

Star of Space 3121

Chapter 3121 It's decided

The key point is that if it was really the person Lu Tianlan and the others were looking for, she wouldn't be worried. How could there be so many people infiltrated by that person in Sky City?

Therefore, it is up to her to handle this matter and find someone from her side. No matter how powerful that person is, they will not think of it.

"this....."

Lin Caisang raised his head, glanced at Sui Zimo, and then looked at Liu Yuyang.

"Mom, what I mean is that there is no need to find a midwife. I can do it myself. People outside are really hard to trust." She also didn't want to take risks with her own child.

Everything else is easy to talk about, but she and Zimo's child must not take risks.

"What?!"

Lin Baizhong and Liu Yuyang screamed in surprise when they heard her words.

Turning his head, he glanced at Sui Zimo and saw that the color on his face had not changed at all. He knew that he had known about this early in the morning.

"Zimo, you just let Sangsang decide this matter?" Liu Yuyang asked him.

"Father-in-law and mother-in-law, I am with Sangsang. Moreover, if you are looking for a midwife in Qianhuan Continent here, you must find someone from Qianhuan Continent. I am really worried."

Sui Zimo said in a deep voice.

If he were in Ya Village, he would naturally not do this. Jiulian Palace has many of its own people.

But this is the Qianhuan Continent. He is really worried about the person he finds from here. Who knows who that person will be?

He also didn't want Sonny to have a baby by himself. What a dangerous thing it was! But what can be done?

"After I came to Qianhuan Continent, I also read a lot of books about women giving birth. Sonny also told me a lot. Don't worry, father-in-law and mother-in-law, I won't let anything happen to Songsang.

Moreover, Sang Sang checked her own pulse every day, and the fetal position was also very good. "

Lin Baizhong and Liu Yuyang: "..."

Are these two people planning to work together as a couple to give birth to a child? The biological father has delivered his own child?

But they didn't know about such a big thing until now. The two children had not revealed anything to them before.

"Have you decided?" Lin Baizhong asked in a deep voice.

"Well, it's decided."

Lin Caisang nodded seriously, indicating that he had thought it through.

Giving birth is risky, she knows this better than anyone else, but since she is entering the Jinzhu space to give birth, the Jinzhu Order will naturally protect her, and nothing will happen to her.

But outside...

"Father, mother, after Zimo and I enter the Jinzhu Space, the matters outside will be left to you," she said.

Hearing this, Lin Baizhong and Liu Yuyang fell silent at the same time.

That person also knew that their Sangsang was going to have a baby, so he would definitely take advantage of this time to deal with them.

However, he should have never imagined that Sangsang would go to the Jinzhu Space to give birth. No matter how much he tried to reach out, he could not reach that place.

"Yu Yang, even if Sang Sang and Zi Mo have decided, then you can go in with them and prepare some more things that are needed. As for the outside, leave it to me and Tian Lan." He looked at Said to Liu Yuyang.

"good."

Liu Yuyang took a deep breath.

However, she thought of another thing and turned to look at her daughter.

"Sangsang, it is true that we cannot take risks with the child and cannot leave it outside. However, what should we do with the mothers of the children of evil spirits in your dimension?"

she asked.

Chapter 3122 That person must die!

This is also a huge trouble.

Before, there was only one former queen, but now, there are such a large group of people, and they are all the mothers of the children of evil spirits. They all carry a son of evil spirits in their bellies.

After hearing her question, even Lin Caisang was stunned for a moment.

"I haven't thought about this yet."

She smiled helplessly and said.

The current Wuji Prison is quite lively. There are a lot of big-bellied women who can't be beaten or scolded, and they can't be killed by any means.

Compared with the mothers of those demon children, her giving birth suddenly became an extremely trivial matter.

"I'll do some more research and maybe I can think of a way."

"Um."

Lin Baizhong and Liu Yuyang nodded at the same time.

"There's no rush at this moment, they are all in the Infinite Prison and can't get out." Sui Zimo raised his hand, patted her face gently, and comforted her.

Hearing this, Lin Caisang raised his eyebrows.

It can be regarded as a slight sigh of relief. Fortunately, the mother bodies of the children of evil spirits are all in the infinite hell in her golden bead space.

Otherwise, after so many sons of evil are born, I'm afraid the entire Qianhuan Continent will be like a hell on earth, right?

This also shows that that person must die!

Wouldn't such a vicious person bring trouble to more people if he stayed in the world? Therefore, it is better to let him die.

"Zimo, you and I will go to Jinzhu Pavilion in the next few days to see if there is anything we can do?" She looked at him and said.

However, she was still thinking about the poison on Sui Zimo, and she needed to wait for more prescriptions to come so that she could put together a complete antidote to detoxify him.

"good."

Sui Zimo responded.

...

Within a few days, that person sent several groups of people to look for Sui Zimo and Lin Cai's sauna corpse-suppressing talisman.

But...no one could get any benefit from the two of them.

On the contrary, he felt more and more something was wrong.

"Somebody come!"

The man immediately called his subordinates in.

"Master, what are your orders?" His subordinate stood in front of him respectfully and asked.

"Go and bring back the prescriptions I gave you and show them to me!" the man ordered to his subordinates.

Hearing this, the subordinate raised his head and glanced at the man in confusion.

He thought to himself, those prescriptions were all wrong, and they were of no use, so why did they still show them to the master?

Moreover, these prescriptions were not all given to him by his master. Doesn't the master himself know what is written on them?

However, even though he was thinking so, he still didn't dare to say anything. Fortunately, he was always cautious in doing things. Although the prescriptions were no longer useful, they were still kept and not lost.

"Yes, my subordinate will go get it right now." He responded, turned around and went out.

After a while, a stack of prescriptions was placed in front of the man, and when the man looked at the stack of prescriptions, his face could not be darker.

"Master, what's wrong with you?"

The subordinate looked at his master and had a bad feeling in his heart, but he couldn't tell what was going on.

The man who heard his words looked up at him with a dark face.

He really wanted to blame him. With so many prescriptions, didn't this idiot remind him not to give Lin Caisang any more fake prescriptions?

Chapter 3123 The prescription is out

But he still didn't say the words that came to his mouth, otherwise, he would be completely embarrassed.

In order for these prescriptions to appear realistic, he had to adulterate them all in order to deceive Lin Caisang and obtain the corpse-suppressing talisman.

But how could he know that he had lifted a rock by himself and smashed his own foot?

If these prescriptions are pieced together, a complete prescription can be put together.

Of course, the premise for piecing together this prescription is that Lin Caisang has such a powerful talent for refining medicine that he is not even comparable to the top alchemists on their continent.

"You should step back first."

He took a deep breath and ordered to his subordinates.

"Yes, Master." The subordinate responded and withdrew.

"call!"

After his subordinates left, the man let out a heavy breath.

Now he can only hope that Lin Caisang is not that powerful. Those prescriptions are in her hands and she will not be able to spell out a complete prescription. Otherwise...

Then he really didn't have anything in his hand that could threaten them into handing over the corpse-suppressing talisman.

...

Golden Pearl Space, in the Medicine Garden.

After studying many incorrect prescriptions for a long time, Lin Caisang finally pieced together a complete antidote.

"Zimo, Zimo, I figured it out. This is the medicine... ugh!"

Lin Caisang stood up and shouted to the side. Halfway through, she realized that she was in the Jinzhu Space and her husband was still outside.

However, she still couldn't hide the excitement in her eyes.

"Sister-in-law, has the prescription come out?"

Others were still there in the Jinzhu Space. When Sui Ziyu heard the sound, he was the first to rush over.

Behind her, there were many people, including Zhong You, Yin Baiqing and others. They couldn't help but be happy when they heard her words.

None of them are worried about the poison in Sui Zimo's body. I really wish that everyone had the most powerful talent for refining medicine.

It's okay now. Has the prescription finally been developed?

"You still have to rely on that person. He actually delivered the prescription to the master himself." Ding Rong said with a smile.

Otherwise, very lucky things would always happen to Lin Caisang and Sui Zimo. Just like this time, they were obviously threatened by someone, but they didn't expect that person to be like a stupid pig and take the prescription by themselves. It was delivered to Lin Caisang.

Maybe they haven't felt it yet, but they still have to tease Lin Caisang and the others a few times.

"Actually, I don't understand why that person is so stupid. He has done the same thing so many times and still thinks he is very smart and fools the master around?"

Ding Xu looked at everyone in confusion and whispered.

Everyone: "..."

After hearing his words, everyone fell silent.

Yes, if you do the same thing once, you may be deceived, but if you do it a few times, everyone will be able to sum up the experience, and you still do it.

Is that person really stupid, or are the people under him just too stupid?

Don't you know there is a saying that can be done once or twice, but not again?

"Master, will there be no mistakes in this prescription? Do you want to refine the antidote first and try the poison on the monster?" Zhong You suggested.

They couldn't use the medicine directly on Master. Of course, they had to find other living creatures to test it, so as to ensure safety.

Chapter 3124 Go to my house first?

When it came to refining medicine, Lin Caisang calmed down after being excited.

"Don't worry, there are many medicinal materials in this prescription, and you have to find them. It doesn't mean you can get them just because you have them." She said to everyone.

In fact, the key thing is these medicinal materials. She only knew the medicinal properties of many medicinal materials through the Golden Pearl Space, and had no idea where they would grow.

After all, she still didn't understand too much about this Thousand Fantasy Continent.

"Sister Sang Sang, why don't you tell us that while there is nothing to do these days, let's go outside and inquire about these medicinal materials." Yue Chushui, who has been in Jinzhu Space these days, suggested.

"Are you looking for it now? Isn't it too soon?"

Sui Ziyou glanced at Lin Caisang's belly. The most important thing now is her sister-in-law's belly. She should give birth to the baby first and then talk about other things, right?

The others also understood the meaning of Sui Ziyou's words and nodded.

"I'm not happy anymore."

Yue Chushui shook his head, he didn't think so.

"Sister Sangsang can figure out the prescription. It is very likely that that person will also think of this. We have to find those important medicinal materials first while that person is not on guard.

Otherwise, by the time that person reacts, we may not even be able to find the medicinal materials. "

"hiss!"

Hearing his reminder, others also took a breath.

Yes, this is really possible. There are many forces under that person, and it is very likely that they will take away those important medicinal materials before them.

The key is whether those medicinal materials are very rare. I am not afraid of ordinary medicinal materials, but I am afraid that those rare medicinal materials will not be found.

"Mother, what Chu Shui said is right. Let's go find him quickly. None of us have seen that person. If we go out to look for medicinal materials, that person will not be connected to you and the master for a while. If it takes some time, that person might react. "

Shi Jian said to Lin Caisang.

Hearing this, Lin Caisang thought for a moment and then raised his head.

"Ziyou, go and make a few copies of this prescription and distribute it to everyone. You can leave to find it together. Remember, don't use Sky City's power."

"Yes, sister-in-law."

Sui Ziyou took the prescription and went to copy it.

Several others gathered around and began to discuss how to find the medicinal materials. Yue Chushui had no intention of looking for them personally because he had shown his face outside.

But their Yue family also has this power, so it is still possible to inquire about the whereabouts of some medicinal materials.

"Let's go to the Yue family first. I'll ask someone to find out where these medicinal materials can be found." He suggested to them.

"That's not necessary."

Lin Caisang shook his head and said that there was no need to use the Yue family to inquire about medicinal materials.

"In Qianhuan Continent, no one is as familiar with this place as the people in Sky City. Let's ask the people in Sky City first," she said.

"Then go to my house first?"

Ding Rong's eyes lit up and he said.

After being in this golden bead space for so long, she finally has a place to be useful, right?

The Ding family is the natal family of the city lord's wife, and their influence should not be underestimated. It is always possible to inquire about some medicinal materials.

However, as soon as she spoke, she was denied by her own brother.

"no!"

"Why?"

She looked at Ding Xu and asked.

Chapter 3125 Let's go to Haibo Country

"Sister, although the Ding family is also powerful, in Sky City, the more powerful the family, the more likely they are to have that person's spy. Shouldn't the Ding family let them know less about their master?"

Ding Xu raised his eyes and looked at his own sister, reminding her.

The Ding family is not like an iron barrel. Otherwise, how could Mrs. Ding be like this.

"Yeah, I forgot about it."

After hearing his reminder, she remembered that she had known her good mother before, but she had also contacted Lu Tianfeng. It seemed that the Ding family could not go either.

"Then where can I go to find out? Maybe there is that person in the Yue family..."

"Sister Sangsang, why don't you go to Haibo Country?"

Before Ding Rong could finish what he said, Yue Chushui looked at Lin Caisang and suggested.

"If we talk about who has the best information in this Qianhuan Continent, I don't think it's the people in Sky City. It should be the Warcraft. And the leader of Haibo Kingdom, he should be the most well-informed."

Sister Sang Sang was kind to the leader of Haibo Kingdom before. The fat boy under his knees was born because of Sister Sang Sang's great kindness.

For such a great favor, the leader of Haibo Kingdom should show some respect and help them find out the whereabouts of these medicinal materials, right?

"Well, let's go to Haibo Country."

Lin Caisang thought for a while and nodded. Hai Boguo seemed to be the best choice.

Thinking about it, she went straight into Lian Xinmai and exchanged a few jade books. Anyway, her achievements were worth a lot now, not less than tens of thousands.

This jade book can be used to engrave books and store some things. The key is that it will not be snatched away by others.

After preparing some elixirs and food for everyone, and filling the jade books, she sent them away, including Yue Chushui.

Of course, Yue Chushui had gone through a lot of transformation before he left. It was probably impossible for Lin Changhong and the others to recognize him when they were standing in front of him.

...

When Sui Zimo and Liu Yuyang came back, they were really confused when they came to the Jinzhu Space and saw the empty place. Even the three slaves who were supposed to be there were not there.

"Sonny, where are they?"

Sui Zimo looked at his wife and asked.

"Oh, I was short of some medicinal materials, so I asked them to look for them outside." Lin Caisang said calmly.

But after hearing her words, Liu Yuyang's eyes lit up.

"Sang Sang, have you got the prescription yet?" If the prescription is really found, that would be great. The poison in Zimo's body has been detoxified, and they no longer have to be controlled by others.

"Um."

Lin Caisang grinned, smiled at Sui Zimo, and then looked at Liu Yuyang.

"I have never seen many of the medicinal ingredients in this prescription, so I asked everyone to go out and look for them together, so we can strike first while the person doesn't react."

"What kind of medicinal materials, let me see, or I can find them over there." Liu Yuyang asked immediately.

She is not just for nothing, there are also some rare medicinal materials, especially her family Sang Sang is an alchemist. Since they returned to Qianhuan Continent, she has ordered her people to secretly collect them. What about rare medicinal materials?

It can be regarded as preparation for the poison on Zimo.

As for Lu Tianlan, since he found out that his son was poisoned, he has also been secretly collecting medicinal materials. I guess he can have some, right?

Chapter 3126 The most important thing to pay attention to

"That's the recipe.

Lin Caisang handed one of the prescriptions in his arms to Liu Yuyang.

"Wait a minute, Zi Mo, you can also send a prescription to the city lord's mansion for father to see, but remember to tell him not to mention this matter to the Ding family. After all, there are many people in the Ding family who fish in troubled waters."

With that said, she added another prescription that was exactly the same and handed it to Sui Zimo's hand.

"I see."

Sui Zimo took the prescription and put it in his arms.

"Thank you for your hard work, Sonny."

"What's so hard about this?" Lin Caisang smiled.

If doing this is hard, what else is there for her to do?

"As long as I get this prescription and find the medicinal materials on it, I will really feel relaxed.

"wrong."

Liu Yuyang disagreed with his daughter's words.

"As long as you have this prescription in hand, the medicinal materials will be found sooner or later, and you no longer need to be afraid of other people," she said.

"Too."

Lin Caisang thought for a while and nodded.

Before, she was worried that there might be some shortcomings in this prescription.

However, since this prescription was confirmed by Jin Zhuling, it must be correct, and she had nothing to worry about.

"It's just these medicinal materials..."

"Sooner or later, you will find it. I took a look and found that there are three herbs in this prescription. I have them there. I will send a message to them to send them. As for the others, I will ask people to inquire about them secretly.

Liu Yuyang said.

"That's good." Lin Caisang was really relieved.

"Sang'er, don't think about these things now. Your body is the most important thing to pay attention to." Sui Zimo helped her sit aside.

"Mother-in-law, wait a minute and pick two maids to come in to serve Sonny. There is no one around her. How can I rest assured?" He turned to look at Liu Yuyang and said.

"Yes, this is necessary." Liu Yuyang nodded immediately.

"You child, how can you let everyone out? At least one or two can be left, but others can't. Ding Xu and Yin Baiqing are still young after all, so they can't stay here to take care of you. ?"

Although Ding Xu and Yin Baiqing are still young and can't handle things well outside, they are still good at taking care of others. Wouldn't it be nice to let them stay in the Jinzhu Space.

There was not a single one left, they were all sent away.

"I'm in a hurry, and I have you and Zimo here, so you can't take care of me. It's troublesome for them to stay here. It's better to let them find medicinal materials."

Lin Caisang smiled and replied.

Turning her head, she looked at Sui Zimo and explained where those people had gone.

"We first went to Haibo Country. In the territory of Warcraft, it should be best to inquire about medicinal materials. Moreover, everyone was given a piece of jade book, and every medicinal material was recorded on it. Even if you don't know the name, you can see You can tell by looking at it."

"good."

Sui Zimo responded helplessly.

"Then I won't go out these days and will take care of you in the space."

"Uh-huh."

Lin Caisang naturally nodded.

"Wait a moment after you deliver the prescription to the City Lord's Mansion, then come back and take care of me."

"What should I send to the City Lord's Mansion? Just give it to your father directly and let him deliver it."
Liu Yuyang said.

"That's fine."

Lin Caisang responded and did not object.

Anyway, it was the most appropriate thing for her father to go to the city lord's mansion, so let him do it.

...

A few more days passed.

Chapter 3127 Is it a good idea?

Both the City Lord's Mansion and the Lin Family were very calm, which made people wonder.

"hateful!"

The man sat at the head and cursed at his subordinates.

Regarding the prescription, he had already noticed that something was wrong, but there was nothing he could do about it. He thought that Lin Caisang did not have the ability to find the correct prescription among so many kinds of medicinal materials.

He could still breathe a sigh of relief.

But he couldn't relax at all when it came to the corpse-suppressing talisman. After all, that was what he wanted most.

Whether in Qianhuan Continent or on a higher continent, with the corpse-suppressing talisman in his hand, everyone else has to bow to him. Even his brother can't get any benefits from him. .

However, in the past few days, Lin Caisang and Sui Zimo seemed to have disappeared and never appeared again.

This really made him itch with hatred. He couldn't bear to destroy the Lin family directly and find those two people. It's a pity that he can't really do it now, otherwise, this corpse-suppressing talisman...

"Can you think of a way for me to get the Corpse Suppressing Talisman?"

He looked at his subordinates who were kneeling on the ground and asked coldly.

Hearing this, subordinates, look at me and I look at you, who dares to talk nonsense?

What to think of? Not even their master has a good idea, let alone them. If those two people are here, they can think of a way.

But the key point is that they can't find those two people at all now. How can they find a way to deal with them?

"Master, how about if we arrest all the relatives of those two people, will they show up? By then, even if they don't want to hand over the corpse-suppressing talisman, they will have to hand it over."

After a long while, one of his subordinates finally spoke and suggested to the man.

man:"....."

Arrest all the relatives of Sui Zimo and Lin Caisang?

One is the young city lord in the palace of the lord of Sky City, and his relatives are Lu Tianlan and his wife. How to arrest him?

And the other one is not far behind. Lin Baizhong and Liu Yuyang are equally difficult to deal with. Which of his subordinates can be their opponent?

Is it possible that he should be asked to go to the Desolate Continent and capture those two people's unworthy relatives to the Qianhuan Continent?

But according to the weak bodies of those people, they are already dead before they reach Qianhuan Continent. What's the use if they can't be caught? Maybe those two people knew that he had attacked their relatives and had to increase their hatred. Then it would be even more difficult for him to deal with those two people.

"Is this a good idea? Huh?" he asked coldly.

"Well."

The subordinate choked hard, lowered his head immediately and stopped talking.

Is it a good idea? It's just an idea. They really don't know what to do.

"Master, otherwise, we take advantage of the time when Lin is picking mulberries to give birth and steal her child. The children of those two people are in your hands. Are you still afraid that they won't hand over the corpse-suppressing talisman?"

Another subordinate saw his companion eating turtle and continued to suggest.

This is also a way, right? Who in this world would be willing to give up their own children? By that time, even the most precious things will be taken out, right?

Hearing this, the man glanced at him coldly.

It's not like he hasn't thought of this method to get Sui Zimo and Lin Caisang's children.

Chapter 3128 No, take it immediately!

However, firstly, Lin Caisang has not given birth and the child has not yet landed; secondly, even if the child falls, it is not certain whether he can hold it in his hands.

Now they can't find Lin Caisang. He is worried that this woman will hide somewhere and wait for the child to fall to the ground before coming out.

In that case, all his previous attempts to kill one of the mother and son would be in vain.

Not to mention bringing Lin Caisang's child to him.

"This is a good idea, but who is going to do this? Huh?" he asked them.

"Well!"

When those subordinates heard what he said, they didn't dare to speak.

Who will do it?

This is no longer a question of who should do it, but a question of who can find Lin Caisang. How can they find Lin Caisang's child if no one can find him.

They are not stupid, don't they know that whoever takes on this matter will definitely be unlucky in the end?

Maybe he will be killed by his master because of his failure in doing things.

"Master, I think you should find Lin Caisang first before you can do anything else." Another subordinate hurriedly said to his master for his own sake.

Hearing this, the man took a deep breath.

How could he not know that he had to find Lin Caisang first? At this time, it might be useless to rely on the poison Sui Zimo had received.

But Lin Caisang's belly allows him to do a lot of things.

But this Lin Caisang is so good at hiding that he can't be found. It seems that this woman is still hiding in her magic weapon.

However, how could the master Lin Caisang be brought into this magical weapon on the Thousand Illusion Continent?

What kind of magical weapon is this? Is it not a magical weapon, but a divine weapon?

Maybe so.

"You should immediately keep an eye on the City Lord's Mansion and the Lin Family. If Lin Caisang is seen, come and report immediately... No, take it down immediately!" He ordered his subordinates.

"Yes, Master."

The subordinates responded and left quickly.

They don't want to be by their master's side for a moment. Who knows if the next sentence they say poorly will result in death?

As for staring at the City Lord's Mansion and the Lin family, although they are capable of this, they still don't have the ability to capture Lin Caisang immediately when he appears.

Isn't the master afraid that they will fail, and will he alert others?

Of course, this is not what they should remind their master. If they offend their master, it will be their fault.

...

City Lord's Mansion.

When Lu Tianlan and the city lord's wife saw this prescription, their faces were filled with joy.

"Finally, we finally have a prescription, Baizhong, this prescription... what Sangsang said, is it correct? There won't be any more mistakes, right?" the city lord's wife asked Lin Baizhong.

Although she was also excited, she was inevitably worried. What if something went wrong?

It's not that she didn't believe in Lin Caisang's medical skills. When she was not pregnant, so many alchemists couldn't tell, and Lin Caisang was not the only one to see it.

She had absolute trust in the medical skills of Lin Caisang, her daughter-in-law.

But no matter how trusting he is, the person who was poisoned is her son, so she will inevitably be worried.

"Madam, what are you talking about? How can we not believe in Sangsang's ability?"

Chapter 3129 Rotten to the core

Before Lin Baizhong said anything, he heard Lu Tianlan's disapproving voice and glared at his wife.

This prescription was written by Lin Baizhong's precious daughter herself. Even if she had doubts in her heart, she couldn't ask Lin Baizhong. Don't forget, Lin Caisang was remembered by Lin Baizhong, his father, who even lost his memory. Where's the baby girl?

Of course, he also had some doubts in his heart, but naturally he wouldn't ask questions that shouldn't be said.

"this....."

The wife of the city lord felt a little embarrassed when her husband-in-law glared at her like this, and looked at Lin Baizhong in embarrassment.

"Baizhong, that's not what I meant. It's just that the person who was poisoned was Zimo. In my heart..."

"I can understand that.

Lin Baizhong nodded, saying that he didn't think much about it.

When he saw this prescription, he also had such doubts in his heart. After all, this prescription had not been verified.

"We have discussed that this prescription should be correct, but regardless of whether it is correct or not, when the antidote is refined, it will be tested with Warcraft first to ensure safety."

"Okay, okay, that's good, then I'll feel relieved."

The city lord's wife let out a sigh of relief, raised her hand and patted her chest.

He reached out, took the prescription from his husband's hand, and looked at it carefully.

"City Lord, Baizhong, I remember that the Ding family has this locorea, er stone, and marrow dragon bone. When the time comes, I will discuss it with my mother, and she will probably give it to me."

She said to the two of them.

"What Sangsang and Zimo mean is not to talk to the Ding family about this prescription now." Lin Baizhong said in a deep voice.

"I know this."

The city lord's wife glanced at Lin Baizhong and said.

Lu Tianlan once mentioned to her that she trusted her parents' family too much, which, I have to say, was indeed not good.

To say that the Ding family is not a piece of iron, let alone an iron plate, it cannot even be called a wooden board. Over the years, Mrs. Ding has been rotten to the core.

Fortunately, Mrs. Ding's cancer has been eliminated. Although she is still in Dingkong, she has been taken care of and cannot cause any big troubles.

But for all the things Mrs. Ding has done in the Ding family over the years, whether it's the guards or the servants and maids, there are so many spies that even they themselves can't count.

How could she tell the Ding family about something as important as her son's detoxification?

Even if it was her mother, she would not dare to tell her. What if there was someone beside her mother? This is not impossible.

"When you have all the ingredients in the prescription, I will go to Ding's house to ask for these three ingredients," she said.

"good."

Lin Baizhong nodded.

"I can find the others, but this Saint Son Blue Flower, I'm afraid..."

Lu Tianlan looked at the medicinal materials in the prescription. The others might be found by searching outside, but this Blue Flower of the Holy Son is the secret poison of the Zi Yan Kingdom.

"Don't worry about the Holy Son Blue Flower. Although it is the main medicinal ingredient, it is available at Sangsang. We mainly prepare the other medicinal ingredients."

Back then, they had emptied the imperial mausoleum of the Ziyan Kingdom. There were still blue flowers of the Holy Son. As for the other ones, it depends on how they found them.

People have been spread out, let's see what they can find.

Chapter 3130 Murder

"But I'm not too anxious. The poison on Zimo's body can be controlled now. The main reason is that I'm afraid that if we confront that person later, there may be something in that person's body that triggers the poison. Then we will respond accordingly. There's no rush.

"yes."

Lu Tianlan sighed quietly and nodded.

Until now, they have only seen the true face of that person and don't know who that person is.

"Now let's get all the medicinal materials together. After Sangsang gives birth to the child, it won't be too late to detoxify Zimo. Everything must be done one by one." The city lord's wife also said.

"Tian Lan, leave the matter of finding the medicinal materials to me. You and Baizhong... before there is any major incident in the City Lord's Mansion, why not practice more so that you can deal with that person by then? , make an extra effort."

"It's natural."

I don't know how many people are around that person, and it will be a tough battle by then.

They have to be prepared at all times, but there are not many people in the city lord's palace. The former elders will also be there when the time comes, which makes them feel relieved.

"I hope the former elders can arrive earlier." Lu Tianlan said.

Hearing this, the city lord's wife looked at him speechlessly.

"Tian Lan, instead of thinking about when the previous elders will arrive, you should think more about whether the current old ones will make any noise at that time.

Those old things were really getting worse and worse. She was getting upset just looking at them, not to mention Lu Tianlan, the city lord, who was afraid they would give them even more headaches.

"Those old things..."

When mentioning those elders, Lu Tianlan's expression turned very bad.

"Those elders, don't worry. If they really cause trouble at that time, let them stop it." Lin Baizhong didn't care about those elders.

"Huh? Baizhong, what do you mean?"

Is it possible that we can directly kill those elders?

That is of course impossible. The elder is an elder after all. If he disappears directly, it will have an impact on Sky City.

Otherwise, based on what those old guys have done over the years, he would have killed them early.

"Don't think too much about it. Killing people should not be done casually." Lin Baizhong saw through his inner thoughts at a glance and spoke calmly.

"I brought a poison from Sangsang. After taking it, they can lose their spiritual power for a long time. At least they can stay calm for a while."

Hearing this, Lu Tianlan raised his eyebrows.

"Is there such a good thing? Then if we also put this kind of poison on that person, wouldn't it be..."

"City Lord, you think too much."

The city lord's wife couldn't help but remind him that this matter was not as simple as they thought.

"Well."

Lu Tianlan was choked by her and was speechless.

Yes, they couldn't even get close to that person, so how could they poison him? What's more, if the poison was really that effective, wouldn't Zimo and Sangsang have poisoned him early?

Why wait until now?

"I'm overthinking it, but I can really try it when the time comes. Even if it doesn't make that person lose his spiritual power, I can still scare him with this poison."

he said.

"Ah."

Lin Baizhong chuckled.

"Let's talk about what happens then. Moreover, once the poison powder is sprinkled, it will fall in batches and will not distinguish between ourselves and the enemy. If you can't use it, try not to use it."
