

Star of Space 2601

Chapter 2601 Are they the same as him?

After they were all pulled onto the flying mounts and heading towards a non-dangerous place, he spoke with trembling lips.

"You didn't tell me earlier!"

If they had said there were flying mounts, why would they have gone alone? They could have just waited for others.

Do these people deliberately want to see their team's jokes?

But Captain Liu didn't dare to say this directly, he just thought about it in his heart. He was afraid that if he said it, Sui Zimo and Lin Caisang would be kicked out of the team again based on their temperament!

"hehe."

One of the three people on the wall smiled 'haha' at Captain Liu.

Didn't you say you blame them? It's not like Captain Liu and the others have never seen them riding flying mounts before, so he forgot and still wants to blame them?

Moreover, they ran away on their own. They were timid, greedy for life, and afraid of death. How could they have the nerve to blame them?

If the current situation didn't allow him to talk to these people, they would really turn their backs and let them run on the ground to leave this dangerous place.

"It would be great if I could bring you with me." The other person was not so easy to talk to and directly replied to Captain Liu.

"Well."

Captain Liu choked hard at his words and immediately didn't know what to say.

But he felt that he had done nothing wrong. At the critical moment of life and death, how could they still follow Sui Zimo, waiting there for that piece of fish?

It doesn't matter if you run out of food, but if you lose your life, that's a big deal!

Taking a deep breath, he said nothing more.

"hateful!"

On the other side, Lu Tianfeng cursed secretly.

I originally thought that this time, in the frenzy of World of Warcraft promotion, they would be able to provoke some conflicts and make one team of them leave the other two teams.

But he didn't expect that Lin Caisang and the others actually had flying mounts, so they could just sit and leave this ghost place.

He didn't even remember for a moment that Lin Caisang and the others had flying mounts.

He had obviously seen it before.

But he really didn't expect that each of these people had a flying monster. Who were these people? Why does it happen to be a flying monster that doesn't even exist for him?

Those flying monsters can probably be found in few places except Haibo Country.

It seems that the previous investigation was correct, these people really came from Duohai Boguo.

Could it be that they still have any close relationship with the leader of Haibo Kingdom? Did the leader of Haibo Kingdom send them into Haikuo Forest to ask for something?

Could it be that these people are looking for the same thing as him?

"Master..."

The subordinates looked at their master's gloomy face and knew what was going on.

Indeed, Lin Caisang and the others have ruined the master's plans too many times. It is no wonder that the master's face is so ugly.

Even he wanted to kill those people directly.

But he also knew that Sui Zimo alone was no match for him, not to mention that Sui Zimo was accompanied by two people, as well as flying monsters. Although they looked like mounts, in fact, their strength was beyond compare. underestimated.

If it really comes time to fight, these flying monsters will be their master's greatest weapon.

Hearing the voices of his family members, Lu Tianfeng raised his head and glanced at him darkly, signaling him not to speak.

Chapter 2602 You wait, wait for me

Now they are sitting on the same mount. The mount that has been contracted has a heart-to-heart connection with its owner, and the Warcraft's hearing is extremely sensitive.

If this flying monster knew who they were, Lin Caisang and his team would soon know their identities.

And when the time comes, I'm afraid Lin Baizhong won't be able to hide it.

When the subordinates saw the look in their master's eyes, they immediately lowered their heads and stopped talking.

"careful!"

Suddenly, a shout rang out.

Lin Caisang, who was sitting on top of another flying monster, being fed fish meat by Sui Zimo, suddenly threw a spiritual whip towards him.

'Bang!'

With a loud noise, a huge boulder smashed down from a high place was split open by the spiritual whip and fell to the left and right of the flying monster.

"hiss!"

Everyone gasped when they saw this.

If Lin Caisang hadn't reacted in time, they would have been beaten to death, absolutely.

This monster's promotion frenzy is really terrifying. Such a huge boulder cannot fall from the sky for no reason. It can only be that the monster that is advancing is nearby and throws this boulder. .

Just as they were thinking this, they only heard the sound of 'bang bang bang'.

In all directions, many boulders were falling, not only throwing up a lot of dust, but also damaging a lot of trees.

"Sonny, you sit down and I'll take care of it."

Sui Zimo stood up, settled his wife, and then looked up at the sky.

"Zimo, here you go."

Lin Caisang handed the spiritual whip in his hand to Sui Zimo's hand, and Sui Zimo took it smoothly.

Those boulders fell like raindrops, almost hitting the flying monster several times.

However, it had the experience of being almost hit by a boulder once, and with the help of Sui Zimo, the Flying Warcraft was never hit by a boulder again, and it was able to avoid it in time.

However, the flying monster can be avoided, but it will be painful for the people sitting on the flying monster to wait.

The flying monster moved up and down, left and right, causing everyone to almost vomit. They had to steady themselves to prevent themselves from falling off the flying monster's back.

"ah!"

A scream rang out, and Lingxue'er, the weakest among them, lost her seat and almost fell off the back of the monster.

Fortunately, Yuan Jue pulled her up in time to prevent her from falling.

"You bitch, do you want to harm me on purpose?"

After stabilizing her body, Lingxue'er hit the flying monster's back hard and pulled a large bunch of hair off its back.

"Wait, wait for me...ah!"

Before she could finish her harsh words, a slap hit her directly on the face.

Her injured eyes, which had not yet completely healed, began to bleed again, causing her to break into a cold sweat.

But no matter how painful her eyes were, there was no pain in her heart. She was shocked and looked at the person who beat her, it was Yuan Jue, the Yuan Jue who had already been disappointed in her heart.

This man really doesn't know how to care about women!

"You hit me again?"

"I'll hit you lightly!"

Yuan Jue stared at Ling Xue'er with a very ugly expression and spoke in a hateful voice.

Now they are all on the back of the flying monster, pointing at the flying monster to lead them away from this dangerous place.

Chapter 2603 Help!

But Lingxue'er, who still doesn't understand the situation, actually dares to attack the flying monster that saved them? Is there anything else that she can't do?

"If you want to die, go down alone, no one will leave you on this flying mount.

"I....."

Lingxueer opened her mouth.

She knew that Yuan Jue felt that she had done something wrong by attacking the flying monster, but what was her fault?

"Didn't you see it almost threw me out just now?"

"That's because you are incompetent. Who is to blame?" Yuan Jue stopped him with one sentence.

Yes, everyone else was sitting fine, but she was almost thrown out. Did she still have the nerve to blame others?

Furthermore, doesn't she herself know what the situation is now?

If they really didn't avoid it in time, those falling boulders would really hit them. When the time came, would they all be allowed to die with her?

"Lingxue'er, if you do this again, when we get to the assembly area, I will apply to let Commander Lin be sent out of Haikuo Forest first. You know, Commander Lin has the right and ability!"

He warned Lingxueer with an ugly expression.

"you--"

Lingxue'er had a bad breath stuck in her throat and almost died of anger.

Covering her eyes which were bleeding again, she gritted her teeth and turned her head away without saying anything.

In Yuan Jue's eyes, what did she do wrong now? Sure enough, men are always fond of the new and dislike the old. That Lin Caisang is used to seducing men. He dared to seduce her even though he was already pregnant. Brother Jue!

"What are you doing? Be careful. If you fall again next time, no one will come to save you!" Yuan Jue warned her again in a cold voice.

This time he happened to see it. If the woman fell when he was not paying attention, they would have to risk their lives to save her. This was not the result he wanted.

Lingxueer: "..."

You want her to die, right?

Although she was extremely unconvinced, she still tried her best to steady herself and prevent herself from falling.

After all, her own life could not tolerate any jokes.

...

Huge boulders kept falling down. Stones of different sizes, more and less, knocked down the branches.

Even if everyone is sitting on the back of the flying monster, they are still in a state of embarrassment.

But that's not the most terrifying thing, because when a Warcraft is promoted, its level is not restricted in a frantic state, so the flying mounts of the same subordinate Warcraft will be put under pressure by the advancing Warcraft.

After flying for half an hour, the four flying monsters soon became unable to withstand it any longer, and their bodies started to shake a little.

"Zimo, Sangsang, they can't survive."

Lin Changhong stood up and shouted to the two people on the other flying monster.

He could feel that the flying monster he had contracted was a little weak, and he was afraid that it might not be able to hold on.

"Use your own spiritual power to support your mount." Sui Zimo immediately ordered Lin Changhong and Yue Chushui.

They have not yet left the frenzied range of Warcraft's promotion, so they must hold on, otherwise they will have to take advantage of it.

"good!"

Lin Changhong and Yue Chushui responded at the same time, and they began to input their spiritual power into the body of the flying monster.

but.....

"ah!"

"Help!"

Faintly, there was even a scream.

"Zimo, there is someone here."

Just as Lin Caisang was about to input spiritual power into his flying mount, he heard the voices of others.

Chapter 2604 It feels beautiful just thinking about it!

Looking up, she looked at Sui Zimo and reminded him.

"You sit here while I go to rescue you." Sui Zimo said softly, then flew onto his flying monster and headed in the direction of the sound.

But there were several people sitting on top of his flying monster. When they saw him heading towards the place where the loud noises were falling, everyone was unhappy.

"How is this possible? Aren't we going to leave?"

This is also a member of Captain Liu's team. Like Captain Liu, he does not have much self-awareness.

"You don't have to go!"

One of the three people on the wall smiled coldly at the man and said.

Sitting on Sui Zimo's flying monster were the trio, as well as Captain Liu and one of their team members.

Previously, the trio were angry because Captain Liu and his team were running so fast. Now that they heard what this man said, they were even more angry.

They also heard someone calling for help. Should they pretend not to hear and not go to save them?

They can't do such a thing.

Of course, if it was just Captain Liu and the others, they might really ignore it and leave directly. Even if people are so selfish, there is nothing they can do about it.

But think about it, were they like this in the past?

It seems...it seems...that's the case, right?

But since I followed Lin Caisang, Sui Zimo and the others, in just a few days, my state of mind has been so different that I actually feel that I can save people.

Haha, I feel beautiful just thinking about it!

When the team member next to Captain Liu heard what he said, he immediately shut up and stopped talking.

He really wanted not to go, but how could he not go? Is it possible to go down at this time and run away by himself?

The answer is, of course, impossible. If he went down by himself, he would be crushed to death by rocks before he could even take a few steps. This monster's advancement and madness was beyond the scope of his understanding.

"team leader....."

He turned to look at his captain, hoping he could say something.

At least Captain Liu is also the leader of the team. Lin Caisang always has to listen to his words, right?

He felt that as long as his captain could speak, they could still ignore those damn people and let the flying monsters turn around and leave.

But obviously, Captain Liu was not as self-aware as he was. He knew that even if he spoke, he would not be able to make Lin Caisang and the others change their minds. Lin Caisang and the others had saved those damn people.

If he opens his mouth, he might gain a reputation in the eyes of others as someone who is unwilling to save others.

Why bother?

Since Lin Caisang and the others are so confident, they won't let him down or get hurt, right?

Therefore, he decided not to say anything and turned to glare at his team members.

The team member was a little confused by his glare, and raised his hand to touch his nose.

He doesn't want to go because it's for everyone's benefit. Lin Caisang and his team are not the only ones on board this flying monster, but he and Captain Liu are also there. Do they have to follow them to die?

But Captain Liu was unwilling to speak, and there was nothing he could do about it.

Just when he was still hesitating whether to speak again, several figures appeared in their sight, and they were all in a state of embarrassment.

Chapter 2605 Stonehenge!

But similarly, the boulders falling from the sky became more dense, almost like drizzle, making it impossible for them to dodge. Captain Liu and the others were hit several times.

Fortunately, everyone has spiritual protection, otherwise, they really wouldn't be able to withstand so many rocks being thrown at their heads and bodies.

"Come up!"

Lin Caisang was protected by Sui Zimo's spiritual power. He threw out his spiritual whip and pulled up several people who were about to be knocked unconscious.

But when I counted the number of people, no, there were only five of them, and the other two had gone somewhere.

"Where are the other two people?"

Sui Zimo picked up the collar of one of them and asked.

"No, no more.

The man shook his head, his face full of pain and sorrow.

He watched those two people being hit by a huge boulder. How could they still be alive?

"Gone? Dead?"

Sui Zimo asked again, if he was dead, then they had to leave.

But if the person is still alive but just scattered, then they still have to find and save the person. After all, it is two lives.

"died."

The man nodded and sighed heavily.

"Those rocks fell so fast that we had no time to defend ourselves, and they were killed.

Who would have thought that they would encounter such a situation? It's not like they haven't encountered the crazy promotion of Warcraft outside before. How could it be as dangerous as this time?

There have been earthquakes, but they were very slight, not as strong as this time, and there weren't so many falling rocks!

"Zimo, let's go."

Sui Zimo wanted to ask something else, but Lin Caisang had already said something to him, and then ordered the flying monster to leave.

The flying monster flapped its wings and turned around to fly back, but the next moment...

"Boom, boom boom——"

Several loud noises exploded in their ears.

Immediately afterwards, dust splashed around, making the entire area blurry.

"Stonehenge!"

Lin Caisang's expression changed.

"What Stonehenge?" Captain Liu and the others didn't understand when they heard these three words.

Where did Stonehenge come from? It was obviously just a few relatively large stones that fell near them. They could just break through.

However, Sui Zimo and Lin Caisang already understood that this was no ordinary magical beast at all.

"This is a magical beast that has practiced formation magic and is advancing?!" Sui Zimo said, grinding his teeth.

He said, what kind of magical beast can be so powerful that it can cause so many rocks to fall from the air in so many places around it.

But he didn't expect that it turned out to be a magical beast that had practiced formation magic!

"What?!"

When everyone heard his words, they all exploded.

Have you practiced formation magic? In other words, this falling rock was not caused by the promotion madness at all.

It's because there is a magic beast that has practiced formation magic. It is afraid that other magic beasts or humans will take advantage of it during the promotion process, so it activates the formation to protect itself.

This is just a formation prepared in advance.

But they were in the formation and were almost crushed to death... No, someone had already been crushed to death. Although they were not from their team, two people were actually crushed to death.

"Zimo, we cannot let such a monster stay in the vast forest any longer." Lin Caisang raised his eyes to look at his husband and said in a deep voice.

Chapter 2606 Not far away

A small promotion made such a big noise. If that monster is allowed to stay here, wouldn't it mean that this vast forest will become more and more dangerous in the future?

The heart of this monster is so poisonous that it can ignore other life in the vast forest in order to not be disturbed.

She thought, in addition to the two of them who were smashed to death, there were also many monsters who were smashed to death, right? I sat on the flying monster all the way here and saw the corpses of many monsters.

"Um."

Sui Zimo responded lightly.

He also felt that such a monster should not exist in the vast forest.

"We are going to find that monster. Do you want to go with us?" He looked at Captain Liu and the other five people and asked.

"What? Go find that monster, are you crazy?"

When the team member on Captain Liu's side heard what they said, he immediately became furious.

Even if all this is not caused by the crazy promotion of Warcraft, the Warcraft that is being promoted is also very powerful, stronger than those Warcraft they have fought before.

Now that they are restrained by the boulder, they are already overwhelmed, and they actually want to take the initiative to provoke the monster that can only use the mechanism technique?

What could these people be if they weren't crazy?

"If you don't want to go, just go down!" Sui Zimo gave him a cold look.

Of course, he didn't want to take these people with him. If they really faced the advanced Warcraft later, these people would only hinder their affairs.

"Go down...down?"

When the man heard Sui Zimo's words, his eyes widened in shock.

Go down, how to go down? Sitting on top of the flying monster, you can still avoid those falling boulders, because there is a protective umbrella held out by Sui Zimo with his spiritual power.

But if they go down by themselves, they will definitely be hit.

Maybe they will die like the two team members who were crushed to death in the team they rescued, and their death will not be too miserable!

"No, we won't go down. If you want to save it, go save it yourself and leave the flying monster to us." He immediately shook his head and then put forward his own idea.

Everyone except the person who had just been rescued: "..."

Who does this flying monster belong to? This person is really awesome. He still wants the owner of the flying monster to give them the flying monster and then walk down on his own?

"You..."

"roll!"

Just as the trio of wallflowers were about to say something, they heard Sui Zimo give a sharp shout.

Immediately afterwards, another flying monster appeared in front of everyone, and then Sui Zimo threw everyone else onto the other flying monster, including the trio of wallflowers.

The trio of wallflowers: "..."

In fact, they can work with the captain to deal with the advanced monster.

After all, it's a contribution, right?

Even though he himself felt that it was of no use, it was still their intention, right?

But Sui Zimo did not accept the intentions of these three people at all. After a while, the two flying monsters separated and left. Sui Zimo and Yao Caisang headed towards the direction of the monster promotion.

The other flying monster chased the large army.

...

The sound of falling rocks kept ringing in my ears, getting more and more intensive.

On the ground, there are all stones of different sizes, which have been densely covered in several layers.

The further we fly, the more rocks we can see, "It's not far away."

Chapter 2607: Arrays within arrays, and devil-attacking arrays

Lin Caisang guessed that they were not far away from the advancing monster, so he raised his head and said something to Sui Zimo.

"Um."

Sui Zimo responded lightly, then flew down towards Lin Caisang and collected the flying monster.

"Sonny, be careful."

He looked at his wife and warned her.

In this place, even if he was always by her side, she had to be careful just in case.

"Okay, I'll take care of myself."

Lin Caisang responded, then turned his head and looked at a very rocky area not far away.

Thinking about it, this place must be the hiding place of the demon beast that was being promoted. It was actually hiding in such a place. She thought it would be some kind of cave or something.

"It's over there, let's go there."

Sui Zimo said something and then walked over cautiously with his wife.

"Ho, ho ho!"

As soon as they got closer, they heard the roars of monster beasts, and overwhelming spiritual power came towards them.

"There is a spiritual breath array."

Sui Zimo led Lin Caisang to avoid those spiritual attacks, Lin Caisang said.

The spiritual breath array can sense the breath of strangers and monsters that are very close to the person setting up the array. As long as someone comes close, they will be discovered.

It seems that this magical beast is really amazing. He has learned the formations well enough and is able to form so many formations.

"It's a formation within a formation, and there's also a magic attack formation." Sui Zimo also said.

Although he can't learn formations, he has read a few formation books. Demon-attacking formations can only appear in formations within formations. It is a formation method that detects living creatures and then attacks them in a fixed manner.

If used alone, nine times out of ten it will lose its effectiveness.

"You're really capable." Lin Caisang said mockingly.

A magical beast that has been sealed in the vast forest for so many years can actually learn the formation within the formation?

This can't be because Warcraft himself is talented and intelligent and can be self-taught, right?

"Zimo, it seems that there are really many secrets in this vast forest!" She said to Sui Zimo.

"Just go and see." Sui Zimo slightly curled his thin lips and said.

"Walk."

Lin Caisang nodded, and the two of them walked towards the pile of rocks.

On top of the spiritual umbrella, huge boulders fell one by one, but they could not hit the two people's heads, and the attack array could not hurt them at all.

The monster hiding in the rubble almost went into a frenzy when it saw this scene!

"Ho ho, ho ho ho!"

It roared again, warning the two of them.

But at the same time, it also knew that warning these two humans seemed to have no effect. They came just for it.

The next moment, all the stones in the pile of rocks were thrown into the sky, flew up, and then attacked Sui Zimo and Lin Caisang, as if they were going to press them directly under the pile of rocks. .

"careful!"

Sui Zimo reminded Lin Caisang, then took out his weapon and pointed it straight at the sky. The spiritual umbrella immediately grew several times bigger and bounced the stones around.

"Zimo, you are here, I will go find the agency information switch." Lin Caisang looked up at the stones with a cold face, then said something to Sui Zimo, then turned and left.

What a monster. It's really capable. If they don't deal with it today, in this vast forest from now on, everyone who comes in will never come back.

Chapter 2608 What a monster!

This is not the result they want to see. This vast forest belongs to Sky City and belongs to the Lu family. Why can't it be occupied by a monster?

So they still had to deal with this monster today.

"be careful."

Sui Zimo reminded her back.

"good."

Lin Caisang responded softly and gradually walked away.

A magical beast with intelligence is almost smarter than ordinary people, let alone a magical beast that can only learn formation spells?

It also knew what Lin Caisang was going to do, and it immediately became angry.

"Ho ho ho!"

With an angry roar, the largest boulders all hit Lin Caisang's back.

Sui Zimo's eyes flashed, and he immediately flew up and blocked the boulders.

"Your opponent is me!"

"Ho ho, ho!"

The rocks in the pile of rocks had disappeared, and those huge monsters had appeared in front of Sui Zimo. When it stood up, it was almost as high as a mountain.

It opened its ferocious mouth, and its bright red tongue rolled towards Suizi Mo.

It was obviously not a snake monster, but it had a very long tongue, and it could reach Sui Zimo from a very long distance.

Sui Zimo smiled coldly, and struck the tongue with sword energy with the long sword in his hand.

There was a 'ding' sound.

When the two collided, they made a harsh sound. It didn't sound like the sword energy hit the flesh at all, but like it hit a stone or iron tool, so hard and so harsh.

"What a monster!"

He flew up and flew towards the monster.

This is a magical beast that even he can't name. It can be seen that it should be an overlord-like existence in this vast forest.

And today, this rare monster will end in the hands of him and his wife.

it is necessary.

Soon, one person and one magic beast opened it. On the other side, Lin Caisang was not so quick to find the mechanism message switch and was still groping for it.

"It should be in this direction, that's right."

Lin Caisang came to a forest next to the pile of rocks. She felt that she should be at this place.

Because this place is just enough for the spiritual power of the monster to be involved, and the formation can be activated or deactivated. Moreover, this is a forest, and it is overgrown with weeds, so the direction of the information switch is hidden.

"Dabai, go find him."

She called the two little white foxes out of the Golden Pearl Space and asked them to find them.

If you just rely on her to search, you probably won't be able to find out where the agency's information switch is for a few hours.

Now, not only is she restricted by her belly and cannot walk too far, but she is also very worried about her husband. The Warcraft is still in the process of promotion. What if it really goes crazy?

Therefore, the most quick way to solve the problem is to let Dabai and the others find it.

"Zhizhi."

When the two little guys heard their master's order, they immediately flew out and looked for information from the agency.

After a while, the little guy came back and took Lin Caisang to a place.

"What a big tree!"

The two little guys led Lin Caisang to a big tree that could be hugged by five people. She looked up and saw a place on the tree that was different from other places.

Color is not the same.

"This is it."

She nodded, then moved another table out of the Jinzhu space and climbed on it.

Chapter 2609 Where is the table...?

In this way, the piece of bark that looks different can be opened just enough to reveal the mechanism information inside.

...

In the golden bead space.

"Where's the table...?"

Holding two plates of food in her hand, Ding Rong looked at the dishes that were supposed to be placed on the table and asked her to put them on the table, but they just disappeared.

She was really full of black marks. Fortunately, she responded in time, otherwise, both dishes would have been reimbursed.

"Sister, I...it was still here just now." Ding Xu also twitched the corner of his mouth and looked up at his sister.

He had been sitting at the table, waiting for the food to be served before he could eat.

But after waiting, not only did he not get the food, but the table in front of him suddenly disappeared. This was really... what should he say?

"I know."

Ding Rong took a deep breath and nodded.

The table must have been moved out by their master, otherwise where else could it go?

"Brother Ban Jue, please bring another table over." She was holding dishes in her hands, and it was inconvenient to carry the table, so she had to ask for help.

"The table is not at..."

Hearing that he needed a table, he walked out at the same time as Jiang Zuo and Sui Ziyou.

After seeing the empty space with only stools left, I couldn't help but twitch the corner of my mouth.

"I'll move it." Ban Jue said immediately.

"Fortunately, it wasn't removed after the dishes were put on."

Sui Ziyou looked at the two plates of food in Ding Rong's hand, couldn't help but murmured, and then went back to cooking.

Isn't it right? If the dishes are put on the table and the table is moved out, won't the dishes and plates on the table have to come into close contact with the ground?

"Aren't you and your mistress in the vast forest? Can you move such a big table out?" Jiang Zuo couldn't help but ask.

Doesn't it mean that there are three people in their team who are not their own? This way, they can still take out such a big table. What do they want to do? Do they want others not to know that the mistress has a golden bead space?

Sui Ziyou shrugged, saying that she didn't know what was going on.

"Maybe my sister-in-law's table would be useful," she replied.

"Um?"

Jiang Zuo turned his head, looked at Sui Ziyou and raised his eyebrows.

useful? What is its use?

But those chairs and the like have not been moved out. What's the use of just holding the table? Is it possible that I can still eat standing up?

But they can't control these things now, because the master and the mistress have entered the sea forest, which means that they are in the golden bead space and it is impossible to get out for the time being.

...

Outside, Lin Caisang had opened the bark of the tree and saw the message switch.

But looking at the message switch, she felt a little stupid.

"Is this an agency message switch?"

Looking at the disorganized information switches, Lin Caisang was helpless at this moment.

How could she stop the formation with such a thing? She couldn't even tell which one was which.

"Come on, how can I expect a magical beast to be so talented and learn so many formations? Being able to create such a large formation is already powerful enough."

As for whether the mechanism's message switch is good or not, whether it's bad or not, whether it's neat or messy, that only needs to be understood by the monster itself.

As she spoke, she began to sort out the messy things.

Chapter 2610 Anyone who disobeys will die!

But after sorting it out for a while, she still sighed heavily, feeling that she really didn't have the ability to sort this thing out.

It's just too messy, isn't it?

"No, I have to think of another way."

She muttered, then retracted her hand, preparing to think of other ways to sort out these things and turn off the machine.

But.....

'Bang, ding ding dong dong!'

As soon as her hand left the machine's message button, she heard a sound ringing in her ears.

When she came to her senses and looked up at the machine's message switch, she saw that many gears and other gears were falling down. The entire machine's message switch had been destroyed to the point of being destroyed.

Lin Caisang: "..."

Could it be that she accidentally touched something just now?

It's impossible. She was already very careful and didn't touch anything at all. Or maybe she accidentally hooked something with her fingernail just now?

If that's the case, isn't this machine's message switch too useless?

If you do it so casually, it will be broken, and it will be as bad as possible?

This is simply, what should she say?

However, now was not the time to dwell on this. She turned her head and looked around the pile of rocks, fearing that those huge rocks would make some noise because the machine's message switch was destroyed.

But she was obviously overthinking it.

After the agency's message switch was destroyed, Sui Zimo wouldn't be able to smash those huge rocks alone.

Instead, it fell straight down. No matter who was there at the moment, they would be hit, and the promoted monster was no exception.

"Roar!"

Just as the monster was about to attack Sui Zimo with its claws, it was hit by a falling rock from the sky.

Although the size of the boulder was not enough to knock out the huge monster, it successfully prevented it from attacking Sui Zimo. Instead, it was because of the boulder's willingness that it was scratched by its own claws.

It immediately let out a roar of pain.

"You humans actually destroyed my formation. It's really abominable!"

Finally, it couldn't stand the bullying anymore, got angry, and said viciously to Sui Zimo.

Warcraft with enlightened intelligence and high levels of cultivation can speak human language, but because they look down on humans who are as big as ants to them, they cannot speak in human language.

This time, Warcraft was really angry and spoke.

This formation took many years to complete. It has used this formation to capture many more powerful monsters than itself. In the vast forest, many monsters are afraid of it because of this formation.

Over the years, it has been perfecting this formation, hoping that the formation can become the most powerful in the vast forest.

In that case, it will always be the king in the vast forest, and everyone must listen to it. Anyone who disobeys will die!

And it did the same thing before. With this formation, many monsters in the vast forest will use their best things to honor it. It doesn't even need to go out to find food, and a lot of delicious food will be delivered to it. Come in front of it.

But now, the formation it was proud of was actually destroyed by these two humans.

It would be impossible to build another one within a few decades, and if those monsters more powerful than it knew that its formation had been destroyed, they would definitely come to settle accounts with it.
