

## Star of Space 2541

Chapter 2541 It seems that there is no need

"None of them are easy to serve, and I'm not sure when they might want to cause trouble again. It's really annoying, so I'd better avoid them.

With so many people, it's hard to kill, and it's not easy to get injured, so you can only avoid them.

After listening to his words, the other two people got up immediately, and then started to pack their things, and they quickly packed them up.

The night watchers in other teams felt strange when they saw Sui Zimo and his team actually starting to move in the middle of the night, and then they quickly took action and woke up their captains.

"What? Are they moving? It's so late at night. Are they still on their way? Isn't it possible?"

The captain of one of the teams felt that Sui Zimo and his team were just looking for trouble, and must have deliberately not wanted them to have a good rest.

"Have they packed up? They don't want to leave, do they?"

The captain of the other team heard his team member say this and couldn't help but guess.

Today, if those two women were making trouble like this, he would be upset if he were here.

Could it be that they wanted to take advantage of the darkness and just hit the road? This is not impossible, that man's strength is still there, and the two men around him are also quite good.

However, when he thought of this possibility, his face turned green.

He also pointed out that he could always follow Sui Zimo and his team and gain some profit from it.

If that team really left like this, wouldn't they be very passive if they encountered a more powerful monster?

"No, we have to follow."

He made a prompt decision and ordered the team member who was keeping watch to wake up the other team members and follow him.

"Hurry up and wake up the others, we will follow them!"

"team leader....."

The man on guard looked in the direction of Sui Zimo and the others, and twitched his lips sharply.

"Captain, it doesn't seem to be necessary."

"Why don't you use it? Aren't they going to leave? And..." Stop?

The captain didn't know why, so he turned around and looked over. Before he finished speaking, he saw Sui Zimo and Lin Caisang releasing their flying monsters at the same time, and then the whole team was right in front of his eyes. Underneath, a flying monster sat and flew away.

"How did they go...so fast?"

He was really angry. It was all those two women's fault. Why did he have to go to Sui Zimo to cause trouble?

Such a powerful team was too late to coax them, so how could they offend them? It made Sui Zimo and the others not want to spend any more time with them and left directly.

"It's those two women, how hateful!"

He didn't expect that his own team members had also spoken to Sister Yin and Wei'er before, pointing at Sui Zimo's nose and trying to get him to part with some roasted Warcraft meat.

At this moment, he had turned all his anger on the two women.

"Captain, what should we do? Do we still want to catch up?" the member of the night watch asked.

"What else are you chasing after?"

The captain glared at him and said angrily.

The ones they sit on have a pair of wings, but they have to use two legs to walk. Even if they run, they can't catch up!

Still chasing, what's the use of chasing? Can you still catch up?

The answer is of course no. How can they catch up? Moreover, even if they catch up, they won't want to take them with them, okay?

And all of this was caused by those two women!

Chapter 2542 Being a scapegoat

...

Early the next morning, many people who had just woken up saw that the place where Sui Zimo and the others had slept was already empty.

"What's going on? Where's the person? He just left like that?"

Some people couldn't believe that Sui Zimo and his team just left like this.

After all, there is strength in numbers, and monsters don't dare to come. But that team just left without saying anything?

"Why are we still here if we don't leave? Apart from that woman, there is no one else in that team who is not awesome." A woman said sourly.

Those three powerful men were not all surrounding that woman. Just their team, in the vast forest, would be able to escape if they encountered danger, right?

Unlike them, what kind of team are they with? They rely on their women to kill Warcraft!

"Leaving? They just left like that?"

When Wei'er heard others talking about Sui Zimo and his team leaving at night, she felt bad.

Although she took painkilling pills, she didn't fall asleep all night. She was so unwilling and her eyes were still oozing blood, she really hated that woman!

She finally fell in love with a man, why would that woman hold on to him?

"Sister Yin, let's go after her and let the captain lead us." She grabbed Sister Yin's sleeves and suggested to her.

Sister Yin opened her mouth when she heard her words.

Of course she wanted to catch up. Last night she spent the whole night thinking of ways to lure Sui Zimo to her side and help her.

But when we came together today, she saw that they were all gone. How could she be willing to do so?

However, this matter does not mean that she can do whatever she wants because she is unwilling to do so. She is not the captain of this team, how can she still command the entire team?

"Ji'er, let's not talk now. What happened yesterday has already made the captain very unhappy. If we talk about this again today, the captain might really kick us out of the team."

She lowered her voice and spoke to Wei'er.

Originally, she thought that as long as she was in this team, she would be safe.

But the other team members looked at her with such disgust last night, wishing they would die here, which really frightened her secretly.

"How could it be possible? We are on the same team, and they don't dare to kick us out of the team!" Yu'er shook her head before she could recall it.

"Why not?"

Sister Yin raised her voice a little and looked at her with a frown.

"Although Commander Lin said that there are seven people in a team and members of other teams are not allowed to join, he did not say that we can't leave any burdens on the team. You'er, we two, you can't see now, so you can't help. Busy.

And I have to take care of you, so I can't do anything to help. To the captain and the others, we are just a burden.

Now they are just afraid that we will make a mistake again, so as to give them a chance to attack, and leave us directly. Even if they don't leave us behind, what if they use the two of us as scapegoats next time they are attacked by Warcraft?

Men are unreliable, but they would really do such a thing! "

"hiss!"

After hearing what Sister Yin said, Wei'er gasped.

"No, it's impossible, right? They don't dare to do such a thing, right?"

Chapter 2543 Do you want to leave the team?

Although she said that, in her heart, Zi'er had already determined that her captain and the other team members really dared to do such a thing.

If she died here, and they left the Sea-wide Forest, wouldn't they be able to explain it however they wanted?

"Sister Yin, what should we do? They won't really kill us, right?"

"No, no, at least for the time being they won't."

Even if he wanted to kill them again, the captain would not do it so openly and would only keep an eye on them secretly.

"Ji'er, from now on, we can no longer confront the captain. We can only respond to what he says, otherwise, it will be difficult for us to leave Haikuo Forest!"

"Is that all?"

Zi'er gritted her teeth and asked bitterly.

Her eyes were blinded by that man. Although she could dig out a pair of other people's eyes to replace them, she couldn't see anything these days.

She finally felt the fear of the dark night.

At this moment, she wished she could dig out that woman's eyes too, so that she could also experience the pain of losing her eyes!

"How could you let it go?"

Sister Yin naturally knew what Wei'er was thinking, so she quickly said something.

"It's just that we can't mess around in the vast forest anymore. Once we get out of the vast forest, it's us who have the final say. Those who have bullied us will not have an easy life!

Or we can wait until we see Commander Lin and ask him to avenge us.

Don't worry, with his status as Mr. Tianfeng, Commander Lin will not let you be wronged. He will definitely avenge you, or even maim that woman if not kill her. "

Listening to Sister Yin's vicious talk about how to take revenge, Yu'er's mood improved a little.

"Yes, when we find Commander Lin, I will definitely not let those people go."

"Yes, that's how it should be."

A small part of the evil spirit in Sister Yin's heart was eliminated by those words.

"Ji'er, you wait here, I'll get you some food."

"good."

You'er responded.

However, when Sister Yin turned around, she saw their captain walking towards them with a cold face.

Her heart thumped, and she secretly screamed something bad.

...

"Master, how do we find someone? Do we want to leave the team?"

On the other side, Lu Tianfeng, who was disguised as an ordinary alchemist, looked into the distance with a gloomy face.

Because it was three days in advance, he had no time to prepare anything. He originally had a good plan and replaced many people, but in the end, there were only two of him and his most capable subordinate.

Just thinking about it made him want to bite off a piece of meat from Lu Tianlan's body.

Why should we enter Haikuo Forest in advance when we are full and full? It's so nice outside, why can't these people stay there?

"leave!"

There are too many things he wants, and they are too special. He can't get them without the city lord's order.

But the City Lord's Order that should have been in his hands was now in Lin Baizhong's hands, and he had to find ways to get it.

"Master, we can't find Commander Lin like this. It's better to follow the team. It will be more convenient and find Commander Lin as soon as possible." The subordinate thought for a while and suggested.

They don't even have a map in their hands now, and this is their first time entering this vast forest. Without a map, they can't even tell the direction.

Chapter 2544 Someone is coming

Lin Baizhong also set a place for all the teams to meet together.

But without a map, how could they get there?

After hearing his subordinate's words, Lu Tianfeng glanced directly at his team, the other team members, and the captain.

"What's the use of keeping some trash?"

His eyes were cold, and he looked at them as if he were looking at corpses.

In fact, these people are already dead in his heart, because he will not let these people live to interfere with his affairs.

"Go and deal with it. Make sure it's done properly. Ye Yan"

"Yes, Master."

The subordinate responded and walked to those people.

However, before he could deal with those people who were in their way, they saw another team coming towards their direction.

Subordinate: "..."

Where did these people come from? Why didn't he feel it before?

And looking at them, he really felt a little ashamed. Looking at his master, although he was called Master Tianfeng by the people of Tianfeng City, he didn't have such a good transportation mount.

And those people were traveling on two high-quality mounts.

"Master, someone is here. 69shux.Com"

He looked at Lu Tianfeng and reminded.

Lu Tianfeng naturally noticed the people coming from that direction, and at this time, he had already frowned.

These people must have deliberately come to trouble him, and they came here at this time.

It doesn't matter if they kill a lot of people in the same team. After all, when they get out, the two people they disguised will no longer exist.

However, if many people were killed in the vast forest, it would inevitably arouse Lin Baizhong's suspicion. That person's eyes were very sharp, and his nose was also good, and he could smell their inner thoughts.

"Don't take action yet." He immediately ordered.

After getting to know the people in this team first, if there is no danger, then we can deal with it.

The situation has not been fully understood yet, so taking action would be detrimental to them, so they should just endure it for now. Maybe when they get to the gathering place, he will have time to attack Lin Baizhong.

"Yes, Master."

The subordinates responded and looked at those who came over seriously.

"Stop calling me your name. If you keep doing this, you will be discovered sooner or later!" Lu Tianfeng said, staring at his subordinates gloomily.

What kind of masters, in the vast forest, they are playing the role of other people, what kind of masters are not masters, if other people hear it, although they will not guess their identities, but if they are stabbed in front of Lin Baizhong, then Not good.

"Yes, I understand, and I won't do it again next time." The subordinate responded, not daring to call Lu Tianfeng his master again.

But there is no way that he can change his long-standing habits. Not to mention his name, others can see it clearly just by his respectful attitude towards Lu Tianfeng.

Soon, Sui Zimo and his team settled here.

Among Lu Tianfeng's team, the captain came to Sui Zimo's side after being awakened by the vigil team members.

"Master, what a coincidence. Are you planning to rest here for a night?" He looked at Sui Zimo with a smile and asked.

There are many dangers in the Sea-wide Forest. He was still thinking about why he was so unlucky. After falling behind the Sea-wide Forest, he was the only one in the team, and there were no other teams.

Chapter 2545: Just teasing him

Fortunately, he didn't encounter any monsters along the way, so he felt at ease.

Now I finally met a team, and one look at the captain of this team showed that he was very powerful, even though he had a pregnant woman by his side.

But because they can walk alone in the vast forest and have such high-quality flying monsters, it can be seen that they are not ordinary people.

If you can join forces with them and walk together in this vast forest, you will surely gain a lot, right?

"Well, that's quite a coincidence."

Sui Zimo raised his eyes and just glanced at the captain lightly.

"I don't know what your surname is, but my surname is Liu. I am the captain of my team. Young Master..."

Captain Liu didn't care about Sui Zimo's cold attitude. Nowadays, in this vast forest, who is strong enough and has a cold attitude?

"My surname is Sui, and our captain's surname is Lin." Sui Zimo said directly.

Captain Liu: "..."

He thought that this man who looked very untouchable would be the captain of their team, but he didn't expect that he was not.

"Uh...then your captain..."

"Captain Liu, do you have something to do with me?"

Lin Caisang was next to Sui Zimo, who was waiting on him to eat. When he heard Captain Liu's words, he raised his head and asked him.

Captain Liu: "!!!"

He was confused, this was the captain of their team, a pregnant woman with a big belly, why did he look so unreliable?

"You...you are the captain?"

He stuttered a little when he asked this, it was completely a bad reception!

"Yeah.

Lin Caisang nodded.

Is there anything wrong with her being the captain? Why does Captain Liu look so surprised?

"I....."

"Eat this little fruit and leave the others to me."

Before Lin Caisang could speak, Sui Zimo put the watermelon slice in front of her into her hand, then turned to look at Captain Liu.

Captain Liu: "..."

Why did he have the feeling that the two people in front of him were teasing him?

Who is the captain between them, this man or this pregnant woman?

Or could it be said that this couple doesn't distinguish between you and me, whoever is the captain is the same, and all matters in the team are decided by the two of them?

It seems that he thinks the last option is more reliable, right?

"My wife is the captain, is there any problem?" Sui Zimo turned to Captain Liu again and asked.

"No, it's no problem."

Captain Liu quickly shook his head. How could he dare to say there was any problem?

Their team even thought there was no problem. He was not from their team, so what could be the problem?

Even if you feel there is a problem, you have to hold it in. Who makes this man's strength even for him, who has become the captain, unable to see through it?

"Just asking, just asking," he said.

"Have you met other teams before?"

I guess I haven't met him, otherwise, how could I be alone with only these seven people in my team?

His team can't even meet other teams if they want to. The vast forest is so big, I guess you can only see other people when you get to the gathering place, right?

"Yes, I have."

The trio of wallflowers had already secured a place for them to sleep and came over. One of them spoke to Captain Liu.

"When we first arrived in Haikuo Forest, there were several teams around us."

Chapter 2546 Let's form an alliance

"Then... why are you the only team?" Captain Liu twitched the corner of his mouth secretly.

Could it be that the people in this team were kicked out because they were too unsociable?

Looking at the man who was speaking coldly to him, he felt that the possibility he had guessed was still possible. People who did not fit in with others would also be excluded. Of course, that was only if there were enough manpower!

Because the husband of our captain thought those people were too annoying, he blinded one of them and left.

Would they say this? The answer is of course impossible.

"Because we encountered a wave of Warcraft before, so many teams combined didn't kill as many people as our team, so our captain felt that it was pointless to stay in the middle of such a team, so he left.

said another.

This is also a fact. There are so many teams, they are as tired as dogs from killing monsters, but in the end, there are not two people in their team...ah, five people kill a lot.

Therefore, if you stay among those teams, don't you just wait to be taken advantage of by them.

So it's not too much for them to leave, right?

Anyone who comes to Haikuo Forest comes here not to make money, but for their own purposes. Why waste their time on others?

"So, we're not planning to...uh!"

He wanted to say that they did not intend to form an alliance with any team, but when the words came to his lips, they were swallowed back under Sui Zimo's sharp eyes.

"We don't intend to form an alliance with a team that is not very strong. It would be a complete drag. But if the team is about the same strength as ours, then the alliance will be mutually beneficial, and we are naturally happy to see it happen."

He rolled his tongue and spoke more smoothly.

But, could it be that he understood it wrong? This couple didn't want to form an alliance with anyone before.

Why did you suddenly change your mind now? Do you think Captain Liu's team is about the same strength as them?

Isn't it?

Captain Liu's eyes suddenly lit up after hearing his words.

Their team is actually quite good in terms of strength. If they can form an alliance with this team, it will be of great benefit to them.

"Captain Lin, Mr. Sui, how about our two teams form an alliance?" He immediately suggested.

"In terms of strength, my team is also very powerful, and the people in my team all perform their own duties and have different abilities. You will know this in the future. If you ally with my team, you must be the best s Choice."

"Um?"

Lin Caisang raised her eyes and looked at her husband.

She had never thought about forming an alliance, because the place she wanted to go was really not something that others could go with her.

It would be best if we could not even bring this trio of wallflowers with us.

She had already thought about it, and when she saw her father, she would throw the three people behind him directly, and then they would go find what they needed for the mission.

It's really inconvenient to take these people with you.

but.....

From the corner of his eye, he glanced at the two people in the team led by Captain Liu who had been observing them.

Maybe forming an alliance with this team is also a good choice!

"Zimo, what do you think?" she asked her husband.

"We're on the same road anyway, let's take a look." Sui Zimo said lightly.

"Would you like to see it again? That's fine."

Lin Caisang also nodded and continued to eat her fruit.

Chapter 2547 Parting ways again

Then, they ignored Captain Liu and let them think about what they had to say. Then, as a matter of course, the two teams walked towards their destination together.

What a great thing it is to collect medicinal herbs while walking.

The trio of wallflowers: "..."

This is true, if you hook someone, you won't let them go, and you won't let them stay.

The key is, they can't even find a single fault. Who would make Captain Liu willing to take the bait?

"Look again, then look again, look again."

Captain Liu smiled when he heard what the two said and hurriedly responded.

Being able to see it again means there is hope. They can go all the way to the assembly area together. In this way, they will gradually become familiar with this team.

Furthermore, he can also see whether the strength of this team is consistent with what one of the three idiots said, and whether it is really that powerful.

If it's all nonsense, then it won't be too late for them to part ways.

"Then I'll go tell the people in the team now and let's go together tomorrow morning."

With that said, he left happily.

The trio of wallflowers: "..."

Could it be that since entering the sea forest, the strength of their team has been so easy for others to see?

When we were at Hongye Tower before, no one was willing to be in the same team as this couple, for fear of being implicated by them.

But now...

These people are all rushing to form an alliance with them.

Although the previous teams were probably all for the man Sui Zimo. Women fell in love with him, but part of it was also because of his strength, but what about this one now?

They even came to ask for an alliance. Is it because they saw their flying monsters and thought they were special?

It seems that they really followed the right team!

"You guys aren't going to rest yet?"

Seeing that Captain Liu had left but the trio were still here, Lin Caisang raised his eyes, looked at them coldly and asked.

"Well."

The three of them choked hard at these words.

"We're going to rest, we're going."

While talking, he quickly called his companions and left.

"Zimo, do you think it could be them?" After they left, Lin Caisang looked at Sui Zimo and asked.

"Look again."

Sui Zimo replied while laying the floor for her.

"If we just talk about momentum, it should be them without a doubt, but if it is... we have to be on guard against any eventuality and take another look. Anyway, we have time."

"Um."

Lin Caisang nodded.

That's right, they have plenty of time, because they still have a City Lord's Order in their hands, and they can leave the Sea-Kuo Forest whenever they want.

Unlike others, she had to leave with her father, otherwise, she would be trapped in this place and never be able to get out.

Of course, it doesn't mean that you will never get out, but you have to wait for the next time the vast sea forest opens.

But Haikuo Forest can't be opened just by thinking about it. As far as she knows, in Lu Tianlan's hands, Haikuo Forest has been opened just once. The old city lord has never opened Haikuo Forest at all. forest.

"Then let's take a look."

...

On the other side, when Captain Liu told everyone his decision.

Others were fine, but Lu Tianfeng and his subordinate were simply stunned.

Why did they form an alliance so quickly?

Isn't this speed too fast? Didn't Liu just talk to them for a while?

Chapter 2548: Will you be the captain?

Could it be that the people in that team are all weak, so they urgently need a team to form an alliance with them so that they can be safer in the Haikuo Forest?

And Captain Liu took their things and promised to protect their safety?

But they believe that with Captain Liu's strength in the past, they are afraid that they are in danger in the Haikuo Forest, right?

"Captain, this is not good, right?"

Lu Tianfeng's subordinates looked at the ugly face of their master, and finally couldn't help but speak to Captain Liu.

The master originally wanted to deal with these people, and now there is another team of seven people. If it really comes to the time to deal with them, it will be difficult.

"Why is it not good?"

Captain Liu asked him out loud. He didn't think there was anything wrong. On the contrary, it was safer along the way, wasn't it?

"We have a team of people on our own and are still able to protect ourselves, but if we take them with us, who knows how strong they are, and they may even drag us down."

He explained to Captain Liu in a serious manner.

"Their strength must be very strong!"

When it comes to strength, Captain Liu has something to say.

"Didn't you see the flying mounts they contracted? Who in our team has the same flying mount as theirs? Not to mention two, there's no one, right?"

Subordinates: "..."

To judge whether a person is powerful or not, do you just look at what flying mounts he has in his hands?

Since when has this world been judged by who has a luxurious mount, who is powerful? If that's the case, then he would definitely get a better flying mount!

"That's not what I meant, Captain. Maybe their flying mounts were contracted by their elders at home, not their own strength at all. Captain, I think..."

"What do you think? What do you think? If you think so well, why don't you be the captain?"

Before he finished speaking, he was blocked by Captain Liu's words. He thought to himself, why is this person so nosy? He, the captain, made the decision. Why does a team member have so much to say?

"Uh!"

Subordinates were choked by his words.

If the captain hadn't been decided long ago, how could he let this useless guy be the captain?

The position of captain must belong to their master!

"Captain, you are joking."

"Humph, it's good to know how to joke."

Captain Liu snorted coldly and rolled his eyes at him.

"It's decided. Our group and theirs are officially allied. Don't think their strength is not good. Can't you see that even if their strength is really not good, those two flying monsters alone are much stronger than us!"

I still want to say that the strength of others is not good, but the strength of the two flying monsters just now, can't they see it?

Moreover, monsters are different from humans. Although they can be promoted in spiritual power, with the same level of spiritual power, monsters can slap them to death with one palm.

This is the difference between humans and monsters.

"If there is nothing else, you two will keep watch in the second half of the night, and the others will go to sleep."

"I..."

The subordinates were speechless and didn't know what to say.

It was obviously not their turn to keep watch, so why did they change it? This is not how things are done, okay?

Chapter 2549 Don't make a mistake!

He wanted to say no, but Captain Liu obviously didn't give him a chance. After saying this, he turned around and left.

The other team members also went to bed after hearing the captain's words.

It's late at night, who wants to stay awake without sleeping?

There are two fools who insist on looking for trouble. Of course they are happy to watch like this. Who will stand up and say good things to them?

Besides, forming an alliance with other teams is the wisest way. Must these two people have their brains kicked in the ass? How dare they object?

No wonder the captain asked them to keep vigil at night, they really deserved it!

"Master, what should we do now?"

After those people were gone, the subordinate looked at Lu Tianfeng and asked.

"What can be done?"

Luo Tianfeng glanced at his subordinate coldly and asked him.

What's the point of further opposition if the matter is settled? This journey is destined to be with that team.

"Master, this subordinate was reckless just now."

The subordinate felt his scalp numb when his master's cold eyes swept him away, and he could only lower his head and admit his mistake.

He had just seen that Captain Liu was determined to form an alliance with that team, and there was no room for negotiation. No matter how much he said, it was useless.

But just now, he really couldn't help it and said something.

"Even if you know you are being reckless, you still commit the crime?" Luo Tianfeng asked him coldly.

"Well.

The subordinate choked.

He knew that what his master said was what he called his master.

But this really cannot be changed in a short time. Over the years, he has become a habit, okay?

"I know my mistake."

Luo Tianfeng ignored his subordinates and found a place to sit down, looking at the person guarding on the other side.

In Sui Zimo's team, the person keeping watch at night was Yue Chushui. He was the only one. Feeling the gaze from here, he turned his head and looked over.

Seeing that he actually turned his head, Luo Tianfeng was stunned and quickly looked back.

"How about you go and rest and I'll watch over you?"

The subordinate also looked in the direction of Yue Chushui, then turned to look at his master and suggested.

There was only one person in that team keeping watch, so why did their team have to have two people keeping watch at night? It's better to let the master rest. He should do things like keeping vigil alone.

"Shut up!"

Luo Tianfeng glanced at him coldly.

Does this mean that everyone must see that he is a special being?

"Watch carefully to make sure nothing goes wrong!"

Now, it was impossible to leave the team to find Lin Baizhong. He could only find a way to get the City Lord's Order the next time he saw Lin Baizhong.

He still has to think carefully about this method.

He took a deep breath and looked into the distance.

"Zimo, they..."

"sleep!"

On the other side, Lin Caisang still wanted to speak, but was ordered to sleep by Sui Zimo on the side.

Lin Caisang: "..."

She didn't say anything. Do you want this?

"Okay, I'm going to sleep."

She needs a good sleep, otherwise, how can she be energetic enough to find good medicinal materials tomorrow?

"Then please pay attention to what's going on over there. I'm asleep."

"good."

Sui Zimo responded and stretched out his hand to pull up the quilt on her body a little.

...

Early the next morning.

Before the first ray of sunlight in the morning hit, the roar of a monster woke everyone up.

"what sound?"

Chapter 2550 Is it still too late?

Hearing the roar of the monster, Lin Caisang got up from the ground and looked towards the direction where the sound of the monster came from.

"It's a monster. From the roar, it should be level four."

Sui Zimo also heard the sound and turned around to explain to her.

Fortunately for them, the trio's faces turned pale with fright when they heard the roar of the monster.

The monsters they encountered before were all elementary, not even the first level, but now, they actually heard the roar of the fourth-level monsters.

And listening to the sound, it was still not far away from them.

"Let's go...shall we go?"

One of them suggested to Lin Caisang and Sui Zimo with trembling lips.

If they don't leave, the monster will probably rush over and chew them up until no bones are left.

The fourth-level monsters in the vast forest can keep up with the sixth-level monsters outside. They are not comparable to the low-level monsters they killed before. If they really encounter them, they will die miserably.

"What are we going to do?"

When Lin Changhong heard what the man said, he almost slapped him on the back of the head.

A mere roar of a monster can scare them to this point. But if a real monster is right in front of them, will they lose their ability to resist?

At this rate, do they have to surrender and let the monsters eat them?

"Sangsang, what do you think we should do?" He looked at his sister and asked.

"Fight."

Lin Caisang thought for a while and then said.

Listening to the voice of the monster, it must have been with one of the teams entering the forest.

If they don't help, I'm afraid those people will die miserably. Now that they've entered the vast forest, it's always a bad idea to just die without saving them, right?

"good."

Lin Changhong responded.

"If Sangsang says we will fight, we will fight. People over there, what do you think? Should you wait here or go with us?"

Turning his head, he looked at Captain Liu, who had agreed to form an alliance with them last night, and asked.

Captain Liu: "..."

If he says he wants to leave now, is it still too late?

He wanted to leave, but when he saw the calm expressions on each of these people's faces when they heard the roar of the fourth-level monster, he knew that they would definitely not suffer a loss against the fourth-level monster.

Since there was such a good opportunity to take advantage of it, why didn't he take advantage of it?

"Of course we have to fight. We finally encountered a level 4 monster. It might be a good material for alchemy," he said.

Although he is an alchemist, when he enters the sea forest, even if he sees good alchemy materials, he will put them away. When he returns to Hongye Tower again, he can take them out to explain the medicinal materials to the alchemist.

"team leader....."

"Stop talking nonsense, let's go and see it together."

The other team members wanted to speak, but Captain Liu still didn't give them a chance and spoke directly.

When several team members heard what he said, they stopped saying anything. They thought it would be a big deal. When they saw that something was wrong, they would just run away.

"Okay, let's go together."

Everyone nodded, immediately packed up their things, and set off in the direction of the roar of the monster.

...

After a while, they saw a monster as tall as a two-story building fighting with a team.

In fact, it was not a fight, but the giant monster unilaterally bullying the seven people.

One by one, those people were chased by monsters, and they were all in a state of embarrassment.
