

## Star of Space 33

Chapter 33 A self-contained 'kingdom'

Golden Pearl Space— —

Looking at the green mountains and green waters in front of him, the shady trees, the small waterfalls flowing down from the mountains in the distance, and the 'fairy mountains' suspended in mid-air, Lin Caisang was dumbfounded by the unfamiliar environment. .

"This is...the Golden Pearl Space?"

Isn't it?

What I saw before was obviously not like this. The space that was like a set of porcelain dolls and could not even be walked out, and the almost self-contained 'country' in front of me were completely different concepts.

One sky, one earth!

"Did I go to the wrong place? Or...am I dreaming?"

He stretched out his hand and couldn't help but pinch his cheek. His teeth were split in pain, and then he realized clearly that it was not a dream, it was real!

"But this place..."

Why did it change all of a sudden? When she came in in the afternoon, it was not like this fairyland environment. Why did it change in the blink of an eye? How did he change?

"this....."

She turned around in front, back, left, and right, and suddenly saw a huge jade stone, like a mirror, standing not far away.

The jade stone was so big that it was as tall as the two of her, and even wider. The jade surface was smooth and flawless, making Lin Caisang's reflection clearly visible. The only flaw was that the reflection was of a fat girl, which made her mood suddenly plummet. !

She stepped over and raised her hand to touch it. Little did she know that her outstretched hand went directly through the jade surface, and circles like water ripples appeared all around where her fat hand could touch it. 69shux.Com

The next moment, Lin Caisang turned his head to the right and saw a white jade shelf on his right side with a stack of thick books on it.

Books are not made of current paper, but are made of thin jade pieces connected together, so they look very thick and tall.

"Golden Pearl Order."

She picked up the jade book on the top and opened it to take a look. She secretly let out a sigh of relief.

"Fortunately, it's not some incomprehensible words. Otherwise, it knows me, but I don't know it."

She shrugged and chuckled. She was about to find a stool to sit on and slowly read a jade book, but she saw a jade stool that was also milky white beside her.

There had been precedents where jade mirrors could not be touched. She tried it first to make sure it was the real thing before sitting down.

After a long time, he rubbed the bridge of his nose and closed his sour eyes.

She finally understood that the reason why Jinzhu Space became what it is now was not because she planted a tree in the space, but because she saved a person outside.

This golden bead space is the most precious treasure of the Lin family, and the Lin family is known to the world for its medical skills.

Therefore, the golden bead space is also related to medical skills. Only when the medical skills of the owner of the golden bead are recognized by the golden bead itself can the golden bead space be truly opened.

And she saved Ya Molian. Although she did not completely detoxify him, she relieved his pain in the end, and she could be regarded as a doctor. Therefore, the Golden Pearl Space was truly opened.

Moreover, you don't know it until you look at the Golden Pearl Order, and she realizes that those 'fairy mountains', those green mountains and green waters, and the land surrounded by fairy mist, are not something she can use now.

Because she had to rely on her own medical skills to treat illnesses and save people in order to open the seals in places she couldn't reach.

And this treatment of illness and saving people is not just about curing anyone's disease. She can count which person's life is saved. Everything depends on the jade mirror next to her.
