

## Star of Space 3031

### Chapter 3031 Flying Red Grass in the Forbidden Pool

It's not that they don't want to try, it's just that once this token is taken out, there are pros and cons. After all, this thing can directly trigger the fire in the core of the earth.

If they take it out now and a large wave of earth core fire comes directly, then they may be in danger.

...

"Clan leader, there is not that much danger in this forbidden pool."

On the other side, Ajin, accompanying the clan leader, was also rushing towards the depths of the Forbidden Pool. According to their thoughts, Ayao and the others were naturally heading towards the deep pool as well.

After all, I had inquired before that there were some humans traveling with Ayao and the others. They must have come for the treasures in the Forbidden Pool, right?

"Don't let your guard down just because there is no danger. ση" the patriarch warned Ajin.

This is a forbidden pool. Although the Earth's Core Fire did not erupt directly towards them because of the token, it is possible that the Earth's Core Fire would erupt from under them at any time.

This is no joke.

"The inner earth fire here is very powerful, and..."

The clan leader raised his hand and knocked out a cluster of flying red grass, then turned to look at Ah Jin.

"Did you see that it's not just a water plant? It's also a monster. If you get entangled in a large number of flying red grass, you will die."

"Isn't Feihongcao... a very common aquatic plant?" Ah Jin asked without knowing why.

"In other places in the pool, flying red grass and such are ordinary aquatic plants, but in the Forbidden Pool, it is different. The water temperature here is different from that outside, so these ordinary aquatic plants are naturally extraordinary."

The patriarch said seriously.

Ajin: "..."

It was almost stunned by the patriarch's words.

What are ordinary and extraordinary? Can these water plants still eat people? It thought so in its heart, and the patriarch also gave it a positive answer.

"The flying red grass in the Forbidden Pool will eat other creatures, whether they are humans or monsters, they will eat them all."

"Well!"

Ah Jin was really frightened by the clan leader's words, and he was also frightened by Fei Hongcao.

Just when it didn't know what to say, a bunch of flying red grass came towards them again, and the grass vines were still spread out, as if they wanted to entangle them.

Of course, this cluster of flying red grass is indeed a bit small for the spirit beast fish, and it is impossible to entangle them no matter what.

"Get away!"

It also imitated the patriarch's example, splitting the flying red grass in the middle, and then beat it out far away.

"Clan leader, let's leave quickly. There are flying red grasses here. There will definitely be more if we go over there. I don't know how Ayao and the others are doing."

"Okay, hurry up."

The clan leader responded and continued swimming forward.

There is no token on them, so there is really no guarantee that these flying red grasses will eat them.

Only by catching up with Ayao and the others first and getting the tokens will they be safe.

But, will this really be safe?

The token can scare Fei Hongcao, but it can also attract the fire from the core of the earth.

The further forward, the denser the Earth Core Fire becomes. If the token is really taken out, there may be another violent outbreak of Earth Core Fire.

"Ajin, what are you doing standing still? Hurry up and leave!"

It swam for a while, but the main room Jin didn't catch up. He turned his head to look at it and asked.

Ah Jin opened his mouth, turned his head from the other direction, and looked at the clan leader.

Chapter 3032 Are they coming out?

"Maybe I'm dazzled.

It shook its head, but it was clearly seeing something real just now, as a shadow flashed past.

"Clan leader, are there any other magical beasts here?"

"Um?"

Upon hearing its words, the patriarch was stunned for a moment, and then looked at it with a strange look.

"How could you say that?"

"I just... seemed to have seen a shadow flash past, but I couldn't see clearly what it was." Ajin said, trying to look towards the place where he saw the shadow just now, as if he wanted to see clearly. Is there anything.

However, there was really nothing, not even water ripples.

"I must have seen it wrong."

Finally, he said.

However, when the clan leader heard his words, his heart tightened.

As an underwater clan leader, he must know something about the Forbidden Pool. Even though there are many places in the Forbidden Pool, it has never set foot in it.

Therefore, based on Ajin's description just now, it can be determined that the so-called shadow is real.

"Could it be...that they came out?"

"Chief, what are you talking about? What are they?" Ajin asked in confusion when he heard what it said.

"No, it's nothing.

The patriarch immediately shook his head and denied what he just said.

That thing is in the deepest part of the Forbidden Pool. How could it appear in a place with so few flying red grasses? It's unlikely. Maybe Ah Jin really saw it wrong?

"Don't worry about this, let's continue moving forward and try to catch up with Ayao and the others as soon as possible."

"good."

Hearing the patriarch mentioning Ayao and the others, Ajin also forgot what the patriarch had said before, and the two of them immediately hurried forward.

...

On the other end, as they swam forward, Sui Zimo and the others felt that there were more and more flying red grasses.

It was almost impossible for them to swim forward, because as soon as Feihongcao felt the breath of a living creature, it would rush towards it quickly, giving them no chance to move forward.

"Be careful, these flying red grasses are difficult to deal with." Sui Zimo warned Lin Caisang beside him, and then began to deal with these flying red grasses rushing towards them.

Others also tried hard to drive away these flying red grasses, and the swords in their hands kept splitting the flying red grasses.

"What's going on?"

On the other end, Captain Liu couldn't help shouting.

Because when he saw Fei Hongcao split open by his sword, not only did he not give up the struggle, but he continued to attack him.

It was originally a cluster of flying red grass, but after splitting it with a sword, it turned into two clusters.

"No, these flying red grasses are wrong. You can't chop them directly with a sword!"

After making a discovery, he looked at the other flying red grasses that he had split. Sure enough, although the flying red grasses had slowed down, they were still moving towards him.

However, the two clusters of flying red grass that had just attacked him at a very fast speed were relatively large, while the slower flying red grasses were also smaller.

"Sangsang, Zimo, these flying red grasses can't be killed. Splitting them like this will only make them grow separately!" Lin Changhong and the others also noticed this situation and shouted to Sui Zimo and Lin Caisang.

The current situation is that they have helped those flying red grasses and divided them!

"I saw it, you should be careful."

Lin Caisang naturally noticed this situation. He noticed it early on, but he just didn't say anything about it.

Chapter 3033 It's a bit tricky

Although these flying red grasses are still alive, they are aquatic plants after all and have strong growth ability.

However, after being split by their spiritual power, the flying red grass will become very slow in terms of movement and attack speed, which does not affect them from continuing to move forward.

However, she didn't expect that those big flying red grasses would still have the ability to attack after being split.

This is a bit tricky.

"Zimo, what should we do now? Take out the token?" She looked at Sui Zimo and asked his opinion.

"No."

Sui Zimo uttered two words without thinking.

If he took out the token directly like this, he would definitely be able to force Fei Hongcao back, which he did not deny.

But at the same time, it will also cause a lot of trouble. First, the inner fire will be drawn out.

And they don't even know where they are now, but they are only halfway along the way? It's so easy to take out the token, so what's the next step?

What's more, he thinks that these flying red grasses are not the most important thing. If they really draw out the earth's core fire, that will be the most troublesome.

By then everyone will definitely be in a panic and may not even be able to advance or retreat together.

"Keep killing. Since they still have the ability to attack, then chop them until they have no ability to attack. As long as they are small enough, the attack power of the flying red grass will be gone."

He said to everyone.

"good!"

After everyone heard what he said, they thought this was the case.

If they can't handle just these flying red grasses, what greater danger will there be in the future? What will they do?

"I don't believe it. We are human beings. We can't even deal with a few grasses?" Captain Liu shouted to everyone.

"Everyone, continue, kill and swim forward at the same time." Yuan Jing said to everyone, and then the strength of his hand became heavier, directly crushing several clusters of flying red grass!

After a long time, everyone saw that as long as the flying red grass was chopped to a certain level by them, it would not be lethal.

The growth of Feihongcao was not as fast as they imagined. If they wanted to continue attacking them, it would probably take several years to dozens or hundreds of years. By then, they would have already left.

...

The patriarch and Ah Jin walked along the place where Lin Caisang and the others walked.

Along the way, seeing the flying red grass being chopped into pieces, the clan leader secretly twitched his lips.

It seems that the humans brought in by Ah Yao and the others are really capable. With so many flying red grasses, how could it be possible for Ah Yao and Ah Feng to split them like this.

However, I am afraid that there will be more and more flying red grasses in this forbidden pool in the future. Who knows how many times these flying red grasses have been chopped up?

If this continues, if they continue to grow, I don't know how many there will be.

But this doesn't matter. After all, this flying red grass is an ordinary aquatic plant as long as it reaches a place where the water temperature is not too high. Moreover, it is still an aquatic plant that can be eaten by the spirit beast fish, so there is nothing wrong with it. of.

"Clan leader, if you go along this road, you can see Ah Yao and Ah Feng, right?" Ah Jin looked at the flying red grasses, raised his hand, and knocked away a few flying red grasses that were approaching them with one palm.

These flying red grasses have obviously been damaged artificially.

Chapter 3034 Red Eyed Shadow

All it could think about was how could Ah Yao, Ah Feng, and other spirit beast fish come to the Forbidden Pool? Even if they entered, they would not be able to reach here.

"Yes, I believe it won't be long before we can see those two cubs!" the clan leader said bitterly, grinding his teeth.

Ah Yao and the others were leading the way, and he and Ah Jin only had to follow behind, but they would be able to catch up very quickly.

It's just that those two boys actually brought such powerful humans to the Forbidden Pool. It was really unseemly.

But then again, the things in the Forbidden Pool are never good things, and it is not good to stay here. If it hadn't been unable to destroy that thing on its own, it would have definitely destroyed that thing early in the morning. .

"If we go faster, we can catch up with them." it said.

"good."

Ah Jin responded and sped forward again.

However, before they could swim far, they were blocked by several black shadows.

"Chief, what is this?"

Looking at the pair of red eyes that were completely hidden in the shadows and could not be seen clearly, Ah Jin felt that his scalp was numb.

Isn't this the same thing he saw before?

I thought I was dazzled before, but I didn't expect that such a thing really existed. What is it?

When the patriarch saw these red-eyed shadows, he couldn't help but take a few steps back.

...

"Zimo, Sangsang, what on earth are these things? Why are there so many of them?"

On the other side, as Sui Zimo and the others went inside and killed more Feihongcao, many red-eyed shadows seemed to appear suddenly.

A dense crowd of people surrounded them.

Others were fine, but looking at these red eyes, staring at them, really made their spirits collapse.

Lin Changhong couldn't help raising his voice and asked his sister and brother-in-law.

"You ask us, who should we ask?" Lin Caisang was also speechless and replied to Lin Changhong.

This was also the first time she had seen such a thing. It looked like a monster, but she didn't think it was like it, because the whole thing looked like a black smoke.

However, it has eyes, and it is such a pair of blood-red eyes that it can really scare them to death.

"Zimo, have you ever heard of what this is?" She turned around and asked Sui Zimo.

"No."

Sui Zimo replied decisively to her.

Indeed, I had never seen anything like this before, it was not physical at all.

Because if he just hits the opponent with his spiritual power, the black mass will immediately disappear without a trace, and even the red eyes will be gone.

And they don't know if they have killed these things, because there are too many here. If they kill this one, many others will pounce on them.

"This thing should be attached to the flying red grass. We chopped up the flying red grass and they all ran out."

He thought for a while and guessed why they appeared.

"call!"

Yuan Jue looked at these strange things. He wanted to retreat but couldn't move forward at all. Everyone was surrounded by these red-eyed shadows.

"Ah Yao, Ah Feng, do you know what these are?" He looked at the two spiritual beast fish and asked.

Chapter 3035 The special environment created these monsters

At this moment, Ah Yao and Ah Feng are also at a loss. How do they know what these things are?

"I don't know, I've never seen it before!" Afeng shook his head.

Yes, they have never seen these things before. They have never seen them before in Tanzhong.

"These things must only grow in the Forbidden Pond and cannot be found outside." Ayao also said.

But its guess is quite accurate. These things indeed only grow in the Forbidden Pool and not in other places, because only when the water temperature is high, these things will grow bigger and bigger.

Moreover, only the water temperature caused by the earth's core fire can give them enough ability to grow. 6

"Whatever it is, kill it!" Captain Liu yelled.

Now it doesn't matter where they came from or what they are doing. If we don't work harder to destroy them, then they will have to be destroyed by these weird things!

"Yes, kill. Just chop all these things down."

The trio of wallflowers also nodded. What else can they do now? They can only fight their way out.

No, there's not even a path of blood. Even if these things were hit, there wouldn't be any corpses. They all disappeared. It couldn't be more strange.

At this moment, Lu Tianfeng no longer cares about saving his spiritual power. The strength he had saved at the level of Feihongcao now has to be used again.

Because if he didn't work hard to deal with these red-eyed shadows, they would rush forward crazily and bury him.

However, he was quite open-minded in his heart.

Because of their own efforts, Sui Zimo and the others were also using their spiritual power, and they were using their spiritual power with all their strength.

He is consuming, they are consuming too, there is no difference.

At that time, he is still the one with the strongest spiritual power among everyone. If he wants to grab the corpse-suppressing talisman, he will have more confidence.

"Sonny, be careful and come to me."

Sui Zimo saw Lin Caisang getting further and further away from him in order to deal with those red-eyed shadows, so he immediately stepped forward and brought her back.

"I will be careful, and you should be careful too, these red-eyed monsters are difficult to deal with." Lin Caisang looked back at him and reminded him with a somewhat unkind expression.

There are so many of these red-eyed shadows, but as long as they use a little bit of spiritual power, they can defeat them, and even beat them to 'ashes'.

But is it really that easy?

She really doubted that these things just dodged away, and when they arrived at another place, they regrouped and attacked them again.

Although this was just her conjecture, it was not impossible.

"Zimo, let me try using other things to attack them and see."

Since there is no such thing outside the Forbidden Pool, it means that the special environment in the Forbidden Pool created these monsters.

If there was no water in the Forbidden Pool around them, would these monsters be able to survive?

Thinking of this, Lin Caisang spoke directly, reminded Sui Zimo, and summoned some water from his golden bead space, and hit the red-eyed shadows in front of him.

"Gah, gah gah!"

The next moment, a strange and earth-shattering scream rang in their ears, causing a ripple in the water.

Chapter 3036: Poison yourself too

Shocked by the cold water, the red-eyed shadows ran to the side as if they were lifeless. Some of them couldn't run in time, and all of them shrank in size. ㄇ

Red-eyed shadow monsters as big as fists floated in front of them.

"it works!"

The voices of Sui Zimo and Lin Caisang sounded at the same time.

Everyone's eyes lit up, but they didn't know what Lin Caisang had done.

"Captain Lin, did you use poison?" Captain Liu was the first to ask.

Such a large amount of lethality is impossible to achieve without poison, so others also thought of this possibility.

He subconsciously wanted to cover his mouth and nose, but he soon thought that if it was really poisonous to them all, Lin Caisang couldn't use it.

Otherwise, what should she do if she poisons herself too?

"It's just cold water."

Lin Caisang turned his head, glanced at them, and explained.

"It turns out that cold water is enough!"

When everyone heard her words, they felt relieved, but they were also surprised that these things only needed cold water.

It should be the mutation caused by being infected by the inner earth fire in the forbidden pool.

It's a pity that they don't have water in their hands. Otherwise, these red-eyed shadows would not be their opponents. They can be driven away without fighting.

However, before they had time to get excited, they saw that the red-eyed shadows that had shrunk into small groups grew larger in an instant.

"What's going on?" Everyone was confused.

It wasn't long before it became the size of a fist. Why did it change back again?

"The effect of cold water is only temporary. It will soon merge into the water here. When they sense the water in the Forbidden Pool, they will naturally change back."

Yue Chushui explained.

At the same time, he began to deal with these red-eyed shadows quickly. No matter what, he could not let them attack them.

"It seems that if you want to deal with these things, you still have to get rid of the Earth's Core Fire first." Lin Caisang looked at Sui Zimo and said.

However, is it so easy to extinguish this naturally occurring fire in the center of the earth? That's the Earth's Core Fire, not an ordinary thing.

"Let's keep moving forward. Maybe there is a mechanism that can turn off the fire in the core of the earth." Suizi Mo said.

Lin Caisang: "..."

Husband, are you telling the truth?

This earth core fire is a force of nature, can it still be turned off?

However, looking back, maybe it is really possible? Who says that the fire in the earth's core cannot be created by manpower?

"Okay, let's keep moving forward and see if there are any mechanisms."

"Um."

Sui Zimo responded softly, and the two of them joined forces and continued to move forward.

The others were almost following behind the two of them, just beating away the red-eyed shadows that occasionally pounced on them.

"Sangsang, come here, I'll come over here."

When Lin Changhong saw how hard his girl was working, he wanted to come on as a substitute.

"Yes, Sister Sang Sang, Brother Chang Hong and I are here, you come down and rest." Yue Chushui also said this, wanting to fill in the red eye shadows for her.

"No need, brother, Chu Shui, you should preserve your strength." Lin Caisang replied to him without even turning his head.

It's up to her to break through this level. If it's other matters, she can leave them to everyone and Chu Shui. But these red-eyed shadows are obviously very difficult to deal with.

Chapter 3037 Its two red eyes

Here, if she encounters danger, she can pour a basin of water directly from the golden bead space.

If it were the eldest brother and the others, they would probably just be next to each other.

Everyone worked together, and in about an hour, the red-eyed shadow in front of them was almost gone.

"Were they all killed, or did they just run away knowing that they couldn't be beaten?" Lin Changhong couldn't help but ask doubtfully when he saw that the red-eyed shadow had disappeared.

When they heard his words, everyone else gave him a blank look.

"Can't you hope for something better? Can't you say that those red-eyed monsters can't actually defeat us and have gone to find their companions to take revenge?" Captain Liu asked Lin Changhong.

Lin Changhong: "..."

This is not as good as what he said.

If there are so many red-eyed shadows really looking for help, then how long will they have to fight in the next battle?

"I won't talk nonsense to you anymore, Sangsang, Zimo, let's leave quickly without that red-eyed monster." He waved his hand at Captain Liu, turned to look at his sister and brother-in-law, and said.

"good."

Lin Caisang responded.

As soon as she took a step forward, she felt a black smoke coming towards her quickly, and she immediately pulled her foot back.

It was Sui Zimo who reached out and pulled her, and he came back in time, so he was not hit by the black smoke.

"what's the situation?"

Others also noticed this scene, and Yuan Jue asked.

No one had time to answer his words, because when everyone looked up, they saw a red-eyed shadow as big as a dozen spirit beast fish combined, slowly coming towards them.

And its two red eyes are as big as two Ah Yao.

Everyone: "..."

They were all frightened by this scene.

Without thinking, everyone immediately moved closer to Lin Caisang and Sui Zimo. At least they could take care of each other.

"What... is this thing? How... could it be so... so big?" When Afeng saw the thing, he was so shocked that he couldn't even finish his sentence.

It really never knew that such a monster existed in the pond.

This monster is going to run outside the Forbidden Pool. It is unimaginable how many spiritual beasts and fish it will cause.

"Afeng, be careful!"

Just when it was beyond imagination, it heard Ayao's voice ringing in its ears.

Its whole heart was lifted up at once, and when it was about to leave the place where it was, it found that it was too late, because the small black smoke separated from the shadow of the red eye had already reached its eyes. .

At this moment, A Yao swam over quickly and knocked A Feng away.

"ah!"

With a scream, Ayao's whole body was knocked out by the small black smoke.

The lethality was so great that it was simply unimaginable. Ayaodang spat out a mouthful of blood, and the blood stained its surroundings, making it look particularly terrifying.

"Ayao!"

Ah Feng was knocked away, and it took him a while to recover, and turned to look at Ah Yao, who was knocked away.

It also swam quickly and came to Ayao's side.

"Ayao, how are you?"

"It's okay, it just looks serious. It's nothing serious." Ah Yao shook his head and comforted Ah Feng, but after a while, he coughed twice again and coughed up a mouthful of blood again.

Chapter 3038 Devoured

A Feng was almost frightened.

This seems to be just a little bit of black smoke, but can it be so lethal?

If A Yao hadn't knocked it away, if it had been facing the black smoke just now, I'm afraid it wouldn't have been injured like A Yao, but would have been directly...

Thinking about it makes me scared for a while.

Sui Zimo and the others naturally saw this sudden accident.

"Everyone, be careful. This thing is not easy to deal with, and it is extremely lethal." Sui Zimo warned them.

Ah Yao and Ah Feng are both spirit beast fish. They are so big that they would be injured like this. So if they were the ones who were hit, wouldn't it mean 'death'?

"clear."

Yuan Jue and Captain Liu responded at the same time.

The trio of wallflowers also looked at the giant red-eyed shadow with vigilance, and held the sword in their hands tighter.

The red-eyed shadow was already very close to everyone, and after it came over, everyone felt something, as if the water suddenly became oppressive.

What's more, the female member of Yuan Jue's team spit out a mouthful of blood.

"you....."

Yuan Juegang wanted to ask about her situation.

Suddenly, as if it had found some kind of breakthrough, the red-eyed shadow came towards the female team member and was about to devour the female team member.

"Watch out!"

The female team member raised her head and only had time to see the shadow of the red eyes, and then the cautious reminder sounded in her ears.

The next moment, the red-eyed shadow directly swallowed up the female team member.

"Ruan Hongying!"

Yuan Jue's heart suddenly panicked.

These were the team members he brought out, and even if they were not the team members he brought out, how could he not be shocked when he saw the people around him being devoured but he was too late to save them?

"Sir, Captain Lin, help me!"

He asked Sui Zi and Mo for help, and then began to attack the red-eyed shadow.

"good....."

"Sonny, I'm coming!"

Lin Caisang said hello, but before she could finish her response, Sui Zimo interrupted her hurriedly.

She paused and turned to look at her husband.

Yes, no matter what the actual situation is, the first thing she has to ensure is her own safety. As for the female team member, there are so many people here, are she still afraid that she can't be rescued?

"Brother, Chu Shui, you go with Zimo."

She immediately made a decision, stopped in her tracks, and then gave instructions to Lin Changhong and Yue Chushui.

"OK."

Lin Changhong immediately responded, and together with Yue Chushui, he followed Sui Zimo to deal with the red-eyed shadow. Naturally, Captain Liu couldn't leave behind and caught up.

But in his heart, he always felt that something was strange, but he couldn't explain why.

But here, the trio of wallflowers spontaneously came to Lin Caisang's side and protected her.

They have not forgotten that there is Lu Tianfeng among their group. At this time, everyone is busy dealing with this red-eyed shadow.

But Lu Tianfeng didn't have anything wrong with him. If he turned around and dealt with their captain, it would be something that was impossible to guard against.

When they turned back and looked at those who were fighting with the red-eyed shadow, they only saw their looming figures, but the red-eyed shadow seemed not to be hurt by them at all.

"Captain, this monster is really weird. Are we going to use a token?" One of the trio asked Lin Caisang.

Chapter 3039 It's a cooperative relationship

After hearing his words, Lin Caisang remained silent although he did not take out the token directly.

If it were before, she would have taken out the token.

But now the female team member doesn't know what's going on now. What if she takes out the token at this time and attracts the inner fire?

Moreover, she felt that it might be more troublesome to draw out the inner fire.

At first glance, these red-eyed shadows are alienated by the heat of the Earth's Core Fire. If a hotter Earth's Core Fire comes, wouldn't they become even more prevalent?

"If you take out the token now, you are not seeking death. Don't forget, the token can also attract the fire from the core of the earth." Another person said in an unflattering tone.

"this....."

The other two people also hesitated after hearing his words.

Unlike Ah Yao and Ah Feng, they felt that Lin Caisang and the others were just saying that the tokens could attract the fire from the core of the earth, and they wanted to deceive them into taking the tokens.

This token might actually attract the Earth's Core Fire. Otherwise, there wouldn't be such a coincidence before.

"Captain, I don't think those two spirit beast fish are good things!" Finally, the other side took a serious look at A Yao and A Feng who were watching the battle, and felt a little angry.

Their captain also rescued these two spirit beast fish, but what about them?

Someone on their side was swallowed by the red-eyed shadow, but they were still watching as if nothing happened, with no intention of stepping forward to help.

Is this conscience eaten by dogs?

"It's a cooperative relationship in the first place. It's good if they can help us. If they can't help us, at least they won't cause us any trouble, so that's okay."

Lin Caisang also glanced at Ayao and Afeng lightly and said.

Whether they want to help or not is their business. Of course, if something happens to them later, it will be their business whether she and Zimo will help.

Whether you are a human or an animal, everything you do is relative.

If the spirit beast fish didn't care about their danger, then why would she help them?

Although A Yao brought the token, in fact, if they spent more time, they could get the token themselves.

There really isn't much difference.

"makes sense."

"Then we won't help next time, and we won't help anymore."

"That's right. We are helping them, but they are watching the show. How can there be such a thing?"

The words of the three people on the wall proved how angry they were. Naturally, for them, Ah Yao and Ah Feng, who were so loyal to the sky, were just that.

"A Feng, why don't we go and help?" A Yao couldn't help but suggest, covering his chest and watching Sui Zimo and the others fight against the red-eyed shadow.

"Where are you going? Those humans are very capable. They could still contain that monster without us. Why should we go forward and ask for trouble?"

Afeng, however, didn't take it seriously and didn't feel he had to help them.

Originally, they came together to find Ayao just to make use of their abilities, but the appearance of such a big red-eyed shadow was something they didn't expect.

"Besides, Ayao, you are still injured, and I haven't seen them take out their own healing medicine to treat your injuries."

The time A Yao saved him just now, he suffered so much, but did these humans give them any medicine? No!

Chapter 3040 Some Opinions on the Patriarch

Ayao: "..."

Healing medicine must be taken according to each person, right?

It is a spiritual animal fish. How do humans know how much medicine is needed?

What's more, what was the situation before? Such a big red-eyed shadow was right in front of them. They were busy dealing with it for a while, so how could they find the time to deliver medicine to it?

That's right. Isn't it a bit overwhelming?

"Afeng..."

"Okay, stop talking, it's not that we won't help, but with their ability, they can still handle this monster.

Ah Yao still wanted to speak, but was ruthlessly interrupted by Ah Feng.

"Let's just watch quietly. I want to see what this guy is."

Hearing this, Ayao opened his mouth, but said nothing more.

However, it still couldn't understand why Afon had become like this. This was no longer the Afon it knew.

Including Afeng's previous suggestion that it steal the clan leader's token, at that time, it didn't even think about it.

But now, seeing such a big monster, it was obviously capable of helping these humans, but Afeng did not take action, and even held it back to prevent him from taking action.

"Ahem!"

It covered its wound and spat out a mouthful of blood again. perform

Having said that, I really can't step forward to help in this state, otherwise, I will definitely become a drag on those humans.

"Afeng, how about you..."

"By the way, Ah Yao, have you ever seen such a red-eyed monster anywhere else before?" Ah Feng turned around and asked it without giving it a chance to speak.

Anyway, he would not help those humans. Although he had given the token to them before, although it helped persuade Ayao, he had no choice but to do so at that time.

If the token is in their hands, the fire from the core of the earth will keep spraying towards them.

Even if they can avoid it, there are times when they can't, right? It's better to just hand it over to the humans and let them have a headache.

However, it really didn't expect that those humans really had a lot of magic weapons on their bodies, and even tokens could be hidden.

It was worried before that if these humans have enough spiritual power and find what they are looking for, will they come over to deal with them?

It's better now. These humans are stopped by such a red-eyed giant monster. After a fight, they will consume a lot of spiritual energy even if they don't die, right?

By then, they won't have the ability to deal with them, and their minds will be much more relaxed.

"How can I never see this before? You haven't seen it either."

Ah Yao stopped talking and quickly replied to Ah Feng, but he did not expect that Ah Feng deliberately diverted his words.

"That's true, I've never seen it before. What kind of strange thing is this? The clan leader didn't even tell us." Afeng looked at the red-eyed shadow and nodded.

There was some disapproval of the clan leader in his expression.

The patriarch wanted to train them into talents before and taught them many things. However, the patriarch never mentioned anything about the things in the Forbidden Pool.

If the patriarch could have said a word or two before, why are they so passive now?

"If the clan leader had mentioned it to us, it wouldn't be like this."

Ayao: "!!!"

Only the clan leader knows about the Forbidden Pond.
