

Star of Space 2831

Chapter 2831 Do you have to pester me?

"fine.

Lu Tianfeng turned around and glanced at him.

Seeing that he was obviously much cleaner than him, his expression was naturally very bad.

As a subordinate, if he doesn't know how to protect his master when he encounters danger, what's the use of having such a subordinate?

However, he also thought that after all, he opened the red envelope by himself. Even if Zhao Rui wanted to block it for him, he could not block anything. Most of the attacks of ancient flying monsters were directed towards him.

"You also sit down and rest for a while."

Now that Lin Caisang and the others were blocking him, there was no need for him to work hard anymore. He could rest for a while, but he really couldn't stand up anymore.

However, he still kindly said something to his subordinates.

If it weren't for Zhao Rui, the subordinate of the ancient flying monster before, he would have been reduced to ashes. He should have a better attitude.

"Yes, Master."

Zhao Rui responded without being polite to his master.

Because he was so tired. After this battle, all his spiritual power was almost exhausted.

And all of this was because Lin Caisang and the others were so disgusting that they refused to save him. He had never seen such disgusting people. He wished his master would die!

However, even if they want to rest, it is impossible, because the ultimate goal of the ancient flying monster is Lu Tianfeng.

Although Lin Changhong and the others were attacking the ancient flying monsters, they would not protect Lu Tianfeng from harming his subordinates.

Therefore, the ancient flying monster once again sprayed fire at the place where Lu Tianfeng and his subordinates were sitting and resting, scaring him so much that he jumped up and hurriedly hid aside.

He thought he could breathe a sigh of relief, but unexpectedly, the ancient flying monster's second burst of fire sprayed towards the place where he was again.

"Why do you have to pester me?"

Lu Tian was very angry and roared at the ancient flying monster.

Everyone: "..."

Is there something wrong with this person's brain due to being attacked by ancient monsters?

Why attack him? Isn't this question simple? Wasn't this ancient flying monster, or was he dismantling it himself?

As the rightful owner, if the ancient flying monsters don't attack him, who else will they attack?

The other people are just incidental, okay?

Does this guy have any self-awareness? Seeing them helping him fight World of Warcraft, he actually sat down and rested, which was enough.

They all want to spit out their anger at him, okay?

"Master, this is the ancient monster that you... you dismantled." Zhao Rui reminded his master carefully.

Therefore, it is really not to blame that the master is unlucky and has been attacked by this ancient flying monster, because they came just to attack him.

"you....."

When Lu Tianfeng heard his subordinate's words, a bad breath stuck in his throat, and he almost died of anger.

"Nonsense, don't I know this? Do you need to remind me?"

"Well."

Zhao Rui choked for a moment when he heard his master's words.

"Master, forgive me. It's my fault. I talked too much." He apologized quickly.

After finally gaining a strong sense of presence in front of his master, he was able to compare with Zhe Feng if he had the chance. It would be really worthless to make Lu Tianfeng angry because of such a trivial matter.

"snort!"

Lu Tianfeng snorted coldly.

Chapter 2832 The whole confusion was resounding

"You know it's good to talk too much. From now on, talk less and do more.

"Yes, Master, I understand." Zhao Rui responded quickly.

He turned his head, looked at the ancient flying monster that was being attacked, and asked his master in a low voice.

It's not that he doesn't want to talk less and do more, but it will be really difficult if he doesn't ask clearly about this matter. Besides, this ancient flying monster has been attacking his master.

"Master, should we... continue to attack it?"

"of course yes."

Lu Tianfeng said without thinking.

"Use less spiritual power later, conserve your physical strength, just be ruthless and let them go, and stay away if you can.

After thinking about it, he confessed to his subordinates again, then took a deep breath, then flew towards the ancient flying monster and attacked again.

After hearing his master's words, Zhao Rui took a long time to calm down his surprised expression, and then followed him.

This is really not something that his master would say. Even if the master wants to hide far away, it is better than rushing forward but not fighting for the first place, thinking about being lazy and not making any effort.

However, this was really what his master said, and it was not that he heard it wrong.

So he could only do what his master said.

...

In Fake Beiming Residence, everyone is fighting, and on the other side...

'boom--'

A loud noise was heard, echoing throughout the entire world.

Along with the sound, there were the screams of two people, the two people who had threatened Lu Tianfeng before.

"what happened?"

After a while, the two men stood up tremblingly and gritted their teeth. One of them couldn't help but ask.

"Boss, isn't this the door of Beimingju?"

Did they find the wrong one, that's why they couldn't get in, and that's why they were thrown so badly that they almost had their internal organs knocked out.

"Impossible, this must be the entrance to Beimingju!"

The boss heard his subordinate's question and denied it without thinking.

How could this not be the entrance to Beimingju? What else could there be in this confusing place? It was just a place like this. He didn't believe that what he had found was not Beimingju.

Impossible, absolutely impossible, this is definitely the entrance to Beiming Residence.

But, why can't they get in?

They didn't bring anything they shouldn't have with them. They just wanted to get in. Is there anything wrong?

"What exactly happened?"

He was really puzzled. Why couldn't they get in?

"Boss, did the master tell you before that he wanted the guy named Lu to enter Beiming Residence? Is it because we can't get in at all and he can do it a long time ago?"

After hearing his words, the boss's face turned pale, and he suddenly felt bad.

Before leaving, his master repeatedly told him that he must find Lu Tianfeng and go to Beimingju with him, and that he must not act without authorization.

However, he really couldn't get used to Lu Tianfeng's popular appearance, so he just asked him to keep an eye on those people, so as not to cause him discomfort and trouble by his side.

Unexpectedly, what the master said was true!

Why does it have to be Lu Tianfeng? Without Lu Tianfeng, is it really impossible?

What's the point?

When did Beimingju's style become so low-key that only people from Qianhuan Continent can enter?

Chapter 2833 The air pressure is very, very low!

Why can't these higher-level people get in?

Moreover, he was thrown out ruthlessly?

"hateful!"

He was grinding his teeth, really pissed off.

He put his hands on his waist, secretly regretting his own decision.

He was almost certain that when they went to find Lu Tianfeng later, Lu Tianfeng would definitely climb up the pole. At that time, he might not know what conditions he would put forward to him.

"Hi, ho!"

He took a deep breath and exhaled heavily.

"That idiot got an advantage!"

"Boss, are we going to find the man named Lu?"

After hearing what he said and how angry he looked, the subordinate asked cautiously.

This question is really hard to answer. Although that idiot Lu Tianfeng is stupid, he is also someone who is not easy to mess with.

If he knew that only he could enter this place and neither of them could enter, how arrogant would he become?

"Can I not look for it?"

The boss asked him, if he could not look for it, who would want to look for that idiot?

But it doesn't mean that he can't really stop looking if he says he won't look for it. The master's mission cannot be missed, otherwise, even if he goes back, he will not end well.

"Go back and look for it!"

Now, this is all we can do, what else can we do?

"Yes, boss." The subordinate responded.

He didn't dare to say "ok", for fear that the boss would be angry. He could feel the air pressure around him, it was very low!

Therefore, the boss must be very angry now. He feels that if Lu Tianfeng is with the boss now, the boss will definitely eat him alive.

It's a pity that the task has not been completed, so I can only endure it for now.

So, the two people started walking in the direction where Lu Tianfeng and the others were found before, but who knew that when they finally reached the previous place, there would be no one there, no one.

"Where are the people?"

After walking around in place, they couldn't see anyone in the fog, but they really didn't feel that there was anyone nearby.

How come this person is missing? Isn't he supposed to be here?

"Boss, are we looking in the wrong place?" the subordinate asked in confusion.

Could it be that they made a mistake? Otherwise, how could the people not be there? He had heard from that group of people before that two of those people were missing, so they were here waiting for those two people to come back.

But in this confusing world, how can a lost person be found so quickly?

He thought that these people would have to stay here for the next few days.

But now we haven't even arrived for a day, and those people have already disappeared. This is really...

Are those people really so lucky? After getting lost, you found it again so quickly? If his boss didn't have any ability, he might get lost in this place!

What's more, these people from Qianhuan Continent don't have as strong a sense of direction as they do?

"How can it be?"

The boss's eyes widened when he heard what he said.

How could he possibly find the direction? His sense of direction has always been the best. Not to mention this little bit of fog, no matter how powerful he is, he can do it.

So, how could he be looking in the wrong direction?

Those people must have left. Lu Tianfeng is so stupid, and his work is really reliable at all!

Chapter 2834 Punish him!

"Lu Tianfeng, what a fool!"

He took a deep breath, thinking that if Lu Tianfeng were standing in front of him now, he would definitely kill that idiot!

What should they do now? Everyone is gone. How can they enter Beiming Center and find the thing that the master needs? The key is that they can't get in at all!

"call!"

"Boss, those people are not dead yet. Can we use those people to go to Beiming Center to take out the things?"

The subordinate suddenly thought that the group of people they used before had not been silenced by them.

So I quickly reminded my boss.

Hearing this, the boss's eyes suddenly lit up and he thought of those people.

But will those people listen to him obediently? These people have already suffered their own losses, will they give in again?

"That's all we can do!"

Even if those people refuse to listen to him obediently, so what?

He has plenty of ways to make those idiots obedient, as long as he has those people's clues in his hands. Perhaps, he can directly poison those people, which is also okay.

"Go find those people, that idiot Lu Tianfeng, and let the master punish him after he leaves the Haikuo Forest!" He said coldly.

"Yes, boss." The subordinate responded, and the two left again.

...

And the fake Beiming lives in it.

When Lu Tianfeng was almost sprayed into ashes by the ancient flying monster, Lin Changhong and others finally killed the ancient flying monster.

This time, Sui Zimo and Lin Caisang did not intervene and let them fight on their own.

Fortunately, they lived up to their expectations and killed the ancient flying monster.

But Lu Tianfeng was in a very bad condition at the moment. He fell to the ground, breathing heavily. If Zhao Rui, a subordinate, hadn't dragged him to a tree and leaned against the tree pole, he would have really died. Lying on the ground, stretched out.

"Master, please drink some water."

Zhao Rui was a conscientious subordinate, feeding his unconscious master and drinking sips of water.

Obviously I am also very tired, so tired that I just want to lie down and do nothing, but the master still has to serve him first.

"You guys should come over and have something to eat too."

Lin Caisang waved to Lin Changhong and the others. Meat was already being roasted here. The smell of the meat was very strong. Unfortunately, those people who had just killed the monsters were so tired that they could no longer smell the aroma. ah.

"No, no."

Lin Changhong waved his hand towards his sister.

Although I'm a little hungry, I'm too tired to hold on anymore, so I'd better rest first. When I'm out of breath, let's talk about whether to eat or not.

In fact, he didn't even want to raise his hand, he was tired! So tired! ! very tired! ! !

"I eat!"

Captain Liu gritted his teeth and stood up.

He was also hungry, but even more tired, but when he was left to lie down so hungry, he felt that it would be better to lie down after eating.

Come to think of it, your physical strength will recover faster after eating a full meal.

So, even though he was gritting his teeth, he stood up, walked towards Lin Caisang and the others, picked up a piece of barbecue, and took a bite directly into his mouth, regardless of whether it was scalded or not.

Then I felt my mouth was burning, and my mouth was "hissing, hissing", and I wanted to blow the meat in my mouth to cool down before swallowing it.

"So hot, so hot!"

While eating, he murmured in his mouth.

Chapter 2835 The whole family is doing bad things!

"I'll eat some too.

Yuan Jue also stood up, came to sit next to Sui Zimo.

Then, Yue Chushui came over, and Lin Changhong watched everyone pass by. He was too embarrassed to lie down and pretend to be dead, so he could only pass by with two trembling legs.

"Sang Sang, I still don't understand, what is the purpose of the existence of this fake Beimingju?"

While eating barbecue, he raised his doubts.

Yes, the question he raised is the doubt that everyone has in mind. They have obtained so many things, but their biggest sacrifice is just to fight against the fake monsters in the fake Beiming Residence?

Isn't this too abnormal?

Even in the previous Kusi Tower, you had to win a game before you could get certain rewards.

Unlike the current fake Beimingju, which actually took the form of opening red envelopes, this thing must have come too fast, which is simply unbelievable.

It really feels like a dream.

But this is the fact. The things are still on their bodies, how can they not believe it.

"Didn't I say that what Fake Beimingju wants is your luck? They just give you things in exchange for your luck," Lin Caisang said.

This thing should be said to be the same as the points in her golden bead space, right?

Before, she had to keep treating patients in order to get points and upgrade the Golden Pearl Space. This must be the same for this fake Beiming Residence, right?

Of course, she was just guessing and could not be sure.

However, if it is as she guessed, then the owner behind the fake Bei Mingju must be either rich or noble.

If you were like her, even if you had the heart, you wouldn't have the ability to exchange so many good things for a single lucky point.

"But what's the use of lucky points?" Captain Liu asked in confusion.

This is something he has never figured out. He doesn't even know what luck is.

"What is the use....."

Lin Caisang pouted, could she say that she actually wanted to know what the use of this thing was?

Moreover, she also wanted to ask why she had only so many lucky points, and her husband was not much different from her.

Among these people, only she and Sui Zimo always got the best things. Of course, others didn't know this because they didn't put the brocade box in front of so many people. Open it.

Instead, he put it away directly and put it into the space.

"Yeah, what's the use? Could it be used for bad things?" Captain Liu asked.

"You are the one who did bad things, and everyone in your family is also doing bad things!"

As soon as Captain Liu's voice fell, the voice in the air that had never spoken again sounded again.

"scare!"

Several people were so frightened that they almost jumped up.

Even Lu Tianfeng, who was unconscious just now, was frightened awake by it.

This fake Beiming Juli actually has a voice. Doesn't that mean that they are always being monitored?

"Hmph, no wonder you are unlucky enough to be able to dismantle ancient monsters. It turns out that you are too short on words! What do you know? The luck value is so useful!

He can be used to cure diseases and save people, and can also be used to set up formations and wards!
"

Chapter 2836 Almost?

The voice was in mid-air, angrily explaining to them.

"In short, how can luck value be used to do bad things? Only bad luck value can be used to do bad things, okay?

It seems that you don't have much bad luck on your body. Only those two guys have all kinds of bad luck. Maybe they have done too many bad things! "

It was naturally talking about Lu Tianfeng and Zhao Rui.

It was wrong before, and it actually gave them a lot of benefits!

Who knew that these two people were really not good people? After checking it, they found that these two people had done a lot of bad things, and they couldn't even use their luck points.

It has blinded its owner so many things in vain.

No matter how disdainful it is, it is still something. How could it be taken away by those two guys?

Therefore, it really complied with its owner's request and released an ancient flying monster!

However, it actually discovered that that person was so vicious that he actually led the ancient flying monster towards another group of people. This was obviously hoping that others would support them.

Everyone: "..."

It turns out that this is actually the case.

They really saw that lucky people can do so many things.

"Sangsang, is this similar to yours?"

Lin Changhong turned sideways, looked at his sister, and asked in a low voice.

"cough!"

Lin Caisang coughed heavily, then glanced sideways at his eldest brother.

Is now the time to say this? What if someone hears it? But it's not good. She doesn't want other people to know too many of her secrets.

"Everyone, let's rest. We've almost rested, so we'll continue. With our luck, we'll have to leave this place after a few more rounds."

She said to the big guys.

"Rest, rest." Everyone nodded quickly after listening to her words.

Yes, they can't have that much luck, and they don't do many good things on weekdays.

If they had known that there was a place like Fake Beimingju in this vast forest, they would have done more good deeds when they were outside. As an alchemist, it is a simple thing to donate medicines to doctors and other things. .

Moreover, ordinary people outside can be cured of ordinary diseases by just using their hands.

It's just that it's too late to think about this now. They have already arrived at Fake Beimingju.

And that voice, after hearing Lin Caisang's words, was extremely speechless.

It felt that even if others could exit Fake Beiming Residence very early, it would be impossible for Lin Caisang and Sui Zimo. They still had a lot of luck.

I don't know what happened, but when it went to check with the owner just now, it only saw that someone else's luck value dropped straight down because they opened the red envelope.

But for these two people, when they open a red envelope, their luck value drops a little, but after everyone's round, their luck value increases instead of decreasing compared to before.

He really has never seen such a strange person.

Unless, these two people have been doing good deeds somewhere in their names, and these good deeds are all recorded on their heads.

But of course it cannot say this.

Chapter 2837 Continue to play with ancient monsters

Since those people didn't ask it anything, he stopped talking and paid attention to them silently.

After about an hour, everyone felt that they had rested.

So, soon they started to open the red envelope again. Lu Tianfeng was also ready. Before Lu Tianfeng could open the red envelope in his hand, he felt it shake a few times. , and then, break away from his hand.

"Ho, ho ho!"

Several roars of monsters once again shocked everyone's eardrums, almost to the point of bursting.

"This guy is really unlucky!"

Looking at the ancient monster that appeared in front of Lu Tianfeng and the others, Lin Changhong looked gloating.

"I just took out one, and it was beaten to death with great difficulty, and now there's another one, two in a row. He's really awesome!"

He couldn't even understand why Lu Tianfeng was so powerful... no, why was he so unlucky?

His girls have said that you can't just draw this ancient monster if you want to, so it's a rare red envelope.

But Lu Tianfeng was able to dismantle both of them as ancient monsters, so there was no one left, right?

"Who have you offended?"

Yuan Jingjing said something to everyone.

He would definitely find it strange when others took out two ancient monsters in a row, but that was not necessarily the case for Lu Tianfeng. He didn't find it strange at all when he took out two ancient monsters.

Such a vicious person must have done a lot of bad things in daily life. Is it any wonder that he has more bad luck?

"Besides that sound in the air, is there nothing else?" Captain Liu also said to everyone.

Before, they thought that no one else existed, but now it seems that after they arrive at Fake Beiming Residence, someone will definitely come out to report the news.

"Want to help this time?" one of the trio asked.

He felt that it was too much effort for them to save Lu Tianfeng, and the effort was not thankless. He never saw Lu Tianfeng come to thank them.

"Help, I definitely want to help, but you have to think about how to help." Lin Changhong raised his hand and touched his chin and said.

Lu Tianfeng was nothing, no matter what he said or did. When he was fighting the ancient flying monster just now, this man didn't put in much effort at all.

This time, it depends on how long Lu Tianfeng can hold on.

"Ignore him, let's start opening our red envelopes and let him continue playing with the ancient monsters."

Lin Caisang also said to everyone.

The ancient magic beast that Lu Tianfeng dismantled was not a flying magic beast, but a land magic beast. However, compared to the flying magic beast, the land magic beast was much larger.

Applying spiritual power to a monster is almost like tickling it, and there will be no reaction at all.

So this time, Lu Tianfeng and the others have something to play with, and they should hurry up and don't help Lu Tianfeng deal with the ancient monster this time. Before they can open the red envelope, the guy will open one again.

Then aren't they just wiping Lu Tianfeng's butt?

On this side, Lin Caisang and the others didn't take the monster that Lu Tianfeng took out at all seriously, but on the other side, Lu Tianfeng's silver teeth were almost bitten into pieces by him.

What the hell is going on? Why did he dismantle the ancient monster twice in a row?

Chapter 2838 Quick decision

Is there really that much of this thing? If there are really so many, then why didn't they take them out before, and Lin Caisang and the others didn't take out so many either!

Why did he dismantle the ancient monster twice in a row when he got here?

Moreover, the ancient monster that was dismantled this time was obviously many times larger than the last time, and the scales were so hard that they couldn't be penetrated no matter how hard they were hit. How could he play with it?

He really wanted to ask, was this fake Beimingju intentional?

Of course, he was overthinking it.

The first time I dismantled the ancient monster, it was really a mistake of the system, but this time, it really wasn't.

The sound of the system was quite confusing at this moment. I really never thought that someone could dismantle the ancient monster twice in a row. How unlucky it must be.

"Sure enough, people who do many evil things cannot even be tolerated by heaven!"

After much deliberation, there is only one possibility. God can't bear to see Lu Tianfeng doing so many evil things. That's why the second ancient monster came out so unluckily.

Moreover, it can still be beaten!

If it is not a system, it really wants to laugh and applaud.

A person can be unlucky like this, which means that he will not have good days in the future, so he can just watch it quietly.

"Master, be careful!"

Zhao Rui looked at the monster in front of him and was almost stunned.

But even though he was stupid, when he saw his master being targeted by the ancient monsters again, he quickly reminded him.

Lu Tianfeng woke up when he heard his subordinate's voice, and hurriedly dodged to the side, but even if he dodged in time, he was still scratched by the claws of the monster.

"hiss!"

He gasped and looked down at his chest, where there was a deep and long blood mark.

This monster was simply too terrifying. He was injured without even touching the claws of the monster. This shows that the spiritual power around the monster is also very powerful!

You can hurt him so easily, so you have to be more careful after that.

He and Zhao Rui covered their wounds and retreated. As they retreated, they looked in the direction of Lin Caisang and the others. They saw that those people there had no intention of helping them at all. They knew that they didn't need to ask for help. They are.

"hiss!"

He took a deep breath and turned to look at the monster.

It seems that he still has to fight hard. Maybe, he can still fight with this ancient monster with all his strength.

"Zhao Rui, you attack the right side, and I'll attack the left side. Let's fight quickly." He ordered Zhao Rui.

Zhao Rui: "..."

Master, are you talking about a quick victory against this ancient monster, not themselves?

That was an ancient monster. It looked even more powerful than the previous one, and it was many times bigger. Can the two of them fight it?

Although I had doubts in my heart, I had to obey my master's orders.

"Yes, Master."

He could only answer bravely, and then rushed to the left.

only.....

Before he could reach the left side of the monster, he was swept back by the monster's claws.

"ah!"

He screamed and flew for a long time in mid-air. Finally, with a 'bang', he landed heavily on the ground. Half of his body was buried in the soil, and dust was splashed all over the ground.

Chapter 2839 Still can't die?

"Zhao Rui!"

Lu Tianfeng roared angrily when he saw his subordinate being beaten down.

This subordinate is really stupid. Even if he ordered him to go to the left, he still had to lay down some of the claws of the monster.

How could anyone rush forward like this? You deserve to die.

"Well!"

Zhao Rui pulled half of his head out of the soil, clapped his hands on it, and flew up to Lu Tianfeng's side.

"Master, it was my subordinate who made the mistake just now."

"snort!"

Lu Tianfeng snorted coldly, but this was really not the time to argue with Zhao Rui.

"You can't count on others. Keep dealing with that monster!"

Seeing the ancient monster walking towards them step by step, he took Zhao Rui and rushed towards the monster.

...

After a long time.

Seeing that Lu Tianfeng and his subordinates were weak again, Lin Changhong looked at his sister.

"Sangsang, shall we fight?" he asked.

"Do not hit."

Lin Caisang shook his head, then continued to get a red envelope, and once again got a good thing, which he put directly into the golden bead space.

"This time, it depends on Lu Tianfeng's luck. If he wants to survive, then he should be ruthless and kill the monster. He also said that he can't rely on others, he can only rely on others. Myself.

She curled her mouth, looked at Lu Tianfeng, and said to her eldest brother.

"You don't want them to follow you?" Lin Changhong raised his eyebrows and asked.

Didn't his sister say before that keeping Lu Tianfeng was still useful, so why didn't she want to save him now?

"Um."

Lin Caisang nodded in response.

"Why?"

Lin Changhong didn't understand and asked.

Hearing this, Lin Caisang rolled his eyes and said nothing, but Yue Chushui turned his eyes towards Lin Changhong.

"I heard Lu Tianfeng cursing people before. Was he the subordinate of the person behind him?" He reminded that the person who wanted to kill them in the confusion before was probably the one whom Lu Tianfeng was cursing. of people, right?

Hearing this, Lin Changhong's eyes suddenly lit up.

"You mean... we can just get one of those people. He must know more than Lu Tianfeng, so it will be easier."

"Um."

Lin Caisang nodded.

"Having said that, there is a saying that goes well. Good people don't live long, and disasters...and so on. How could someone like Lu Tianfeng die so early?"

She sneered and glanced at Lu Tianfeng.

There must be a lot of magic weapons in that guy's hand. He didn't use any of the ancient flying magic beasts before. This time, he has to take a few of them, maybe use them all. ?

So, they don't have to join in the fun, right?

"You mean, if he encounters such an ancient monster, he still can't die?" Captain Liu heard their words and interjected in disbelief.

Everyone: "..."

They all looked at Captain Liu, as if they were looking at a big idiot.

"Captain Liu, if I'm not wrong, this fake Beiming Juli, even if you were really defeated by the ancient monster, you would have gone out at most, and you wouldn't really lose your life here, am I right? ,team leader?"

After guessing, he turned to look at Lin Caisang and asked.

Hearing this, Lin Caisang chuckled and nodded his head.

Chapter 2840 Work for them again!

She thought that this should be the case, but unfortunately, he would not say this to Lu Tianfeng and the others.

Although it won't kill anyone, it can still give Lu Tianfeng a taste of fear, right? Looking at the frightened faces of Lu Tianfeng and the others, she thought, it must be something special, right?

Turning her head, she looked at the two people who were being chased by the ancient monsters and escaping in a panic.

...

On the other side, in confusion.

The boss and his subordinates have found those people.

"What do you want to do? What do you want to do?"

Several people's voices trembled, and they asked the two people crying, full of fear in their hearts.

Although they were in a state of confusion and could not see what was happening in front of them, one of them had been pushed to an unknown place by the two men just now.

They still remember the screams vividly to this day!

These people are really terrible. It was not enough to take advantage of them once before. After they escaped death, they thought they could escape from these people.

Unexpectedly, these two people found them again and brought them to this place easily, hoping to make them work for them again!

Is this life so easy to sell? I don't know what happened to the person who was pushed away just now?

Isn't he dead?

Thinking of this possibility, they were extremely frightened and wished they could escape now.

But unfortunately, these two people were watching beside them, and their hands and feet were tied. How could they escape if they wanted to?

"Boss, that person has already entered." When the subordinates heard the voice of the person who was pushed away by them, they knew that the person had entered Beiming Residence.

"Well, let's go in."

There was excitement in the boss's voice, and he finally understood why his master had to use Lu Tianfeng.

It turns out that some places on Qianhuan Continent can only be entered by people from their own continent.

And they couldn't enter this Beiming Residence!

"We still have to find Lu Tianfeng for this matter!"

He exhaled heavily. He said to his subordinates.

"Why?"

The subordinates were completely unable to understand what their boss said.

There are so many people around them, why do they have to find Lu Tianfeng?

"There are so many people, can't we still make use of them? Boss..."

"Can you believe that these idiots can bring what the master needs out of Beiming?" The boss asked him before his subordinates could finish speaking.

"Well."

The subordinates choked at the words of their boss.

Yes, these fools have been scared to the point of peeing before they even entered Beiming Residence. If they really went in and encountered the slightest danger, they would have cried for their parents and just wanted to escape. .

"What should we do, boss? We still have to find Lu Tianfeng?" he asked.

"You watch them here, I'll go find Lu Tianfeng." The boss thought for a while and then said quietly.

There was no other way. Beimingju and the others couldn't get in at all, so they had to find Lu Tianfeng. Only he could go in and find what the master needed.
