

Star of Space 2581

Chapter 2581 Exploded

"Let's go, go back to sleep!"

Seeing those people dividing things, he felt angry.

Not wanting to look at things that didn't belong to him anymore, he turned around and went back with his team members.

What he didn't know was that not long after he left, Sui Zimo and the others didn't divide the things at all, but left the three people behind the wall and two people from Yuan Jue's team to guard the two monsters.

And they chased the female beast and the couple.

...

Early the next morning.

When Captain Liu and the others woke up, they were stunned when they saw so many things placed over Yuan Jue's side.

"How...how do they have so many things?"

He didn't understand. Even if the monster had scales and bones, the bones were not divided into whole pieces, but the essence was refined out of them. They were not very big pieces at all.

Scale armor is also divided into regions. Not all scale armor can be used as alchemy materials.

Didn't they just kill two monsters? Why are there so many things? They obviously don't match up.

"I heard from Captain Yuan and the people in his team that the two monsters were fighting for a female beast before, and when the two monsters were fighting, the female beast was deceived by another male.

After Captain Lin and the others killed the Bi-Eyed Beast and the Flame Beast, they chased those two and killed them too, thus sharing a lot of alchemy materials. "

A team member walked up to Captain Liu and explained to him.

At this moment, he felt uncomfortable. Those people were obviously going to kill other monsters, but they didn't even tell them about this group, so they just went there.

Is it that difficult to come over and ask them?

"What?!"

Captain Liu's head exploded when he heard what he said.

So, if he had stayed a little longer yesterday, he might have been able to follow Lin Caisang and the others to the other side to kill the other two monsters?

But because he was angry, he came back directly with his people, and missed such a good opportunity!

"They...they..."

It's really abominable that they didn't even call him for such a good opportunity.

But he knew very well, could he blame others? No wonder, because people had called them before, but they refused.

Since they have already called once and they didn't go, they will definitely not call again the second time!

"call!"

He exhaled heavily.

I feel that this is really the most regretful decision I have ever made in my life. Of course, why not kill the World of Warcraft?

"You'd better think twice before you say anything in the future, and don't influence other people's decisions."

Turning his head, he looked at his team members and spoke to them earnestly.

He attributed all the decisions he made to the fact that he listened to the team members' coaxing and did not help kill the monsters. As a result, he got nothing.

The team member who advised Captain Liu before: "..."

At this moment, he felt more regretful than Captain Liu. If he had known better, he would not have advised his captain.

At that time, he looked at his captain's face and said he didn't want to take risks, so he just followed his words and said a few words. Little did he know that everything was his fault now.

From now on, he will no longer care about this idle business. Captain Liu can do whatever he wants to do.

Chapter 2582 Let them leave

It's just that when he feels that he is in danger, he can just leave quickly. He really doesn't want to take care of other things, and he doesn't dare to take care of them.

"Captain, it was my fault. I will definitely not talk like this next time."

What could he do now? He could only apologize to Captain Liu and take all the mistakes on himself. Only in this way would he be safer in the vast forest.

"snort!"

Captain Liu snorted coldly at the team member.

He regretted that he should have listened to this team member and actually wanted to test the strength of Lin Caisang and his group.

Since they dared to confront those Warcraft, it meant that they had the strength. Why hadn't he figured this out before?

What a mistake!

"Hurry and pack up, we will set off with them." He ordered everyone.

"good."

Several people responded at the same time and packed up their things.

On the other side, Lu Tianfeng looked at Lin Caisang and the others and frowned in displeasure.

Last night, he really wanted to kill these people, but unfortunately, two people were left in Yuan Jue's team.

That male team member is easy to replace, but Lingxueer... he can't let a man dress up as a woman, right?

Therefore, his ideas were repeatedly delayed and never implemented, and he watched the man named Liu getting closer and closer to Lin Caisang and the others.

It's not that Captain Liu is trying to curry favor with Lin Caisang and the others, but that he is so selfish and thinking about how to get benefits that they don't deserve from Lin Caisang and the others!

"Find a way to get them to leave." He ordered his subordinates.

"leave?"

The subordinates were stunned when they heard what their master said.

How to leave? Those people were obviously on the same road as them, and their captain obviously wanted to follow those people and take advantage.

How could a group of people like this be separated?

Even if they are separated, their captain will catch up, and they still have no chance to make a move.

"Master, I'm afraid they won't leave so easily." He told the truth.

If those people really wanted to leave on their own, they wouldn't have called them captain just because they wanted to kill Warcraft.

Those people also want to move forward with them, right?

"Then force them to leave!" Lu Tianfeng grinded his teeth and said bitterly.

We had only been together for two days, and he really didn't want to see those people anymore. They were all here to get in his way!

Subordinate: "..."

If someone doesn't want to leave, how can I force him to leave?

"Sir, we are... on the same road." He twitched the corner of his mouth to remind Lu Tianfeng.

Yes, they went to the assembly area on the same road. How could they force the others to leave, unless one of the three captains took the wrong map, and this person was their captain.

Moreover, they had to let the two teams of Lin Caisang and Yuan Jue stagger away from them before they could split into two directions.

"so what?"

Lu Tianfeng asked him back. He didn't want to stay with the other two groups for a moment.

Originally, he planned to wait until he reached the assembly area and then find a way to kill Captain Liu and the others.

But along the way, the more he thought about it, the more he felt something was wrong. If he didn't replace these people in his team now, then when he arrived at the assembly area, he might not even know what his team's mission was!

Chapter 2583 Play the long game and catch big fish

Lin Baizhong only assigned those tasks to the captain, and the other team members did not know about them.

This method was something he came up with all by himself.

Moreover, the task must be completed. If it cannot be completed, then their team will not be able to leave the sea forest. This was also his own idea at the time, in order to make others busier and unable to take into account whether others were there. Do things outside of the task.

But he really didn't expect that some of the methods he came up with would trap himself!

At this moment, he really wanted to slap himself a few times!

The more he thought about it, the more he regretted it, and the more he felt that those rules were set for him to restrict his actions, but what could be done?

Things have become like this, and he can only find a way to remedy it.

Therefore, he must leave Lin Caisang and Yuan Jue's two teams, first get rid of the five people in his own team, and then he can easily go to the assembly area to accept the mission, and finally get all the things he needs. Then put it into your own pocket!

But now, all this is just his own thoughts. It is so difficult to leave those annoying people!

"Sir, maybe we can let the three captains have a conflict?" the subordinate suggested.

According to him, Captain Liu is determined this time and will step in next time Lin Caisang and the others kill the monsters.

When the time comes, whoever exerts more effort and whoever gets more things can cause trouble. As long as they think of some ways and rely on their own captain's 'skill', they can still cause trouble. Come?

"Many things can happen to monsters, sir, what do you think?"

He looked at his master seriously and asked.

Hearing this, Lu Tianfeng fell silent, but after a long time, he shook his head.

"no."

Although Captain Liu is greedy for petty gains, he is also a calculating person.

He knows what it means to take the long term and catch the big fish. If there is no absolute conflict of interest, it is impossible for him to fall out with Lin Caisang and the others and leave. At most, he will only feel uncomfortable in his heart and look bad.

But this will not affect him from continuing to follow Lin Caisang's team and continue to use alchemy materials.

Or maybe, after leaving Haikuo Forest, this matter would become contradictory, and Captain Liu would shamelessly accuse Lin Caisang and the others of getting more of their things when they were in Haikuo Forest.

"We must separate from them, separate now." He said.

"But Master, this is simply impossible. Look at Captain Liu, does it look like he will leave Captain Lin and his team and go on his own?"

He looked at Captain Liu who was in a hurry and was instructing his team members to pack their luggage quickly. It was clear that he was afraid that Lin Caisang and the others would leave on their own without waiting for him!

Just like this, how can we separate them?

"What if someone in the team dies while killing monsters?"

Lu Tianfeng stared at his team members with faint eyes, and then spoke slowly.

"this....."

The subordinate's mouth twitched, thinking that if someone really died while killing the monster, Captain Liu would definitely try his best to ask Lin Caisang and the others for more alchemy materials, and he would also ask for it as he should.

At that time, conflicts should be aroused, right?

This is really a good idea.

Chapter 2584 Stop causing trouble!

"Sir, are you sure you want to do this? Kill one first?" he asked.

"Is there any other way?"

Lu Tianfeng glanced at him with cold eyes and asked.

This was already the best way. Kill one of them first and cause conflicts among the three teams. Then he would take the opportunity to encourage the idiot named Liu to get them to leave the two teams, Lin Caisang and Yuan Jue.

"Then... I'll take care of it."

The subordinate hesitated for a moment, then nodded.

Although he felt that this was not a perfect solution, now, it seemed that there was no particularly good solution, so he had to do this first.

However, killing someone is not a loss for them.

...

Soon, the twenty-one-strong army set off again.

In Yuan Jue's team, except for Lingxue'er who was under control, everyone else had some alchemy materials on their bodies. Even the person who did not participate in the battle got something.

Captain Liu followed them all the way, his eyes drifting to those things from time to time, and his heart was really itchy.

If he had participated in the battle at that time, wouldn't these things have been his share?

But he didn't participate!

On the other side, there was another person who was also walking, glaring angrily at Yuan Jue and the others.

This person is Ling Xueer, who until now has been restricted in her freedom and is being dragged along with her hands and feet tied.

She had never been treated like this in her life, and all her dignity was gone. Without looking, she could imagine the mocking looks when other people looked at her.

He couldn't speak, and he was still fighting with Yuan Jue, so he couldn't make any gestures to ask him to untie the rope from his hand.

God knows how frustrated she is now!

Lingxueer, who was so frustrated, blamed all of this on Lin Caisang. If it weren't for this woman, how could she have ended up in this situation?

"What are you looking at?"

Lin Caisang was still very close to Ling Xueer. Feeling her gaze, he turned around and asked her coldly.

"Well!"

Lingxueer didn't react, but the team member who pulled her was choked.

Turning his head, he looked at Lingxue'er with helplessness in his eyes.

"Miss Ling, just calm down and stop causing trouble!" It wasn't him who was guarding Ling Xueer last night, but someone else. He was just replaced today.

Therefore, he knew very well how powerful and perverted the spiritual power of Lin Caisang, a pregnant woman, was!

Therefore, he felt that Lingxueer was really looking for death by always treating Lin Caisang as the object of her hatred. What if she made the female boss unhappy at some point and slapped her?

I'm afraid Lingxue'er's previous skills would be turned into clay!

After hearing her team member's words, Lingxueer glared at him fiercely, then turned to look elsewhere.

Now she can't do anything but let these people bully her. Wait, after leaving the sea forest, she must let her father kill all these people one by one!

Avenge her!

"Why."

Yuan Jue looked at her appearance and sighed again.

He still had the same idea and such a temperament. How did he think that this woman was gentle before?

Moreover, he also felt a little confused. Lin Caisang was so provoked and could still endure it. However, the husband beside her didn't say a word even though he looked at his wife who loved him so much.

Chapter 2585 A chill comes over

What is this for?

"Zimo, how far are we from the assembly point?"

No longer paying attention to Ling Xueer, Lin Caisang looked at her husband and asked.

"It's not far, there are still three days to go." Sui Zimo said.

Well, according to the way they are walking now, there are still three days to go, but if they use flying monsters, it will only take a few hours.

"Do you want to keep walking?" he asked.

Hearing this, Lin Caisang was stunned for a moment, then glanced at the two men who were looking dull and didn't know what they had in mind from the corner of his eyes, and then nodded.

"Keep walking and meet a few more monsters by the way." She said.

"Okay, it's up to you." Sui Zimo responded.

On the side, Lingxueer was furious as she listened to the conversation between the two.

Why isn't this man her admirer? If Yuan Jue was half as good as him, she would be happy, and he wouldn't let her suffer like this.

But look now, Yuan Jue doesn't care about her life and death at all, allowing her to be bullied by these lowly people. What's more, he is the one who first came up with ways to bully her!

She also knew she wouldn't want such a man.

But what could be done? She knew better that the Yuan family's status could match her, and Yuan Jue's temperament and ability could also match her.

No matter what Yuan Jue's attitude is towards her, as long as her father goes to the Yuan family and tells her, the head of the Yuan family will definitely let Yuan Jue marry her.

snort!

Thinking of this, she snorted coldly.

No matter how bad I treat her now, what can I do? As long as she is willing, Yuan Jue must marry her. She will have the final say in the Yuan family from now on!

Thinking that she could be in the Yuan family in the future and take care of the Yuan family's people, she raised her lips and smiled.

"Are you sick?"

One of the members of Yuan Jue's team happened to see Ling Xueer's smiling face and couldn't help but murmured.

What is it if it's not a disease? You can laugh so disgustingly even as you walk. Could it be that you are not sick, or that you have some crooked idea to hurt people?

"Miss Ling, I advise you to stop struggling. In the end, aren't you the one who is struggling?" He advised aloud.

Yes, no matter how hard this Lingxue'er worked, in the end, she was so tortured that she couldn't speak, and her hands were tied, so she had no freedom at all, right?

As for others, nothing is wrong now.

Hearing the man's words, Lingxue'er glared at him fiercely.

If she could speak at this moment, she would definitely say to that man: Get out of here, you are nothing!

But now she can only stare at people with her eyes.

She couldn't do anything else. Even the alchemy materials that Yuan Jue and the others received before were not hers.

Thinking of this, she became even more angry.

But she is not angry. What's so great about it is that when she marries into the Yuan family in the future, all the things in the Yuan family will not be hers, and she can use them however she wants.

She didn't care at all about such a small amount of alchemy materials.

"Sssssssssssssssssssssssssssssss!"

Suddenly, a chill hit, making everyone suddenly alert.

The next moment, a huge tail swept towards them. Many tree trunks were broken and fell to the ground.

"ah!"

"Ahh——"

Several screams were heard, and the person swept away by the huge tail was swept far away and fell to the ground screaming.

Chapter 2586 A seventh-level monster

"The cold snake covers the ground!"

Those with more knowledge could tell what was attacking them just by seeing the huge tail.

It was a very powerful snake. It was very big. Looking at the body of the snake that attacked them before, it was as thick as three people hugging each other. And the Hanluo Earth Snake was of the ice type. No wonder it felt so cold before.

They didn't feel it at all before, but it was obvious that the snake had been staring at them for a long time, and it had been holding back its breath.

It was only now that they started to attack that the ice power from their bodies was released, making them feel the cold breath.

When he felt the cold air, Sui Zimo had already jumped up with Lin Caisang. Lin Changhong and Yue Chushui beside them also avoided the sweep of Han Luo's ground-covering snake.

But many people are not so lucky. For example, Ling Xueer is the most unlucky person among them.

Because her hands were tied, even if she felt danger, she had no ability to react. What's more, she didn't feel danger at all, she just felt that the climate suddenly became a little cold.

She was still secretly glad in her heart that the clothes she wore were thicker, but she was still cursing those who only wore single clothes in her heart.

But the next moment, a sweep came straight towards her, and she was thrown out hard and fell to the ground.

"Well!"

A mouthful of blood was spit out from her mouth, and then she passed out directly.

Many people were thrown out like her, but she was the only one who looked unconscious. The others endured the pain and stood up, looking at the huge snake body, slowly approaching them.

"Hiss, so many, how big it must be!"

Looking at the darkness around him, one of the men couldn't help but shuddered and muttered.

They had always known that the Hanluo Earth-covering Snake was huge, but they really didn't expect it to be so big. It simply refreshed their knowledge!

"Zimo, this is a level seven monster." Lin Caisang looked at Han Luo's snake and said to the people around him.

This vast forest is indeed extraordinary. Being able to see level 3 or 4 monsters outside is already the limit. Even the previous leader of the Haibo Kingdom was only at level 8.

But in the vast forest, after only a few days here, I have already seen a seventh-level monster.

"Be careful."

Sui Zimo didn't say anything else, but warned her cautiously.

Even he had to be careful when dealing with level seven monsters, not to mention his Sonny, who had to be even more careful.

But Han Luo Hui Snake has already come to their door, and they can't do it without a fight, so they can only bite the bullet first.

"Captain Liu, do you want to join us this time?"

Lin Changhong looked at Captain Liu who was far away. The color in his eyes flickered darkly and brightly, and he asked loudly.

Captain Liu hesitated again when he heard Lin Changhong's shouting.

At this time, he really hoped that someone could give him some advice, so he raised his head and looked at the team member who had been whispering his opinions in his ear before.

However, that team member was not a fool, so how could he still say something in the ears of their captain?

What he has to do now is not to say a word. If the captain says he won't help, he won't help. If the captain wants to help, then he will fight with him. At worst, he won't be able to fight, so he keeps running away.

Chapter 2587 He likes to hesitate

Captain Liu, on the other hand, saw that his team member was silent, and he was even more hesitant.

"It seems that Captain Liu is not ready to take action, then..."

Lin Changhong looked at his appearance and felt angry. He was about to tell them to stay away so as not to disturb his eyes. How could he know...

"Captain, if you didn't come forward to help twice, why should we join forces?" Lu Tianfeng's subordinates spoke directly to Captain Liu.

This time, either their team must be separated from the three teams, or they must force Captain Liu to take action. This is an order from his master, and it must be done!

"How about we leave first? How can we be so greedy for life and fear of death? Along the way, we have only watched others get good things, but we have gotten nothing!"

"Yes, Captain, let's do it?"

"Captain, if you don't want to take action, then let's do it. You can just watch from the side."

Hearing what the subordinate said, other team members also agreed. They had been coveting other people's food all the way down, but their own hands were still empty. Except for a little bit of medicinal materials, they didn't get anything else!

Of course, if the captain really doesn't take action, then if they kill the monster later, the captain will naturally get no points. Those who don't contribute without reason will still get points.

Captain Liu: "..."

Do these people think he likes to hesitate?

Don't even look at how big the Hanluo ground-covering snake is. When coiled up, it's as high as a mountain!

And just now he heard someone say that it was a level 7 snake. Lin Caisang and the others said it was a fluke when they fought against level 6 monsters before, but now the level 7 monsters...

What's wrong with him being hesitant?

However, the others did not give him a chance to hesitate, and Hanluo Earth Snake would not give them any time to hesitate.

I saw the snake's tail sweeping over again, trying to sweep them all unconscious and make it a delicious meal. Therefore, its tail was not forgiving at all.

"careful!"

Sui Zimo shouted sharply to remind everyone.

Without stopping, he followed the Hanluo Earth-covering Snake's tail, jumped onto the snake's body, and then headed towards its upper body.

Lin Changhong and Yue Chushui were not behind, and followed Sui Zimo.

Lin Caisang, on the other hand, flicked the spiritual whip in his hand and wrapped the snake's head completely. He flew up and flew straight in the direction of the snake's head.

"Everyone attack, there are so many of us, we can definitely defeat this Hanluo ground-covering snake!" Yuan Jue saw them all going up and shouted to the people in his team.

The three men on the wall had already followed Sui Zimo and others in attacking, and they had already started fighting Hanluo Earth-covering Snake.

Although their attacks were undoubtedly scratching the itch for such a big snake, they still continued to output spiritual power and attacked Hanluo Ground-covering Snake.

After three consecutive battles, they have gained experience. No matter how powerful the monster is, it cannot withstand countless small attacks. As long as they persist enough, even an elephant can be bitten to death by ants!

Seeing that Lin Caisang and the others, as well as Yuan Jue and his team were already fighting, Captain Liu could only grit his teeth secretly.

"No matter what, fight!"

He took a deep breath and started his attack on Hanluo Earth-covering Snake.

"Hit all the fire-type ones and burn them to death!"

Chapter 2588 Shattered into ice slag

This snake is of the ice type, so it must be afraid of fire, so there must be nothing wrong with them using fire!

He didn't want to fight the fire-type members of Captain Liu's team, but he could see clearly that any monster Lin Caisang and his group were targeting would definitely be killed.

At most, people in the team will be slightly injured, but if they can get the alchemy materials, even if they are slightly injured, so what?

And he also saw that Lin Caisang and the four of them were not injured no matter how they fought.

He just saw with his own eyes that a member of Yuan Jue's team was almost swept away by the snake's tail and hit a thick tree pole, but was pulled back by Lin Caisang's spiritual whip and returned safely. on the ground.

Therefore, with a team like this, you can't just fight however you want.

His fire spiritual power, as if it was free of charge, was outputted outwards, directly pressing into Hanluo Earth Snake's body.

But the snake body is too hard. You must know that the snake scales are also rare alchemical materials. How could they not be hard? Even an alchemist would have to spend a lot of effort to smelt the snake scales. .

What's more, what about their petty quarrel?

For the Hanluo Earth-covering Snake, it was not enough to look at. Its sip of ice could extinguish all his fire, and it even came right in front of his face.

"scare!"

Seeing the cold air coming towards him, the team member was stunned and even forgot to dodge.

The next moment, a spiritual whip wrapped around his waist, lifted him up and dragged him aside.

"SSS.

The cold air failed to hit the team members, but it all sprayed onto a big tree.

Within a few seconds, the team member saw that the big tree that replaced him had been frozen into an ice tree. Then with a 'click', the entire tree fell down and shattered into ice shards.

"hiss!"

The man gasped.

I couldn't help but think, if he hadn't been rolled away by the spiritual whip, would this be the end?

Fortunately, okay, he secretly patted his chest. Fortunately, Captain Lin was a generous person and would save even those who were not members of her team.

After heaving a sigh of relief, he gathered the fire spiritual power in his hand and struck Hanluo Ground Snake.

Come, come and hurt each other, who is afraid of whom? He has someone to protect him, but he doesn't!

On the other side, Lu Tianfeng watched helplessly as the team members who were supposed to die were actually saved. Lu Tianfeng had a bad breath stuck in his throat and almost died of anger.

He was not far away from the team member who watched him being attacked by the Hanluo Earth-covering Snake.

Originally, he could save the person just by stretching out his hand, but he didn't want to because he just wanted that person to die.

It's a pity that the man's life is really long enough. He can't die in this way, and he can continue to attack Hanluo Earth-covering Snake. He grinds his teeth, moves his body, and turns to the side of another team member.

It seems that he still has to let him do it himself.

One of their team members must die here today, so that he can have something to say!

However, Lu Tianfeng was still wrong. No one present was a fool.

After a man almost died because he attacked the mouth of a cold-falling earth-covering snake, who would attack the cold-falling earth-covering snake again?

Chapter 2589 Escaped this disaster

As soon as the snake's head turns to whichever direction, the people on that side will immediately run away, and instead go to the Hanluo Ground Snake, and attack those scales violently, without exception.

Lu Tianfeng saw that he couldn't find any opportunity to attack the snake, and there were so many people watching.

He looked at Snake Tail with a sinister look.

There are still a few people over there who are making soy sauce, and the output is not very good. They are just waiting for Hanluo Earth Snake to die so that they can get something.

Oh, since he wanted to seek death so much, why didn't he help them?

Originally, I was only planning to kill one, but since I can't, I'll kill a few to make things bigger.

It just so happened that two of the trio of wallflowers were at the tail of the snake.

Of course, they were not here to make trouble, but because they were swept by the snake's tail just now, they were almost swept away, and then they were saved by Lin Caisang's spiritual whip, so they landed in this place.

Just as they were preparing to rush back, little did they know that when they arrived at their destination, there were many people touching the snake's tail.

"you....."

Just as he was about to speak and ask them to go to the front for reinforcements, he felt a strong wind coming.

As Lu Tianfeng landed steadily beside them, the snake's tail swept over them as if it was equipped with a surveillance camera.

The two men, who had already had three combat experiences, suddenly felt their scalps numb.

"careful!"

But it's not like they didn't do anything, they just grabbed two people one by one and ran to safety.

Coupled with the timely arrival of Lin Caisang's spiritual whip, all six people successfully reached a safe place.

and.....

When he first arrived at that place, Lu Tianfeng, who was about to watch those people being swept to death by the snake's tail, was stunned when he saw that the people had all run away.

What happened? When did these people escape so fast? Not a single one of them could be killed!

But that's not the worst thing. The most terrifying thing is that he just flashed for a moment, and the tail of Hanluo Earth-covering Snake had already swept towards him and swept him up.

'Bang!'

With a loud noise, Lu Tianfeng was swept up into a big tree. After hitting him, he bounced back and fell to the ground.

"Hiss!"

The snake's head turned around, and when it saw that Lu Tianfeng had been swept away by him, it directly exerted more force and exhaled a breath of cold air towards Lu Tianfeng.

"careful!"

When Lu Tianfeng's subordinates saw this, they rushed over regardless of the danger. They didn't care whether they respected him or not, and dragged their master's feet to the side.

Soon, with a sound of 'quacking, quacking', the place where Lu Tianfeng was originally turned into a source of ice, and all the flowers and herbs were turned into ice slag.

Lu Tianfeng happened to be dragged by his subordinates and escaped this disaster.

"Sir, are you okay?"

The subordinate looked at his master with a pale face.

The scene just now really scared him out of his wits. What they wanted was to kill other teams, not commit suicide!

"Why do you save others and not him?"

Turning his head, he looked at Lin Caisang far away and roared at her.

In fact, all six people were rescued, but only his master was almost frozen to ice.

He felt that that woman did it on purpose. She deliberately didn't save his master! That woman is really bad, full of bad intentions!

Chapter 2590 It's really too difficult

Lin Caisang was listening to the subordinate's words while dealing with Han Luo's attack. He also found time to roll his eyes at the man!

She wished that Lu Tianfeng was half dead, so she would save him?

Besides, she didn't think it was such a coincidence. Wherever Lu Tianfeng went, Han Luo Earth Snake's strongest attack would appear there.

If there is no connection between this, only a ghost would believe it!

He also pointed her at saving Lu Tianfeng. She didn't add insult to injury, which was already good!

The subordinate looked at Lin Caisang as if he were an idiot, and felt choked in his heart, secretly regretting why he yelled such words.

How could his master, such a powerful person, need a woman to save him?

I just don't know what his master was thinking just now. Why can't he avoid such a little danger? It's really inappropriate.

"Sir, you..."

"I'm fine!"

Lu Tianfeng took a deep breath and glanced at his subordinates coldly.

It was indeed very dangerous just now, and he only failed to check for a moment, so he ended up in such an embarrassing situation. There will never be a next time.

"Go on, follow me."

He glanced sideways and locked his gaze on Hanluo Earth-covering Snake.

If he wants him to die, then he will let him die without a burial place. In addition, one person in his team must die today, or one of Lin Caisang's team must die!

He made up his mind that this was what had to be done.

However, no matter how much he wanted to kill someone, he still underestimated Lin Caisang's ability to save people.

Every time when he was about to stuff a person into Hanluo Earth-covering Snake's mouth, Lin Caisang's spiritual whip seemed to have its own consciousness, saving the person at the critical moment.

This made the people in his team look at Lin Caisang with admiration.

The battle with the Hanluo Ground-covering Snake lasted all day, and it was not until the sky turned dark that everyone beat the Hanluo Ground-covering Snake to death.

At this time, everyone was in a state of embarrassment. Their whole bodies were covered in blood, including the blood of the Hanluo Earth-covering Snake and their own blood. They were all seriously injured.

But it won't kill anyone.

"hateful!"

Seeing that even though they were seriously injured, none of them died, Lu Tianfeng couldn't help but curse.

This Lin Caisang didn't do much else. She just saved people in the team. As long as she was around, it was really difficult to kill people.

Compared with his bad mood, other people's mood was super good.

If not for anything else, just because they are about to get the alchemy materials. This Hanluo Earth-covering Snake is much bigger than the previous monsters. Everyone can get some good things if they get a share.

Even though their bodies were covered with injuries, no one complained of pain.

One by one, they were grinning and gearing up to dismantle the cold-falling snake and divide everything.

"Take the snake scales and bones. I only have snake tendons."

Sui Zimo looked at the other two teams and said coldly.

The Hanluo Earth-covering Snake is already close to the dragon clan, so it has a unique snake tendon, and this snake tendon is just enough for him to refine a better whip for his son.

The whip on Sonner's body now no longer fits her hand well as her spiritual power has grown.

"Then we don't want it anymore, and I'll give you the rest."
