Chapter 2791 The entrance to Beiming Residence

"rest!"

Exhaling heavily, he said to his subordinates.

"Yes, Master."

The subordinate responded, took out the dry food and handed it to Lu Tianfeng.

"Squeak, squeak."

Before Lu Tianfeng's hands touched the dry food, he heard a sound coming from nearby. His hands shook in fright, and the two of them stood up quickly.

The other people also stood up quickly. Although they were not as panicked as before, they were still nervous inside.

They finally got rid of those flying bats, why did they come back so quickly?

"Everyone, don't stay here anymore. Leave quickly and work harder to get out of this maze. That's the right thing to do." Yuan Jing said to everyone, not wanting to become the dinner in the flying bat's mouth.

"Yes, yes, everyone hurry up and leave."

Captain Liu also echoed his words and took a bite of the dry biscuit in his hand.

"Eat while walking, eat while walking, don't delay here."

"Master Sui, I have to trouble you to show me the way. We people are blind when we are confused."  
Yuan Jue looked in the direction of Sui Zimo and said.

Although he couldn't see anyone at all, Sui Zimo's voice was indeed in that place before. He believed that Sui Zimo and the others were still in that direction now.

But.....

When he said a few words in that direction, there was no response at all.

"Master Sui?"

After a while, Yuan Jue shouted uncertainly again.

"Sir, Captain Lin, are you there?"

Captain Liu also noticed something was wrong and shouted in that direction.

However, the voices of Lin Caisang and Sui Zimo were still not heard. Now, everyone was panicking.

"Sangsang, Zimo?"

Lin Changhong and Yue Chushui also stood there, and they were a little panicked when they saw that there was no voice from Sui Zimo.

They were standing closest to Sui Zimo and the two of them. If the two of them left, they would not be able to feel it. But now, he didn't even know when the two of them left.

"Chu Shui, did you feel that Sangsang and Zimo were leaving just now?"

"No."

Yue Chushui was relatively calm and replied with two words.

He didn't hear any movement just now. Although everyone was a little nervous after hearing the sound of the flying bat, he was always paying attention to the people around him and did not hear the sound of anyone leaving.

Moreover, even if Sister Sang Sang and her brother-in-law really want to leave, it is impossible not to take them with them.

"Don't panic, everyone, wait and see, maybe Captain Lin and the others will come back soon, and they won't leave us just like this." He said to everyone.

Although he was not sure where Lin Caisang and the others had gone, it was nothing more than two places, one: in the Golden Pearl Space; the other: the entrance to Beiming Residence, in this maze, and Sang Sister Sang and her brother-in-law broke into the entrance accidentally.

As for him, he preferred them to break into Beiming Residence.

...

What Yue Chushui expected was indeed correct.

On this side, Lin Caisang, who had stood up in a panic, felt that the scene in front of him had completely changed in a blink of an eye.

It was no longer a vast expanse of white, but instead we were in a green place.

"This is... ugh!"

She turned her head to look at Sui Zimo, who was holding her hand, but when she saw his eyes falling on a certain place, she also looked over.

Then, she was choked hard.

Chapter 2792 Welcome to Fake Beiming Residence

"Bei... Beimingju, are we at Beimingju?"

Looking at the three words surrounded by many wild flowers on the grass, she was completely stunned.

I was still in the fog just now, and I heard the sound of flying bats. How come I arrived at Beimingju in the blink of an eye?

She didn't even blink.

"Zimo, what's going on?" Unable to think of an answer, she looked at Sui Zimo and asked.

"I think....."

Hearing this, Sui Zimo turned to look at her.

"The entrance to the so-called Beiming Residence is in the maze, and this maze should be a misty forest. Walking out of the maze means leaving Beiming Residence.

Lin Caisang: "..."

So, they accidentally landed in Beiming Residence?

But why are there just the two of them, and no one else has stepped into the entrance of Beiming Residence?

"No, you didn't seem to move just now. I just moved my foot..." She twitched the corners of her lips and said speechlessly.

Is it too simple to just move a little and enter Beiming Residence?

If Lu Tianfeng knew that they had entered Beiming Residence so easily, would they be so angry that they would vomit blood and die? Is this possible?

"I'm holding your hand. ɔmj" Sui Zimo said.

The implication is that he was able to enter Beiming Residence because of her influence.

If he hadn't held his wife's little hand, then his wife would have been the only one who entered Beiming Residence.

"So, you mean, you got here because of my influence?" Lin Caisang raised his eyebrows, feeling incredible.

Although it was very exciting to be able to enter Beiming Residence, her intuition told her that it was not that simple. If it were so easy to enter, could it be a place that no one has been able to enter in tens of thousands of years? ?

"No, Zimo, tell me, is this really Beimingju? It can't be a fake, right?"

Hearing this, Sui Zimo shook his head.

It was also his first time to enter Beimingju. Even a few days ago, he didn't know that Beimingju existed.

Therefore, he naturally could not tell whether this place belonged to Beimingju.

"Now that we've entered this place, whether it's the real Beiming Residence or not, we have to break in." Because they didn't know how to get out for a while.

"hiss!"

Lin Caisang took a deep breath.

Yes, no matter what, they have to break into this place.

"Well, let's join hands and see what this place is like."

"Haha, someone finally entered here. I've been waiting for tens of thousands of years. It's not easy, it's not easy!"

As soon as she finished speaking, an excited voice rang in their ears. When they heard the sound, they turned around and saw only a big silver tree, walking towards them... ..

That's right, they just left. It was a moving tree. Although it moved very slowly, it still moved slowly towards them.

"Welcome to the Fake Beiming Residence. You are the only two humans who have entered the Fake Beiming Residence. Please be patient and listen to me introduce everything here to you. Whatever you want in the future, you can achieve it, including entering the True North. Mingju oh oh."

Lin Caisang: "..."

Why did listening to this tree make her feel like there was a bad guy who was trying to lure children and wanted to abduct them?

Chapter 2793 Nothing can be done

Turning her head, she looked at Sui Zimo and saw him staring closely at the silver tree.

But his hand that was half-circling her waist cautiously patted her back, signaling her to calm down.

Seeing this, Lin Caisang didn't say anything, but turned to look at the big silver tree, ready to hear what it wanted to say to them?

...

On the other side, in the confusion, everyone was anxious when they saw Lin Caisang and Sui Zimo suddenly disappeared.

Although Yue Chushui and Lin Changhong tried their best to persuade everyone to be calm, the effect was not very effective. Everyone was anxious to find Sui Zimo and the others.

But do they dare?

How dare they wander around in this confusion?

"What should we do? Captain Lin and Mr. Sui are missing. What should we do? Do we want to look for them?"

"We have to find it, otherwise we won't be able to go anywhere."

"I don't know what happened. Could it be that Captain Lin and the others were swept away by some magical beast, but there was no sound?"

"Perhaps it was too late to make a sound to warn us, and it was already swept away?"

"Stop talking and go look for it quickly. If you don't look for it, it might be too late."

Everyone was talking about anything, and they were eager to find Lin Caisang and Sui Zimo. However, their feet did not even move.

Because I don't dare. Who knows if everyone can come back after they are separated?

Everyone was silent for a while, not daring to move around. After a long time, they finally thought that there were two captains here, and they could find a solution with them.

"Captain Yuan, Captain Liu, what do you think we should do?"

Yuan Yue: "..."

Captain Liu: "..."

How do they know what to do?

Looking for it?

That's definitely impossible. If you go there, you can't come back. What if Sui Zi and Mo come back later?

Don't want to look for it?

Staying here is just too anxious, and you can't do anything.

I don't know what happened to those two people? Why did it suddenly disappear?

It seemed that Lin Changhong and Yue Chushui were not in a hurry at all, which showed that even if they encountered danger, they believed that Sui Zimo and the others could handle it.

Then why did they disappear?

"Master Lin, Master Yue, what do you think we should do now?" Yuan Jue asked Lin Changhong and Yue Chushui.

Sui Zimo and Sui Zimo are their relatives, and they have the most say. Listen to their opinions first, and then tell them what to do next.

Lin Changhong: "..."

What now, didn't they say before?

But those people didn't listen to them and felt that they didn't even care about the safety of their own relatives. What could he do?

"Let's wait and see."

He curled his lips and said only these five words.

"It's impossible to let everyone search for them. We don't know where my sister and brother-in-law are. Even if we do, we don't know whether we can find them in the confusion."

Seeing that Lin Changhong didn't want to talk to those people anymore, Yue Chushui took the initiative to speak.

"Wait for an hour. If they don't come back, then we will continue to move forward and try to get out of this confusion."

"What?!"

Everyone couldn't help being surprised when they heard Yue Chushui's words.

Did he really not even care about his own relatives? Before, they listened to Yue Chushui calling Captain Lin's sister all the time, but now that Captain Lin is gone, they just let it go?

You don't bring this kind of thing, do you?

Chapter 2794 There has been a commotion a long time ago

"Are you going to...leave like this? Don't you wait for them?"

Some people questioned, wouldn't it be immoral to just leave like this without waiting for Lin Caisang and Sui Zimo?

But I have to deny that some of them, after hearing Yue Chushui's words, the corners of their mouths began to curl up, and they felt a little secretly happy in their hearts.

After all, it's too unsafe in this maze. If they stay here and wait for Sui Zimo and Sui Zimo, who knows how long it will take? What if those two people were swept away by some powerful magical beast?

If they are no longer here, wouldn't they also be killed if they wait here?

Therefore, they should leave quickly. They don't have to wait for even an hour. How can they still wait for someone?

"We'll wait for an hour at most. We'll leave when there's no one around." Yue Chushui confirmed to everyone again.

"Chu Shui, we..."

After hearing what Yue Chushui said, Lin Changhong was naturally the first to disagree and wanted to speak.

However, Yue Chushui reached out and pulled his sleeve, signaling him to quiet down and stop saying anything to the people in front of him.

"you....."

Lin Changhong was extremely angry, but he still endured it.

"Now that we've said that, let's all find a place to rest. After an hour, no matter whether we wait for someone or not, we have to set off.

Yue Chushui said something to Yuan Yue, Captain Liu and their team members, and then took Lin Changhong and the threesome to sit and rest in another place.

"These people are nothing!"

When there were only people in his own team, one of the trio couldn't help but cursed softly.

"How did you say that?"

The other person was confused when he heard what he said.

"They didn't say anything. They just said they were yelling to find someone."

"Who are you looking for? I just listened to them shouting there. Have you ever seen them actually looking for them?" the last one asked angrily.

Yell a few words, whoever can't, will also yell a few words. The key is to do something practical, okay?

Just by shouting a few words, does he want people to think that he cares about Captain Lin and Mr. Sui? Do you think they are all stupid? Can't you see the truth inside at all?

"Look at the situation just now. If Mr. Yue hadn't made a sudden decision and said that he would leave after an hour regardless of whether he got it or not, how could they have just given up with us? I'm afraid they would have started a riot a long time ago."

Before, I thought those people were quite nice and united.

But at the critical moment, we can see clearly what kind of character those people are. Their captain and Mr. Sui are gone, and we don't see how anxious they are.

On the contrary, there is a temptation everywhere, wanting them to leave here quickly and stop waiting for others.

"Haha, these people..."

Lin Changhong also reacted now and sneered twice.

Once you see through these people, it will be easier to deal with them. From now on, you just don't care about the life and death of those people.

"Just think that all the good intentions before were eaten by dogs. I wonder what happened to Sangsang and Zimo now? Where did they go?"

He gritted his teeth and said worriedly.

"Sister Sang Sang and brother-in-law have better reaction abilities than us, so they will definitely be fine. As long as we take care of ourselves, we can give them the greatest support."

Yue Chushui said in a deep voice.

Chapter 2795 Are you willing?

"Chu Shui, do you know where they went?" Lin Changhong asked him.

Otherwise, why would Yue Chushui be so calm? It was as if he had seen with his own eyes where his sister and brother-in-law had gone, so he was not worried at all.

"I have no idea."

Yue Chushui shook his head and said he didn't know.

He didn't see where they went, so how could he know? It was just a guess.

"But I guess that if they are either in their own place, they have entered... well, Beimingju." He lowered his voice and said to several people.

They were on the same team, and even if the three people knew about it, they wouldn't make it public, which he felt relieved about.

After all, the trio of wallflowers also knew that even if Sister Sang Sang and the others entered Beiming Residence, they would still have their share of the things after they came out, and they would not be missing.

"What...um!"

One of the three wallflowers almost screamed when he heard what he said.

Fortunately, he thought in time that there were people from other teams not far away, and quickly covered his mouth so as not to shock others.

"Impossible? How could Beimingju be lost?" He asked vaguely, covering his mouth.

"Nothing is impossible in this place." Another team member said.

How do you say it's impossible? What if Beimingju is in a state of confusion?

They didn't know how long they had been walking in this confusion. If Sui Zimo's sense of direction was good enough, they should have walked out long ago, right?

But after walking for so long, they are still confused, which can only prove one thing, that is, there are other weird things in this confusion that they have not discovered.

"That....."

The man hesitated and lowered his voice.

"Then do we still want to leave? Should we wait here all the time? If that is really the case, then the captain and the others will definitely come out from here, right?"

"We also want to wait here, but look at those people, are they willing?" Another person asked him angrily.

With the posture just now, those people obviously wanted to find someone, but did they pretend that he didn't hear it? They just wanted to leave directly and didn't want to stay here, so they wanted to leave in the name of looking for someone.

"No matter what they do, we are not on the same team as them. If they want to leave, then let them go. We will wait here for the captain and the others."

When the man heard this, he felt that this was what those people just meant, and he immediately became angry.

"Look at what they can do. They took advantage of our captain so much. Now that the captain is gone, all kinds of evil thoughts come into being."

"We'll see when the time comes, Chu Shui. If we don't let them leave first, we'll stay here and wait for Sangsang and the others to come back." Lin Changhong said to Yue Chu Shui.

"Can."

Yue Chushui nodded in agreement.

This detour is too big. If they go too far, Sister Sangsang and her brother-in-law come out, and it will be difficult to find them.

What's more, everyone will be moving by then, so it will be even harder to find them.

...

Here, Lin Changhong and the others decided to wait here and let the other teams leave first if they wanted to. On the other side, Yuan Jue faced his team members with a cold face, and even his voice was cold.

"If you want to leave, just follow Captain Liu and the others and leave first."

Chapter 2796 Don't try to catch me

He said to his team members. After listening to their words just now, he wanted to find a crack in the ground and crawl into it.

Captain Lin and Mr. Sui have helped them so much along the way. Now these people are talking to the people in Captain Lin's team like this. They really think that everyone in their team is stupid and no one can understand their words. Do you mean it?

Just thinking about it makes me angry!

"Captain, aren't you leaving?" The team members were shocked when they heard Yuan Jue's words.

The captain didn't leave? What does it mean? Does he still want to stay here and wait for Captain Lin and others to come back?

"Young Master Lin and Young Master Yue are ready to leave. How dangerous it is for you to stay here. Come with us, captain." One of them advised him.

Even if Lin Caisang is kind to them, but she is gone, they have to think about themselves, right?

Hearing his words, Yuan Jue had nothing to say and just snorted coldly.

Will Lin Changhong and Yue Chushui leave?

The answer is of course impossible. How could they let their relatives stay here and leave by themselves?

"I'm going to wait for Captain Lin and the others here. If you want to leave, go ahead. Anyway, I won't leave." He couldn't do that kind of temperament of being unworthy of profit.

"Captain Liu, you..."

"I'm not leaving!"

Before Yuan Jing could finish speaking to Captain Liu, Captain Liu spoke directly.

They were almost killed by Lu Tianfeng, and they could be considered people who escaped death. They could still think clearly about this matter.

Not to mention that by following Lin Changhong and the others, his safety was guaranteed, even if he couldn't get anything, he was the one who had saved his life many times. If Lin Caisang and Sui Zimo disappeared, let him go to Bei alone. Mingju...

He really can't do such a thing, it's too shabby!

"Let's see, there aren't so many people here. Let's form two new teams. The one who wants to leave to find Beimingju, and the one who wants to stay and wait for Captain Lin and the others, also form a team.

As for the captain, whoever wants to be can be the captain. Anyway, I'm not planning to leave in an hour, so don't even think about dragging me along. "

"team leader!"

The three team members next to Captain Liu couldn't believe it when they heard what he said.

"Captain, it's not that we don't want to stay, it's just too dangerous here. Listen, there are flying bats calling right now."

"That's right, captain, flying bats are no joke. Now there is no net made of fire silk by Captain Lin. If those things come to deal with us, it will be difficult for us to deal with them."

"If Captain Lin had left the fire silk net behind, we would have been waiting here for them to come back."

Captain Liu: "..."

He believed what they said, so there was a ghost!

If Captain Lin really left the Fire Silk Net behind, then they would all be killing each other now, just to take the Fire Silk Net as their own!

He would stay and wait for Captain Lin and the others to come back. This was just to deceive them and make them feel a little better. If he really believed what they said, he would be too naive.

"You don't need to say anything. If you want to leave, just say it. I won't keep you."

He shook his head and chuckled.

"this....."

Several people hesitated for a while, and finally decided to leave.

They don't want to stay here forever, waiting for Sui Zimo and Lin Caisang to come back. Who knows if they can come back?

Chapter 2797 Let them go for it

In the end, Captain Liu was the only one left in Captain Liu's team.

As for Yuan Jue's team, except for the female team member who shared the joys and sorrows with him in the Kusi Tower, everyone else decided to leave.

These people are thinking that if they leave first, they can find Beiming Residence first, and they can get more things there, saving others money.

It just so happened that Captain Liu's three people, plus four people from Yuan Jue's team, formed a team of seven.

As for the captain's position, Yuan Jue and Captain Liu didn't care about them and let them handle it themselves.

...

"Master, do we also want to go together?"

On the other side, Lu Tianfeng's subordinates heard the movement here and knew that a group of people were preparing to leave, so they asked their master.

They also need to find Beimingju. Should they leave first and avoid Captain Lin and Mr. Sui?

After hearing his subordinate's words, Lu Tianfeng thought for a while.

"No, we'll wait here."

After a while, he spoke.

Lin Caisang and Sui Zimo could not have disappeared for no reason. They must have gone somewhere.

If they come out from that place, they will definitely come back here. They can just wait here without going anywhere else.

Moreover, he had a vague intuition in his heart that if he wanted to enter Beiming Residence, he would have to rely on those two people. He couldn't help but guess whether their disappearance this time was related to Beiming Residence?

Could it be that they broke into Beiming Residence accidentally?

Could it be that the entrance to Beiming Residence is in this confusing place?

No matter what the reason was, he decided to wait here to see what those two people were up to!

What's more, do those people really think it's easy to find their way out of the confusion?

If they had not been protected by Lin Caisang and Sui Zimo, they would have died several times. How could they be allowed to eat, drink and talk freely here, and they actually wanted to leave Lin Caisang and the others?

"Those useless ones can leave as soon as they leave. We just need to follow Captain Lin and her husband." He reminded coldly.

There is no need to pay attention to other people at all.

...

Soon, the newly formed team left with the tasks given to them by Captain Liu.

There were only three people left here, and Captain Liu could only sigh.

"You really don't know how to live or die."

"Let them go and make their own decisions." The female team member said coldly, not feeling sorry for the seven people at all.

It's weird that they can get out of this maze. Even if they get out, why don't they think about it, don't they have to rely on Captain Lin if they want to leave the poisonous swamp?

"Captain, Captain Liu, let's go find Mr. Lin and the others." She suggested.

"good."

Yuan Jue and Captain Liu nodded at the same time and walked towards Lin Changhong and Yue Chushui.

"Why didn't you leave?"

Hearing the noise, Lin Changhong asked the three of them angrily.

In fact, what those people said just now made him angry, and now he doesn't want to say anything nice to anyone he sees.

"We decided to stay together and wait for Captain Lin and Mr. Sui. I believe they will come back." Yuan Jingjing said to him.

"There are only three of us left now, but we are far from being a team. Mr. Lin and Mr. Yue, you have to be kind and take us in."

Chapter 2798 A lucky enough physique!

Captain Liu also said half-jokingly.

"Captain Yuan, Captain Liu, please come and sit down together. I just started grilling meat and I have some extra. Let's eat together." Yue Chushui said to them.

They were willing to sit down with him and wait for Sister Sangsang and the others to come back. That was their intention, so naturally he couldn't say anything bad.

And before, when those people were chattering there, the three of them didn't say anything and were silent all the time. Does that mean that they also disdained those people's words?

Since this is the case, it would be good for them to have one more person here to give them more strength.

"well."

Captain Liu responded repeatedly and quickly followed the direction of the voice and sat down together.

...

Fake Beimingju.

When they heard the voice mentioning Fake Beiming Residence, both of them were speechless.

Even if you are a fake, you can't say it so carelessly. If you let them know, wouldn't they be very contemptuous?

Moreover, this voice is really good at bragging. He actually says that he can do anything, even if they want to go to the real Beiming Residence?

"Is this the transmission channel of Beimingju?" Lin Caisang asked doubtfully.

"No."

Sui Zimo looked down at his wife, then shook his head.

"Beiming Residence should be divided into true and false residences, and this is one of the two residences, the false residence."

This is also his guess. Whether it is true or not remains to be confirmed by them. However, this fake Beiming Curie seems to be a bit genuine. He just saw some powerful armors. They are ordinary alchemists. They cannot Refined.

"Ha ha."

After hearing Sui Zimo's words, the voice rang again.

"This young master is unparalleled in his intelligence. Yes, this is the Fake Beiming Ju among the true and false dual residences. It is even more powerful than the True Beiming Ju. Good things come naturally. There are so many that people can't handle them.

But... if you want to get the good things that Fake Beiming has in the center, it's not something that just anyone can get. You must have strong enough abilities and a lucky enough physique! "

Didn't I say that luck is the most important attribute of a person? If a person doesn't have even a little bit of luck, he is a completely unlucky person.

"The fake Beimingju is different from the real Beimingju. Here, there is no mode of breaking through the levels. If you two want to get good things, just go here... just look for it in your mood. There are many, many red envelopes here.

There are many good things in the red envelope, including thousands of years of medicinal materials, magic weapons, spiritual weapons, and even divine weapons. Of course, there are many other elixirs and god-level elixirs.

The kind of god-level elixir that can be exchanged for a city on any continent. There are also many, many books, ancient books, which record the lost secrets of cultivation, and others. of.

Of course, the most important thing is that the red envelope also contains a lot of... ancient monsters, the kind of monsters that can swallow thousands of people in one breath.

Haha, if you are lucky enough, you will definitely not drive such an unlucky thing, right? "

Following the introduction of the voice, a lot of red envelopes appeared in the originally green place, scattered on the ground, covering all the greenery.

Chapter 2799 Human Nature

"So many red envelopes..."

Lin Caisang's eyes almost popped out of his head when he looked at the red envelopes there.

However, before she could finish her words of amazement, red envelopes began to rain again in the sky, and the red envelopes began to fall one by one.

Lin Caisang \u0026 Sui Zimo: "..."

They were really shocked that there was such an operation!

If there is a good thing in every red envelope, how many treasures does this fake Beiming Juli have?

The two turned their heads and looked at each other. From each other's eyes, they could see doubts about this fake Beimingju. Could it be that they had encountered a huge trap?

Are the things here real or fake? Isn't it just like the fake Beimingju?

"What are you waiting for? Open the red envelope quickly. Good things are waiting for you. Gold, silver, jewelry, heavenly materials, earthly treasures, all the treasures are available. Hurry up and get started!"

Listening to the sound coming from their ears, why do the two of them feel more and more weird?

"Can we not have these red envelopes?" Sui Zimo asked directly.

A voice that has always been excited: "..."

At this moment, it was very confused. Aren't the people who come to Fake Beimingju all come here for these red envelopes? Why don't these two people in front of me want these red envelopes?

Or its memory was wrong. In the past, when those people saw the rain of red envelopes, they were like a cat seeing a mouse.

He almost swooped over and took all the red envelopes into his arms.

"Why not? Don't you all want a treasure? There are many treasures here."

What he said is the truth. There are many natural and earthly treasures among these red envelopes. But compared to so many red envelopes, those natural and earthly treasures are equivalent to lucky prizes. They are very difficult to draw. .

But this does not affect the enthusiasm of human beings to get the baby and keep it for themselves.

The people who came to it, which group of people didn't love each other at the beginning, but in the end, they killed each other because they wanted the treasure in each other's hands!

Isn't this just human nature?

Of course, it can be seen that the relationship between the two people in front of them is not the kind of people who will kill each other.

But there is really a treasure here, don't they want it?

"There are a lot of traps, right?" Lin Caisang asked.

"Well!"

Her voice choked on her words.

After a long while, he finally realized what he was saying and finally spoke.

"Two of you, you can't just point your fingers at nothing, can you? If you want to gain something, you must also be in danger. This is relative, isn't it? This is how everyone comes here."

It explained following the two.

This fake Beimingju is really very kind. It doesn't have the level-breaking mode of the real Beimingju, nor the barter mode of the real Beimingju. It just lets people try their luck.

"Anything you pick out from here can greatly increase your cultivation. I'm not exaggerating, this is true.

Moreover, my fake Beimingju is much kinder in business than the real Beimingju. I don't want your things. As long as you pick up red envelopes and give some lucky points, you can get so many good things. .

It's worth it, it's really worth it. You can't be too greedy. "

Chapter 2800 There will also be genuine products?

Lin Caisang: "..."

The purpose of getting so many red envelopes is to get some lucky points. What can these points be used for? Can they be exchanged for items?

Is this a new event on other continents?

Just when she had a lot of thoughts in her mind, suddenly, a red envelope fell directly on her shoulder. She turned her head, stretched out her other hand and took the red envelope into her hand.

Before they could even find it, they heard the sound coming again.

"Congratulations to this girl, I got a ten thousand year old purple lotus. Can I take it out for you now?"

"Ten Thousand Years Purple Lotus?"

Lin Caisang paused when he wanted to open the red envelope and spoke in confusion.

She has heard of purple lotus, but she has never seen it, because even on the Qianhuan Continent, purple lotus is very rare, and there are very few in this vast forest.

However, this purple lotus was one of the herbs on the list of medicinal herbs that Lu Tianfeng gave to Lu Tianlan, and it was also one of several herbs that were not toxic.

In this fake Beiming Residence, there are actually ten-thousand-year-old purple lotuses. Is it an unexpected gain?

"Take it out now."

After looking at Sui Zimo, she said to the voice.

Give it a try and see if it's true. This fake Beiming Juli is full of weirdness.

After hearing Lin Caisang's words, a ball of light slowly came to her from far and near. When she stretched out her hand to catch the ball of light, there was a beautiful brocade box inside.

Opening the box, there was a purple lotus inside. Judging from the appearance, it was indeed over ten thousand years old.

"How can this fake Beiming Residence be genuine?" She was surprised. She thought the fake Beiming Residence was a lie before, but she didn't expect it to be real!

"It's true!"

The voice seemed to be able to hear what she was thinking and answered her directly.

Even if it is called Beimingju, it has a fake character, but it is still Beimingju. How could it be fake and still deceive people?

Don't they all know that these days, the most difficult thing to deceive is people? They are so cunning, how can they just let them deceive them as they please? These things are all real.

However, the girl in front of her was really lucky. The red envelope that fell on her shoulder so casually could produce a thousand-year-old purple lotus.

Sure enough, it was the female doll it had chosen. It was extraordinary. It was really extraordinary.

However, there will be no such good luck next time. Good luck does not always exist. After using it once, it may take a long time. I don't know what kind of red envelope they will open next time.

Just as it was thinking about it, a red envelope also fell on the other side, in front of Sui Zimo.

His quick eyesight and quick hands caught it directly in his palm. When he opened it, he saw two words written inside - Jun Chen!

That voice: "..."

Why are these two so lucky?

The first red envelope was opened to the Ten Thousand Years Purple Lotus, and even Jun Chen was received. What kind of luck is this?

You know, the entire Fake Beimingju... no, all the continents combined, only have this Jun Shen Sword. That is a divine weapon, one of the artifacts that the Fake Beimingju uses to control its residence.

Was he driven away just like that... so suddenly?

"Congratulations to this young master for getting the Jun Shen Sword. This is a unique artifact. Could you please take it out now?"
