

Star of Space 2781

Chapter 2781 You still have to rely on yourself

"We have been walking for almost three hours. Let's take a rest before leaving." Lin Caisang said.

In this confusing situation, we have to guard against the attacks of monsters, and the killings transformed by spiritual power can take away everyone's lives at any time. In such a situation, the physical consumption is huge.

"take a break?"

After hearing her words, everyone couldn't help but frown.

It's not that they are not tired, nor that they don't want to rest, but who would be willing to rest in such a place?

If they stay in this place for a moment longer, there will be more danger. They still want to leave this ghost place as soon as possible. This is the common wish of everyone. (audience)

"Captain Lin, why don't you wait until we break out of this maze and then rest?" someone suggested.

"That's right, Captain Lin, there are blood leeches in this place, and the spiritual power formation is also terrifying. It's impossible for everyone to calm down while resting in such a place, right?"

"How about we rush out of the maze at one go and then rest?"

Several people agreed that no one wanted to stay here and feed the blood leeches.

"I know everyone is anxious, but being anxious is of no use." Lin Caisang said calmly.

"Now that everyone's physical strength has been exhausted, we are no longer able to move forward. To put it bluntly, what if we encounter any danger ahead? How should we deal with it?"

she asked everyone in return.

If you don't have enough physical strength, how can you cope with the dangers that may arise next?

"this....."

After hearing her words, everyone hesitated.

This is right. Some of them must be exhausted.

Not to mention others, they themselves could feel their calves trembling. In such a situation, if they really encountered any danger, it would probably be quite embarrassing.

"Everyone, let's rest first. Although we don't have to close our eyes to rest, we still need to eat and drink enough. How can we rush forward with an empty stomach?" Seeing everyone's hesitation, Captain Liu hurriedly said to them.

He didn't care about other people, he just wanted to eat something to replenish his strength.

Otherwise, the road ahead would be long. He didn't want to rely on others to help him whenever he encountered any danger.

Besides, someone has to come to help him. What if everyone is in danger?

So, you still have to rely on yourself.

"Have a rest. Let's all have a rest. Eat something and drink something. Don't tire yourself out." The trio also started talking. Naturally, they were talking to their captain and Sui Zimo.

Rest is for everyone's benefit, not to harm anyone.

"Everyone should work in groups and don't spread too thin." Yuan Jingzhi ordered everyone.

"Okay, okay, let's rest and eat something."

Seeing that the three captains all said this, how could the others have any opinions, so they sat down and took out the food they were eating.

Of course, everyone did not take an extra step, but sat down on the spot with everyone around them, so that they would feel safer in their hearts.

"Master, they have all rested, should we..."

Zhefeng listened to everyone's voices, and they must have sat down to rest, so he thought about whether to do something to them and let them lose a few people.

In this way, their chances of winning in the future will increase.

Chapter 2782: Attack in groups

"Shut up!"

Lu Tianfeng's face was dark, and he lowered his voice and shouted at Zhe Feng.

"You idiot, you really dare to say anything. Do you really think they can't hear what we are saying?"

If the current situation didn't allow him to be too harsh on Zhe Feng, he would definitely drag this guy out and kill him directly. Why would such a person stay with him?

"I really don't understand what makes you think those people are easy to bully and you can deal with them how you want and insult them how you want?"

He asked Zhe Feng coldly.

"Subordinate..."

Zhefeng was unable to utter a word because of what he said and could only grit his teeth.

He also knew that those people were difficult to deal with, but so what? People come up with solutions, so how can they not come up with a way to deal with those people?

"Master, I just want to say that those few people are always a threat to you. If you can get rid of them here, your road will be easier."

After a while, he defended himself a few words.

Everything he did was for his master. How could he not know that Sui Zimo and Lin Caisang were a difficult couple?

But if it's difficult to deal with, why don't we just deal with it?

"If we really let them get to Beimingju, Master, with their strength, they can give us a fight." He reminded.

When the time comes, it's not certain whether the master can get what he wants. Maybe Sui Zimo and the others will snatch it away.

Hearing this, Lu Tianfeng took a deep breath.

How could he not know this fact? But what can be done?

Now they are in a state of confusion. If anything happens to the people over there, it might be blamed on them.

It would be okay if they were directly killed by something in the confusion. What was most scary was that people died inexplicably. In the end, the two of them were bitten by the gang and said it was them. Dry.

Moreover, that group of people was obviously more united than before, and they listened more to Sui Zimo and Lin Caisang's words.

In the past, when Lin Caisang and others spoke, others would refute a few words. Look, now, as long as Lin Caisang or Sui Zimo speaks, those people will at most ask the reason and will not refute them at all.

Under such circumstances, if something happened to Sui Zimo or Lin Caisang, and because of their words, those people would probably attack in groups, catching them off guard.

He could deal with one, two or three people, but with so many people rushing over, it was difficult for him to deal with them all at once.

What's more, two-thirds of the people there are alchemists, and they can all make poisons.

Who knows if they carry any poison that would give him a headache? He has to be on guard.

"Once we leave the maze, we will throw them away and move on our own." He said to Zhe Feng.

Now there is only this way. They go to Beimingju by themselves, hoping to find it before Lin Caisang and the others. Besides, he has a map in his hand, right?

"Yes, Master."

After hearing what he said, Zhefeng didn't say anything more and responded.

"In the next period of time, please remember to me, don't provoke them again!" Lu Tianfeng was still worried about Zhe Feng and warned him again.

Chapter 2783 The more I think about it, the angrier I get.

"I don't keep any stupid subordinates by my side.

"Yes, Master, I understand."

Now that the words have come to this, Zhe Feng still dares to say anything, so he can only respond.

From now on, he just pretends that those people don't exist, and only thinks about how to help his master get Beiming Juli's things.

"Master, the confused blood leech, do you want to..."

"Shut up!"

Lu Tianfeng shouted sharply and interrupted him.

Who on the Qianhuan Continent doesn't know what blood leeches are?

This kind of thing, no matter how powerful the hidden master is, would not dare to raise it, as it will backfire and suck the brains of its owner.

Moreover, apart from sucking people's brains, blood leeches have no other effects. They don't even have poison on them. How could he raise such a thing?

"Why do I raise blood leeches? Can I use them to harm myself?"

"Master is right, my subordinates are talking too much." Zhe Feng responded immediately.

Blood leeches are indeed useless, because this little monster cannot tell the difference between its owner and its enemy. It likes anyone with brains.

He took out some dry food from his luggage and handed it to Lu Tianfeng.

"Master, please eat something."

"Hiss...hoo!"

Lu Tianfeng took a deep breath and exhaled heavily.

Originally, he still had a lot of food on him, but after staying in Kusi Tower for so long, he had almost consumed it.

Now I can only save a little food and can only eat dry food.

And all of this was because of this stupid subordinate. He was really getting angrier as he thought about it, but there was nothing he could do about it.

He actually thought about replacing Zhe Feng with a smarter subordinate.

But in this way, wouldn't his secret be exposed in front of Sui Zimo and the others? This is not what he should do now. He has to preserve his strength and prepare to fight with them in Beiming Juli. Go for it and get what he wants.

But, he really didn't know what that thing was.

I don't know if that person will think of a way to find someone to join him. Otherwise, the mission he came to Haikuo Forest will most likely not be completed.

In fact, it's also my fault for being so careful. I told him to go into the sea forest to get something, but I didn't tell him what I wanted, and I had to wait until the last moment to tell him.

Now, he had no chance to say anything. He didn't even prepare what he should have prepared.

"bring here."

I feel very bad, but no matter how bad I feel, I still need to fill my stomach.

He reached out and took the dry food from Zhe Feng's hand into his own hand, ate it with big mouthfuls, and then listened carefully to what those people over there were talking about.

On the other side, Lin Caisang and the others were studying what to do next.

Obviously, in the confusion, it can't be just this little danger. There must be something more powerful waiting for them next.

Now everyone knows how dangerous it is here, and they will not rush out of the maze in one step, as they did at the beginning, thinking that the maze is just for scaring people.

"There is no poison that can suppress blood leeches, and we can only rely on human power to kill them. Therefore, everyone must be careful. In addition, other things are also a great threat, and there are more unknown dangers approaching us."

Chapter 2784 Blood Leech Swarm

Yuan Jue analyzed them one by one and felt that this confusing road was indeed difficult to navigate.

Originally, although the blood leech was not suppressed by poison, as long as humans were stronger than it, it would be enough to kill it alive, and there was nothing to be afraid of.

But the key point is that they are in this fog, and it is difficult to kill the blood leeches alive.

After all, they can't even see their own fingers now, which is equivalent to being blind.

It's just that the real blind man's eyes are black, but now, their eyes are white, so they can't see the blood leeches at all.

It becomes more difficult to kill, and there are other monsters waiting to appear.

"I have some armors here for everyone to wear. When you are in danger, I can block a blow for you." Lin Changhong took out some formation balls and asked everyone to take them one by one in the fog. .

"Thank you Mr. Lin."

Everyone was extremely grateful to Lin Changhong for being able to get the armor.

After all, this would allow him to avoid a life-and-death danger in this dangerous place.

"It's quite good at winning people's hearts!"

On the other side, Zhe Feng couldn't help but sneered when he heard what Lin Caisang and the others were doing.

He would never admit that he also wanted to get the armor in Lin Changhong's hands. What kind of things did his master want? This confusion was simply trivial.

You can get through it casually.

"you shut up!"

Hearing his words, Lu Tianfeng on the side shouted coldly again.

He didn't explain it just now. Don't let yourself hear his dissatisfaction with Lin Caisang and the others. Even if you are really dissatisfied, keep it deep in your heart. Don't let him hear it out loud.

"Zhefeng, if you do this again, don't stay with me anymore." He warned coldly.

"Well."

Zhe Feng was shocked.

"I'm sorry, Master, I realize my mistake."

He quickly apologized. He just couldn't stand the way Lin Caisang and others used to win people's hearts.

And those idiots were really stupid enough to buy them all with such a piece of armor, and even thanked Lin Changhong profusely.

This is because they did not make sufficient preparations before entering the Haikuo Forest. Otherwise, they would have brought in everything they should bring in. What would happen to Lin Changhong?

As long as the master gives some charity to those people, won't those people rush to the master's side?

However, it is too late to think about this now. Who made them not fully prepared?

...

Before long, everyone was ready to hit the road again.

Just as they expected, it was not easy to drive through the winding road. Less than half an hour later, a large group of blood leeches surrounded them.

"Everyone, be careful. It's a swarm of blood leeches. They must have smelled the scent of living creatures and gathered here." Yuan Jue reminded everyone loudly.

This time, he didn't have to worry about not being able to cut down the blood leeches, because there were too many of them. The red tongues, unusually clear in the white mist, were heading towards their faces.

"ah!"

Screams continued to be heard from all around.

But this does not mean that anyone died from the blood leech attack, but that everyone was really frightened by the dense red tongues.

Chapter 2785 Another big piece comes up

Even if you are chopping blood leeches, you will be frightened if you suddenly turn around and see the blood leeches following behind you.

"Everyone, be careful. Three people attack them back to back. This will be easier and less likely to get hurt." Lin Caisang was protected in Sui Zimo's arms and shouted to everyone.

There were exactly six people at Yuan Jue's place, forming exactly two piles.

The trio of wallflowers had also gathered around and were chopping away at those red tongues.

The captain and his team were asked to surround three people, but one person was thrown out. It wasn't that they didn't want to, but if four people were gathered together, it would be easy for the blood leeches to take advantage of them.

"Which of you is alone? Come over here!"

Lin Changhong said this. When the man heard the sound, he immediately rushed towards the direction of the sound.

Soon, he and Lin Changhong were back to back, and the other person in their group was Yue Chushui, and the three of them began to kill the blood leeches.

There were only two people, Lin Caisang and Sui Zimo, but they had nothing to fear. They directly picked up a person from the Golden Pearl Space, banished him, and started killing the blood leeches.

As for the blood leeches, Sui Zimo and Lin Caisang were very lethal, and they were also the fastest at killing the blood leeches.

On the other side, Lu Tianfeng and Zhefeng were also tired of dealing with the blood leeches. Thinking that no one could see them, Lu Tianfeng also took out another magical weapon from his own. A subordinate worked with them to kill blood leeches.

"Why are there so many blood leeches? Are all the blood leeches in the confusion running here?"

Lin Changhong said to himself while killing the blood leeches.

There were too many blood leeches. The word "thousands" was the most appropriate word to describe the red tongues in front of them at this moment.

"No, it should be the two you threw away before that lured them here." Yue Chushui explained.

"Depend on!"

Lin Changhong couldn't help but cursed.

"If I had known, I should have killed them directly."

That way, they won't be surrounded by so many blood leeches now. It's really scary, isn't it?

"Master Lin, please stop scolding. Who would have thought that there would be so many blood leeches? It's better to save some energy and kill them." The team member on Captain Liu's side smiled bitterly and said to Lin Changhong. .

At this time, it is not the time to blame anyone, but to kill these blood leeches in front of you.

What's more, who would have thought at that time that they were blood leeches. If it were him, he would have thrown those two blood leeches away in fear. That was just a person's first reaction.

"Yes, kill!"

Lin Changhong took a deep breath, gritted his teeth and nodded.

"Master, mistress, what are these? Why are there so many?"

Ban Jue was brought out. Of course he knew it was dangerous, so he didn't say anything and said he started killing the blood leeches.

But he still wanted to ask what these things were. Although he was in the mist, the long red strips swinging around in front of him made him really sick.

He cuts off this piece and adds a large piece.

"Tongue."

Lin Caisang replied directly to him.

Banishment: "..."

Tongue? !

Chapter 2786 Too cunning

Those red things that are longer than snakes and surprisingly slender are actually tongues?

Can it be more ridiculous?

If his mother hadn't said this, he would not have believed it. It looked like a red rope, even though it was a moving red rope.

"Be careful. If you get bitten by these tongues, your brain will be sucked out." Lin Caisang added when he saw that he was silent.

Banished: "!!!"

Will your brain be sucked out?

Doesn't that mean that these things are monsters that suck people's brains?

"Blood... blood leeches? These things are actually blood leeches?" He was shocked.

He had seen an introduction to blood leeches in the mistress's golden bead space before, but he had never seen a real blood leech.

Unexpectedly, there were so many blood leeches in the vast forest, and they even encountered them.

Thinking of the horror of blood leeches, I became more cautious in my decision to banish him.

He doesn't want to be a brainless person... Oh no, it's a corpse! Your brain has been sucked out, how can you still survive?

"Watch out!"

A red tongue took advantage of the opportunity and penetrated from the soles of Yuan Jue's group's feet into their backs that were close together.

Fortunately, Yuan Jue discovered it early. He spun his foot and stepped on the tongue. He stabbed his foot hard with the long sword in his hand and cut off the tongue.

"Damn it, these blood leeches are so cunning, they actually come from under your feet!"

The woman was also secretly frightened, feeling that these blood leeches were different from the ordinary blood leeches outside.

But think about it, if they were really ordinary blood leeches, how could they be kept in this maze to protect Beiming Residence?

Therefore, these things must be unusual.

"Everyone, please be careful. Keep away from these blood leeches and use spiritual power to seal your back."

Yuan Jue spoke up and reminded everyone.

Soon, apart from the sound of killing blood leeches, no other sounds could be heard around.

After a long, long time... finally, the last red tongue was cut off by Sui Zimo's sword.

"Everyone follow me."

He shouted to everyone, and then took Lin Caisang and ran quickly in one direction.

Others heard the sound and quickly followed.

Half an hour later, in an empty place, everyone could finally sit down and take a breath, and they all took out their water bags and drank some water.

"Where are the people in our team, are they all here?" Captain Liu was the first to speak out.

It doesn't matter how many blood leeches you kill. What matters is whether the people in your team are still there.

Soon, his words were echoed by the other three people. The four people gathered together, but they were still breathing heavily.

"Old Dan, we didn't take care of you just now, you won't blame us, right?" Captain Liu spoke up again, asking the previous team member who was squeezed outside by the three of them.

Of course, the situation really doesn't allow them to think too much.

"how could be?"

Lao Dan shook his head and did not feel that he was being treated specially.

"Young Master Lin and the others are here. At that time, you can't think too much. If the four of us were crowded together, we would probably all have to join in."

There were only four of them in their team, and Lu Tianfeng and Zhefeng couldn't believe it at all.

Chapter 2787 With a hint of excitement

If he felt that Captain Liu and the others were trying to squeeze him out at this moment, that would be very inappropriate. What they have to do now is to work together to overcome the confusion.

"Lao Dan, next time, next time if we encounter something like this again, we will never... ugh!" Before another team member could finish speaking, Lao Dan unceremoniously reached out and covered his face.

"You crow mouth, don't do it again!" Old Dan said to him angrily.

Having such an experience once is enough. He is also thinking about the next time. It would be best for him to kill all the blood leeches, okay?

"That's right, you crow's mouth." The team member next to him echoed.

It's time for the next time. This time is enough for them to drink a pot. If there really is a next time, then do they still have to live? They are exhausted!

"Where's the next time? I don't want to encounter something like this again! Fortunately, Captain Lin and the others suggested eating and resting first, otherwise, we wouldn't be able to handle it this time!"

With how panting and weak they looked before, how could they cope with so many blood leeches?

"Captain Lin and the others still have to listen to their words."

"Okay, everyone is tired, sit down and take a rest." Captain Liu greeted everyone to sit down.

On the other side, Yuan Jue also called the names of everyone in his team to make sure no one was left behind. He let out a sigh of relief and also called for his team members to sit down.

On this side, Lu Tianfeng and the others were originally three people, but because the blood leeches had been killed, if there were three more people, they would definitely attract the attention of Sui Zimo and the others.

Therefore, without thinking, he took Zhe Feng, who had been looking for trouble, into the magic weapon and left another subordinate behind.

"Do you know what to do later?" He asked his new subordinate coldly.

"My subordinate understands."

The subordinate immediately nodded in response.

"My subordinate is familiar with Zhe Feng. I will definitely imitate Zhe Feng's behavior and will not disappoint my master."

There was a hint of excitement in his voice.

In the past, Lu Tianfeng would always take Zhe Feng with him wherever he went, because Zhe Feng's cultivation was better than that of their other subordinates, and the master felt that Zhe Feng was more loyal to him than they were.

As a subordinate, he has never been able to gain the greatest trust of his master.

This time, he was finally given the opportunity to stay with his master. How could he not do well?

He must do everything his master tells him, even better than Zhe Feng, so that he can stay by his master's side for the rest of the time.

"very good."

Lu Tianfeng nodded with satisfaction.

This time, he was really disappointed with Zhe Feng, so he should just let Zhe Feng meditate on his past in the magic weapon.

"There are many dangers in the maze, so remember not to act recklessly."

After thinking about it, this subordinate was not familiar with Wandering, so he warned him again.

"Yes, Master, I understand." The subordinate responded.

"Sonny, eat something."

Sui Zimo handed the food in his hand to his wife.

"Are you okay?"

Having killed so many blood leeches just now, he was worried about his wife, so he still asked a question.

"What can happen to me, Zimo, you are too nervous."

Lin Caisang smiled, replied to him, and pulled him to sit down next to her.

Chapter 2788 I don't want to take this risk again

"Don't forget, I am an alchemist. I will naturally pay attention to my body. Nothing will happen. Just keep your heart in your stomach."

"It's okay."

When he heard her say it was okay, Sui Zimo finally let go of his heart and let out a sigh of relief.

"I'm fine. There's something going on over there."

Lin Caisang smacked his lips in another direction while eating.

Although she couldn't see Lu Tianfeng, she had been paying attention to the changes in the aura over there.

Suddenly Zhe Feng's aura became different. Even if it was still the same voice, she knew that Lu Tianfeng took advantage of the confusion and everyone couldn't see clearly, so he changed Zhe Feng directly, right?

This also confirmed that there was something weird about Lu Tianfeng, as they had guessed before.

"You guys, Tianfeng is not in a hurry, and you can actually endure it and never attack us? It's really amazing."

"there....."

Sui Zimo's thin lips were slightly hooked, and his eyes seemed to be able to see Lu Tianfeng and the others directly through the fog.

"He is thinking that if there are only a few of them, they will not be able to enter Beiming Residence, right?"

In other words, even if they can enter Beiming Residence and get what they want, they still have to get out of Beiming Residence, and they also have to get out of Maze and Poison Swamp.

They couldn't get out of the fog, let alone the poisonous swamp. The mutated monsters in it were beyond what they could handle.

We still have to rely on them.

"What exactly do they want from Bei Mingzhong?" Lin Caisang tapped his knee with the index finger of one hand and murmured to himself.

"You will know when you get to Beimingju."

Sui Zimo said that in short, no matter what Lu Tianfeng and the others wanted, he would not let them get their wish.

...

After a while, everyone said that they were well rested and could continue on their way.

In fact, you can rest for a while, but everyone is afraid that if you stay in the same place for too long, some unknown things will get involved, which would be terrible.

They didn't want to take the risk again.

Several people had used the formation balls given to them by Lin Changhong before, so that they were not targeted by the blood leeches.

While taking advantage of the break, Lin Changhong provided them with formation balls so that they could resist when they were in danger.

However, there is no limit to what everyone has. Everyone wants to save what they can. What kind of dangers there will be later is still unknown. We can't waste too much here.

Spirit arrows have been shooting at them continuously, and some other things will come out early from time to time to attack them.

However, after many battles, everyone has developed both their courage and the strength to kill Warcraft. They are no longer the ones who yell and scream when encountering Warcraft.

Even Captain Liu and the four of them can react quickly enough.

"It's the flying bat, everyone is ready to fight!"

Hearing the "squeak" sound coming from the sky, someone quickly reacted and reminded everyone.

"Flying Escape Bats, there are actually Flying Escape Bats. Be careful, everyone. Although these monsters are small, they can hide themselves in short distances and can easily come directly in front of you to attack."

Another person reminded everyone.

Chapter 2789 Even more powerful than him

The flying bat is several times smaller than the blood leech.

But this kind of monster can not only fly, but also hide in a short distance, in other words, dodge.

It may be far away in the last second, but it may appear in front of you in the next second and attack you directly.

Moreover, the flying bat is a poisonous monster. If you are stained with their venom, although it will not kill you, it can make you unable to move for a short time.

If a person cannot move, it means that he will be slaughtered by others.

Therefore, this kind of monster is definitely more terrible than the blood leech in the maze.

And now their situation is that they can't run around, and no one knows where there will be a flying bat waiting for them to fall into the trap.

They can only stand where they are and wait for the flying bats to attack. At this time, the trick of using static to control dynamic is still advisable. There is no other way.

"Zimo, use the net."

Lin Caisang took out a large net directly from his golden bead space.

"Everyone come here and spread the net. This is a net made of fire silk. Flying bats can't get in." Sui Zimo took the net in his hand and spoke to everyone.

Everyone immediately gathered around him after hearing his words.

Soon, the net made of fire silk was spread out, surrounding everyone inside. As Sui Zimo said, the flying bats wanted to pass through the net to attack everyone, but they couldn't do it.

They couldn't get into the dense net.

"Captain Lin, you have so many treasures on you."

Lu Tianfeng and his subordinate naturally came to Lin Caisang's net to seek shelter.

Seeing that there was no danger, he said to Lin Caisang half-jokingly.

Fire silk, that is the silk that can be woven by the mutation of silkworms. Even on the Thousand Illusions Continent, it is already difficult to find a few.

But Sui Zimo and Lin Caisang, the couple, have such a large net made of fire silk.

Even in the City Lord's Mansion, there are no such good things, right?

He really doubted what kind of secrets these two people had. Could they be more powerful than him?

"Heh."

Lin Caisang smiled coldly and didn't want to pay attention to this guy.

If she didn't want to know why Lu Tianfeng entered Beimingju, she wouldn't let these two people in. Her fire silk net was not for people to peek.

"Baby, it's accumulated little by little by relying on your ability, not born with it." She replied bluntly.

"That's right."

Lu Tianfeng responded with a sigh.

When he came out of Beimingju and killed these people, everything on this woman would be his.

So, he also got these things by his own ability, right?

Of course, he was just thinking about it now. He still had to wait for that person. I don't know if he would send someone into the Haikuo Forest.

But it doesn't matter if he doesn't come in. As long as he gets everything in Beiming Residence, he won't be afraid of not getting what that person wants. At that time, he can get a lot of benefits from that person.

"Everyone hold the net and move forward together. Don't stay here any longer." Lin Caisang said to everyone, not wanting to pay attention to Lu Tianfeng and the others.

Chapter 2790 Fire Silkworm Net

"good.

Everyone responded, stretched the net made of fire silk even wider, and headed in one of the directions.

And those flying bats were also moving in the direction they were traveling, seemingly trying to break the fire silkworm net, but they couldn't break it no matter what.

Even if he uses the venom in his mouth, it will be of no use.

When the venom touches the fire silkworm web, it will be evaporated directly and will no longer exist.

In this way, everyone dragged the fire silkworm net and walked all the way forward. After walking for almost two hours, there were fewer flying bats. Then everyone started to kill the flying bats. It took a while to kill those flying bats. The escaping bat was killed.

'laugh!'

A flame shot out from Sui Zimo's hand and hit the fire silkworm net, killing the last few flying bats.

Then, he took Lin Caisang and walked directly away, and others followed his footsteps.

...

After walking again for an hour.

"take a break."

A group of people were exhausted and finally sat down again to rest.

"These flying bats are really difficult to deal with. If it weren't for Captain Lin's fire silkworm net, we would all be here." As soon as they sat down, someone said to everyone.

Sure enough, the power of many people is great. As long as everyone carries a treasure, they can deal with this confusing monster.

Last time it belonged to Captain Liu, and this time it belonged to Captain Lin.

"Hey, where is the fire silkworm net?"

Suddenly, someone raised a question. They were just running away and didn't even have time to pay attention to where the Fire Silkworm Net went.

Could it be that someone secretly hid the fire silkworm net while everyone was running away?

"I've put it away." Lin Caisang said.

Of course she put away such an important thing immediately. Otherwise, would she still be waiting for it to be taken away by someone?

Just listening to Lu Tianfeng's sour tone, I knew that this person was interested in her fire silkworm web again.

How could she give Lu Tianfeng this chance?

"Put it away, that's good."

Everyone breathed a sigh of relief when they heard it was Lin Caisang's voice.

However, one person was grinding his teeth secretly. Just now, Lu Tianfeng had the opportunity to put away the fire silkworm net, but he hesitated for a moment and was taken away by Lin Caisang.

Anyway, if he took away the fire silkworm net, those people would not see it again. At worst, he would just pretend that the fire silkworm net was lost. In this confusion, he couldn't see his fingers. Where can the lost things be found? You can find it.

Why did he hesitate just now?

It's such a pity, such a missed opportunity!

"master....."

His subordinates could naturally sense his annoyance and called him in a low voice.

No matter what, I didn't get the thing in my hands. It's too late to regret it now. I can only wait to get it later.

"It's not too late, there will still be opportunities in the future."

He lowered his voice and whispered a reminder in his master's ear.

They have plenty of opportunities. With these people by their side, in the end they are nothing more than the word "death". Is there any good ending left?

And the things in their hands are all theirs in the end, so there is nothing to regret.

After hearing his subordinate's words, Lu Tianfeng's mood improved a little, not as bad as before.
