, we all came to Haikuo Forest to collect herbs together. We all work for the city lord's palace, so we should help each other, right?" The woman surnamed Yin also nodded and agreed.

"Chu Shui."

After hearing what they said, Sui Zimo glanced at Yue Chushui beside him.

Yue Chushui understood, and left in a flash.

The two women didn't know what he was doing, but they were still curious, so they waited for Yue Chushui to come back without saying anything.

They couldn't help but wonder, when Sui Zimo asked Yue Chushui to leave, did he ask him to prepare something to hold the monster meat? Or was this young man thoughtful?

They just came here, they couldn't carry such a big monster away, right?

Thinking about it, they glanced proudly in Lin Caisang's direction.

Humph, so what, even if they are pregnant with this young master's child, as long as they say a few soft words, this young master will give them the meat of Warcraft?

This is the advantage of a beautiful woman. It cannot be compared to a woman with a big belly.

"Hey, ugly people do a lot of mischief!"

On the other side, Lin Caisang accepted the provocative gaze and sighed softly.

She couldn't understand why these women had to come to provoke Zimo, her family, when there were so many men around them.

Does it mean that her husband has the words "I am easy to bully" written on his face?

"It's not too ugly."

Lin Changhong looked up at the two women and said this.

Lin Caisang: "..."

Is that what she meant? She obviously didn't mean it, okay?

On the other side, the two women were obviously overthinking. Yue Chushui came back quickly, but in his hands, he was carrying two bloody monsters that had not been cleaned yet.

He was just thrown in front of the two women.

"ah!"

The two women were really frightened by Yue Chushui.

Even though they had seen so many corpses of monsters before, they were not as frightened and frightened as they were at this moment.

How could they have imagined that the two people in front of them would be so cruel and throw this monster directly in front of them. What they wanted was a monster that had already been processed and roasted.

What's the use of just throwing it bloody in front of them?

Can they still hold it alive and chew it?

"Take it, no need to be polite, no need to thank us."

Yue Chushui didn't even look at them. After saying something, he came to Sui Zimo's side.

By chance, Sui Zimo had already cut a plate of meat slices and handed it to him. He immediately took it and carried it to Lin Caisang.

"You... you..."

The two women trembled their lips, swallowed, and glanced back and forth in front of Sui Zimo and Yue Chushui.

These two people are really disgusting. They are from a girl's family after all, but they actually scare them like that? How could the City Lord's Mansion recruit such cold-blooded people?

"How could you do this, how could you..."

Chapter 2530 Who gives them face?

The two of them were so angry that they burst into tears. They turned to look at the other people, hoping that they could stand up and say something fair for them.

Of course, there are still people who know that things are not right or wrong and have not come out to say anything for them, but there are also some sanctimonious guys who, on the one hand, want to satisfy their own appetites and think that if they say a few words, they may get something to eat.

On the other hand, in order to make the two women happy, they stood up shamelessly.

"Young master, that's not how things work. We are all away from home. Who hasn't encountered difficulties yet? Now you give these two young ladies something, maybe they can still survive in the future. I'll help you, right?"

"That's right."

Others also agreed.

"These two girls are both alchemists, and they are very powerful. We may need them when the time comes, and we are indeed very tired. You and your wife have not done much.

Now you roast the meat and give it to those of us who kill Warcraft. Isn't it fair? "

"That's right, we helped you kill so many monsters, so you should share the barbecue with us. If we hadn't worked so hard before, how could you have been so relaxed?"

"Master, you just need to protect your wife. We are almost exhausted from killing the monsters!"

Looking at those people, the trio started to accuse Sui Zi Mo Lai. They were really sweating.

Kill monsters?

In terms of killing the most Warcraft, are these people who want to be freeloaders?

They were obviously the two around Sui Zimo. They killed more monsters, okay?

But these people had the shame to say that they worked so hard to kill the monsters for Sui Zimo and Lin Caisang?

How thick-skinned do you have to be? They really admire these people to death!

"No, wait."

Finally, one of the three men on the wall couldn't help but stretched out a hand to stop them.

"I just want to ask, did our team kill more monsters, or did your teams combined kill more monsters? This is not something I say casually!"

Lin Changhong and Yue Chushui alone had killed half of the monsters, right?

And although the three of them are not that good, at least a lot of monsters have died under their hands, right?

If you calculate it that way, does it mean that their team still killed more World of Warcraft?

So, how could these people have the nerve to say that they were killing Warcraft for Sui Zimo and Lin Caisang, and also asked Sui Zimo to give them the roasted Warcraft meat?

Who gave them the face?

"Well!"

After hearing his words, those who woke up with righteous faces were immediately choked.

Yes, how could they not know that half of the previous monsters were killed by the two men next to Sui Zimo?

But now the smell of the food is so tempting, and they roasted two more monsters. With so much meat, can a team of seven people finish it?

Instead of wasting it like that, why not feed it to them?

"They can't finish eating so much. Do you want you to mind your own business?" Someone stood up, glared at the three people on the wall, and cursed.

"Who said we can't finish eating?"

Lin Changhong came over with an empty plate and looked at those shameless people with mocking eyes.
