

Star of Space 3041

Chapter 3041: Favored in front of the clan leader

If it were a spiritual beast fish, the clan leader would tell it the secrets in the Forbidden Pool, and then wouldn't there be chaos in their pool?

Moreover, if the patriarch chose three of them in the first place, it would be impossible for all three of them to be the patriarch, right?

What happened in the Forbidden Pool will definitely be revealed at the last moment, and only one of them will know about it. This is a secret among secrets!

"Afeng, you are overthinking. The clan leader is now in his prime. How could he tell us about the Forbidden Pool?" it said with a smile.

After hearing what it said, Afeng didn't say anything else, and continued to look at the red-eyed shadow in front of him, fighting against Sui Zimo and the others.

"Afeng, why don't you go over..."

"I don't know where Ajin is now?"

Ah Yao just wanted to ask Ah Feng to help, but he heard Ah Feng's soft murmur again.

Thinking of Ajin, he became sad again. He didn't know what happened to Ajin and where he was.

According to Lin Caisang's guess, it is very likely that Ah Jin did not enter the forbidden pool at all, and it naturally hoped that Ah Jin did not enter.

But this is just a guess. Maybe Ajin is in this forbidden pool. However, this forbidden pool is also very big. It is really difficult to find Ajin.

"Afeng, don't worry too much. Ajin will be fine. When those humans find what they are looking for, I will definitely let them help us find Ajin.

He spoke out to comfort A Feng.

Hearing this, Afeng turned his head and glanced at it.

According to its guess, Ajin definitely did not enter the Forbidden Pool. They were too anxious before and did not think about it at all. They only heard about the news of Ajin entering the Forbidden Pool and did not see it with their own eyes. arrive.

Who is Ah Jin? He is usually so cautious. How could he come to the Forbidden Pond?

Perhaps some spirit beasts and fish couldn't bear to see them being favored in front of the clan leader, so they deliberately spread false news. Of course, it was also possible that it was done by Ah Jin himself.

After all, they had not seen Ah Jin in the past few days.

They used to meet Ah Jin almost every day, and the three of them lived very close to each other.

Even if it's not a special meeting, sometimes you can bump into him when you go out. How could you not see A Jin for several days?

This is not normal.

"Afeng, why don't you go help them?"

Seeing that A Feng was silent, A Yao reminded it again.

There is no solution for them to waste time here like this. If they deal with the red-eyed shadow in front of them earlier, they can move forward earlier.

Maybe we can see Ah Jin sooner.

"no!"

Afon decisively interrupted its proposal.

"You are injured now. If I leave, what if the monster takes the opportunity to attack you?"

In short, they now need to consume the spiritual power of those humans so that they can gain the upper hand among this group of humans, so that they can be sure to let them find Ajin's whereabouts together.

"I don't have anything going on here." A Yao said.

The red-eyed shadow is busy dealing with those humans, how could it possibly get to it?

"Not anyway."

Afeng curled his lips and said nothing to help.

"Look over there, not all of their own people have gone to help, so why are they pointing at us to help?"

Chapter 3042: Am I going to pass?

While talking, it looked to the other side, where Lin Caisang, the trio of wallflowers, and Lu Tianfeng, who had always liked to be alone.

None of these people went to help, so why should they be asked to help?

Ayao followed its line of sight and looked at Lin Caisang and the others, feeling speechless for a while.

That woman has a big belly, and it seems like she can't go up to help. If she does go up, and based on the lethality of the red eye shadow just now, who will die?

As a man, how can he let his woman fight and bear it?

Sui Zimo would definitely not let Lin Caisang play, not to mention that the man named Lu Tianfeng had already seen that he was not the same as other humans.

With him watching from the side, what if it's bad for that woman? Someone must be guarding her, right?

But they are different.

To put it bluntly, when the humans are dealing with the red-eyed shadows, they don't come to help them. If they encounter danger later, will those people still be willing to help them?

Maybe after they find what they want, they won't be even more dedicated to finding Ah Jin.

This is also the reason why it was unwilling to hand over the tokens before, but now it is of no use as the tokens have already been handed over.

"Then if you don't go to help, I will go over?" It looked at Afeng and said very seriously.

A Feng: "..."

Doesn't this force it to help?

"Ayao, we..."

"If we stand idly by now, we might be in danger later, and those humans won't come to help us." Ayao interrupted it and said.

"Well!"

A Feng choked at its words.

The next moment, as if it had figured it out, it looked up at the red-eyed shadow.

Yes, if they encounter something more dangerous later, will these people not come to help?

"I understand. I'll go over to help. Then...be careful." He hesitated, but finally nodded and warned Ayao.

In fact, it was really unwilling to help, and those people had nothing to do. It could tell that it was more than enough to deal with a red-eyed shadow.

But Ayao was right when he said something. If it didn't help them this time, then the next time something happened to them, these people would have a reason not to come and help them.

There are many dangers in this forbidden pool. Who knows what kind of monsters we will encounter next moment?

"Yes, go ahead."

Ah Yao coughed again, but still resisted spitting out the blood in his throat, and waved to Ah Feng.

Afeng didn't say anything else. He looked in the direction of the red-eyed shadow and gritted his teeth. He could only quickly swim over to help. If he didn't help now, then when would he wait?

Will you wait until those humans defeat the red-eyed shadow before you go up there?

At that point, it's really useless.

"Tsk!"

On Lin Caisang's side, when he saw Afeng coming forward, one of the three people on the fence let out a light tut.

And another person immediately picked up the conversation.

"It knows how to choose its time!"

Seeing that the red-eyed shadow was suppressed by Sui Zimo and the others with their spiritual power, it seemed that it was almost unable to withstand it. It actually saw the right opportunity and popped up.

Chapter 3043 Reuse

"It's not that bad to pick up a bargain, right? Are you still shameless?" the last person said angrily.

After listening to their words, Lin Caisang lowered his head and chuckled.

This really has nothing to do with being shameless, because she heard clearly what the two spirit beast fish said before.

It is estimated that they don't know the form of fighting between the two parties, and the reason why Afeng went there is not at all like Ayao thought, because he was persuaded by it.

It was Ayao's last words that touched Afeng's heart.

If they don't come to help this time, then why should they help if they are in danger next time?

Although it won't add insult to injury, just leave it alone and it will be enough for them to drink a pot.

Therefore, Afeng had no choice but to help, and did not understand the situation clearly.

"Pay attention to Lu Tianfeng."

After all, Ayao and Afeng only had a temporary relationship with them, and they would have nothing to do with them after they left the Forbidden Pond.

But Lu Tianfeng is different. This person is a lingering ghost, but unfortunately, this guy is something they can't kill now.

"Lu Tianfeng, why did he..."

The trio of wallflowers heard her reminder and turned to look at Lu Tianfeng.

What was surprising at first glance was that a small shadow with red eyes disappeared directly from Lu Tianfeng's side.

"Did he...kill that red-eyed monster?" He couldn't help but murmured.

Everyone here has fought the red-eyed shadow, so there is nothing surprising at first, but Lu Tianfeng didn't even make a move before, and there was no spiritual power fluctuation at all.

In such a situation, how could it be possible to kill the red-eyed shadow?

"no."

Lin Caisang replied quietly.

"What's going on?" The three people asked at the same time.

Since he wasn't beaten to death, why did he disappear? Could it be...

"Damn, Captain, he doesn't want to put that red-eyed monster away and reuse it outside, right?" One of them couldn't help but cursed and asked.

Everyone already knows that Lu Tianfeng has a magic weapon stored in his hand, and even people can be hidden in it.

However, he actually hides these monsters back now. What does he want to do?

"These things are obviously not what we should have in Qianhuan Continent. He doesn't want to take them back, right? Is he out of his mind to do this?"

Another person also cursed.

On the other side, Lu Tianfeng only paid attention to the side where Sui Zimo and the others were fighting. He did not notice that Lin Caisang had already seen his little movements.

"His magic weapon must be kept."

Lin Caisang's eyes suddenly darkened and he said to the three of them.

"Leave?"

The three of them looked at Lin Caisang at the same time.

"Captain, do you mean we should take action against him now?" one of them asked.

"Now is naturally not the most suitable opportunity to take action. Let's wait." Lin Caisang said.

It was the red-eyed shadow that needed to be dealt with now, not Lu Tianfeng, but they naturally had to be more vigilant against Lu Tianfeng.

Just like this time, if she hadn't seen it, God knows what Lu Tianfeng wanted to do with the red-eyed shadow, and they also didn't know why this thing mutated like this.

The idea that the earth's core fire will cause the red-eyed shadow to mutate is just their speculation.

After arriving outside, maybe there will be something that can mutate the red-eyed shadow? This is also not certain.

Chapter 3044 Can I stop him?

"Then what should we do now? Captain, since he is collecting the red-eyed monster, it must not be just one!" One of the three people on the wall asked Lin Caisang.

"The two of you go over and help Mr. Lu deal with the red-eyed monster." Lin Caisang ordered them.

Three people: "..."

What a good idea. Apparently he was there to help, but in reality, he was there to keep an eye on Lu Tianfeng.

With two living people by his side, would he still dare to get the red-eyed shadow into his magical weapon so openly?

It will definitely have to be hidden even more, and the amount that can be obtained will not be large.

"Captain, let's go over. You should be careful here. The three of them discussed it and decided that two of them would go over and the other would stay with Lin Caisang to protect her.

"Go and help Mr. Lu solve those troubles." Lin Caisang said.

"Okay!"

The two responded and happily ran to Lu Tianfeng's side, shouting at Lu Tianfeng as they ran.

"Mr. Lu, why are there so many red-eyed monsters here? Don't worry, we are here to help you!"

Lu Tianfeng: "..."

Who wants them to help? He is trying to collect some more red-eyed shadows. Maybe he can use them in the future.

But now, these two idiots are here, how can he accept them?

"You go to protect your captain, what are you doing here with me?"

Thinking that his plan had been interrupted like this, he was furious. Naturally, he spoke rudely and stared at them coldly.

"How can our captain's cultivation allow us to protect him?" One of them said with a smile after listening to his words.

"Mr. Lu, you think too highly of us. Just the two of us are not enough for the captain to slap us. What's more, it's the same when we come to help you, don't you think?"

As he said that, he raised his eyebrows at Lu Tianfeng in a serious manner.

Lu Tianfeng: "!!!"

How to say this, all he had to do was tell him directly that he wanted to harm Lin Caisang, and the two of them came to guard him and prevent him from attacking Lin Caisang.

He wanted to scold him, but thinking that there was nothing to argue with these two people, he could only keep his mouth shut.

Why did these two people come here?

Lin Caisang must have seen him hiding his red eyes, so he deliberately sent these two people to cause trouble!

He raised his head, looked in the direction of Lin Caisang, and sneered.

Do you think this can stop him?

There is nothing Lu Tianfeng wants to do that he can't accomplish. Since he can't accept these red-eyed shadows secretly, then he can accept them openly. So what?

Anyway, both of them have already seen through some things, and he is not afraid of Lin Caisang knowing that he has a storage magic weapon in his hand.

However, Lu Tianfeng was quite happy with his red-eyed shadow, but he never thought about how his subordinates in his magic weapon would live.

His storage magic weapon is not big to begin with. It already contains several people, and he also needs to take the red-eyed shadow into it.

Isn't this a pain for those subordinates? They don't know what they will suffer when they are with these red-eyed shadows.

"What is this? How did the master bring these things in?"

Inside the magic weapon, everyone covered their mouths and noses, looking at the red-eyed shadows with fear on their faces, fearing that they would inhale poisonous gas that they shouldn't have and poison themselves.

Chapter 3045 Begins to release poisonous gas

After the black things were taken in, two people had already turned black and fell down because of the poison they smelled.

These things are poisonous. Why would the master bring these things in to harm them?

"Everyone, please cover your mouth with a wet cloth!"

"Kill...kill these things, kill them!"

After a period of panic, several people covered their mouths and noses, and then picked the red-eyed shadows to death with swords, leaving no one left.

After the red-eyed shadow was killed, the poisonous gas was no longer emitted.

"call!"

Everyone finally breathed a sigh of relief.

However, although the red-eyed shadows were dead, they also formed a pool of black water behind the ground. Whenever their shoes were stained, they would make a "peep" sound.

The shoes began to smoke and heat up, as if they were about to burst into flames.

"Be careful. Don't touch this thing. Move back. Move back." Everyone suddenly became alert and moved back to a clean place.

Of course, because of this red-eyed shadow, they also complained about their master.

What's going on with this master? He knew they were in the magic weapon, but he still brought such a poisonous monster in. Did he deliberately want them to die?

If they hadn't reacted quickly, they might have died.

"What is this? How can it be so disgusting? It's also poisonous!"

"Who knows, how did the master get these things in? Is the master in danger?" Someone asked his own question.

If there were no difficulties or dangers, how could the master put this kind of thing into the magic weapon?

"how come?"

Another person had his own opinion.

"Even if you encounter difficulties, you can run away by yourself. How can you need to put these things into the magic weapon?"

If you encounter danger, you can't just run away. Doesn't it mean that the master has this time to put these things into the magic weapon, but he doesn't even have time to escape?

This is absolutely impossible!

"The master must have thought these things were useful, so he took them in." One of them thought for a while and said.

Everyone: "..."

Do you think these monsters are useful, so you put them into magical weapons to harm them?

Are these subordinates who used to follow their master and fight for him worse than these useful monsters?

"Maybe the master doesn't know that these monsters are poisonous." Zhe Feng put forward his own idea.

But obviously, no one else believed it, even he himself didn't believe it. As soon as these things were thrown in, they began to release poisonous gas. They didn't believe that the master didn't know anything?

How is this possible?

...

Outside, Lu Tianfeng really didn't know that these red-eyed shadows would still emit poisonous gas after being out of the water.

If he had thought about it, he would definitely not do this.

Even if he doesn't care about the life and death of the people in the magic weapon, his own life is definitely very important to him. The magic weapon is placed on his body. If one of them is not handled properly, he will be poisoned. Not himself.

At this time, Lu Tianfeng didn't know that the red-eyed shadows he had worked so hard to put into the magic weapon had been wiped out by his good subordinates in the magic weapon.

Chapter 3046 Seeing our mission fail

At this moment, he wanted to take those red-eyed shadows into his magic weapon openly, but the two people in the trio would obviously not give him such a chance.

Whenever his hand reaches the edge of a red-eyed shadow, that red-eyed shadow will be beaten away by the two people without hesitation.

This is not the most irritating thing. The most irritating thing is that after disturbing his movements, these two people turned around with expressions begging for his praise, thinking that they had done a great thing.

These two people really did it to the point of infuriating people to death.

"Can't you just stay away from me?"

Finally, he couldn't bear it any longer, and he gritted his teeth and asked them.

"How can this be done?"

When the two heard his words, they immediately denied it.

They had received orders from the captain and had to keep an eye on Lu Tianfeng.

He must not be allowed to collect more red-eyed shadows into his storage magic weapon. Otherwise, wouldn't the two of them come to Tianfeng in vain?

"Mr. Lu, you don't have to be afraid. We are protecting you. These red-eyed monsters will never hurt you." One of them patted his chest and assured Lu Tianfeng.

Lu Tianfeng: "!!!"

He really wanted to yell, you will hurt me if you stay here!

It makes him unable to do anything. This means that he doesn't need to be afraid. He is now extremely afraid of these two guys, who are always staying by his side!

But unfortunately, these two people are from Lin Caisang's team. He needs to be patient now, and he cannot beat or scold these two people.

He was so angry that he almost spit out a mouthful of blood!

"Giggle!"

He grinded his teeth heavily and stared at the two people in front of him.

"With my ability, I don't need your protection. I can deal with these red-eyed monsters myself." He said solemnly.

Hearing this, the two of them raised their eyebrows, but they didn't listen to Lu Tianfeng's words at all.

"No, this is our mission. Mr. Lu, you are such a kind person, you can't see our mission fail, right? If so, our captain will not let us off lightly!"

Haha, don't think they didn't see it. Lu Tianfeng's face was so dark that ink dripped from his face when he saw them coming.

Listening to this tone again, you almost raised your hand and slapped both of them, right?

Under such a situation, even if Lu Tianfeng did nothing here, they still had to guard him.

Not to mention anything else, they discovered that instead of staying by the captain's side to protect her, it would be better to stay directly by Lu Tianfeng's side and stare at him to prevent him from making any moves. That would be the best choice.

Yes or no?

Therefore, it was right for them to stay with Lu Tianfeng.

"Aren't you going to protect Captain Lin?" Lu Tianfeng reminded, his mouth twisted with anger.

"Isn't there someone protecting the captain? What's more, considering the captain's ability, if we stay with her, should we protect her, or should she protect us?"

One of them immediately blocked Lu Tianfeng's words.

Lu Tianfeng: "..."

This is trying to drive him crazy.

His cultivation level is comparable to that of Lin Caisang, right?

So these two people stayed by his side, euphemistically called protecting him. Who was protecting whom?

Chapter 3047 Let's see if he has that strength?

He wanted to drive these two people away, but at the same time, he also knew that these two people could not be driven away. Lin Caisang deliberately sent them to his side!

"hateful!"

He should be more careful. He would rather have fewer red-eyed shadows than be so careless and be discovered by Lin Caisang.

This time, he really couldn't even get a red-eyed shadow. These two people were pestering him like shadows!

"Okay then, just protect me!"

What else can he do? He won't accept those red-eyed shadows, can he?

Seeing that he didn't make any small moves, the two just looked at each other, and saw the color of victory in each other's eyes.

Of course, just because Lu Tianfeng doesn't do anything now, they won't be on guard against him at all, and they must keep an eye on him all the time.

After a while, Lu Tianfeng saw these two people still staring at him, and felt even more angry.

But he had no choice but to throw the two away directly. He could only raise his head and look at those people who were fighting with the giant red-eyed shadow in the distance.

Sui Zimo's cultivation level is considered to be the highest. In his opinion, every time he dealt with the enemy, he reached the limit.

However, every time a new danger appeared, Sui Zimo was able to refresh his knowledge and break through his limits. He knew that this was Sui Zimo deliberately hiding his strength.

And this time, in front of the red-eyed shadow, even though he showed that he was powerless, he was not injured, but it was a fact, right?

These two couples really refreshed their knowledge again and again.

Since entering the sea forest, he has never seen these two people injured, not even a small injury. This is really something that makes him crazy.

Because he was looking for the corpse-suppressing talisman next, his original intention was to exhaust the spiritual power of Sui Zimo and Lin Caisang.

This time, dealing with the red-eyed shadow was the best opportunity, so he didn't do it himself and let Sui Zimo waste his spiritual energy while he reaped the benefits.

But now, he suddenly felt that Mo's cultivation at this age was really unfathomable.

He didn't know what the strength of this couple was. What if he consumed the spiritual energy of these two people so much along the way, and it was of no use at all in the end?

His eyes suddenly became sharp, looking at Sui Zimo's figure with a very unkind look.

He really wanted to slap him!

But he couldn't, he had to hold back, and he had to wait until the last moment to win the corpse-suppressing talisman in one fell swoop, which was his most important goal.

"Hey, what is this guy planning?"

The two people saw Lu Tianfeng's eyes suddenly turned sinister, and they discussed in a low voice.

"Whatever, if you want to deal with Mr. Sui, you have to see if he has the strength, right?" Another person said angrily.

I didn't see how Lu Tianfeng got away with it in front of their captain and Young Master Sui along the way. He hadn't learned enough lessons yet, and he still wanted to be taught a thorough lesson.

"Too."

The two of them glanced at Lu Tianfeng, their eyes full of disdain and contempt.

On the other side, Sui Zimo and the others were almost coming to an end against the red-eyed shadow. Seeing that their side was about to win, everyone secretly held a breath in their hearts and planned to take down the red-eyed shadow in one go.

only.....

Suddenly, the shadow expanded like a sponge.

Chapter 3048 Are they all soft-footed shrimps?

What's this?

The two people who stayed by Lu Tianfeng's side and stared at him didn't know how to react.

This thing has obviously been beaten smaller and smaller, so why does it suddenly expand again? What's going on?

"what happened?"

The person who stayed with Lin Caisang was also shocked.

Lin Caisang, on the other hand, frowned and felt a faint sense of uneasiness in his heart.

This red-eyed shadow seems to be really difficult to deal with. If that doesn't work, then we can only let everyone enter the golden bead space to hide for a while.

Wait until you think of a way to deal with this red-eyed shadow, then deal with it.

"Miss Lin, what can you do?"

Seeing that the red-eyed shadow began to swell again, Ayao dragged his disabled body to Lin Caisang's side and asked.

"What can I do?"

Lin Caisang looked back, asked it coldly, and then continued to look at Sui Zimo and the others.

As for Afeng, who had been beating the autumn wind, she didn't even take a look at it. This spiritual beast fish looked okay before, but when it came to a critical moment of life and death, the height was immediately displayed in front of her.

I simply couldn't see it!

"Well.

Ayao choked at her words and didn't know what to do.

It knew that Lin Caisang's current attitude toward it was probably due to Afeng's failure to do his best when dealing with the red-eyed shadow.

At this moment, Afeng doesn't even see his good friend. Is this an act if he wants to fight or not?

If it had not been injured, it would have rushed forward to deal with the red-eyed shadow immediately. Unfortunately, it was currently too weak to do so.

"Are all your spirit beast fish like this? They look very powerful, but they are actually all soft-legged shrimps?" The wallflower who stayed next to Lin Caisang asked Ayao angrily.

"this....."

Ayao choked on his words again.

They had never been to the Forbidden Pool before, so naturally they had not encountered such a dangerous situation.

As for Afeng, it really never thought about it before. When faced with danger, Afeng did not think about working together to eliminate the danger, but first thought about how to escape.

Maybe everyone didn't see it and thought that A Feng was just wasting his time and escaping to the safest place.

But as a friend who grew up with Afeng, how could it not see that every time Afeng dodges, he puts himself in the place where it is easiest to escape immediately.

In other words, if something happens then, Afeng can leave the danger zone as soon as possible.

Although there is a high possibility of injury, it is definitely not life-threatening.

"I don't know either. If I can get there..."

"Okay, now is not the time to talk about this." Lin Caisang raised his hand and interrupted Ayao's voice.

She didn't want to listen to Ayao's explanation now. What was the use? It's not them who are fighting in front of the red-eyed shadow now, so these are just sarcastic remarks.

"Watch!"

She adjusted her gaze again and looked at the red-eyed shadow.

Although it expanded like a sponge and its lethality was greatly increased, Sui Zimo and the others were not tired of dealing with it.

The two sides started an inseparable fight again, and the first attack was fatal.

Chapter 3049 Is this okay?

The black mist with red-eyed shadows has been shooting towards them. Several times, it almost hit their bodies. It was really a fatal attack. If they were hit...

"careful!"

Suddenly, Lin Changhong gave a sharp reminder to the people around him.

The next moment, Yue Chushui, who was still continuing to output spiritual power, felt a pain in his shoulder and was knocked away.

"Ah...uh!"

A painful groan came from his mouth.

Despite the resistance of the water, his body still quickly fell towards the bottom of the water in the distance.

"Chu Shui!"

Lin Caisang's eyes darkened, and he had a spiritual whip in his hand. He swung it out and immediately wrapped it around Yue Chushui's waist, pulling him to his side and landing on the ground.

"Chu Shui, how are you?"

"fine."

Yue Chushui's face had long been pale, but when faced with Lin Caisang's inquiry, she still shook her head.

He could clearly feel that the bones on his left shoulder were obviously broken, and now he could not lift his left hand at all.

And this injury was already very minor. If he hadn't used his spiritual power to protect his whole body, half of his body would have been cut off.

"What's the matter? How can you call it nothing?"

Lin Caisang's face was also a little pale. Looking at the blood coming out of Yue Chushui's left shoulder, the water next to him quickly turned red.

"Don't worry about it here for now. Go inside and treat your injuries."

With that said, she sent Yue Chushui directly into the Golden Pearl Space.

If someone is injured and does not treat the injury, but still soaks the wound in the water, what will happen? Moreover, the water in the forbidden pool is obviously so hot.

"he....."

Ayao was almost frightened when he saw that Lin Caisang, a big living person, had just disappeared.

It also thought that these human beings just had magic weapons that could hold objects in their hands, but it didn't expect that this woman actually had magic weapons that could hold people!

It seems that it really underestimated these people before.

And seeing Lin Caisang directly taking Yue Chushui into the golden bead space, even Lu Tianfeng was stunned for a moment.

He knew that Lin Caisang had a magic weapon, but he really didn't expect that he could send people into the magic weapon so easily. You know, the magic weapon on his body wanted to send people into it. It will consume a lot of his spiritual energy.

But when Lin Caisang sent the person in, he didn't see any fluctuations in spiritual power on Lin Caisang's body, and his facial expression didn't even change at all.

What is this situation? Does Lin Caisang have a better magic weapon than him?

However, now is not the time to think about this. Regardless of whether she has a better magical weapon or not, in short, he must get the corpse-suppressing talisman.

At that time, it will depend on which of them has faster hand speed.

...

In the Golden Pearl Space, Chu Shui came in all wet, and there was a large blood stain on his shoulder, which frightened everyone who was eating and drinking together.

"What's going on, Chu Shui, who hurt you?"

Ban Jue was the first to rush to Yue Chushui's side and asked him, Yue Chushui was so seriously injured, so what happened to their master?

"Is now the time to ask these questions? Get out of the car quickly and don't get in the way!"

Chapter 3050 Why is it the Earth's Core Fire again?

Jiang Zuo slapped Ban Jue away, came to Yue Chushui, and stretched out his hand to check his injuries.

"Well!"

When Jiang Zuo's hand touched his shoulder, his whole body softened and he almost sat on the ground.

Fortunately, Ban Jue and Ban Wu helped him.

"Don't touch his left hand!"

Just when Ban Wu was about to hold Yue Chushui's left hand, Jiang Zuo spoke up in time.

Ban Wu's hand paused, and he immediately changed the armrest to push, pushing Yue Chushui's entire body onto the opposite body of Ban Jue.

Ban Jue was not careless and directly fixed half of Yue Chushui's side, then turned to look at Jiang Zuo.

"Jiang Zuo, how is he?"

"No, very bad, the entire left shoulder bone is broken!" Jiang Zuo said with a dark face.

"What?!"

Everyone else was shocked when they heard his words.

The entire left shoulder bone was broken. What kind of concept is that? How much strength does it take to do this? It shattered the left shoulder bone of Yue Chushui, a person with a strong cultivation level? !

"How could this happen? What is going on outside?"

Yue Chushui's cultivation level is unmatched by anyone here, and only their master, mistress, and Lin Changhong can be evenly matched.

How could a person like this be hurt like this?

"Hurry up and get all the elixirs over there!" Jiang Zuoye shouted to everyone in a hurry.

Hearing his voice, everyone realized what they were doing. Those who took the medicine came to get the medicine and clothes for Yue Chushui to change, and went to get the clothes.

...

In the forbidden pool.

After a long time, I saw that the red-eyed shadow was beaten much smaller again.

However, in just a blink of an eye, the shadow of the red eye became much larger again. This time, it was even bigger than what they had seen before.

"What's going on?!"

Captain Liu looked at the red-eyed shadows in front of him, almost covering them, and his silver teeth were about to be bitten into pieces by himself.

This thing is something he has never seen before. It can't be killed, right?

It was obviously about to kill him, but in the blink of an eye, it rebounded again, and the rebound became bigger and bigger. If this continues, when will they be able to kill this guy?

"There must be a reason we don't know. I don't believe it can decompose spiritual power on its own!" Lin Changhong also said angrily.

But even though he said this, I still don't know what this guy is doing to keep getting bigger.

"It's the earth's core fire."

Sui Zimo reminded them coldly.

Every time the shadow of the red eye grew larger, it was when he felt the heat around him getting hotter.

Therefore, this red-eyed shadow knew that it was about to be defeated, so it attracted a wave of heat from the inner earth fire from outside, making itself bigger.

And the reason why he was able to think of this level was because Lin Caisang used cold water to deal with those red-eyed shadows once before, and then obtained the spirit stone. He knew that this thing relied on the heat source of the earth's core fire to make himself become stronger.

"Why is it the Earth's Core Fire again!"

Others were wailing when they heard his words.

If it were anything else, they could kill it directly, but it happened to be Earth Core Fire.

The reason why this Forbidden Pool is called the Forbidden Pool, they guess, is because of the fire in the core of the earth, right? This earth-centered fire cannot be eliminated in this place.
