

Star of Space 3021

Chapter 3021 We don't know either

After the Earth Core Fire disappeared, there were still a few bones scattered around, and most of the bones had been melted by the Earth Core Fire.

"These are the bones of our spirit beast fish."

Afeng stepped forward, looked at the bones, and said with deep pain in his eyes.

It seems that those spirit beast fish that entered the Forbidden Pool have basically no chance of surviving, and they don't know if their companions are still there!

"Ayao, you said..."

"It must be alive and will be fine!"

Before A Feng could say anything unlucky, A Yao interrupted him and said.

Their companions, like them, are not ordinary spirit beast fish. They are all able to speak in front of the clan leader.

Even in a desperate place like Forbidden Pond, he would not die so easily. He must still be alive. He should be hiding somewhere without danger, right?

"Ah Yao, Ah Feng, there's a question I haven't figured out yet. Why did your companions come to the Forbidden Pool?" Lin Caisang looked at the two spirit beast fish and asked.

"Yes, you should even respect the clan leader. This kind of spirit beast fish is not the kind that will be deceived by anyone and enter the forbidden pool, right? Then how did it come to this place?"

Lin Changhong also asked.

Doesn't it make sense? What kind of Forbidden Forest or Forbidden Pool? This kind of place is the most dangerous place. Except for those spirit beasts and fish who are not very clear-minded and are confused, who would come in for no reason?

Unless it knew there was something in the forbidden pool and wanted to get it, so it came in.

But what can be found in the Forbidden Pool?

Corpse suppressing talisman?

This was the only thing he could think of now. Did Ayao and his companions enter the Forbidden Pool just because they wanted to obtain the corpse-suppressing talisman?

"We don't know this either."

Ah Yao and Ah Feng looked at each other before looking at Lin Caisang.

It would be great if they could know, but it's a pity that they really don't know anything!

"We just heard a spirit beast fish said that it had entered the Forbidden Pool. We didn't know anything else. After that, we just wanted to come in and save it, but..."

The Forbidden Pond is so easy to enter. After the clan leader found out, he just went in and searched for it, but found nothing. In the end, he had no choice but to go out.

"This doesn't make sense."

Lin Changhong and Yue Chushui looked at each other.

Yue Chushui's eyes flashed and he looked at Ah Yao and Ah Feng.

He always felt that something was wrong, but Ayao and Afeng were monsters, and he had no way of getting any answers from their faces.

"Ah Yao, Ah Feng, tell us again, what is the temperament of your companions?" he asked.

"he....."

Ah Feng just wanted to speak, but was stopped by Ah Yao who was standing beside him.

"What's there to say about it? It's similar to us. We are all the patriarch's favorite future heirs. The patriarch's vision is not wrong. You don't have to doubt it. It will never harm us."

Ayao said to them.

Everyone: "..."

It turns out that it also knows that they are suspicious, right?

That's right, they were wondering whether A Yao and his companions had really entered the Forbidden Pool. Could it be that the spirit beast fish was trying to trick A Yao and Afeng into entering the Forbidden Pool? Where is the suspicion array?

It's not impossible, is it?

This might be a clan leader dispute. What if the spirit beast fish wants to harm its companions?

Chapter 3022 Are you really not here?

"Captain Lin, I think we can look for our things while we check to see if there is any whereabouts of their companions along the way. Captain Liu looked at Lin Caisang and suggested.

"Can."

Lin Caisang naturally wouldn't object and nodded.

"What?!"

Hearing their conversation, Ah Yao and Ah Feng were both shocked.

"Won't you help us find it? You promised us that you would help us find it!"

Could it be that just because I handed over the food, they regretted it and stopped helping them find companions? How is this possible?

"What I promised you will definitely be accomplished. 6" Sui Zimo looked at them and said coldly.

"Then you still..."

"Do you know where your companions are now?"

Afeng wanted to speak, but was interrupted by Lin Caisang. He paused and looked at them.

Yes, they don't even know where their companions are now, nor how to contact them. How can they find them?

Moreover, this forbidden pool may not be big, but it is not small at all.

"Then... what should we do? It's been delayed for so long, and I don't know what's going on with Ah Jin. What if... can't you help us find Ah Jin first?"

Afon said.

Thinking that Ah Jin might be in danger, it almost wanted to cry.

"If you can confirm that the Ah Jin you are talking about is indeed here, then we will help you find Ah Jin first, how about that?" Yue Chushui asked them.

"Well!"

Ah Yao and Ah Feng choked at the same time.

They wanted to say that they were sure that Ah Jin was in the Forbidden Pool.

But when the words came to their lips, it was not so easy to say them out, because they had not seen Ajin enter the forbidden pool at all.

As long as some spirit beast fish say so, they believe it.

Is Ajin really not here?

Where would it be? If Ah Jin hadn't entered the Forbidden Pool, it would have been several days. They couldn't even see Ah Jin's face, right?

What on earth is going on?

"Ajin must be in the Forbidden Pool, but we really don't know where it is now. Can you... can you help us find Ajin first?"

Ah Yao refuses to believe the possibility that Ah Jin is not actually in the Forbidden Pool.

If Ah Jin is really not there, doesn't it mean that Ah Jin deliberately guided them into the forbidden pool?

Because before, the three of them met almost every day, but this time, because a spiritual beast fish discovered that Ajin had entered the forbidden pool, they had not seen Ajin for several days.

This cannot be a coincidence.

After hearing Ayao's words, Lin Caisang and Sui Zimo looked at each other, and then they looked at Ayao and Afeng seriously.

"Okay, let's look for Ah Jin first, but you have to provide clues about Ah Jin. Where exactly will it be?" Lin Caisang looked at them and asked.

Hearing this, Ayao and Kefeng were stunned at the same time.

How could they know exactly where A Jin would be? This was their first time entering even this forbidden pool.

If they can enter the Forbidden Pool at any time, do they still need these humans to come in with them? There's absolutely no need for that.

"We don't know where Ah Jin is, but we are sure that Ah Jin must be in the Forbidden Pool!" Afeng said to them seriously.

Chapter 3023 Shall I guide you?

Everyone: "..."

They must be of no use. Don't they even know whether Ajin is in the Forbidden Pool?

"In that case, why don't we look for Ah Jin while we look for what we are looking for? Maybe they are in the same direction.

One of the three wallflowers suggested.

"Besides, we don't know where the thing we are looking for is, so we have to look for it, right, Captain Lin?"

"Um."

Lin Caisang nodded his head in agreement.

As for the other half of the corpse-suppressing talisman, they really didn't know where it was, and they had to look for it.

This time is different from the Forbidden Forest. Without the guidance of the clan leader, it is indeed a bit difficult. However, I believe they will be able to find the other half of the corpse-suppressing talisman.

"Let's take a look while walking first. Maybe if we are lucky, we can find it soon," she said.

"So, we still have to find what you are looking for first?" A Yao asked with a somewhat unhappy tone.

"Yes, and also wrong."

Sui Mo looked at Ah Yao and Ah Feng with cold eyes.

"The current situation is that we don't know where the things we need to find are, and the companions you need to find also don't know where they are?"

Since we don't know, then let's find it as we go. Which one we find first and which one we find later are beyond our control. Do you understand? "

"this....."

Ayao thought for a moment and realized that was really the case.

They are looking for Ah Jin, and the humans in front of them are looking for what they want, and now, they can only look aimlessly without any clue.

"Then... let me guide you?"

it suggested.

"Can."

Lin Caisang nodded in agreement.

No matter who guides the direction, it makes no difference. They can also only choose a direction at will.

But Lin Caisang agreed, but some people disagreed.

"I disagree!"

Lu Tianfeng, who had been silent all the way, suddenly stood up and spoke.

Everyone: "..."

Why doesn't he agree? Doesn't he still want to come out and choose his own path?

"Captain Lin, I see that your luck is beyond the reach of ordinary people. I think it's better for you to decide which path to take." Lu Tianfeng looked at Lin Caisang and said sadly.

Everyone: "!!!"

This Lu Tianfeng is really not a thing.

Although they also feel that the luck of Lin Caisang and Sui Zimo is not comparable to that of ordinary people, at this time, is Lu Tianfeng really saying this for them?

This was clearly an attempt to alienate the relationship between them and these two spiritual beast fish.

It was up to Lin Caisang to choose the route. It would be better if they found Ah Jin first, but if they found the corpse suppressing talisman first, Ah Yao and Ah Feng would definitely think that they were not keeping their word and deliberately found what they wanted first. They had no intention of helping them find Ah Jin.

What he said is not insidious.

"Lu Tianfeng, you..."

"Okay, I agree!"

Yuan Jue had already thought of his words and wanted to scold Lu Tianfeng.

Who knew that before the words were cursed, they heard Afeng's voice ringing in their ears.

"Afeng, what do you mean?"

Ah Yao was almost angry to death when he heard Ah Feng's words.

Let them choose, what will they do if they don't help them find Ah Jin?

Chapter 3024 What to do?

Ah Jin has been in the Forbidden Pond for many days. What if it can't survive anymore? They can't wait any longer.

"Ah Yao, you really have to believe in luck." Ah Feng looked at Ah Yao seriously and said.

If, as Lu Tianfeng said, Lin Caisang was very lucky, then everything must go smoothly. This can be proved by the fact that they came out of the Forbidden Forest so quickly.

Therefore, it is not necessarily wrong to choose to believe them.

"Then what should we do? We need to find what they want first?" A Yao's tone was still unkind.

In all these years, they have never had a human enter the Qianji Pond. It can be seen that the things they want to get have been left untouched in the Forbidden Pond for many years.

Such a thing will not move even if it is left for hundreds of years. Will it still be less than a few days?

But Ah Jin is different. This place is so dangerous. What should Ah Jin do if something happens here? Can they shoulder this responsibility?

but.....

In fact, it was not sure whether Ah Jin was in the Forbidden Pond or not. What if he wasn't?

"Ayao, why don't you understand yet?"

Hearing that A Yao was still asking what to look for first, A Feng rolled his eyes speechlessly.

Ah Yao has gone through a lot of trouble. In this forbidden pool, where to look first? It is the first time for each of them to come in. If they can find Ah Jin or what they want to find by touch, then Not bad.

This is all a matter of probability, and it is possible to find which one you find first.

"In this place, whether we find Ah Jin first or find what they want first, neither we nor they can have the final say!" it said.

After hearing what it said, the others nodded sharply.

Yes, it is already difficult to find things in this place, let alone finding a specific thing. It is even more difficult. I don't know how many difficulties there are.

"Let's go forward first and see what we can find." Lin Caisang said.

"Then...okay."

Ayao didn't know what to say, so he could only nod.

The group of people added two spirit beast fish and continued walking forward. The direction was chosen by Lin Caisang, and no one knew whether it was correct or not.

...

On the other side, outside the Forbidden Pool.

"This unlucky child, what did it think? It actually... took away my token. It..."

An extremely huge spirit beast fish stood outside the Forbidden Pool, looking at the monument erected next to it, with the word "forbidden" written on it. At this moment, it was jumping.

It really didn't expect that just after saying a word to the other spirit beast fish, its token would be stolen by Ayao.

But unfortunately, in front of so many spirit beast fish, it couldn't say the word 'steal'.

"Clan Leader, what should we do now? If you don't have a token, you can't go in and look for Zhenzhen, right?" The other spirit beast fish was also extremely anxious after listening to the clan leader's words.

The family is really still inside. What if the patriarch doesn't go in and look for it?

"hiss!"

The clan leader took a deep breath and looked at the spiritual beast fish.

"Don't worry, if Zhenzhen is still alive, Ayao will definitely bring it out."

"This... how can this be certain? Ayao is still a child. Can I count on him? When he is in danger, he can just push Zhenzhen out of the way to block the situation."

Chapter 3025 Why are you here?

The spirit beast fish was anxious and the words he said were naturally very unpleasant.

Both Ah Yao and Ah Feng are still just children in their eyes. Even if they get the attention of the clan leader, so what?

Can we still point them to rescue Zhenzhen from the forbidden pool?

Even the clan leader had never been able to save a spirit beast fish from accidentally breaking into the Forbidden Pool before, let alone Ah Yao and Ah Feng.

The two children didn't know what they wanted to do. Why did they take the patriarch's token? It was simply harmful. They didn't understand. Why did the patriarch treat those three children differently?

"What are you talking about?"

When the patriarch heard what it said, he immediately became unhappy.

After all, it was the three of them, Ayao, who he watched grow up.

Moreover, among the spirit beasts and fish in Qianji Pond, who doesn't know that it might pass on its position as clan leader to one of Ayao and the others?

Even if the other two did not become clan leaders, it was still thinking about setting up two elders or something.

And looking at Ayao and the three of them, their relationship is so good.

"I have watched Ayao and the others grow up. I still know a little bit about their abilities. You don't need to remind me of their abilities here!"

"This... Patriarch, don't be angry, I'm impatient.

The spirit beast fish became angry when he saw the clan leader and quickly explained.

It was anxious. Its child had entered the Forbidden Pool, and it wanted to rush in to find it. However, the patriarch didn't have the token in his hand, so it had no idea what to do.

"Are you impatient?"

The clan leader glanced at it. To be honest, it didn't see any signs of impatience in the spirit beast fish.

"By the way, I haven't asked you yet, how did Zhenzhen enter the Forbidden Pond? Didn't my clan leader tell you that the Forbidden Pond is absolutely not allowed?"

"Well!"

The spirit beast fish choked at the clan leader's words.

How could it know why it entered the Forbidden Pool? It was a very timid person.

"Well...I don't know. It's really very timid. I don't know why it couldn't think of it and entered the forbidden pool?"

To be honest, it was still confused at the moment and had not figured out why it really wanted to enter the Forbidden Pond. It was clear that it had never heard that the child was even remotely curious about the Forbidden Pond before!

"Clan leader, how about we..."

"Clan leader, what's going on? I heard that Ayao and the others entered the Forbidden Pool. Why?"

The spirit beast fish still wanted to speak, but they heard an extremely anxious voice coming from behind them. When they heard the familiar voice, the clan leader turned around.

The speed and the force were so great that he almost threw the spirit beast fish beside him into the forbidden pool.

Fortunately, the spirit beast fish escaped in time.

"A...Ajin, why are you here?"

The clan leader was shocked when he saw the spiritual beast fish coming over.

Didn't it mean that A Jin entered the Forbidden Pond? This has been the case underwater for the past few days, but now, Ah Jin has come over safely. This... what is going on?

It looked at Ah Jin, then turned its head to look in the direction of the forbidden pool.

If it had been known that Ah Jin had not entered the Forbidden Pond, how could Ah Yao and Afeng enter the Forbidden Pond to look for it?

"Why are you here? Where have you been these days?" it asked immediately.

Chapter 3026 What is this...

"I....."

Ah Jin was a little confused when asked, where else could it go.

"I heard Zhe heard that you were feeling unwell and needed the rebirth flower from Wanluo Domain to be cured, so I went to pick it. I originally wanted to tell Ayao and the others, but I don't know what happened that day. , I just couldn't find them, so I went by myself."

But how could it have imagined that Ayao, A Jin and the others would actually enter the Forbidden Pond after just one trip to the Wanluo Realm?

What's going on?

"Orimi!"

Hearing Orimi's name, the clan leader gritted his teeth bitterly.

Orimi is his biological grandson, but this child's character can be said to be bad. It's embarrassing for him.

But unfortunately, the child still felt that if he didn't hand over the position of patriarch to it, then he didn't treat it as his own grandson, and he would look down on it every day.

It really wants to give it a beating, but unfortunately, that is its own grandson. No matter how unbearable it is, it can't really be dealt with?

Therefore, we can only treat it as invisible and turn a blind eye.

But who knew that it was turning a blind eye here, but Orimi was doing this again.

"You guys, go find Orami to the leader of the clan and throw it into the cold prison. No one is allowed to see it without the order of the leader of the clan!" it ordered to the two spiritual beast fish behind it.

In the past, it could indulge in petty troubles, but this time, Orimi went too far.

If this happens, and it still doesn't deal with the situation, then maybe it will do something outrageous in the future. In the future, the underwater world will probably be in the same dire straits as the underwater world.

"Yes, patriarch."

The two spirit beast fish listened to the clan leader's order and went to find Orimi.

"You should all disperse. As for you...why you entered the Forbidden Pool, you should know it in your heart. Go back and think about your mistakes!"

"Well."

When the spiritual beast fish heard what the clan leader said, it was so frightened that it didn't dare to say a word.

The clan leader has always known that his family is very close to Orimi, so this happened today.

They just saw the right opportunity and watched Ayao steal the clan leader's token, so they deliberately said that Zhenzhen had entered the forbidden pool. In fact, Zhenzhen had been at home the whole time and had never gone out at all!

"Clan leader, I..."

"roll!"

The clan leader glared at it sharply.

At this time, it has no time to pay attention to these guys. It will settle accounts with these guys after Ayao and the others come out safely!

"Yes, yes, I'll get out of here!" The spirit beast fish didn't dare to say anything, and ran away quickly.

"Chief, what is going on?"

Ah Jin still didn't know what happened. Seeing that all the spirit beasts and fish were gone, he asked the clan leader.

"Why!"

The clan leader sighed softly.

"It should all be Orijian's fault. It deliberately tricked you into leaving. Then the news spread in the pond that you entered the forbidden pond by mistake. Ah Yao and Ah Feng stole my token in order to save you. Entered the Forbidden Pool."

"What?!"

Ah Jin was shocked when he heard what the patriarch said.

If the clan leader hadn't been here, and Orijian was the clan leader's grandson, it would have cursed loudly right now.

But the patriarch has always taken good care of the three of them. Even if Orimi did such a thing, for the sake of the patriarch, it would be hard for him to be disrespectful.

Chapter 3027 The water temperature is getting hotter and hotter

"Clan leader, what should we do? Ayao and the others went in to look for me. If they can't find me, they will definitely not come out!"

"you do not say.

The clan leader also took a deep breath of water from the pool.

"Let's do this. We can't let Ayao and the others stay in the forbidden pool. I'll go in and find them back."

After thinking about it, it was because of him that he could only enter the forbidden pool to retrieve Ayao and the others.

"How is this possible?"

Once he heard that the clan leader wanted to find it in person, how could Ah Jin agree to it?

Now the token is with Ayao, and it is not with the clan leader. If the clan leader enters the Forbidden Pool, what should he do if something happens?

They couldn't afford to take this risk and couldn't let the clan leader in.

"Clan leader, you are indispensable in the pond. Otherwise, why don't I go in and look for you? Don't go," it suggested.

Patriarch: "..."

It also feels that it is indispensable in the clan. The most important thing is that there may be some hidden secret behind what Orimi caused. Who might be adding fuel to the flames?

But if Ah Jin is asked to go into the Forbidden Pool alone to find Ah Yao and Ah Feng, he won't worry about anything.

"Forget it, let me go with you. I think nothing will happen to the clan for the time being. We can quickly find Ayao and the others and then we can come back."

it said.

"this....."

"Stop doing this and that, let's just go and get back soon."

Ajin still wanted to speak, but was interrupted by the clan leader. The clan leader took a deep breath and looked in the direction of the forbidden pool.

"Remember, after entering the Forbidden Pool, you can do whatever I tell you to do. Don't mess around and don't ask too many questions. Do you understand?"

"Yes, patriarch."

Ah Jin responded and followed the clan leader into the forbidden pool.

...

In the Forbidden Pond, Sui Zimo and Lin Caisang were walking at the forefront.

After entering the Forbidden Pool, they had already escaped countless geocentric fires. Although some of them could be easily avoided, there were a few times where it was really dangerous.

These core fires seemed to be rushing towards them, although sometimes they could be seen erupting nearby.

"Afeng, why do I feel hotter and hotter?"

Lin Caisang and the others, who had just entered the pool, didn't feel anything, but Ah Yao and Ah Feng felt it really.

The further they went, the hotter the water became, which became unbearable for them.

"Yeah, I feel that way too."

Afeng also nodded, feeling really hot.

"Mr. Sui, Mrs. Sui, don't you feel that the water is getting hotter and hotter?"

Turning its head, it looked at Sui Zimo and his group.

Hearing this, Lin Changhong and Yue Chushui looked at each other.

As for others, they didn't know what to say. Did they say that they had been protecting themselves with spiritual power?

Even if the water becomes hot, as long as the spiritual power in their bodies is outputting, nothing will happen. Unless their spiritual power is insufficient, then they will die.

"You can feel it, but it doesn't matter. We have spiritual power to support you. You can also use your spiritual power. In this way, no matter how the water temperature changes, you will be fine."

Lin Caisang reminded them.

Just because the water temperature has changed, it doesn't mean that they have to leave. This time, not only them, but also Lu Tianfeng is determined to get the corpse suppressing talisman.

Presumably, even if the water turns into boiling water, Lu Tianfeng will not back down, right?

"So it can still be like this."

The two spirit beast fish were reminded, and then they realized that they could still use their spiritual power.

Chapter 3028 The water temperature is getting hotter and hotter

The main reason is that they have always lived in this place and have never used spiritual power to isolate the water temperature, so naturally they will not remember it.

However, after being reminded, they knew what to do.

"It seems that there is nothing wrong with walking to a place where the water is hotter." Captain Liu glanced at their direction and said.

It's Lin Caisang again. Just point in a direction and you're right. This kind of ability is not something ordinary people can possess. They can't even envy it.

"Keep going."

Yuan Jue also spoke, and the group continued to swim forward.

"Afeng, are they really not going to help us find Ajin?"

Ah Yao and Ah Feng were at the back, and they felt extremely disappointed when they saw everyone heading towards the hotter water.

It obviously came to them to help them find Ajin, but in the end, it was them who accompanied these humans to find what they needed?

This is completely inconsistent with its original idea.

"The situation is like this, and there is no other way. Let's follow them first." Afeng sighed helplessly and said.

Entering the Forbidden Pond is no longer as simple as finding Ah Jin or finding the Corpse Suppressing Talisman. As it was said before, which one to find first is completely determined by God.

"Ayao, don't be discouraged. Think about it, if we don't help them find things, then why do they come in with us? Isn't that right?"

"But they... they can help us find Ah Jin first!" A Yao still thought so and said so.

A Feng: "..."

It really didn't want to remind Ayao anymore. It was not certain whether Ajin had entered the forbidden pool or not.

Maybe Ah Jin didn't come in at all, so they couldn't find it no matter how much time they spent searching. Therefore, it was understandable that those humans wanted to find their own things first.

"Perhaps if we keep going forward, we might be able to find Ah Jin. Let's just follow them." It comforted Ah Yao.

After hearing its words, Ayao fell silent.

It still feels that Ah Jin will not go to a place where the water is hotter, but must go to a place where the water temperature is cooler. Otherwise, Ah Jin himself will definitely not be able to bear it.

"Forget it, just follow them first."

Its ideas are of little use to these humans.

Even if you say it, they won't listen and will only go where they want to go.

"I don't know how Ajin is doing. It's so dangerous here..."

As it walked, it muttered, hoping that Ajin would be okay, otherwise, it wouldn't know what to do.

...

Continuing to move forward, not only the water temperature is getting hotter, but also the dangerous things are not just the earth's core fire.

The number of geocentric fire eruptions is increasing, which can be seen from the water temperature. On the other end, there are some entangled red water plants, clusters of them, always approaching them.

'Grrrrrrrr.'

A cluster of water plants was pushed to a distance by Lin Changhong and Yue Chushui. The bubbles originally in the water plants flew upwards, forming a long series of water ripples.

"Chu Shui, these water plants, why do I feel like they are alive?"

After Lin Changhong chopped the water plants into several sections, he turned around and looked at Yue Chushui next to him, and put forward his own opinion.

Chapter 3029 Half Warcraft State

Yes, when they looked at these aquatic plants from a distance, they would not move much when they saw them, but once they got close, they seemed to have independent consciousness and came towards them.

If this is not alive, what could it be?

"They should be alive originally, aquatic plants, or maybe animals." Yue Chushui looked at the red aquatic plants and said.

After a while, he turned to look at Sui Zimo and Lin Caisang.

"Sister Sangsang, brother-in-law, do you see anything? Are these water plants really monsters?" he asked.

"Absolutely." Lin Caisang replied to him.

"almost?"

Captain Liu almost swallowed a sip of water when he heard her words.

"Captain Lin, what does it mean to be almost the same? If it is a Warcraft, it is a Warcraft. If not..."

"It's half a monster state."

Before he could finish speaking, Sui Zimo interrupted him.

"Half monster state?"

Everyone looked at me and I looked at you, completely confused.

I beg your pardon that their knowledge is too narrow and they don't understand at all what the half-demon state is.

"Mr. Sui, what does it mean to be in a semi-Warcraft state? Are they Warcraft? Or are they just water plants?" asked one of the trio of wall grasses.

"I see that these aquatic plants can absorb nutrients from the water, but they seem to be able to attack us or other organisms. Isn't it capable of attacking enough? Can it get nutrients from other organisms?"

Another person in the trio of wallweeds looked at the water plants and said.

"ah?"

Everyone still didn't understand what it meant.

"They are magical beasts that have not yet activated their spiritual beasts. To put it simply, they are a kind of conscious plant. If someone or other creatures come close, they will hunt and kill them based on their own abilities."

Sui Zimo explained.

These aquatic plants are fine now, just clustered here and there in the east and west, but if they go further inside, there will probably be more of these aquatic plants.

It will be difficult for them to deal with it then, and they will be entangled by them.

"Sonny, let's take a rest first and think about what to do with these aquatic plants."

He looked at Lin Caisang and suggested.

"good."

Lin Caisang answered without thinking.

These aquatic plants are indeed a trouble, and these aquatic plants are one. Who knows what other things will exist the further you go in?

In the water, anything is really possible.

"These are flying red grasses. There are also flying red grasses outside the Forbidden Pool, but the flying red grasses outside are not that big. They are just small clusters."

Ayao looked at the flying red grass and explained.

"And the flying red grass outside the Forbidden Pool all grows at the bottom of the water and cannot swim in the water."

As it spoke, it looked at Afon.

A Feng saw it looking towards him and nodded.

It has never seen such a big flying red grass, but the flying red grass outside will not attack them.

Unlike the flying red grass here, when it saw it and Ayao approaching, it moved directly towards them, trying to entangle them.

"It seems that it has mutated." Yue Chushui said.

Everyone: "..."

It has mutated, so it has become autonomous and can attack people?

Of course, this is not impossible. Weird things can happen in this world.

"We have to find a way to kill these grasses." Lin Changhong said.

Chapter 3030 You can think of a solution slowly

"Why, isn't it just a few tufts of grass? If you dare to get entangled, you can just chop it to death?" Afeng was a little confused. In his impression, Feihongcao didn't have much attack power.

"Isn't it just a few tufts of grass?"

Lin Changhong almost laughed out loud when he heard its words.

Is it a question of a few tufts of grass?

"There are so many grasses in this place. Can you predict how many there will be in places where the water temperature is even warmer? If these guys really get us entangled, we won't even be able to escape." It's all difficult."

"this....."

Afeng was stunned, but he didn't expect that it would be so troublesome.

It also thought that there would only be so many flying red grasses. Could there really be more and more of them?

If that is the case, it will be troublesome. If so many flying red grasses are really entangled, even the spirit beasts and fish will not be able to break free, let alone the humans in front of them?

Therefore, it is still necessary to worry.

Just as they were talking about how to deal with the flying red grass, several clusters of flying red grass slowly approached them.

When Captain Liu and the others saw this, they immediately backhand, and several others cooperated to knock out the flying red grass, and then turned to look at the others.

"Captain Lin, Mr. Sui, these flying red grasses are difficult to deal with, so we should think of countermeasures as soon as possible.

That's right. If these things really get entangled in a large group, there will only be more and more people in the end, and it will be impossible for them to escape.

It is said that fire defeats wood, but in this water, even if they have fire, they cannot defeat wood!

In this water, even the use of medicine will not work. The speed of water transmission is incomparable to that of air. If you take medicine, not only will the Feihongcao die, but also the spirit beast fish will suffer.

This is a bit difficult to handle.

"It's okay, there is always a way to restrain yourself."

Lin Caisang spoke calmly.

Since there is such a level setting, there must be a way to solve it.

It's just that they haven't thought of this method yet.

"Eat some fruit first, you can think of a solution slowly."

She took out some fruits from the Golden Pearl Space and divided them among them. Of course, Lu Tianfeng didn't have any.

But Lu Tianfeng doesn't care. Not to mention that it doesn't matter whether he eats or not in this place. Even if he wants to eat, there is food in his own magic weapon.

What's more, he really didn't dare to eat whatever Lin Cai Sauna gave him. Who knows if it might be poisonous?

While everyone was eating fruit, several groups of flying red grass came over and tried to attack them, but they were all beaten away.

And until they finished eating the fruits in their hands, no one could think of a better way to restrain those flying red grasses, so they could only take one step at a time.

"Zimo, do you think the token can control these flying red grasses?" After everyone started walking forward again, Lin Caisang lowered her voice and asked her husband.

"perhaps."

Sui Zimo just said two words lightly.

This token must have some use, it can't just be used to trigger the eruption of the inner earth fire.

If that's the case, then what's the use of keeping this token? They might as well just throw it away, right?

"We can try it later, but right now... we don't want it."

"Well, it's up to you." Lin Caisang nodded.
