

Star of Space 2841

Chapter 2841 I really can't find it?

Although in his opinion, Lu Tianfeng was an idiot just like these people, but among idiots, there was no one who was more stupid.

And these people look obviously much stupider than Lu Tianfeng. The two people are not on the same level at all.

"Remember, keep an eye on them. If they escape, see how I punish you when I come back!" He told his subordinates.

"Yes, boss, I will definitely take good care of them." His subordinates responded immediately.

After his boss left, he turned his head and looked at the people who were tied up by him.

Although he couldn't see them clearly, their crying sounds gave him a headache. He wished he could kick these people to death.

"Why are you making so much noise? Just shut up!"

He strode forward and kicked several people, making them scream.

"If you make any more noise, I will throw you all in without leaving any one behind." He threatened those people fiercely.

What he hates the most is this kind of person. When in danger, there is nothing but crying. He never thinks about finding a way to escape by himself, but puts his expectations on others, thinking that someone will come to save him. .

People like this deserve to die!

He really wanted to throw these people into the mouth of the monster one by one, but he also knew that keeping these people was still useful. What if that idiot Lu Tianfeng really couldn't find him?

The final hope must be placed on these people.

Of course, he didn't want to end up placing his expectations on these idiots, because the possibility of getting what his master needed was very slim!

...

the other side.

Under the constant torture of the ancient monsters, Lu Tianfeng and Zhao Rui couldn't hold on any longer. The two of them used a lot of magic weapons, but they couldn't save their lives.

After being stepped on by the ancient monster, he returned directly to the outside.

Of course, after Lu Tianfeng and the others left Fake Beimingju, it was impossible for Lin Caisang and the others to stay.

"Captain Yuan, Captain Liu, do you still want to stay here?" Sui Zimo looked at Yuan Jue and Captain Liu and asked them.

Hearing this, Yuan Jue and Captain Liu were silent for a moment, then looked at each other and shook their heads at the same time.

"If you want to leave, then we will leave together." Captain Liu said to Sui Zimo.

To be honest, before entering the Sea-wide Forest, how could he have imagined that he could get so many things in the Sea-wide Forest?

These things about him would scare people to death.

Of course, if people outside knew about it, danger would probably follow, so naturally he would not tell anyone casually.

But at the same time, he also knew that if it were not for Lin Caisang and Sui Zimo, he would probably still have to open the red envelope to reveal the ancient monsters in this fake Bei Mingmei.

You have to leave in the end.

Therefore, he should leave now with Lin Caisang and the others, and go to Zhenbei Mingju together.

"We came together, and naturally we have to leave together," he said.

"Is Captain Liu willing to give up so many treasures here?" Lin Caisang raised his eyebrows and asked him half-jokingly.

She remembered that Captain Liu was very greedy at the beginning. She didn't expect that his thoughts would change so quickly. Difficulties can really sharpen people.

"hehe."

Captain Liu also smiled sheepishly when he heard her words.

Chapter 2842 It's really too difficult

"What kind of treasure is there? Without Captain Lin, we wouldn't have gotten anything. What we got before were all windfalls.

He could understand this without trial. Without Lin Caisang, how could he get so many things?

"Captain, Mr. Lu and the others have already left. We need to catch up quickly, right?" One of the trio of wallflowers reminded Lin Caisang.

Since they have decided to leave, they must hurry up and don't give Lu Tianfeng and the others a chance to leave alone!

"right."

Lin Caisang nodded and looked up into the air.

"Please send us away. We've almost got everything we need."

That voice: "..."

Please forgive me that it doesn't want to talk at all at this moment, because it knows that these two people have a lot of luck. Even if they spend their whole life opening red envelopes here, they won't be able to use up all the luck they have. worth it.

Moreover, there are so many good things in Fake Beiming Residence, and there are countless good things that they have not obtained.

Many times when I came to Fake Beiming Residence, I didn't want to go out. In the end, I was beaten out by Warcraft or Ancient Warcraft. This was the first time I saw someone and wanted to go out without being beaten.

"Do you really want to go out? You have to think carefully. This fake Beiming Residence is not just for anyone who wants to come in. Do you know how much virtue you have accumulated in your previous life to be able to come in? you....."

"We didn't accumulate so much virtue in our last life. We made Captain Lin a friend. She brought us in. Now that she is leaving, we naturally have to leave with her."

Before the voice could finish speaking, the trio started talking to it.

"We have taken enough things. If you don't want to take them anymore, send us out quickly."

If he doesn't come out, he won't be able to catch up with that vicious Lu Tianfeng. Who knows what he wants to do secretly? It's better to just stare in front of him.

"you....."

The sound seemed to be blocked by the trio of wallflowers, making them angry.

"Okay, okay, I'll send you out. Hey, it's really difficult to earn lucky points these days. Let's do this, Mr. Sui and Mrs. Sui. I have a Beiming Ling here, so I'll give it to you. You guys, as long as you have this token in hand, nothing can harm you in Beimingju."

As he spoke, a ray of light came to Lin Caisang.

Lin Caisang raised his hand, reached into the light, and got a shining silver token.

"It's just a token, how can it guarantee the safety of the two of us? Are you kidding us?" She looked at the token in her hand and muttered involuntarily.

That voice: "..."

He has never seen someone so fussy, and he doesn't think too much.

"Little girl, you can do whatever you want with the Golden Pearl Order on your body. You can do whatever you want with this Beiming Order. You can go and do it yourself!"

As he said that, everyone felt a strong wind blowing towards them. In the blink of an eye, everyone was no longer where they were.

...

Speaking of Lu Tianfeng and his subordinate Zhao Rui, the two of them saw that the monster's big foot was about to step on them, and they thought they would definitely die this time.

Chapter 2843 It's still here!

All the magical weapons that can be used on his body have been used, and both spiritual power and strength have been exhausted.

I wanted to point Lin Caisang and the others to rescue them, but unfortunately, those people were just watching the tiger fight from a distance and didn't take them seriously at all.

They were so angry that they were itching their teeth, but they couldn't do anything to anyone. They could only watch the god of death walking towards them.

Little did they know that after they blinked, the expected pain did not come for a long time. When they opened their eyes, they were dumbfounded.

"Master, are we... back to being lost again?"

After Zhao Rui reacted, he turned around to look at his master, but he couldn't see him at all.

But he could feel that his master was in the direction where his eyes were looking, because he heard the heavy breathing.

"Hi, ho!"

Lu Tianfeng exhaled heavily.

It seems that Lin Caisang and the others have known for a long time that no matter how they are attacked by monsters in Fake Beiming, they will not die, but will only leave Fake Beiming.

"It's coming out!"

However, although they were not dead, all the magic weapons on their bodies were used up, and their bodies were covered with wounds, and they didn't even have any strength.

This is simply...

He couldn't even imagine that if Lin Caisang and the others came out of Fake Beimingju at this time, they wouldn't even be able to fight back.

"Master, let's leave quickly. I'm afraid those people will chase us out soon."

Zhao Rui also had the same idea as him, feeling that if Lin Caisang and the others chased them out at this time, their situation would be really bad.

However, Lu Tianfeng sneered after hearing his words.

"That place, if it were you, would you come out directly?"

If he hadn't been forced out and beaten out, he wouldn't have come out of Fake Beimingju so easily, even pointing out that he could get a few more good things.

"Well!"

Zhao Rui choked at his master's words.

Yes, if he could get those things in the fake Beimingju, he would naturally not want to come out early.

But the situation is different now. Lin Caisang and Sui Zimo are obviously here for their master. Perhaps to them, the fake Beiming Juli thing is not as important as his master. Woolen cloth?

"Master, we still..."

"You are indeed still here!"

Zhao Rui still wanted to speak, but heard a strange voice.

The two of them immediately became alert, and the long swords in their hands pointed in the direction from which the voice came.

"who?!"

Lu Tianfeng shouted coldly and asked.

"You are quite brave. You dare to come to your door. Don't you want to live?"

"laugh."

The boss sneered, his face full of mockery.

Of course, Lu Tianfeng and the others couldn't see his sarcastic expression, they could only hear the infinite contempt for them in this man's tone.

"Half of my life is almost gone, but you still have the guts to ask me if I want to live?"

"you....."

Lu Tianfeng had a bad breath stuck in his throat and almost died of anger.

Why is he almost dead? He is obviously very good. What's more, he also got a lot of things in Fake Beiming Residence.

"No, you, me, mine, it's a bunch of nonsense."

The boss waved his hand impatiently. Of course, he didn't point at Lu Tianfeng to see his impatience.

"The tasks assigned to you by the master are not complete, but you want to be free here? Where have you been before? Didn't I ask someone to call you? How dare you disobey orders?"

Chapter 2844 Kill and feed the monster!

Lu Tianfeng: "..."

This effort of raking down is really quite impressive.

What do you mean, someone came to call him just now? Did that person come to call him? You're obviously here to threaten him, okay?

Now that I know I can't enter Beiming Residence, I think of him?

hehe!

But unfortunately, he couldn't do anything with this person, and he couldn't beat him. He wanted to kill him directly. He was a secretive person, and he didn't know what that person wanted yet.

"Okay, let's leave quickly."

After swallowing the bad breath for the time being, he took a deep breath and said to the boss.

"Walk!"

The boss said nothing more, but led the way.

Lu Tianfeng and Zhao Rui followed behind him and walked forward quickly.

"You really came out right, those people really know that damn thing!"

As soon as Lin Caisang and his party came out, they heard the conversation between Lu Tianfeng and the boss, and then saw the three people leaving.

Fortunately, the three people were thinking of going to Zhenbei Mingju and did not realize that they had come out, so that they could follow the three people and go to Zhenbeimingju.

However, what made them most angry was that Lu Tianfeng really wanted to kill them all the time. He had not killed them before, but in the confusion, he wanted to use those people to harm them again.

"Let's follow." Yuan Jue said.

Everyone responded at the same time and followed.

...

On the other side, in the same confusion, the boss's subordinates were guarding those people and felt that their heads were hurting to death.

Those people, after threatening them, could calm down, but after a while, they started crying again, which made his head really hurt.

They are obviously grown men, but they all act like women, crying and crying, which really embarrasses their men's face.

"Shut up, if you keep making any more noise, I'll kill each of you and feed it to the monsters!"

He yelled at everyone again. He was really going to be mad at these people. How could he be so capable?

In an instant, those people became quiet, and there was no sound around them.

But after a while, these people started their performance again, causing him a headache again.

He wanted to leave, but what if he left and these people ran away?

When the boss failed to find Lu Tianfeng, it was the time when these people were needed. If they ran away, how should he explain to the boss?

Therefore, he really has no choice but to endure it now.

Finally, after an unknown amount of time, a voice came towards him from a distance, and among the voices, there was another one he was most familiar with.

Isn't he the boss?

His mood suddenly improved, and he hurried forward to greet her.

"Boss, you're back. Those people are annoying me to death with their noise. I really want to kill them all!" He complained to his boss.

If the boss hadn't refused to kill them, he would have sent these people to see the King of Hell long ago. How could he allow them to be arrogant in front of him?

"You can kill them now." The boss said coldly.

He has found Lu Tianfeng, these people are of no use anymore, just kill them.

"good!"

The subordinates immediately responded, feeling that their boss's idea was really a good one.

He was feeling so depressed that he wanted to find a punching bag to vent his anger on. He could just kill these people, and nothing would be so good in the world.

Chapter 2845 It's those people

only.....

By this time, these people were no longer something he could kill if he wanted to.

When he drew out the sword from his waist and pointed it at those people, before the sword penetrated their bodies, he felt a burst of spiritual power hitting him directly.

He quickly raised his hand to resist, but was still caught off guard and sent flying away.

"Well!"

After a muffled grunt, the subordinate was knocked to the ground, splashing invisible dust all over the ground.

"Yan Qing!"

When the boss heard the sound, he immediately knew something was wrong and called his subordinate's name.

"Who are you doing? Just come out if you have the ability. Let's fight one on one!" He shouted into the air.

What made him secretly shocked was that even though all his subordinates had been beaten out, he didn't even feel their breath.

When did such a person appear in Qianhuan Continent? He actually didn't know, and the master never reminded him that he could stay away from him after entering Haikuo Forest.

"laugh."

Suddenly, a scoff rang in his ears.

"A one-on-one fight? You are so shameless that you can say it. Are you from Qianhuan Continent? Are you embarrassed to fight one-on-one?"

The one who spoke was Lin Changhong, who was made to laugh by the boss's words.

I really have never seen such a shameless person. Do you want to bully others just because you believe in your spiritual power?

It's a pity that among them, none of them follow the rules or have one-on-one relationships. That's for decent people. How does a person like this still want to have one-on-one relationships with them?

A group fight is more like it!

"Who, who?"

The boss heard his voice, but couldn't see him, couldn't feel his breathing, and suddenly became even more nervous.

"Don't be nervous, it's those people." Lu Tianfeng reminded him from beside the boss.

He didn't expect that Lin Caisang and the others would follow him so quickly. It seemed that they were really different from what he thought. They didn't even want the treasure in the middle of the fake Beiming and just came out.

These people were really watching him closely.

Fortunately, he came here with the boss, otherwise, he would really fall into the hands of Lin Caisang and the others.

"It's them!"

When the boss heard what Lu Tianfeng said, he knew where they were coming from and followed them all the way here. He immediately felt regretful.

Why didn't he be more careful? This way, they wouldn't have followed him all the way here.

These people are all people from Qianhuan Continent, and they can all enter Beiming Residence. According to their attitude, even if they send Lu Tianfeng and his subordinates into Beiming Residence, they are afraid that they will not be able to enter Beiming Residence. You won't get any benefits either.

What should we do now? Do we have to rely on the two of them to block these people here?

Before, he had planned to let Lu Tianfeng trap these people, but who knew that in the end, he would still let them make wedding clothes for this idiot Lu Tianfeng.

Thinking about it, I am really unwilling to do so.

But so what, if they don't stop these people, these people will follow Lu Tianfeng and the others into Beiming Residence. Then can the master still get what he wants?

"You go first, I'll drag them here." He said to Lu Tianfeng.

At this time, I can no longer think that Lu Tianfeng is a fool, and I can only rely on Lu Tianfeng for everything.

Chapter 2846 Corpse Suppression Talisman!

Lu Tianfeng: "..."

He wanted to leave, but he didn't even know what that person wanted from Beiming Juzhong, so what was the use of going in?

"I want to go in, but you have to tell me, what does your master want me to bring out?" he asked funnyly.

"Well!"

The boss choked on his words and almost died from the breath in his throat.

There were so many people around him now, and he didn't even know where those people were. How could he tell Lu Tianfeng what the master wanted at this time?

This is really a very difficult problem.

Before, he had thought that for the sake of safety, he would wait until Lu Tianfeng was ready to go in before telling him what he was looking for in Beiming Residence.

Thinking about it now, I really regret it. If I had known it earlier and told Lu Tianfeng from the beginning, nothing would have happened.

"Come here with your ears."

He said to Lu Tianfeng.

"you say."

Lu Tianfeng immediately moved toward the boss.

He also really wants to know, what does that person want to get from Beimingju?

...

"Zombie Suppressing Talisman!"

Even if the boss and Lu Tianfeng speak so openly and openly, even if others cannot hear them, Sui Zimo and Lin Caisang can naturally hear them.

"No wonder I desperately want to get into the sea forest. It turns out that there is a corpse suppressing talisman here!"

"Sang Sang, what is the corpse suppressing talisman?" Lin Changhong asked.

Although I don't know what the corpse-suppressing talisman is, but just from the word 'corpse', I can tell that it must be related to corpses, right?

"Isn't it related to the son of the devil?"

He couldn't help but guess that both the previous surname Yin and the current Lu Tianfeng had an undeniable relationship with the son of the evil spirit.

Now that the mysterious man behind Lu Tianfeng wanted the corpse-suppressing talisman again, he naturally thought of the son of the devil. You really can't blame him, can you?

After hearing his words, Lin Caisang took a deep breath.

"It's related to the son of the devil!"

And this time when she entered the sea forest, one of her tasks was to obtain the corpse-suppressing talisman, and then find a place to store it so that it would never be seen from the light of day in the coming days!

"Really!"

Both Lin Changhong and Yue Chushui had their eyes widened.

"Let's not mention the Son of the Evil Devil. This corpse-suppressing talisman can never appear in the world. It can not only temporarily control the Son of the Evil Devil, but also control all kinds of corpses, whether they are humans or monsters."

Lin Caisang gritted his teeth and said.

"So scary?"

Captain Liu's eyes widened in disbelief.

If there really is such a thing, wouldn't it be safe for them to die in the future?

For example, when a person dies, he originally thought that his life span is over and he can rest in peace. Who knows, after being manipulated by this corpse-suppressing talisman, he will have to work for others and do things he doesn't want to do even after death.

Maybe you did a lot of good things during your lifetime, but your luck will be ruined after your death, and you won't even be able to get a good pregnancy.

Isn't this unfortunate enough?

Moreover, this is not the most important thing. When a living person fights with a dead servant, the living person must be at a disadvantage, because the dead do not know pain, but the living do.

"These people are really vicious, don't they want to use dead people to fight?" He couldn't help but guess.

Chapter 2847 Revealing the trump card

If it really comes to this point, will there be peace in this world?

"Let's go take a look together. We must not let those people get the corpse-suppressing talisman!" the female team member suggested to everyone.

If the other party is a chivalrous person, you can take the corpse-suppressing talisman if you want, but the problem is, look at the virtues of those people, they simply don't treat people as human beings.

If a person like this got the corpse-suppressing talisman, what good use could it be used for?

It's definitely impossible!

"Then let's go into Beiming Residence together." Lin Caisang said with a slight curl of the corners of his lips.

She must complete the mission this time. Even if Lu Tianfeng gets the Corpse Suppression Talisman, he still has to see if he can hold it!

"You want to leave, have you asked us if we agree?" The boss saw that they didn't take him seriously at all and were still thinking of entering Beiming Residence, so he immediately stopped them.

"Tsk!"

Lin Changhong clicked his tongue lightly.

"I forgot about these two damn things."

"Sister Sang Sang, you and your brother-in-law go in, and we'll deal with these two here." Yue Chushui said to Lin Caisang.

Lin Caisang: "..."

With such a person, does she need to leave two important people around her to deal with them?

"No need.

She waved her little hand and then directly used her trump card.

Suddenly, everyone felt a strange aura appearing beside them. However, this was a person who had aura but was not breathing normally.

"Former queen, you kill those two people for me. When I get the corpse-suppressing talisman, I can think of a way to deal with the one in your belly."

Lin Caisang pointed in one direction, and then said to the former queen.

After hearing her words, Lin Changhong and Yue Chushui consciously stepped back, staying far away from the former queen.

This former queen is unusual. There is a son of evil in her belly. These days, they have almost forgotten the existence of this person.

Unexpectedly, I saw him here again today.

After hearing Lin Caisang's words, the former queen rushed towards the two people without thinking.

She now trusts Lin Caisang very much. As long as Lin Caisang tells her to kill someone, it must be the person who deserves to die. There is no need to hesitate, just kill him!

Of course, these two people are not from Qianhuan Continent after all, and they are not that easy to deal with.

At that moment, the two began to fight. However, the former queen was able to deal with two people by herself, and she was able to beat the two people without any ability to fight back.

"Who is this? It's really amazing! Captain Lin."

Although they were in the fog and couldn't see anything, they could still hear the sound.

They could still hear the sound of the boss and Yan Qing screaming as they were beaten. It was incredible. They didn't even know that there were such awesome people beside Lin Caisang.

"A man I met not long ago had a son of an evil spirit in his belly." Lin Caisang did not shy away and said directly to them.

As long as she finds the corpse-suppressing talisman, she will be able to deal with the evil son in the former queen's belly. Therefore, there is nothing to avoid as the carrier of the evil son.

However, after hearing her words, several people's hair stood up.

"Son of evil...evil demon...how...how..."

Captain Liu swallowed hard and his calves were trembling with fear. He had only heard of the devil's son, but had never seen it before.

Chapter 2848 Is it true?

Now, we can see the mother body of a child of evil.

"No... that's not right. How could the carrier of the devil's son... listen to you?"

Thinking about it, it feels wrong. Even if it is the carrier of the devil's son, it is still a corpse. How could he listen to others? Is this Lin Caisang also a person who practices evil arts?

Otherwise, how could she get such a terrible person to listen to her?

After hearing his words, Yuan Jue and the others were silent. They also wanted to know the answer.

"She's not dead."

Sui Zimo explained for his wife.

"What? Not a dead person?!"

Everyone's eyes widened when they heard his words.

There is only one kind of person if it is not a dead person, and that is a living person.

"Who is it that actually uses a living person to make something as evil as the Devil's Son? Is this still a human being?" the female team member asked bitterly.

She is a woman and can best understand this pain, because as the carrier of the devil's son, she must be a woman. Those people actually use living people to raise the devil's son!

"Yan Qing, be careful not to hurt her, she is what the master wants!"

There was no need for Lin Caisang and Sui Zimo to answer. Over there, the boss gave a sharp shout and gave the answer that the female team member needed.

"There are them again!"

Yuan Jue turned his head and looked in the direction of the two people. Although he couldn't see anything, his eyes seemed to be looking at some vicious source of infection.

"This kind of person should not stay in this world to cause harm to the world!" One of the three people on the wall said bitterly.

That's right, how can such a person deserve to live in this world? Everyone can kill him.

"Kill them!"

The other two people shouted to the former queen to cheer her up.

The boss and Yan Qing were defeated by the former queen, but they couldn't hurt the former queen... In fact, even if they wanted to, they couldn't.

Therefore, in the end, in order to save his life, he could only run away temporarily.

Anyway, they have sent Lu Tianfeng and the others into Beiming Juli, and they should be able to bring out the Corpse Suppression Talisman.

As for these people, even if they enter Beiming Residence, they cannot catch up with Lu Tianfeng and the others.

Since you can't stop it, just don't stop it.

Seeing that they had escaped, Lin Caisang did not let the former queen continue to pursue, but directly took her back into the Golden Pearl Space.

And they entered the Zhenbei Mingju directly.

Different from the fake Beimingju, the treasures in the real Beimingju are not that good. They are hidden in different corners and guarded by magical beasts that no one can see.

If you want to get any treasure, you have to defeat the corresponding guardian monster to get it.

When they first entered Zhenbeiming Residence, they heard the roars of monsters. Looking around, they saw Lu Tianfeng and Zhao Rui fighting with a monster, and underneath the monster, there was a treasure box. .

Everyone: "..."

I really don't understand why the person behind Lu Tianfeng chose this idiot Lu Tianfeng?

Previously, they heard that the boss and the others had been calling Lu Tianfeng a fool, and they always thought it was those people who were biting dogs, but now it seems that calling Lu Tianfeng a fool is really true!

"Isn't this the first floor? These two people want to get the most important thing, don't they think it's on the first floor? Isn't this a bit ridiculous?"

Chapter 2849: So angry that he vomited blood and died

One of the trio of wallflowers glanced disdainfully at the two people fighting with the monsters, and expressed his doubts aloud.

Even a fool knows that is impossible.

According to their captain, Zhenbeimingju is divided into eighteen floors. The higher you go, the better things you can get.

On this first floor, what can Lu Tianfeng, master and servant, get?

They are really strange!

"Weird things happen every year, but there are so many this year. There are even more weirdos this year!" Another person also said.

Well, thanks to the two people outside, I thought they should have gone up long ago because they were still blocking the attack of the devil's son's carrier.

How do you know that these two people are still on the first floor.

I don't know if the two people outside knew about it, would they be so angry that they would vomit blood and die?

"Ignore them, let's go."

Lin Caisang also glanced at Lu Tianfeng and the two, then withdrew his eyes and looked at the vaguely visible spiritual power ladder.

The group of people no longer paid attention to Lu Tianfeng and the two of them, and walked directly from the spiritual power ladder to the second floor.

"Master, they're going up!"

Zhao Rui's sharp eyes had already seen Lin Caisang and the others. When he saw them going directly to the spiritual power ladder, he immediately became anxious.

"I saw!"

Lu Tianfeng was also angry and extremely anxious.

It's not like he has no eyes, doesn't he know how to see? As soon as Lin Caisang and the others came in, he saw their figures walking up in a hurry.

But what can you do if you see it again?

How dare that idiot boss throw them directly on top of this treasure chest without losing his dignity? The guardian monster thought they were here to steal its treasure, and started to fight after catching them.

Even if they directly stated that they didn't mean it, it wouldn't work!

"Kill it quickly and let's go up too!"

He has long known that things in this place can only be good at higher levels. Who would like such a first-level thing?

But unfortunately, this first-level monster is also so difficult to deal with!

"good!"

Zhao Rui responded, the spiritual power in his hand increased, and he slashed towards the monster.

The two of them fought back and forth, and after fighting for a while, they finally killed the monster that was biting them.

Although they didn't bother to ask for the things on the first level, they spent a lot of spiritual power and killed the monsters to get them. Naturally, they had to keep them if they could.

Therefore, Lu Tianfeng stepped forward directly and opened the treasure box.

only.....

When the contents of the treasure box were revealed in front of his eyes, he really almost cursed.

A pair of bone-breaking armor actually cost them so much time and allowed Lin Caisang and others to get ahead of them, and he was one step behind them!

"hateful!"

He flew up and kicked the treasure box away!

With a 'bump', the treasure box flew far away, and finally fell to the ground, creating a shallow pit. The bone armor in the treasure box also fell out, and fell alone on the ground.

"Master, let's catch up." Zhao Rui reminded.

"Walk!"

Lu Tianfeng took one last look at the treasure box, then turned around and ran towards the spiritual power ladder.

This time, Lin Caisang and the others must not be allowed to surpass him. He must get what that person wants, otherwise, he will definitely not have anything good to eat!

Chapter 2850 Purple Mist Armor?

What he didn't know was that after he left, two figures came to the place where he had been standing just now, and walked in the direction of the treasure chest.

"Even if it's something I don't like, I worked hard to get it. It's such a pity to lose it like this."

Lin Caisang wanted to bend down and pick up the bone armor, but he was not as fast as Sui Zimo. He got the thing in her hand before her and handed it to her.

"Although the color of this bone armor is not very good-looking, if it is tempered properly, it can be a very good defensive weapon." He said to his wife.

He is an alchemist, so he naturally knows what kind of defensive weapon is good, and this bone armor is not bad either.

"It's a pity that Lu Tianfeng has no vision.

After he finished saying this, the two people saw the bone armor in his hand flashing with purple light, and the next moment, the entire bone armor disappeared from his hand.

The purple light turned into a wisp of smoke and entered Sui Zimo's body.

"Is this..."

"Purple Mist Armor?"

Two voices sounded at the same time, the former was Lin Caisang and the latter was Sui Zimo.

The Purple Mist Armor is an artifact. He has only seen it in the books of Jinzhu Pavilion. It is said that it has disappeared for who knows how many years, but it is actually in this Zhenbeimingju.

It seems that no place should be underestimated.

"hehe."

Lin Caisang chuckled.

"You deserved that Lu Tianfeng was not lucky enough to get the divine weapon Purple Mist Armor. It was only because you were able to appreciate the Purple Mist Armor that you had the chance to be recognized by it."

she said.

"Let's go back to the second floor."

Sui Zimo nodded, took her hand, and the two of them flashed back to the second floor.

...

At this time, Lu Tianfeng and his subordinate Zhao Rui had already arrived on the second floor. Seeing that Lin Changhong and the others had not left yet, they let out a sigh of relief.

"Come on, let's keep going up."

Ignoring those people, they continued to walk up, deciding to get rid of those people and not let them have another chance to put their ideas on their heads.

"They went up. Where did Captain Lin and the others go?" Captain Liu watched Lu Tianfeng and Zhao Rui go up. He felt a little anxious and asked Lin Changhong and Yue Chushui.

It's not that he wants to be the first, but no matter what, he can't let Lu Tianfeng get the corpse suppressing talisman.

Otherwise, we still don't know what bad things they are going to do with the corpse-suppressing talisman!

"I probably haven't gone anywhere. I'll be back soon." Lin Changhong replied to him.

What he was thinking in his heart was, how could he know what his sister had thought about, and where had she gone with Sui Zimo? In their hands, they have the Beiming Token.

In Beimingjuli, where do you want to go?

However, Lin Caisang didn't slap his eldest brother in the face too much, and he came back after a while.

"Captain Lin, Mr. Sui, since you are back, let's go up. The man named Lu has already gone up." Yuan Jue was also a little anxious and said to them.

"Not urgent."

Lin Caisang was not in a hurry at all.

"Let's go back first, and then everyone will dig a treasure chest on the first floor, and then come up again."

Everyone: "..."

They came directly to the second floor. They didn't even take a look at the treasure chest on the first floor.

Now you actually tell them that they have to go back and fight World of Warcraft again?
