

## Star of Space 2661

Chapter 2661 The road faces the sky

"Anyway, we have decided to enter this hell mode. What you want to do has nothing to do with us!"  
After Lin Changhong said the last words, he no longer wanted to look at them.

These people, if it weren't for Lu Tianfeng in their team, he wouldn't even bother to pay attention to them!

Do you really think you are a dish?

"No, Mr. Lin, that's not what you said. We came together, so naturally we have to be together..."

Hearing the implication of Lin Changhong's words that he was ready to part ways with them, Captain Liu suddenly panicked and hurriedly spoke out, but he was not given a chance to say anything.

"Captain Liu, maybe I was too talkative before, but there is one thing I never had time to say to you." Lin Caisang looked at Captain Liu coldly.

"This...Captain Lin, you...please tell me." Captain Liu twitched the corner of his mouth suddenly.

His intuition told him that what Lin Caisang wanted to say was definitely not a good thing, but he couldn't stop Lin Caisang from talking.

"Although Captain Liu's team has been following my team and Captain Yuan's team, they are not the same team after all, and I never asked Captain Liu and his team to go with them at the assembly area.

Therefore, I hope that Captain Liu will clearly distinguish the boundaries between my team and your team in the next step, and don't casually accuse people in my team of what they want to do.

After all, even if the people in my team break the sky, they have nothing to do with Captain Liu.

"Well!"

Captain Liu was choked again.

He wanted to refute, wanted to say that they had come all the way, so of course they were traveling together.

But after the members of his team criticized Lin Caisang, how could he have the nerve to say this.

He could only turn his head secretly and glare at the team members who specifically caused trouble for him. If they wanted to choose another path, they should not speak so unpleasantly!

When several people saw the captain's glare directed at them, they immediately took another step back, lowered their heads and did not dare to speak any more.

"Captain Lin, we all came here together, so naturally we have to..."

"There's nothing I want, so what if we come together?" Yue Chushui looked at Captain Liu with a cold voice.

"The road is in the sky. We can't control where Captain Liu and you are going. Naturally, you don't have the ability to interfere in our affairs. Captain Liu, you still have to be self-aware!"

"I....."

Captain Liu wanted to ask, why doesn't he know himself?

He knew that Lin Caisang and the others did not want to buy him. He had tried his best not to show his face in front of her in the past two days. What else did he want?

It's just that before, because I couldn't find Kusi Tower, I made a sarcastic comment to Lin Caisang.

But what's the point?

"Captain Lin, we..."

"Captain Yuan, let's sit down next to him and discuss how to go next."

Seeing that Captain Liu wanted to say something to him, Lin Caisang obviously didn't give him this chance anymore. He turned to Yuan Jue and spoke to him.

"good."

Yuan Jue naturally responded.

Now that the entrance to Kusi Tower has been found, they are no longer in a hurry.

The key thing is that before entering the Kusi Tower, they need to prepare some more things.

Previously, they thought that Kusi Tower was a place to store treasures or ancient books, and that it would not be very dangerous, so they did not prepare too many things.

Chapter 2662: Taking advantage of others

But now it seems that it is obviously not the case.

The place to practice is a place that can be encountered but cannot be sought. What's more, they also encountered a hell cultivation mode.

As the young master of the Yuan family, he did not want to miss such a great opportunity because of his timidity.

Therefore, no matter how terrifying this hell mode is, he still wants to try it.

"You... you..."

Seeing Yuan Jue and Lin Caisang leading their teams away from the land of spiritual phantoms and sitting aside to discuss, Captain Liu was almost offended by their attitude of not taking him seriously. I have to vomit blood.

But who could he blame? I can only blame the members of my team for being so short-sighted.

"Why are you arguing with that woman when you have nothing to do? Look at the good things you have done!"

Unable to vent his anger with Lin Caisang and the others, he could only turn his head to look at his team members and curse at them.

The team members also knew at this moment that they had been left out by Lin Caisang and Yuan Jue. They had known before that Lin Caisang and the others were much more powerful than them.

As for Yuan Jue's team, although they only have six people, if we really count them in terms of strength, they are much better than them.

If they are really left behind by those two teams, it will definitely not be a good situation.

"Captain, they want to break into hell mode. What's wrong with us saying a few words? God knows how difficult it is to break into hell mode!" One of the team members mumbled to Captain Liu.

Everyone on Qianhuan Continent doesn't know that hell mode is the most difficult to break into, and even very powerful people are not very good at choosing it.

But if Lin Caisang and the others want to choose hell mode, they will definitely not be able to agree.

"That's right, captain, hell mode must be very difficult. If it doesn't work at all by then, wouldn't we all have to stay in it?" Another person saw his companion talking and said something himself.

Naturally, he doesn't want to enter the hell mode. According to his level, it is enough to enter the simple mode. If he returns to the hell mode, he wants to kill him.

"Shut up, isn't it troublesome enough?"

Captain Liu roared at them, almost vomiting a mouthful of blood from these people.

"You don't care what mode he enters. With those people here, do you need to take action? Can't we just follow them?"

He thought very well, even if he entered the hell cultivation mode, so what?

As long as Lin Caisang and the others are here, the people in my team will always just have to pick up the slack behind their backs. It will save trouble!

but now.....

Lin Caisang obviously wanted to leave them alone!

He didn't even know how to persuade Lin Caisang and the others to take them into Kusi Tower.

"Captain, the training in Kusi Building should be individual training, right? It's not for the entire team." Lu Tianfeng, who had been silent, finally spoke up and reminded Captain Liu.

It's not always possible to get the light of others. Can you still rely on others to cultivate something like this?

"I....."

Captain Liu was choked by his words and could only take a deep breath.

"Captain, why don't we find a place to discuss what to do." Seeing that he was speechless, Lu Tianfeng continued to suggest.

Chapter 2663 Let's live in poverty

"That's fine.

Captain Liu nodded, turned around, looked at Lin Caisang, Yuan Jue and the others, and gritted his teeth.

"We're going over too, we all came together, why do you want to throw us away?"

They didn't want him to follow them so much, so he still had to follow them. Don't you believe that he would really be trapped in this Kusi Building and unable to get out?

"well."

Several people responded one after another and followed Captain Liu towards Lin Caisang and the others.

When they sensed someone approaching, none of Lin Caisang and the others raised their heads to look at them, and they continued to discuss.

"Yuan Jue, how do you think we should divide it?"

Lin Caisang raised his head, looked at Yuan Jue, and asked.

She had already explained to them the situation in Kusilou.

"Let me think."

Yuan Jue couldn't explain it all at once, so he gritted his teeth, looked at her and Sui Zimo, and said something.

"good."

Lin Caisang nodded.

"Then take your own team and discuss it first."

"Um."

Yuan Jue nodded, stood up, and wanted to leave with his team members to discuss on the other side.

Just as he stood up, he heard the voice from Sui Zimo.

"Yuan Jue, if you are not in the same team, you have to be in the same mode. Whatever your abilities are, you can practice in which mode."

Hearing this, Yuan Jue turned to look at him and nodded seriously.

He naturally knows this. Even though he is the captain, he cannot decide their path for others.

Moreover, he is the one who wants to enter the hell mode. He can't drag others with him to enter the hell mode, right? Let everyone choose their own.

He took a deep breath and left with the others.

Captain Liu who just came over: "..."

Those people behind Captain Liu: "..."

They just came over and haven't heard anything yet. Yuan Jue and the others just left. What do you mean?

"Captain Lin, I thought about it and decided to go with you..."

"Captain, I think it's better for the three of us to go to Kuju. Neither Siju nor Guju are suitable for us." Before Captain Liu could finish speaking, he heard a comment from one of the trio. sound.

They are very clear about their positioning.

Before, they thought they could enter the Skull House together because they thought everyone in the Kusi Building was one. Now that everyone is an independent individual, they have to reposition themselves.

Siju requires meditation, but it will definitely not be as simple as just meditating. There must be some big mystery.

With their brains, they may not have the ability to understand, so living in a humble position is the most suitable for them. Following Lin Caisang and the others these days, their combat effectiveness has increased a lot.

"Yes, captain, let's go to Kuju." The other two people also agreed.

"Well."

Lin Caisang had nothing to object to what they said.

"You don't have to be impatient to enter the abode. We will all gather outside in the end."

"Uh-huh."

The trio of wallflowers nodded sharply.

Captain Liu and his team: "..."

They just stood there for a short while. Did they miss something important?

"Captain Lin, you..."

"Captain Liu, you are here too, so I will tell you briefly." Lin Caisang raised his head and looked at them as if he had just seen Captain Liu and his group.

Chapter 2664 Vomiting to Death

Captain Liu and others: "..."

They've been standing here for a long time, okay?

Although they all said that, facing Lin Caisang, they really didn't dare to say such things now.

What if I make this woman unhappy and stop telling them about the situation in Kusi Building?

"Captain Lin, say it, say it."

Captain Liu responded with a smile on his face.

"Kusilou..."

"Sangsang, what do you have to say to them?"

Before Lin Caisang could speak, Lin Changhong was beside him and glared at Captain Liu coldly.

"Don't they want to find it by themselves? Then let them go by themselves. Oh, we saw that we found the mechanism of Kusi Tower, and then we found it again? Captain Liu, I remember those team members of yours before, but That's not what you said."

"Well!"

Captain Liu choked hard at Lin Changhong's words.

He took a deep breath and really wanted to curse those unsatisfactory things to death.

Why can't you bear your anger for a while and not go against Lin Caisang and the others? Even though Lin Caisang is easy to talk to, it doesn't mean that everyone around her is easy to talk to.

What's more, Lin Caisang is not an easy person to talk to.

"Master Lin, my team members are also anxious for a moment. I have already scolded them severely just now. There are many of you, so I hope you don't get to know them."

In order to know how to enter Kusi Tower, he could only apologize to Lin Changhong in a low voice.

Originally, he thought that if he found the mechanism of Kusi Tower first, he would be able to feel proud in front of Lin Caisang and the others. Little did he know that all this was just a beautiful dream he had.

He was also angry and felt like he was vomiting to death, but if he got angry and felt like he was vomiting to death, what would he do?

"Is it okay if you scold them?"

Look, Lin Changhong is still there, unwilling to let go. What can he do?

Captain Liu turned his head, looked at his team members, and glared at them again.

"You guys, why don't you come here quickly and apologize to Captain Lin!"

"Yes Yes."

Several team members also knew that if it weren't for Lin Caisang, they probably wouldn't be able to enter Kusi Tower.

Even if he went in, he would be trapped inside, so he had to respond repeatedly and come over to apologize to Lin Caisang. Everything was for the sake of getting good things, maybe to improve his spiritual power to a higher level.

"Captain Lin, what happened before..."

"There's no need to apologize. Brother, don't say any more."

Lin Caisang didn't bother to listen to their hypocritical apology. He just wanted to finish it quickly and then prepare his things and go into the Kusi Building.

"Is there any of these? What can I say to them? I'm not that inexperienced. I will care about trivial matters with people I don't know well. As a human being, you have to correct your attitude and understand. What is your identity, isn't it? "

"puff!"

This time, Lin Changhong really burst out laughing.

This was said as if Captain Liu and the others had been unreasonable and troublesome before.

Although they are indeed too arrogant, they can't say it so openly in front of them. Look...

Sure enough, none of Captain Liu's people looked good, including Lu Tianfeng and his subordinate Zhe Feng, whose faces were so ugly that he suspected that they almost wanted to kill someone.

Chapter 2665 Two words, Guju!

"Okay, okay, whatever my sister says is right, then let's go and rest, and leave the matters to them to me.

He responded repeatedly and took the initiative to take over what he had to explain to Captain Liu and the others, so that his sister would not waste any time talking to these people.

"Captain Lin..."

Captain Liu opened his mouth and wanted to tell Lin Caisang that he hoped to listen to what she told him.

But as he spoke, he felt an unkind gaze cast directly over him. He was startled, and suddenly looked up, and happened to see Sui Zimo next to Lin Caisang.

The man's eyes were dark, as if if he dared to say one more word, he would slap him with a palm.

How dare he say anything like this, so he had to shut up.

"Then I'll trouble Mr. Lin."

He changed his words and turned to look at Lin Changhong with concern.

What else could he do? Everything was messed up by those useless people behind him!

"Easy to say, easy to say."

Lin Changhong raised his eyebrows and began to explain the so-called Kusi Tower to Captain Liu and his party.

...

After more than an hour, everything that everyone should prepare was ready.

The three teams were also redistributed.

Among Lin Caisang's team, the trio of wallflowers are going to live in poverty, while the rest are going to live in Guangzhou.

Among Yuan Jue's team, Yuan Jue naturally wants to go to Guju. There is another team member in his team, the woman, who also wants to go to Guju, and the other two want to live in poverty. There are two more people who want to stay in Siju.

As for the people in Captain Liu's team, Lu Tianfeng and Zhefeng, there is no need to think about it, they must be going to Guju.

As for Captain Liu himself, he wanted to follow Lin Caisang and the others, but when he thought that Kusi Tower was based on personal cultivation, he backed down and chose Siju.

Thinking about his future talents, Siju is the best place, the place where he can get twice the result with half the effort.

Of the other four people in his team, two went to Siju and two to Kuju.

Therefore, seven people want to enter the abode of suffering, five people want to enter the abode, and eight people want to enter the abode of Calvary.

"Everyone, please prepare yourself and prepare to enter the Kusi Tower." Yuan Jing ordered the people in his team.

They entered the Skull Residence, so they were the last ones. Let the Kuju and Siju people go in first. The seven of them, the three people on the wall, were the first to go in, and the others retreated to a safe distance.

When a ray of spiritual power hit the word "suffering", the phantom of spiritual power immediately appeared, and everyone was sucked into the word "suffering" without even thinking about it.

Next is Siju, and finally we get to Calvary.

When everyone closed their eyes and opened them again, they were already in a very empty place.

And on the open space, there was only a monument with two words engraved on it, "Skull Residence!"

"Will this be another test?"

The woman in Yuan Jue's team looked at everyone and asked.

Doesn't it mean that this is a hell cultivation mode? How come there is only one monument and nothing else? This is definitely not normal.

After hearing her words, others shook their heads, saying that they didn't know.

Just when they were extremely confused, Lin Caisang and Sui Zimo had already squatted down, and they began to study the flowers and plants on the ground.

Seeing this, Lin Changhong and Yue Chushui also knelt down to take a look.

Chapter 2666 Hear my voice

The two of them were not alchemists, but they could still guess what Lin Caisang was paying attention to. After all, they were their relatives, and they would know a little bit about what they were doing.

"I'm sorry to tell you, it's not."

After a while, Lin Caisang raised his head and looked at them.

"What did you say? You should speak out, Captain Lin." Yuan Jue looked at her red lips opening and closing, but heard no sound, so he couldn't help but remind her.

Lin Caisang: "..."

She obviously spoke very loudly, and she could hear her own voice, okay?

The most important thing is that she could hear Yuan Jue's voice just now. How come they couldn't hear what she said when she was here? What's going on?

Turning her head, she looked at Sui Zimo, only to see that he was actually talking to her.

But she didn't hear a sound just now, and even now, she didn't hear her husband make a sound.

"Zimo, I can't hear what you said."

She shook her head at Sui Zimo, then raised her finger and pointed at her ears.

Sui Zimo, however, just stretched out two hands, one handed to her, and the other to Lin Changhong and Yue Chushui.

Seeing this, Lin Caisang immediately held his hand.

Lin Changhong and Yue Chushui were also very smart and immediately held Sui Zimo's hand.

Yue Chushui reached out to Yuan Jue and the others, preparing to hold hands together in case special circumstances occurred.

However, something even stranger happened. After they saw Yuan Jue holding hands with his team members, no matter how hard he stretched out his other hand to grab Yue Chushui's hand, he couldn't get it.

Their hands are like the moon in the water, always missing each other.

"There's something weird about this place!"

Almost at the same time, everyone knew that this place was not as simple as they seemed on the surface.

They were obviously in the same space, but they couldn't touch each other.

But what makes Lin Caisang and the others even more strange is why Yuan Jue can hold hands with his team members but not with them, but the four of them in the team can hold hands together?

Moreover, when Lu Tianfeng and Zhefeng sensed that something was wrong, they also held each other's hands, and they could hold them.

"It's really weird. We can't hear their voices, and they can't hear our voices." Lu Tianfeng heard his subordinates' voices and spoke to him.

"How could this happen? Master, then we..." Zhe Feng was shocked and didn't understand what was going on.

Just as he was about to say something, he was glared at by his master, and then he thought that he could still hear the voices of Yuan Jue and the others before.

"Captain Yuan, can you hear my voice?"

He immediately turned his head and shouted towards Yuan Jue and the others, wanting to test whether they heard him calling Master Lu Tianfeng.

When she heard that the woman beside Yuan Jue was about to reply, she felt her hand tightened by Yuan Jue. She was stunned, looked up at Yuan Jue, and saw him standing beside Lu Tianfeng. He winked at her from an angle they couldn't see.

She was not a fool, she understood immediately.

Just now when she heard Zhe Feng calling Lu Tianfeng master, she had already thought that something was wrong.

Chapter 2667 Don't give anyone a chance to cheat

Now it seems that this couple is not ordinary people, and their purpose of coming to Haikuomu is different from theirs.

So, she immediately pretended not to hear Zhefeng's voice, and then stopped herself from making any sound, but her mouth opened and closed, pretending to talk to Yuan Jue.

Seeing them like this, Zhefeng let out a sigh of relief and turned to look at his master.

"Master, they can't hear our voices either. It seems that this Louju is really divided according to our team." He said to Lu Tianfeng.

"Yeah."

Lu Tianfeng had a gloomy face, and did not doubt Yuan Jue and the others. He lowered his head and began to think of a way.

Originally, I wanted to rely on Lin Caisang and the others to save some effort, but I didn't expect that I couldn't rely on them. It seems that everything can only rely on themselves.

As for Yuan Jue and the other two, he didn't expect to rely on them, so naturally he didn't care too much about them. It was a coincidence that they escaped like this.

"Captain, those two people are not simple."

When they walked far away, the woman lowered her voice and said to her captain.

"Be careful next time. If I'm not mistaken, the reason why we can't hear Captain Lin and the others' voices is because they know the secrets here, and they have to rely on themselves at every level, so they are no longer allowed to speak." Yuan Jue also lowered his voice and told the woman. He could understand some lip readings, and could see that Lin Caisang had just said to Sui Zimo, which was 'I can't hear what you said.' Therefore, he was sure that it was Lin Caisang and the other four who couldn't hear each other's voices. "Yeah." The woman responded lightly, took out a handkerchief, and tied their hands tightly together. "Captain, let's tie them together, just in case." "Okay." Yuan Jue naturally agreed, and then the two of them squatted down like Lin Caisang and the others before, ready to see if there was anything special about the flowers and plants on the ground. And Yuan Jue was right, even if Lin Caisang and the others held each other's hands, they couldn't hear each other's voices. But in the hearts of several people, they had already figured out what was going on. "Here." Sui Zimo took Lin Caisang's hand and pointed his index finger at the flowers and plants on the ground. Lin Caisang and the others nodded immediately. It must be related to these flowers and plants. They just thought of these flowers and plants, and they didn't think of deeper things. There was no sound of talking. "This place is cruel enough. It doesn't even give people a chance to cheat!" Lin Changhong's mouth opened and closed, complaining about the weirdness of this skull residence. He hasn't thought of anything else yet. What if he is stupid and can't think of deeper things? Wouldn't it be the end? "Hey, what's so strange about these flowers and plants? They are not poisonous. Could it be that they can turn into a monster and let us challenge them?" He could hear his own voice, muttering there. Little did he know that when he raised his head after he finished speaking, his sister and the others were nowhere to be found. His hands were empty, and the only thing left was...

"Wow, you want to kill me? Such a big monster, could it really be transformed from those flowers and plants? Wow, I'm running!"

Chapter 2668 Poison? Not poison.

Seeing the monster attacking him there, he immediately turned around and ran away.

On the other side, Sui Zimo and Yue Chushui were stunned for a moment at the same time. They looked at the person who should have been beside them and turned into air. Then they turned their heads and looked at Lin Caisang.

In the blink of an eye, the person disappeared?

"This wild flower here is gone."

Lin Caisang knew that they couldn't hear him, so he pointed to a place in front of Lin Changhong with his free hand.

She really saw that there was a wild flower there that disappeared along with everyone in her family.

"Zimo, these flowers are phantoms. They will change into whatever you want them to do. Even if you make them turn into a bunch of white rabbits, they will... ugh!"

Before she could finish speaking, Sui Zimo and Yue Chushui were no longer around.

She looked at the ground with black lines on her head. At this moment, dozens of white rabbits were surrounding her, grazing with their heads down.

It turns out that this level is really like this. Does that mean it's enough to solve these white rabbits? Even if she has passed this level?

Sui Zimo and Yue Chushui looked at the two disappeared people and looked at each other.

Then soon, they also disappeared in front of others.

"Master, they are gone."

When Zhefeng saw Sui Zimo and the four of them disappearing one after another, he suddenly became anxious. He glanced sideways at his master and reminded him.

"It seems they have found the entrance to the first level."

Hearing this, Lu Tianfeng just glared at his subordinate coldly. He had eyes, couldn't he see for himself?

"Stop talking nonsense and keep looking!"

"Yes, Master."

Zhe Feng also knew that he had angered his master, so he could only lower his head and respond softly.

After a while, he raised his head and looked at the other two people, Yuan Jue and his team members, and saw that they were also squatting on the ground, wondering what they were thinking.

After a while, he was surprised to find that Yuan Jue's figure disappeared right in front of his eyes.

But the hands of the two people were obviously tied together with a veil. Even if they were missing, shouldn't they both be missing? Surprisingly, only Yuan Jue was missing, but the woman was still where she was.

When the woman saw that Yuan Jue was gone, she didn't panic. She just raised her head and glanced at the place where Yuan Jue was squatting before, and then continued to look down at the flowers and plants.

"Master, is there something wrong with these flowers and plants?"

He also glanced at his master, and then looked at the small flowers and grass on the ground. There were still many flowers and grass under his feet at the moment?

Lu Tianfeng just raised his eyes and stared deeply at his subordinate.

There was no need to think about it, it must be the problem with the flowers and plants, because he could no longer hear what his subordinates were saying.

It can be seen that anyone with a little knowledge will have his or her voice blocked.

He also squatted down and began to study the flowers and plants on the ground carefully, but he had not thought for a moment, what could these flowers and plants contain?

poison?

Not poison.

medicine?

What's the use of medicine?

So it's still in another direction, but what could it be? treasure? Could it be that after picking them, you can get treasures?

He raised his head and glanced in the direction of the woman. At this glance, he was shocked.

Because that woman had already disappeared in front of him, leaving only...

Chapter 2669 Dig a hole and bury it

Before he could finish the thoughts in his mind, he felt that his eyes were becoming extraordinarily bright. His heart suddenly sank because he found that his subordinates were also gone.

Seeing this, he immediately understood.

It seems that these flowers and plants are really good things. Can they bring people into a fantasy world?

"It seems that it is really related to these. If that is the case, that would be great."

He never knew what it was that he wanted to get. If these flowers and plants could become whatever he wanted, then he would know where the thing he wanted to get was.

Even if you don't know where it is, at least you know what that thing looks like.

The person who mentioned to him that he wanted to get that thing didn't know who he was or where he lived. If possible, he must find out where that person was from!

"Not bad, very... uh!"

Before he finished speaking, he felt his body move.

The next moment, he was no longer where he was, but in a different environment.

And the environment he was in was actually filled with houses, and those houses were all occupied by people. In the end, without waiting for him to react, those who discovered him all held weapons and moved toward him. He rushed over.

Lu Tianfeng: "..."

At this moment, he really had the urge to curse himself to death. Why did he suddenly think about things he shouldn't have?

But now is not the time to worry about what you are thinking and shouldn't be thinking. You should run away quickly and don't let those people kill you.

No matter how capable he is, he can't deal with so many people at once. He can only escape first and then come back to think of other ways.

...

Everyone seems to be in the first level, a century has passed.

Finally, when Lin Changhong came out, he thought he should be the fastest one, but when he saw Sui Zimo and Lin Caisang who had already appeared outside, his eyes widened.

"Sang Sang, Zimo, why did you... come out so soon?"

He thought he was the first one to get rid of the monster he imagined. How could they do it so quickly?

"I've been out a long time ago."

Lin Caisang shrugged and said to his eldest brother.

However, in this first level of so-called improvement of practice, she really didn't improve at all.

At this moment, she was speechless, okay?

"What magical beast did you kill?" Lin Changhong asked.

Lin Caisang: "..."

As soon as her husband came out, it was enough to ask her what kind of monster she killed. Why did her eldest brother ask the same question?

"They're just ordinary monsters, no big deal."

She twitched the corners of her mouth slightly and replied vaguely. Anyway, she would not tell them that she had killed a lot of white rabbits with one palm, and then dug a hole and buried them all.

"Just some?"

After hearing her words, even Sui Zimo looked sideways at her.

If it weren't for the fact that his wife didn't appear to be injured in any way, he would have suspected that something had happened to her.

What he encountered was just a monster, and he had been fighting that monster for more than two hours, and he tried to deal with it as quickly as possible.

But he really didn't expect that Lin Changhong would come out so soon, so he just asked his wife a few questions.

Chapter 2670: Eat enough to hold up

"Is that just some? Sangsang, how many magical beasts have you encountered?" Lin Changhong let out a heavy breath.

He could feel that he was very embarrassed at this moment, because even if it was an illusion, the fight still existed, and it really made him very embarrassed.

"I only encountered one monster, and it ended up like this. Sangsang, look at what I've become like, and you've actually encountered many more?"

He lowered his head, glanced at himself, and then raised his hand to touch his head. The hair on his head had long been a mess.

"That might be your bad luck."

Lin Caisang didn't say what happened to him, he just said something regretful to his eldest brother.

Lin Changhong: "..."

It was his bad luck, he really wanted to know what happened to his girl.

The key thing is, looking at his girl's clothes, nothing has changed, which shows that it is really easy to deal with those monsters.

How would he know? His girl just killed some white rabbits without any effort at all.

Soon, Yue Chushui also came out, which is when they said a few more words.

Then came Zhe Feng, and then Yuan Jue and his female team member also came out.

But there was no news about Lu Tianfeng, who had hidden strength. No matter how much Zhe Feng waited for him, he still didn't come out. Finally, Zhe Feng turned his attention to Lin Caisang.

"Did you do something to him?"

He squinted dangerously and looked at the six people in front of him.

Apart from this possibility, he could not think of any other possibility. After all, his master was much more powerful than him. How could it be possible that he had come out but his master had not?

Lin Caisang and others: "..."

This pot was smashed, and they were a little overwhelmed.

"Have you made a mistake? We are full and full, so what are you going to do to your... companions? Besides, don't you know where this place is? Even if we want to do something, can we do it? "

Lin Changhong would not get used to such a person and yelled back at him directly.

"Who else could it be if it wasn't you? Maybe the first one of you to come out will get any special treatment?" Zhe Feng still looked at Lin Caisang with an unkind look.

Anyway, according to what he and his master thought, sooner or later they would get into trouble with these people and kill them all for some reason.

It's the same thing now.

Everyone: "..."

He is really sick, and his illness is unclear.

"I'm not as capable as others, do I still have any dignity if I can't get out? If I were your companion, I would have found a piece of tofu and killed myself if I didn't come out for so long. How could I say it in front of everyone? It's embarrassing. Show your eyes!"

Lin Changhong sneered, looked at him with disdain, and said.

"you--"

Zhe Feng was so angry that he almost died from anger.

He also didn't understand what happened to his master that he couldn't come out so late.

He had just listened to Lin Caisang's discussion and determined that the time inside was different from where they were standing now. An hour inside would only take a few blinks and a few words outside.

But so much time has passed now, how much time has passed inside.

How many days and nights are there?
