Chapter 2621 Eat your share

...

"How could they do this? If this continues, how much will it delay things?"

The people around Captain Liu looked at Sui Zimo making porridge there and felt really anxious and anxious, staring in that direction hatefully.

If their captain hadn't allowed it, they really wanted to have a fight with Sui Zimo and Lin Caisang. Couldn't they just make some food and hurry up?

If we continue at this rate, how long will it take to reach the assembly area?

"Okay, please stop saying a word!"

Captain Liu glanced coldly at Lin Caisang and the others, and then looked at his team members.

Do they think he feels better? Although forming an alliance with Lin Caisang and the others will bring a lot of benefits, they will also get a lot of anger, just like now.

Lin Caisang and the others completely ignored their feelings and did whatever they wanted.

"Captain, are you really just watching like this? Are those people too arrogant?" Lu Tianfeng's subordinates looked at Captain Liu and said.

Regardless of whether he wants to provoke something at this moment, Sui Zimo and Lin Caisang are indeed arrogant. There are so many people here, just waiting for the two of them, waiting for Sui Zimo to prepare a meal for his wife and eat it. Then get on your way.

This is not arrogance. If there is no one else in your eyes, what else could it be?

"So what if you are arrogant?"

Captain Liu glanced at him coldly and asked.

"They have such arrogant capital, what can we do? Really leave them separately? Huh, do you think this vast forest is your back garden? You can go wherever you want?"

Along the way, there are many high-level monsters. If we accidentally encounter one, with Captain Lin and the others, we can still have a fight. If there are only a few of us, we will wait to be eaten by the monsters! "

He looked at the faces of Lin Caisang and the others, and there was actually a reason why he was willing to follow them. If they really left, then the danger would be really close to them.

He didn't want to put himself in danger just because of his anger.

"Before arriving at the assembly area, I don't want to hear you say bad things about Captain Lin and the others anymore. If Captain Lin and the others are angered by then, don't blame me for not reminding you. You will be waiting to be attacked by the monsters in the sea forest. Let's share it and eat it!"

"hiss!"

The others gasped when they heard his words.

Indeed, the monsters they encountered before were not something they could fight, but Lin Caisang and the others were able to kill those monsters easily.

Of course, to say it was easy is an exaggeration, but it did take some time.

But it's always true that there is really no injury on someone's body, right?

This proves that he does have real abilities.

"Captain, do we have to wait like this?" someone asked.

"Wait what's wrong?"

Captain Liu frowned in displeasure and asked.

"It's just a matter of time to eat. How much time do you have? Instead of complaining here, you should go and see if there are any good medicinal materials nearby!"

He was indeed right. What's the use of staring at Lin Caisang and the others here?

No matter how much you stare at them, you can't give them the food you cooked for free. It's better to go to the nearby area to see if there are any medicinal materials, and if you collect them, you can still sell them for some money.

Chapter 2622 Incompetent people

After hearing the captain's words, the team members stopped talking and could only get up and go to find medicinal materials nearby.

To be honest, in the vast forest, where are there no medicinal materials?

It's just that they followed Lin Caisang's team and the alchemy materials they obtained were really good, so these medicinal materials were somewhat disdainful in their eyes.

Thinking of this, they suddenly felt that there would be no benefit in following Lin Caisang and the others.

Although there will be a delay in time, what we get is indeed the best, and it is definitely not comparable to other teams. Just like this, everyone's hearts are suddenly balanced.

Rather than just looking for medicinal materials and always being on guard against being attacked by monsters, it would be better to follow Lin Caisang and his team to get more alchemy materials.

...

On this side, the members of Captain Liu's team were not led astray by Lu Tianfeng and the others. On the other side, the five people who had just been rescued by Lin Caisang and the others were sitting aside. They had already been given medicine and were still alive. Meditating for healing.

"If Captain Lin hadn't helped us this time, we would have ended up here."

After a while, finally, several people opened their eyes and looked at each other, and then one of them spoke.

If Lin Caisang, Sui Zimo and the others hadn't arrived in time, they would have been trapped among the rocks. If only a few of these rocks were there, they would have been able to escape.

But this time the Warcraft promotion frenzy was too fierce. They were caught off guard, and there were so many falling rocks.

"Yes, Captain Lin is our great benefactor!" Another person also said.

"It's just a pity for Yifeng and the others. If they had been able to hold on a little longer, they might have been able to be saved." One of the women sighed softly and said.

The Yifeng and the other person she mentioned were the two members of their team who were killed.

Thinking of them and mentioning them, everyone's faces were not so good-looking, their hearts were heavy, and they always felt that the pressure of living was getting even greater.

"Captain, I see that Captain Liu and the others seem to have a strong opinion of Captain Lin." The man in gray looked at the woman and reminded her.

Captain Liu didn't show anything, but his team members were not so good-looking. They had already shown great dissatisfaction when they rescued them.

But just now, even if they were meditating, they could hear the noise outside.

Those people were actually accusing Captain Lin's husband of not stopping to cook for Captain Lin.

What a joke. If they don't want to wait, then they should leave first. It's as if someone is begging them to stay. It's clearly them who want to stay.

As a result, not wanting to waste time, he blamed Captain Lin for all the mistakes.

"People who have no ability are always like this." The woman glanced in the direction of Captain Liu and the others and said.

At this moment, only Captain Liu was left with Captain Liu and his friends. The others had already left to look for medicinal materials.

But she also heard what happened just now. Captain Liu and his team were really like a joke, and she didn't know what to say.

"How are your injuries? Can you still hold on?" She withdrew her gaze and asked the other men.

Chapter 2623 You have to rely on yourself

"Fortunately, we can still travel.

"As long as we don't encounter monsters, we can still hold on."

The two people said something respectively.

"That's good."

The woman nodded. As long as she could hold on, that would be fine, and she could breathe out a sigh of relief.

"Next, we have to follow Captain Lin and the others to the assembly area. We have to keep up with their speed and we can't hold them back."

"Know."

The other four people nodded, indicating that they understood.

They also came here through wind and waves, and encountered many things after entering the sea forest.

Naturally, you know that you will be safe if you follow people like them. You also know what kind of attitude you should have to face your benefactors. You will definitely not be like Captain Liu and others.

They are obviously relying on others all the way, but they still make themselves look so great, as if they want everyone to listen to them.

Such people will not be welcomed.

"I still have some dry food here. You all should eat some. Wait and see if you can hunt some meat." One of the men shared the dry food he had with everyone.

Except for some elixirs stored close to their bodies, all their dry food and other things had been dropped in the previous panic.

Next, when they eat, they can only watch one step at a time.

"Um."

The woman took the dry food from the man's hand and ate it in small bites.

...

"Brother, Chu Shui, share some of the things we have here with them." Lin Caisang looked at the injured people and ordered to his eldest brother and younger brother.

"Give them some?"

Lin Changhong tilted his head, looked at Sui Zimo, and asked for his opinion.

Of course, according to his wishes, it is better not to share food with others unless it is absolutely necessary, right?

After all, there are now four teams, and not everyone in the team is so easy to talk to. Yuan Jue and his team are easy to talk to, but Captain Liu and his team are really difficult to talk to. .

However, they had to let Captain Liu and the others follow, not for anything else but for Lu Tianfeng!

"No need, Sonny, let them figure it out on their own. In the vast forest, everyone has to rely on themselves." Sui Zimo glanced at Lin Changhong, then turned to Lin Caisang and said.

In the past, Captain Liu and the others were too talkative, which made those people feel that they could be bullied by those people.

Now, he felt that this wrong thought should be corrected.

"Sangsang..."

"Then let's go with Zimo's idea. I won't give it, but we can slow down the speed to the assembly area appropriately." Before Lin Changhong could say anything, Lin Caisang said again.

Hearing this, Lin Changhong twitched the corner of his mouth secretly.

If we slow down a little more, then Captain Liu and his team are still not allowed to jump up?

They just stopped to cook some food, and those people acted as if they had offended them.

However, that's okay. If they really can't wait any longer, then let them go first. At worst, even the leader will be replaced by Lu Tianfeng's people.

I originally thought about saving him, but now it seems that for such a self-aware person, it's okay not to save him.

"Okay, let's take it slow." He nodded.

"Sister Sangsang, brother-in-law, I'm going to take a look around." Yue Chushui said to the two of them and then left.

Chapter 2624 Really better than them

When Lin Changhong heard what he said and saw him leaving, he quickly followed him.

Go take a look, what can you see? Those medicinal materials, to be honest, after spending time in his sister's golden bead space, he really didn't like the medicinal materials outside.

But just take a look, maybe you will encounter something good?

In fact, Yue Chushui went to see if there were any medicinal materials nearby. He went to keep an eye on people.

Sure enough, when Lin Changhong left with Yue Chushui and came to a place overgrown with weeds, he saw Lu Tianfeng following a member of their own team and was about to take action.

"Chu Shui, Chu Shui, there is Star Grass here, come here quickly. 6"

When Lin Changhong saw this, he immediately glared. When he looked down, he saw a relatively rare Sky Star Grass and shouted out the next moment.

On the other side, Lu Tianfeng's hand that was about to make a move paused, and the cold light of the dagger hidden in his sleeve dimmed.

Turning his head, he glanced at the two people looming in the jungle.

"What a nuisance!"

He couldn't help but cursed secretly. He had just observed the surroundings and found no one. Why were these two people there suddenly?

Didn't these two people notice his actions just now?

Probably not. He shook his head, thinking that if they really found out, they would immediately come out to stop it and accuse him. How could they care about a star grass?

So, these two people came here by chance?

"Hey, isn't that someone from Captain Lin's team? Why are they here? The team member who was almost killed turned his head when he heard the sound and looked over. When he saw Lin Changhong and the two of them, he was slightly shocked. one time.

He also wanted to find a few Sky Star Grass plants, but unfortunately he never found them.

Unexpectedly, they were found by those two people. It seemed that the captain's decision was right. These people's luck was really better than them.

So there is nothing wrong with following them, and you can still get some benefit from it.

"Let's go over and take a look. Maybe there's some star grass nearby."

After he said something to Lu Tianfeng, he walked towards Lin Changhong and Yue Chushui.

"call!"

Seeing that the fat sheep he had obtained ran away like this, Lu Tianfeng exhaled heavily and almost died of anger.

But he had no choice but to follow along.

He hoped that his subordinates could gain something. Since Lin Caisang and the others were destined to arrive at the assembly point together, he could slowly change the people in the team and that would be fine.

However, he is destined to be disappointed.

Because Sui Zimo and Lin Caisang stopped, the trio also went to look for medicinal materials nearby.

And the direction they were going was exactly the direction that Lu Tianfeng's subordinates and another team member were going.

The five people were divided into two teams. Although they were looking for medicinal materials one behind the other, they could all see each other. How could Lu Tianfeng's subordinates have the chance to take action?

He really wanted to kill the trio, but unfortunately he couldn't!

"Damn it, these people are really the master's nemesis!"

Looking at the lamb within easy reach not far away, it was obvious that he could take it down with just a move of his hand.

But... there are three people watching, and he can't do anything at all. He really hates that the matter assigned by the master has to be done in his hands again.

Chapter 2625 Missing a lot of good things

It seems that we can only hope that the master can succeed.

...

More than half an hour later, two of Lu Tianfeng's subordinates and a trio of wallflowers came back first.

Sui Zimo and Lin Caisang also packed their belongings and were waiting for them, ready to set off. After a while, their subordinates saw their master, followed by Lin Changhong and others, all covered with sweat. The air conditioning is back.

"Master..."

When the two came together, the subordinate looked at Lu Tianfeng, and Lu Tianfeng also looked at the subordinate.

"My subordinates met Captain Lin and three people from his team here, so..."

He didn't even need to say the next words. Lu Tianfeng knew what it meant. He must have failed, right?

"It goes without saying.

When Lu Tianfeng heard his words, his already ugly face turned completely dark.

He also pointed out that his subordinates could accomplish something, but he didn't expect to be interrupted by someone from Lin Caisang's team. It was really annoying.

Lin Caisang and his team were born to defeat him, right?

"Wait until you find the right opportunity next time before taking action!" He took a deep breath again and ordered his subordinates.

"Yes, sir." The subordinate responded.

This is the only way to do it, but now that the four teams are all together, how can they do whatever they want?

It would probably be even more difficult to deal with the other people in the team.

What's more, we are not far from the assembly point. It would be okay if we continue walking on this road. But if Lin Caisang and the others want to use their flying monsters on a whim, then they really don't have time to do it.

He is worried.

But does Lu Tianfeng say he has no worries? He is even more worried!

But there was one thing that made Lu Tianfeng and the others heave a sigh of relief, because after everything was packed up, Lin Caisang and the others did not summon the flying monsters, but prepared to continue using their two Feet on the road.

This was quite satisfactory to them.

However, some people looked ugly. The other people in Captain Liu's team couldn't help themselves when they saw Lin Caisang and the others preparing to walk to the assembly area again.

"Captain, why don't you go talk to them..."

"Say what you say!"

Captain Liu glared at the person who made the suggestion and cursed.

Taking a flying World of Warcraft is certainly a good thing, as it saves a lot of energy, but along the way, you may also miss out on a lot of good things!

Therefore, he felt that it would be good to just walk all the way. At least he could pick up some mistakes from Lin Caisang and the others, which was a good thing that he had never encountered before.

"I think something went wrong with your flying mount, right? Do you think that flying monster belongs to your family? You can do whatever you want with it?"

Who has a contract with such a high-level flying monster beside them? Isn't it treated as a treasure and only used in the most critical moments?

These people are fine, but they still want Lin Caisang and others to carry them with flying monsters?

What a big face!

"I....."

The team member looked aggrieved by what Captain Liu said and wanted to refute.

"It's okay for us to walk to the assembly area like this. Otherwise, if we are encountered by others and see that we can actually ride flying mounts, I'm afraid they will have to think too much."

Lu Tianfeng said in a deep voice.

Chapter 2626 I'll poison you to silence!

"this....."

The other team members who wanted to speak closed their mouths after hearing these words.

There was nothing wrong with the other teams, but if Commander Lin saw it, he would probably exalt Lin Caisang's team and regard them as an affiliated team of Lin Caisang's team.

As for those good tasks, I'm afraid they will only be given to Lin Caisang and his team, and they don't even think about it.

After thinking about it, everyone immediately felt that there was nothing to lose by just walking over.

"That's it, there's no other good way." One of them said helplessly.

Lu Tianfeng felt so disappointed when he heard his tone, and sneered in his heart.

What other good ideas does he want to have? As long as we continue like this, none of these people will be left alive until we reach the assembly area!

He must find a way to kill these people and replace them with his own people!

Soon, everyone was ready and started to set off from the assembly area. The other five people who were rescued by Lin Caisang and the others also gritted their teeth and left together, but it would slow down the process to some extent.

This will cause dissatisfaction from other people.

"laugh."

Among Yuan Jue's team, Lingxue'er sneered slightly and looked at the five people with disdain.

"What the hell, walking so slowly, does it matter if you get injured? I don't know what's going on with those people. Why do they have to let those useless things follow them? They are just a bunch of broom stars!"

"you--"

A few people were walking near Lingxue'er, how could they not hear her loud words.

Immediately there was a man who was so angry that he almost attacked Lingxue'er.

"Hanzi, don't argue with her!"

The woman immediately spoke up and gave the man a hint.

They come to Haikuo Forest not to compete with others, but to collect medicinal materials. As for those who go out without any brains, just ignore them.

"Oh, you still want to argue with me, you have that ability... ah!"

Lingxue'er sneered and wanted to curse a few words to relieve her anger, because she had been angry in front of other people before, but now she finally found a good outlet. How could she let it go so easily?

But before she could finish her words, a slap flew in her face, almost knocking her unconscious.

Looking up, she looked at Yuan Jue who was glaring at her angrily. She knew without even thinking that it was Yuan Jue who hit her just now!

"You...you hit me again?"

"I'm going to beat you!"

Yuan Jue was almost pissed off by Ling Xueer and said in a hateful voice.

She has already lost one eye and still doesn't know how to restrain herself. Does she really not know how to write the word 'death'?

Or does she have to make herself die in the vast forest before she can feel comfortable?

"If you dare to talk nonsense again, I will personally ask Captain Lin for a poison to kill you! This way I can eliminate your mouth that can only cause trouble, and save you the ability to speak well!"

He threatened Lingxueer fiercely.

"you--"

Lingxueer opened her mouth, not knowing what to say. She was also frightened by Yuan Jue's words.

She could feel that as long as she dared to say anything again, Yuan Jue would really do something like that. She didn't want to be speechless again.

"Yuan Jue, you're doing well!"

She had been so frustrated these days, Yuan Jue didn't even think of saying a few nice words to her, but actually threatened her like this!

Chapter 2627 No one is stopping you!

"Obviously they were the ones who were taking their time on the road, so why should I be blamed? Are you still a man?!"

Everyone: "..."

Does this matter have anything to do with whether Captain Yuan is a man?

Is it possible that because you are a woman, every man has to give in to you and make you happy?

"Lingxue'er, when we were injured before, we were dawdling like this. Why didn't you talk about yourself? You have to think about others, not just your own feelings.

The people in Yuan Jue's team spoke to Lingxue'er with sincerity.

But he also knew that no matter what he said, Lingxue'er wouldn't listen. How could he possibly reason with a woman who only had eyes for him?

What he said was purely for others to hear, so that everyone would know that among their team, only Lingxue'er was mentally retarded, and the others were all normal people.

"Did I talk to you? Why did you interrupt me? What the hell!"

Lingxue'er was angry at the moment. Someone came to her door to scold him. How could she let him go? She immediately glared at the man fiercely and cursed.

"Lingxue'er!"

Yuan Jue was really angry with her.

"When we get to the assembly area, I will explain the situation to Commander Lin and send you out of the sea forest. You don't have to stay in this place anymore!"

If he continues like this, he will be angry with Lingxue'er as soon as possible, not to mention that in just a few days, Lingxue'er has already offended everyone around him.

He thought it was safest to let Lingxue'er leave this place.

It is safe for Lingxue'er herself and others.

"What?!"

Hearing his words, Lingxue'er's eyes suddenly widened.

She just scolded those people a few words, what's so big about it?

She often does this when she is outside. As long as she doesn't like people, scolding them is still a light thing and nothing will happen.

Why can't it work here, at Yuan Jue's place?

Why?

"You... you can't do this. You don't have the right. I... I just want to rush to the assembly point. What's wrong?"

"If you want to get to the assembly point as quickly as possible, you have to walk more quickly. In the whole team, you are the only one who is slowing down the most!" The trio of grasshoppers came over, looked at her mockingly, and said.

Yes, this woman knows how to cause trouble, and no one in heaven or earth knows what she wants to do.

Look at now, so many people have stopped because she is alone, but she still has the nerve to say that she wants to rush to the assembly point?

Screw her, it's only the others who believe her who are evil.

"You don't want to rush to the assembly area earlier. You are obviously owed. You feel that others owe you, and you shouldn't fight back no matter how much you beat or scold them, right? How can a person like you have the face to face us? Where's the team?"

"If you really want to go to the assembly area, then go by yourself, no one will stop you!"

"You, you..."

Listening to the words of the trio, Lingxueer was about to cry.

She was scolding the other five people. What does it have to do with these people? She had already tried not to provoke the people in Lin Caisang's group, so why did she still come to bully her?

"This is a matter between me and them. What does it have to do with you? Do you need to be so nosy?"

Chapter 2628 This is too much!

"Why doesn't it matter? We are all in this together. When they are injured, we should take care of them more. How can there be someone like you? Seeing that someone is injured and can't walk fast, you don't know how to help, but instead add insult to injury?"

"If everyone had the same thoughts as you, who would save others? You can just let others die, so you don't have to drag yourself down! Maybe when you see others dying, you can step forward and step on them. Is this what you think?"

Why did our captain save you out of kindness in the first place? People like you should be eaten by monsters, so that the world will be peaceful, so I shouldn't save you! "

"You yourself were rescued by our captain, and you still have the nerve to tell others that you were walking so slowly back then, like a turtle crawling, even slower than them!

Now you are blaming others for walking slowly, why don't you think about you back then? Oh, by the way, do you want to say that in the final analysis, our captain can only be blamed? Why was he so kind to save you?

As a result, not only did there not be any words of gratitude, but it was also a bad thing. People like you are really short-sighted. Haven't you seen that everyone doesn't want to see you?

You actually have the nerve to dislike others here? If others don't dislike you, it's already good, so it's time for you to burn incense! "

The trio of wallflowers continued to bombard Lingxueer.

Lin Caisang and the others happened to stop and watched the commotion.

They are all used to it. If Lingxueer doesn't cause trouble for a day, everyone feels that something will be missing, and they will wait for Lingxueer to cause some trouble.

The main thing is that it's too pretentious!

Listening to the powerful words of the trio, Lin Caisang couldn't help but give them a thumbs up.

These words really spoke to her heart.

In fact, she also wanted to say something, but now she has to act like the captain after all. She can't argue with a team member, and it's not her own team member, but someone else's!

"You, you..."

Lingxue'er was so angry that her whole body was shaking, and for a moment, she couldn't even speak in response.

After being reminded by the trio, she also successfully noticed the looks others cast on her. Although some people looked away when they saw her, there were still a few people looking at her with contempt. He was looking after her, and he didn't know how to avoid it at all.

"What are you looking at? What's there to see?"

She yelled at those people, her chest almost bursting with anger.

She didn't believe it. Was she the only one who thought those people were a burden? Surely others think so too?

But no one else said anything, she was the only one who showed her dissatisfaction stupidly, that's all.

"Don't think that I don't know. You think so in your hearts. You..."

"Keep on going. Some people don't want to leave, so let her stay here alone while the others follow."

Before Lingxue'er finished speaking, Lin Caisang spoke, directly interrupted Lingxue'er's words, and then urged everyone to hurry up. After all, they had indeed been delayed a lot after this journey.

After hearing her words, Lingxue'er looked at her with her mouth slightly open.

"you--"

"You, you, you are the only one who has a lot of things to do along the way. If you want to save some face, don't do anything else!" Lin Caisang also glared at Lingxue'er.

Chapter 2629 My surname is not Ling!

After saying that, she followed Sui Zimo and turned around and left.

Lin Changhong and Yue Chushui also followed. Seeing that the captain and the others were gone, the trio stopped paying attention to Ling Xueer and followed quickly.

The five people who were finally rescued did not say anything to Ling Xueer and the others, but continued to move forward with Lin Caisang and the others.

"Hey, some people just like to show their faces in front of others, but she doesn't know that this appearance is particularly disgusting!" One of the people in Captain Liu's team said quietly when he passed by Lingxue'er. Said something.

Then he sneered and continued walking forward.

"You... you..."

Lingxue'er's lips trembled, and her remaining eye looked at the retreating figures of those people. She raised her hand and really wanted to shoot them all into the ground.

It's a pity that she doesn't have that ability yet. It really makes her mad.

"What are you still doing? Do you think you are not embarrassed enough?"

Yuan Jue glanced at Lingxue'er coldly, and then glanced at the others in his team.

"Everyone, follow up and try to get to the assembly point as early as possible. As for you, if you don't want to leave, just stay here. No one will stop you!"

He said something sternly to Lingxue'er, then turned around and left. The others followed, without looking at Lingxue'er again.

"you....."

Seeing that she was the only one left in this place, Lingxueer was really dumbfounded.

Did she say something wrong again? Those few people were just a burden saved by Lin Caisang and the others. What's so great about it that everyone can talk to them?

Moreover, they were walking so slowly. She was not the only one who felt that way. Captain Liu and others also felt the same way!

"It's all your fault. If you hadn't saved them, why would there be so many things happening!"

She blamed all the faults on Lin Caisang. If she hadn't rescued those burdensome people, they would have been able to go quickly. There was no need to be so fast.

Moreover, the people in Captain Liu's team were right. Lin Caisang and the others clearly had flying monsters, but they didn't use them and had to use their feet to walk.

Those people were simply sick. Being with such people would be the unlucky thing she would suffer for eight lifetimes!

"Wait, if I don't kill you, I won't be named Ling!"

She has plenty of time, and she will definitely take revenge this time. That Lin Caisang is always against her, how can she make her live so comfortably?

We must find a way to kill that troublesome woman Lin Caisang!

After a while, she realized that everyone else had really left, and no one was left waiting for her.

There was a feeling of fear in her heart, she hugged her arms with both hands, and quickly followed him.

...

The original plan was to eliminate the people in the team one by one on the way to the assembly area.

But along the way, Lu Tianfeng didn't even get a chance, because no matter where he and his subordinates went, they would meet people from Lin Caisang's team.

This gave him a huge headache, and he secretly scolded Lin Caisang and the others countless times.

But no matter how much they scolded, it was of no use. Two days later, the group successfully arrived at the assembly point. The injuries of the five people rescued by Lin Caisang and the others were more than half healed.

Chapter 2630 Men, no one is good

When they arrived at the assembly area, there were many people there who had just arrived.

Unlike Lin Caisang and others in the team, the people in the other teams had suffered some losses, and many were injured. Some were sitting on the ground and wailing.

"It seems that we are not the only ones in such misery!"

The female captain of the five-person team looked at the other teams and smiled bitterly.

Compared with those who were miserable, their team was relatively good. They were able to be saved when they met Lin Caisang and others, but some others suffered too much losses.

"We must have met the promoted monster." One of the team members replied.

The formation set up by the advanced Warcraft was not just a small area, but many places were involved. He looked at the injuries of other people, and there were several members of the team who were injured by smashing.

Probably the same as them.

"Captain, later we will see which team has fewer people, why not form a team with them?" the man suggested.

Hearing this, the female captain glanced sideways in the direction of Lin Caisang and Sui Zimo.

According to her intention, she wanted to form an alliance with Lin Caisang and the others. After all, Lin Caisang and the others' strength was there.

But she is also aware of their own strength. They have no skills themselves, and many of the pills and other things they carry are no longer there. How can a team like them compete with such a strong team? What about the Alliance?

She still has this little bit of self-awareness.

"Okay, let's take a look first."

She nodded and turned towards the side where many people gathered.

Over there was the tent set up by the City Lord's Mansion. The man inside was Lin Baizhong, and outside, there were many guards from the City Lord's Mansion guarding it.

When they got closer, they heard a very familiar voice, that was Yuan Jue.

"Commander Lin, as the captain of our team, I hope to send Miss Lingxue'er out of Haikuo Forest. I think she is not suitable to stay in Haikuo Forest."

He said sincerely to Lin Baizhong.

He came to Haikuo Forest to collect materials for refining medicine and alchemy, not to treat Ling Xueer, the daughter of a daughter who was always angry and causing trouble, as both father and mother.

However, Ling Xueer on the side became furious after hearing Yuan Jue's words.

"Why, why should I leave Haikuo Forest, Yuan Jue, don't think that just because you are the captain, you can decide whether I stay or go. Who do you think you are?"

You men don't have any good things, you like the new and dislike the old. Aren't you just attracted to that woman named Lin? She is already pregnant with another man's child, and you still think she is a fairy?

She is just a despicable thing. Yuan Jue, you have to think clearly. Our Ling family and your Yuan family are the right match. That woman named Lin is nothing! "

After hearing her words, not only Yuan Jue, but also Lin Baizhong, who was sitting in the first place, frowned.

Could it be that the woman surnamed Lin in this woman's mouth was his precious daughter?

The only person who came to this vast forest was his precious daughter. She was pregnant, right?

But, why didn't the matter between this couple involve his precious daughter?

Looking up, he was about to speak and ask Yuan Jue what was going on, but he heard Yuan Jue speak to him first.
