

## Star of Space 2611

Chapter 2611 Losing your job

Will it still have peaceful days?

No, it won't even have a restful life anymore, it will be torn alive by those monsters with a higher level than him!

The boulder had finished falling, and the monster began to attack Sui Zimo, one move after another. The moves were so fierce that they forced Sui Zimo to retreat step by step.

But Sui Zimo didn't let the monster gain any upper hand. Although he was retreating step by step, the spiritual power in his hands continued to output, hitting the monster's vitals every time.

The monster was beaten until it screamed.

When Lin Caisang destroyed the information switch and rushed over, one man and one beast were still fighting, each refusing to give in.

"Zimo, let me help you.

Lin Caisang said something to Sui Zimo, but instead of rushing up himself, he called out several people in the space.

Exiled Jue and the others, holding their rice bowls and eating with chopsticks, said: "..."

What happened? Aren't they eating in the mistress's golden bead space? Why did you come to this place.

Moreover, they were still sitting in a sitting position. If they hadn't had some skills, they would have fallen on those big rocks!

"Mother..."

Ban Wu turned his head and looked at Lin Caisang helplessly.

"What are you doing standing there in a daze? Why don't you go help your master? Why don't you let me go?" Lin Caisang glared at them and ordered.

She was also very measured. She would not fight a monster of such size while pregnant unless it was absolutely necessary. Moreover, it was a monster whose level they could not even estimate.

So, this matter has to be left to these other people.

"oh oh."

They immediately responded to the ban, threw away their jobs, and prepared to rush forward, but...

Looking at their empty hands, several people looked at Lin Caisang again.

"Mother, we didn't bring out our weapons." Jiang Zuo said with tears in his eyes.

They are eating. How can anyone hold weapons in their hands at all times while eating? Besides, they are always in the mistress's golden bead space, so they don't have to hold weapons every day to prepare for war, right?

Hearing this, Lin Caisang was stunned for a moment, but she quickly reacted and took out the weapons of several people from the Golden Pearl Space.

Several people obtained weapons and immediately rushed towards the monster.

Although they are not as powerful as their master, they have been trained at least, so they can still give him a try.

...

In the Jinzhu Space, Sui Ziyou and the others were eating and chatting about homely things, but while they were eating and chatting, several men suddenly disappeared.

Ding Xu glanced at the table with dishes and plates in confusion, and muttered to himself.

"Fortunately it wasn't the table that went out this time."

If it was a table, then they would have to cook another table of food, which was really too much.

"You."

Ding Rong raised his hand and touched the little guy's head.

"Hurry up and eat, maybe it will be your turn to take this table soon."

"ah?"

Ding Xu was startled and quickly buried his head in his rice bowl.

Eat, eat. If you don't eat, you might not have anything to eat next moment. It's more important to fill your stomach.

"What are you scaring him for?"

Sui Ziyou rolled his eyes at Ding Rong angrily.

"Xu'er, eat slowly, the table will not be moved."

Even if you want to move it out, you won't move this one. It must be the one that was moved out before, right?

Chapter 2612 Don't even think about leaving my territory alive!

"No way?"

Ding Xu raised his head, his mouth full of rice, and asked vaguely.

"If you don't know, you have to eat quickly. I'm hungry."

He has to practice later, and he can't waste any time, so he should eat quickly.

...

Outside, the monster was being besieged by Sui Zimo and the others, and it was becoming too much. Its figure gradually became smaller and smaller, and it was no longer as big as a mountain.

"You humans, I have no grudge against you, why do you have to push me to death?"

He roared at Sui Zimo and the others, saying that he was just promoted to a higher level, so he provoked whom, and these humans actually chased him to the door of his house. Why?

It's okay to come here to kill him, but he's still so arrogant. He doesn't say a word and just screams at him to kill him.

"No grudges? Aren't the people we died caused by your Stonehenge?" Lin Caisang stood aside and shouted to the monster.

Now I dare to tell them that I have no grudges, but what about the people they were beaten to death? Did their deaths go in vain?

"those people?"

Warcraft heard her words and snorted coldly.

"Whoever lets them come under my Stonehenge deserves to be smashed to death!"

Those people were just stoned to death. It hadn't done anything yet. If it wanted to do it, it would have eaten those people alive and saved them the trouble of being stoned!

"Deserve it?"

Sui Zimo also sneered, almost laughing out loud at Warcraft's words.

"Then you deserve to be killed by us!"

As he spoke, the spiritual energy on his sword became more powerful and struck at the monster. Exiled Jue and the others also followed their master and launched the most powerful attack on the monster.

"Hey Hey hey."

The monster was in pain and screamed.

"Are you people still being unreasonable? It's obvious that you broke into my territory yourself, and now someone is being beaten to death, and you're blaming me?"

He didn't feel that he was wrong at all. This area in the vast sea forest was its territory. These humans broke into its territory and were crushed to death by its formation. What else could it be if they didn't deserve it?

"I'm telling you, anyone who breaks into my territory will die, and so will you! No one can leave my territory alive!"

As he spoke, its figure grew taller, and its spiritual power became even more intense.

Do you really think it can't defeat these humans? It was just teasing them. It was as small as an ant. If it grew bigger, it could crush several of them to death with one foot!

However, as soon as it finished speaking and its body grew a little bigger, it was directly struck by a bolt of thunder spirit power from Sui Zimo.

"ah!"

As a scream rang out, the figure of the monster suddenly shrank several times, becoming even smaller than before.

"You...you are simply not human!"

It was furious and roared at them.

It's a pity that no one paid attention to its roar. Sui Zimo and the others continued to attack, not giving it a chance to react again.

Soon, the monster's body was covered with scars, and its figure became smaller and smaller.

"Wait, wait, wait, I admit defeat. I will let you pass and I won't eat you anymore." Seeing that he was about to lose miserably, Warcraft quickly shouted and gave up.

But its words really made Lin Caisang laugh.

Chapter 2613 Of course it's interesting

He admitted defeat, and then added that he would not eat them anymore.

"Zimo, fight quickly. There is no need to show mercy to it. I want to see what it wants to eat us!" She shouted to Sui Zimo.

It is indeed a ferocious beast, and it wants to eat them. It is quite acceptable!

If we really let it go and let it continue to stay in this place, then the vast forest will really never see the light of day again.

"good."

Sui Zimo responded and sped up.

"Hey, how could you do this?"

The monster shouted angrily again.

It has already given up, but these humans still don't let it go. It is the most ferocious and evil monster in the vast forest. Which other monster will hide far away when seeing it.

These people actually wanted to kill it.

"Since you are seeking death, I won't be polite. Look at my sky-destroying formation! Activate it!"

Humph, do these people think it only has one formation? No, no matter you are a human or a beast, you have to be prepared for emergencies, so it always has two formations.

The Sky-Destroying Formation is its final guarantee. It can ensure that after Stonehenge is destroyed, it will not be that easy for other monsters to deal with it!

Seeing that those people were about to kill it, it immediately used its spiritual power to activate the sky-destroying formation, but...

Unexpectedly, no matter how it used its spiritual power to perceive, it could not detect the mechanism of the sky-destroying formation it had created. It saw the sword energy of Sui Zimo and the others thrust into his neck.

It could only turn around awkwardly, avoid the sword energy, and continue to sense its own sky-destroying formation.

But no matter how it perceives it, it is like a stone sinking into the sea.

"The Heaven-Destroying Formation?"

Lin Caisang raised the corners of his lips slightly and looked at the monster with a smile.

"You're not talking about the message switch that looks more messy than the one at Stonehenge and will break if you touch it, right? That thing was destroyed by just throwing a stone at it. It can really be called the Heaven-Destroying Formation, haha."

At least she tinkered with the Stonehenge message switch for a while, but the other message switch discovered by Dabai and the others was so terrifying that she just threw a stone over and tried it.

Then, the machine's message switch buzzed. It was so bad that it was so bad!

"Uh, you..."

After hearing her words, the monster almost fainted in front of everyone.

This woman must have been sent by God to defeat it. She actually destroyed the news of its sky-destroying formation and left nothing for it!

"You... you are so bad. I have not offended you, and it was not you who was stoned to death. Even if I have killed many monsters and people, what does it have to do with you?"

Moreover, I am not the only one who is a heinous monster in the vast forest. Why do you have to hold on to me? Is this interesting? "

"Of course it's interesting."

Lin Caisang touched his chin and spoke to it.

How could it not be interesting? If this monster continues to develop in the vast forest, there is a chance that even they will not be able to deal with it.

Besides, there are more than one heinous monsters, so they will deal with them one by one. Anyway, they have a month. If they have time, they will deal with each one they encounter. As for the alchemy materials, there is no need to worry about too much.

Chapter 2614 You actually humiliated me like this

What's more, how can a monster that can practice mechanism skills in the vast forest be boring?

Soon, Sui Zimo knocked down the monster. The monster, which was originally as tall as a mountain, had become the size of a human being and was directly trampled under his feet.

"You... you... Shi Ke can't be killed, you are really bullying others!"

The monster struggled under Ban Yue's feet, but couldn't get up. In the end, he could only roar at them.

Is there anyone who bullies beasts like this?

It used to be the overlord of this vast forest after all. When a monster saw it, it would be like a mouse seeing a cat. But now, it was bullied by a group of humans that it thought were very small!

How can it hold its head high in front of fellow monsters in the future?

These people, once it escapes from their hands, will definitely not let them go so easily!

"Tsk!"

Lin Caisang couldn't help but clicked his tongue, looking at the monster in front of him with some surprise.

"Good guy, you actually know that a soldier can be killed and cannot be humiliated. Where did you learn this, huh?"

She stepped forward and asked.

"My mistress is asking you, where did you learn these words?" Ban Jue pressed his feet hard, and the monster immediately let out a roar like a killing pig.

"You bastards, you actually humiliate me like this. Just wait until I become more powerful than you one day and let you one by one...ah!"

The monster was so angry that it cursed, but before it could finish its words, it felt like someone was stepping on its chest harder, and it could no longer make any sound other than a scream.

"The scolding was quite enjoyable. In this case, let's banish him. Let's beat him a few times first. Remember, don't beat him to death." Lin Caisang directly took all the humans and beasts into the golden bead space.

This monster has run out of tricks, leaving it for Exiled and the others to take care of themselves and force them to confess everything they need to know verbatim.

"Let's go back."

Sui Zimo hugged Ren'er into his arms, then summoned the flying monster and flew in the direction where Lin Changhong and the others were going.

...

On the other side, after the boulder stopped falling, Lin Changhong and the others stopped, preparing to wait for Sui Zimo and Lin Caisang to return before setting off to the assembly area.

However, there are always people who are not self-aware. Several team members around Captain Liu gathered together and glanced at Lin Changhong and Yue Chushui with frowns and displeasure.

"Should we not go any further? Isn't it safe here?"

"That's right, who knows if the warcraft that is advancing will come to deal with us. If it does come, we are no match for such a powerful warcraft."

"Captain, why don't you go talk to them and we can move forward?"

Someone looked at Captain Liu and suggested.

Hearing this, Captain Liu rolled his eyes secretly and was speechless.

Even if he has no self-awareness, he still knows that his face is not as big as he imagined.

They had already made Lin Changhong and Yue Chushui unhappy because they left first. These two people were not as easy to talk to as Lin Caisang. When they faced them before, they remained silent.

Now let him tell them not to wait for their captain, but to leave first?

Who do you think he is, the Lord of Sky City? Everyone has to listen to him? What a beautiful thought!

Chapter 2615 Already tasted the sweetness

"If you want to go, then go by yourself, but don't drag me along." He warned them directly.

He was afraid that if he really said it, Lin Changhong and the other two would tell him directly, "Don't you have legs? Go on your own."

Will he leave then or not?

"Captain, I think it's really unsafe here. Even Captain Lin and the others would run away when they saw the promoted monster, let alone us? I think it's still too late for us to leave now. If we don't leave, we'll be killed by that monster. Once discovered, we really won't be able to leave."

Seeing that their captain did not listen to them, several people tried to persuade him again.

"If it doesn't work, let's go on our own and leave them alone." One of them thought for a moment and said.

This person was Lu Tianfeng in disguise. Naturally, he hoped that a group of them would leave first, so that he could replace them directly.

"This place is still very dangerous. Warcraft may come at any time. Captain, how about we go talk to them and leave first?" he suggested.

"no!"

Captain Liu immediately rejected Lu Tianfeng's words.

"This matter is not allowed to be mentioned again. At least until we get to the assembly area, our three... no, four teams must be together!"

They were three teams before, but now they have saved another team. Although there are only five people left in the team, they are still one team after all.

And the reason why he didn't want to separate from Lin Caisang and the others also had his own considerations.

There are advantages to having more people. At least when they encounter danger, there are more powerful people who can block them, and they can also get a lot of benefits.

Why wouldn't he do it?

"But if we keep going like this, when will we be able to reach the assembly point? Captain, all the good tasks will have to be taken over by others." Lu Tianfeng's subordinate said to Captain Liu anxiously.

He thought, what Captain Liu cares about most is what kind of mission he should receive, right? It is definitely right to use this to stimulate Captain Liu.

But he seemed to have thought wrong. Captain Liu cared about what kind of mission he would take, but what he cared about now was what kind of benefits he could get from following Lin Caisang and the others.

After just sharing the scales and bones of the monster once, he had already tasted the sweetness.

And he knew that without Lin Caisang and his team, it would have been impossible to kill such a powerful monster and obtain the scales and bones with just their own team.

Therefore, he was willing to follow Lin Caisang and the others, even if it delayed them a bit.

"The mission should be ours, it will always be ours, it shouldn't be ours, no matter how fast we go, we can't get it." Captain Liu spoke to Lu Tianfeng's subordinates very calmly.

Compared with the little benefits that the mission could bring him, he felt that it would be better to follow Lin Caisang and the others and get more benefits.

"Don't think there's anything wrong with waiting for Captain Lin and the others now. Think about how you felt when you got those scales and monster bones.

In the past, were you able to obtain such good alchemy materials?

In other words, can you kill that high-level monster and get those scales and bones just by yourself? "

he questioned them.

"this....."

When several people heard what he said, they didn't dare to say anything more.

Chapter 2616 The true way of cultivation

Yes, how can they have such good skills? Being able to defeat such high-level monsters is just a matter of following Lin Caisang and the others and benefiting from them.

But Lu Tianfeng's subordinates were extremely angry when they heard Captain Liu's words.

Those alchemy materials were nothing to him, and they were things that would ruin his master's plan. He wished he could just throw them away, but he still had to carry them on his back, which was in the way!

"Can't we..."

He was just about to say something, saying that they could also kill those monsters and obtain alchemy materials.

But Lu Tianfeng's sharp eyes swept towards him, and the words he said were stuck in his throat, almost suffocating him to death.

When his subordinates stopped talking, Lu Tianfeng withdrew his gaze and turned to Captain Liu.

"Captain, it's not impossible to follow Captain Lin and the others, but their traveling speed is really too slow. How about you go talk to them after Captain Lin and the others come back? Since they have flying monsters, then we Wouldn't it be faster to go to the assembly area together on the flying monster?"

"this....."

When this matter was brought up, Captain Liu had some opinions on Lin Caisang and the others.

Obviously they have flying monsters, why do they have to let them all walk together to the assembly area?

Wouldn't it be better to just sit on the flying monster?

Moreover, even if I sit on the Flying Warcraft, I am one step ahead of others in terms of temperament. They are not on the same level at all.

"Okay, I'll talk to Captain Lin and them when they come back later."

But he didn't guarantee that he would be able to get Lin Caisang to nod his consent and let everyone ride the flying monster to the assembly point. After all, the flying monster belonged to Lin Caisang and the others, and it was not up to them to decide whether they wanted to ride on it or not.

But it's okay to give it a try and talk about it, right?

"Um."

Lu Tianfeng responded.

He could imagine how Lin Caisang would look at Captain Liu if he really told him.

If flying monsters can really fly in the vast forest, why doesn't the city government distribute a flying monster to every team? Could it be that Lu Tianlan forgot?

The answer is, of course, impossible to forget.

But Lu Tianlan felt that entering the vast forest was also a test for everyone, and it was also a rare practice. How could it be possible to use flying monsters to travel instead?

In fact, like Sui Zimo and Lin Caisang, killing monsters along the way is the real way to practice.

People like Captain Liu who only care about their own comfort and then expect to benefit from others will have no use in the future.

Is this trip into the Sea-wide Forest just to show off in front of others that I have entered the Sea-wide Forest and seen very powerful monsters? Of course not.

Being able to enter the vast forest is a kind of cultivation in itself.

"Captain, if you ask then, don't forget to mention that Captain Lin and the others left just now. They will definitely get a lot of good things. Maybe if you ask, we can get some too.

I think Captain Lin is also a generous person. He wouldn't be so stingy and not share anything with us, would he? "

He reminded Captain Liu again.

When Lin Caisang and the others went after the beast that advanced to madness, they must have thought they could kill it, right?

Chapter 2617 Let it escape

Of course, when he said this to Captain Liu, he didn't mean to get anything, but just wanted to make Captain Liu and Lin Caisang's differences even greater.

Let me ask, Captain Liu and the others have done nothing but want to get some benefits. How will Lin Caisang treat them?

I'm afraid you think these people are too greedy, right?

"This... let me ask."

Captain Liu hesitated for a moment, but finally agreed.

He also thought that the thing was not his. Even if Lin Caisang and the others killed the beast that advanced to madness, he did not contribute half a cent.

But when I think about the power of that monster, I feel that it must be very good. I have nothing to lose by asking for it myself, right?

If Lin Caisang could give him some, it would naturally be the best. If he was unwilling to give it, he wouldn't force it. Just treat it as a joke on Lin Caisang and the others?

Hearing this, Lu Tianfeng curled his thin lips and smiled silently.

This Captain Liu is really not that easy to coax. He actually dares to think and do what he says casually.

There were so many people at the scene. If Lin Caisang got something and really gave it to Captain Liu, what about the others? Would they divide it or not? This issue needs to be carefully considered.

...

After a while, even people in Yuan Jue's team became impatient with waiting.

Finally, Sui Zimo came from behind with Lin Caisang.

"Sang Sang, Zi Mo, how are you? Have you found that monster?" Lin Changhong saw them and immediately rushed forward and asked.

Hearing this, Lin Caisang raised his eyes, glanced at the other people who were looking at them, and then chuckled.

"The formation was destroyed, but the monster was too powerful and it escaped." She said quietly.

This group of people was pretty good, but they didn't help at all, but they wanted to take advantage of her. They were also thinking that after she and her husband killed the monster, could they share some of the good things?

Of course, she could also see that no one in Yuan Jue's team except Ling Xueer had such thoughts. Most of those greedy eyes came from Captain Liu and his team.

The most serious one among them is Captain Liu himself.

It seems that while she was away, someone started acting evil again. Was he trying to sow discord between the two teams? Did he want Captain Liu to leave them?

It's a good idea to fight, haha.

Captain Liu, who was just about to come over to ask, was immediately choked by her words.

Behind him, Captain Liu suggested that Captain Liu ask Lu Tianfeng if the monster had hit him. He did not expect Lin Caisang to tell the fact that the monster had escaped so casually.

He was really pissed off by this woman. This woman had really mastered the art of tearing him down!

"Did the monster escape? Captain Lin, it seems that you and Mr. Sui are not very capable." He looked at Sui Zimo with a smile and made sarcastic remarks.

"Yes, we know what my husband and I are capable of. We just don't know what you are capable of. Are you aware of it yourself?" Lin Caisang blocked the conversation with one sentence.

"Well!"

Lu Tianfeng choked at her words.

I couldn't help but wonder in my heart, does this woman still know his identity?

Otherwise, how could she say such a thing? If you dare to ask him about his abilities, doesn't that mean... you know his identity?

Chapter 2618 You are the most valuable person

However, he quickly denied this possibility in his mind. They were not on the same team. How could Lin Caisang know about him? He must have just said this by chance.

"Haha, Captain Lin, I was just joking. Why did you take it seriously? That monster feels so powerful. It's normal for it to run away. It's strange that it can't run away."

In fact, he was secretly regretful in his heart, why were these two people not eaten alive by the monster?

In this way, no one will come to ruin his good deeds.

What a pity, what a pity, that magical beast was so useless that it actually ran away, and looking at Sui Zimo and the others, they didn't suffer any injuries at all.

In the golden bead space, if the monster tied up by Wuhua Da could hear what Lu Tianfeng was thinking at this moment, he would definitely be so angry that he would yell at him!

This guy isn't one-on-one, it's several against one. Can it be undefeated?

As for escaping, there is no need to think about it. Just because this woman has space, there is no way for her to escape!

"Oh, it turned out to be a joke.

Lin Caisang responded with a cold face, and then rolled his eyes at Lu Tianfeng in front of everyone.

"Then you'd better stop making such jokes. I don't like to joke. Maybe when someone gets upset, she will take action directly. There's no telling."

"this....."

Lu Tianfeng was so embarrassed when he sat there.

"You woman, my family..."

"cough!"

When Lu Tianfeng's subordinates saw their master being retorted by Lin Caisang, they immediately wanted to get the situation back.

But he heard a slight cough from his master, and the words that came to his lips were forcefully suppressed.

This woman is really too vicious. Just wait, he will definitely help his master get this place back. If he can't do it today, then he will wait until this woman is alone before making plans!

"snort!"

He snorted heavily and shook his sleeve towards Lin Caisang, proving how unhappy he was at the moment.

"Are you sick? Have you spoken to me?"

When Lin Changhong saw this man's stinky face, he immediately became unhappy and scolded him back.

"you--"

"Brother, what do you have to argue with sick people? I'm hungry, do you have anything to eat?"

Just as Lu Tianfeng's subordinate was about to reply, he heard Lin Caisang's soft voice, interrupting his words and almost suffocating him to death!

"Are you hungry? I just grilled some meat."

Hearing that his sister was hungry, Lin Changhong immediately went to get the freshly baked barbecue and handed it to his sister.

"Although it's not as delicious as Zimo's, you should make do with it and eat a little first, and let Zimo bake it later."

"What?!"

Captain Liu and the others screamed in shock after hearing Lin Changhong's words.

"You still want to barbecue, when is this going to happen?"

One of them raised his hand and pointed directly at the barbecue Lin Caisang had just received, with a look of disapproval on his face.

"Don't you have some meat to eat? Why don't you just make do with it while we continue on our way? If we get to the assembly area early, we can also receive better tasks!"

"That's right, who doesn't make do with what you can eat when you are away from home? You are so precious. If you don't eat this, you don't eat that. You really think you are... ah!"

Chapter 2619 Why hit me?

Before another team member finished speaking, he was interrupted by a big ear scraper. When everyone heard the sound, they saw that the left side of his face was swelling up at a speed visible to the naked eye.

"hiss!"

Everyone gasped.

But, again, no one except Captain Liu's team would sympathize with his plight.

He is so mean-mouthed, but she is pregnant. How can he just eat something and make do like everyone else?

What's more, in addition to Captain Liu and his team, Yuan Jue was rescued by Lin Caisang and others before, and naturally he was towards his benefactor. The other five people were also rescued by Lin Caisang and Sui Zimo, so it is even more impossible. Towards Captain Liu and the others.

Yuan Jue and the others felt that they had already flown a long way on the back of the flying monster. Just the time saved would have taken them a whole day to leave.

Since so much time has been saved, it doesn't hurt to take a little more rest here.

As for the other five people, who have various injuries on their bodies, they will naturally not object if they can rest here for a while.

"You, you... you dare to hit someone!"

The man who was beaten raised his hands to cover his face and looked at Sui Zimo in disbelief.

Except for Sui Zimo, no one else here would beat someone up for Lin Caisang, right? Therefore, he thought it must be Sui Zimo who was beaten.

But unfortunately, he thought wrong.

"I did it!"

A cold voice sounded, and Yue Chushui stood not far away, staring at the team member with cold eyes.

Hearing this, everyone turned to look at Yue Chushui.

"You...why did you hit me?"

The team member also turned his head, looked at Yue Chushui, and asked loudly.

He didn't offend Yue Chushui, and it wasn't him he was talking about. Why would he do it to himself? Why?

"If I hear you being disrespectful to my sister again, it won't be as simple as just beating someone!" Yue Chushui said loudly.

It can be regarded as a threat. What he hates most are those self-righteous people who insist on thinking that others should treat him how they should treat him and do things according to his ideas even though they do nothing.

"you--"

Hearing his words, the man trembled and almost fell to the ground.

He could really feel that if he said a few more disrespectful words to Lin Caisang, this person would really want to kill him.

But why, he was not wrong.

"I didn't say anything. Everyone is out and about. Just eat something and then go on your way. What's impossible? Why do you have to eat so well?"

"We are willing, but do you care?"

The trio of wallflowers stood up and spoke to the man.

"If you want to leave, then go ahead. It's as if we're tying you up and not letting you go. Who are you doing this for?"

"That is, do we hold a knife to your neck and prevent you from leaving? Or do we rob you of everything and you can't leave? Obviously you have hands and feet, but you can't leave if you want. Let's go?"

"We are not from the same team. Do you really think that Captain Lin owes you something? What, you are not still expecting to ride Captain Lin and his flying monsters to the assembly area, right?"

"I....."

The man's mind was pricked by the trio, and the half of his face that wasn't hit turned red.

Chapter 2620 Whatever, whatever

He wanted to ride Lin Caisang's flying monster to the assembly area, but so what?

There are flying monsters and he has to walk to the assembly area. That is what a fool would do. He is not stupid, so why can't he make use of the things around him?

"Tsk tsk.

Seeing the guilty look on the man's face, the trio knew that they were right and had struck a chord in that man's mind.

"You are not very capable, but you are quite ferocious in your thoughts. Are you able to sit on our captain's flying monsters if you want? Do you think that everyone came to Haikuo Forest to travel?"

"We are here to practice, and we can get some good things while going out. With this idea in mind, we sat on the flying monster and arrived at the assembly area in a whoosh. What about the alchemy materials and medicinal materials? No need to collect them anymore. ?"

"I understand, you won't point and follow our Captain Lin and then pick up on us, right?"

"Well!"

Not only that team member, but also Captain Liu was embarrassed by the words of the three-man team.

Of course they had this idea in mind. It would be best to follow Lin Caisang and the others and get the most alchemy materials by just beating them.

And as for those medicinal materials, as long as Lin Caisang and the others can find them, they can also get a share of the pie and collect more.

Isn't this great? You can't even bother to get those things by yourself.

"No, no, Captain Lin, you misunderstood. I didn't mean that. It's just that we are no longer an alliance, so naturally we have to go together." Captain Liu saw that the situation was not good, and hurriedly stepped forward to say good things.

What if the two teams were having an unpleasant quarrel and Lin Caisang was not allowed to leave with them?

In the end, they won't get anything.

"My team members are also quite impatient. I don't mean any harm. Captain Lin, you can do whatever you want. It's just a small amount of time. It's just enough for everyone to look around and see if there are any medicinal materials that can be collected."

As he spoke, he winked at the team member and told him to stop talking.

When the team member received the look from his captain, what else could he say? He could only hold back his words, then turned around and went to do other things.

Everyone in Lin Caisang's team is really not easy to mess with.

That Yue Chu Shui looked young, but his spiritual power was stronger than any of them. Just being hit by him, the pain on his face was so painful that he almost fainted.

He had to take painkilling pills quickly, otherwise would he still need to look at this face?

Fortunately, he is a man, and it is okay to have a little swelling on his face. It will subside in a few days. If he were a woman, wouldn't he cry to death with his face swollen like this?

On this side, after Captain Liu drove away his team members, he said a few good words to Lin Caisang and the others.

As for how we will travel later, will we take a flying World of Warcraft?

Naturally, he couldn't talk about it anymore. If he didn't make Lin Caisang and the others unhappy anymore, they might have to part ways.

This was not what he had hoped for.

As for Sui Zimo and the others, they really didn't have the heart to care about Captain Liu and the others. His wife was hungry, so he naturally had to make something to eat quickly.

Just grilling meat is definitely not enough. We also need to cook some vegetables and make porridge.
