

## Star of Space 2801

Chapter 2801 Do you like me?

Although it is very unwilling, the red envelope has been given out. No matter how unwilling it is, it has to be given. Even if it is fooled by a fake sword, it is not allowed.

It's fake Beimingju, is it shameless?

"take out."

Sui Zimo didn't say much, just uttered three words lightly.

Since it already belongs to him, if he doesn't take it out, will it stay in someone else's place for the New Year?

As soon as he finished speaking, a ball of light came to him. At the same time, a long brocade box fell into his hand. He opened it and took a look.

A long sword was lying in the brocade box without a scabbard. There was a cold air everywhere in the sword body.

With a flip of his hand, he directly closed the brocade box and put it into Sangmo Garden.

"You two, you have to be careful next time. You have got two treasures as soon as you come here. Your good luck will be used up, right? So, prepare to fight. After the battle, let the ancient monsters take away all the magic on you. Once the bad luck is taken away, there will be something better next."

The voice came again, and it seemed that the sense of loss just now because Jun Chenjian was taken away disappeared at this moment.

There are many artifacts in Fake Beiming Residence, but not everyone who comes to Fake Beiming Residence has something like luck.

Therefore, you cannot miss these two people, let alone let them go. No matter how many treasures you give up, they are still willing to give them up.

"Ancient monsters shouldn't be that scary, right?"

Lin Caisang looked at Sui Zimo, raised his eyebrows, and asked.

There are two of them, but if it really doesn't work, if they release all the people in the Jinzhu Space, can't they still deal with an ancient monster?

If it doesn't work, just imprison the ancient monster in the Infinite Prison and let it cause harm to itself. Without her permission, even the ancient monster cannot get out of the Infinite Prison.

"I come."

Sui Zimo stretched out his hand, wanting to pick up another red envelope falling from the sky.

But there was one hand faster than him. Lin Caisang already had a red envelope in her hand, and she didn't take it on her own initiative. Instead, she spread her hands and the red envelope fell into her palm.

"Maybe this ancient monster likes me?"

Looking at the small red envelope in her hand, she slightly grinned her red lips and said.

That voice: "???"

At this moment, it no longer wants to talk.

The good luck value is not so easy to get, and the good luck will be consumed very quickly?

One of these two people got the Ten Thousand Years Purple Lotus, and the other got the artifact Jun Shen. They should have had a good fight with the ancient monsters to use up their bad luck.

But unfortunately...

"Congratulations to this girl, you have obtained a white magic rope. This is one of the materials for refining artifacts. It can be used to refine artifacts such as whips, and it can also be used to refine permanent magic circles. Can I take it out now? "

It could see that the luck value of this girl was much better than that of a man. The White Magic Rope was really real, and there was only one. How many people tried their best to get the magic rope for nothing? Enter Beimingju.

It's a pity that what those people entered was not the fake Beiming Residence, but the real Beiming Residence.

Therefore, they never got the White Magic Rope.

"White magic rope?"

Hearing these three words, Lin Caisang's eyes suddenly lit up.

Is it that easy to get the White Magic Rope? Did she get it so quickly?

Chapter 2802: Accepting red envelopes and being lenient

Moreover, the White Magic Rope is not in the True Beiming Residence, but in the Fake Beiming Residence. No wonder so many people can't get it.

"Take it out now."

As her voice fell, a black rope soon appeared on her hand.

The so-called White Demon Rope is not white, but a god-level rope that comes from the White Demon Clan. Therefore, it is called the White Demon Rope, and there is only one such one.

She didn't know what Jinzhu Space wanted this rope to do, but she had this white magic rope in her mission.

So, without thinking, she threw the rope directly into the golden bead space.

However, the mission has not been handed in yet, so Bai Mo Rope can still let her warm up for a while, and then hand in the mission when it is time to leave the sea forest.

"It seems that our good luck has not been exhausted yet."

After putting her things away, she looked at Sui Zimo and smiled.

Sui Zimo raised his hand and patted her little face, then turned his hand around and took a red envelope that had just fallen into his own hand.

That voice: "!!!"

...

On the other side, Lin Caisang and Sui Zimo were merciless in receiving red envelopes as if they were celebrating the New Year, and they were all good things.

And on this side, the people who are confused are also endless.

The team that had reorganized their team had not gone far before they fled back in a state of embarrassment, bringing many magical beasts with them.

Lin Changhong and his party, who were enjoying their meal, had to stop eating barbecue and began to deal with the monsters that were attracted to them. The fight was so dark that the sky was dark and the earth was dark.

And Lu Tianfeng and the others were inevitably involved.

"Damn it, what stupid thing did these idiots do?" he yelled as he chopped down groups of monsters.

Those monsters, speaking to them feel like looking at enemies.

Even those things before were not as ruthless as this. These fools must have provoked them, and they must have angered them so much that they chased these people all the way.

But he still doesn't know where these people have messed with the monsters.

The only thing that can be done now is to kill these monsters, otherwise, they will become a feast in the mouths of the monsters.

"What on earth did you do?"

Yuan Jue also noticed it. While cutting down a monster, he pulled a person over with his free hand and yelled at him and asked.

In this confusion, they couldn't even see where the monsters were. They could only fight based on their feelings. They could easily be injured, or they might be hacked to death by their companions.

But unfortunately, there is no way to avoid this!

"I...I don't know, I really don't know anything."

The man who was caught suddenly panicked and kept saying that he didn't know anything.

But anyone could hear how guilty he was in his words. He must have known how to offend those monsters.

"Captain Yuan, Captain Liu, don't worry about those people. I'll activate the formation. Go in and hide first, and let those people die outside!" Lin Changhong was also angry and said directly to Yuan Jue.

He had never seen such a person, who caused them so much trouble, and actually refused to say how he provoked those monsters.

Just like that, pointing them to fight so many monsters for these people?

Chapter 2803 So cruel

How could such a simple thing happen? They wouldn't do such stupid things. They could just hide in the formation and let those people fight on their own!

And he really wanted to ask, how did these people get back here accurately in the confusion? Did they really just come back by accident? If you say this, who would believe it?

No matter who would believe it, he didn't believe it anyway.

"good!"

After hearing his proposal, Yuan Jue and Captain Liu naturally agreed.

They would not believe that things would be so coincidental and that those people would be able to find them accurately and come to them for help.

What's more, when it was so dangerous, these people also lured so many magical beasts to their side, why didn't they let them die together?

What else can they have to say to such people?

Lin Changhong immediately activated the formation, and eight people entered the formation directly, blocking out those people who were full of malicious intentions. When Lu Tianfeng and the others saw this, they also took out their magic weapons. Come and use.

If you go out and fight at this time, wouldn't you be asking for death?

No matter how kind-hearted they are, they will not risk their lives to help others. What's more, they are not kind-hearted people in the first place.

"You...you open the formation and let us in!"

The people who were left outside were crying for their fathers and mothers, wanting to enter the formation created by Lin Changhong.

The attacks of those monsters were so powerful. How could they be able to withstand them? They finally came back here and wanted to rely on the strength of others to kill all the monsters.

How did you know that these people are so cruel and don't care about their life or death?

How is this possible?

"Open it quickly, open the formation quickly and let us in!"

"laugh!"

Lin Changhong sneered.

Although I couldn't see the expressions of those people clearly in the confusion, I could still hear the gnashing of teeth in those people's voices.

I'm afraid these people are cursing them severely in their hearts, right?

"You have to deal with the monsters you provoked yourself. We are not at the mercy of you!" He said to the people outside.

Outside the formation, the monsters not only collided with the formation opened by Lin Changhong, but also naturally showed no mercy to those who were outside. When they attacked, it was called ruthless.

After a while, those people were attacked and fled in all directions, begging for mercy.

"No, don't kill us. We were wrong. We were really wrong. We shouldn't have eaten your children. Just spare us this time. No, there will be no next time."

Several people cried and shouted as they retreated further away.

It turned out that it was because a group of them were walking and suddenly encountered a nest of monster eggs. Together, they roasted and ate the monster eggs.

Who knows, they haven't finished eating yet. Those adult monsters have returned from foraging for food. When they see that their children have turned into mature eggs, how can they be willing to let go of these people?

No, he chased these seven people and started attacking.

These people were okay and knew how to retreat back to where they were. Although they were a little confused about the direction, for some reason, they still retreated back here while fighting.

I thought that Lin Changhong and the others would definitely save them and kill all the monsters.

Who knew that they would refuse to save him?

Chapter 2804 Want to touch them

So in order to save their lives, they had no choice but to retreat further and seek help from others.

"Help, help, come and save us, they won't save us!"

"really....."

When they heard those people shouting in the distance, Yuan Jue and the others' faces turned dark.

Just as they expected, there were not only them, but also others in this maze.

And those are the people who want to use those monsters to deal with them!

"Who could he be? He actually wants to deal with us. He has no grudges, right?" Captain Liu asked in disbelief.

He had just made a guess before, thinking that he might have guessed someone else with a villain's heart. Maybe they just happened to come back here again.

But now I see that these people were really instigated by others and wanted to deal with them.

How much hatred must be there to allow these people to bring magical beasts to kill them? That would take their lives!

"We came to Beimingju together, maybe it's just a matter of enmity." Yuan Jingjing said to Captain Liu.

We both came to Beimingju and wanted the same thing, so how could they not do something to them?

However, without even saying hello, he just made a killing move. It seems that the other party is indeed ruthless. How do those people know what they want to get by entering Beiming Residence?

"No matter what the grudge is, we have to find out who it is before we can make the next plan." Yue Chushui said in a deep voice.

With such a threat around you, no matter where you go, you can't rest assured. You must know clearly who the other party is.

"Yes, Chu Shui is right."

Lin Changhong nodded, thinking this was reasonable.

Why would you want to kill them when you haven't even met them?

It's good enough that they didn't take the lives of those insidious people, but they still want to touch them. Are they capable of touching them?

And those selfish guys, are they just full of shit and do whatever others ask them to do? I am really ill!

"This wave didn't kill people, they will come again." Captain Liu also said in a deep voice.

Since you have already used methods against them, you have already done it once, and you don't care if you use it again, right?

It's just that their team members didn't expect that they would kill them for the sake of those people. It was really in vain that they were so good to them before.

You know, those people got a lot of benefits from Lin Caisang and Sui Zimo.

There is really no one who can be so ungrateful as a human being!

"call!"

The trio of wallflowers listened to their conversation and exhaled heavily with anger.

"It's true that good people are bullied by others. How could there be such a person!"

"If I had known earlier, we should have let them end up in the poisonous swamp. We shouldn't have rescued them!" Another person also said.

You know, of course they, the three-person team, saved some of those people in the poisonous swamp. If it weren't for them, those few people would have been swallowed by the mutated monsters in the poisonous swamp!

Bai was kind-hearted for a while, but now when he looked back, he actually came to harm his savior!

"What's the use of talking about this now? Let's quickly think about how to find those people who are secretly behind. Keeping those people alive will definitely be a disaster!"

Chapter 2805 Indirect relationship

The female team member said to them.

If the harm is not done this time, there will be a next time, those people will even dare to use the monsters, what else will they not dare to do?

"I don't know who he is. Could he be the one who came from Hongye Building with us?"

"Won't!"

As soon as she finished speaking, she heard Yuan Jue's voice ringing in her ears.

"It's still a question whether the people who came with us from Hongye Building know about the existence of Beimingju. Even if they knew, they wouldn't kill us without seeing anyone.

It is so difficult to get out of the maze, so they will definitely want to cooperate with us first to see if they can get out of the maze.

"Who else?"

The female team member asked very puzzledly.

"Who else knows Beimingju, except for us people, I'm afraid it's just the road...could it be their fault again?"

She paused and thought of Lu Tianfeng. This man was also cruel and ruthless. Facing the team member who saved his life, he didn't even have the kindness to dig a hole and bury him.

"They were also attacked." Captain Liu said.

If it was really Lu Tianfeng's people, there was no reason why they would also be attacked.

"Who knows if they were actually attacked? Maybe they were just doing it for us to see, who knows?" One of the three people on the wall said angrily to Captain Liu.

I didn't hear the screams from Lu Tianfeng and his subordinates just now, but it was from their side that he was injured.

Others were more or less injured, right?

"I think that nine out of ten people are from Lu Tianfeng's side. Even if he doesn't have a direct relationship with them, he still has an indirect relationship." Lin Changhong also said the same.

His intuition told him that this matter must be related to Lu Tianfeng and the others, otherwise it would be such a coincidence. As long as Lu Tianfeng is there, something will happen.

...

On this side, Lin Changhong and others put the responsibility on Lu Tianfeng.

Lu Tianfeng, on the other hand, was also furious. He and his subordinates were also injured, and the injuries were serious.

However, even if he was injured, he couldn't say anything.

He and his subordinates were already in obvious opposition to Lin Caisang and the others. If he showed that he was injured at this time, wouldn't it give Lin Changhong and the others a chance to deal with him?

Therefore, he must not let them know the fact that he was injured.

"Master, who could it be? He actually wants our lives!"

The subordinates also felt baffled. They had provoked whomever, and they actually wanted their lives as soon as they came up. Could it be that those people had offended someone, causing him and his master to suffer as well?

But it's impossible, right?

Didn't the master say that there is no one else but them in this confusion?

How come there are so many more people?

Moreover, how many people are there on the other side? This is really a troublesome thing.

The key is that they are in the open, but the people on the other side are waiting in the dark, and there are a few idiots for them to take advantage of. It is really troublesome.

After hearing his subordinate's words, Lu Tianfeng also took a deep breath.

In his heart, he actually had a secret idea, thinking that that person might have sent someone to look for him.

Chapter 2806 Although people are stupid

But thinking about it, I thought it was impossible. If that person sent someone over, they would only join him. How could they want to take his life as soon as they came up?

Therefore, he felt that it was not the people sent by that person, but another group of people who came to know about Beimingju.

And those people who want to monopolize the good things in Beiming's center, and don't want more people to share them, just want to kill them all. It's all over.

Anyway, if they can enter the poisonous swamp, they can definitely get out.

"Master, do you want us to find those people and give them to..."

"Shut up!"

After hearing his subordinate's words, Lu Tianfeng lowered his voice and shouted sharply.

We don't know who those people are yet, so it's too early to say they are immortal.

Moreover, it is not known whether they have that ability. How did he want to kill Lin Caisang and the others before? As of now, I still have nothing to gain.

But it was Lin Caisang and the others who had the upper hand.

"Don't say such words in the future. If others hear you, you will cause trouble for yourself."

"Yes, Master, I realize my mistake." After hearing what his master said, the subordinate immediately responded.

He is not Zhe Feng. He still doesn't know why he offended his master. I'm afraid the landowner's magic weapon is secretly upset right now, right?

After this temptation, he knew what could and could not be said in front of his master. In the future, he would try to avoid such topics and never talk about them again.

"Then what should we do now? Master, if those people miss a hit, there is no guarantee that there won't be another time." He asked.

Hearing this, Lu Tianfeng fell silent.

Of course he knows this truth, but what does it mean?

He is not the only one here, there are also Lin Changhong and others. As long as the two of them follow Lin Changhong and his group, even if they die, Lin Changhong and others will die first, and they can at least take care of them for a while.

"Just follow them. As long as they are around, those people's targets will only be them."

There are only two of them and their target is small, but Lin Changhong and the others have so many people. Even if those people want to deal with them, they should deal with Lin Changhong and the others first, right?

Therefore, he didn't have to worry, just follow Lin Changhong and the others.

...

In the midst of the confusion, there is another place.

If you can see clearly in the fog, you can see that there are people lying on the ground, scattered everywhere, and there is no movement at all.

"Boss, why don't you just kill them? There's no use keeping them." There were two people standing next to them, one of whom asked the other in confusion.

These idiots couldn't even deal with the few people over there, and finally exposed the news that they were in a state of confusion.

If he had had his previous temper, it would have been polite enough to kill these people without even thinking about it.

But now, the boss just knocked them out. Why?

"Although these people are stupid, they are still useful." The man known as the boss said to his subordinates.

After this time, he also saw that the people over there were not easy to deal with. Before, he was still thinking that Lu Tianfeng was so stupid that he couldn't even deal with such a few people and let them follow him to the Lost Bend. among.

Now it seems that it is understandable that that idiot Lu Tianfeng can't deal with those people.

Chapter 2807 Delayed things

"Then...are we going to meet up with Lu?" the subordinate asked.

He didn't like the man named Lu. He was never reliable in doing things. Just like this time, they had to try their best to get into the sea and forest.

"Being not."

The man also said something coldly.

Previously, the master had to rely on Lu Tianfeng to get the things in Haikuo Forest, so he looked at him a few times.

Now that they have found a way to get in by themselves, do they still need Lu Tianfeng?

As for that idiot, let him help them drag those people, and they can enter Beiming Residence before those people and get what the master needs.

"Sneak over there and notify that idiot and ask him to hold those people back. If you can't handle this little thing, then there is no need to exist in this world."

he said coldly.

"Yes, boss, I'll go right away."

When his subordinates heard what he said, they felt excited.

That Lu Tianfeng shouldn't look good on him. He used to be so shy in front of his master, and now it's time for him to cry for his father and mother.

The subordinates left quickly, quickly found Lu Tianfeng and the two of them, and directly told them their purpose.

Of course, he was still very careful in what he did. Even Lin Changhong and the others didn't notice anyone coming. They were still chatting there, waiting for Lin Caisang and Sui Zimo to come back.

As for Lu Tianfeng, when he heard that this person was sent by that person, his face was very ugly.

It's just that this place is confusing. No matter how ugly his face is, the person opposite can't see it, but his mood is really not wonderful.

Those monsters before almost killed him. This person really wanted his life.

How could there be such a person beside that person? He is not reliable at all.

"Lu Tianfeng, do you remember, I held those people back. If they follow them into Beiming Residence, the master will definitely not let you off lightly!"

The subordinates talked a lot, but found that Lu Tianfeng didn't even respond.

In addition, in the confusion, he couldn't see Lu Tianfeng's face clearly, and he couldn't tell what Lu Tianfeng was thinking at all, and he was very confused in his heart.

He was struggling with whether to give Lu Tianfeng a break first and make him more honest.

"What are you thinking about? Hurry up and say something. I have to go back to recover. I don't have time to chat with you here." He said angrily.

Finally, after hearing these words, Lu Tianfeng finally came back to his senses.

"Okay, I know."

He suppressed his inner discomfort and answered.

If he drags Lin Changhong and the others, doesn't that mean that even he can't enter Beiming Residence?

He also pointed out that he could get some things of his own in Beimingju. This group of people was good, and he thought he could order him, right?

Do you really think that Lu Tianfeng is made of clay? Can you let them rub it into any shape?

Is it too simple to think about it?

"It's good to know."

The subordinate felt a little proud when he saw that he answered.

Even when you are outside, you can't get along with your master, but when you get here, you still have to listen to them.

"You wait here. Remember, you have held those idiots back. If you delay things, the master will never let you off lightly!"

He gave Lu Tianfeng one last warning, then turned and left.

Chapter 2808 There are times when they regret

"Master, are they too arrogant?"

After they left, Lu Tianfeng's subordinates couldn't help but feel sorry for their master.

What the hell, do you think you are so amazing? It is still unclear whether those people can enter Beiming Residence.

Otherwise, why didn't that man enter the Haikuo Forest by himself? If he had to let his master in, he would definitely not be able to get in!

After hearing his subordinate's words, Lu Tianfeng also took a deep breath and gritted his teeth.

But what can he do? That person's cultivation level is obviously higher than his, and they should have other people coming with them. If he doesn't follow that person's wishes, he may be in trouble.

What's more, this person is the person next to that person, and he doesn't dare to move.

If they want to go by themselves, then go by themselves.

They also didn't want to think about it. If that person's subordinates could directly enter Beiming Residence, why would that person try every means to let him enter Haikuo Forest and then leave Beiming Residence?

Just let him take the people around him into the sea forest, that's it.

In the end, he had to be let into Beiming Residence.

Or, those people want to take all the responsibility on themselves. Even if the task is not completed in the end, it is none of their business. Then he can directly pass the responsibility. What a great thing?

Therefore, he does not refute this person's words now, but just waits for them to fail and return!

"Just wait, there will come a time when they will regret it.

"Master, what to do with these people? Do we really have to drag them along?"

When Lu Tianfeng's subordinates heard what he said, they didn't say anything, but asked about Lin Changhong and the others.

"them?"

Lu Tianfeng paused and smiled.

"Do they still need us to drag them? Without Captain Lin, they would have been waiting here. It is estimated that when those people find Beiming Residence and cannot get in, these people have not waited for Captain Lin and others. "

he said.

Who knows where Lin Caisang and Sui Zimo have gone?

Maybe it was really like what those people said, and it was swept away by some kind of magical beast? Or maybe they found the direction of Beimingju by themselves, so they left these people behind and went on their own.

The reason why Lin Changhong and Yue Chushui were kept here was to hold back those other people.

After all, if you don't care for yourself, you will be destroyed by heaven and earth. Everyone wants to get good things by themselves, and he has long seen that Lin Caisang or Sui Zimo also have the same things that that person gave him. A magic weapon like a magic weapon.

After Lin Caisang and the two got something from Beimingju, they could hide it and tell others that they had found nothing and were just in danger.

"Master is right, this subordinate made a mistake." The subordinate immediately responded.

...

The subordinates sent in by the person Lu Tianfeng mentioned rushed to Zhenbei Mingju.

On this side, in the Fake Beiming Residence, Lin Caisang and Sui Zimo opened several red envelopes in succession, which were full of good things. They almost vomited blood when they saw that voice.

It has never seen anyone with so many lucky points, as if it can't be used up no matter how much it is used.

You know, in their place, luck and merit are directly linked. How much merit you have done will give you a little bit of luck.

The two people in front of me have accomplished so much!

Chapter 2809 A lucky red envelope

Lin Caisang and Sui Zimo were not in a hurry. They took turns opening the red envelopes. They were afraid that if they opened the red envelopes at the same time, two ancient monsters that needed to be fought would appear, which would be bad.

When Sui Zimo opened the red envelope and got another weapon, Lin Caisang got another red envelope.

Before I could take it apart, I heard the sound again.

"Excuse me, girl, are you sure you need to open this red envelope? This is a lucky red envelope. No matter how much luck you have, it will consume half of your luck.

Now you have two choices: 1. Open the red envelope, which will allow more people to enter the fake Beiming Residence; 2. throw away the red envelope and pretend that you have never picked it up.

How about it, should I throw it away?

You know, this red envelope will not only consume so much of your lucky points, but also attract more people outside to grab your red envelope. "

It thought, if it were it, it would definitely not be willing to let so many people come to its own territory and grab what should originally belong to it, right? Isn't that what humans are like?

However, it obviously underestimated Lin Caisang and Sui Zimo.

The two of them looked at the red envelopes all over the ground, and then at the red envelopes still falling in the sky, and felt speechless.

If everything here is really for free, how much time will it take for them to open so many red envelopes before they can get out?

"I chose to open the red envelope and let more people enter the fake Beiming Residence. Lin Caisang said directly to the voice.

"There are still ten people within the controllable range of Fake Beiming Residence. Are you sure you want to get them all into Fake Beiming Residence? Those are ten people who will snatch good things from you. You Can you bear it?"

"Of course I'm willing to give it up, I'm sure." Lin Caisang replied again.

But she also had doubts in her heart, how could there be only ten people? Even if Lu Tianfeng was relatively far away from them, there were more than ten people here.

Could it be that some people were attacked by monsters and ran a little far?

But soon, she got the promise.

Because the ten people outside were brought in by the voice the next moment, and happened to be next to Lin Caisang and the others.

"Sangsang?"

Lin Changhong was the first to realize that he had moved his position, and he also saw his girl accurately.

When he saw his sister, he immediately ran towards her. If Sui Zimo, his brother-in-law, wasn't watching next to him, he would have hugged his sister and circled her around.

"Sangsang, I finally see you. Fortunately, we were smart and didn't walk away. Otherwise, I really don't know how to find you." Thinking of those ungrateful people, he felt angry.

But now is not the time to talk about that. He looked at his surroundings and then at the falling red envelope.

"Sangsang, these are...ah!"

'Snapped! '

A big hand slapped directly on the back of his hand that was about to reach out to receive the red envelope, causing him to grit his teeth and scream.

He almost wanted to curse, but when he saw that the person filming him was his brother-in-law, he suddenly didn't dare to speak and just shrank his neck.

However, he also knew that these red envelopes were not so easy to get.

"Don't touch these red envelopes yet. There will be a lot of ancient monsters inside, and they will attack us as soon as we open the red envelopes."

Chapter 2810 Everything is available

Sure enough, everyone heard Lin Caisang's words.

"hiss!"

Everyone gasped.

Even Lu Tianfeng and his subordinates retracted the hands they just extended.

The ancient monsters could kill them with just one breath. How could they afford to offend them?

"How...how is there such a place?" Captain Liu turned pale with fright when he heard Lin Caisang's words.

In the confusion before, no matter how bad everyone looked, others couldn't see it, but here, it was very obvious. After hearing Lin Caisang's reminder, everyone looked bad.

"Although there are many ancient monsters, there are indeed a lot of good things. If you are lucky enough, you can get a lot of good things." Lin Caisang added.

"Everything has its pros and cons, and you can't just get good things without paying anything, right?"

she said.

"Anything good?"

Upon hearing this, everyone's eyes suddenly lit up.

As long as there are good things, it's fine. It's okay to let them take some risks.

"Magic weapons, ten thousand-year-old medicinal materials, god-level elixirs, and other things are all available. It depends on whether you can get them." Sui Zimo said calmly.

Of course, he would not say that he and his wife had received a lot of good things.

"Is there anything else that good?"

Sui Zimo's words were undoubtedly an encouragement to everyone, and everyone's eyes lit up.

Even Lin Changhong and Yue Chushui were not calm.

"Yeah, everything."

Lin Caisang nodded and confirmed what Sui Zimo said.

"By the way, where are the people from both your teams? Why aren't they here?"

But she still had to ask why there were so few people on their side. There were only two people in Yuan Jue's team, and Captain Liu was the only one on Captain Liu's side.

Speaking of those people, Yuan Jue and Captain Liu's expressions turned ugly.

"Forget about those ungrateful guys, I'd better not let me meet them again in the future!" Captain Liu cursed.

"What's wrong?"

Lin Caisang didn't know why and looked at Lin Changhong and Yue Chushui.

Lin Changhong didn't look good either. Although he didn't want to remind those people, he still told his sister and brother-in-law what happened outside.

"There are actually other people?" Lin Caisang was also surprised.

Being able to come in from the poison swamp shows that they are not ordinary people, and they are probably not the people who came in from the Hongye Building with them.

Then who could it be?

Sui Zimo directly focused his attention on Lu Tianfeng and his subordinates.

His intuition told him that those people must be related to these two people, but he didn't know what the relationship was.

Feeling Sui Zimo's unkind gaze, Lu Tianfeng raised his head and smiled guiltily at him.

Naturally, it is impossible for him to admit that those people are related to him, and he is not stupid.

"Captain Lin, Mr. Sui, is this Beimingju?" he asked.

"Yes and no."

Lin Caisang nodded and then shook his head.

"This is Fake Beimingju."

"Fake Beimingju?"

Yuan Jue and others were surprised. They never thought that an existence like Beimingju could be real or fake.

Moreover, since it was a fake Beimingju, how did Lin Caisang and the others identify it? Could they still have been to the real Beimingju?
