

Star of Space 2811

Chapter 2811 This is a good idea!

"Beiming Residence is divided into real residence and false residence. Both are Beiming Residence, but they are in different locations and have different modes of completing levels. In this place, as long as you have enough luck, you can get a lot of good stuff.

Lin Caisang explained to them.

"But what Zimo and I mean is that you don't want a few people to crowd together to pick up red envelopes and open them. If there are two or more ancient monsters, we won't be able to deal with them at all.

With just a few of us, we might be able to deal with an ancient monster, but if there are too many..."

"Yes, yes, the captain is right."

After hearing her words, the trio of wallflowers immediately responded.

"This ancient monster is no joke. It can kill people. You'd better be careful."

"Captain, what do you think we should do?"

"Captain Lin, why don't you tell us what we should do?" Yuan Jue looked at Lin Caisang and asked.

Here, Captain Liu has been looking at Lin Caisang. Now he is the only one left in their team. Naturally, there are many people in the team.

And he felt that Lin Caisang did have an idea, and his idea was very good and very correct.

If you don't listen to her, who can you listen to?

"Each of us takes turns to get the red envelope. No matter what we get, we can't complain. If anyone is really unlucky and gets an Ancient World of Warcraft, everyone will deal with it together.

Lin Caisang said.

"That's a good idea!"

Her idea immediately received strong approval from the trio.

In this way, everyone will have the opportunity to get red envelopes. Even if they get bad things, there is nothing to complain about. Who makes themselves unlucky?

"Captain Yuan, Captain Liu, what do you think?"

"Can!"

"I think it's pretty good."

The two people said at the same time.

This method couldn't be better. Everyone has a chance. Even if you don't get something good, you can only blame your own luck.

"Sang Sang, since everyone has agreed, let's make some arrangements first, who comes first and who comes last." Lin Changhong said.

Soon, everyone was lined up. Captain Liu, a team with only one person, received the red envelope first, then Yuan Jue and the female players in his team, then the three-person team, and finally Lin Changhong and Lin Changhong. Yue Chushui and others, the ones at the bottom are Lin Caisang and Sui Zimo.

On the other side, Lu Tianfeng and the others almost vomited blood when they saw Lin Caisang's arrangement.

"Captain Lin, have you forgotten something?" He stepped forward and reminded.

He and his subordinates are still standing here. Their distribution is quite good, but have they forgotten that there are two more people here?

Hearing Lu Tianfeng's voice, Lin Caisang turned his head and looked at him and his subordinates.

"Hey, Mr. Lu, are you coming in too?"

Lu Tianfeng: "..."

He didn't believe that this woman had just seen him. This was definitely intentional.

"Yeah, I don't know what happened, but I came in all of a sudden. I originally wanted to go to Zhenbeimingju." He smiled and replied.

"Oh, so that's what it is."

Lin Caisang stroked his forehead with one hand and looked at Lu Tianfeng with a slightly apologetic look on his face.

"That's my fault. I drew a lucky red envelope, and it cost me half of my luck value to let everyone in from outside. It disturbed Master Lu's trip to Zhenbei Mingju."

Chapter 2812 Are there only two people?

Lu Tianfeng: "!!!"

Is this a disguised way of saying that he is ignorant?

But he really didn't know how to reply. What he just said was just polite, and he wanted to show that he had also entered Fake Beiming Residence.

How did they know that they were able to enter Fake Beiming Residence because Lin Caisang got a red envelope and let them in?

"It turns out that everyone is able to come in thanks to Captain Lin. I am really grateful to Captain Lin. To be honest, we still don't know whether Zhenbei Mingju can be found."

He coughed lightly, and as soon as he changed his words, he started to flatter Lin Caisang.

"laugh."

Listening to his words, Lin Changhong on the side couldn't help but sneered.

"Master Lu can't find Zhenbei Mingju. We have really heard a big joke."

"this....."

Lu Tianfeng choked at his words.

To say that now, he really can't find where Zhenbei Mingju is.

There are people sent by that person. Even if they are found, those people will only think about going in by themselves. How can it be his turn?

At most, when those people can't get in or something happens, they will think of him again and ask him to join in the fun and help them.

But now...

Wasn't he brought into the fake Beiming Residence by Lin Caisang and the others?

Listening to the meaning of these people's words, there are a lot of good things in this fake Beiming residence. Maybe he can really find something that is beneficial to him?

Then he would grind with these people to see what he could get. When the time came, he would have an explanation in front of that person.

"Young master Lin, you are kidding me. There are only two of us here, how can we find Zhenbeimingju?"

While he was speaking, he turned to look at his subordinates.

Fortunately, he had already asked his subordinates to disguise themselves as Zhe Feng, otherwise, they would really be cheating.

"Are there really only two of us?"

Lin Changhong raised an eyebrow at him and asked.

"Well!"

Lu Tianfeng was choked by him again.

He didn't know what Lin Changhong meant by saying this, whether he knew that he had some magic weapon that could carry people, or whether he knew that the people who wanted to kill them were related to him.

Therefore, he would naturally not talk to Lin Changhong about this.

"Captain Lin, I wonder if you would like to add two more people here?"

He turned to look at Lin Caisang and asked.

Among this group of people, the one with the highest cultivation level is Sui Zimo, but this man always listens to his wife, that is, Lin Caisang.

What's more, Lin Caisang obviously has more methods and has more things on his body.

Regarding this matter, I naturally have to ask Lin Caisang.

"This... naturally won't work."

How could Lin Caisang let Lu Tianfeng and his subordinates open red envelopes with them?

If something great comes out, these two people might fight for it, and she doesn't want to take the risk.

Moreover, to be honest, the life and death of Lu Tianfeng and the others had nothing to do with her. Even if these two people really encountered the ancient monster, she thought, she would not come to rescue them.

Unless that ancient monster is blind and can fight anyone.

"Mr. Lu, we already have enough people here. We have to wait for nine people to open the red envelopes before we can have our turn. If we add two more people, it will be too many. You are so powerful, I believe you will OK.

Chapter 2813 Everyone listens to the captain

So what if there were ancient monsters? It would definitely not be a problem for Mr. Lu, right? "

"Well!"

Lu Tianfeng really almost made him vomit blood by Lin Caisang's words.

Why wouldn't he be stumped by the ancient monster? You must know that it is an ancient monster, not one or two people can handle it.

Unless he has a lot of magic weapons on his body that can kill ancient monsters.

But unfortunately, he really didn't have that many magic weapons on his body, so he thought of being in the same group as Lin Caisang and the others.

Otherwise, how could he take the initiative to talk to these people?

"Is it really not possible? Captain Lin, one more person means more strength, right?"

he asked reluctantly.

"We already have a lot of strength." Lin Caisang said to him with a smile.

"How about this? As long as one of us here agrees for you and your subordinates to come over, then I will accept you into my group. How about that?"

Afraid that Lu Tianfeng would not give up, she added another sentence.

Hearing this, Lu Tianfeng didn't say a word. However, when his subordinates heard Lin Caisang's words, they immediately turned their attention to the others.

There are so many people here, there is always someone willing to let them come together, right?

Unfortunately, the development of things was completely different from what he thought.

"Hey, Mr. Lu is so capable. I'm afraid this power is too much and I won't be able to bear it. It's better to say goodbye." This is what Lin Changhong said.

"I listen to Sister Sangsang."

Yue Chushui said directly to Lu Tianfeng and the others.

Didn't Lin Caisang just say that he didn't want them to come together? Naturally, he listened to Sister Sang Sang.

"As a member of the captain's side, we naturally listen to the captain. We can do whatever the captain tells us, right?" One of the trio of wallflowers also spoke, and also picked on the other two. Lower your brow.

"Everything is centered around the captain, and whatever the captain says is what he says."

"Yes, we all listen to the captain."

The other two people also responded. Anyway, they would not be willing to let Lu Tianfeng, a scourge, come to their team.

"Mr. Lu, I'm sorry. I'm only one person here, so it's really hard to talk. Besides, I'm also afraid. Why did that person die before? Everyone has eyes and is watching.

So, you'd better figure it out yourself. "

Captain Liu was even more ruthless. Relying on the support of Lin Caisang and the others, he directly mentioned how the previous team member died.

If the ancient monster is really dismantled later and this guy is in danger, he might use them as a shield. He doesn't want to be used as a scapegoat.

Therefore, whoever is willing to team up with Lu Tianfeng and the others can go. It is impossible for him to go anyway.

"Young Master Lu is so capable. Let alone two people, you can do it alone. Mr. Lu, we will not accompany you." Yuan Jue said bluntly to Lu Tianfeng.

"I listen to the captain."

The female team member glanced at her captain and also spoke.

Lu Tianfeng's subordinate: "..."

Are these people crazy? His master is so powerful, with him as a helper, they can save a lot of energy even if they really encounter ancient monsters!

But none of these people are willing to form a team with his master?

"you....."

"Zhe Feng."

Seeing that his subordinate was about to speak, Lu Tianfeng glared at him coldly.

Chapter 2814 Don't enter the same house!

The subordinate was startled when he heard his master's voice.

Although Zhe Feng was not his name, he also knew that the master called Zhe Feng at this moment was him.

"Master, I'm too talkative." He quickly apologized.

He just couldn't see how these people were blind and treated his master like this.

"Since Captain Lin is unwilling, let's forget it. I can think of a way myself." Lu Tianfeng turned his head and looked at Lin Caisang and the others.

Even if we get an ancient monster, so what?

We are all so close, sometimes we will be affected, right?

When the time comes, Lin Caisang and the others will have to help even if they don't want to. Saying these words to reject them now will have no effect at all.

There are only two of them, so they will get more things. At this time, there is no need to argue with these people. It is better to get your own red envelopes and open your own things.

"Master, what should we do?"

After being taken not far away by Lu Tianfeng, the subordinate asked his master worriedly.

"What can be done?"

Lu Tianfeng asked him back.

"If they don't want to help with some things, can they not help?"

"Master, what do you mean..."

Upon hearing his master's words, his subordinates' eyes lit up and they understood immediately.

"Yes, Master, we are so close to them, even if they encounter a monster, can they still remain calm? It will definitely be affected. By then, even if they want to help, they will not be able to do it. "

There is only so much space here. If an ancient monster comes out, how can those people avoid it?

"But, Master, if they bring out the monsters by then, will we also..."

Thinking of this possibility, my subordinates turned into bitter faces.

It has to be said that Lu Tianfeng's subordinates all have the same temperament as his master. They point others to go through fire and water for them, but they don't want to do anything for others.

It can be said that we are not a family, we don't have to enter the same house!

"At that time, we can just do whatever we can to help them. As long as we have helped them, can they still stand by and watch us?" Lu Tianfeng thought very well.

There are only two of them, and even if they are helping, their ability is limited, but there are ten people over there, and they can help them a lot no matter what.

"Master, you are right, then let's..."

The subordinates' eyes brightened after listening to Lu Tianfeng's words. Just when they were about to ask what to do now, they saw that their master was already holding a red envelope in his hand.

Because there were too many people, the voice stopped talking and just let them see what they got.

And Lu Tianfeng was really unlucky. The first red envelope he got was just an impure crystal stone. He had a lot of such things in his hands.

He didn't even open his eyes, how could he look at her?

On the other side, everyone has made arrangements. The first one to start is Captain Liu. Although Captain Liu usually seems to have a straight back, but in this fake Beiming Ju, his character may have exploded, right?

When he opened the first red envelope, he got a weapon, and it was a weapon that he could use easily. Although it was not a divine weapon, it was a rare spiritual weapon that he would never have gotten outside.

Chapter 2815 It's an ancient monster!

He smiled honestly at everyone, then put away his weapons, preparing to use them immediately if there was a battle.

The second one is Yuan Jue and the female team members. As a team member, Yuan Jue asked his team members to open the red envelopes first.

The female team member was not polite. After receiving a red envelope, she opened it and found a thousand-year-old medicinal material in the circle of light. She was almost overjoyed.

She also saw what Lu Tianfeng had dismantled before. It was just an impure crystal. She thought that her luck was over, but she didn't expect that she could still get a thousand-year-old medicinal material.

This medicinal material is worth a lot of non-pure crystal stones when it reaches the outside.

Next was Yuan Jue, then the trio, and then Lin Changhong and Yue Chushui. Everyone got something they liked, and it was all valuable.

But Lu Tianfeng and his subordinates on the other side were watching the people here opening red envelopes. All of them were good things. They had opened them several times, but there was not a single thing that caught his eye. ah.

He was immediately furious.

I really want to throw away and smash everything in my hands.

But thinking about the fact that Zhe Feng had offended Mr. Gou and caused him to suffer a lot, he was afraid that the same would happen in the fake Beiming Residence.

Therefore, how dare he?

Even if you don't like the things in your hands, you still have to pretend to be very Yuan Jue and put them away happily.

"Well, these two people are really pitiful. They even like these low-class things so much. It shows that they are very poor people. Since this is the case, then give him more low-class things, as long as he likes them."

Although the voice never came out, everyone could naturally see something if they got something.

Seeing that Lu Tianfeng and the two of them accepted these gadgets with such joy, they felt quite sympathetic to these two people. Those better things could not be given to whomever they wanted.

But it can make the final decision on these gadgets.

Therefore, for a long time in the future, Lu Tianfeng and his subordinates could only get some very inconspicuous things.

But, even if they don't like it and want to curse, they can only pretend that they like it, carefully put it away and keep it, and they even have to control their faces so that no one can find out that they don't like these things. ah.

From then on, the red envelopes for Lu Tianfeng and the two of them were filled with impure spar, medicinal materials that had been produced for several years, and some cheap alchemy materials.

Lu Tianfeng was so angry that he almost cried, but he still had to pretend to be happy.

On the other side, Lin Changhong and the others almost laughed out loud when they saw Lu Tianfeng's expression of wanting to cry but not daring to cry.

As for them, there are really quite a lot of good things here, but, after opening the red envelopes...

"No, it's an ancient monster!"

Apart from Lin Caisang and Sui Zimo, Captain Liu's stuff was the best.

Maybe the lucky points were almost used up, and the bad luck was on the rise. Before I could open the red envelope in my hand, I heard the roar of a monster.

The expressions of several people suddenly changed.

"Oh my god, how could I dismantle the ancient monster?"

Captain Liu was also confused at this moment. He shook his hand and dropped the red envelope to the ground.

The red envelope vibrated on the ground a few times, then floated up and stopped in mid-air.

Chapter 2816 Nothing is not scary

Everyone felt a flash of white light, followed by a few roars of a monster, and a huge flying monster was already in front of everyone.

"Roar!"

The flying monster roared again, and flames spurted out from its mouth.

That direction was exactly where Captain Liu was standing.

Seeing this, Lin Caisang immediately took action with the long whip in his hand, wrapped Captain Liu's waist and pulled him to the side.

"hiss!"

Everyone was shocked. They saw that where Captain Liu was standing just now, the flowers and plants were all turned into ashes, and a big pit was created by the flames.

If this sprayed on someone, would that person still exist?

It scared me to death!

"Everyone, please be careful, this ancient monster is difficult to deal with!" Yuan Jingjing shouted at everyone.

Seeing this scene, everyone's expressions were not good-looking, especially the trio. After hearing Yuan Jue's words, they couldn't help but want to complain. But what kind of thing is the word "ancient" attached to it? Are the monsters easy to deal with?

But they had no time to complain, so they could only grit their teeth and attack the ancient flying monsters. Although their power was really very small, for the ancient flying monsters, it was almost like scratching an itch.

But it's a strength after all, isn't it?

On the other side, when Lu Tianfeng and his subordinates saw those ancient flying monsters appearing out of thin air, they felt bad.

I had thought about helping those people before, so that they would have to help them when the time came.

But at this moment, they instinctively ran to a place they thought was safe, thinking of hiding quickly so that this ancient flying monster could not be discovered.

"Master, this ancient monster is too terrifying!"

The subordinate also saw the scene of the ancient flying monster breathing fire just now, and patted his chest with lingering fear.

If Lin Caisang hadn't saved him in time, Captain Liu would have turned into ashes, and there would be no need for them to deal with him in the future. Unfortunately, Lin Caisang acted too quickly.

"There is no such thing as an ancient monster that is not scary."

Lu Tianfeng rolled his eyes at his subordinates and said directly.

He retracted his previous thoughts. They really couldn't afford to offend such an ancient flying monster, and they didn't know how Sui Zimo and Lin Caisang could kill it.

"Then are we going to help?" the subordinate asked.

Didn't his master just say that he was going to help? Then those people would have no excuse not to help them.

However, looking at the current situation, if they go to help, it is not certain whether they will be able to come back. The ancient flying monster is really too big, and it can fly and is super agile!

"Just wait and see."

Facing the questions from his subordinates, Lu Tianfeng was unsure for a moment.

There are ancient monsters in Fake Beiming Residence. This is a fact that everyone knows. He has some magic weapons that can be used and can open some red envelopes. However, Lin Caisang and the others are also opening them.

It can be seen that they are not afraid of these ancient monsters.

He wanted to see what Lin Caisang and Sui Zimo were capable of, being able to defeat such a powerful ancient flying monster at their hands.

And upon hearing his master's words, his subordinates also fell silent.

He didn't want to be killed by ancient monsters for others, especially those who were his master's enemies.

Chapter 2817 Desperate Things

He couldn't be happier when he heard Lu Tianfeng say wait a little longer.

He thought that the ancient flying monster would disappear after killing the people he needed to kill.

After all, this red envelope was opened by Captain Liu. As long as Captain Liu dies, the ancient flying monster will have no target, so it shouldn't attack them, right?

"Zimo, brother, be careful."

Lin Caisang was with Yue Chushui at the moment, plus Captain Liu who was rescued by her.

But now, Sui Zimo and Lin Changhong are the first to bear the brunt. They are directly opposite the ancient flying magic beast, and they are directly confronting the magic beast.

"Sister Sangsang, my brother-in-law will be careful, you take care of yourself." Yue Chushui reminded her quickly when he saw that she had to deal with the tail of the ancient flying monster while also paying attention to Sui Zimo and the others.

This ancient flying monster is actually about the same size as the one encountered before in the vast forest.

But the same size does not mean the same strength. How can they withstand the attack of this ancient flying monster? He was able to parry the attack of a monster before, and he can also fight back.

But now...

The three of them together can parry a blow from the ancient flying monster, which is already very good.

"I know.

Lin Caisang replied, the long whip in his hand kept attacking the monster.

"What is this? It's terrible."

Captain Liu cursed secretly. Because of his attack, his spiritual power hit the monster's body, but it didn't even move its skin, as if he was looking for a stone.

No, even if it is a stone, it will become shattered if his spiritual power goes down.

But now, the dozen or so spiritual powers he unleashed were unable to create an additional wound on the ancient flying monster.

Is there anything more desperate than this?

"Captain Lin, Mr. Yue, our attacks are nothing to it!" He said to Lin Caisang and the others.

It wasn't just him, other people's attacks on the monster couldn't hurt it at all. If they continued to fight like this, their spiritual power would be exhausted, but nothing happened to the monster.

But as soon as he finished speaking, he saw the whip in Lin Caisang's hand hitting the monster.

There was a 'pop' sound.

The monster's originally hard body immediately splattered a strip of blood, almost splashing on Captain Liu's body.

He hurriedly avoided it, joking, who knows if the blood of this monster is poisonous? It must be avoided. What if it is poisoned?

However, he was also surprised.

Why are other people's spiritual attacks useless against this ancient flying monster, but Lin Caisang's can hurt it?

And it's not just Lin Caisang, but also Sui Zimo. His spiritual attack can also cut wounds on the ancient flying monster, making the ancient flying monster crazy.

Could it be that their spiritual power is different from Lin Caisang and Sui Zimo?

"this....."

"The direction of the spiritual power attack is wrong. You see, the scales on its body are standing upside down. It is useless to attack with your spiritual power." Lin Caisang reminded everyone in a loud voice.

The scales of this ancient flying monster are different from those of ordinary scales.

Chapter 2818 Can you still transform?

The scales of ordinary monsters are like fish scales, and they are straight, but the scales of this monster are upside down.

In such a situation, ordinary attacks are of no use.

After hearing Lin Caisang's words, everyone turned their attention to the ancient flying monster. At first glance, it was as Lin Caisang said, the scales of this monster were standing upside down.

But everyone attacks casually, and no matter how powerful the spiritual power is, it will be bounced back.

They were extremely lucky that the spiritual energy did not bounce back to them. If they were not careful, it was very likely that they would be injured by their own spiritual energy.

While everyone was watching the magical beast, the long sword in Sui Zimo's hand had already peeled off several pieces of the scales on the ancient magical beast.

When everyone saw it, their eyes suddenly lit up.

The scales of ancient monsters are the finest materials for alchemy, something that can only be encountered but cannot be sought.

"Everyone, work harder and peel off all the scales of this monster!"

Thinking that they could get a lot of alchemy materials, everyone was excited. Someone immediately shouted that they would combine their strength to peel off all the scales of the ancient flying monster.

After saying this, everyone slashed at the ancient flying monster.

The ancient flying monster's scales also fell all over the ground, and at this moment, it was really completely angered by these bold humans.

These little things, which are just like ants in its eyes, actually want to expose its scales?

Do you really think it is easy to bully?

"Ho ho, ho ho ho!"

Immediately, the ancient flying monster roared several times, its body grew several times larger, and almost knocked away several people who did not react.

Fortunately, there were people beside them, and those who reacted promptly took them away.

"Oh my god, can this still transform?"

The trio of wallflowers saw this ancient flying monster suddenly growing in size and felt it was incredible.

On the other hand, they also felt very panicked. This guy wouldn't be able to grow bigger all the time. In that case, how long would they have to kill him?

As the ancient flying monster's body grew several times larger, the scales on its body became stronger than before.

People who were originally able to knock off a few scales with their spiritual power were no longer able to do so at this time.

"Be careful, no matter whether he gets bigger or not, we must defeat him!" Another person said to his partner next to him.

Today's struggle is a battle to the death.

If they can't kill this ancient flying monster, then the ancient flying monster will kill them.

Therefore, they have to fight tooth and nail to kill it!

On the other side, Lu Tianfeng and the two people, who were almost at a disadvantage when they saw the ancient flying monster, were about to take a step forward, wanting to help Lin Caisang and the others and take advantage of it.

Little did they know that as soon as they lifted their feet, the monster suddenly grew several times in size.

"this....."

The subordinate looked at the monster in astonishment and swallowed.

"Master, do we still want to help?" He turned his head and looked at his master and asked.

In such a situation, if they took action, there was no guarantee that the ancient flying monster would still have some tricks up its sleeve.

If they were really unlucky and couldn't defeat this monster, wouldn't they be involved in it?

Chapter 2819 Don't dare to do two things at once

Hearing his subordinate's words, Lu Tianfeng hesitated even more.

Just now he saw so many scales of ancient flying monsters falling on the ground, and he wanted to get a share of the pie, but now... how could he dare to go up there? This monster was obviously not something they could deal with.

Not only him, why did Lu Tianfeng want to go up and help?

That was an ancient monster. When it was still small just now, it would create a big pit when it breathed out a mouthful of fire.

Now if they go up, what if one of them fails to dodge and is burned by the fire? The fire is not an ordinary fire at first glance. Otherwise, how could it be possible to burn even the soil?

I really don't want to go over and help, but it doesn't seem possible if I don't go up.

Looking at Sui Zimo and the others, it seemed that they were really sure of killing the ancient flying monster.

If they don't go up, not only will they not get the scales of the monster, but if they later pull out a red envelope with an ancient monster, those people won't come to help.

"Let's go help!"

Lu Tianfeng took a deep breath and finally decided to get a piece of the pie.

The worst thing is, if he sees something is wrong later, he will run away quickly. He can still manage to escape.

"Go...to help? Yes, Master."

The subordinate almost couldn't believe what his master said, but after hesitating for a moment, he still answered and followed his master to help.

"Captain Lin, Mr. Sui, it seems like he can't do it without my help. I'll come over right now..."

"Roar!"

While Lu Tianfeng said sour words, he flew towards the ancient flying monster, preparing to give him a blow.

Little did they know that the demonic beast was being slashed with spiritual power by Lin Caisang and the others. He was so angry that he happened to hear Lu Tianfeng's voice, fluttered his wings, turned around, and spit out a mouthful of flames towards Lu Tianfeng.

"ah!"

"Master, be careful!"

When the subordinate saw his master, he was about to be sprayed with flames, and quickly rushed towards him.

Just like that, the two people fell straight down from mid-air and fell hard to the ground.

But because of this, he escaped a disaster.

When the two stood up from the ground and turned to look behind them, they saw a large pit on the ground not far away, with a blazing fire burning inside.

And this pit was obviously much bigger than the one they had seen before.

"cough!"

Lu Tianfeng coughed heavily, with a look of embarrassment on his face.

After a while, he turned around solemnly, raised his hand in a pretentious manner and patted his dirty clothes.

If it hadn't been for what he said to Lin Caisang and the others just now, it wouldn't be so embarrassing, but now...he has really lost all his face and dignity.

"Master, are you okay?"

His subordinates finally came to their senses and hurriedly asked their master with concern.

"fine."

Lu Tianfeng shook his head slightly.

At this moment, he was extremely lucky. Fortunately, Zhe Feng had been replaced. If the subordinate beside him was Zhe Feng in danger this time, his life would really not be saved.

Zhe Feng didn't react so quickly. Either he died, or both of them died together.

Over there, there were several people who were dealing with the ancient flying monsters. Others did not have the guts to turn around and look at Lu Tianfeng's embarrassing state, because they did not dare to multitask.

Chapter 2820 The person who lives the longest

But Lin Caisang, Sui Zimo, and Lin Changhong have this ability.

Lin Changhong looked at the two people with a look of ridicule on his face.

They really had a high opinion of Lu Tianfeng before. He was a man with a smooth mouth and weak work. It was really hard for him that the person behind him could actually help him to become the number one son of Sky City.

How come no one noticed it before?

It seems that the person behind Lu Tianfeng has spent a lot of energy on the chess piece Lu Tianfeng.

"Luzi, don't say a big thing, be careful, get older, don't flash to your old waist anymore. In that case, it is our sins

Lin Changhong said to him funnyly.

That's right, Lu Tianfeng is as old as their fathers. For young people like them, he is too old.

But unfortunately, the man in front of him insisted on being called "Gongzi" by everyone. He was obviously an old man, but he still had to compete with young people to be a "Gongzi". Didn't he deserve to be laughed at?

He would not sympathize with Lu Tianfeng.

However, when Lu Tianfeng heard his words, his expression changed.

What he hates most is when others use his age as an issue. Once he gets the benefits he deserves from that person's side, what does his age mean?

By then, he will be the longest living person on Qianhuan Continent.

No.....

He will not stay on the Qianhuan Continent, the lowest continent, in the future. He will rely on that person to move to a higher continent.

But although he thinks so in his heart, others don't know.

He couldn't tell others the truth without speaking out, and besides, the promise that person made to him had yet to be fulfilled.

Obviously he has done so many things to help that person, but after he has done those things, there will be more things for him to do.

And that person's commitment to him was increasing little by little.

Although he was happy in his heart, if he accomplished everything that person told him, he would definitely have a good future in the future.

But at the same time, he is also worried.

All the promises made by that person were like drawing cakes to satisfy hunger, and there was no substantial reward at all.

At most, you can treat him like a kitten or puppy, give him some small things to kill him, and then let him continue to work for him with a superior attitude.

There was no telling when this kind of day would end, so how could he not worry about it?

Therefore, when Lin Changhong mentioned his age, he instinctively thought of so many things. Sometimes, he really wanted to ask that person why he hadn't arranged for him to go to other continents and live a better life. life?

However, he didn't dare. How dare he say such things to that person.

"you....."

The word 'you' got stuck in his throat, and he almost choked himself to death.

His face turned red and he glared angrily in Lin Changhong's direction. However, after Lin Changhong said these few words, he continued to deal with the ancient flying monster. How could he have the time to pay attention to him anymore.

After a while, he took a deep breath and suppressed the anger boiling in his heart.

"Master, what should we do now?"

The subordinate looked at his master and asked.

Listening to Lin Changhong's words, he was really angry, wishing that this person would be killed directly by the monster.
