

Star of Space 2821

Chapter 2821 Is it intentional?

But unfortunately, this man's skills are pretty good. An ancient monster was attacked by so many people and couldn't hurt him at all. He doesn't want to help these people now.

"Go and help." Lu Tianfeng said coldly.

What else can be done now? He could conclude that Lin Changhong did it on purpose and deliberately wanted to make him angry in order to achieve their purpose of separation.

Therefore, he couldn't let Lin Changhong get his wish.

He has decided to help with this favor, and he will be able to get a lot of good things later.

He could see at this time that Lin Caisang and the others really didn't take this ancient flying monster seriously. They were so calm during the fight.

"Yes, Master.

Seeing that Lu Tianfeng had said this, as a subordinate, what else could he say? He could only agree.

So, the two people rushed forward without hesitation and slashed at the ancient flying monster. Unfortunately, just like Captain Liu's attack at the beginning, they had no effect on the ancient flying monster.

It can't hurt this monster at all.

"so stupid!"

Even the trio of wallflowers couldn't help but curse after seeing Lu Tianfeng and the others attacking.

"Roar!"

The ancient flying monster roared and swept towards everyone with its huge wings.

"Everyone, be careful!"

Lin Caisang hurriedly reminded everyone, but she herself only had time to dodge and stepped aside.

"ah!"

Several screams rang in her ears.

She turned around and saw that Lu Tianfeng, his subordinate, and several others from Yuan Jue had been swept to the ground and fell miserably.

The next moment, Yuan Jue and the others immediately stood up and continued to fly forward, attacking the ancient flying monster. They did not relax their attacks at all because they were hurt by being thrown.

On the other hand, Lu Tianfeng and his subordinates stayed where they were after being knocked dizzy.

It's not that they didn't fight hard, but the two of them were the worst hit because the ancient flying monsters were attacking them.

Yuan Jue and others were involved.

"Master, are you okay?" The subordinate came to Lu Tianfeng's side and asked with concern.

"fine."

Lu Tianfeng gritted his teeth and replied.

He felt that he was really unlucky. The ancient flying monster's attack on those people was not that strong before, but when it came to him, it almost knocked out all his internal organs.

Is this ancient flying monster intentional?

"Don't be stunned, continue attacking and kill it!"

He looked at the ancient flying monster fiercely and ordered to the subordinates around him.

How could he give up after almost being handed over to this ancient flying monster twice in a row? This time, he had a fight with this guy!

"Yes, Master."

Seeing that their master was completely angered by the ancient flying monster, his subordinates also hurriedly responded.

The two of them ignored the pain on their bodies and continued flying in the direction of the monster, joining the battle.

...

The battle continued, and I don't know how long it took. The ancient flying monsters were beaten smaller and smaller by them, and their bodies also changed back to their previous size.

"It seems that this monster will become smaller and smaller."

Lin Caisang also saw that as long as they continued to fight, this monster would become smaller and smaller until it finally disappeared.

Chapter 2822 Transformed from spiritual power!

And she also guessed that this was not a real ancient flying monster at all.

"continue."

Sui Zimo said to his wife.

Everyone's positions had slowly changed just now, and he had returned to Lin Caisang's side.

Lin Caisang could tell, and naturally he could tell that this was not a magical beast at all, but was made of spiritual power. If the scales fell off, it might be something that fell off.

It's just that no one has thought about this level yet. All their energy is focused on how many scales and goodies they will get after killing this monster.

Naturally, he would not be kind enough to tell them, otherwise, everyone would have no passion to deal with this monster.

After a long time, a large ancient flying monster was defeated by everyone.

The so-called "killed" means really "killed". Even the scales of the monsters that were originally beaten down have disappeared, not a single piece is left.

Looking at the empty ground, everyone was shocked.

Even Lu Tianfeng and his subordinates, who originally ran forward to help Baba, thinking they could get a share of the pie, were stunned.

"this....."

He wanted to ask what was going on? Did Lin Caisang hide everything?

Don't think that he doesn't know that Lin Caisang must have a magic weapon hidden on his body. Otherwise, how could they have disappeared like this after they had obtained so many things before? They must have been hidden by Lin Caisang.

But before he could ask the question, Yuan Jue and Captain Liu were heard questioning the situation at the same time.

"This is not an ancient monster!"

"It's actually made of spiritual power!"

Although the two voices said different words, they all meant the same thing, that is, the so-called ancient flying monster they had been fighting for so long was a fake.

"What?"

Others also exclaimed in amazement.

"It's actually made of spiritual power. Doesn't that mean we didn't get anything?" One of the grasshoppers on the wall had a look of despair on his face.

He was so happy before that he felt that he really made a profit this time.

Who would have thought that it would be an empty joy, that all these things would be fake, fakes transformed by spiritual power!

"Why didn't you get anything?"

The other person didn't agree with his words and curled his lips.

"We have had such a fight, and our own cultivation has also improved, not to mention our reflexes. Don't you feel that although you are tired, your body is much more comfortable than before?"

After hearing his words, the man who felt that the sky was about to collapse felt something. Sure enough, his body became much lighter.

"It's really like this. This place is really a good place!" He couldn't help but sigh.

From this, he had to admire Lin Caisang for spending so much of his luck to get them in. How could it have been possible if it had been someone else.

It must be that not all the good things here are obtained by yourself.

What's more, Lin Caisang used his luck to exchange the opportunity for everyone to enter here. Who would be so stupid?

"Captain Lin, you are so righteous. The person I admire the most is you!"

He raised his thumb to Lin Caisang and said.

Hearing this, Lin Caisang just smiled and said nothing.

Chapter 2823 There is no three hundred taels of silver here

On this side, Sui Zimo had already held his wife's hand and was about to sit down and take a rest.

"Are you tired? Take a rest. I'll make you something if you want to eat?" Sui Zimo asked her.

"Eat whatever you want. I suddenly want to eat fruit. Do you want to eat it?" Lin Caisang looked at her husband and asked with a smile.

Everyone has been fighting with the ancient flying monster transformed by spiritual power for so long. Although it was transformed by spiritual power, this ancient monster is also very powerful.

At this time, how could she still be willing to let her husband work for her anymore?

"Then eat something." Sui Zimo responded.

The next moment, Lin Caisang took out some fruits, placed them on the grass, and asked everyone to share them.

"Everyone has been fighting for so long. Let's all take a rest and recover our physical and mental strength before starting again." Yuan Jue said to everyone when he saw Sui Zimo and Lin Caisang sitting down to rest.

"Yes, yes, everyone, please sit down and take a rest. We are really tired." Lin Changhong also said to everyone.

Everyone tacitly paid no attention to Lu Tianfeng and his subordinates, let alone said anything to them, and just ate the fruit.

Lu Tianfeng: "..."

Is this service in vain?

I thought I could get a lot of good alchemy materials before, but I didn't know they were fake!

But now, even though he had helped these people before, these people still didn't take him seriously. Even if they had fruits, they wouldn't have his share!

This really wants to make him angry to death! ! !

"You, you..."

He raised his hand tremblingly and pointed at those people with his index finger.

"What's wrong with Mr. Lu? After a fight, aren't you tired at all?" Captain Liu heard his voice, raised his head and saw his face that was red with anger, and asked involuntarily.

"That's right. How can we people compare with Mr. Lu? Your cultivation level is so high. Let alone fighting like this, even if you can deal with a real ancient monster by yourself, it won't be a problem."

Everyone: "..."

Captain Liu, can you be more exaggerated?

Anyone with a discerning eye can see that Lu Tianfeng is about to get sick from anger when he sees that all of them have fruit to eat, but he and his subordinates don't.

Sure enough, after hearing Captain Liu's words, Lu Tianfeng became even more angry, and it almost felt like smoke was coming out of his head.

"You guys are just...Zhao Rui, let's go!"

He was so angry that he forgot about the subordinate beside him. He had to pretend to be Zhe Feng and called his name directly.

Hearing this, Zhao Rui's eyelids jumped and he was almost scared to death.

Is his master crazy? To actually call him by his name, isn't this just to tell everyone that he is not Zhe Feng, but he is still bearing Zhe Feng's face now.

"Master, this subordinate is Zhe Feng, not Zhao Rui." He said quickly, wanting to make up for his master's fault.

After hearing Zhao Rui's words, Lu Tianfeng finally came to his senses and regained his sanity.

"They are all so angry with these people, let's go!"

Then he took Zhao Rui away and rested somewhere far away.

"laugh."

Looking at their retreating figures, Yue Chushui sneered.

The saying that there is no three hundred taels of silver here is referring to those two people, right? When it comes to explaining this kind of thing, don't they know that the more they explain, the more unclear it becomes?

Chapter 2824 It's so awesome

Fortunately, Lu Tianfeng was still doing everything he could in Qianhuan Continent, but he couldn't even figure this out. It was really disappointing.

"That person is actually not..."

At this time, Captain Liu and the others also reacted, staring at Lu Tianfeng and the others' retreating figures with wide eyes.

Only then did they realize that this person was not the same person before, but a different person.

However, they must not know at all when this person was replaced. Moreover, in this vast forest, how can people be replaced if they want?

He turned around and looked at Lin Caisang and Sui Zimo, and at Lin Changhong and Yue Chushui, who looked calm.

It can be seen that they also knew that the subordinate beside Lu Tianfeng was not Zhe Feng early in the morning. Unfortunately, Lu Tianfeng still felt that he had done everything flawlessly.

"He...he has a magic weapon that can hide people?!"

One of the three people on the wall said in shock.

They are not fools. They have heard of this magic weapon that can hide people, but they just haven't had the chance to see it.

But they also know who Lu Tianfeng is. He has a magic weapon that can hide people, so it won't shock people so much.

But.....

"He...had been following Captain Liu before...They didn't want to...replace Captain Liu and his entire team with their own people, right?"

He remembered that Lu Tianfeng and the two had wanted to kill Captain Liu and the others several times in the vast forest.

I used to think that he wanted to do something big, and he was afraid that Captain Liu and the others would ruin the good thing, so he had murderous intentions. How could he have imagined...

It turned out to be because Lu Tianfeng had a magical weapon that could hide people, and he could completely replace the original person.

His eyes moved back and forth between Captain Liu and Lu Tianfeng in the distance. He almost spit out a mouthful of blood, and secretly breathed a sigh of relief for Captain Liu.

Fortunately, the captain and the others were watching secretly. Otherwise, I don't know whether Captain Liu would have survived to this day.

Tianfeng on this road is so awesome!

When Captain Liu heard his words, his face immediately darkened.

He had previously speculated that Lu Tianfeng wanted to deal with them and want their lives, but it was never confirmed.

Now that I think about it, I'm afraid that this person was already thinking about how to kill him and a few team members in the Sea-wide Forest before he entered the Sea-wide Forest, right? This is really cruel.

Those team members of his deserved it. They failed to live up to their expectations and still thought they could get benefits from other places. What now, he is the only one left, right?

I don't know where the other people are?

"call!"

He exhaled heavily, feeling helpless.

A person's path is one that he walks out on his own. Depending on his mentality, what kind of path will appear in front of him.

He was also a selfish person before, so he was always in a passive state. Now his mentality has changed, and he suddenly feels that he is no longer afraid of Lu Tianfeng.

I also feel that this person is really too vicious, and even death is not enough to atone for his sins, right?

"I'm lucky," he said.

Thinking about the team member who died in the poisonous swamp before, they dug the hole and buried it.

He was not lucky. He was able to survive Lu Tianfeng's calculations without being killed.

Chapter 2825 It's my turn again

"Don't worry about them for now. Sit down and rest. We will continue to open the red envelopes later." Lin Changhong reminded them.

No matter how much they study Lu Tianfeng here, it is useless. He is already a completely rotten person. What else is there to talk about?

On the other hand, they should eat what they should eat and drink quickly to replenish their physical strength before they can continue.

"Well!"

When it comes to opening red envelopes, Captain Liu feels too depressed.

The previous ancient flying monster was taken out by him by opening the red envelope. If the next one is still ancient...well, no, no.

Before he finished thinking about it, he quickly shook his head. He wouldn't be so unlucky. The two red envelopes in a row were both ancient monsters. So should he still live?

"Sit down and rest. Yuan Jue also said to everyone.

...

Half an hour later, everyone had rested and soon started opening red envelopes again.

However, after the battle with the transformed ancient flying monster, I don't know if it was their illusion, but I always felt that what they took out was too ordinary.

In a word, they are all ordinary things. One good thing like before is gone.

Of course, their luck is incomparable to Lin Caisang and Sui Zimo.

Even though Lin Caisang said before that she had spent half of her luck points to allow them to come in together, the red envelope she gave out was still much better than others.

But at this moment, everyone's mentality is quietly changing.

Once you have got good things, you don't think about getting many more good things. No matter what it is, as long as you can get it and get it into your own hands, it is the best.

"It's my turn again."

Among them, Captain Liu is probably the one who feels the most guilty about opening the red envelope, right?

Every time it was his turn, he would think about how he had dismantled an ancient flying monster with spiritual power, so his hands would tremble.

"Just choose this one."

This time, he did not catch the red envelope falling from the air. Instead, he squatted down, picked up a red envelope from the ground, and took it into his own hand.

However, as soon as the red envelope was in his hands, there was only a deafening sound.

"Ho ho ho!"

"ah!"

His heart skipped a beat and he screamed instinctively.

As soon as his hand was loosened, the red envelope almost fell to the ground. Fortunately, Yue Chushui on the side saw it and picked it up for him in time.

Otherwise, this opportunity will really be wasted, right?

"Ho ho ho!"

The roar sounded again, and everyone turned to look, and saw Lu Tianfeng and his subordinates who were opening red envelopes on the other side, and they had been driven around by the ancient monsters.

After a while, Captain Liu came to his senses, stiffened his head and looked in the direction of the giant monster.

"No...I didn't take it apart!"

He secretly breathed a sigh of relief when he learned that it was not him who had dismantled an ancient monster again.

The next moment, he thought, he was so frightened just now that he threw the red envelope in his hand, and he hadn't even warmed it up yet!

"Ah, my red envelope..."

He screamed, and before he had time to regret it, he saw a red envelope being handed to him.

Seeing this, he slowly raised his head and looked at the person who handed the red envelope to him.

Chapter 2826 'Help' is necessary

"Master Yue..."

"I caught the red envelope just now, red for you." Yue Chushui looked at him and said.

By the way, he handed the red envelope back to him. This red envelope was useless in his hand and could not be opened.

But this was Captain Liu's opportunity. It was such a pity to waste it like this.

"Thank you, thank you."

Captain Liu quickly thanked him. This was his opportunity. How could he just throw it away?

Fortunately, Yue Chushui was picked up!

"Open it, we'll all have to go over to help later," Yue Chushui said.

Lu Tianfeng had helped them before. Although he was always helping them more and more, what does it matter?

Even if Lu Tianfeng and the others hadn't come to help them, how could they miss such a rare opportunity to fight monsters and improve their strength?

So, 'helping' was a must in the past.

"oh oh."

Captain Liu quickly took the red envelope into his hand.

However, before he could say anything else, there was a roar of a monster that was completely different from the monsters on Lu Tianfeng's side.

"Roar!"

Captain Liu only felt the red envelope in his hand shaking a few times. This time, he really threw the red envelope directly.

And this time, no one went to pick it up for him, because a magical beast had already appeared in front of them.

Captain Liu: "..."

Why is he so unlucky? No one has ever dismantled ancient monsters, but he has dismantled two of them. This is extremely unlucky, isn't it?

However, even though he was thinking this, after the experience, he still retreated very far away very quickly.

He didn't want to be like the last time, when he was almost sprayed into ashes by the ancient flying monster.

However, after he had flown far away, he turned around to look at the monster he had driven out, and saw that except for him, no one else had run away.

And where he was standing just now, there weren't many big monsters, but only one monster about the same size as them appeared... No, it should be a little monster.

"Captain Liu, why are you traveling so far away?"

Lin Changhong looked speechlessly at Captain Lin, who was standing in the distance looking at them with a confused look on his face, and asked loudly.

"I....."

Captain Liu himself was so angry at his own stupidity that he was speechless for a moment.

He could say that he ran farther away just in case.

He wanted to speak, but the next moment, he saw other people's faces change, and then the whip in Lin Caisang's hand was swung towards him.

"careful!"

His whole body tensed up immediately, and he turned his head to look behind him.

Sure enough, he saw the monster that Lu Tianfeng and the others had fought with before, swinging a wing towards him.

he:"....."

Has he entered the attack range of that ancient monster?

He raised his hand, and when he was about to fight back, he felt that his waist was already trapped by Lin Caisang's whip.

Before he could knock out the spiritual power in his hand, he was dragged back by Lin Caisang.

And the ancient flying monster also rushed towards them at high speed, and was about to reach them.

Everyone immediately prepared to attack, waiting for it to get closer to them, and then began to fight back.

Chapter 2827: Kill with one palm?

However, before they had time to fight back, they heard Sui Zimo's cold voice.

"Don't attack it, and it won't attack us."

After hearing his words, everyone really believed him and stopped attacking, because everyone had been saved by Lin Caisang and Sui Zimo more or less, and they still had great trust in them.

Sure enough, everyone saw the ancient flying monster flying directly above them and continuing to attack Lu Tianfeng and the two who had deliberately lured it over.

At this moment, Lu Tianfeng and the two of them really almost spit out a mouthful of blood.

Even if that ancient flying monster was transformed by spiritual power, it couldn't just focus on the two of them and attack. Shouldn't this thing's attack be directed at everyone?

Didn't it almost kill Captain Liu just now?

But now, it actually passed them directly and continued to attack itself. What on earth is going on?

On this side, Lin Caisang and others among the group also looked confused, and they also didn't know what kind of situation this was.

"This... they didn't attack us?" The female team member on Yuan Jue's side looked at the giant monster in shock.

"Didn't Mr. Sui just say that as long as we don't attack it, it won't attack us? This should be a setting of these ancient monsters, right?"

One of the people on the wall said to everyone.

I have to say that this person has told the truth, and what he said is absolutely correct. Sui Zimo saw it early in the morning. Except for the person who opened the red envelope, as long as the others did not take the initiative to attack the ancient monster, they would not Being attacked.

"Is that so?"

Others nodded, feeling that this was correct.

Otherwise, why would that ancient flying monster only chase Lu Tianfeng and his subordinate?

"Although this is the case, this person is really too sinister. He actually led that monster to us. Is he deliberately trying to get us to help him deal with it?"

Yuan Jue stared at Lu Tianfeng and the two with cold eyes and said.

"Yes, this person is so sinister!" Others agreed.

However, seeing Lu Tianfeng and the others being chased in such an embarrassing manner, seeing them rolling on the ground from time to time!

"Ignore them for now, Captain Liu, get rid of this monster first." Yue Chushui reminded Captain Liu.

"Well."

After being reminded by him, Captain Liu finally remembered that he had just seen a monster kid.

"How do you get this away? Kill it with one slap?"

He couldn't kill the ancient flying monster just now, but this monster, which was about the same height as him, he was still confident that he could kill it with one palm.

However, everyone who heard his words said: "!!!"

Beat to death?

Did this guy have a fever and actually wanted to kill this monster?

"Captain Liu, if you don't want it, just give it to me. I happen to be short of a contracted monster." One of the three people on the wall said maliciously to him.

Of course, he didn't really want Captain Liu's Warcraft, he just reminded him that this is a Warcraft that can be contracted, not the kind of Warcraft that fights with them, okay?

"Well!"

Captain Liu was choked again.

Forgive him for not remembering for a moment that this was actually a contracted monster.

"Is this contractable?"

Chapter 2828 Another round or two

"What do you think?"

Everyone looked at him with cool eyes.

Did he want to show off after them, so he deliberately pretended not to know?

It's not impossible, is it?

"Uh, hey, I really don't know. When I heard the sound of the monster, I instinctively wanted to run..." Captain Liu smiled honestly at them and explained.

You really can't blame him. He almost suffered a loss from Warcraft several times before. Why don't you be more careful?

When he heard the voice of the monster, especially in this place, of course he should run if he could. If he didn't run, would he still be waiting to become a feast in the mouth of the monster?

"Hurry up, the contract is over, we can still split one or two more rounds." Yuan Jingjing urged him.

I originally thought that I would wait for Captain Liu to open the red envelope and then go forward to help Lu Tianfeng and the others. After all, my cultivation level is my own, and I can't miss it if I can improve it.

But now...

That guy was so cunning that he wanted to lure the monsters to them in order to reduce their own pressure.

How could he allow it?

Therefore, he felt that they should take their time and wait until they could no longer handle it, then it would be too late to help.

Moreover, Lu Tianfeng didn't come out to help them deal with it until the last moment.

"Oh, yes." Captain Liu nodded repeatedly.

He also felt that Lu Tianfeng was too insidious, and he was really angry to let him just go through and relieve Lu Tianfeng's pressure, so he took his time.

He quickly contracted the monster that he took out from the red envelope, and then everyone turned to look at Lu Tianfeng and the two who were beaten and rolling on the ground.

"Why are you still standing there? Why don't you come over and help?"

Lu Tianfeng's internal organs were almost knocked out. While he was thrown far away and the monster hadn't come over yet, he looked at the people here.

As a result, they saw Lin Caisang and the others, standing there looking leisurely, watching him being beaten into a dog.

He immediately became extremely angry and yelled at them.

Then why was the monster blind just now? With so many people standing there, could it be that it couldn't see it?

"Why are you so anxious? Mr. Lu is so capable. If he blocks it for a while, there will definitely be no problem, right?" Lin Changhong crossed his hands on his chest and looked leisurely in the direction of Lu Tianfeng.

"We're still busy here."

"You... you..."

Hearing Lin Changhong's words, Lu Tianfeng almost spat out a mouthful of blood, almost ran over and followed these people to yell at each other.

However, he was too late, because the ancient flying monster had already rushed towards him again, and then swept him out with a sweep of its wings.

"ah!"

A scream suddenly sounded in everyone's ears.

Lu Tianfeng endured the pain and stood up with trembling legs. He saw that his subordinate Zhao Rui was also swept out.

He had no choice but to look at Lin Caisang and the others again.

"Captain Lin, don't forget, I have helped you before!" Fortunately, he had helped them before, so he could speak so confidently now.

The previous choice was not wrong. Even if he didn't get anything useful, at least he helped them. They must reciprocate when they are in danger, right?

Chapter 2829 It must be intentional

It's definitely not that easy to just sit back and watch.

"If you don't save me at this time, you will be ungrateful and you will not end well!"

Lin Caisang and others: "..."

Doesn't being ungrateful end well?

Then in the poisonous swamp, the team member who passively rescued Lu Tianfeng didn't even help bury the body. Wouldn't it be a bad end?

Before saying this, why don't you think about yourself, have you been similarly ungrateful before?

It's a good thing he could say this.

He was really convinced by Lu Tianfeng.

"Young Master, you are wrong. When you came to help us before, we beat the Warcraft so hard that we couldn't fight back. But now, look at that ancient Warcraft?"

Yuan Jue opened his mouth and asked Lu Tianfeng with a smile.

"The more it fights, the more courageous it becomes. It can't compare to the one we fought. When you took action, that monster was almost dead."

Lu Tianfeng: "..."

Is this the time to talk about that?

Instead of arguing with him here, it would be better to quickly take out your hand and help him.

Moreover, they were not busy with anything. They were all watching, thinking that he was a monkey, right?

"you....."

"Everyone, hurry up, Mr. Lu's side is in trouble. Let's quickly dismantle two more wheels, and then go help Mr. Lu!" Before Lu Tianfeng could finish speaking, he heard the voice of the three people in the wall. One of them shouted to the big guys.

Originally, there were monsters around, and if he had spoken softly, he would not have been heard. However, these people deliberately spoke so loudly.

Lu Tianfeng gritted his teeth and glared at them hatefully.

These people do it on purpose, they must do it on purpose. I wonder what men are most taboo about, is someone saying that he can't do it?

Moreover, it's okay to be told, at least you're here to help?

But they didn't, and wanted to come back after two rounds. Isn't this obviously intentional?

What if they dismantle another ancient monster in this round or two?

There are so many people there, it doesn't matter even if one more comes, but that's not the case here, he is really going to be beaten to death by this ancient flying monster!

However, he could not directly give orders to those people and ask them to come and help him. Even if his identity was revealed, those people would not be afraid.

Because those people have known his true identity for a long time, and they have always ridiculed him.

"Master, be careful!"

I was still thinking that these people were so heartless, and I heard Zhao Rui's screams in my ears.

His heart trembled, and he didn't even look at which direction the ancient flying monster was. He just flashed and changed his position.

The next moment, only a 'boom' was heard.

When he turned around to look at the place where he was standing just now, he only saw a huge pit that was still smoking.

I simply can't imagine that if he had been standing there just now, would he still have life left to go to another more powerful continent to enjoy everything that person brought to him?

At this time, he could no longer beg and rely on Lin Caisang and the others. He could only use all his strength.

Try not to let yourself die in the hands of that ancient flying monster.

He believed that as long as he held on long enough, Lin Caisang and the others would not die without saving their lives.

Chapter 2830 Who is this person?

Although I don't know the reason, it can be seen that Lin Caisang was able to let him come into Fake Beiming Residence.

They must be needing him somewhere, so they had to let him follow them.

...

Finally, Lin Caisang and the others really kept their word and continued two rounds of lottery draws. They were lucky enough not to encounter any ancient monsters.

But there are not many good things, they are all very ordinary.

Everyone just gets what they can and don't care at all, but Lu Tianfeng really can't wait any longer.

"You...you can't come over to help!"

Rolling around on the ground, barely escaping the attack of the ancient flying monster, he gritted his teeth, looked at Lin Caisang and the others, and roared.

This group of people simply wanted to embarrass him on purpose, but at this point, they didn't even come to help!

Do they have to wait until he is dead before they take action against this ancient flying monster?

However, he dismantled this monster. If he died, this ancient flying monster would also disappear, right? Is it still necessary for them to hold back?

"Huh?"

Lin Changhong turned his head, feeling completely confused.

"Who is this person? How did it become like this? Isn't it terrible?"

Don't blame him for not reacting for a moment. Lu Tianfeng is really in such a miserable state now. Even in the Kusi Tower, he has never been so miserable.

His whole body is covered with dirt, how can he still look like a human being?

Everyone: "..."

Besides our own people, who else could be there, either Lu Tianfeng or the subordinate Zhao Rui that Lu Tianfeng mentioned.

However, if they hadn't heard the voice and identified it as Lu Tianfeng, they would have been a bit confused about who the two people were. Is this ancient flying monster really that powerful?

Can Lu Tianfeng be forced to this point?

"How's it going? Do you want to help?" Captain Liu looked at Sui Zimo and the others and asked with raised eyebrows.

In fact, he didn't want to help at all, but thinking about the ancient flying monster he dismantled last time, it really benefited a lot after a battle, so he thought, just help.

"You go and try it first."

Sui Zimo glanced at his wife, and then said to the others.

"good."

Lin Changhong responded immediately.

Before he even paid attention to an ancient monster, he asked them to explore it first to see if it would be difficult to defeat this ancient monster without his sister and brother-in-law.

"Chu Shui, let's go there."

"good."

Yue Chushui nodded and flew over with Lin Changhong.

When others saw this, they also followed and took action against the ancient flying monsters that were rushing towards Lu Tianfeng and the two of them.

The ancient flying monster sensed murderous intent and was approaching it. It immediately gave up on Lu Tianfeng and rushed towards Lin Changhong and the others.

At this time, Lu Tianfeng was able to take a breath, and his whole body fell to the ground, unable to stand up.

If he hadn't had a strong belief and didn't want to die so early, he would have been unable to move his limbs long ago. How could he run so fast? Now he can finally take a rest.

"Master... Master, are you... okay?"

Zhao Rui's body was much better than Lu Tianfeng's. After all, he was not the one who opened the red envelope. The ancient flying monster wanted to chase, and the first one to attack was Lu Tianfeng, his master.
