

Star of Space 2531

Chapter 2531 This big mouth

"There are only a few of you. Can you finish eating two such big monsters?"

Those people smelled the fragrance and refused to leave. They even pushed back on Lin Changhong's words.

There were only a few people, and this monster meat was not the meat of kittens or puppies, only a little bit. It was as big as two adults, so it was strange that they could finish it all.

"laugh!"

Lin Changhong looked up at them and sneered.

The next moment, a flying monster landed next to him, moved its big wings, and looked at those people innocently.

"We can't finish it, so let's give it to it, okay?"

Everyone: "..."

These people actually have flying monsters, and looking at this species, only the orcs in Qianhuan Continent have it, right?

How did they get such advanced flying monsters?

The trio of wallflowers: "!!!"

I can't tell that these people are actually the owners of the richest party.

If you weren't rich, how could you get such a good flying monster?

When they came to Haikuo Forest this time, there were also flying monsters, but they were all assigned by the city lord and kept under the unified control of Commander Lin. They could not see them normally.

As for them, they do have flying monsters, but they are all inferior. Flying on the Qianhuan Continent is about the same. As for flying in the vast sea forest...

There are so many magical beasts here, and their magical beasts will not be able to bear any pressure.

Flying is impossible.

But the flying monster in front of them is obviously not on the same level as the one in their hands. If they can sit on it, it will definitely feel good.

However, when Lin Changhong looked at his brother-in-law with a somewhat proud look, his mouth froze.

"Well, hehe, Zimo, let's feed your mount. Your... ah, no, we can't finish our food. We can also feed Sangsang's mount. Her mount is the most important. As for ours, we can do whatever we want. Just order something to eat."

Halfway through his words, he quickly changed his words.

In the eyes of his brother-in-law, his own mount is not as important as his wife's mount. There is no comparison between the two.

So he quickly collected his mount and changed his words.

However, he still misunderstood the meaning of Sui Zimo's faint glance.

What he means is that it is better to do less things like showing off your wealth, so as not to be remembered by those people again.

Even roasting a piece of Warcraft meat can be remembered. Then when they leave later, wouldn't those people directly tell them to use flying Warcraft to carry them?

For people with such thick skin, he believed that this was definitely what they would say.

But he didn't expect that Lin Changhong, a big talker, not only leaked his own mount, but also revealed his and Sonny's mounts. He really couldn't hide any wealth!

After hearing Lin Changhong's words, the trio of wallflowers admired the four people in front of them with admiration.

I thought they only had one flying monster as a mount, which was already powerful enough.

But I didn't expect that they actually have other mounts. Are they all so powerful and of high variety?

Then these people are really amazing. Where did they come from? Why haven't you heard of them before?

"You go and eat."

Sui Zimo silently cut off a large piece of meat and handed it to Lin Changhong to gag him.

Chapter 2532 Is it related to you?

"oh oh.

Lin Changhong nodded.

But he didn't eat first. Instead, he took the meat to his sister's side and continued to coax her to eat.

"I went to use the sauna, but she wasn't full yet."

"etc."

Hearing his words, Sui Zimo stopped Lin Changhong again.

Then, with great speed, he cut off the best piece from the roasted monster, cut it into slices, and handed it to Lin Changhong.

"For Sonny."

Lin Changhong: "..."

He lowered his eyes and looked at the big piece of meat in his hand, and then at the plate of finely chopped meat in Sui Zimo's hand.

The corners of his mouth twitched violently, and he really didn't dare to look alike. Why is there such a big difference in treatment?

But even though he was thinking this, he didn't dare to complain. He quickly took the plate of meat slices into his hands, and then turned around to find his sister.

"you....."

The two women were so angry that they saw Sui Zimo and the others not even paying attention to them anymore.

She's just a pregnant woman, why should she be surrounded by three such good-looking men? These three men should be by their side!

But no matter how they thought about it, it was of no use. Sui Zimo still didn't even look at them.

"Sir, how can you not have any spirit of unity? We are all working for the City Lord's Mansion. If you let the City Lord know about this, City Lord Lu will definitely not let you in again in the future!"

They were so angry that one of them pulled Lu Tianlan out and tried to make Sui Zi Mo surrender.

Anyway, they are determined to eat the monster meat today. Even if they have high-quality flying monsters, so what?

Could it be that they came to Haikuo Forest this time not to do business for the City Lord's Mansion?

Since everyone has the same goal, they naturally have to help each other. They don't think there is anything wrong with eating a piece of barbecue from Sui Zimo!

"Whether I can enter Sky City has anything to do with you?"

Sui Zimo finally raised his head, but his cold eyes glanced at the two women.

Will Lu Tianlan not let him stay in Sky City? He really hadn't thought about this issue.

However, the two women in front of him were very annoying, and he decided not to bear it any longer. No matter if she was someone invited by the city lord's palace or not, she should be killed if she dared to provoke him in front of his son!

No, if you pretend to be like this in front of him, you are just provoking his son.

"Why doesn't it have anything to do with us?"

When the woman heard his words, she was immediately proud.

"I know you. I have a relationship with the City Lord's Mansion. My sister is the person close to Mr. Tianfeng. As long as I say a word, I guarantee that you will not be able to stay in Sky City!"

Sui Zimo: "!"

It's Lu Tianfeng again. It seems that Lu Tianfeng is really good at coaxing women!

Wang Suoer's sister is also the sister of the woman in front of him. How many women are there in Lu Tianfeng's house?

The man raised his hand and touched his chin, indicating that even Lu Tianfeng himself probably didn't know this question, right? Because he can't count how many women are around him!

On the other side, Lin Caisang, who was eating happily, looked sideways when he heard the words Lu Tianfeng.

Lu Tianfeng has really had enough. There are so many women around him, and the most important thing is that those women are willing to pay for him, dragging his family into the big hole dug by Lu Tianfeng himself.

Chapter 2533 I will definitely go to my father

"Sang Sang, this woman is Lu Tianfeng's sister-in-law.

Lin Changhong also looked at the women who were angry one moment and turned into arrogant peacocks the next, and spoke.

"Isn't this man going to die in bed? How can he survive with so many women?"

Lin Caisang: "..."

If she hadn't been eating with a plate in one hand and chopsticks in the other, she would have slapped her eldest brother on the head.

What kind of words are these!

"A pharmacist, what method can't he come up with?"

Those women were from Lu Tianfeng's background. Maybe those women didn't like Lu Tianfeng, but were drugged by Lu Tianfeng?

This is also something that Lu Tianfeng is very likely to do. Otherwise, why have we never heard of the things that women in Lu Tianfeng's house would cause to be jealous of?

They must have been affected by Lu Tianfeng's medicine and turned into little lambs waiting to be slaughtered.

As for the woman just now, when she mentioned Lu Tianfeng, she also looked extremely infatuated, but before, she was obviously infatuated with her family members.

It can be seen that as long as this woman cannot think of Lu Tianfeng, she will not have this person in her heart.

"I don't know how Lu Tianfeng can control so many women. I'm really curious." She said quietly.

"Well."

When Lin Changhong listened to what his sister said and looked at her expression, he really held his breath in his chest, almost suffocating himself to death.

In his opinion, Lu Tianfeng is simply a madman, a madman who can do anything!

"Sister Sang Sang, where do you think Lu Tianfeng is now?" Yue Chushui asked.

"I don't know where he is, but I know that he will definitely go to my father." Lin Caisang replied to him.

"Why?"

Yue Chushui didn't understand and asked.

Now that he has arrived at Haikuo Forest, Lu Tianfeng will naturally go find what he is looking for, but will he go to find his uncle again?

"Because it's very likely that where Lu Tianfeng wants to go, he won't be able to get in." Lin Caisang turned to look at Yue Chushui and raised an eyebrow at him.

Once you enter this vast forest, can you walk around and pick the medicinal materials here at will? Of course it's impossible!

Haikuo Forest has always been controlled by the City Lord's Mansion. That's because there are many places here that cannot be opened without the City Lord's order. Lu Tianfeng wants to lead his team into Haikuo Forest, doesn't he just want to get Lu Tian The City Lord's Order in Lan's hand.

In this way, he can travel unimpeded in the vast forest.

But, God didn't give him this opportunity, so he still couldn't enter for the time being. He had to find her father first and get the City Lord's Order from him before he could enter those places.

On this side, the three of them started chatting, but on the other side, Sui Zimo didn't want to be stared at by the two women anymore, so he directly threw his spiritual power towards them.

The faces of the two women were quite proud at first, but the next moment they turned pale.

"you you....."

One of the women couldn't support herself and fell to her knees directly on the ground.

When the other woman saw the woman next to her kneeling down like this, her face turned pale with fright. Although she didn't kneel down so unsatisfactorily, her legs were trembling.

"roll!"

Sui Zimo's eyes had become bloodthirsty. If anyone looked at him, he would probably kill these two women in the next moment.

Chapter 2534 I deserve it for what I did.

"You, wait..."

Although the two women were unwilling to give in, they ran away quickly.

Especially the kneeling woman, she almost crawled away. When she reached a safe area, she stood up and looked at Sui Zimo hatefully.

Knowing that they are related to the City Lord's Mansion, you still treat them like this?

Just wait, after leaving the sea forest, she will not let this man go. She will also let the pregnant woman and the child in her belly die miserably!

However, she didn't even have time to express her inner thoughts to her companions, as she felt a stinging pain in her eyes.

"ah!"

The next moment, she covered her eyes and screamed.

"My eyes, my eyes!"

Everyone was horrified to see a lot of blood seeping out from between the fingers of the woman covering her face.

Then they turned their eyes again and looked at Sui Zimo in horror. Who else could have done anything besides this man? They could feel the pressure of that man just now.

Those of them who were a little far away could feel that they were out of breath, which showed how powerful this man was.

However, they did not dare to say a word for the woman whose eyes were injured.

Because just now, they also saw the woman looking at Sui Zimo and his wife with vicious eyes. If it were them, they would probably be more ruthless.

Such a woman, if you don't take action, will you still wait for her to harm you?

"hiss!"

The trio of wallflowers gasped.

This man is really cruel, gouging out people's eyes whenever he disagrees with him.

They are also alchemists, and they can tell that the woman's eyes will never be seen again in this life, and she will have to be blind for the rest of her life.

"Hard enough!"

"You deserve it for what you did." One person said.

It's not what they deserve. They didn't do anything when others roasted them, but they wanted to get a piece of the pie.

What a beautiful thought. Do you think that you are the most beautiful in the world and everyone has to bow under their pomegranate skirt?

Compared with beauty, how can they compare with Sui Zimo's wife?

"Are you hungry? There are ready-made monsters, why don't we bake one too?"

Another person suggested that the man had already brought the Warcraft just now, but the two women were dismissive, so of course it would be an advantage for them.

"Let's go and have a barbecue."

The three people hurried forward, asked Sui Zimo, and then took the magic beast to clean up.

They had to hurry up. If they waited until Sui Zimo and the others had finished eating, they might have to hit the road. After all, this was a vast forest, and they still had to hurry. They couldn't stay in one place forever, and there was still time at night. Rest, that's impossible.

The three of them worked very quickly. They found firewood and roasted the monster.

...

On the other side, the companion of the woman whose eyes were gouged out was treating her wounds.

"Ji'er, hurry up, your eyes will really hurt if you cry again."

While persuading, the woman looked cautiously in Sui Zimo's direction.

She really didn't expect that he would not be afraid even though they had already carried him out of the city lord's mansion, and he would dare to confront them face to face like this.

She couldn't help but wonder, could this couple actually be related to the City Lord's Mansion?

So after hearing what they said, the man's eyes were so dismissive that he almost threw them out.

Chapter 2535 Just use hers

"My eyes are already blind, how can it get worse!" Yu'er kept slapping the tree branch next to her with both hands.

At this moment, she has taken painkilling pills. Even if her eyes are really dug out, it will not hurt at this moment. But she is really unwilling. From now on, she will be blind and can no longer see. .

"Sister Yin, I'm not willing to give in. I'm not willing to give in. When I get out, I must make that man responsible for me. I want my father to force him to divorce that woman and make her my husband-in-law!"

Naturally, this husband is definitely not easy to do. She wants to torture that man to death!

"Okay, okay, I understand."

Sister Yin comforted her softly, but she felt extremely disdainful in her heart.

A blind man is not qualified to compete with her for a man, let alone such a powerful and outstanding man?

But at the same time, she was also afraid. What if this man heard what Yu'er said, became violent and came directly to trouble them?

"Don't say these nonsense first. That man looks really powerful. If I hear what you say, maybe neither of us will be able to leave this vast forest."

"I....."

When Zi'er heard what she said, she originally wanted to say something in reply.

But I thought it wouldn't be too late to endure it now, and wait until I got out of the vast forest to settle the score with that man, so I endured it.

"Well, I listen to Sister Yin and won't be familiar with them for the time being."

"That's good."

Sister Yin finally smiled after hearing her words.

At the same time, she also breathed a sigh of relief. As long as she didn't mess with that man for the time being, with Wei'er's life experience, they would still be safe in the vast sea forest.

Their teammates will definitely get them out safely.

"Sister Yin, can my eyes still be cured?" Wei'er asked softly.

"Of course it can be cured!"

After hearing her words, Sister Yin hurriedly said.

"Ji'er, I promise you, your eyes will definitely be cured. Even if your eyes are really broken, there are so many servants in your family. When the time comes, you can just dig out a pair of their eyes and fix them for you." I'm sure you can still see something."

Although he said this, he sneered in his heart.

How could it be cured? This woman would have to be blind for the rest of her life.

However, she still needs to establish a good relationship with this woman, and then establish a good sense of presence in front of her parents, or she can find a foster father and mother.

From then on, she was also a young lady from a noble family, and her identity was no different from that of this woman.

When the time comes, if she works harder, she will be able to get that man.

We are now in the Sea-wide Forest. That man may not be afraid of the people in the City Lord's Mansion, but it will be different in the Sky City after leaving the Sea-wide Forest. I won't be afraid that he won't obey!

"Uh-huh."

Zi'er nodded desperately, feeling that her eyes would definitely be cured.

She will still be able to see in the future, and her eyes will not be dark like now.

At this moment, her mind had already begun to think about whether she should dig out a pair of eyes from the face of a servant in the family?

She would never want someone who was not good-looking, but there were not many people with beautiful eyes. Maybe there was one beside her, and that was her personal maid Xiao Lu.

"I think Little Green's eyes are good, so let's use hers."

Chapter 2536 Waiting for you here

She sounded like she was just giving Xiaolu a chance out of compassion, and even Sister Yin was shocked.

This woman is quite vicious, she is definitely not an ordinary person.

Fortunately, she was able to coax this woman, and the two of them were on the same side. Otherwise, she really doubted whether Yi'er would dig out her eyes and install them for herself.

However, while she was dealing with Yu'er, she was thinking about how she could stay with Sui Zimo and his group.

Although Sui Zimo was really scary, he just had a disagreement and destroyed Yu'er's eyes.

But this man is also really powerful. If they can follow him, they will definitely be able to do anything with half the effort, right?

But when I think about it, I feel scared. What if I can't stand it again and provoke others?

She won't be so lucky next time. That man might attack everyone in their team. By then, she won't be able to escape. What should she do?

Suddenly, she turned her head and looked at their captain.

"You'er, please wait here for a moment. I'll go find the captain and see if I can pick some fruits for you to eat nearby." She said to her.

When Zi'er heard her words, she was naturally happy.

"Okay, sister Yin, go ahead, I'll wait for you here."

Sister Yin patted her knee, then stood up and walked in the direction of the captain.

"Miss Yin, you were too reckless this time."

Before she could say anything, the captain of her team accused her.

He was not in the team just now. He took two team members to clean out a monster and planned to roast it and eat it like Sui Zimo did.

Who knew that these two women in the team would dare to mess with him when he was away!

"Well!"

Sister Yin was choked by the captain's words, and her face suddenly became embarrassed.

How did she know that Sui Zimo, who looked at the two charming girls like them, would be so unkind to her?

If she had known earlier, she would have thought of a better way to get close to that person.

"This... captain, you also know that Zi'er comes from a big family. I can't stop her from doing whatever she wants. I tried to persuade her, but her temper is really... ugh!"

She lowered her voice and put all the fault on Yu'er.

Finally, he sighed softly and said that there was nothing he could do and could only go with Ji'er.

"You'er is gone, so I can only go with you. Otherwise, depending on your temperament, you might make a big fuss. This is the result of my persuasion."

Hearing this, the captain glanced coldly at the place where Ji'er was sitting, and let out a heavy breath from his nostrils.

"This girl is really a troublemaker!"

This was said by another man next to the captain.

Anyone with a discerning eye can see that Sui Zimo looked at his wife as if she were his own. How could she dare to provoke her?

Even if she really just wanted barbecue, she baked it herself, why should she eat it?

Everyone has a pair of hands, right?

She wants to eat barbecue, doesn't she know how to bake it herself?

If you don't have that ability, just eat her dry food and no one will say a word to her.

"That's right, I have never seen such a troublesome person. The young master and his wife are not easy to mess with at first glance, and they have to come to the door to be beaten!"

Chapter 2537 Only you believe it

The other man also glanced disdainfully in the direction of Wei'er and cursed.

"Okay now, we have just entered the sea forest, and a person is blind? What is going on? Captain, should we take care of her next? Or look for medicinal materials?"

The most irritating thing is that Jie'er caused trouble and caused her own eyes to go out.

They didn't come to Haikuo Forest for fun. Most of them came to Haikuo Forest to collect more medicinal materials and go back to refine elixirs and sell them to make a lot of money.

But now, it is very likely that he will be ruined because of a concubine.

How could they not be angry?

"This...Ji'er is like this. There's nothing we can do about it. I also think that young master is too cruel, and he actually gave me to..."

"Shut up, please!"

Sister Yin also wanted to put all the blame on Sui Zimo and his team, but before she could finish her words, she was sharply interrupted by her teammates in the same group.

"What cruelty? If you ask me, you deserve it!"

"That's right!"

Another person nodded in agreement.

"The young master has a wife by his side, and she is already pregnant with that young master's child. Are you still pointing at that young master and accepting your concubine with a smile? And then make your wife angry?"

Tsk tsk, Miss Yin, how big do you and your concubine have to be to make others abandon their wives and children to become a couple with you? "

Although no one here likes Lin Caisang, a woman with a big belly, after all, she is Sui Zimo's wife. How can he let Sui Zimo have an affair with these two people in front of his wife? Well-intentioned women chatting and laughing?

Is this what people should do?

Regardless of whether it was Sister Yin or the concubine in front of them, they actually felt that it was Sui Zimo's fault, and they looked at Lin Caisang with deep hatred in their eyes.

Why do they hate others? Hatred that they didn't give them a chance and took away her husband?

"Well!"

Sister Yin choked hard at the words of the two people, and her face turned red.

"I...I didn't mean that."

She hurriedly continued to blame the fault on Wei'er. Anyway, Wei'er was over there, so she couldn't hear what they said here.

"You have misunderstood. It's Yu'er. She had to go there. I had no choice but to accompany her. Yu'er said that the young master was very handsome and had very high spiritual power.

If we can reach an alliance with them, we will definitely get twice the result with half the effort, so I thought, why not go over and ask them if they are willing.

But who knows, that young master is really difficult to talk to, and I didn't know that Wei'er had other purposes. It was also my fault that I didn't discover Wei'er's purpose at the first time. "

"laugh."

The two men standing next to the captain just laughed after hearing her words.

They only believed her words!

"Miss Yin, I'm afraid you are the only one who believes this, right?"

"I....."

Sister Yin opened her mouth, knowing that it was useless to say anything now, and she didn't bother to argue with the two people.

Turning her eyes, she looked at the captain. She was about to open her mouth and mention that she wanted to be an alliance with Sui Zimo and the others, but the captain spoke before she did.

"Miss Yin, it's useless to say anything now. You should go and take care of Ju'er. Since you have made things like this by yourselves, then I'll leave Ju'er to you. I hope she won't affect our stay in the sea. Process in the wide forest."

Chapter 2538 Don't even think about keeping it!

"What?!"

Sister Yin couldn't believe her ears when she heard the captain's words.

What did the captain mean? Did he leave the girl alone? Then wouldn't she be able to do anything next?

Zi'er didn't suffer from an ordinary injury that could be healed by taking a few pills and resting for a few days, but she was blind, and someone had to be by her side to take care of her at all times.

Just taking care of Ju'er would take all her time.

"No, no, Captain, you can't..."

It can't be like this. At least they are on the same team and everyone has the responsibility to take care of Yu'er, right?

But the captain also didn't give her a chance to continue.

"I can!"

Two words directly interrupted Sister Yin's words.

"As the captain, I should help the team members when they encounter difficulties."

"Yes, yes, Captain, you are right..." Yes.

Before Sister Yin could finish her sentence, she was interrupted again by the captain.

"But, when you went to find that young master, did you discuss it with me? Since in your hearts, you all think that I, the captain, is dispensable, then I don't need to take care of you much.

Since you are the one who caused this matter, solve it yourself and don't drag us down! "

"I....."

Sister Yin opened her mouth, but for a moment, she didn't know what to say.

What could she say? The captain had already made it so clear. Sure enough, in the face of interests, everything else had to stand aside.

In the past, when the captain had the opportunity to talk to her, he would dote on her, but now, he wished she had never appeared in his team!

"I understand, I will take good care of you."

She took a deep breath and could only respond.

There is no better way now. I can only take care of Yu'er and collect medicinal materials at the same time.

Otherwise, if she trusts this captain, he will not give her a good look, and he might even kick her out of the team directly.

Although Commander Lin had said before that he could not change the team privately, he did not say that the number of people in the team could not be reduced. If the captain felt that someone was disobedient, he could directly expel him from the team.

Therefore, she still couldn't make the captain unhappy, otherwise, her life would not be easy.

Just wait, it will definitely not be easy for these people once they leave the sea forest.

Wei'er comes from a big family, but if she says a few words in front of Wei'er, will these people be able to live well?

She guarantees that these people will have to spit out the medicinal materials they collected in the sea forest, no matter how much money they sold, and they won't even be able to keep a penny!

"Then I'll go over first, captain."

"Um."

The captain responded with a cold face.

"Captain, what should we do now?"

After Sister Yin left, the two men beside the captain spoke again.

"The look on Miss Yin's face makes us secretly hate her, right? And that girl is always a troublemaker. I have a hunch that if these two people are in our team, we will just I'm afraid it will be difficult to profit in this vast forest."

He finally got this quota and came to the vast forest. He couldn't do nothing, right?

If he is incompetent and cannot get good medicinal materials and alchemy materials, he can only blame himself, but now, those two women really don't make people worry.

"Look again."

The captain touched his chin and said.

Chapter 2539 Is he angry?

"If it doesn't work, let them go!"

His team is not one to keep useless people. It was because he saw that the two women were more sensible, and he happened to be short of people in his team, so he let them join.

But now, they actually provoked other people and made them angry. This was not to cause trouble for him.

He would never allow such a thing.

But now that they have formed a team, if they directly kick those two women out, it will always have a bad impact.

Let's wait and see if the two women will make mistakes again. If they do again, then he will never tolerate those two people anymore. He will kick them out directly and let them fend for themselves!

...

On the other side, Sister Yin returned to Wei'er.

"Sister Yin, are you back? Did you pick any fruit for me?"

Although Zi'er couldn't see it, she could still feel Sister Yin's breath and asked immediately.

"No."

Sister Yin had a cold face and replied to her calmly.

"Returning the fruit, I was given a good lecture by the captain."

"What? The captain is training you, why?" Yu'er was shocked and asked Lianxin.

The captain was very considerate to them before and put them first in everything. How could he discipline Sister Yin now?

"It's not our fault that we went to that young man's place and offended people. Those men are not good people. When they like you, they will hold you in their hands. Once they feel that we have done something wrong, Yes, the nose is no longer a nose, and the face is no longer a face.

Sister Yin felt angry when she thought of the captain's disgusting expressions.

What's so great about it? He's not as handsome as that young master, and he doesn't have as much spiritual power as that young master. Yet he dares to speak rudely to her!

"Captain...is he angry?"

Wei'er's face was not good to begin with, but when she heard that the captain was angry, she was really scared.

While Sister Yin was leaving, she had already thought about it carefully. It was true that she had acted too recklessly before, and she should not have asked for barbecue like this, and she still had feelings for the young master.

She should hide it and attack that woman directly when the time is right.

In this case, even if she is discovered, the woman is already dead, and then if she rubs it with her father, the young man will definitely become her husband!

That is the best result.

But now, it was all screwed up by herself, and it made her invisible.

"Yes, the captain is angry." Sister Yin gritted her teeth and said angrily.

However, feel free to be angry. After all, they are on the same team. Is it possible that they still want to kick her and Wei'er out of the team?

She didn't care. When she got the chance, she was going to take that young man into the palm of her hand. When the time came, who would dare to do anything to her? They all just envy her.

"But it doesn't matter. They don't dare to do anything to us. Girl, I will take care of you along the way. When we get out of the sea and forest, it will not be too late for us to take revenge."

"Um."

You'er responded softly.

She is now in the vast forest. If there is no one to protect her, she will definitely be trapped inside.

So from now on, she had to become more well-behaved and get through this period first. It would not be too late to worry about everything after she left the sea and forest.

"Sister Yin, it's best for me to wait for you."

Chapter 2540 Shall we leave now?

"Isn't that right?"

Sister Yin smiled faintly.

"Younger, are you hungry? I see they are grilling meat. Let's grill some. We can't count on those men now. I'll grill you some."

Before that man fell under her pomegranate skirt, she should have coaxed the girl first.

After all, it was a good escape route. If that man really ignored her and didn't take her well-being into consideration, then she would have waited out of the vast forest, coaxed the girl but killed those people!

Her dark eyes glanced at the four people on the other side who were laughing and eating barbecue.

My heart is really too unbalanced.

Why can they talk and laugh, but she has to coax this blind woman and go to barbecue for her?

Just wait, she will definitely conquer Sui Zimo along the way!

However, although she thought very well, she couldn't resist the fact that others didn't take her seriously!

...

One person from each team was chosen to keep vigil.

This was what they had all agreed upon, and each night they would be guarded by one person, one by one.

That night.

"Wake up, it's time to wake up!"

The trio of wallflowers, who were sleeping well, felt someone pushing against them in a hazy state.

The three people were awakened at the same time and wanted to see what happened.

But they didn't see any thrilling scene. They only saw Lin Changhong's indifferent face in front of them.

"scare!"

Although they were just familiar people, they were still frightened.

"You, what are you going to do?"

They were sleeping just fine. Do you want them to stay awake for the rest of the night?

But didn't they agree before that they wouldn't need to keep vigil tonight, and they had already arranged a day for them to keep vigil.

"What?"

Lin Changhong rolled his eyes at them speechlessly.

"Why, do you still want to follow those people? Still think there's not enough trouble?"

"Well!"

The trio choked at his words.

Indeed, the several groups who were with them were not good people, and they wanted to take a piece of meat from their bodies.

Among these teams, even they don't want to stay.

"Then we leave now?"

"Hurry and tidy up."

Lin Changhong glanced at them one last time, then turned and left to pack his things.

"Are you leaving at night?"

One of the trio was still a little reluctant.

"You are stupid. If you don't leave now, will you be able to leave tomorrow? Each of those people, haven't they taken a fancy to our captain's ability to be a husband?"

The other person suddenly stood up and began to pack his things.

If I don't leave now, how can I wait for those people to follow them step by step?

If that's the case, then they will be annoyed to death, just like those two women, who are still still unwilling to give up.

I don't know what those women think. They can seduce their husbands openly and openly in front of their wives. Why are all the women in Qianhuan Continent like this?

"Hurry up and clean up. Where's the barbecue? Bring them all, bring them all."

Finally, the person hurriedly said that the people in those teams were all too lazy and wished that the meals they had prepared were served in front of them, and they might even go to great lengths to feed them!

Such people cannot walk the same path no matter what.
