

Star of Space 2761

Chapter 2761 Something that belongs to all of us

"Are you crazy? This is my thing, why do you want to steal it?"

After a while, he finally came to his senses and roared at the team member.

That's enough. The thing in his hand belongs to him alone. Why would this person want to rob it? What the hell, does he want to take his thing and go to Lu Tianfeng as a favor?

What a beautiful thought!

"You are our captain, so what belongs to you belongs to all of us. I wonder what's wrong with holding it?" After the team member spit out a mouthful of blood, he gasped and said to Captain Liu.

As long as he gets the Yunlan grass juice, he doesn't believe that Lu Tianfeng will not look at him with new eyes. Then he will be able to go to Lu Tianfeng and the others safely.

But all of this was ruined by Lin Changhong, who actually dared to kick him!

Captain Liu looked at his team members, with ferocious faces at the moment, and stared at Lin Changhong who kicked him as if he knew he was wrong. He felt that this man was simply crazy.

"According to what you said, since you are a member of our team, then what belongs to you is also ours?" Another team member couldn't stand it anymore and stood up to question the team member.

Not only does this person have beautiful thoughts, he also has a twisted heart, right?

What does it mean that everything they own belongs to him? Among the seven people in their team, he is the only one who is noble. Can everyone else respect him?

How ridiculous.

"Are you sick? Why should we give you our things? Who do you think you are?" The three team members around Captain Liu cursed at the team member.

If they hadn't reacted just now, they would have been the ones to kick this person out. How dare they do this!

If I had known earlier, I wouldn't have tried to persuade him just now. He was such a wolf-hearted person, but they tried to persuade him with good intentions. It was good for him. I thought they had followed him because they knew they were wrong and repented, but they didn't expect that they had other tricks up their sleeves.

"Give me!"

Lin Caisang didn't have time to pay attention to an insignificant person, but stretched out his hand towards Captain Liu.

"Okay, okay, Captain Lin, be careful with it, it's just this little bit, it's precious." Captain Liu whispered as he handed the porcelain bottle to Lin Caisang.

The indigo grass is rare, and it is even rarer to refine the indigo grass into a thick juice. Such a small bottle can be sold for a big price if left out.

Lin Caisang raised his eyes, glanced at him, and then took the porcelain bottle into his hand.

She opened the porcelain bottle, put it to her nose, smelled it, quickly moved it away, and then sealed the lid again.

"It's Yunlan grass, but it's a bit old." She said to everyone.

"Well."

Captain Liu choked at her words.

The time he went with those people was seven years ago, so it was a long time ago.

But the medicine still has some effects, right? He has been protecting it with his spiritual power, treating it like a treasure, so he should make do with it and still be able to use it, right?

"It's a few years old, can it still be used?" he asked.

Hearing this, Lin Caisang pursed his lips, thought for a while, and nodded.

"It should be okay if I add some other medicines, Zimo, we will rest here tonight, and I will refine the medicine at night."

She said to Sui Zimo.

"good."

Sui Zimo responded and took the porcelain bottle in her hand into his own.

"I'll leave it for now and give it to you in the evening."

Chapter 2762 You have the ability

The smell of the indigo grass was indeed very unpleasant. He was afraid that his wife would be smelled, so he had better keep it under his care.

"I've been thinking about why Captain Liu has such a strange smell. It turns out it's coming from this thing. It really smells so bad." Lin Changhong pinched his nose and said sharply.

He had only opened it for a short time, but the smell was so bad that he almost wanted to vomit. It was indeed Yunlan grass.

Captain Liu: "..."

He had already sealed the porcelain bottle as tightly as possible and sealed it with spiritual power.

However, if this Yunlan grass didn't have such an unpleasant smell, how could it possibly make Yun poisonous beasts stay away?

There are benefits to being smelly, right?

...

"Hiss...hoo!"

On the other side, looking at the porcelain bottle that Sui Zimo held in his arms, Lu Tianfeng took a deep breath.

"Useless thing! You can't handle such a small thing!"

Looking at the team member, his eyes darkened and he cursed in a low voice.

It was in vain that he had put so much hard work into that team member and promised so many benefits, but he couldn't even get this little thing done.

If the juice of Yunlan grass can be in his hands, then he can take the initiative.

But now it's all gone.

It's also his fault that he didn't think of it for a moment. Captain Liu would often have a stench coming from his body from time to time. He couldn't figure out what it was before.

Now that I think about it, isn't it the smell of bluegrass?

"Master, do you want me to go down and get the Yunlan grass back?" Zhe Feng asked in a low voice when he saw that his master was angry.

"you?"

Lu Tianfeng glanced sideways and glanced at Zhefeng.

"Do you have the ability to take it back? It will only embarrass me even more!"

The thing had already fallen into Sui Zimo's hands. It was impossible to take it back and refine the medicine himself.

Therefore, they could only watch Lin Caisang refining medicine, but that was fine. He also wanted to see if this woman's method of refining medicine was really as rumored in Sky City. So powerful.

People who have broken his game several times, hope they won't let him down, right?

"That....."

Zhe Feng gritted his teeth and knew that he was no longer Sui Zimo's opponent.

"Go prepare the beast cage and capture the poisonous beast tomorrow."

Not wanting Zhe Feng to talk in his ears again and make him upset, Lu Tianfeng gave him instructions.

Since there are ready-made poisonous beasts, and they are mutated, wouldn't he be really sorry for himself if he didn't catch a few?

This monster will still be very useful after it comes out of the sea forest.

"Yes, Master."

Zhefeng responded and went to the beast's cage.

...

That night.

Lin Caisang was refining the elixir of Yunlan grass, and Sui Zimo naturally wanted to protect her.

The smell of bluegrass wafted all around. Even if everyone wanted to sleep, they couldn't sleep. They could only keep their eyes open and prepare to wake up until dawn.

On the other side, Zhe Feng went to cut down a lot of rattan. They were not ordinary rattan, but were used to make beast cages, and they also added Jedi silk they brought with them.

"Chu Shui, look over there, where is the animal cage made?"

Lin Changhong moved his nose and cooed at Yue Chushui beside him.

"I saw it."

Yue Chushui only replied with three words.

He has naturally seen the beast cage maker a long time ago. Only people like this will think about how to catch poisonous beasts and use them again instead of how to destroy them.

Chapter 2763 It doesn't have that ability!

People like this really make people want to get rid of them quickly!

"Tell me, should we go and destroy it? If they really catch the mutated poisonous beast, it might be our fault in the future.

Lin Changhong said.

"Can they catch it?"

Yue Chushui turned to look at Lin Changhong and asked.

He had seen the mutated poison with his own eyes. With that size alone, he couldn't be caught in the animal cage made by that guy Zhe Feng, right?

Even if it is a tamed monster, it still needs a correspondingly proportioned beast cage, right?

As for the beast cage that Zhe Feng made, it was estimated that it could only fit one head of the mutated poisonous beast, and there would be no room for the other body parts.

"That's right."

After hearing what he said, Lin Changhong glanced at the beast cage made by Zhe Feng again and couldn't help but chuckle.

"I'm afraid they have some misunderstanding about the mutated poisonous beast, right?"

I made such a small animal cage and went to catch such a large mutated poisonous beast. Is it because I wanted the poisonous beast to become smaller on its own and then get out of the beastly cage?

On the Thousand Illusion Continent, some monsters can become larger or smaller, but... the Yun Poison Beast doesn't have that ability!

Moreover, the beast cage made of rattan cannot be enlarged, and it does not use the formation method. It is just an ordinary beast cage.

What's more, the so-called beast cage may be directly destroyed under the attack of the poisonous mud in the poisonous swamp. Why didn't Lu Tianfeng and the others think of this?

These two guys are really capable. They are not going to sleep at night and just do useless work all night.

"I really doubt that this Lu Tianfeng is really the one who can give Zimo... Why do I look so smart?" He raised his hand to touch his chin and couldn't help but wonder.

"This time he was not prepared enough." Yue Chushui said something fair on Lu Tianfeng's behalf.

This time we entered Haikuo Forest ahead of schedule. If Lu Tianfeng was given enough time to prepare, it would definitely not be like this.

However, the person behind Lu Tianfeng did not expect that Haikuo Forest would be opened in advance, or if there was anything else he wanted to explain to Lu Tianfeng, he did not explain it yet.

I have to say that Yue Chushui has revealed the truth.

Indeed, when he learned that Haikuo Forest had been opened and Lu Tianfeng had entered, that man almost smashed everything he had on hand.

Just in case, he wanted to give Lu Tianfeng a general idea first, and then give Lu Tianfeng details when he was about to enter the sea forest.

But he never thought that the vast forest would be opened in advance, and he would not even have a chance to explain to Lu Tianfeng.

At this moment, he was thinking of ways to send someone into Haikuo Forest to contact Lu Tianfeng again, and he also perfectly missed the big scene where Lu Tiankuo dealt with Lu Tianfeng's forces.

"Yes, we have already lost the opportunity. Naturally, we are at a loss to do anything." Lin Changhong nodded, agreeing with what Yue Chushui said.

He took a deep breath, and then... after almost spitting it out, he stood up and patted Yue Chushui on the shoulder.

"Forget it, let's not talk about him. I can't sleep anyway. Let me make some formation balls. Although they are simple, they are still useful. You can do whatever you want."

Chapter 2764 More and more unreliable

"Um.

Yue Chushui nodded.

He will not be casual. Although he has nothing to do now, he still needs to keep an eye on Lu Tianfeng and Zhe Feng.

Who knows if something else will happen between these two people? There is nothing wrong with keeping a close eye on them.

...

On the other side, Zhefeng spent a lot of effort to build a beast cage. In order to test its toughness, he also tried to install a World of Warcraft.

Seeing that the monster with sharp teeth could not break free from the beast's cage, he nodded with satisfaction.

"Master, the beast cage is ready. Do you want to take a look?" He looked at Lu Tianfeng and asked.

Now that everyone already knows the identity of his master, there is no need to hide anything anymore, so he has no taboo and just calls Lu Tianfeng master.

"That's it."

Lu Tianfeng just glanced at it lightly.

This beast cage is big enough. Since it is a mutated poisonous beast, it needs a beast cage that is big enough.

"You go and rest, I will keep vigil tonight." He ordered Zhe Feng.

"How is this possible?"

Hearing his master's words, Zhe Feng suddenly became anxious.

As a subordinate, there is no reason for his master to keep vigil for him. These things are what he must do as a subordinate.

Moreover, as a cultivator, it is common to go several days without sleeping, not to mention that they had not broken up with Lin Caisang and the others before, and he did not keep vigil every day.

"Master, you go and rest, I will keep watch."

"take a break!"

Lu Tianfeng ignored his words and ordered coldly.

How could he sleep with such an unpleasant smell floating around? What's more, he couldn't sleep tonight. What if these people went to the poisonous swamp while they were sleeping?

Zhe Feng, his subordinate, was becoming increasingly unreliable, so he felt more at ease keeping it to himself.

"Yes, Master."

Zhe Feng had no choice but to go to sleep.

On the other side, Lin Caisang had already refined a batch of elixirs and handed them directly to Sui Zimo.

"Zimo, go and try it first."

Since the poison in the poisonous swamp is of no use to her husband, it would be perfect for him to try the mutated poisonous beast.

As for her eldest brother and Yuan Jue, it is better not to go. The poison on their bodies has just been cured, so they should stay where they are and rest. Chu Shui will stay there to protect them in case Lu Tianfeng does something else. .

"good."

Sui Zimo responded lightly and was about to leave, but he was still worried and turned around to give his wife a warning.

"Be careful here."

"I know."

Lin Caisang gave him a reassuring look.

On the other end, Lu Tianfeng, who had been staring at them closely, saw Sui Zimo heading towards the Poison Swamp again, and just curled his lower lip.

As long as Lin Caisang and the others are still here, Sui Zimo can't go anywhere alone.

At most, he just went to the Poison Swamp to explore the way. Once he found it, he would come back. Even if he never came back, it was just what he wanted. What he meant was that it would be best if Sui Zimo went directly to the mutated poisonous beast. Up.

In that case, he and this group of people can still compete after arriving at Beimingju.

"Mr. Lu, when you look at us like this, do you also want to explore the road?"

Seeing Lu Tianfeng's eyes staring at them, Lin Caisang turned to look at him and asked.

Chapter 2765 Protecting Sangsang

Hearing this, Lu Tianfeng just smiled.

"I believe in Mr. Sui's strength very much. I just went to explore the way. I will definitely be able to come back safely, right?"

Let him explore the way?

How is this possible? He doesn't trust Sui Zimo. What if he cheats?

It's better to let them explore the road by themselves. He will wait here for them to succeed, and then they can all go through this place together. How great, and it will save him a lot of trouble.

"So, I'd better stay here and watch over everyone."

"laugh."

On the side, Lin Changhong, who had not fallen asleep because he was too smelly, couldn't help but laugh after hearing his words.

I have never seen such a shameless person, and he still calls himself the number one son of Qianhuan Continent. It is a joke. He is not even willing to explore the way, and he still makes so many excuses.

"Sang Sang, forget it. For someone as greedy and afraid of death as Mr. Lu, you might as well find someone else to find him. Captain Liu and the others are more courageous than him."

"you--"

Lu Tianfeng was almost angry to death by his words.

However, he doesn't have the same experience as Lin Changhong. As long as he can achieve his goal, any means is acceptable, and he doesn't care.

"Master Lin, you'd better rest. If you don't get a good rest tonight, you may not be able to do what you need to do tomorrow morning."

He said coldly to Lin Changhong.

No matter what, he wouldn't go exploring. He had the antidote in his hand. At worst, he could trade these people for two elixirs made from Yunlan grass. It wouldn't be a big deal.

"Ah."

Lin Changhong chuckled lightly and stopped talking to Lu Tianfeng.

Lin Caisang gave Sui Zimo a look, and then Sui Zimo nodded and looked at Lin Changhong.

"Protect Sangsang."

"Okay!"

Hearing this, Lin Changhong jumped up from the ground.

Finally he has a place to use. Of course he has to protect his sister. None of those Lu Tianfeng or Zhe Feng can even think of getting close to his sister.

Otherwise, is he, the big brother, just a show-off?

"I'm leaving Xiao Zi here."

With Lin Changhong as protector, Sui Zimo still felt uneasy, so he reached into his small satchel and took out the purple-eyed little guy.

"Watch, if something happens, just go back there!"

"Zhizhi."

The purple-eyed little guy glanced at Sui Zimo faintly.

Does this guy really think he can be its master? If it weren't for the fact that it couldn't get close to the little girl, would it care about this stinky man?

The little girl's arms still smell fragrant and soft, but it's a pity that it can't get through now.

"Sonny, be careful."

Sui Zimo gave her one last warning and then left.

...

The poisonous swamp is still so peaceful, but also still so uneasy.

The poisonous gas bubbles kept popping up from under the swamp, making a crisp sound. Even in the dark night, the black gas was visible to the naked eye, and it made people's whole bodies tremble at the sight.

Sui Zimo didn't make any further observations. When he came to the edge of the swamp, he crushed a pill and scattered it in the air.

Then he jumped up and flew towards the swamp.

"Roar!"

A roar of a monster sounded again.

But this time, the mutated poisonous beast only had time to poke out one of its heads, and after smelling the strange smell of the bluegrass, it retracted its head.

Chapter 2766 Not yet

Sui Zimo stood in mid-air above the swamp and kept observing.

About a quarter of an hour passed, until the stench of the surrounding bluegrass had almost disappeared, and then there was a reaction under the swamp, and several mutated poisonous beasts sprang out.

Almost at the same time, they attacked Sui Zimo.

Sui Zimo had already been prepared. He ducked back to the shore, surrounded himself with a huge spiritual cover, and allowed the poisonous mud to scatter around.

Half an hour later, Sui Zimo returned to Lin Caisang's side feeling refreshed.

"How's it going? You're not hurt, are you?"

Lin Caisang asked immediately when he saw him coming back.

It's just that she didn't care about whether the elixir was useful, but she was most concerned about whether her husband was injured.

"It's okay, those things can't hurt me yet."

Sui Zimo smiled, raised his hand and caressed her face, and replied to her.

"Zimo, how are you? Does the elixir work?" Lin Changhong also asked.

"The effect lasted for almost a quarter of an hour. The elixir refined by Sonner had already maximized the smell of bluegrass. Those mutated poisonous beasts couldn't stand the smell. They only poked their heads out and then retracted."

Sui Zimo explained.

"Really?"

Hearing this, Lin Changhong's eyes shone with golden light.

As long as it's effective, then they can cross over from this poisonous swamp.

"Great, that Captain Liu finally has some effect, it's rare!"

Everyone who just woke up wanted to ask: "..."

Captain Liu, who looked excited: "..."

Even if it only has such a small effect, is it good enough? This Yunlan grass is his treasure!

But he prefers to get a better treasure again. The so-called Beiming Juli must be there. He doesn't want more, just one or two.

"Can we go there? Do you want to leave now?"

At this moment, he asked excitedly, regardless of why Lin Changhong disliked him.

"Not yet." Lin Caisang shook his head.

"Why?" others asked.

There is already an elixir, so why can't we get over it?

Now it has passed in a rush, isn't it great? It's the time when everyone is energetic, and it's considered a break.

"Although we can deal with the poisonous beast, there is still no antidote to the poisonous swamp. I still need to refine the antidote to a higher level to ensure that everyone is safe after crossing the poisonous swamp."

Although her detoxifying pill will not kill people after being poisoned by the poisonous swamp, there will still be time for treatment.

But I'm afraid that some people won't give them time for treatment.

"this....."

Others hesitated after hearing her words.

They don't want anything to happen, especially when facing huge dangers, survival is human instinct.

"Then let's wait a little longer. Sorry for the trouble, Captain Lin." The woman in Yuan Jue's team said to Lin Caisang.

Their team actually didn't have much help. Lin Caisang and the others had been leading them. To be honest, she felt quite ashamed.

When she was in Hongye Building before, she had thought that she would definitely be a help to everyone after entering the Haikuo Forest. Who knew that she would not be able to do that at all.

Others have always been helping her, otherwise, she might not survive now.

Chapter 2767 There are too many schemes!

"It's okay, everyone is just helping each other. Lin Caisang smiled and didn't say anything else.

"Captain Lin, Mr. Sui, I can trade the detoxifying pills from the poisonous swamp with you. What do you think?" Suddenly, on the other side, Lu Tianfeng smiled and spoke to Lin Caisang.

Hearing this, everyone looked at Lu Tianfeng.

Yuan Jue and others frowned at the same time, feeling that Lu Tianfeng would never be so kind.

"There are so many of us here, Mr. Lu, are you sure you want to trade with us?" Sui Zimo looked at Lu Tianfeng with cold eyes and asked.

"This is naturally impossible."

Lu Tianfeng immediately shook his head, asking him to get so many antidotes, how could it be possible?

Besides, he doesn't even have that many antidotes in his body. Even if there are so many, he won't take them all out.

"I will give you at most four antidote pills. I don't care about the others."

"hehe."

Lin Changhong chuckled and looked at Lu Tianfeng.

"Then I dare to ask Mr. Lu, how many pills of Yunlan grass do you want?"

he asks.

After hearing his question, Lu Tianfeng's eyes lit up and he felt that there was a way to change the elixir.

"Since it's a barter, it's naturally an exchange of equal value. I'll give you four antidote pills, and you have to give me four pills..."

"Ah shit!"

Before he could finish his words, one of the trio cursed at Lu Tianfeng.

"You have a beautiful idea. Give us four antidote pills and let us fight among ourselves first. Then you can take the pills of Yunlan grass and successfully cross the poisonous swamp."

"It's a beautiful thought. Don't you think there is no other smart person except you in this Thousand Fantasy Continent?"

"That's right, why do we have to ask for your detoxification pill? Our captain is very powerful and will soon be able to refine better and more advanced detoxification pills. You should keep your detoxification pill for your own use!"

Hearing this, Lu Tianfeng's face suddenly darkened.

He just thought about this level and quickly said that he wanted to change the elixir.

Just one person left, Lin Caisang and the others wanted to enter the leakage of Beimingju faster, and he thought that when they entered, they only had to follow Lin Caisang and the others.

The key is that when he came out, he originally wanted to take four pills refined from Yunlan grass and use them when he came out.

It seems that the plan has to change.

"Since you don't want to change, then forget it."

He shrugged and said that even if he didn't change, it would be fine.

"Tsk!"

Captain Liu couldn't help but click his tongue.

Why didn't he see what kind of person Lu Tianfeng was before?

Especially just now, there was a person in his team who was obviously interested in the detoxification pill in Lu Tianfeng's hands. Fortunately, he reminded him so he didn't show it.

"This man has too many tricks!"

He reminded the three team members around him.

"Um."

"That's right!"

"Just ignore it!"

The three team members replied to him at the same time, and another member of their team had already followed Lu Tianfeng.

Next, Lin Caisang ignored Lu Tianfeng and the others and continued to refine her elixir. The elixir of Yun Lancao also needed to be refined some more, and the detoxification pill needed to be refined better. Some.

As for Lu Tianfeng, although he had the antidote, he still had to wait for Lin Caisang and the others to leave together.

Chapter 2768 I'm harming you

"Master, we..."

"Wait!"

Before Zhe Feng could say anything, he was stopped by the words Lu Tianfeng.

What else could he do if he didn't wait? He really couldn't imagine when these people were so united that they didn't even want his antidote.

With the abilities of Lin Caisang and Sui Zimo, they could simply leave the others behind and enter Beiming Residence by themselves. Why do they have to bring such a large group of people with them?

Zhefeng didn't dare to say anything after hearing his master's words.

However, he secretly hated Yao's eyes, but he kept glancing towards Lin Caisang and the others. These people were really annoying and kept making his master miserable. He wished he could kill all of them.

It's a pity that he doesn't have that ability yet!

...

Finally, at dawn, the two pills in Lin Caisang's hand were successfully refined. She immediately distributed the antidote pills to everyone, three pills to each person.

As for the other kind of elixir, she naturally couldn't give it to others, but kept it herself.

"The elixir refined from Yunlan grass is not that I won't give it to you, but I can't give it to you."

Seeing the confused looks in everyone's eyes, Yue Chushui explained to everyone on behalf of his sister Sang Sang.

"Giving this elixir to you is not good for you, but will harm you. You know, but someone has been keeping an eye on this elixir. What if... you may have expected the consequences?"

His eyes glanced at Lu Tianfeng and the three of them.

Hearing this, everyone suddenly woke up.

Yes, Lu Tianfeng wanted to exchange elixirs with Captain Lin before. If they both had elixirs, wouldn't Lu Tianfeng be going to attack them? Just to get the elixir in their hands.

Therefore, it is better to keep this elixir in one place and keep it out of their hands.

They will be together anyway. It really doesn't make any difference whether they have this elixir in hand or not, but it will cause them trouble.

Then they'd better not ask for it, right?

"We understand, we understand."

Someone immediately replied, "How dare you have any more dissatisfaction?"

Soon, the group set off in a mighty manner. After arriving within the scope of the Poison Swamp, Sui Zimo directly crushed a pill.

"Well!"

Some people couldn't help it and almost vomited.

Fortunately, everyone had the foresight to prepare to leave without having breakfast, otherwise, they would really have vomited all over the floor.

"Everyone, prepare to go there, remember, don't stop!" Sui Zimo warned everyone.

"Even if a mutated poisonous beast emerges from the swamp, don't panic. Keep moving forward and don't care about others. Otherwise, you won't even be able to care about yourselves."

"Does everyone understand?"

Lin Changhong shouted at everyone and asked.

"I understand." Everyone replied.

What don't you understand? What they care about most is their own lives.

Who dares to act recklessly at this time? It's not like they don't want to take their own lives. They still want to save their own lives to get the treasure in the center of Bei Ming.

"call!"

Lin Caisang exhaled heavily, stretched out his hand, and held Sui Zimo's hand tightly.

It's not that I'm afraid, I just think the smell is too unpleasant and I want to leave this place quickly.

"Are you feeling uncomfortable?"

Sui Zimo asked her lightly, then directly picked her up and protected her in his arms.

Chapter 2769 The whole body is covered with poisonous mud

Everyone was ready and jumped up collectively, preparing to cross the poisonous swamp.

"Ho ho ho!"

There was a large group of people in mid-air, which stimulated the mutated poisonous beasts in the poisonous swamp, and they immediately came out.

Maybe it was because there were too many people, but those mutated poisonous beasts couldn't care less about the smell of bluegrass. Not only their heads were sticking out, but their entire bodies were exposed.

But it's obvious that their movements have become a little sluggish, and they can't even shake off the most lethal poisonous mud.

"Zimo, let me pinch another pill."

Lin Caisang felt the movement in the poisonous swamp, and immediately crushed another pill. The smell of Yunlan grass around him became even stronger.

"Ho ho, ho!"

The strong smell stimulated the mutated poisonous beasts to the point where they were unable to even roar, and their bodies fell straight down.

With a 'plop', a mutant poisonous beast fell back into the poisonous swamp, and the poisonous mud around it immediately splashed upwards, heading towards Lin Caisang and the others.

"ah!"

A stream of poisonous mud just hit Captain Liu and several others, and the team members around him screamed.

"careful!"

The trio of wallflowers happened to be near them, and each of them pulled one up to avoid the poisonous mud.

Captain Liu himself narrowly avoided the poisonous mud, and before he could even breathe out, another mutant poisonous beast fell back into the poisonous swamp, splashing all the poisonous mud.

The direction was still here, and they were so frightened that they almost cursed.

But after this experience, they were able to avoid it, even though it was narrowly avoided, but at least nothing happened.

"Push forward!"

Captain Liu looked in front of him and said to the people beside him.

Only by rushing through this place can we achieve the final victory. After all, this poisonous swamp is not very wide, and there is no way to see the edge at a glance.

However, it is not that easy to walk as far as the eye can see.

Those mutated poisonous beasts kept coming up, and then fell down. Although they had no attack power, the poisonous mud splashed was enough for them to drink a pot.

"Walk!"

The three people on the wall led the other three people in Captain Liu's team and rushed to the opposite side.

On the other side, Lu Tianfeng and the three of them were also heading towards the opposite side. Facing the poisonous mud, they would avoid it if they could, but not if they couldn't...

"ah!"

Then a scream sounded.

Everyone just looked at it from the corners of their eyes and felt that the hairs all over their bodies were about to stand on end.

On the other side, Lu Tianfeng couldn't avoid it and didn't want to be contaminated by the poisonous mud, so he directly picked up the team member next to him, the one who wanted to grab the Yunlan grass juice before and later defected to Lu Tianfeng's side. team members.

At this moment, the team member was caught by Lu Tianfeng, and his body was covered with poisonous mud.

The clothes on his body have been corroded, and the skin has been seeped into it. Poisonous gas is emitting, and his face is completely black.

Lu Tianfeng, who was hiding behind him, had a very calm face. He seemed to have never thought that the person he pulled over as a shield was a person. It was like an object. Even if it was used, he would not feel it. pity.

"hiss!"

Captain Liu turned pale and shook his head.

"This man is horrible, horrible."

Isn't it terrible? Who else but Lu Tianfeng can be so indifferent to human life?

Chapter 2770 Save, save me

He had already persuaded that man not to follow Lu Tianfeng, as following him would only lead to death. He refused to listen and dared to snatch the Yunlan grass juice from his hand.

Looking at it now, there really is no good ending, right?

At this moment, seeing that the man's body was covered with poisonous mud, Lu Tianfeng did not just throw the man away, but continued to block him.

With someone standing in front of him, he was obviously not so cautious when he was marching. Even if poisonous mud was splashed towards him, he would not dodge, he would only use that team member to block it.

"Ah!"

The man was not dead yet, and continued to scream until he was dying and could no longer scream.

Finally, after about half an hour, they finally reached the other side.

There was a 'bang' sound.

When everyone heard the news, they saw Lu Tianfeng throw the team member directly to the ground, and then seemed to dislike it for being too dirty, and patted his own hand.

Everyone: "..."

This man was truly the scariest person they had ever seen!

"Master, you can sit over there. You can go over and have a rest first."

Zhe Feng stepped over that team member and said to Lu Tianfeng.

He had just taken a general look and found a place for them to rest. Although they had only been on the Poison Swamp for half an hour, they were very tired and needed to rest.

"Okay, go.

Lu Tianfeng nodded and walked away without looking at the team member again.

"Help...save me...save me..."

The team member was not completely dead at this time, so he stretched out his hand with difficulty, trying to ask Lu Tianfeng and the others for help.

It's a pity that Lu Tianfeng and the others would look back at him. For them, this person's value has been used by them and is now useless.

People who are useless to them will naturally have only one end.

"Help, help me."

Seeing that Lu Tianfeng and the others couldn't get help, he turned his attention to Captain Liu and the others.

At this moment, he felt extremely regretful. Why should he follow such a person? They just used him as a tool that could be used, but he actually took the initiative to become their tool!

"If I had known this today, why did I do it in the first place?"

Captain Liu looked at the team member, sighed and shook his head.

"Captain, do we want to save him?" A team member next to him asked him.

Captain Liu turned back to the team member who was speaking and curled his lips.

"How to save?"

"Well!"

The man choked and stopped talking immediately.

Yes, even Lu Tianfeng and the others, who have antidote pills, are afraid of being splashed by the poisonous mud. That must be because they will die if they are splashed. How can they save it?

"Then... forget it."

Just pretend he didn't say it. Anyway, this person brought it upon himself and can't blame anyone else.

"Why!"

Lin Caisang looked at the team member and sighed lightly.

What can they say about seeking the skin of a tiger? Death is probably the best destination for him.

"Brother, after he dies, choose a better land for him and bury him, so that he can rest in peace."

She turned her head and looked at her eldest brother.

Lin Changhong: "..."

Girl, are you saying this because you are kind-hearted, or are you doing it on purpose?

That person is not completely dead yet and can still hear it, okay? I want to bury him in front of him. Is this really okay?
